<sup>\*</sup> As of 1 October 2024, UBS Fund Management (Luxembourg) S.A was renamed UBS Asset Management (Europe) S.A.

# Features of the Company

Global Opportunities Access (hereinafter called the "Company") offers investors a range of different subfunds ("umbrella structure") which invest in accordance with the investment policies described in the sales prospectus. The sales prospectus, which contains specific details on each subfund, will be updated on the inception of each new subfund.

The Company was incorporated on 10 January 2008 as an open-end investment fund in the legal form of a "Société d'Investissement à Capital Variable" (SICAV) in accordance with Part II Law of 2010. The Company is entered under no. B 135 728 in the Luxembourg Commercial Register.

The Company was converted from a UCI subject to Part II of the Law of 2010 to a UCI subject to Part I of the Law of 2010 with effect as of 17 April 2014. The Company is authorised under Part I of the Law of 2010, as amended.

The original articles of incorporation of the Company (the "Articles") were published in the "Mémorial, Recueil des Sociétés et Associations" (and together with the "Recueil Electronique des Sociétés et Associations" hereinafter referred to as the "Luxembourg Official Gazette"), on 16 February 2008. Each amendment to the Articles will be published in the Luxembourg Official Gazette, in a Luxembourg daily newspaper and, if necessary, in the official publications specified for the respective countries in which shares of the Company are sold. Such amendments become legally binding in respect of all shareholders subsequent to their approval by the general meeting of shareholders.

As at 31 July 2024, the following subfunds are active:

	Currency
Global Opportunities Access	of account
Global Opportunities Access – Balanced CHF	CHF
Global Opportunities Access – Balanced EUR	EUR
Global Opportunities Access – Corporate Bonds	USD
Global Opportunities Access – Corporate Bonds EUR	EUR
Global Opportunities Access – Global Bonds CHF	CHF
Global Opportunities Access – Global Bonds EUR	EUR
Global Opportunities Access – Global Bonds GBP	GBP
Global Opportunities Access – Global Bonds USD	USD
Global Opportunities Access – Global Equities	EUR
Global Opportunities Access – Global Equities II	EUR
Global Opportunities Access – High Yield and EM Bonds	USD
Global Opportunities Access – Key Multi-Manager Hedge Fund	EUR
Global Opportunities Access – Ocean Engagement	USD
Global Opportunities Access – Sustainable Bonds	USD
Global Opportunities Access – Sustainable Equities	USD
Global Opportunities Access – Yield CHF	CHF
Global Opportunities Access – Yield EUR	EUR

Various classes may be offered for the subfunds. Information on which share classes are available for which subfund can be obtained from the Administrative Agent.

#### "F"

Class F shares are reserved for (i) investors that have entered into a written discretionary management agreement with UBS; and (ii) UBS managed funds. No distributor is appointed for Class F shares. Class F shares no longer held by either

(i) investors bound by the terms of a written discretionary management agreement with UBS or (ii) by UBS managed funds, may be compulsorily redeemed at their then applicable net asset value or exchanged for another class of the subfund.

#### "K"

Class K shares are reserved for investors that (i) have entered into a written discretionary management agreement with UBS and that (ii) are in a particular client segment. Class K shares held by investors no longer bound by the terms of a written discretionary management agreement with UBS will be compulsorily redeemed at their then applicable net asset value or exchanged for another class of the subfund. No distributor is appointed for K classes.

#### "P"

Class P shares are reserved for investors that (i) have the shares held directly in a UBS account or (ii) are clients of UBS and have the shares held in an account pre-approved by the Management Company or (iii) as otherwise decided by the Management Company. Class P shares no longer held in a UBS account by investors may be compulsorily redeemed at their then applicable net asset value or exchanged for another class of the subfund.

#### "P-C"

Class P-C shares are exclusively reserved for investors who fulfil the criteria for Class P shares described above. Class P-C shares confer the right to an annual distribution. However, this distribution is not paid to the shareholder but is transferred in its entirety to the UBS Optimus Foundation. The UBS Optimus Foundation is a charitable, grant-making foundation established in 1999 in accordance with Swiss law and dedicated to improving the health and development of children in measurable, cost-effective and sustainable ways. Distributions for the Class P-C shares are paid in their entirety to the UBS Optimus Foundation which uses these for charitable purposes. The entire issuing commission for units in Class P-C shares is also paid to the UBS Optimus Foundation together with the total Flat Fee chargeable on the portion of the net assets attributable to Class P-C shares. Class P-C shares no longer held in a UBS account by investors may be compulsorily redeemed at their then applicable net asset value or exchanged for another class of the subfund.

#### "Q"

Class Q shares are reserved for investors that have entered into a written advisory agreement or agreements relating to investment fund saving schemes with UBS which specifically permits purchases of share classes with no retrocessions. Class Q shares held by investors no longer bound by the terms of such a written advisory agreement or agreements relating to investment fund saving schemes with UBS may be compulsorily redeemed at their then applicable net asset value or exchanged for another class of the subfund. In relation to Global Opportunities Access - Ocean Engagement, the agreements mentioned above may (at the discretion of the Management Company) be entered into with financial intermediaries other than UBS.

#### "O-C"

Class Q-C shares are exclusively reserved for investors who fulfil the criteria for Class Q shares described above. Class Q-C shares confer the right to an annual distribution. However, this distribution is not paid to the shareholder but is transferred in its entirety to the UBS Optimus Foundation. The UBS Optimus Foundation is a charitable, grant-making foundation established in 1999 in accordance with Swiss law and dedicated to improving the health and development of children in measurable, cost-effective and sustainable ways. Distributions for the Class Q-C shares are paid in their entirety to the UBS Optimus Foundation which uses these for charitable purposes. The entire issuing commission for units in Class Q-C shares is also paid to the UBS Optimus Foundation together with the total Flat Fee chargeable on the portion of the net assets attributable to Class Q-C shares. Class Q-C shares held by investors that are no longer bound by the terms of a written advisory agreement with UBS which specifically permits purchases of share classes with no retrocessions may be compulsorily redeemed at their then applicable net asset value or exchanged for another class of the subfund.

#### "O-10"

Class Q-10 Shares are exclusively reserved for investors that have entered into a written advisory agreement or agreements relating to investment fund saving schemes with UBS which specifically permits purchases of share classes with no retrocessions, with a minimum holding amount of USD 10 million or equivalent, subject to the discretion of the Management Company. Further subscriptions are prohibited in this share class, unless otherwise decided by the Management Company. Shares can be redeemed in accordance with the conditions for redemption of shares. Investments that no longer meet the above conditions may be forcibly redeemed at the prevailing net asset value or exchanged for another class of the subfund. The Company and the Management Company are not liable for any tax consequences that may result from a forcible redemption or exchange.

#### Initial issue price of shares

Unless otherwise decided by the Management Company, the initial issue price of shares of any class amounts to 100 AUD, 100 CAD, 100 CHF, 1,000 DKK, 100 EUR, 100 GBP, 1,000 HKD, 10,000 JPY, 1,000 NOK, 1,000 SEK, 100 SGD, 100 USD. Their smallest tradable unit is 0.001.

#### Additional characteristics of the share classes

#### "acc"

The income of share classes with "-acc" in their name is not distributed unless the Company decides otherwise.

#### "dist"

The income of share classes with "-dist" in their name is distributed unless the Company decides otherwise.

#### "qdist"

Share classes with "-qdist" in their name may make quarterly distributions, gross of fees and expenses. Distributions may also be made out of the capital (this may include, inter alia, realised and unrealised net gains in net asset value) ("capital").

Distributions out of capital result in the reduction of an investor's original capital invested in the share class. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund shares. Some investors may therefore prefer to subscribe to accumulating share classes (-acc) rather than distributing (-dist, -qdist) share classes. Investors may be taxed at a later point in time on income and capital gains arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Prospective investors should consult qualified experts for tax advice regarding their individual situation.

#### "mdist"

Share classes with "-dist" in their name may make monthly distributions, gross of fees and expenses. Distributions may also be made out of capital. Distributions out of capital result in the reduction of an investor's original capital invested in the share class. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund shares. Some investors may therefore prefer to invest in accumulating (-acc) rather than distributing (-dist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital gains arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Prospective investors should consult qualified experts for tax advice regarding their individual situation.

#### "UKdist"

Share classes may also include a reference to "-UKdist" in their name. In respect of each such share class which is labelled "-UKdist", it is intended that a sum corresponding to 100% of the reportable income within the meaning of the UK reporting fund rules be distributed to the relevant shareholders when the share classes are subject to the reporting fund rules. The Company does not intend to make available taxable values in other countries for any such share class and any share class labelled "-UKdist" is exclusively intended for investors whose investment in the share class is liable to tax in the UK.

#### "2%", "4%", "6%", "8%"

Share classes with "2%" / "4%" / "6%" / "8%" in their name may make monthly (-mdist), quarterly (-qdist) or annual (-dist) distributions at the respective aforementioned annual percentage rates, gross of fees and expenses. The distribution amount is calculated based on the net asset value of the respective share class at the end of the month (in the case of monthly distributions), financial quarter (in the case of quarterly distributions) or financial year (in the case of annual distributions). These share classes are suitable for investors seeking more stable distributions, unrelated to past or expected returns or income of the relevant share class. Distributions may also be made from the capital. Distributions out of capital result in the reduction of an investor's original capital invested in the share class. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share. Investors in certain

countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund shares. Some investors may therefore choose to invest in accumulating (-acc) rather than distributing (-dist, -qdist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital gains arising on accumulating (-acc) share classes compared with distributing (-dist, -qdist, -mdist) share classes. Prospective investors should consult qualified experts for tax advice regarding their individual situation.

