General information

Pictet TR (the "SICAV") publishes an annual report, including audited financial statements, within four months of the end of the financial year and an unaudited semi-annual report within two months of the end of the reference period.

These reports are available to shareholders at the SICAV's registered office and from the Depositary Bank and foreign agents involved in marketing the SICAV abroad.

The net asset value per share of each sub-fund and the issue and redemption price are available from the Depositary Bank and foreign agents involved in marketing the SICAV abroad.

Any amendments to the articles of incorporation will be published in the *Recueil Electronique des Sociétés et Associations* ("RESA").

The SICAV's business year commences on January 1 and ends on December 31.

A detailed schedule of changes in the securities portfolios for all the sub-funds for the period ended June 30, 2023, is available free of charge upon request at the registered office of the SICAV and from the representative in each country in which the SICAV is authorised for distribution.

1. Marketing / Distribution in and from Switzerland

Representative

The Swiss representative is Pictet Asset Management SA, 60, route des Acacias, CH-1211 Geneva 73.

Paying agent

The paying agent in Switzerland is Banque Pictet & Cie SA, with registered office at 60, route des Acacias, CH-1211 Geneva 73.

Place of distribution of reference documents

The full prospectus, the Key Information Documents ("KIDs"), the articles of incorporation, the detailed schedule of changes in the securities portfolios for the period under review and the annual report, including the audited financial statements and unaudited semi-annual reports may be obtained free of charge from the representative.

Publications

Information regarding foreign collective investments is published on Swiss Fund Data AG (www.swissfunddata.ch).

The subscription and redemption prices of every share class, as well as the net asset value followed by the note "excluding fees", are published at the time of each subscription and redemption of shares. The prices are published each business day on Swiss Fund Data AG (www.swissfunddata.ch).

Payment of trailer fees and rebates

1. The Management Company and its representatives may pay trailer fees as payment for distributing SICAV shares in Switzerland or from Switzerland. This payment can cover the following services:
 - Implementation of processes for subscribing and holding or acting as Depositary Bank for shares;
 - Storage and distribution of marketing and legal documents;
 - Sending or provision of publications and notices;
 - Analysis and fulfilment of due diligence obligations in areas such as money laundering, knowing the client and distribution restrictions;
 - Provision of information and answers to investors' specific questions;
 - Production of fund analysis material;
 - Centralised investor relationship management;
 - Training of client advisers on collective investment schemes;
 - Selection, appointment and monitoring of sub-distributors.

Distribution abroad (continued)

Trailer fees are not considered to be rebates, even if they are fully or partially repaid to investors. The beneficiaries of trailer fees undertake to ensure transparent publication and provide free and spontaneous information to investors on the payment they may receive for distribution. On request, beneficiaries provide information on the amounts actually received for the distribution of collective investment schemes to investors.

2. The Management Company and its representatives may pay rebates directly to investors, upon request, under the scope of distribution in Switzerland or from Switzerland. The rebates will serve to reduce the fees or costs borne by the investors concerned. Rebates are permitted subject to the following points:
 - they are paid from the fees of the Management Company and are therefore not deducted from the assets of the SICAV;
 - they are granted on the basis of objective criteria;
 - they are granted with the same timing conditions and to the same extent to all investors fulfilling the objective criteria and requesting rebates.

Rebates are granted by the Management Company on the basis of one or more of the following objective criteria:

- Applicable regulatory requirements;
- The investment volume for a share class, in a fund or in a product range of the Pictet group;
- The percentage that the investment volume represents with respect to the size of the SICAV or the share class in question;
- The amount of fees incurred;
- The investment date and/or the expected investment horizon;
- Support in the SICAV launch phase.

The quantitative criteria may be considered to be met by the total investments held by investors using the same investment adviser.

The Management Company provides information related to rebates free of charge on request from the investor.

Place of execution and jurisdiction

The place of execution and jurisdiction is the registered office of the representative of the SICAV's shares distributed in or from Switzerland.

2. Additional information for investors in Germany

Facilities for Investors:

Deutsche Bank AG
Taunusanlage 12
60325 Frankfurt am Main

Redemption and switch requests may be submitted to the German Facilities for Investors.

At the request of shareholders, redemption proceeds, any dividend distributions and other payments may be paid to them via the German Facilities for Investors.

