You are advised to read it so you can make an informed decision about whether to invest.

Carmignac Portfolio Long-Short European Equities

Unit F GBP Acc Hdq (ISIN: LU0992627454)
a sub-fund of the Carmignac Portfolio SICAV

Carmignac Gestion Luxembourg is the management company of this UCITS.

Objectives and investment policy

The key features of the sub-fund are as follows:

- The sub-fund aims to outperform its reference indicator using an active, discretionary management, mostly on equity markets but also on fixed income and foreign exchange markets, based on how the portfolio manager expects economic and market conditions to evolve.
- This Sub-Fund is an actively managed UCITS. The investment manager has discretion over the composition of its portfolio, subject to the stated investment objectives and policy. The Sub-Fund's investment universe is totally independent from the indicator. The Sub-Fund's investment strategy is not dependent on the indicator; therefore, the Sub-Fund's holdings and the weightings may substantially deviate from the composition of the indicator. There is no limit set on the level of such deviation. The reference indicator is comprised of 85% ESTER capitalised (EUR) and 15% Stoxx Europe 600 NR (EUR) calculated with net dividends reinvested. It is rebalanced each quarter.
- The sub-fund implements a long/short strategy consisting in building up a portfolio of both long and short positions on financial instruments eligible to the sub-fund's net assets. At least 50% of the sub-fund's net assets are invested in equities of small, mid and large capitalisation companies from the European Union, Switzerland, Iceland and Norway, while the remainder may be invested in equities of issuer from outside the European Economic Area. The fund can invest up to 10% of the net assets in bonds with a rating below investment grade.
- In addition to these long positions, the sub-fund may take short positions on underlying assets eligible to the sub-fund either (i) to implement relative value strategies, looking to take advantage of the relative value between different instruments, or (ii) if such underlying assets are considered overvalued. The resulting net exposure to equities may vary from -20% up to 50% of the net assets of the sub-fund.
- Up to 25% of the fund's net assets is exposed to foreign exchange risk through the purchase of securities denominated in currencies other than those of the European Union, Iceland and Norway.
- Up to 50% of the Sub-Fund's net assets may also be invested in debt securities and money

market instruments traded on European or foreign markets.

Other information:

- The sub-fund uses derivatives for hedging or arbitrage purposes, or to expose the portfolio to the following risks (directly or via indices): currencies, bonds, equities (all categories of capitalisation), ETFs, dividends, volatility, variance (the latter two categories for up to 10% of net assets) and commodities (up to 20% of assets). The derivatives available are options (vanilla, barrier, binary), futures and forwards, swaps (including performance) and CFDs (contracts for difference) on one or more underlyings.
- The decision to buy, hold or sell debt securities will not automatically and solely depend on their rating but also an internal analysis based mainly on return, credit rating, liquidity and maturity criteria.
- Up to 10% of the net assets may be invested in contingent convertible bonds ("CoCos"). CoCos are regulated subordinated debt instruments that are complex, but consistent in nature. Please refer to the prospectus for more information.
- This unit class is hedged: hedged against currency risk.
- The sub-fund may invest up to 10% of its net assets in units or shares of investment funds.
- This sub-fund may not be suitable for investors planning to withdraw their investment within three years.
- Investments may be redeemed each business day on request. Subscription and redemption requests are centralised on each NAV calculation and publication day before 15:00 CET/CEST and are executed on the next business day using the previous day's NAV.
- This unit is an accumulation unit.

Risk and reward profile

This indicator represents the annual historical volatility of the sub-fund over a 5-year period. Its aim is to help investors understand the uncertainty attached to gains and losses that may have an impact on their investment.

- Historical data used to calculate this indicator may not be a reliable indication of the future risk profile of the sub-fund.
- The risk category of this sub-fund is not guaranteed and may change over time.
- Category 1 does not mean the investment is risk-free.
- This sub-fund is placed in category 4 owing to its exposure to the equity markets and interest rate, credit and currency risks.
- The sub-fund's capital is not guaranteed.

Risks to which the sub-fund may be exposed and which could lead to a fall in the net asset value to which the indicator gives too little consideration:

- Counterparty risk: the sub-fund may suffer losses if a counterparty defaults and is unable to meet its contractual obligations, especially in the case of derivatives traded OTC.
- For more information on risks, please refer to the prospectus of the sub-fund.

Charges

The charges paid are used to cover the costs of running the sub-fund, including the costs of marketing and distributing units. These charges reduce the potential growth of the investment.