#### "Seed"

Shares classes with "seed" in their name are only offered for a limited period of time. At the end of this period, no further subscriptions are permitted unless the Company decides otherwise. Shares can be re-deemed in accordance with the conditions for redemption of shares. Unless otherwise decided by the Company, the smallest tradeable unit, the initial issue price and the minimum holding amount shall correspond to the characteristics of the share classes listed above. Investments that no longer meet the above conditions may be forcibly redeemed at the prevailing net asset value or exchanged for another class of the subfund. The Company and the Management Company are not liable for any tax consequences that may result from a forcible redemption or exchange.

#### **Currency**

Each of the above share class may be denominated in the following reference currencies: AUD, CAD, CHF, DKK, EUR, GBP, HKD, JPY, NOK, SEK, SGD, USD. For share classes where the reference currency is part of the name of the relevant subfund, the respective currency will not be included in the share class name.

#### Hedging

Each of the above share class denominated in a currency other than the relevant subfund's currency of account may also be hedged, in which case, the relevant share class will include a reference to "-hedged" in its name. In relation to "-hedged" share classes, foreign exchange transactions and currency forwards are conducted in order to hedge the net asset value of the subfund, calculated in the subfund's currency of account, against the net asset values of the share classes denominated in other currencies. Provision is made for the amount of the hedging to be between 95% and 105% of the total net assets of the share class in foreign currency. Changes in the value of the hedged sections of the portfolio and the volume of subscription and redemption requests for shares not denominated in the currency of account may, however, result in the level of currency hedging temporarily surpassing the stated limits. The Investment Manager or relevant Portfolio Manager, as the case may be, will take all the necessary steps to bring the hedging back within the aforementioned limits.

The sum of the subfunds' net assets forms the total net assets of the Company, which at any time correspond to the share capital of the Company and consist of fully paid in and non-par-value shares (the "shares").

At general meetings, the shareholder has the right to one vote per whole share held, irrespective of the difference in value of shares in the respective subfund. Shares of a particular subfund or class carry the right of one vote per whole

share held when voting at meetings affecting this subfund or class

The Company is a single legal entity.

For the purpose of the relations as between the shareholders, each subfund is deemed to be a separate entity, separate from the others. The assets of a subfund are exclusively available to satisfy the requests of that subfund and the right of creditors whose claims have arisen in connection with that subfund.

The Board of Directors adheres to the ALFI Code of Conduct.

The Board of Directors of the Company is empowered to establish new subfunds and/or to liquidate existing ones at any time or to establish various share classes with specific characteristics within these subfunds. The current sales prospectus shall be updated following the establishing of a new subfund or new share class.

The Company is unlimited with regard to duration and total assets.

The financial year of the Company ends on 31 July.

The annual and semi-annual reports are prepared based on the information from the sales prospectus in force at the closing date of the report.

The ordinary general meeting takes place annually on 31 January at 11 a.m. at the registered office of the Company. If such a day does not fall on a business day in Luxembourg, the ordinary general meeting must take place on the next following working day.

Information on whether a subfund of the Company is listed on the Luxembourg Stock Exchange can be obtained from the Administrative Agent or the Luxembourg Stock Exchange website (www.bourse.lu).

Only the information contained in the sales prospectus and in any of the documents referred to therein shall be deemed to be valid.

The annual and semi-annual reports are available to share-holders at the registered office of the Company and of the Depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

\*\* The periodic disclosure at the date of the financial year end for this subfund is presented in the Appendix 5 of this annual report.

The periodic disclosure is the one referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852, and/or (if any), referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852.

# Portfolio Manager Report

Global Opportunities Access – Balanced CHF Global Opportunities Access – Balanced EUR Global Opportunities Access – Yield CHF Global Opportunities Access – Yield EUR

For portfolios holding both equities and bonds, performance over the reporting period (1 August 2023 – 31 July 2024) was broadly positive. From August 1 until the end of October 2023, the portfolio achieved a negative result that was more than offset in 2024. The positive result was driven by equities, as bonds continued to go through a challenging period.

Global equity markets declined in August, following a month of gains in July. Chief among market drivers was contradictory evidence of economic data, the outlook for Fed policy and underwhelming Chinese growth data. In fixed income, US high grade (government) and investment grade bonds, as well as emerging market bonds, lost money in August. High yield and euro-denominated bonds performed well. While equity valuations are elevated, developed market economic data have proven better than expected. We see opportunity in stocks, markets, and sectors that have lagged.

Global equities and high-quality bonds fell in tandem in September, as central banks signaled rates may have to stay higher for longer to bring inflation back to their targets. The third quarter was broadly negative for equity markets, with only the UK and Japan ending the quarter in positive territory. Globally, government bonds retreated while high yield debt delivered a positive performance. While market conditions remain choppy for both equities and fixed income, we expect cash, bonds, stocks, and alternatives to all deliver reasonable returns – both over the next six to 12 months, and over the longer term.

Global stocks and bonds both retreated in October, amid the outbreak of war in the Middle East, a mixed third-quarter earnings season, and continued concerns that US interest rates look likely to stay higher for longer. The 10-year U.S. Treasury yield hitting 5% for the first time in 16 years was the most significant market event in October, leading to negative performance especially for high quality bonds. But, despite a downbeat October, we believe the medium-term outlook for major asset classes remains positive, as earnings growth returns, the US economy is not heading for a recession, and inflationary pressures continue to subside.

Global equities and bonds both rallied strongly in November, as signs of cooling inflation reinforced expectations that rate cuts are on the way in the first half of next year. The MSCI All Country World Index returned 9.2%, the best monthly gain in three years – taking the gain for 2023 to 16.6%. The S&P 500 led the way, while also the Eurozone and emerging markets also gained ground. Optimism over cooling inflation and rate cuts expectations contributed to the best month for global bonds since 2008 and for US bonds since 1985.

In December, the rally in both stocks and bonds continued. This capped a year in which markets recovered from several setbacks, including a US banking crisis and rising geopolitical risks. Global stocks had their best year since 2019, lifted by optimism that the Federal Reserve will cut rates swiftly and

that innovations in artificial intelligence will increase earnings. Despite plenty of volatility in 2023, it was also a positive year for fixed income, with gains in everything from government bonds and investment grade credit to high yield.

Global equities built on last year's rally in January even though a Fed meeting signalling willingness to allow interest rates to rise took the wind out of equity markets on the final day of the month. The picture of healthy growth has been reinforced by recent indications of strong consumer sentiment and a resilient labor market. Economic releases continued to reassure investors that inflation is moderating, and interest rate decreases are likely on the way. Returns in fixed income were mixed after a strong 2023, when hopes for swift rate cuts from the Fed were building, and returns were modestly negative to mildly positive due to the continued uncertainty over the pace of easing.

The equity rally gathered speed in February – gains continued to be driven by optimism over the rapid commercialization of AI, and broad strength in fourth-quarter earnings. Still solid US consumer sentiment and a robust labor market have continued to strengthen the outlook for healthy growth. Markets remained confident that inflation will continue to fall, despite disappointing price data for January. Bond markets came under pressure amid greater caution over the expected pace of US Central Bank interest rate cuts.

Global stocks had the best first quarter in five years, amid optimism over the outlook for the US economy and hopes that Al will boost corporate profits. While all major markets gained ground in March, developed markets led the way. The Swiss National Bank became the first developed-nation central bank to ease policy and the Bank of Japan enacted its first-rate hike in 17 years. Markets lowered their expectations for the Federal Reserve's rate cuts from as much as six in January to three in March. This reflected data suggesting that the improvement in inflation stalled in the first two months of the year, contributing to a mixed quarter for government bonds.

Global stocks fell in April, reducing year-to-date total returns. Renewed enthusiasm about the outlook for Al could not wholly offset worries that rate cuts from the Fed could be further delayed. Investors also contended with heightened geopolitical risks following an exchange of attacks between Israel and Iran. However, equity sentiment did improve later in the month, after strong first quarter earnings announcements from several top US tech companies helped dispel concerns that the pace of Al growth may weaken. US Treasuries sold off in April. Investors became more cautious on the outlook for Fed rate cuts, after a third consecutive month of higher-than-expected US inflation. Only high yield indexes have delivered positive total returns so far this year.

Global equities delivered a strong performance in May as confidence mounted that the US economy is headed for a soft landing while tech companies continued to ramp up investments in artificial intelligence. Although the backdrop for equities remains supportive, we now see modest overall upside and focus on capital preservation strategies and selectivity. Positive news on US inflation helped fixed income markets recover from losses in April, when US Treasuries lost

momentum amid fears that rates would stay higher for longer. We expect quality bonds to perform as markets start to price a more convincing central bank rate-cutting cycle.

Global equities capped off a strong first half of 2024, with US stocks leading the advance, while in June the Eurozone was the worst performing major market amid political uncertainty in France. Artificial intelligence remained a major theme for markets, fueling the US stock rally while returns were boosted by further evidence that US inflation is moderating, paving the way for Fed rate cuts later this year. Improving inflation data also helped fixed income.

Global stocks gained ground in July, driven by strong earnings – especially in the United States – recovering from an earlier period of weakness. Equity market sentiment was also bolstered by signals from the Federal Reserve at its July policy meeting that interest rate cuts are imminent. Progress towards easier monetary policy around the world supported fixed income markets and contributed to positive returns for quality bonds

Overall, for the Global Opportunities Access Balanced and Yield strategies absolute performance was positive, but relative performance was negative; although Tactical Asset Allocation contribution was positive, instrument selection detracted. In Q3 2023, we closed our equity underweight versus bonds as the earnings outlook and the US growth picture improved. In H1 2024, we opened an EMU versus UK equities trade on the expectation of relatively positive earnings and economic momentum in the UK compared to EMU, this trade contributed positively. Additionally, we opened a trade in Global IT equities viewing earnings momentum in the IT sector as relatively positive compared to the rest of the market.

