## What is this product?

### TYPE OF PRODUCT

The product is a Sub-Fund of TARENO FUNDS, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

### TERM

The Sub-Fund is established for an unlimited duration. However, the board may also propose to dissolve a Compartment at a General Meeting of that Compartment.

### OBJECTIVES

The objective of the Sub-Fund is to offer investors a broadly diversified investment vehicle with a fixed target allocation among equities, bonds and real assets, including real estate, precious metals and other natural resources. The Sub-Fund follows a diversified investment approach, investing in a range of asset classes, selected on the basis of expected return, expected volatility and historical correlation with other asset classes. The Sub-Fund does not guarantee the achievement of its objective.

The Sub-Fund is actively managed. The Sub-Fund has no benchmark index and is not managed in reference to a benchmark index.

The Sub-Fund invests its assets through UCITS and other undertakings for collective investment (UCIs) on the global capital markets while considering following thresholds:

- minimum 50% of its net assets are invested in equity funds, with broad diversification by geographic region (continent), level of economic development (developed vs. emerging markets), company size (large cap vs. small cap), company valuation (blend vs. value), and companies exploiting natural resources (e.g. agriculture, energy, real estate);
- minimum 20% of its net assets are invested in bond funds with broad diversification by duration (short-term vs. long-term), credit risk (investment grade vs. high-yield), geographic region, issuer type (corporate and sovereign) and currency;
- minimum 10% of its net assets are invested in structured products - among others are invested in structured products - among others exchange-traded commodities involving gold and other precious metals in accordance with Article 41 (1) a-d) of the UCI Act and Article 2 of the Grand Ducal Regulation of 8 February 2008 as well as point 17 of the CESR/07-044b guidelines, provided that these products do not contain embedded derivatives and do not involve physical delivery of the underlying metal.

In accordance with the German Investment Tax Act (GITA), the Sub-Fund invests permanently at least 25% of its net assets in equities.

The Sub-Fund may hold, on an ancillary basis and in the limits laid down in Schedule 1, liquidities as among others cash deposits, money market UCIs and money market instruments. If the Investment Manager considers this to be in the best interest of the Shareholders, the Sub-Fund may also hold, on a temporary basis, up to 100% of its net assets, in liquidities defined above.

For efficient asset management and/or hedging purposes, the Sub-Fund may also use financial derivative instruments and other techniques or instruments.

This Class is cumulative. Dividend distributions are not planned.

### INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

### OTHER INFORMATION

The Depositary is Pictet & Cie (Europe) S.A..

The net asset value per share is available on [www.fundsquare.net](http://www.fundsquare.net), at the registered office of the Fund and from the Management Company.

## What are the risks and what could I get in return?

### Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if your cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment		5 years EUR 10,000		
		If you exit after 1 year	If you exit after 5 years	
<b>Scenarios</b>				
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>

## What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

FundPartner Solutions (Europe) S.A. is not making any payment to you in relation to this Sub-Fund and you would still be paid in case of a default from FundPartner Solutions (Europe) S.A..

The Sub-Fund's assets are held with Pictet & Cie (Europe) S.A. and are segregated from the assets of other Sub-Funds of the Fund. The assets of the Sub-Fund cannot be used to pay the debts of other Sub-Funds.

## What are the costs?

**The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.**

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested

Investment of EUR 10,000	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	EUR 184	EUR 1,128
<b>Annual cost impact (*)</b>	1.8%	1.8%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.1% before costs and 4.3% after costs.
