

# Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## MIROVA GLOBAL SUSTAINABLE EQUITY FUND is a sub-fund of MIROVA FUNDS (the "SICAV").

M/D (EUR) ISIN LU0914729370

Natixis Investment Managers International, part of the BPCE Group, is the Management Company of the Fund.

### OBJECTIVES AND INVESTMENT POLICY

The Sub-Fund has a sustainable investment objective which is to allocate the capital towards sustainable economic models with environmental and/or social benefits by investing in companies which qualify as a sustainable investment and whose economic activity contributes positively to or does not significantly harm the achievement of one or more of the UN Sustainable Development Goals (SDGs) and/or reduces the risk of not achieving one or more of the UN SDGs, while ensuring that the portfolio companies follow good governance practices. The Sub-Fund will seek to invest in companies, listed on stock exchanges worldwide, while systematically including Environmental, Social and Governance ("ESG") considerations, with financial performance measured against the MSCI World Net Dividends Reinvested Index over the recommended minimum investment period of 5 years. The MSCI World Dividend Net Reinvested Index is representative of global equity markets.

The Sub-Fund is actively managed. For indicative purposes only, the Sub-Fund's performance may be compared to the Benchmark. However, it does not aim to replicate that Benchmark and may therefore significantly deviate from it.

The Investment policy of the Sub-Fund is to invest in world equity securities of companies who are developing products or services to respond to key sustainable issues. It mainly invests in the following key sustainable themes: energy, mobility, building and cities, management of natural resources, consumption, healthcare, information technology and finance.

The implemented Socially Responsible Investment ("SRI") approach mainly combines systematic ESG thematic and "Best-In-Universe" approaches, complemented by sectoral exclusion and commitment approaches. The ESG approach of the Investment Manager is to prioritize investment in issuers contributing to the achievement of the UN SDGs and has therefore defined proprietary ESG analysis methodologies suited to each category of issuers which aims to assess the social and environmental impacts of each company in relation to the UN SDGs. It involves notably the evaluation of each company in respect of the following non-financial criteria: **Environmental criteria** (environmental impacts of energy generation, environmental design and recycling), **Social criteria** (employee health and safety practices, rights and working conditions within the supply chain) and **Governance criteria** (alignment of the company's governance with long-term vision, balance of the distribution of value, business ethics). The selected securities will all have been analysed and given an ESG rating by the Investment Manager. This SRI approach results in a rating upgrade compared to the average rating of the investable universe after eliminating at least 20% of the worst-rated securities. The analysis is largely based on qualitative and quantitative data provided by the companies themselves and is therefore dependent on the quality of this information. Although constantly improving, ESG reporting by companies is still very heterogeneous. Please refer to the section "Description of the extra-financial analysis and consideration of the ESG criteria" of the Prospectus for additional information on the ESG considerations.

The Sub-Fund may invest at least 80% of its net assets in global equity securities and up to 10% of its net asset in money market and cash instruments. The Sub-Fund may invest up to 25% of its assets in Emerging Markets.

The Sub-Fund may use derivatives for hedging and efficient portfolio management purposes.

Income earned by the Sub-Fund is distributed.

Shareholders may redeem Shares on demand on any business day in Luxembourg at 11h30.