For portfolios holding both equities and bonds, performance over the reporting period (1 August 2023 – 31 July 2024) was broadly positive. From August 1 until the end of October 2023, the portfolio achieved a negative result that was more than offset in 2024. The positive result was driven by equities, as bonds continued to go through a challenging period.

Global equity markets declined in August, following a month of gains in July. Chief among market drivers was contradictory evidence of economic data, the outlook for Fed policy and underwhelming Chinese growth data. In fixed income, US high grade (government) and investment grade bonds, as well as emerging market bonds, lost money in August. High yield and euro-denominated bonds performed well. While equity valuations are elevated, developed market economic data have

proven better than expected. We see opportunity in stocks, markets, and sectors that have lagged.

Global equities and high-quality bonds fell in tandem in September, as central banks signaled rates may have to stay higher for longer to bring inflation back to their targets. The third quarter was broadly negative for equity markets, with only the UK and Japan ending the quarter in positive territory. Globally, government bonds retreated while high yield debt delivered a positive performance. While market conditions remain choppy for both equities and fixed income, we expect cash, bonds, stocks, and alternatives to all deliver reasonable returns – both over the next six to 12 months, and over the longer term.

Global stocks and bonds both retreated in October, amid the outbreak of war in the Middle East, a mixed third-quarter earnings season, and continued concerns that US interest rates look likely to stay higher for longer. The 10-year U.S. Treasury yield hitting 5% for the first time in 16 years was the most significant market event in October, leading to negative performance especially for high quality bonds. But, despite a downbeat October, we believe the medium-term outlook for major asset classes remains positive, as earnings growth returns, the US economy is not heading for a recession, and inflationary pressures continue to subside.

Global equities and bonds both rallied strongly in November, as signs of cooling inflation reinforced expectations that rate cuts are on the way in the first half of next year. The MSCI All Country World Index returned 9.2%, the best monthly gain in three years – taking the gain for 2023 to 16.6%. The S&P 500 led the way, while also the Eurozone and emerging markets also gained ground. Optimism over cooling inflation and rate cuts expectations contributed to the best month for global bonds since 2008 and for US bonds since 1985.

In December, the rally in both stocks and bonds continued. This capped a year in which markets recovered from several setbacks, including a US banking crisis and rising geopolitical risks. Global stocks had their best year since 2019, lifted by optimism that the Federal Reserve will cut rates swiftly and that innovations in artificial intelligence will increase earnings. Despite plenty of volatility in 2023, it was also a positive year for fixed income, with gains in everything from government bonds and investment grade credit to high yield.

Global equities built on last year's rally in January even though a Fed meeting signalling willingness to allow interest rates to rise took the wind out of equity markets on the final day of the month. The picture of healthy growth has been reinforced by recent indications of strong consumer sentiment and a resilient labor market. Economic releases continued to reassure investors that inflation is moderating, and interest rate decreases are likely on the way. Returns in fixed income were mixed after a strong 2023, when hopes for swift rate cuts from the Fed were building, and returns were modestly negative to mildly positive due to the continued uncertainty over the pace of easing.

The equity rally gathered speed in February – gains continued to be driven by optimism over the rapid commercialization of

Al, and broad strength in fourth-quarter earnings. Still solid US consumer sentiment and a robust labor market have continued to strengthen the outlook for healthy growth. Markets remained confident that inflation will continue to fall, despite disappointing price data for January. Bond markets came under pressure amid greater caution over the expected pace of US Central Bank interest rate cuts.

Global stocks had the best first quarter in five years, amid optimism over the outlook for the US economy and hopes that AI will boost corporate profits. While all major markets gained ground in March, developed markets led the way. The Swiss National Bank became the first developed-nation central bank to ease policy and the Bank of Japan enacted its first-rate hike in 17 years. Global stocks gained ground in July, driven by strong earnings – especially in the United States – recovering from an earlier period of weakness. Equity market sentiment was also bolstered by signals from the Federal Reserve at its July policy meeting that interest rate cuts are imminent. Progress towards easier monetary policy around the world supported fixed income markets and contributed to positive returns for quality bonds.

During this period, all strategies contributed positively. Equity Hedged strategies led the group, contributing almost half of the overall portfolio returns. This was closely followed by Relative Value strategies which contributed nearly 40% of the overall returns. Trading and Multi-Strategies contributed 20% and 10% of the product performance respectively. Equity Hedged strategies benefited from a buoyant equity market backdrop across the globe with returns coming from both beta and alpha components. Relative Value strategies took advantage of a healthy level of dispersions among asset classes and produced the highest alpha. Trading and Multi-Strategy managers were able to monetize from volatilities in interest rates, FX, commodities markets as well as special situations and event driven opportunities.

#### Global Opportunities Access - Ocean Engagement Fund

In August 2023 Global equity markets declined after a strong performance in July. The downturn was driven by mixed economic data, uncertainties surrounding Federal Reserve policy, and disappointing growth figures from China. Despite elevated equity valuations, developed market economic data exceeded expectations, presenting opportunities in lagging stocks, markets, and sectors.

In September both global equities and high-quality bonds fell as central banks signaled that interest rates might need to remain higher for longer to combat inflation. The third quarter ended negatively for most equity markets, with only the UK and Japan posting gains. Market conditions remained volatile, but there were expectations of reasonable returns from various asset classes over the next six to twelve months.

Global stocks retreated in October amid geopolitical tensions in the Middle East, a mixed third-quarter earnings season, and concerns over prolonged high US interest rates. The 10-year U.S. Treasury yield hitting 5% for the first time in 16 years was a significant event, negatively impacting high-quality bonds. Despite the downturn, the medium-term outlook for major asset classes remained positive.

Global equities rallied strongly in November as signs of cooling inflation reinforced expectations of rate cuts in the first half of the next year. The MSCI All Country World Index posted its best monthly gain in three years, driven by optimism over cooling inflation and anticipated rate cuts. The S&P 500 led the gains, with the Eurozone and emerging markets also performing well.

In December the rally in global stocks continued, capping a year of recovery from several setbacks, including a US banking crisis and rising geopolitical risks. Global stocks had their best year since 2019, buoyed by optimism over Federal Reserve rate cuts and innovations in artificial intelligence. Despite significant volatility, it was a positive year for fixed income as well.

In January 2024 global equities built on the previous year's rally, although a Federal Reserve meeting signaling potential interest rate rises dampened markets on the final day of the month. Strong consumer sentiment and a resilient labor market reinforced the outlook for healthy growth. Economic releases continued to reassure investors that inflation was moderating, and interest rate decreases were likely on the way.

The equity rally gained momentum in February, driven by optimism over the rapid commercialization of Al and strong fourth-quarter earnings. Solid US consumer sentiment and a robust labor market continued to strengthen the growth outlook. Markets remained confident that inflation would continue to fall, despite disappointing price data for January.

Global stocks had the best first quarter in five years, driven by optimism over the US economy and hopes that Al would boost corporate profits. Developed markets led the gains, with the Swiss National Bank easing policy and the Bank of Japan enacting its first-rate hike in 17 years. Expectations for Federal Reserve rate cuts were adjusted downward, reflecting stalled inflation improvement in the first two months of the year.

In April global equities fell, reducing year-to-date total returns. Renewed enthusiasm about Al could not wholly offset worries over delayed Federal Reserve rate cuts. Geopolitical risks, particularly between Israel and Iran, also weighed on markets. However, strong first-quarter earnings from top US tech companies helped improve sentiment later in the month.

Global equities delivered a strong performance in May as confidence grew that the US economy was headed for a soft landing, while tech companies continued to ramp up Al investments. Although the backdrop for equities remained supportive, the focus shifted to capital preservation strategies and selectivity. Positive news on US inflation helped fixed income markets recover from April losses.

Global equities capped off a strong first half of 2024, with US stocks leading the advance. The Eurozone was the worst-performing major market amid political uncertainty in France. Al continued to fuel the US stock rally, supported by moderating US inflation and anticipated Federal Reserve rate cuts. Improving inflation data also benefited fixed income.

In July 2024 global financial markets experienced a mixed performance. Equity markets showed resilience, with major indices posting modest gains despite ongoing uncertainties. The US stock market continued its upward trajectory, driven by strong corporate earnings and optimism surrounding potential Federal Reserve rate cuts. European equity markets also saw positive momentum, although gains were tempered by political uncertainties in the Eurozone. Japanese equities outperformed, benefiting from a weaker yen and strong export data, while Chinese markets faced headwinds due to underwhelming economic growth data and regulatory concerns.

We aim to capitalize on resilient demand drivers across the Consumer, Industrials, and Materials sectors linked to the blue economy. Given the differing read throughs across these markets, the strategy has strategically adjusted allocations at the margin, notably in grocery and shipping holdings. Consumers worldwide are grappling with local inflationary impacts and economic pressures, leading to weaker-than-expected spending at both the high-end and low-end of the consumer spectrum. Price exhaustion has created volume challenges for consumer brands. Our grocery holdings have experienced softening product inflation, negatively impacting comparisons, while also facing continued inflationary pressures from labor. However, we believe positive traffic should continue as consumers opt to eat at home.

Industrials markets continue to be mixed as evidenced by recent PMI releases and caution due to geopolitical shifts. Shipping rates have dramatically increased on a short-term basis given the conflict in the Red Sea, although new supply in those markets should translate to lower shipping rates in the medium to long-term, causing us to rethink our positioning in those companies. In the US, the Port of Baltimore was recently reopened following the collapse of the Francis

Scott Key Bridge. This incident highlighted deficiencies in both infrastructure and accountability within the shipping industry. We anticipate continued investment in the East Coast port infrastructure in the medium term, aligned with coastal resiliency and efficiency investments.