The latest prospectus, the KI(I)D, the Articles of Incorporation of the SICAV and the annual report, including audited financial statements and unaudited semi-annual reports are available free of charge from the Facilities for Investors in Germany. The issue, redemption and switch of the shares and all other notices to shareholders are also available from the Facilities for Investors in Germany.

Furthermore, the following documents are available free of charge for consultation at the offices of the Facilities for Investors in Germany:

- the management agreement concluded between the SICAV and the Management Company;
- the Depositary agreement concluded between BNP Paribas, Luxembourg Branch and the SICAV.

In addition, the issue and redemption prices are published on each trading day in the "Börsen-Zeitung". Any notices to shareholders are available free of charge at the German Facilities for Investors and investors in the shareholder register in Germany are notified thereof by mail. Furthermore, to the extent required by the German law and in particular in the event of the merger, conversion or suspension of redemption of shares and changes to the contractual terms that affect shareholder rights, notices are also published in the "Börsen-Zeitung".

3. Additional information for investors in Austria

Facilities for Investors:

Raiffeisen Bank International AG
Am Stadtpark 9
A-1030 Vienna

Applications for the redemption of shares of the SICAV may be sent to the Facilities for Investors in Austria which will arrange for the processing of the redemptions and the payment of redemption proceeds as well as other payments from the SICAV to Austrian shareholders, at their request, in collaboration with the SICAV and the Depositary Bank.

Distribution abroad (continued)

The latest version of the prospectus including the addendum for Austrian investors, the KI(I)D, the annual reports, including audited financial statements and unaudited semi-annual reports, the articles of incorporation of the SICAV as well as the subscription and redemption prices of the shares of the SICAV, may be obtained from the Facilities for Investors in Austria, where other available documents, if provided for that purpose, may also be consulted.

Rebates are granted by the Management Company on the basis of one or more of the following objective criteria.

The net asset values of the sub-funds and share classes published in Luxembourg shall also be published in Austria in the daily newspaper "Der Standard".

1. General

Pictet TR (the "SICAV") is an open-ended investment company (SICAV) incorporated under Luxembourg law in accordance with the provisions of Part I of the amended law dated December 17, 2010 (the "2010 Law") regarding undertakings for collective investment in transferable securities ("UCITS"). The SICAV was incorporated for an indefinite period on January 8, 2008 and its articles of incorporation were published in the *Mémorial C, Recueil des Sociétés et Associations* of the Grand Duchy of Luxembourg on February 19, 2008. They were last amended by notarial deed dated on December 19, 2018 and published in the *Recueil Electronique des Sociétés et Associations du Grand Duché de Luxembourg* on January 21, 2019.

The SICAV is registered in the Luxembourg Trade and Companies Register under No. B135664.

Pictet Asset Management (Europe) S.A., a limited company (*société anonyme*) with registered office at 6B, rue du Fort Niedergruenewald, L-2226 Luxembourg, was appointed management company of the SICAV as of January 8, 2008. It is a management company within the meaning of chapter 15 of the 2010 Law.

At all times, the SICAV's capital will be equal to the net asset value ("NAV") and will not fall below the minimum capital of EUR 1,250,000.

Sub-funds in activity

As at June 30, 2023, the SICAV includes the following sub-funds:

Pictet TR - Corto Europe	denominated in Euro (EUR)
Pictet TR - Mandarin	denominated in US Dollar (USD)
Pictet TR - Diversified Alpha	denominated in Euro (EUR)
Pictet TR - Agora	denominated in Euro (EUR)
Pictet TR - Atlas	denominated in Euro (EUR)
Pictet TR - Sirius	denominated in US Dollar (USD)
Pictet TR - Atlas Titan	denominated in Euro (EUR)
Pictet TR - Lotus	denominated in Euro (EUR)

Significant events and material changes

A new prospectus came into force in January 2023.

Due to the wish of the largest investor of the sub-fund Pictet TR - Aquila, the Board of Directors of the SICAV decided to put the sub-fund into liquidation with an effective date as of June 16, 2023.

Share classes

Classes of shares offered to investors are presented in the annexes of the prospectus of the SICAV.

The minimum initial investment for shares issued in a currency other than the sub-fund's consolidation currency is the minimum initial investment amount applicable to the concerned shares converted on the NAV calculation date into the applicable currency for the class.

Investors choose the sub-class of shares to which they wish to subscribe, bearing in mind that, unless otherwise restricted in Annex 1 of the current prospectus, any investor meeting the access conditions of a particular sub-class of shares may request conversion of his or her shares to shares of the sub-class.

