What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of ONE Sustainable Fund, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the Management Company may decide to close this product under certain circumstances.

OBJECTIVES

The objective of the Sub-Fund is to achieve long-term capital growth while giving due consideration to capital security, environmental and social criteria.

The Sub-Fund is actively managed. The benchmark index of the Sub-Fund is MSCI World Net Total Return EUR Index. It is mentioned only for performance comparison purposes and the Sub-Fund does not track the index. The Sub-Fund can deviate significantly or entirely from the benchmark index.

The Sub-Fund will have an exposure to any type of equity and equity related security issued by companies operating in technologies associated with environmental themes and considered to present investment opportunities that are likely to yield superior investment returns in the medium to long term.

The Sub-Fund invests in various themes whereby each theme is linked to one or more important environmental and economic challenges, examples being climate change, use of natural resources, preservation of biodiversity and demographic trends.

The Sub-Fund's investment focus includes corporations that are engaged in the following industry groups: renewable energy, energy efficiency, ecological materials, environmental chemistry and biology, environmental advisory, sustainable mobility, waste management, water management.

The Sub-Fund will mainly invest:

- directly in the securities mentioned in the previous paragraph; and/or
- in undertakings for collective investment (UCIs) having as main objective to invest or grant an exposure to the above-mentioned securities; and/or
- in any transferable securities (such as structured products) linked or offering an exposure to the performance of the above-mentioned securities.

The choice of investments will neither be limited by geographical area (including emerging markets), nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency.

The Sub-Fund is managed to promote, among other characteristics, a combination of environmental and social characteristics within the meaning of article 8 of SFDR, but does not have a Sustainable Investment (as defined in the prospectus) objective.

The companies in which the Sub-Fund invests will follow good governance practices. The Investment Manager monitors the good governance practices of the investee companies via the governance ratings.

The Investment Manager integrates Sustainability Risks and opportunities into its research, analysis and investment decision-making processes.

The characteristics promoted by the Sub-Fund consist of investing in companies having a positive impact on the environment that is derived directly from their operational activity.

The remaining assets can be invested in any other type of eligible assets, such as equities other than those above mentioned, any type of debt securities, money market instruments, cash.

For hedging and for investment purposes, the Sub-Fund may use all types of financial derivative instruments traded on a regulated market and/or over the counter.

If the investment manager considers this to be in the best interest of the shareholders, the Sub-Fund may also, hold, up to 100% of its net assets, liquidities as among others cash deposits, money market UCIs and money market instruments.

This Class is cumulative. Dividend distributions are not planned.

What are the risks and what could I get in return?

Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if your cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested

Investment of EUR 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 163	EUR 1,253
Annual cost impact (*)	1.6%	1.6%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.2% before costs and 10.6% after costs.