Materials markets encompass both consumer and industrial markets, and weakness in those markets translates into continued headwinds for companies in the sector. Softened regulatory dynamics and capacity oversupply in renewable fuel markets drove us to divest from Neste, which showed particular weakness.

#### Global Opportunities Access – Sustainable Bonds Global Opportunities Access – Sustainable Equities

For portfolios holding both equities and bonds, performance over the reporting period (1 August 2023 – 31 July 2024) was broadly positive. From August 1 until the end of October 2023, the portfolio achieved a negative result that was more than offset in 2024. The positive result was driven by equities, as bonds continued to go through a challenging period.

Global equity markets declined in August, following a month of gains in July. Chief among market drivers was contradictory evidence of economic data, the outlook for Fed policy and underwhelming Chinese growth data. In fixed income, US high grade (government) and investment grade bonds, as well as emerging market bonds, lost money in August. High yield and euro-denominated bonds performed well. Global stocks fell in April, reducing year-to-date total returns. Renewed enthusiasm about the outlook for Al could not wholly offset worries that rate cuts from the Fed could be further delayed. Investors also contended with heightened geopolitical risks following an exchange of attacks between Israel and Iran. However, equity sentiment did improve later in the month, after strong first quarter earnings announcements from several top US tech companies helped dispel concerns that the pace of Al growth may weaken. US Treasuries sold off

in April. Investors became more cautious on the outlook for Fed rate cuts, after a third consecutive month of higher-thanexpected US inflation. Only high yield indexes have delivered positive total returns so far this year.

Global equities delivered a strong performance in May as confidence mounted that the US economy is headed for a soft landing while tech companies continued to ramp up investments in artificial intelligence. Although the backdrop for equities remains supportive, we now see modest overall upside and focus on capital preservation strategies and selectivity. Positive news on US inflation helped fixed income markets recover from losses in April, when US Treasuries lost momentum amid fears that rates would stay higher for longer. We expect quality bonds to perform as markets start to price a more convincing central bank rate-cutting cycle.

Global equities capped off a strong first half of 2024, with US stocks leading the advance, while in June the Eurozone was the worst performing major market amid political uncertainty in France. Artificial intelligence remained a major theme for markets, fueling the US stock rally while returns were boosted by further evidence that US inflation is moderating, paving the way for Fed rate cuts later this year. Improving inflation data also helped fixed income.

Global stocks gained ground in July, driven by strong earnings – especially in the United States – recovering from an earlier period of weakness. Equity market sentiment was also bolstered by signals from the Federal Reserve at its July policy meeting that interest rate cuts are imminent. Progress towards easier monetary policy around the world supported fixed income markets and contributed to positive returns for quality bonds.

Developments within sustainable investing followed closely those of broader markets. ESG leaders equities dominated performance. The investment thesis around artificial intelligence (AI) as an enabler of sustainable solutions meant that these strategies could capitalize on investments in the large-cap segment of the Technology sector. Elsewhere, ESG thematic and engagement equities continued to be under pressure, given their fundamental exposure to small- and mid-cap companies, which are naturally disadvantaged in a high interest rates environment. Performance of thematic sustainable fixed income and multilateral development bank (MDB) bonds mimicked the developments in the Eurodenominated investment grade and the global high grade markets, with a small uptick. Green bonds have had broader spreads than global investment grade at approximately 100bps relative to 50bps, and the liquidity premium for MDB bonds over US Treasuries stood at 10-12bps in year-to-date at the end of Q2 2024. Flows into sustainable investing equity and bonds funds remained relatively flat, with total assets at USD 3.1bn at the end of Q2 2024, according to Morningstar data.

Overall, for the Global Opportunity Access funds (Sustainable Bonds and Sustainable Equities) Tactical Asset Allocation slightly dectracted while instrument selection was mainly flat. As 2023 progressed and Japanese yield curve control was gradually removed, we closed our JPY/USD FX position. As 2024 began, we closed our overweight in Value equities due to more benign inflation and the lack of sustaining drivers for the trade. Entering Q2 2024, we closed an overweight in Emerging Market ESG Leaders versus Global ESG Leaders equities with a loss, as the lagging macro improvement in Emerging Markets and rising US yields diminished the trade's attractiveness. Closing off the year, we also opened a trade in ESG Global IT equities.

Please note: The GOA funds (Sustainable Bonds and Sustainable Equities) should always be viewed as a group, since all the funds can be involved in implementing a particular CIO TAA strategy.

#### **Audit report**

To the Shareholders of **Global Opportunities Access** 

#### Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Global Opportunities Access (the "Fund") and of each of its sub-funds as at 31 July 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### What we have audited

The Fund's financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 31 July 2024;
- the statement of investments in securities and other net assets as at 31 July 2024;
- the combined statement of operations for the Fund and the statement of operations for each of the sub-funds for the year then ended;
- the combined statement of changes in net assets for the Fund and the statement of changes in net assets for each of the sub-funds for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

#### **Basis for opinion**

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

#### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

#### Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
  a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
  involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
  control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Fund's internal control;

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the
  disclosures, and whether the financial statements represent the underlying transactions and events
  in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

# Notes to the Financial Statements

# Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg.

The significant accounting policies are summarised as follows:

#### a) Calculation of the Net Asset Value

The net asset value per share of any share class is expressed in the reference currency of the share class concerned and calculated on every business day (the "Valuation Day"). In respect of the subfund Global Opportunities Access – Key Multi-Manager Hedge Fund, the Valuation Day is on each Wednesday of an even calendar week (except for the last even calendar week in each year consisting of 52 weeks) that is a business day, or, if such Wednesday is not a business day, on the next business day. The Net Asset Value per share is calculated by dividing the overall net assets of the subfund attributable to each share class by the number of shares issued in the particular share class of the subfund.

In this context, "business day" refers to the normal bank business days (i.e. each day on which banks are open during normal business hours) in Luxembourg, with the exception of individual, non-statutory rest days as well as days on which exchanges in the main countries in which a subfund invests are closed or 50% or more subfund investments cannot be adequately valued. "Non-statutory rest days" are days on which banks and financial institutions are closed.

The percentage of the Net Asset Value which is attributable to each respective share class of a subfund is determined by the ratio of the shares issued in each share class to the total number of shares in circulation in the subfund, and will change each time shares are in circulation or redeemed.

## b) Valuation principles

- Liquid assets whether in the form of cash, bank deposits, bills of exchange and demand notes and receivables, prepaid expenses, cash dividends and declared or accrued interest that has not yet been received are valued at their full value unless it is unlikely that this value will be fully paid or received, in which case their value is determined by taking into consideration a deduction that seems appropriate in order to represent their true value.
- Securities, derivatives and other investments listed on a stock exchange are valued at the last known market price.
   If the same security, derivative or other investment is quoted on several stock exchanges, the last available quotation on the stock exchange that represents the major market for this investment will apply.

In the case of securities, derivatives and other investments little traded on a stock exchange and for which a secondary market among securities traders exists with pricing in line with the market, the Company may value these securities, derivatives and other investments based on these prices. Securities, derivatives and other investments that are not listed on a stock exchange, but which are traded on another regulated market which is recognised, open to the public

- and operates in a due and orderly fashion, are valued at the last available price on this market.
- Securities, derivatives and other investments that are not listed on a stock exchange or traded on another regulated market, and for which no appropriate price can be obtained, will be valued by the Company according to other principles chosen by it in good faith on the basis of the likely sales prices.
- The valuation of derivatives, which are not listed on a stock exchange ("OTC derivatives"), takes place by reference to independent pricing sources. In case only one independent pricing source of a derivative is available, the plausibility of the valuation price obtained will be verified by means of methods of calculation recognised by the Company and the Auditor, based on the market value of the underlying instrument from which the derivative is derived.
- Shares of other undertakings for collective investment in transferable securities authorised under Directive 2009/65/ EC (the "UCITS Directive") ("UCITS") and/or other UCIS ("Other UCIs") will be valued at their last available net asset value. Certain units or shares of other UCITS or Other UCIs may be valued based on an estimate of their value provided by reliable service providers that are independent from the portfolio manager or the investment advisor of the target funds (price estimate).
- The value of money market instruments which are not listed on a stock exchange or traded on another regulated market open to the public is based on the appropriate curves. The valuation based on the curves refers to the interest rate and credit spread components. The following principles are applied in this process: for each money market instrument, the interest rates nearest the residual maturity are interpolated. The interest rate calculated in this way is converted into a market price by adding a credit spread that reflects the underlying borrower. This credit spread is adjusted if there is a significant change in the credit rating of the borrower.
- Securities and other investments that are denominated in a currency other than the currency of account of the relevant subfund and which are not hedged by means of currency transactions are valued at the middle currency rate (midway between the bid and offer rate) obtained from external price providers.
- Time deposits and fiduciary investments are valued at their nominal value plus accumulated interest.
- The value of swaps is calculated by an external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows. In some specific cases, internal calculations (based on models and market data made available from Bloomberg), and/or broker statement valuations may be used. The valuation methods depend on the respective security and are determined pursuant to the applicable UBS valuation policy.

In circumstances where the interests of the Company or its shareholders so justify (avoidance of market timing practices, for example), the Board of Directors may take any appropriate measures, such as applying a fair value pricing methodology to adjust the value of the Company's assets.

The Company is authorized to apply other generally recognized and auditable valuation criteria chosen in good faith in order to achieve an appropriate valuation of the Net Asset Value if, due to extraordinary circumstances, a valuation in accordance with the above-mentioned regulations proves to be unfeasible or inaccurate.

In the case of extraordinary circumstances, additional valuations, which will affect the prices of the shares to be subsequently issued or redeemed, may be carried out within one Valuation Day. In this case, only the last valuation is taken into consideration.