Similarly, if an investor no longer meets the access conditions of the sub-class of shares he or she holds, the Board of Directors of the SICAV reserves the right to ask that shareholder to convert his or her shares to shares of another sub-class.

2. Summary of significant accounting principles

General

The financial statements are prepared in accordance with generally accepted accounting principles and presented in accordance with the legal reporting requirements applicable in Luxembourg relating to UCITS.

Formation expenses

Formation expenses were amortised over a maximum period of five years.

Conversion of foreign currencies

Cash at banks, other net assets and the market value of the investment portfolio expressed in currencies other than the currency of the sub-fund are converted into the currency of the sub-fund at the exchange rate prevailing at the closing date.

Income and expenses expressed in currencies other than the base currency of the sub-fund are converted into the currency of the sub-fund at the exchange rate applicable on the transaction date.

The net realised gain/loss on foreign exchange is recorded in the statement of operations and changes in net assets.

Combined financial statements of the SICAV

The combined financial statements of the SICAV are expressed in EUR and correspond to the sum of items in the financial statements of each sub-fund, converted into EUR at the exchange rate prevailing at the closing date.

Valuation of assets of each sub-fund

Securities listed on an official stock exchange or on another regulated market are valued using the last known price unless this price is not representative.

Securities not listed or not on a regulated market or securities listed but whose last known price is not representative, are valued on the basis of the probable selling price, estimated prudently and in good faith by the Board of Directors of the SICAV.

The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, dividends and interest declared or accrued and not yet obtained, is constituted by the nominal value of the assets, unless it appears unlikely that this amount is obtained, in which case the value is determined after deducting the amount that the Board of Directors of the SICAV deems appropriate to reflect the true value of these assets.

Interests on call deposits are included in the statement of net assets in the caption "Bank deposits".

Money market instruments are valued using the amortised cost method at their nominal value plus any accrued interest or the "mark-to-market" method. When the market value is different to the amortised cost, the money market instruments are valued using the mark-to market method.

Securities expressed in a currency other than that of the reference sub-fund are converted to the currency of that sub-fund at the applicable exchange rate as at June 30, 2023.

The value of companies that are not admitted for listing on an official or regulated market may be determined using a valuation method proposed in good faith by the Board of Directors of the SICAV based on the last audited annual financial statements available, and/or on the basis of recent events that may have an impact on the value of the security in question and/or on any other available valuation. The choice of method and of the medium allowing the valuation depends on the estimated relevance of the available data. The value may be corrected according to any unaudited periodic financial statements available. If the Board of Directors of the SICAV deems that the price is not representative of the probable selling value of such a security, it estimates the value prudently and in good faith on the basis of the probable selling price.

Valuation of forward foreign exchange contracts

The net unrealised gain or loss resulting from outstanding forward foreign exchange contracts are determined on the valuation day on the basis of forward exchange prices applicable on this date and are included in the statement of net assets.

Valuation of forward and options contracts

The value of forward contracts (future contracts and Contracts For Difference ("CFD")) and options contracts traded on a regulated market or a securities exchange is based on the closing or settlement prices published by the regulated market or securities exchange that as a general rule constitutes the principal place for trading those contracts. If a forward contract or option contract cannot be liquidated on the valuation date of the net assets in question, the criteria for determining the liquidation value of the forward or option contract is set by the Board of Directors of the SICAV in a reasonable and equitable manner.

Forward contracts and option contracts that are not traded on a regulated market or on a securities exchange are valued at their liquidation value determined in accordance with the rules established in good faith by the Board of Directors of the SICAV and according to standard criteria for each type of contract.

The expected future flows, to be received and paid by the sub-fund pursuant to swaps, forward and options contracts, are valued at their updated values.

In circumstances where the interests of the SICAV and / or its shareholders so justify (including but not limited to avoidance of market timing practices or where the determination of the values on the basis of the criteria specified above is not possible or inadequate), the Board of Directors of the SICAV is authorised to adopt any other appropriate principles to calculate the fair values of the assets of the relevant sub-fund.

If there is no bad faith or obvious error, the valuation determined by the Administrative Agent is considered as final and will be binding on the sub-fund and/or class of shares and its shareholders.

Valuation of Credit Default Swaps ("CDS")

CDS are entered into on the basis of International Swaps and Derivatives Association ("ISDA") CDS standard model with first class financial institutions specialised in this type of transactions.