The actual costs of purchasing or selling assets and investments for a subfund may deviate from the latest available price or net asset value used, as appropriate, in calculating the net asset value per share due to duties and charges and spreads from buying and selling prices of the underlying investments. These costs have an adverse effect on the value of a subfund and are known as "dilution". To mitigate the effects of dilution, the Board of Directors may, at its discretion, make a dilution adjustment to the net asset value per share ("Swing Pricing").

Shares will in principle be issued and redeemed on the basis of a single price, i.e., the net asset value per share. However – to mitigate the effect of dilution – the net asset value per share will be adjusted on any valuation date in the manner set out below depending on whether or not a subfund is in a net subscription position or in a net redemption position on such valuation date. Where there is no dealing on a subfund or share class of a subfund on any valuation date, the applicable price will be the unadjusted net asset value per share. The Board of Directors retains the discretion in relation to the circumstances under which to make such a dilution adjustment. As a general rule, the requirement to make a dilution adjustment will depend upon the volume of subscriptions or redemptions of shares in the relevant subfund. The Board of Directors may make a dilution adjustment if, in its opinion, the existing shareholders (in case of subscriptions) or remaining shareholders (in case of redemptions) might otherwise be adversely affected. In particular, the dilution adjustment may be made where, for example but without limitation:

- (a) a subfund is in continual decline (i.e. is experiencing a net outflow of redemptions);
- (b) a subfund is experiencing large levels of net subscriptions relevant to its size;
- (c) a subfund is experiencing a net subscription position or a net redemption position on any valuation date; or
- (d) in any other case where the Board of Directors is of the opinion that the interests of shareholders require the imposition of a dilution adjustment.

The dilution adjustment will involve adding to, when the subfund is in a net subscription position, and deducting from, when the subfund is in a net redemption position, the net asset value per share such figure as the Board of Directors considers represents an appropriate figure to meet duties and charges and spreads. In particular, the net asset value per share of the relevant subfund will be adjusted (upwards or downwards) by an amount which reflects (i) the estimated fiscal charges, (ii) dealing costs that may be incurred by the subfund and (iii) the estimated bid/offer spread of the assets in which the subfund invests. As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, the resulting adjustment

may be different for net inflows than for net outflows. Adjustments will however generally be limited to a maximum of 2% of the then applicable net asset value per share. The Board of Directors may decide, in respect of any subfund and/or valuation date, to apply on a temporary basis a dilution adjustment greater than 2% of the then applicable net asset value per share in exceptional circumstances (e.g. high market volatility and/or illiquidity, exceptional market conditions, market disruptions, etc.) where the Board of Directors can justify that this is representative of prevailing market conditions and that this is in the best interests of shareholders. Such dilution adjustment is calculated in conformity with the procedures established by the Board of Directors. Shareholders shall be notified at the introduction of the temporary measures as well as at the end of the temporary measures via the usual communication channels.

The net asset value of each share class in the subfund will be calculated separately but any dilution adjustment will in percentage terms affect the net asset value of each share class in an identical manner. The dilution adjustment will be applied on the capital activity at the level of the subfund and will not address the specific circumstances of each individual investor transaction.

For all subfunds the Swing Pricing methodology is applied.

If there were Swing Pricing adjustments to the net asset value at the end of the financial year, this can be seen from the three year comparison of the net asset value information of the subfunds. The issue and redemption price per share represents the adjusted net asset value.

When applicable, the swing pricing income is disclosed under the caption "Other income" in the statement of operations.

# c) Net realized gains (losses) on sales of securities The realized gains or losses on the sales of securities are calcu-

The realized gains or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

# d) Valuation of forward foreign exchange contracts

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date.

### e) Valuation of financial futures contracts

Financial futures contracts are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

## f) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities held denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates at payment date. Gain or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate on the day of acquisition.

#### g) Valuation on options

Outstanding options traded on a regulated market are valued on the settlement price or the last available market price of the instruments. Options which are not listed on an official stock exchange (OTC options) are marked to market based upon daily prices obtained from Bloomberg option pricer functionality and checked against third party pricing agents.

The realized gains or losses on options and the change in unrealized appreciation or depreciation on options are disclosed in the statement of operations and in the changes in net assets respectively under the positions realized gains (losses) on options and Unrealized appreciation (depreciation) on options.

#### h) Accounting of securities' portfolio transactions

The securities' portfolio transactions are accounted for the bank business day following the transaction dates.

#### i) Combined financial statements

The combined financial statements are expressed in EUR. The various items of the combined statement of net assets, the combined statement of operations and combined statement of changes in net assets as of 31 July 2024 are equal to the sum of the corresponding items in the financial statements of each subfund.

The following exchange rates were used for the conversion of the combined financial statements as of 31 July 2024:

#### Exchange rates

EUR	1	=	CHF	0.952519	
EUR	1	=	GBP	0.842462	
EUR	1	=	USD	1.082100	

## j) Receivable on securities sales, Payable on securities purchases

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

## k) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

# Note 2 – Flat fee

Each subfund and each class of shares within each subfund will bear a maximum flat fee (the "Maximum Flat Fee") calculated on the average net assets attributable to this share class and at the maximum rate p.a. as listed below and paid quarterly:

Global Opportunities Access	Maximum flat fee	Effective flat fee

<sup>\*</sup> For the period 19 April 2024 until 31 July 2024

In accordance with the table above, the Flat Fee covers the following fees, costs and expenses of the Company, each subfund and class:

- fees, costs and expenses of the Depositary;
- fees, costs and expenses of the Administrative Agent;
- fees, costs and expenses of the Management Company;
- fees, costs and expenses of the Investment Manager;
- fees, costs and expenses of the Portfolio Manager and any delegate(s) of the Portfolio Manager;

 fees, costs and expenses in relation to distribution activities relating to the shares of the Company (including the costs and fees incurred in maintaining registration of the Company in foreign countries with competent authorities).

Operation and administration expenses of the Company

In addition to the fees, costs and expenses covered by the Flat Fee, the Company bears all expenses which are operational and administrative expenses, which will include but not be limited to:

- all taxes which may be due on the assets and the income of the Company (including the applicable subscription tax);
- any custody charges of banks and financial institutions to whom custody of assets of the Company is entrusted;
- usual banking fees due on transactions involving securities or other assets (including derivatives) held in the portfolio of the Company (such fees to be included in the acquisition price and to be deducted from the selling price);
- the fees, expenses and all reasonable out-of-pocket expenses properly incurred by the Company;
- legal fees and expenses incurred by the Company or the Management Company while acting in the interests of the shareholders (including, for the avoidance of doubt, any legal fees and expenses relating to any re-structuring of the Company or any of its subfund(s));
- the costs of preparing, in such languages as are necessary for the benefit of the shareholders (including the beneficial holders of the Shares), and distributing (but not printing) annual and semi-annual reports and such other reports or documents as may be required under applicable laws or regulations;
- the cost of preparing notices to the shareholders and all costs of transactions (broker's normal commission, fees, taxes, etc.) connected with administration of the Company's assets:
- charges and costs of approvals and supervision of the Company in Luxembourg and abroad;
- costs and expenses of printing of the Articles of Incorporation, Prospectus, PRIIPs KID and annual and semi-annual reports and of preparing and/or filing and printing the Articles of Incorporation and all other documents concerning the Company (in such languages as are necessary), including registration statements, prospectuses and explanatory memoranda with all authorities (including local securities dealers' associations) having jurisdiction over the Company or the offering of shares of the Company;
- costs and expenses related to the publications of the net asset value and the publication of notices to investors;
- fees and expenses charged in connection with listing the Company's shares on any stock exchange or regulated market;
- fees and other costs for the payment of dividends to shareholders;
- audit fees, costs and expenses (including the fees and expenses of the Auditor);
- fees and expenses in relation to KID production, translation and filing to regulators;
- fees, costs and expenses payable to the Board of Directors (including reasonable out-of-pocket expenses, insurance cover, and reasonable travelling costs in connection with

Board meetings as well as the remuneration of the Board of Directors);

 fees, costs and expenses may be charged to a subfund in connection with registering, reporting, claiming relief, recovery, or exemption from foreign withholding tax.

The Company may accrue in its accounts of administrative and other expenses of a regular or recurring nature based on an estimated amount rateably for yearly or other periods.

All costs which can be allocated accurately to individual subfunds and/or individual share classes will be charged to these subfunds and share classes. Costs which pertain to several or all subfunds or share classes will be charged to the subfunds or share classes concerned in proportion to their relative net asset values or on such other basis reasonably determined by the Company or the Management Company. In the subfunds that may invest in Other UCI or UCITS under the terms of their investment policies, fees may be incurred both at the level of the subfund and at that of the relevant target fund. The upper limit for management fees of the target fund in which the assets of such are invested amounts to a maximum of 3.5%, taking into account any trail fees. In the case of investments in units of funds managed directly or indirectly by the Management Company itself or another company related to it by common management or control, or by a substantial direct or indirect holding, the subfund's making the investment may not be charged with any of the target fund's issue or redemption commissions.

Details on the costs (or ongoing charges) of the subfunds can be found in the KIDs.

The costs involved in launching new subfunds will be written off over a period of up to five years in the respective subfunds only.

The fees, costs and expenses in relation to distribution activities received by the Management Company and paid to the distributor and by the distributor to the sub-distributors and any intermediary in relation to the distribution of shares of the Company will satisfy any legal and regulatory restrictions and conditions applicable to the reception and the retention of such fees. Subject to applicable legal and regulatory restrictions and conditions, the distributor may pay retrocessions to cover the distribution activities of the Company.

# Note 3 – Taxe d'abonnement

The Company is subject to the Grand Duchy of Luxembourg's "taxe d'abonnement", which is payable at the end of every quarter. This tax is calculated on the total net assets of each class at the end of every quarter. The tax is levied at a rate of 0.05% p.a. of the total net assets. The rate is reduced to 0.01% p.a. in respect of classes reserved to institutional investors such as Class F and K shares. In the event, that the conditions to benefit from the reduced 0.01% rate are no longer satisfied, all Class F and K shares may be taxed at the rate of 0.05% p.a.

The value of the assets represented by shares held in other Luxembourg undertakings for collective investment that already pay a *taxe d'abonnement* will be exempted from any *taxe d'abonnement*.

# Note 4 – Commitments on Financial Futures

Commitments on Financial Futures per subfund and respective currency as of 31 July 2024 can be summarised as follows:

Financial Futures

Global Opportunities Access	Financial Futures on bonds (bought)	Financial Futures on bonds (sold)
– Global Bonds CHF	85 568 621.12 CHF	- CHF
– Global Bonds EUR	120 144 351.84 EUR	- EUR
– Global Bonds GBP	8 315 755.29 GBP	- GBP
– Global Bonds USD	185 356 093.75 USD	- USD
– Sustainable Bonds	204 992 187.50 USD	- USD

Global Opportunities Access	Financial Futures on indices (bought)	Financial Futures on indices (sold)
– Global Equities	179 471 813.20 EUR	123 020 086.59 EUR
– Global Equities II	323 951 197.61 EUR	174 147 920.45 EUR

The commitments on Financial Futures on bonds or index (if any) are calculated based on the market value of the Financial Futures (Number of contracts\*notional contract size\*market price of the futures).

# Note 5 – Income distribution

The general meeting of shareholders of the respective subfunds or classes of shares shall decide, at the proposal of the Board of Directors and after closing the annual accounts per subfund, whether and to what extent distributions are to be paid out by each subfund or share class, provided that such subfund or share class gives right to distribution payments. The payment of distributions must not result in the net assets of the Company falling below the minimum amount of assets prescribed by law. If a distribution is made, payment will be effected no later than four months after the end of the financial year.

The Board of Directors is authorized to pay interim dividends and to suspend the payment of distributions.

# Note 6 – Soft commission arrangements

During the financial year from 1 August 2023 until 31 July 2024, no "soft commission arrangements" were entered into on behalf of Global Opportunities Access and "soft commission arrangements" amount to nil.

# Note 7 – Transaction costs

Transaction costs include brokerage fees, stamp duty, local taxes and other foreign charges if incurred during the period. Transaction fees are included in the cost of securities purchased and sold.

For the financial year ended on 31 July 2024 the Company incurred transaction costs relating to purchase or sale of investments in securities and similar transactions, as follows:

Global Opportunities Access	Transaction costs
– Balanced CHF	4 523.04 CHF
– Balanced EUR	6 872.77 EUR
– Corporate Bonds	133.81 USD
– Corporate Bonds EUR	139.90 EUR

Not all transaction costs are separately identifiable. For fixed income investments, forward currency contracts and other derivative contracts, transaction costs will be included in the purchase and sale price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each subfund.

# Note 8 – Portfolio Turnover Rate (PTR)

The portfolio turnover has been calculated as follows:

(Total purchases + total sales) – (total subscriptions + total redemptions)

Average of net assets during the period under review

The portfolio turnover statistics are the following for the period under review:

Global Opportunities Access	PTR
– Balanced CHF	55.62%
– Balanced EUR	48.07%
– Corporate Bonds	-26.19%
– Corporate Bonds EUR	-20.63%
– Global Bonds CHF	59.72%
– Global Bonds EUR	72.97%
– Global Bonds GBP	70.51%
– Global Bonds USD	65.05%

Global Opportunities Access	PTR
– Global Equities	-18.10%
– Global Equities II	-28.52%
– High Yield and EM Bonds	-18.90%
– Key Multi-Manager Hedge Fund	3.37%
– Ocean Engagement	-18.70%
– Sustainable Bonds	1.38%
– Sustainable Equities	22.13%
– Yield CHF	46.27%
– Yield EUR	35.02%

# Note 9 – Total Expense Ratio (TER)

This ratio was calculated in accordance with the Asset Management Association Switzerland (AMAS) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

TER for the last 12 months:

# Note 11 – Defaulted Securities

In the event a bond is in default (hence not paying a coupon/ principal as specified in the offering documents) but a pricing quote exists, a final payment is expected and the bond would therefore be kept in the portfolio.

Furthermore, there are securities that have defaulted in the past where no pricing quote exists. These securities have been fully written off by the fund. They are monitored by the management company that will allocate any return that might still arise (ie dividend) to the subfunds. They are not shown within the portfolio but separately in this note.

Global Opportunities Access – Global Equities

Share	Currency	Number	
NMC HEALTH PLC ORD GBP0.1	GBP	2 873.00	
Global Opportunities Access – Global Equities II			
Share	Currency	Number	
NMC HEALTH PLC ORD GBP0.1	GBP	2 193.00	

# Note 12 – Subsequent event

There were no events after the year-end that require adjustment to or disclosure in the Financial Statements.

# Note 13 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the shareholders, the Company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the Company and/or the Depositary can elect to make themselves subject to the jurisdiction of the countries in which Company shares were bought and sold.

The English version of these financial statements is the authoritative version and only this version was audited by the auditor. However, in the case of Company shares sold to investors from the other countries in which Company shares can be bought and sold, the Company and the Depositary may recognise approved translations (i.e. approved by the Company and the Depositary) into the languages concerned as binding upon itself.

# Note 14 – OTC-Derivatives and Securities Lending

If the Company enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Company enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or cannot meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Company is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Depositary in favour of the Company. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depositary or within their subdepositary/correspondent bank network may result in the rights or recognition of the Company in connection with the security to be delayed, restricted or even eliminated, which would force the Company to fulfill its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.

The Company may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned. UBS Europe SE, Luxembourg Branch, acts as securities lending agent.

# OTC-Derivatives\*

The OTC-derivatives of the below subfunds with no collateral have margin accounts instead.

# Appendix 1 – Global Exposure (unaudited)

#### Risk management

Risk management in accordance with the commitment approach and the value-at-risk approach is applied pursuant to the applicable laws and regulatory provisions.

#### Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the notional values of the derivatives used by the respective subfund. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to.

# Appendix 3 – Securities Financing Transaction Regulation (SFTR) (unaudited)

The Company engages in Securities Financing Transactions (hereafter "SFT") (as defined in Article 3 of Regulation (EU) 2015/2365). Securities Financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions through its exposure on reverse repurchase agreements during the year. In accordance with Article 13 of the Regulation, information on securities lendings are detailed below:

#### **Global Data**

The following table details the value of securities lending as a proportion of the subfund's Net Assets Value as well as a proportion of the total lendable securities, as at 31 July 2024.

		Securities lent in %
	Securities lent in %	of Total Lendable
<b>Global Opportunities Access</b>	of Net Assets	Securities
– Global Equities	3.25%	3.62%
– Global Equities II	4.34%	4.86%

The total amount (absolute value) of the securities lent is disclosed in Note 14 – OTC-Derivatives and Securities Lending.

### Data on income and expense for each type of SFT

All expenses relating to the execution of securities lending transactions and their collateralization are borne by the counterparties and the depositary.

Service providers that provide securities lending services to the Company have the right to receive a fee in line with market standards in return for their services. The amount of this fee is reviewed and adapted, where appropriate, on an annual basis. Currently, 60% of the gross revenue received in the context of securities lending transactions negotiated at arm's lengths is credited to the relevant subfund, while 30% of the gross revenue are retained as fees by UBS Switzerland AG as the securities lending service provider, responsible for the ongoing securities lending activities and collateral management, and 10% of the gross revenue are retained as fees by UBS Europe SE, Luxembourg Branch acting as securities lending agent, responsible for the transaction management, ongoing operational activities and collateral safekeeping. All fees for operating the securities lending programme are paid from the securities lending agents' portion of the gross income. This covers all direct and indirect costs incurred through the securities lending activities. UBS Europe SE, Luxembourg Branch and UBS Switzerland AG are part of the UBS Group.

# Appendix 4 – Remuneration Policy (unaudited)

The Board of Directors of UBS Asset Management (Europe) S.A.\* (the "Management Company" or the "AIFM") has adopted a remuneration framework (the "Framework") whose objectives are on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under:

- (i) the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the "UCITS Law") transposing the UCITS Directive 2009/65/EC (the "UCITS Directive") as amended by Directive 2014/91/EU (the "UCITS V Directive");
- (ii) the Alternative Investment Fund Managers Directive ("AIFMD") 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time;
- (iii) the ESMA's guidelines on sound remuneration policies under the UCITS Directive ESMA/2016/575 and ESMA's guidelines on sound remuneration policies under the AIFMD ESMA/2016/579 both published on 14 October 2016;
- (iv) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010:
- (v) the Directive 2014/65/EU on markets in financial instruments (MiFID II);
- (vi) the Commission Delegated Regulation 2017/565/EU of 25 April 2016 supplementing Directive 2014/65/EU (MiFID II Level 2);
- (vii) Regulation (EU) 2019/2088 of the European parliament and of the council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR");
- (viii) the CSSF Circular 23/841, transposing the ESMA Guidelines on certain aspects of the MiFID II remuneration requirements (ESMA 35-43-3565) (MiFID ESMA Guidelines).

and on the other hand, to comply with the UBS Group AG (the "UBS Group") Total Reward Principles.

The Framework is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management, including sustainability risk where applicable, and to be consistent with the UBS Group business strategy, objectives and values.

More details about the Framework of the Management Company/the AIFM, which describes, but not limited to, how remuneration and benefits are determined, are available at https://www.ubs.com/global/en/asset-management/investment-capabilities/white-labelling-solutions/fund-management-company-services/fml-procedures.html.

The Framework is subject to an annual review by the control functions of the Management Company/the AIFM after review and update by the Human Resources department; and is approved by the Board of Directors of the Management Company/ the AIFM. Last approval by the Board of Directors took place on 4 October 2023. No material change was made to the Framework.

### Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law and Article 20 of the AIFM Law, the Management Company/the AIFM is required to disclose at least annually certain information concerning its remuneration framework and the practices for its Identified Staff.

The Management Company/the AIFM complies with the UCITS Directive/AIFMD principles in a way and to the extent that is appropriate to its size, internal organisation and the nature, scope and complexity of its activities.

Considering the total size of funds under management, both UCITS and AIFs although a significant portion is not complex or risky investment, the Management Company/the AIFM judges that the proportionality principle may not be applicable at the level of the company but at the level of the Identified Staff.

By application of the proportionality principle for the Identified Staff, the following requirements on pay-out processes for Identified Staff are not applied:

- The payment of variable remuneration in instruments related mainly to the funds in relation to which they perform their activities;
- Deferral requirements;
- Retention periods;
- Incorporation of ex-post risk factors (i.e. malus or clawback arrangements).

<sup>\*</sup> As of 1 October 2024, UBS Fund Management (Luxembourg) S.A. was renamed UBS Asset Management (Europe) S.A.

# Appendix 4 – Remuneration Policy (unaudited)

The deferral requirements remain however applicable when the employee's total annual compensation is exceeding the threshold defined under the UBS Group Compensation Framework; the variable compensation will be treated in line with the plan rules defined under the UBS Group Compensation Framework.

#### Remuneration of Management Company/AIFM staff

The aggregate amounts of total remuneration, split into fixed and variable, paid by the Management Company/the AIFM to its staff and its Identified Staff during the financial year ended as at 31 December 2023 are as follows:

EUR 1 000	Fixed remuneration	Variable remuneration	Total remuneration	No of beneficiaries
All staff	12 161	2 787	14 948	104
- whereof Identified Staff	6 794	2 159	8 953	44
- thereof Senior Management*	1 937	677	2 614	10
- thereof Other Identified Staff	4 857	1 482	6 339	34

<sup>\*</sup>Senior Management includes the CEO, the Conducting Officers, the Head of Compliance, the Branch Managers and the Independent Director.

### Remuneration of the delegates' identified staff

As market or regulatory practice develops the Portfolio Manager(s) may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made and in case of changes to the identified staff and/or in case of change in the number of subfunds over the year, this may result in disclosures in relation to the Fund not being comparable to the disclosures made in the prior year.

For the year ending 31 December 2023, the aggregate total remuneration paid by the delegated Investment Manager to its Identified Staff in relation to the Fund amounted to EUR 515 953, of which EUR 159 688 represented the variable remuneration (14 beneficiaries).

#### ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** Global Opportunities Access - Ocean Engagement **Legal entity identifier:** 5493007SHDTRRICYLY90

# **Environmental and/or social characteristics**

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Sustainable

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially.

That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

#### Did this financial product have a sustainable investment objective? Yes No It made sustainable ★ It promoted Environmental/Social (E/S) characteristics and investments with an while it did not have as its objective a environmental objective: % sustainable investment, it had a proportion of in economic activities that 79.01% of sustainable investments qualify as environmentally with an environmental objective in economic sustainable under the EU activities that qualify as environmentally Taxonomy sustainable under the EU Taxonomy in economic activities that do with an environmental objective in not qualify as environmentally economic activities that do not qualify as sustainable under the EU environmentally sustainable under the EU Taxonomy Taxonomy with a social objective It made sustainable investments It promoted E/S characteristics, but did not make any sustainable investments with a social objective: %

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristic was promoted by the sub-fund:

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Investing at least 80% of the net assets (excluding cash and derivatives used for hedging) in companies with which the Portfolio Manager is undertaking active investor engagement aiming to foster conservation and sustainable use of oceans and their resources. The Portfolio Manager seeks to engage with companies to achieve positive outcomes such as:

– sustainably manage and protect marine and coastal ecosystems from pollution of all kinds, in particular from landbased activities

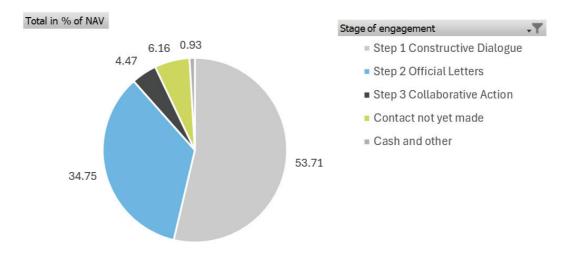

- address the impacts of ocean acidification
- end overfishing and destructive fishing practices

The Reference Benchmark Index is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

# How did the sustainability indicators perform?

During the reference period from 18 April 2024 until 31 July 2024, the percentage of the sub-fund's assets aligned with the promoted characteristic described above was 86.75%, i.e. higher than 80% (the committed minimum threshold). This is an average calculated based on the month end values during the reference period.

As of the end of the reference period, 31 July 2024, 92.93% of the portfolio was invested in companies with which the Portfolio Manager was undertaking active investor engagement, as shown in the pie chart below:

# ...and compared to previous periods?

Not applicable. This is the first reference period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The objectives of the sustainable investments that the sub-fund partially intends to make is to contribute to the environmental and/or social characteristic(s) promoted by the sub-fund.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

For the sustainable investments the sub-fund partially intends to make, the Portfolio Manager considers the relevant indicators for principal adverse impacts on sustainability factors and

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

adherence to global norms, i.e. UN Global Compact (UNGC) Principles, OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

In addition, the sub-fund excludes companies or sectors that manufacture products or carry out business activities, which the research and investment decision making process highlights as entailing significant negative social or environmental risks. The sub-fund does not invest directly in companies generating a substantial proportion of their turnover from the production of tobacco, adult entertainment, or gambling. In addition, the sub-fund shall exclude any exposure to companies involved in controversial weapons and war materials.

The sub-fund may invest in companies with higher ESG risks, or those involved in controversial business activities such as thermal coal, arctic oil or oil sands, subject to it being explicit exposure to transition away from such non-sustainable activities, supported by credible stewardship and engagement activities.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Portfolio Manager's framework to ascertain whether an investment company satisfies "do no significant harm" test includes a systematic screening on metrics related to all mandatory PAI indicators using third party data provided by ISS.

If additional information is needed, the sub-fund carries out a qualitative analysis in which they consider adverse impacts of its investments on society and the environment through a combination of portfolio management decisions, active ownership activities, and exclusion of companies or sectors associated with controversial conduct or activities that lack compatibility with international conventions or have unsustainable business models.

This will include (but are not limited to) exposure to controversial weapons and violation of UN Global Compact Principles.

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Companies violating the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights and who do not demonstrate credible corrective action do not qualify as sustainable investments within the portfolio.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomyaligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

# How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts (the "PAI") are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption, and anti-bribery matters. The portfolio manager integrates PAI indicators in its decision making process.

At present, the following PAI indicators are considered by means of exclusions from the investment universe:

- 1.4"Exposure to companies active in the fossil fuel sector": Companies that exceed 5% revenue threshold from thermal coal mining, exploration and generation are excluded, with exceptions for explicit exposure to transition away from thermal coal (must be supported by credible stewardship and engagement activities)
- 1.10"Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises": Companies with severe violations of the United Nations Global Compact (UNGC) and the OECD Guidelines are excluded, with exceptions for a cure period immediately after the violation is recorded by the ESG data provider, and instances where the portfolio manager is challenging the data provided by the ESG data provider.
- 1.14"Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)": Companies that derive any revenues from controversial weapons, or have significant ownership in such companies are excluded. Controversial weapons refer to the following: anti-personnel mines, nuclear weapons, biological weapons, chemical weapons, cluster munitions, depleted uranium weapons, blinding laser weapons, incendiary weapons and/or nondetectable fragments. Significant ownership reflects ownership of more than 20% unless stated otherwise.

# What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 31.07.2024

Largest Investments	Sector	% Net Assets*	Country
Waste Management Inc	Environmental Services & Recycling	3.94	United States
SSE PLC	Energy & water supply	3.87	United Kingdom
Crown Holdings Inc	Packaging industry	3.67	United States
Bureau Veritas SA	Miscellaneous services	3.45	France
DSM-Firmenich AG	Chemicals	3.21	Switzerland
Trimble Inc	Electronics & Semiconductors	3.09	United States

SGS SA	Miscellaneous Services	2.76	Switzerland

<sup>\*</sup>Minor differences with "Statement of Investments in Securities" might occur due to rounding and valuation differences in production systems.

# What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

### What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31.07.2024.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

#### **Enabling activities**

directly enable other activities to make a substantial contribution to an environmental objective.

#### Transitional

activities are
activities for which
low-carbon
alternatives are not
yet available and
among others have
greenhouse gas
emission levels
corresponding to
the best
performance.

**#1** Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#20ther** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

#### In which economic sectors were the investments made?

Please refer to the section "Structure of the Securities Portfolio" of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product has 0% Taxonomy Aligned Investments.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

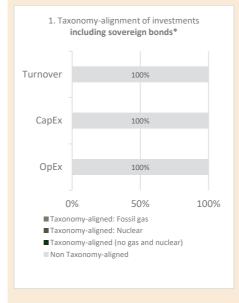

<sup>&</sup>lt;sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

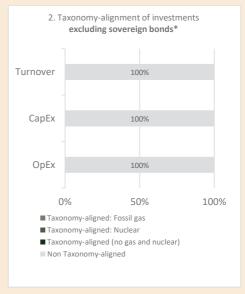

<sup>\*</sup>Minor differences with "Statement of Investments in Securities" might occur due to rounding and valuation differences in production systems.