The parameters determining the valuation of CDS are: the recovery rate, the probability of default and the replacement spread. The replacement spread is the premium rate at which the CDS could be renegotiated.

The valuation of the CDS reflects the discounted present value of the protection represented by the CDS compared to the zero yield curve applicable to the underlying bond.

Valuation of Interest Rate Swaps ("IRS")

IRS expected future cash flows receivable and payable are valued at their present value. Various liquid swap curves are used as market data input.

Valuation of Total Return Swaps ("TRS")

TRS are valued on the basis of the difference between the price of their underlying on the valuation date and on the acquisition date.

Net realised gain/loss on sales of investments

The net realised gain or loss on sales of investments is calculated on an average cost basis. This information is disclosed in the Statement of Operations.

Net realised gain/loss on derivatives

- Contracts for Difference (CFD) are valued at their market value according to the closing price of the underlying securities on the valuation day. The valuation of a CFD reflects at all times the difference between the latest known price of the underlying security and the valuation that was taken into account when determining the transactions. Net realised gain or loss corresponds to the difference between the cost price and the price of the closing transaction received.
- For the calculation of net holdings by currency on financial instruments, the holdings are converted at the exchange rate prevailing at the period-end. Net realised gain or loss corresponds to the difference between the cost price and the price of the closing transaction received.
- The forward foreign exchange contracts represent obligations of purchase or the sale of foreign currency on the basis of future exchange rates determined at a fixed price at the time of conclusion of the contracts. The unexpired forward foreign exchange contracts are valued at the last "forward" rate available on the valuation dates or at the statement of net assets date and unrealised appreciation or depreciation are recorded.
- IRS / CDS / TRS contracts are valued at their last known closing price of their underlying. Net realised gain or loss corresponds to the amount fixed during closing transactions.

Acquisition cost of securities in portfolio

The cost of securities in acquisition denominated in currencies other than the base currency of the sub-fund is calculated at the exchange rate prevailing on the acquisition date.

Income

Dividends are recorded net of withholding tax at the ex-dividend date. Interest is recorded net on an accrual basis.

Transaction fees

The transaction fees represent the costs incurred by each sub-fund in connection with purchases and sales of investments.

Transaction fees include brokerage fees, bank commissions, foreign tax, depositary fees and other fees. They are included in the statement of operations and changes in net assets and cover the financial period ended June 30, 2023.

3. "Taxe d'abonnement"

The SICAV is subject to Luxembourg tax legislation.

The SICAV is not subject to taxation in Luxembourg on its income, profits, or gains.

The SICAV is subject to a subscription tax (*taxe d'abonnement*) levied at the rate of 0.05% per annum based on its net asset value at the end of the relevant quarter, calculated and paid quarterly. This subscription tax will however be reduced to 0.01% for sub-funds or classes of shares reserved to Institutional Investors with meaning of Article 174(2) of the 2010 Law. A subscription tax exemption is applicable to the portion of any sub-funds' assets invested in other Luxembourg investment funds subject to the subscription tax.

4. Management fees, service fees, depositary fees and director fees

Annual service fees and management fees are levied on the average NAV of each sub-fund, and respectively on the sub-classes of shares, *prorata* to their net assets, are paid quarterly or monthly, depending on the terms and conditions of the contract, to the Management Company in payment for the services provided by it to the SICAV. The management fees enable the Management Company to remunerate the Investment Managers, Investment Advisers and distributors, if applicable. The service fees enable the Management Company to remunerate FundPartner Solutions (Europe) S.A. for the functions of transfer, registrar and paying agent and BNP Paribas, Luxembourg Branch for the function of administrative agent. In payment for its custodial services, the Depositary Bank charges a fee for the deposit of assets and the safekeeping of securities.

The performance fee is calculated on the basis of the NAV per share after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.

The High Water Mark is defined as the greater of the following two figures:

- The last highest NAV per Share on which a performance fee has been paid and;
- The initial NAV per share.

A detail of the performance fees calculation appears in the current prospectus.

The performance fees for the period ended June 30, 2023 amount to:

6. Other fees payable

As at June 30, 2023, the other fees payable include mainly service fees, depositary fees and audit fees.

7. Subscriptions and redemptions

Subscriptions

The issue price for shares in each sub-fund (or sub-class of shares) is equal to the NAV of each share (or each sub-class of shares) in the sub-fund in question, calculated on a forward pricing basis at the relevant valuation day.