Taxonomy-aligned activities are expressed as a share of:

- turnover
   reflecting the
   share of revenue
   from green
   activities of
   investee
   companies.
- capital
  expenditure
  (CapEx) showing
  the green
  investments made
  by investee
  companies, e.g. for
  a transition to a
  green economy.
- operational
   expenditure
   (OpEx) reflecting
   green operational
   activities of
   investee
   companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- \* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.
  - What was the share of investments made in transitional and enabling activities?

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. The financial product had 0% Taxonomy Aligned Investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Included in "#2 Other" are cash and unrated instruments for the purpose of liquidity, efficient portfolio management and hedging. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

#### How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- How does the reference benchmark differ from a broad market index?
  Not applicable.
- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- How did this financial product perform compared with the reference benchmark?
  Not applicable.
- How did this financial product perform compared with the broad market index?

  Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

#### ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** Global Opportunities Access - Sustainable Bonds **Legal entity identifier:** 549300883RVIJ1HJFP21

### **Environmental and/or social characteristics**

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices. The EU Taxonomy is

Sustainable

Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

a classification

system laid down in

#### Did this financial product have a sustainable investment objective? Yes No It made sustainable ★ It promoted Environmental/Social (E/S) characteristics and investments with an while it did not have as its objective a environmental objective: % sustainable investment, it had a proportion of in economic activities that 73.86% of sustainable investments qualify as environmentally with an environmental objective in economic sustainable under the EU activities that qualify as environmentally Taxonomy sustainable under the EU Taxonomy in economic activities that do with an environmental objective in not qualify as environmentally economic activities that do not qualify as sustainable under the EU environmentally sustainable under the EU Taxonomy Taxonomy with a social objective It made sustainable investments It promoted E/S characteristics, but did not make any sustainable investments with a social objective: %

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The sub-fund promotes environmental and/or social characteristics such as climate change, water, pollution and waste management, and gender-related matters, by investing in target funds and/or via Dedicated Portfolios ("Investment Strategies") which promote environmental (E) and/or social (S) characteristics and/or Investment Strategies with sustainable investment or a reduction in carbon emissions as their objective. The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

#### How did the sustainability indicators perform?

During the reference period 2023/24, the percentage of the sub-fund's assets aligned with the promoted characteristic described above was higher than two thirds (i.e. the committed minimum threshold):

Percentage of the financial product aligned with the promoted characteristic: 95.12%

#### ... and compared to previous periods?

During the previous reference period 2022/23, the percentage of the sub-fund's assets aligned with the promoted characteristic described above was higher than two thirds (i.e. the committed minimum threshold):

Percentage of the financial product aligned with the promoted characteristic: 94.55%

#### What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The sub-fund has indirect exposure to sustainable investments via its investments in target funds with a minimum proportion of sustainable investments.

The objectives of the sustainable investments that the sub-fund partially intends to make are to contribute to one or more sustainability topics such as, climate change, water, pollution and waste management, reduced inequalities, gender-related matters, and governance. These sustainable investments contribute to the objectives by investing in companies which have an economic activity which contributes to an environmental and/or a social objective, or in fixed income instruments which contribute to an environmental and/or a social objective.

As the sub-fund invests in financial products manufactured by different third parties, there are potential inconsistencies between the definition of how an underlying portfolio of a target fund contributes to environmental and/or social objectives as each target fund may have different criteria, approaches, and constraints, when defining the universe of sustainable investments.

### How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sub-fund has indirect exposure to sustainable investments via its investments in target funds with a minimum proportion of sustainable investments.

As part of the selection process and ongoing due diligence, the Portfolio Manager checks if there are processes in place by the target funds to ensure that the sustainable investments do not cause significant harm to any environmental or social sustainable investment objective.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

— How were the indicators for adverse impacts on sustainability factors taken into account?

The sub-fund has indirect exposure to sustainable investments via its investments in target funds with a minimum proportion of sustainable investments.

As part of the selection process and ongoing due diligence, the Portfolio Manager checks if there are processes undertaken by the target funds to consider the indicators for adverse impacts on sustainability factors.

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The sub-fund has indirect exposure to sustainable investments via its investments in target funds with a minimum proportion of sustainable investments.

As part of selection process and ongoing due diligence, the Portfolio Manager checks if there are processes undertaken by the target funds to align sustainable investments with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomyaligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

### How did this financial product consider principal adverse impacts on sustainability factors?

The sub-fund invests in target funds with a minimum proportion of sustainable investments, and therefore considers principal adverse impact on sustainability factors. As part of the selection process and ongoing due diligence, the Portfolio Manager checks if there are processes undertaken by the target fund to consider principal adverse impacts on sustainability factors, such as exclusions of controversial weapons or contraventions of UN Global Compact principles. In addition, investment managers must share information on their exclusion policies, i.e. whether exposure to controversial business activities such as weapons, tobacco, gambling and adult entertainment etc., may lead to exclusion of such companies/issuers from the portfolio.

#### What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 31.07.2024

Largest Investments	Sector	% Net Assets*	Country

<sup>\*</sup>Minor differences with "Statement of Investments in Securities" might occur due to rounding and valuation differences in production systems.

#### What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

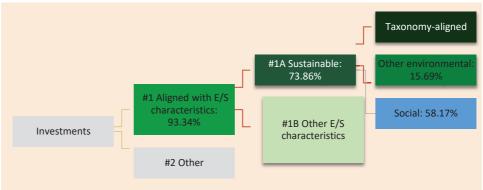

What was the asset allocation?

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31.07.2024.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#20ther** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.
  - \*Minor differences with "Statement of Investments in Securities" might occur due to rounding and valuation differences in production systems.

Please refer to the section "Structure of the Securities Portfolio" of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The financial product has 0% Taxonomy Aligned Investments.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

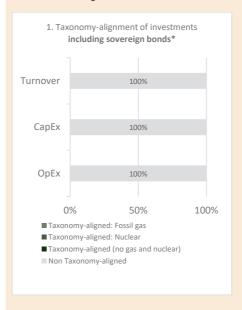

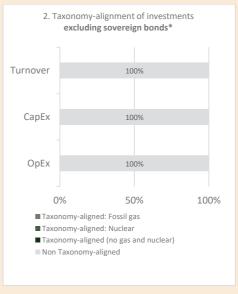

<sup>&</sup>lt;sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- \* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.
  - What was the share of investments made in transitional and enabling activities?

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. The financial product had 0% Taxonomy Aligned Investments.

an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation

(EU) 2020/852.

sustainable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The financial product had a proportion of sustainable investment with an environmental objective not aligned with the EU Taxonomy as stated in the asset allocation section of this annex.

#### What was the share of socially sustainable investments?

The financial product had a proportion of socially sustainable investment as stated in the asset allocation section of this annex.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Included in "#2 Other" are cash and unrated instruments for the purpose of liquidity, efficient portfolio management and hedging. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

#### How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- How does the reference benchmark differ from a broad market index?
  Not applicable.
- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- How did this financial product perform compared with the reference benchmark? Not applicable.
- How did this financial product perform compared with the broad market index?
  Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

#### ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** Global Opportunities Access - Sustainable Equities

### Environmental and/or social characteristics

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Sustainable

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?							
••	Yes	• No					
	investments with an environmental objective:%  in economic activities that qualify as environmentally sustainable under the EU Taxonomy  in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 65.81% of sustainable investments  with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy  with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  with a social objective					
	t made sustainable investments with a social objective:%	It promoted E/S characteristics, but did not make any sustainable investments					

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The sub-fund promotes environmental and/or social characteristics such as climate change, water, pollution and waste management, and gender-related matters, by investing in target funds and/or via Dedicated Portfolios ("Investment Strategies") which promote environmental (E) and/or social (S) characteristics and/or Investment Strategies with sustainable investment or a reduction in carbon emissions as their objective. The extent to which the environmental and/or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

#### How did the sustainability indicators perform?

During the reference period 2023/24, the percentage of the sub-fund's assets aligned with the promoted characteristic described above was higher than two thirds (i.e. the committed minimum threshold):

Percentage of the financial product aligned with the promoted characteristic: 95.35%.

#### ... and compared to previous periods?

During the previous reference period 2022/23, the percentage of the sub-fund's assets aligned with the promoted characteristic described above was higher than two thirds (i.e. the committed minimum threshold):

Percentage of the financial product aligned with the promoted characteristic: 94.73%.

#### What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The sub-fund has indirect exposure to sustainable investments via its investments in target funds with a minimum proportion of sustainable investments.

The objectives of the sustainable investments that the sub-fund partially intends to make are to contribute to one or more sustainability topics such as, climate change, water, pollution and waste management, reduced inequalities, gender-related matters, and governance. These sustainable investments contribute to the objectives by investing in companies which have an economic activity which contributes to an environmental and/or a social objective, or in fixed income instruments which contribute to an environmental and/or a social objective.

As the sub-fund invests in financial products manufactured by different third parties, there are potential inconsistencies between the definition of how an underlying portfolio of a target fund contributes to environmental and/or social objectives as each target fund may have different criteria, approaches, and constraints, when defining the universe of sustainable investments.

### How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The sub-fund has indirect exposure to sustainable investments via its investments in target funds with a minimum proportion of sustainable investments.

As part of the selection process and ongoing due diligence, the Portfolio Manager checks if there are processes in place by the target funds to ensure that the sustainable investments do not cause significant harm to any environmental or social sustainable investment objective.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

— How were the indicators for adverse impacts on sustainability factors taken into account?

The sub-fund has indirect exposure to sustainable investments via its investments in target funds with a minimum proportion of sustainable investments.

As part of the selection process and ongoing due diligence, the Portfolio Manager checks if there are processes undertaken by the target funds to consider the indicators for adverse impacts on sustainability factors.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The sub-fund has indirect exposure to sustainable investments via its investments in target funds with a minimum proportion of sustainable investments.

As part of the selection process and ongoing due diligence, the Portfolio Manager checks if there are processes undertaken by the target funds to align sustainable investments with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomyaligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities.