This price may be increased by fees paid to financial intermediaries, which will not exceed 5.00% of the NAV per share for the sub-fund in question and will be paid to financial intermediaries and/or distributors involved in the distribution of the SICAV's shares. Front- and back-end load for intermediaries will vary according to the sub-class of share, as described in the "Classes of shares" section of the current prospectus. This issue price will be increased to cover any duties, taxes and stamp duties due.

The Board of Directors of the SICAV is authorised to apply corrections of the NAV as discussed in the section "Swing Pricing Mechanism/Spread" of the prospectus. The swing pricing/spread may be cumulative with the "Dilution Levy" described below.

Under certain circumstances, the Board of Directors of the SICAV is entitled to charge a "Dilution Levy" on the issue price, of up to 2.00% of the NAV per share. In all cases, the actual Dilution Levy charged on each valuation day will apply identically to all shares issued on that valuation day. The Dilution Levy is calculated with reference to particular market effects.

Redemptions

The redemption price for shares (or sub-class of shares) of each sub-fund is equal to the NAV of each share (or each sub-class of shares) in the sub-fund in question, calculated on a forward pricing basis at the relevant valuation day.

A commission paid to financial intermediaries and/or distributors may be deducted from this amount, representing up to 3.00% of the NAV per share. Front- and back-end load for intermediaries will vary according to the sub-class of share, as described in the "Classes of shares" section of the current prospectus. The redemption price will also be reduced to cover any duties, taxes and stamp duties to be paid.

The Board of Directors of the SICAV is authorised to apply corrections of the NAV as discussed in the section "Swing Pricing/Spread".

Under certain circumstances, the Board of Directors of the SICAV is entitled to charge a "Dilution Levy" on the redemption price, representing up to 2.00% of the NAV. In all cases, the actual Dilution Levy charged on each valuation day will apply identically to all shares redeemed on that valuation day.

8. Swing Pricing and Dilution Levy

Swing Pricing

A swing pricing mechanism has been put in place in order to protect the existing shareholders, at the time of subscriptions and/or redemptions received for a given Valuation Day. As a general principle, investors entering or shareholders exiting generally bear the costs incurred by trading activity. These costs estimated at a flat rate or effective value may be invoiced separately or by adjusting the net asset value of a concerned sub-fund or Class of Shares either down or up.

The swing pricing mechanism may be applied across all sub-funds. The extent of the price adjustment is set by the Board of Directors of the SICAV. The amount of the adjustment may vary from sub-fund to sub-fund and will not exceed 2% as general principal of the original NAV per share. Exceptions are disclosed in the sub-fund annexes if case of.

Notes to the financial statements as at June 30, 2023 (continued)

For each sub-fund with a swing pricing mechanism, a pre-defined swing threshold has been defined set as a percentage of the sub-fund's net asset value ("NAV"). This pre defined swing threshold might be equal to 0% (the terminology "full swing" is then used) or different to 0% (the terminology "partial swing" is then used).

If for a given Valuation day:

- the net inflow into a sub-fund exceeds the pre-defined threshold, then the NAV per share will be swung up. The shareholders subscribing into the sub-fund will thus bear the costs incurred by the trading activities triggered by their subscriptions by paying a higher NAV.
- the net outflow into a sub-fund exceeds the pre-defined threshold, then the NAV per share will be swung down. The redeeming shareholders of the sub-fund will thus bear the costs incurred by the trading activities triggered by their redemptions by receiving a lower NAV.

The following sub-funds used the swing pricing mechanism during the period ended June 30, 2023:

For Information

Portfolio transactions are liable to generate expenses as well as a difference between the trading price and the valuation of investments or divestments. To protect the SICAV's existing Shareholders, at the time of subscriptions and/or redemptions received for a given Valuation Day, Shareholders entering or exiting generally bear the impacts of these negative effects. These costs (estimated at a flat rate or effective value) may be invoiced separately or by adjusting the net asset value of a concerned sub-fund or share class either down or up.

Notes to the financial statements as at June 30, 2023 (continued)

The Board of Directors of the SICAV may also decide to only apply this correction at a certain level of subscriptions and/or redemptions in a given sub-fund or share class. These procedures apply in an equitable manner to all Shareholders of a same sub-fund on the same Valuation Day. The specific method applied for each share class is the following: for all Classes of all sub-funds, unless otherwise specified in Annex 1 of the current prospectus, the swing methodology will be applied and therefore the net asset value will be adjusted. The effect of any such corrections with respect to the net asset value that would have been obtained without them may not exceed 2% unless otherwise specified in the Annex 1 of the current prospectus.

Dilution Levy

The prospectus allows to use dilution levy mechanism. During the period ended June 30, 2023, no dilution levy mechanism has been implemented.

9. Exchange rate

The following exchange rate was used for the conversion of the net assets of the sub-funds into EUR as at June 30, 2023:

1 EUR = 1.09100000 USD

10. Forward foreign exchange contracts

Forward foreign exchange contracts on identical currency pairs listed below are aggregated. Only the longest maturity date is shown.

13. Credit Default Swaps ("CDS")

A CDS is a bilateral financial agreement whereby a counterparty (the protection buyer) pays a premium for the commitment of the protection seller to pay a certain amount if the reference issuer experiences a credit risk as provided for by the agreement.

The protection buyer acquires the right to sell a specific bond issued by the reference issuer at its nominal value (or at another reference value or execution price) when a credit risk arises. Credit risk generally includes bankruptcy, insolvency, judicial settlement/compulsory liquidation, deferral or non-payment of outstanding debts.

17. Ukraine-Russia Conflict

The onset of conflict between Russia and Ukraine in February 2022 has impacted financial markets performance, further compounded by sanctions, dislocated markets and poor liquidity particularly around Russian and Ukraine securities.

The exposure to Russian assets as of February 25, 2022 was below 1% for the sub-funds Pictet TR - Diversified Alpha and Pictet TR - Sirius.

Russian assets within Pictet TR - Sirius were sold during the year ended December 31, 2022. As of June 30, 2023, only Pictet TR - Diversified Alpha remains exposed to Russian assets, which are valued at 0 by the Board of Directors of the SICAV.

The Management Company continue to monitor existing exposures to Russia, and the effects of the Ukraine / Russia conflict.

In the context of daily / weekly Valuation Committee and Risk Committee meetings in particular, decisions are made considering the current situation; these decisions are subject to regular adjustments due to changes in the overall assessment. Key considerations include, but are not limited to:

- Direct and indirect exposures, and spill-over effects likely to have a negative impact on sub-funds;
- Markets, and asset valuation;
- Portfolio Compliance considering capital restrictions and sanctions imposed as an outcome of the Russia / Ukraine conflict;
- Settlement risk: Regular escalation and interactions are made with the brokers, counterparties and custodians to mitigate it.

In light of the current situation in Ukraine / Russia, the Russian shares quoted on domestic stock exchange are still valued at zero due to the situation on markets, liquidity and sanctions amongst some considerations.

This may be subject to change as a result of the evolution of the current situation.

Notes to the financial statements as at June 30, 2023 (continued)

The Board of Directors of the SICAV is confident that the SICAV operations will continue as a going concern and is carefully following the current crisis.

18. Subsequent events

A new prospectus came into force in January 2023.

Total Expense Ratio ("TER")

Pursuant to the "Guidelines on the calculation and disclosure of the total expense ratio (TER) of collective investment schemes" of May 16, 2008 (version of August 5, 2021) of the Asset Management Association Switzerland ("AMAS"), the SICAV is obliged to publish a TER for the latest 12-month period.

The TER is defined as the ratio between the total operating expenses (operating charges primarily consist of management and investment advisory fees, depositary fees, bank charges and interest, service fees, performance fees, taxes and duties) and the relevant sub-fund's / share class' average NAV (calculated on the basis of the daily average of the total net assets for the relevant year) expressed in its reference currency.

Moreover, for the new share classes launched during the year, operating fees were annualised as stated in point 8 of the Guidelines (status August 5, 2021). The amounts were annualised whereas certain fixed costs were not split equally over the year.

For the period from July 1, 2022 to June 30, 2023, the TER was:

Performance

The performance per share class was calculated by comparing the net assets per share as at June 30, 2023 with the net assets per share as at December 31, 2022 in accordance with AMAS Guidelines.

For share classes that distributed a dividend, the dividend amount was reintegrated into the net assets as at June 30, 2023, in order to compute the performance including dividends.

The performance was calculated at the end of each financial year/period according to the "Guidelines on the calculation and publication of the performance data of collective investment schemes" of May 16, 2008 (version of August 5, 2021) of the AMAS.

The performance data do not take account of the commissions and costs incurred on the issue and redemption of shares.

As at June 30, 2023, performance were the following:
