**Audited Annual Report**  
**As at June 30, 2024**

No subscriptions should be made on the basis of the financial report alone. Subscriptions should only be made on the basis of the current Prospectus supplemented by the latest Annual Report and the latest Semi-Annual Report, if published thereafter.

Performance data shown represents past performance and is not a guarantee of future results. More recent performance may be lower or higher. Principal value and returns fluctuate over time (including as a result of currency fluctuations) so that Shares, when redeemed, will be worth more or less than their original cost. Performance shown is net of all Fund expenses, but does not include the effect of sales charges or correspondent bank charges, and assumes reinvestment of distributions. If such charges were included, returns would have been lower. Performance for other Share classes will be more or less depending on differences in fees and sales charges. For periods when certain Share classes were unsubscribed or not yet created (the "inactive Share classes"), performance is imputed using the actual performance of the Fund's active Share class which has been determined by the management company as having the closest characteristics to such inactive Share class and adjusting it based on the difference in TERs and, where applicable, converting the net asset value of the active Share class into the currency of quotation of the inactive Share class. The quoted performance for such inactive Share class is the result of an indicative calculation.

Unless otherwise indicated, all defined terms used herein shall have the same meaning as set out in the Prospectus of the Umbrella Fund.

Report to the Shareholders

## Ostrum SRI Total Return Sovereign

### Activities Report for the year ended June 30, 2024

<b>1 Year Performance</b>	
<b>Fund I/A (EUR)</b>	<b>0.55%</b>
Daily-capitalized Euro Short-Term Rate (€STR)*	3.93%

The I/A (EUR) share class (net of fees) generated a positive performance of (+0.55%) during 2023/2024. The main driver to performance is the duration exposure in a context of rising rates over the period.

\* The investment objective of the Fund is to outperform the Reference Index over its recommended minimum investment period of 12 months by more than 1.00%.

The Board of Directors

Luxembourg, October 7, 2024

Please see past performance disclosure on cover page.

## Ostrum SRI Credit Short Duration

### Activities Report for the year ended June 30, 2024

<b>1 Year Performance</b>	
<b>Fund I/A (EUR)</b>	<b>6.09%</b>
Bloomberg Euro Aggregate Corporate 1-3*	5.41%

Over the Q3 2023, the Fund overperformed its benchmark by 2 bps. Directional credit contributed positively thanks to the slightly overweight credit.

As for the Q4 2023, the Fund overperformed its benchmark by +46bps. The sector allocation, especially the outweigh in financials, contributed to the outperformance for +12bps.

Over the Q1 2024, the Fund outperformed its benchmark by 23 bps, The overexposure in the credit market is one the most significant contributors.

Finally, over the Q2 2024, the fund underperformed its benchmark by 5bps. The top detractor was the yield curve positioning due to the rise in interest rates.

\* The investment objective of the Fund is to outperform the Reference Index over its recommended minimum investment period of 2 years by investing in a wide range of fixed-income instruments.

The Board of Directors

Luxembourg, October 7, 2024

## Ostrum Euro Inflation

### Activities Report for the year ended June 30, 2024

<b>1 Year Performance</b>	
<b>Fund I/A (EUR)</b>	<b>1.09%</b>
Bloomberg Euro Govt Inflation Linked Bond 1 to 10 Year Treasury Index*	1.63%

During Q3 2023, the Fund outperformed its benchmark by +19bps (gross of fees) due to short positioning on directional real rates, nominal rates, and long positions on break-evens. However, in Q4 2023, the Fund underperformed by -28bps for the same reasons, but in a negative way.

Both sector allocation and stock selection had negative contributions to the relative performance. The In Q1 2024, the Fund outperformed by +8bps (-0.33% gross of fees vs -0.41% for its benchmark) due to short positioning on directional real rates, nominal rates, long inflation swaps and relative value.

Finally, in Q2 2024, the Fund's underperformance is (-0.69%) gross vs (-0.57%) for its benchmark, due to long positioning on directional real rates, nominal rates positioning, long inflation swaps and relative value trades.

\* The investment objective of the Fund is to outperform the Reference Index over its recommended minimum investment period of 2 years.

### Ostrum SRI Euro Aggregate

#### Activities Report for the year ended June 30, 2024

<b>1 Year Performance</b>	
<b>Fund I/A (EUR)</b>	<b>2.25%</b>
Bloomberg Capital Euro Aggregate 500MM*	3.54%

Over the period July 1, 2023 to June 30, 2024, Ostrum SRI Euro Aggregate delivered net performance of (+2.25%) (I/A (EUR) share class) versus (+3.54%) for the Reference Index Bloomberg Capital Euro Aggregate 500MM Total Return Index Value Unhedged EUR. The year was marked by bond market volatility and uncertainty on the trajectory of inflation. In July and September 2023, the ECB raised rates, completing its rate hiking cycle at 4%. Rates were held steady until June 6, 2024, when the ECB cut rates by 25bps based on improving inflation data. Despite higher rates and hawkish central bank rhetoric, bond markets offered opportunities. Investment grade credit traded with a positive bias and periphery bond markets like Spain and Italy benefited from spreads narrowing relative to Germany. On the other hand, France was under pressure (downgrade, political situation).

\* The investment objective of the Fund is to outperform its Reference Index over its recommended minimum investment period of 2 years through investments in a wide range of fixed income instruments meeting extra-financials criteria (Environmental, Social and Governance – “ESG”).

The Board of Directors

Luxembourg, October 7, 2024

## Ostrum SRI Global Subordinated Debt

### Activities Report for the year ended June 30, 2024

<b>1 Year Performance</b>	
<b>Fund I/A (EUR)</b>	<b>9.08%</b>
ICE BofA Euro Subordinated Financial Index*	9.18%

The Ostrum SRI Global Subordinated Debt I/A (EUR) share class annual net return was (+9.08%) as of June 28, 2024, under performing the benchmark performance of (+9.18%). Global growth remained resilient, with inflation stabilizing at a higher level than central bank targets. Central banks maintained restrictive monetary policies to combat high inflation. Credit markets' spreads initially surged, then rallied in late 2023 through the first half of 2024 with some volatility. Directional and carry strategies were the main contributors to portfolio performance. Positioning included increased exposure to interest rates duration and decreased sensitivity to the credit market. ESG score level outperformed their universe.

\* The investment objective of the Fund is to achieve, over its recommended minimum investment period of 3 years, a performance of 1.00% over its Reference Index by taking advantage of yields offered by subordinated bonds (or similar securities), issued by private, public, sovereign or supranational issuers, which may be corporate entities and/or financial institutions.

### Ostrum Fixed Income Multi Strategies

#### Activities Report for the year ended June 30, 2024

<b>1 Year Performance</b>	
<b>Fund SI/A (USD)</b>	<b>2.72%</b>
Daily-capitalized 3 Months SOFR*	8.39%

The Fund realized an overall performance of (+2.72%) (gross of fees SI/A (USD) share class) vs (+8.39%) for Daily-capitalized 3 Months SOFR reference during the year.

In 23Q3, our carry strategies were positive this quarter because spread related exposures benefited from slower growth and a disinflationary environment with no recession in sight. Both short term HY (including AT1) and EM issues performed well. Nevertheless, the Fund return has been impacted by our long duration hedges in both Germany and U.S. in August and September. Fortunately, our U.S. bills exposure is now representing nearly half of the portfolio and contributes substantially to the Fund attractive yield with no duration risk. Concerning the growth part, duration/curve arbitrages were detrimental to the Fund this quarter especially due to cross country evolutions, but FX and credit overlays added positive returns to the Fund in Xover and USD, MXN and JPY exposure. Finally, our best ideas book was very positive due to a swap spread tightening position, an Italian butterfly in 2.10.30s and Italian spread widener.

In 23Q4, our carry strategies were very positive this quarter because spread related exposures benefited from central banks expected pivot and a disinflationary environment with no recession in sight. Both short term HY (including AT1), U.S. Corporates and EM issues performed well. Nevertheless, furthermore, the fund return has been positively impacted by our long duration esp in U.S. 5yr. Our U.S. bills exposure is now representing nearly one third of the portfolio and contributes substantially to the Fund attractive yield with no duration risk. Concerning the growth part, duration/curve arbitrages were very beneficial to the Fund this quarter especially due to local emerging currencies (MXN, BRL) and rates relative value strategies like long Greece versus Italy, but credit overlays added negative returns to the Fund in Xover decompression.

In 24Q1, our carry strategies were positive because spread related exposures benefited from better growth expectations and central banks expected pivot as disinflationary environment is in course. Both short term HY (including AT1), U.S. Corporates and EM issues performed well. Nevertheless, the fund return has been negatively impacted by our growing long duration position in U.S. Our bills exposure is now representing a quarter of the portfolio and contributes substantially to the Fund attractive yield with no duration risk. Concerning the growth part, duration/curve arbitrages were beneficial to the Fund this quarter especially due to local emerging currencies (MXN, BRL) and rates relative value strategies like CPI receivers in U.K., E.U. and U.S., but credit strategies added negative returns to the Fund with Xover decompression.

In 24Q2, our carry strategies were positive due to our global credit allocation in investment grade issuers and EM exposure in both IG and HY. Again, the Fund return has been negatively impacted by duration despite rotation out from U.S. Our bills exposure is now representing a quarter of the portfolio and contributes substantially to the Fund attractive yield with no duration risk. Concerning the growth part, arbitrages were beneficial to the Fund this quarter, but emerging currencies (MXN, BRL) and JPY hurt somewhat the performance this quarter.

\* The investment objective of the Fund is to outperform the Reference Index over its recommended minimum investment period of 3 years by 2.90%, through a combination of income and capital appreciation.

The Board of Directors

Luxembourg, October 7, 2024

Please see past performance disclosure on cover page.

Report to the Shareholders (continued)

## Natixis Conservative Risk Parity

### Activities Report for the year ended June 30, 2024

<b>1 Year Performance</b>	
<b>Fund I/A (EUR)</b>	<b>5.28%</b>
Daily-capitalized Euro Short-Term Rate (€STR)*	3.93%

The Fund posted a positive return of (+5.28%) (I /A (EUR) share class) during the 12-month period ended June 28, 2024.

The performance was mainly driven by the equity pillar which benefited from the resilience of the economy, hopes for lower rates and favorable expectations for the AI sector. While all geographical areas posted positive returns, the best contribution came from our position in U.S. equities with the MSCI USA returning more than (+26%). Our diversification pillar also generated a positive return thanks to strong performances from EM and High Yield debts and the rise in commodities prices. Eventually only our fixed income pillar had some more neutral contribution penalized by Australian and Canadian bonds

\* The Fund investment objective is to outperform by 4.00% (gross of fees) the Reference Index.

The Board of Directors

Luxembourg, October 7, 2024

Please see past performance disclosure on cover page.

# Natixis AM Funds

Report to the Shareholders (continued)

## Natixis Bond Alternative Risk Premia

### Activities Report for the year ended June 30, 2024

<b>1 Year Performance</b>	
<b>Fund S1/A (EUR)</b>	<b>2.31%</b>

The performance for the Fund this year is (+2.31%) with a volatility of (+3.50%).

The year has been characterized by a volatile and rangy market for interest rates and FX, with successive switches from risk-on to risk-off conditions and vice-versa. In this environment, the main driver of performance for the Fund has been the Defensive Pillar with a contribution to the performance of (+2.01%). The Carry Pillar managed to deliver some performance as well, with a contribution of (+1.10%). However, the Core Pillar suffered in those changing conditions and contributed negatively to the performance with (-0.80%).

The Board of Directors

Luxembourg, October 7, 2024

# Natixis AM Funds

Report to the Shareholders (continued)

## Natixis Global Multi Strategies

### Activities Report for the year ended June 30, 2024

<b>1 Year Performance</b>	
<b>Fund I/A (EUR)</b>	<b>1.56%</b>
Daily-capitalized Euro Short-Term Rate (€STR)*	3.93%

In 2023, all asset classes faced challenges and volatility, particularly equities, with rates staying well above their historic trend. Monetary policies were adjusted globally until mid-July 2023, when the FED reached a policy rate of (+5.5%). Natixis Global Multi Strategies had a negative performance in 2023 (-1.12%), mainly due to a long position on JPY, Telcos against Stoxx 600, and Topix against Nikkei. Positive contributors included a preference for Gilt over Japan Gov Bonds, the EMU area over the World, and the flattening of the EUR curve.

\* The Fund investment objective is to outperform by 2.50% the Reference Index.

The Board of Directors

Luxembourg, October 7, 2024

# Natixis AM Funds

Report to the Shareholders (continued)

## Seeyond Multi Asset Conservative Growth Fund

### Activities Report for the year ended June 30, 2024

<b>1 Year Performance</b>	
<b>Fund I/A (EUR)</b>	<b>4.02%</b>
Daily-capitalized Euro Short-Term Rate (€STR)*	3.93%

As of the end of June 2024, the total return of the Fund has been positive over the last twelve months ((+4.93%) in gross and (+4.02%) in net, I/A (EUR) class).

The breakdown of the gross return over the last year between the main asset classes is as following:

- Equities: (+5.78%)
- Bonds: (-0.18%)
- Currencies: (-0.61%)

Within the equities, U.S., Japan, the Euro area and the optional strategies contributed the most whereas the other markets were quite neutral.

Within the bonds, U.S. bonds contributed the most negatively whereas the Canadian bonds contributed positively.

Within the FX, the Yen contributed negatively to the performance.

While the performance has been negative till the end of October 2023, it recovered after, despite some temporary volatility in April 2024.

\* The investment objective of the Fund is to outperform the Reference Index over its recommended minimum investment period of 3 years by more than 3.50% with a target 1-year volatility based on weekly data comprised between 3.00% and 5.00%.

## Seeyond Multi Asset Diversified Growth Fund

### Activities Report for the year ended June 30, 2024

<b>1 Year Performance</b>	
<b>Fund R/A (EUR)</b>	<b>3.88%</b>
Daily-capitalized Euro Short-Term Rate (€STR)*	3.93%

As of the end of June 2024, the total return of the Fund has been positive over the last twelve months ((+5.96%) in gross and (+3.88%) in net, R/A (EUR) class).

The breakdown of the gross return over the last year between the main asset classes is as following:

- Equities: (+11.48%)
- Bonds: (-4.07%)
- Currencies: (-1.45%)

Within the equities, U.S., Japan and the Euro area and the optional strategies contributed the most whereas the other markets were quite neutral.

Within the bonds, U.S. bonds contributed the most negatively whereas the Canadian bonds contributed positively.

Within the FX, the Yen contributed negatively to the performance.

While the performance has been negative till the end of October 2023, it recovered after, despite some temporary volatility in April 2024.

\* The investment objective of the Fund is to outperform the Reference Index over its recommended minimum investment period of 5 years by more than 6.00 % with a target 1-year volatility based on weekly data comprised between 6.00% and 9.00%.

## Seeyond SRI Europe Minvol

### Activities Report for the year ended June 30, 2024

<b>1 Year Performance</b>	
<b>Fund I/A (EUR)</b>	<b>8.58%</b>
MSCI Europe Dividend Net Reinvested*	13.68%

The Fund returned (+8.58%) for the twelve-month period ended June 30, 2024, compared to (+13.68%) for the reference benchmark, the MSCI Europe Dividend Net Reinvested. Over the period, the annualized volatility of the Fund was (+7.90%) compared to (+9.90%) for the index. Throughout the year we gradually increased our exposure to Energy and Utilities, while we reduced the overweight in Health Care and Consumer Staples.

Both sector allocation and stock selection had negative contributions to the relative performance. The underweight in Technology which continued to rally on the back of a sharp rebound in valuation multiples was the main drag, together with the Fund's overweight in Consumer Staples. Stock selection was negative across most sectors on the back of the generalized underperformance of low beta stocks and the persistence of the speculative aspect of the rally in the second half in 2023.

From a total return perspective, the top stock contributors to the Fund's performance were Novo Nordisk, Wolters Kluwer, Caixabank, ASML and Euronext.

\* The investment objective of the Fund is to outperform the Reference Index over its recommended minimum investment period of 5 years while offering lower volatility.

## Seeyond SRI Global Minvol

### Activities Report for the year ended June 30, 2024

<b>1 Year Performance</b>	
<b>Fund I/A (EUR)</b>	<b>8.79%</b>
MSCI World All Countries Dividend Net Reinvested*	21.52%

The Fund returned (+8.79%) for the twelve-month period ended June 30, 2024, compared to (+21.52%) for the reference benchmark, the MSCI Europe NR. Over the period, the annualized volatility of the Fund was (+6.7%) compared to (+9.1%) for the index. Throughout the year we gradually reduced our underweights in Energy, Technology and Consumer Cyclical, while we reduced our exposure in Financials and Industrials.

Over the period, the majority of the underperformance is attributed to a negative selection effect, which was impacted by our underweighting of U.S. mega-caps that significantly outperformed during the period. The absence of NVIDIA, Meta, and Broadcom in the portfolio, and the underweighting of Amazon, Microsoft, and Alphabet alone account for half of the underperformance for the year. Additionally, despite positive contributions from our underweighting of Materials and Industry, as well as the overweighting of Finance, the sector allocation also shows a negative contribution due to the underweighting of Technology, which has significantly outperformed for the second consecutive year.

For the year, the top contributors to the fund's performance are TSMC, CaixaBank, Microsoft, Gen Digital, NEC Corp, and CBOE.

\* The investment objective of the Fund is to outperform the Reference Index over its recommended minimum investment period of 5 years while offering lower volatility.

## Seeyond Volatility Alternative Income

### Activities Report for the year ended June 30, 2024

<b>1 Year Performance</b>	
<b>Fund I/A (EUR)</b>	<b>5.25%</b>

From June 2023 to June 2024, the Fund returned (+5.25%) and its average Vega over the period was (-0.50%). The Fund didn't suffer from the Equity sell-off and managed to return around (+1.50%) from end of June to late October when the MSCI World hedged in EUR was down more than (+7.00%). The reason is that we were mostly invested in carry strategies and Equities sold-off in slow motion, without any major daily sell-off so the market was in spot-down vol-down regime, benefiting our strategy. This Equity sell-off was also used to increase the directional exposure and benefit from the Equity rebound. From December onwards, the market has been in a spot-up vol-up regime, not ideal for the strategy, hence the lackluster performance in Q1 and Q2 2024. The Fund returned (+1.30%) in Q3 2023, (+2.57%) in Q4 2023, (+0.49%) in Q1 2024 and (+0.80%) in Q2 2024.

## Ostrum Global Emerging Bonds

### Activities Report for the year ended June 30, 2024

<b>1 Year Performance</b>	
<b>Fund I/A (USD)</b>	<b>9.24%</b>
JP Morgan EMBI Global Diversified*	9.23%

The Fund posted a performance very close to its benchmark (+9.24%) for the JP Morgan EMBI Global Diversified in USD and (+7.13%) hedged in EUR. The main driver of the markets has been the global monetary landscape and especially expectations regarding the U.S. Fed. The mix of solid global economic activity and expectations of U.S. rate cuts proved to be a solid market driver during the Q4 2023 and Q1 2024. Emerging market debt spread tightened substantially from 432bp to a low of 323pb in April 2024. High yield (B-, CCC and distressed) sovereign issuers outperformed the asset class.

\* The investment objective of the Fund is to outperform the Reference Index over its recommended minimum investment period of 3 years.

## **REPORT OF THE REVISEUR D'ENTREPRISES AGREE**

### ***Report on the audit of the financial statements***

#### ***Opinion***

We have audited the financial statements of Natixis AM Funds and each of its sub-funds ("the Fund"), which comprise the statement of net assets and the statement of investments as at 30 June 2024 and the statement of changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Natixis AM Funds and each of its sub-funds as at 30 June 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### ***Basis for opinion***

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the audit of the financial statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### ***Other information***

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the “réviseur d’entreprises agréé” thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

### ***Responsibilities of the Board of Directors of the Fund for the financial statements***

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund’s and each of its sub-funds’ ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

### ***Responsibilities of the “réviseur d’entreprises agréé” for the audit of the financial statements***

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d’entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Notes to the Financial Statements

As at June 30, 2024

### **Note 1 – GENERAL**

NATIXIS AM Funds (the "SICAV") was incorporated on May 21, 2013 as a Luxembourg Société Anonyme qualifying as Société d'Investissement à Capital Variable under Part I of the Luxembourg law of December 17, 2010 on undertakings for collective investment, as amended. The SICAV is recorded in the Luxembourg Registre de Commerce et des Sociétés under the number B 177 509.

The articles of association of the SICAV were filed with the Luxembourg Registre de Commerce et des Sociétés and a publication of such deposit was made in the Mémorial C, Recueil des Sociétés et Associations on 29 May 2013.

The SICAV is an umbrella structure with multiple Sub-Funds which offers investors a choice between several classes of shares with different characteristics and fee structure.

As at June 30, 2024 shares are offered in seventeen Sub-Funds (each, a "Fund"):

- Ostrum SRI Total Return Sovereign,
- Ostrum SRI Credit Short Duration,
- Ostrum Euro Inflation,
- Ostrum SRI Euro High Dividend Equity (launched on June 18, 2024),
- Ostrum SRI Euro Aggregate,
- Ostrum Total Return Credit,
- Ostrum SRI Global Subordinated Debt,
- Ostrum Fixed Income Multi Strategies,
- Natixis Conservative Risk Parity,
- Natixis Bond Alternative Risk Premia,
- Natixis Global Multi Strategies,
- Seeyond Multi Asset Conservative Growth Fund,
- Seeyond Multi Asset Diversified Growth Fund,
- Seeyond SRI Europe Minvol,
- Seeyond SRI Global Minvol,
- Seeyond Volatility Alternative Income,
- Ostrum Global Emerging Bonds.

On November 3, 2023, the Ostrum Euro Credit merged into Ostrum SRI Credit Euro.

On December 1 2023, the DNCA Global Convertible Bonds merged into DNCA Invest – Global Convertibles and the DNCA Global Sport Equity merged into DNCA Invest – Global Sport.

On May 30, 2024, the Ostrum Sustainable Euro Sovereign 1-3 merged into Ostrum SRI Total Return Sovereign.

On November 9, 2023, the Seeyond Volatility Strategy ceased operations.

On June 21, 2024, Ostrum Global Aggregate ceased operations.

The SICAV's Board of Directors has appointed Natixis Investment Managers International (the "Management Company") as its management company and has delegated to the Management Company all powers related to the investment management, administration and distribution of the SICAV. However, the SICAV's Board of Directors oversees and retains ultimate responsibility for the SICAV and its activities.

Natixis Investment Managers International is a Société Anonyme incorporated under French law on the 25th April 1984 for an unlimited period of time, regulated by the French financial supervisory authority (AMF) and licensed as a Management Company in accordance with article L-532-9 of the French monetary and financial code.

# Natixis AM Funds

## Notes to the Financial Statements

As at June 30, 2024 (continued)

### Note 1 – GENERAL (continued)

The Management Company is a subsidiary of Natixis Investment Managers, an international asset management group. Headquartered in Paris and Boston, Natixis Investment Managers is wholly-owned by Natixis. Natixis is a subsidiary of BPCE, the second-largest banking group in France.

Natixis Investment Managers International is also promoter of the SICAV.

### Note 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### a) Presentation of financial statements

These financial statements have been prepared under going concern basis of accounting in accordance with Luxembourg legal and regulatory requirements applicable to undertakings for collective investment, except for the Funds liquidated during the year for which a liquidation basis of accounting was applied.

The combined financial statements of the SICAV are expressed in EUR and are equal to the sum of the corresponding captions in the financial statements of each Fund with no elimination of cross-investments. If cross-investments were eliminated, the recalculated combined net asset value would amount to EUR 2,546,346,305.

These cross-investments amount to EUR 58,388,821 and are detailed as follows:

<b>Fund</b>	<b>Cross Investments</b>	<b>Amount (in EUR)</b>
Ostrum SRI Credit Short Duration	Ostrum SRI Global Subordinated Debt	5,146,644
Ostrum SRI Euro Aggregate	Ostrum Total Return Credit	7,694,465
Ostrum SRI Euro Aggregate	Ostrum SRI Global Subordinated Debt	11,876,425
Ostrum SRI Euro Aggregate	Ostrum Global Emerging Bonds	6,751,265
Ostrum SRI Global Subordinated Debt	Ostrum Total Return Credit	1,488,715
Ostrum Fixed Income Multi Strategies	Ostrum Global Emerging Bonds	142,182
Ostrum Fixed Income Multi Strategies	Ostrum SRI Global Subordinated Debt	4,607,235
Natixis Conservative Risk Parity	Natixis Global Multi Strategies	1,993,400
Natixis Conservative Risk Parity	Natixis Bond Alternative Risk Premia	882,720
Seeyond Multi Asset Conservative Growth Fund	Seeyond Volatility Alternative Income	7,536,919
Seeyond Multi Asset Diversified Growth Fund	Seeyond Volatility Alternative Income	5,567,814
Seeyond SRI Global Minvol	Seeyond SRI Europe Minvol	4,701,037
		<b>58,388,821</b>

#### b) Method of calculation

The value of each Fund's assets shall be determined as follows:

- Securities and money market instruments traded on exchanges and Regulated Markets* – last closing price unless the Management Company believes that an occurrence after the publication of the last market price and before any Fund next calculates its net asset value will materially affect the security's value. In that case, the security may be fair valued at the time the Administrative Agent determines its net asset value by or pursuant to procedures approved by the Management Company.
- Securities and money market instruments not traded on a Regulated Market (other than short-term money market instruments)* – based upon valuations provided by pricing vendors, which valuations are determined based on normal, institutional-size trading of such securities using market information, transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders.

# Natixis AM Funds

## Notes to the Financial Statements

As at June 30, 2024 (continued)

### Note 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### b) Method of calculation (continued)

- c. *Short-term money market instruments (with remaining maturities of 60 days or less)* – amortized cost (which approximates market value under normal conditions).
- d. *Futures, options and forwards* – unrealized gain or loss on the contract using current settlement price. When a settlement price is not used, future and forward contracts will be valued at their fair value as determined pursuant to procedures approved by the Management Company, as used on a consistent basis.
- e. *Shares of open-ended funds* – last published net asset value.
- f. *Cash on hand or deposit, bills, demand notes, accounts receivable, prepaid expenses, cash dividends and interest declared or accrued and not yet received* – full amount, unless in any case such amount is unlikely to be paid or received in full, in which case the value thereof is arrived at after the Management Company or its agent makes such discount as it may consider appropriate in such case to reflect the true value thereof.
- g. *Credit Default Swaps (CDS), Credit Default Index Swaps (CDX), Interest Rate Swaps (IRS), Total Return Rate Swaps (TRRS) and Inflation Swaps (INF)* – Swaps are marked to market based upon daily prices obtained from third party pricing agents and verified against the value from the counterparty. Realised appreciation/(depreciation) and change in unrealised appreciation/(depreciation) resulting there from are included in the statement of changes in net assets respectively under the heading “Net realised appreciation/(depreciation) on swaps” and “Change in net unrealised appreciation/(depreciation) on swaps”.
- h. *Repurchase agreements* – the Fund may enter into repurchase agreement transactions and may act either as purchaser or seller in repurchase agreement transactions or a series of continuing repurchase transactions under restrictions described in Prospectus. Securities that are the subject of repurchase agreement are included in the Statement of Investments. Changes in unrealised appreciation / (depreciation) as a result thereof are included in the statement of changes in net assets respectively under “Net realised appreciation / (depreciation) on sales of investments” and “Change in net unrealised appreciation / (depreciation) on repurchase agreement”.
- i. *All other assets* – fair market value as determined pursuant to procedures approved by the SICAV.

#### c) Foreign exchange translation

The value of all assets and liabilities not expressed in the Reference Currency of a Fund will be converted into the Reference Currency of such Fund at rates last quoted by any major bank.

As at June 30, 2024, the following exchange rates to EUR we used:

Currency	EUR Exchange rate	Currency	EUR Exchange rate
AUD	1.604777	KRW	1,475.263920
CAD	1.466529	MXN	19.597485

# Natixis AM Funds

## Notes to the Financial Statements

As at June 30, 2024 (continued)

### **Note 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

#### **c) Foreign exchange translation (continued)**

As at June 30, 2024, the following exchange rates to USD we used:

Currency	USD Exchange rate	Currency	USD Exchange rate
AUD	1.497342	JPY	160.860000
BRL	5.554450	MXN	18.285500
CAD	1.368350	NOK	10.647500
CHF	0.898600	PLN	4.020050
EUR	0.933053	TRY	32.783500
GBP	0.791077	ZAR	18.260000

#### **d) Swing Pricing Adjustment**

Subscriptions and redemptions can potentially have a dilutive effect on the Funds' NAVs per share and be detrimental to long term investors as a result of the costs, bid-offer spreads or other losses that are incurred by the SICAV in relation to the trades undertaken by the Management Company. In order to protect the interest of existing Shareholders, the Management Company may decide to introduce a Swing Pricing mechanism for any Fund.

If, for the Funds listed below, net subscriptions or net redemptions on any calculation day exceeds a certain threshold ("the Swing Threshold"), the net asset value per share will be adjusted respectively upwards or downwards by a Swing Factor. Swing Thresholds and Swing Factors are determined and reviewed on a periodic basis by the Management Company.

The Swing Factor is set by the Management Company to reflect estimated dealing and other costs, and may not exceed 2% of the original net asset value.

The volatility of the Funds' net asset values may not reflect the true portfolio performance, and therefore might deviate from the Funds' benchmark as a consequence of the application of the Swing Pricing mechanism. Performance fees, if any, are calculated on the basis of the net asset value before the application of Swing Pricing adjustments.

The swing pricing mechanism may be applied to the following Funds:

- Ostrum SRI Total Return Sovereign,
- Ostrum SRI Credit Short Duration,
- Ostrum Euro Inflation,
- Ostrum SRI Euro Aggregate,
- Ostrum Global Aggregate,
- Ostrum Total Return Credit,
- Ostrum SRI Global Subordinated Debt,
- Ostrum Fixed Income Multi Strategies,
- Natixis Bond Alternative Risk Premia,
- Seeyond SRI Europe Minvol,
- Seeyond SRI Global Minvol,
- Ostrum Global Emerging Bonds.

During the year ended June 30, 2024, Ostrum SRI Credit Short Duration, Ostrum Global Aggregate and Ostrum Global Emerging Bonds applied swing pricing adjustment.

As of June 30, 2024, none of the Funds net asset values were swung.

### **Note 3 – MANAGEMENT AND ADMINISTRATION FEES**

Management fees and Administration fees are charged to the Funds in the form of an ALL-in fee, accrued daily and calculated on the basis of the average net asset value of each Fund.

# Natixis AM Funds

## Notes to the Financial Statements

As at June 30, 2024 (continued)

### Note 3 – MANAGEMENT AND ADMINISTRATION FEES (continued)

If the yearly actual expenses paid by the Funds exceed the applicable All-in fee, the Management Company will support the difference; if the yearly actual expenses paid by the Fund are lower than the applicable All-in fee, the Management Company will keep the difference. The difference between the yearly actual expenses paid by the Funds and the applicable All-in fees is recorded in the management fees caption of the statement of operations.

Management fees comprise the aggregate amount of Management Company fees, Investment Managers fees, Distributors fees and registration fees.

Administration fees comprise the fees due to the Depository bank, the Administrative Agent, the Paying Agent, the Domiciliary and Corporate Agent and Registrar and Transfer Agent, the costs relating to the translation and printing of key information documents, prospectus and reports to shareholders, independent auditor's fees, outside counsels and other professionals as well as other administrative expenses.

The rates applicable as at June 30, 2024 are as follows:

Funds	Share class	Management fees	Administration fees	Total (All-in fee)	Maximum indirect Management fees

## Notes to the Financial Statements

As at June 30, 2024 (continued)

### Note 4 – PERFORMANCE FEES

The Management Company is entitled to receive a performance fee applicable to certain share class of certain Funds as disclosed in the SICAV's prospectus. The performance fee is based on a comparison of the Value Asset and the Reference Asset.

The Value Asset is defined as a portion of the net assets corresponding to each share class, valued in accordance with the rules applicable to the assets and taking into account the All-in fee corresponding to the said share class excluding any swing pricing adjustment.

The Reference Asset is defined as the portion of the net assets corresponding to each share class, adjusted to take into account the subscription/redemption amounts applicable to the said share class at each valuation, and valued in accordance with the performance of the Reference Rate of the said share class.

Except for the Funds Ostrum SRI Total Return Sovereign, Ostrum SRI Global Subordinated Debt and Natixis Global Multi Strategies, Funds are subject to a yearly High Water Mark. At the beginning of each Observation Period, the Reference Asset used is the highest on the beginning of the first observation period and all the Valued Asset as recorded on the last full bank Business Day of the preceding Observation Periods since the inception of the Fund. This Reference Asset is adjusted to take into account the subscriptions/redemptions amount occurring between the date of recording of the Reference Rate and the start of the new Observation Period.

#### Ostrum SRI Total Return Sovereign

Share Class Type		Performance Fee rate	Reference Rate	Observation Period		
SI	Non hedged Share Class	15%	Daily-capitalized Euro Short-Term Rate (€STR) +1.00%	<ul style="list-style-type: none"> <li>▪ First Observation period: from the first Valuation day of each Share Class to the last Valuation day of June (with a minimum period of twelve months).</li> <li>▪ Thereafter: from the first Valuation day of July to the last Valuation day of June of the following year.</li> </ul>

In case of redemption, the due share of Performance Fee corresponding to the number of shares which have been redeemed is crystallised and payable to the Management Company.

In application of the ESMA Guidelines on Performance Fees (ESMA34-39-992) and Circular CSSF 20/764, the table below displays the actual amount of performance fees charged by each relevant share class and the percentage of these fees based on the Share Class Net Asset Value ("NAV"). Only the share classes for which Performance Fees have been charged are shown below:

Fund	Share class	Currency	Performance fee	% of Class Net Assets
Ostrum Total Return Credit	I/A (EUR)	EUR	4,508	0.02
Ostrum SRI Global Subordinated Debt	H-I/A (USD)	EUR	290*	0.03*
Seeyond Multi Asset Diversified Growth Fund	I/A (EUR)	EUR	301	0.58

\*Class ceased operations on December 15, 2023.

# Natixis AM Funds

## Notes to the Financial Statements

As at June 30, 2024 (continued)

### Note 5 – DISTRIBUTION FEES

The fees paid out of the Fund's assets to cover marketing and selling fund shares may cover advertising costs, compensating brokers and others who sell the Fund's shares, payments for printing and mailing prospectuses to new investors, and providing sales literature to prospective investors.

### Note 6 – OTHER CHARGES

Other Charges mainly composed of Broker fees and Legal Expenses.

### Note 7 – TAXATION

The Umbrella Fund is not subject to any Luxembourg tax on interest or dividends received by any Fund, any realised or unrealised capital appreciation of Fund assets or any distribution paid by any Fund to Shareholders. The Umbrella Fund is not subject to any Luxembourg stamp tax or other duty payable on the issuance of Shares. The Umbrella Fund is subject to the Luxembourg *taxe d'abonnement* of 0.01% per year of each Fund's net asset value with respect to class "I" Shares, class "M" Shares, class "Q", class "SI" Shares and class "S1" Shares and of 0.05% per year of each Fund's net asset value with respect to class "R" Shares, class "R2" Shares, class "RE" Shares, class "CW" Shares, class "N1" Shares and class "N" Shares. These taxes are payable quarterly on the basis of the value of the aggregate net assets of the Funds at the end of the relevant calendar quarter. No tax is due on the assets held by the Umbrella Fund in other UCITS that are already subject to subscription tax in Luxembourg.

### Note 8 – SECURITIES LENDING

As at June 30, 2024, the securities lending income generated by the Fund is as follows:

Fund	Ccy	Total Gross amount on securities lending income	Direct-indirect cost on securities lending income	Total net amount on securities lending income

### Note 15 – 144A RULE

144A is an SEC rule that modifies the two year lock up requirement on private placement securities that are without SEC registration. 144A allows debt or equity private placements to trade to and from qualified institutional investors. 144A securities are often called “restricted securities”.

### Note 16 – TRANSACTION COSTS

During the year ended June 30, 2024, the transaction costs which have been defined as brokerage transaction costs and depositary transaction costs have been charged to the Funds in relation to purchases and sales of transferable securities, money market instruments, derivatives or any other eligible assets (brokerage transaction costs on fixed income or derivatives are excluded).

Brokerage transaction costs are mainly included in the caption “Portfolio at cost” in the Statement of Net Assets of the report, and respectively in the captions “Net realised appreciation/(depreciation)” and “Change in net unrealised on appreciation/(depreciation)” in the Statement of Changes in Net Assets.

Depositary transaction costs are included in the caption “Taxes and expenses payable” in the Statement of Net Assets, and respectively in the caption “Depositary fees” in the Statement of Changes in Net Assets.

### Note 18 – SIGNIFICANT EVENTS DURING THE YEAR

A new prospectus entered into force in April 2024. Brown Brothers Harriman (Luxembourg) S.C.A. replaced CACEIS Bank as Depositary, Administrative Agent, Paying Agent, Listing Agent, Domiciliary and Corporate Agent and Registrar and Transfer Agent.

On November 3, 2023, Ostrum Euro Credit merged into Ostrum SRI Credit Euro. On December 1, 2023, DNCA Global Sport Equity merged into DNCA Invest - Global Sport and DNCA Global Convertible Bonds merged into DNCA Invest – Global Convertibles. Ostrum Sustainable Euro Sovereign 1-3 merged into Ostrum SRI Total Return Sovereign on May 30, 2024.

Seeyond Volatility Strategy liquidated on November 9, 2023.

Ostrum Global Aggregate liquidated on June 21, 2024.

There have been no other significant events affecting the Umbrella Fund during the year ended June 30, 2024.

### Note 19 – SUBSEQUENT EVENTS

There are no subsequent events to be disclosed as at June 30, 2024.

### Note 20 – SUSTAINABLE FINANCIAL DISCLOSURE REGULATION

Information referred to in Article 11(2) of Regulation (EU) 2019/2088 for sub-funds classified as Article 8 and 9 on Sustainable Investment is available in the Additional Information (unaudited), Appendix III "Sustainable Finance Disclosure Regulation" section of these financial statements.

## Appendix I

### Additional Information (Unaudited)

#### Remuneration disclosure for Natixis Investment Managers International (NIMI)

##### Remuneration policy

This NIMI remuneration policy consists of general principles applicable to all employees (see point I), specific principles applicable to employees identified by AIFM and UCITS V (see point II) and a governance mechanism applicable to all employees (see point III).

It falls under the remuneration policy defined by Natixis and is established in compliance with the provisions relating to remuneration stipulated in the following regulatory texts, as well as the guidelines of the European Securities and Markets Authority (ESMA) and the positions of the French Financial Markets Authority (Autorité des Marchés Financiers – AMF) resulting therefrom:

- Directive 2011/61/EU of the European Parliament and of the Council of 8 June 2011 on Alternative Investment Fund Managers, transposed into the French Monetary and Financial Code by Order No. 2013-676 of 27 July 2013 (AIFM Directive);
- Directive 2014/91/EU of the European Parliament and of the Council of 23 July 2014 on undertakings for collective investment in transferable securities (UCITS), transposed into the French Monetary and Financial Code by Order No. 2016-312 of 17 March 2016 (UCITS V Directive);
- Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments, transposed into the Monetary and Financial Code by Order No. 2016-827 of 23 June 2016, supplemented by the Delegated Regulation 2017/565/EU of 25 April 2016 (MiFID II Directive);
- Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector.

##### I. GENERAL PRINCIPLES OF THE REMUNERATION POLICY

The remuneration policy is a strategic element of the NIMI policy. As a tool to enhance employee motivation and commitment, it aims to be competitive and attractive in relation to the rest of the industry while fully complying with key financial indicators and regulations. NIMI's remuneration policy, which applies to all employees, counts the alignment of employees' interests with those of investors among its fundamental principles:

- It is consistent and promotes sound and efficient risk management and does not encourage risk-taking that would be incompatible with the risk profiles, regulations or documents constituting the products managed.
- It is in line with the economic strategy, objectives, values and interests of the Management Company and the products it manages, as well as those of investors, and includes measures aimed at preventing conflicts of interest.

The remuneration policy covers all components of remuneration, which include fixed remuneration and, where applicable, variable remuneration.

Fixed remuneration rewards skills, professional experience and level of responsibility. It takes into account market conditions.

Variable remuneration depends on the assessment of collective performance – measured at the level of the Management Company and the products managed – and individual performance. It considers quantitative and qualitative elements, which may be established on an annual or multi-year basis.

<b>Remuneration disclosure for Natixis Investment Managers International (NIMI)</b>
---

#### Remuneration policy (continued)

##### I. GENERAL PRINCIPLES OF THE REMUNERATION POLICY (continued)

###### I-1. Definition of performance

The objective and transparent assessment of annual and multi-year performance based on predefined objectives is a prerequisite for applying the NIMI remuneration policy. It ensures the fair and selective treatment of employees. This assessment is shared between the employee and their manager during an individual appraisal interview.

The contribution and performance level of each employee are evaluated with regard to their duties, assignments and level of responsibility in the Management Company. In this context, the remuneration policy distinguishes several categories of staff:

- The Management Committee is assessed on its contribution to the definition and implementation of the Management Company's strategy, this strategy being part of that of the international distribution platform and that of Dynamic Solutions. The Management Committee is also assessed on its ability to expand the performance of product and service offerings, on the performance of the distribution activity and, more generally, on the development of the group's multi-boutique model, as well as on the risk-adjusted financial performance within its scope of supervision. For this category, performance is assessed annually through quantitative indicators linked to changes in NIMI's financial results and supervised activities, as well as a contribution to the overall performance of Natixis IM. Performance is also assessed through the achievement of qualitative objectives, such as the quality of management and/or responsibility for/contribution to cross-functional projects.

- Support functions are assessed on their ability to proactively support the strategic challenges of the Management Company. Individual performance is assessed annually through the achievement of qualitative objectives, such as the quality of recurring business activity and/or the degree of participation in cross-functional projects or strategic/regulatory projects. These objectives are defined annually in accordance with those of NIMI, those of the international distribution platform and, where applicable, those of Dynamic Solutions.

- Assessment of the performance of control functions is based solely on the evaluation of qualitative criteria, such as participation in crossfunctional projects or in strategic/regulatory plans, defined annually, to avoid compromising their independence or creating conflicts of interest with the activities they control.

- The performance of management functions is assessed according to a quantitative criterion linked to the generation of value through allocation, supplemented by qualitative criteria.

The quantitative criterion reflects the challenges of achieving the management performance sought by investors without, however, authorising excessive risk-taking, which may have an impact on the risk profile of NIMI and/or the products managed.

These quantitative criteria are calculated over a predefined period in line with the risk-adjusted performance horizon of the funds managed and of the Management Company.

Specific criteria incorporating risks related to sustainability, i.e. environmental, social and governance issues, must be defined for all management team employees.

- Assessment of the performance of real asset private debt management functions is based on two criteria (one quantitative, one qualitative), which, if successfully met, means that the interests of the Management Company and investor clients are both being served by the funds and strategies managed by the team.

The quantitative criterion measures the amount of funds raised from investors and reflects each manager's involvement in the development of the assets under management, which generate income for the business activity. The qualitative criterion is designed to ensure that investments made on behalf of clients have been made with strict application of the investment criteria defined with those clients. It also aims to ensure that the manager has performed an exhaustive advance analysis of the

### Additional Information (Unaudited) (continued)

<b>Remuneration disclosure for Natixis Investment Managers International (NIMI)</b>
---

#### Remuneration policy (continued)

##### I. GENERAL PRINCIPLES OF THE REMUNERATION POLICY (continued)

###### I-1. Definition of performance (continued)

risk factors expected during the investment and throughout the entire holding period. In the event that any risk factor occurs, the relevance of the corrective measures that will be carried out diligently, and in the sole interest of the investor, will be taken into account. In other words, this criterion does not penalise the manager for the occurrence of a credit event (credit risk is in fact inherent in this business activity). It aims to guarantee clients that an exhaustive analysis of the risks and their mitigation factors has been carried out ab initio, followed by a control process conducted for the duration of the holding period. This enables a well-considered and effective response in case of a credit event in order to neutralise or limit the impact for investors.

- Assessment of the performance of the distribution functions is based on the evaluation of quantitative and qualitative criteria. The quantitative criteria are based on gross inflows, net inflows, revenue, the profitability of the assets under management and how these change. The qualitative criteria include the diversification and development of the business (new clients, new affiliates, new expertise etc.) and the joint consideration of the interests of NIMI and those of clients.

For all categories of staff, the performance assessment incorporates qualitative criteria.

These qualitative criteria always include compliance with regulations and NIMI's internal procedures in terms of risk management and compliance.

They may also include the quality of the relationship with clients, including the level of expertise and advice provided, improving the reliability of a process, participating in a cross-disciplinary project, participating in the development of new expertise, contributing to the development of operational efficiencies or any other aspects defined by the strategic objectives set out by NIMI.

For each category of staff, all quantitative and qualitative objectives are defined and communicated individually at the start of the year, in line with NIMI's strategic objectives.

###### I-2. Remuneration components

###### I-2.1. Fixed remuneration

NIMI strives to maintain a level of fixed remuneration that sufficiently remunerates employees for their professional activity.

Fixed remuneration rewards the skills, professional experience and level of responsibility expected of an employee when performing their duties.

The positioning of fixed remuneration is reviewed periodically to ensure that it is consistent with regard to geographical and professional market practices.

Fixed salaries are reviewed once a year as part of the annual remuneration review. Outside that period, only promotions, internal job moves or exceptional individual circumstances may lead to a review.

###### I-2.2. Variable remuneration

The variable remuneration packages are defined based on the annual results of NIMI, the international distribution platform and Dynamic Solutions, and also by reference to qualitative elements, such as the practices of competitor companies, the general market conditions applicable at the time the results were obtained and any factors that may have temporarily influenced the business line's performance.

Variable remuneration, where awarded, is paid to reward an individual annual performance achieved as part of a collective performance.

# Natixis AM Funds

## Appendix I (continued)

### Additional Information (Unaudited) (continued)

<b>Remuneration disclosure for Natixis Investment Managers International (NIMI)</b>
---

#### Remuneration policy (continued)

##### I. GENERAL PRINCIPLES OF THE REMUNERATION POLICY (continued)

##### I-2. Remuneration components (continued)

##### I-2.2. Variable remuneration (continued)

NIMI's collective variable remuneration consists of a profit-sharing and incentive scheme, together with a company savings plan (plan d'épargne d'entreprise – PEE) and a company collective retirement savings plan (plan d'épargne pour la retraite collectif – PERCO).

Employees can benefit from a matching scheme under these plans.

This collective variable remuneration has no incentive impact on the risk management of NIMI and/or the managed products and does not fall within the scope of the AIFM or UCITS V directives.

In compliance with the total variable remuneration packages, individual variable remuneration is allocated as part of the annual remuneration review in an objective and discretionary manner, on the basis of the assessment of individual performance and the way in which this performance is achieved. Variable remuneration awarded to employees is affected by inappropriate risk and compliance management or non-compliance with regulations and internal procedures over the year considered (see I-1. above).

Identified employees are subject to specific obligations for adherence to the rules on risks and compliance. A breach of these obligations may result in a partial reduction or total cancellation of the individual variable remuneration awarded.

In the event of a loss or a significant fall in its profits, NIMI may also decide to reduce or entirely cancel the amount allocated to individual variable remuneration, together with any deferred instalments of variable remuneration previously awarded and in the process of vesting.

Similarly, in the event that a major sustainability-related risk materialises, i.e. an environmental, social or governance event or situation occurs that could have a material and lasting adverse impact on the value of the funds/products under management, the package allocated to individual variable remuneration may be reduced or even cancelled, as may any deferred instalments of variable remuneration previously awarded and not yet fully vested.

There are no contractual guarantees for variable remuneration, with the occasional exception of variable remuneration awarded for the first year of work in connection with external recruitment. "Golden parachute" agreements are forbidden. Payments related to the early termination of an employment contract are defined in accordance with legal provisions (legal and contractual indemnities) and the performance of the beneficiary, the area of the business to which they belong and the performance of the entire Management Company over the period. They are designed to avoid rewarding failure.

Variable remuneration is not paid through instruments or methods that facilitate circumvention of the requirements established in the regulations.

##### I-2.3. Key employee retention scheme

NIMI wants to ensure that its investors have confidence in the stability of its teams.

In order to achieve this, a deferred remuneration system has been incorporated into its remuneration policies.

Beyond a certain variable threshold, this scheme leads to the allocation of a portion of the variable remuneration in the form of a cash payment indexed to the change in the consolidated financial performance of Natixis IM measured by its earnings before tax (EBT), recorded each year over a minimum period of three years. The portion of variable remuneration thus deferred is vested in equal tranches over a period of at least three years and gives employees a stake in the performance of Natixis IM. The deferred variable remuneration rate is calculated by applying a deferred remuneration table.

## Appendix I (continued)

### Additional Information (Unaudited) (continued)

<b>Remuneration disclosure for Natixis Investment Managers International (NIMI)</b>
---

#### Remuneration policy (continued)

##### I. GENERAL PRINCIPLES OF THE REMUNERATION POLICY (continued)

###### I-2. Remuneration components (continued)

###### I-2.3. Key employee retention scheme (continued)

This scheme is subject to conditions of employment and the absence of conduct inconsistent with the company's standards that may have an impact on NIMI's level of risk. Vesting of these tranches may be subject to a repayment commitment, either in full or in part, in order to ensure ex-post risk adjustment.

###### I-2.4. Balance between fixed and variable remuneration

NIMI ensures that there is an appropriate balance between the fixed and variable components of overall remuneration and that the fixed component represents a sufficiently high proportion of overall remuneration so that a fully flexible policy can be exercised with regard to variable components of remuneration, including the option of paying no variable component. All individual situations for which variable remuneration represents more than 100% of fixed remuneration and which can be explained by market practice and/or an exceptional level of responsibility, performance and behaviour, are documented by the Human Resources Department as part of the annual remuneration review.

##### II. IMPLEMENTATION OF THE SCHEME APPLICABLE TO EMPLOYEES IDENTIFIED UNDER AIFM AND/OR UCITS V

###### II-1. Identified employees

In accordance with regulatory provisions, NIMI's identified employees include the categories of employee, including executive managers, risk-takers and those exercising a control function, as well as any employee who, based on their total remuneration, is in the same remuneration bracket as executive managers and risk-takers, whose employment activities have a material impact on the risk profile of the Management Company and/or the products managed by the Management Company. These persons are identified based on their employment activities, their level of responsibility or their overall level of remuneration.

To maintain consistency and alignment, NIMI has decided to implement the system applicable to identified employees across the full scope of products managed (mandates, UCITS and AIFs).

The following employee categories are identified:

- Members of the management body
- Members of staff responsible for portfolio management
- Managers of control functions (risk, compliance and internal control)
- Managers of support or administrative activities
- Other risk-takers
- Employees who, given their overall remuneration, are in the same remuneration bracket as general management and risk-takers.

Each year, prior to the annual remuneration review, the Human Resources Department draws up and formally records the identification methodology and scope of NIMI's identified population in conjunction with the Director of Permanent Controls.

The scope of the entire identified employee population is then validated by NIMI's General Management and sent for approval to the Board of Directors in its supervisory function, before being provided to the Natixis Remuneration Committee.

The entire identification process is documented and archived by the Human Resources Department. The employees concerned are also informed of their status.

## Appendix I (continued)

### Additional Information (Unaudited) (continued)

<b>Remuneration disclosure for Natixis Investment Managers International (NIMI)</b>
---

#### Remuneration policy (continued)

#### **II. IMPLEMENTATION OF THE SCHEME APPLICABLE TO EMPLOYEES IDENTIFIED UNDER AIFM AND/OR UCITS V (continued)**

##### **II-2. Scheme applicable to variable remuneration allocated to identified employees**

In accordance with regulations and in order to ensure alignment between employees, investors and the management company, as soon as the variable remuneration of identified employees exceeds a certain threshold, it is partly deferred and partly awarded in the form of a financial instrument vesting pro rata temporis over a period of at least three years.

The proportion of the variable remuneration that is deferred over three years increases with the amount of variable remuneration awarded and can reach 60% for the highest remuneration at NIMI. Currently, the application methods for the deferred payment are as follows:

- Up to €199,000 in variable remuneration: no deferral
- Between €200,000 and €499,000: 50% of the amount deferred from the first euro
- From €500,000: 60% of the amount deferred from the first euro.

The thresholds for triggering deferred variable remuneration are subject to change depending on regulations or changes to internal policies.

In this case, the new thresholds are subject to approval by NIMI's Management Committee and the Natixis Remuneration Committee.

A minimum of 50% of the variable remuneration is also awarded in financial instruments in the form of indexed cash payments:

- For teams directly involved in portfolio management, with the exception of those managing real asset private debt, on the basis of the performance of a selection of products managed by NIMI.
- For teams that are not directly involved in portfolio management and teams managing real asset private debt, on the basis of changes in Natixis IM's consolidated financial performance measured by its earnings before tax (EBT), recorded each year over a minimum period of three years.

The vesting of the deferred portion of variable remuneration is subject to conditions relating to continued employment and to Natixis IM's consolidated financial performance as well as the absence of conduct inconsistent with the company's standards that could have an impact on the level of risk for NIMI and/or the products managed.

This vesting is also subject to obligations in terms of adherence to the rules on risks and compliance. Failure to comply with these obligations may result in a partial or total reduction of the vested portion. It may also be subject to a full or partial repayment commitment in order to ensure ex-post risk adjustment.

Employees in receipt of deferred variable remuneration are prohibited from using personal hedging or insurance strategies over the entire vesting period.

The terms and conditions for determining, valuing, awarding, vesting and paying deferred variable remuneration as an equivalent financial instrument are detailed in the NIMI and Natixis IM Long-Term Incentive Plan (LTIP).

# Natixis AM Funds

## Appendix I (continued)

### Additional Information (Unaudited) (continued)

<b>Remuneration disclosure for Natixis Investment Managers International (NIMI)</b>
---

#### Remuneration policy (continued)

##### III. GOVERNANCE

The general and specific principles of the remuneration policy are drawn up and formally documented by NIMI's Human Resources Department in line with the policy applicable to the global distribution platform.

NIMI's Permanent Controls Department and Risk Department have an active role in the development, ongoing monitoring and assessment of the remuneration policy. They are thus involved in determining the overall strategy applicable to the Management Company to promote the development of effective risk management. As such, they are involved in determining the scope of identified employees. They are also responsible for assessing the impact of the variable remuneration structure on the risk profile of managers.

NIMI's remuneration policy is approved by the NIMI Board of Directors in its supervisory function.

The general and specific principles, the application methods and quantified data of the remuneration policy, including identified employees and the highest remuneration levels, are approved in turn and in detail by the members of NIMI's Management Committee, then by an Intermediary Committee established at Federation level that encompasses all of the distribution, support and control functions of the Natixis IM Group, and which includes NIMI, in particular. This Intermediary Committee brings together the General Management teams of NIMI and Natixis IM. It then submits the above information in summary form for the approval of Natixis General Management, which then transmits it to the Natixis Remuneration Committee.

NIMI does not have its own remuneration committee but, as a member of the Natixis Group, reports to the Natixis Remuneration Committee.

The Natixis Remuneration Committee was established and acts in accordance with regulations (1):

- Both in its composition: the independence and expertise of its members, the majority of whom, like its Chairman, do not perform executive functions within NIMI, are external to the Natixis Group and are therefore completely independent;
- And in the exercise of its duties, which in management companies more specifically includes the following roles:
  - Advice and assistance to the Board of Directors for the development and implementation of the Management Company's remuneration policy;
  - Assistance to the Board of Directors in overseeing the development and operation of the Management Company's remuneration system;
  - Particular attention is paid to the assessment of the mechanisms adopted to ensure that the remuneration system considers all the categories of risk, liquidity and level of assets under management in an appropriate manner and to ensure compatibility of the remuneration policy with the economic strategy, objectives, values and interests of the Management Company and the products managed, as well as with those of investors.

In this context, the general and specific principles, the compliance of NIMI's remuneration policy with the applicable regulations, and the application methods and summary calculated data of its remuneration policy, including details of identified employees and the highest remuneration levels, are submitted to the Natixis Remuneration Committee for a final review, before being approved by its Board of Directors in its supervisory role.

The remuneration of NIMI's Chief Executive Officer is set by the General Management teams of Natixis IM and Natixis, then presented to the Natixis Remuneration Committee.

# Natixis AM Funds

## Appendix I (continued)

### Additional Information (Unaudited) (continued)

#### Remuneration disclosure for Natixis Investment Managers International (NIMI)

##### Remuneration policy (continued)

##### III. GOVERNANCE (continued)

The remuneration packages of NIMI's Risk and Compliance Directors are reviewed by Natixis IM's Risk and Compliance Directors as part of the independent reviews carried out by the risk and compliance functions. They are then submitted to the Natixis Remuneration Committee.

In short, all roles assigned to remuneration committees and set out in the regulatory texts are, in practice, performed by the Intermediary Committee established at Federation level, which incorporates NIMI, and/or by the Natixis Remuneration Committee.

The general and specific principles of the remuneration policy are communicated internally to all employees and members of the Works Council. NIMI also complies with all its obligations in terms of external advertising.

This entire review, validation and communication process takes place every year. It includes any regulatory and contextual changes and is conducted in line with the Natixis remuneration policy.

Finally, the entire NIMI remuneration policy is subject to a centralised and independent annual review by Natixis IM's Internal Audit Department. When NIMI delegates the financial management of one of the portfolios that it manages to another management company, it ensures that this delegated company complies with the regulations in force.

##### Remuneration paid during the last financial year

The total amount of remuneration for the financial year paid by the Management Company to its staff, broken down into fixed and variable remuneration, and the number of beneficiaries, is as follows:

Fixed remuneration in 2023*:	€ 26,700,811
Variable remuneration awarded for 2023:	€ 9,475,558
Employees concerned:	337 employees

\* *Theoretical fixed remuneration for full-time equivalents (FTE) in December 2023*

The aggregate amount of remuneration, broken down into the senior executives and members of staff of the Management Company whose activities have a significant impact on the risk profile of the Management Company and/or portfolios is as follows:

Total remuneration awarded for 2023:	€ 5,818,749 including:
- Senior executives:	€ 2,777,750
- Members of staff:	€ 3,040,999

Employees concerned: 32

### Additional Information (Unaudited) (continued)

<b>Remuneration disclosure for Ostrum Asset Management</b>
--

#### Remuneration policy

This OSTRUM Asset Management remuneration policy is composed of general principles applicable to all employees (see point "2. General principles"), specific principles applicable to the employees identified under AIFM and UCITS V (see "Breakdown of the system applicable to the employees identified under AIFM and/or UCITS V") and a governance system applicable to all employees (see "Governance").

It falls under the remuneration policy defined by Natixis and is established in compliance with the provisions relating to remuneration stipulated in the following regulatory texts, as well as the guidelines of the European Securities and Markets Authority (ESMA) and the positions of the French Financial Markets Authority (Autorité des Marchés Financiers – AMF) resulting therefrom:

- Directive 2011/61/EU of the European Parliament and of the Council of 8 June 2011 on Alternative Investment Fund Managers, transposed into the French Monetary and Financial Code by Order No. 2013-676 of 27 July 2013 ("AIFM Directive")
- Directive 2014/91/EU of the European Parliament and of the Council of 23 July 2014 on undertakings for collective investment in transferable securities, transposed into the French Monetary and Financial Code by Order No. 2016-312 of 17 March 2016 ("UCITS V Directive")
- Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments, transposed into the French Monetary and Financial Code by Order No. 2016-827 of 23 June 2016, supplemented by Delegated Regulation (EU) 2017/565 of 25 April 2016 ("MiFID II Directive").

Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector

#### I. GENERAL PRINCIPLES OF THE REMUNERATION POLICY

The remuneration policy is a strategic aspect of Ostrum Asset Management's policy. As a tool to enhance employee motivation and commitment, it aims to be competitive and attractive in relation to the rest of the industry while fully complying with key financial indicators and regulations.

Ostrum Asset Management's remuneration policy, which applies to all employees, counts the alignment of employees' interests with those of investors among its fundamental principles:

- It is consistent and promotes sound and efficient risk management and does not encourage risk-taking that would be incompatible with the risk profiles, regulations or documents constituting the products managed.
- It is in line with the economic strategy, objectives, values and interests of the Management Company and the products it manages, as well as those of investors, and includes measures aimed at preventing conflicts of interest.

The remuneration policy covers all components of remuneration, which include fixed remuneration and, where applicable, variable remuneration.

Fixed remuneration rewards skills, professional experience and level of responsibility. It takes into account market conditions.

Variable remuneration depends on the assessment of collective performance – measured at the level of the Management Company and the products managed – and individual performance. It considers quantitative and qualitative factors, which may be established on a yearly or multi-year basis.

##### I. GENERAL PRINCIPLES OF THE REMUNERATION POLICY (continued)

###### I-1. Definition of performance

The objective and transparent evaluation of annual and multi-year performance based on predefined objectives is the prerequisite for the application of Ostrum Asset Management's remuneration policy. It ensures the fair and selective treatment of employees. This assessment is shared between the employee and their manager during an individual appraisal interview.

The contribution and performance level of each employee are evaluated with regard to their duties, assignments and level of responsibility in the Management Company. In this context, the remuneration policy distinguishes several categories of staff:

- The Executive Committee is evaluated on its contribution to the definition and implementation of the Management Company's strategy and on its ability to increase performance in terms of product and service offerings and the risk-adjusted financial performance for its scope of supervision. For this category, performance is assessed annually through quantitative indicators, such as changes in Ostrum Asset Management's financial results and supervised activities, as well as qualitative elements, such as the quality of management and/or responsibility/contribution to cross-functional projects.

- Support functions are assessed on their ability to assist with the strategic challenges of the Management Company. Individual performance is assessed annually as a function of the quality of recurring business activity and/or the degree of participation in crossfunctional projects or strategic/regulatory projects.

- Assessment of the performance of control functions is based solely on the evaluation of qualitative criteria, such as participation in cross-functional projects or in strategic/regulatory projects, defined annually, to avoid compromising their independence or creating conflicts of interest with the activities they control.

- The performance of management functions is assessed according to quantitative criteria, supplemented by qualitative criteria. Quantitative criteria reflect the challenges of developing the management performance sought by investors without causing excessive risktaking that could have an impact on the risk profile of Ostrum Asset Management and/or the products managed. These quantitative criteria are calculated over a predefined period in line with the risk-adjusted performance horizon of the funds managed and of the Management Company.

For all categories of staff, the performance assessment incorporates qualitative criteria. These qualitative criteria always incorporate adherence to regulations and internal risk management procedures and respect for the compliance of Ostrum Asset Management.

They may also concern the quality of the relationship with clients, including the level of expertise and advice provided, the contribution to improving the reliability of a process, participation in a cross-disciplinary project, the development of new expertise, participation in the development of operational efficiency or any other areas defined as part of Ostrum Asset Management's strategic objectives.

The method for determining the variable remuneration of the managers is in line with the goal of best serving the interests of clients, with an evaluation of their satisfaction assessed through answers to a questionnaire. The business managers supplement this assessment with an analysis of the information provided by clients and ensure that the asset managers exercise the appropriate level of vigilance with regard to client requests, in particular by ensuring that they remain appropriate.

Specific criteria incorporating risks related to sustainability, i.e. social, environmental and governance issues, must be defined for the members of the Executive Committee, as well as for managers and analysts working within the management teams.

## Appendix I (continued)

### Additional Information (Unaudited) (continued)

<b>Remuneration disclosure for Ostrum Asset Management</b>
--

#### Remuneration policy (continued)

##### I. GENERAL PRINCIPLES OF THE REMUNERATION POLICY (continued)

###### I-1. Definition of performance (continued)

For each category of staff, all quantitative and qualitative objectives are defined and communicated individually at the start of the year, defined in line with the strategic objectives of Ostrum Asset Management.

###### I-2. Remuneration components

###### I-2.1. Fixed remuneration

Ostrum Asset Management strives to maintain a level of fixed remuneration that sufficiently remunerates employees for their professional activity.

Fixed remuneration rewards the skills, professional experience and level of responsibility expected of an employee when performing their duties.

The positioning of fixed remuneration is reviewed periodically to ensure that it is consistent with regard to geographical and professional market practices.

Fixed salaries are reviewed once a year as part of the annual remuneration review. Outside that period, only promotions, internal job moves or exceptional individual circumstances may lead to a review.

###### I-2.2. Variable remuneration

Variable remuneration packages are defined on the basis of the annual results of Ostrum Asset Management, as well as on qualitative elements, such as the practices of competitors, the general market conditions in which the results were obtained and any factors that may have temporarily influenced the performance of the business line. Variable remuneration, which may be allocated if applicable, remunerates annual performance, both collective and/or individual.

Ostrum Asset Management's collective variable remuneration consists of a profit-sharing and incentive scheme, together with a company savings plan (plan d'épargne d'entreprise – PEE) and a company collective retirement savings plan (plan d'épargne pour la retraite collectif – PERCOL). Employees can benefit from a matching scheme under these plans.

This collective variable remuneration has no incentive effect on Ostrum Asset Management's risk management and/or the products managed, and does not fall within the scope the AIFM or UCITS V directives.

In compliance with the total variable remuneration packages, individual variable remuneration is allocated as part of the annual remuneration review in an objective and discretionary manner, on the basis of the assessment of individual performance and the way in which this performance is achieved. Variable remuneration awarded to employees is affected by inappropriate risk and compliance management, or non-compliance with regulations and internal procedures over the year considered (see "2.1 Definition of performance" above).

Identified employees are subject to specific obligations for adherence to the rules on risks and compliance. A breach of these obligations may result in a partial reduction or total cancellation of the individual variable remuneration awarded.

## Appendix I (continued)

### Additional Information (Unaudited) (continued)

<b>Remuneration disclosure for Ostrum Asset Management</b>
--

#### Remuneration policy (continued)

##### I. GENERAL PRINCIPLES OF THE REMUNERATION POLICY (continued)

##### I-2. Remuneration components (continued)

##### I-2.2. Variable remuneration (continued)

In the event of a loss or a significant decline in its profits, Ostrum Asset Management may also decide to reduce or cancel the entire package allocated to individual variable remuneration, as well as, if applicable, any deferred instalments of variable remuneration already awarded and not fully vested.

Similarly, in the event that a major sustainability-related risk materialises, i.e. an environmental, social or governance event or situation occurs that could have a material and lasting adverse impact on the value of the funds/products under management, the package allocated to individual variable remuneration may be reduced or even cancelled, as may any deferred instalments of variable remuneration previously awarded and not yet fully vested.

There are no contractual guarantees for variable remuneration, with the occasional exception of variable remuneration awarded for the first year of work in connection with external recruitment. "Golden parachute" agreements are forbidden. Payments related to the early termination of an employment contract are defined in accordance with legal provisions (legal and contractual indemnities) and the performance of the beneficiary, the area of the business to which they belong and the performance of the entire Management Company over the period. They are designed to avoid rewarding failure. Variable remuneration is not paid through instruments or methods that facilitate circumvention of the requirements established in the regulations.

##### I-2.3. Key employee retention scheme

Ostrum Asset Management wants to ensure that its investors benefit from the continuity of service of its most talented employees and those identified as key in terms of their commitment or contribution to results.

In order to achieve this, a deferred remuneration system has been incorporated into its remuneration policies. Beyond a certain variable threshold, this system leads to the allocation of a portion of the variable remuneration in the form of a cash payment indexed to the performance of a basket of products managed by Ostrum Asset Management. The portion of variable remuneration thus deferred is vested in equal tranches over a period of at least three years and gives employees a stake in the performance of Ostrum Asset Management.

This scheme is subject to conditions of employment and the absence of conduct inconsistent with the company's standards that could have an impact on the level of risk of Ostrum Asset Management and/or the products managed. Vesting of these tranches may be subject to a repayment commitment, either in full or in part, in order to ensure ex-post risk adjustment.

##### I-2.4. Balance between fixed and variable remuneration

Ostrum Asset Management ensures that there is an appropriate balance between the fixed and variable components of the total remuneration and that the fixed component represents a sufficiently high portion of the total remuneration so that a fully flexible policy can be exercised with regard to variable components of remuneration, including the option of not paying any variable component. All individual situations for which variable remuneration represents more than twice the fixed remuneration, and which can be explained by market practice and/or exceptional level of responsibility, performance and behaviour, are documented by the Human Resources Department as part of the annual remuneration review.

## Appendix I (continued)

### Additional Information (Unaudited) (continued)

<b>Remuneration disclosure for Ostrum Asset Management</b>
--

#### Remuneration policy (continued)

#### **II. IMPLEMENTATION OF THE SCHEME APPLICABLE TO EMPLOYEES IDENTIFIED UNDER AIFM AND/OR UCITS V**

##### **II-1. Identified employees**

In accordance with regulatory provisions, Ostrum Asset Management's identified staff comprises employee categories, including executive management, risk-takers and individuals exercising a control function, as well as any employee who, on the basis of their total remuneration, is in the same remuneration bracket as executive management and risk-takers, whose professional activities have a material impact on the risk profile of the management company and/or the products managed by the management company. These individuals are identified on the basis of their employment activities, their level of responsibility or their level of total remuneration.

To maintain consistency and alignment, Ostrum Asset Management has decided to implement the system applicable to the identified population across the full scope of products managed (mandates, UCITS and AIFs).

The following employee categories are identified:

- Members of the management body,
- Employees responsible for portfolio management,
- Managers of control functions (risk, compliance and internal control),
- Managers of support or administrative functions,
- Other risk-takers,
- Employees who, given their total remuneration, are in the same remuneration bracket as executive management and risk-takers.

Each year, prior to the annual remuneration review, the Human Resources Department draws up and formalises the identification methodology and scope of Ostrum Asset Management's identified employees, in conjunction with the Department of Permanent Controls. The scope of all identified employees is then validated by the Executive Management of Ostrum Asset Management and sent for approval to the Board of Directors in its supervisory role, before being presented to the Natixis Remuneration Committee.

The entire identification process is documented and archived by the Human Resources Department. The employees concerned are also informed of their status.

##### **II-2. Scheme applicable to variable remuneration allocated to identified employees**

In accordance with regulations and in order to ensure alignment between employees, investors and the management company, as soon as the variable remuneration of identified employees exceeds a certain threshold, it is partly deferred and partly awarded in the form of a financial instrument vesting pro rata temporis over a period of at least three years.

The proportion of the variable remuneration that is deferred over three years increases with the amount of variable remuneration awarded and can reach 60% for those with the highest remuneration at Ostrum Asset Management. Currently, the application methods for the deferred payment are as follows:

- Up to €199,000 in variable remuneration: no deferral
- Between €200,000 and €499,000 in variable remuneration: 50% of the amount deferred from the first euro
- From €500,000 in variable remuneration: 60% of the amount deferred from the first euro.

## Appendix I (continued)

### Additional Information (Unaudited) (continued)

<b>Remuneration disclosure for Ostrum Asset Management</b>
--

#### Remuneration policy (continued)

#### **II. IMPLEMENTATION OF THE SCHEME APPLICABLE TO EMPLOYEES IDENTIFIED UNDER AIFM AND/OR UCITS V (continued)**

##### **II-2. Scheme applicable to variable remuneration allocated to identified employees (continued)**

The thresholds for triggering deferred variable remuneration are subject to change depending on regulations or changes to internal policies. In this case, the new thresholds defined are subject to approval by the Ostrum Asset Management Executive Committee and the Natixis Remuneration Committee.

A minimum of 50% of the variable remuneration is also awarded in financial instruments in the form of cash payments indexed to the performance of a basket of products managed by Ostrum Asset Management.

The vesting of the deferred portion of variable remuneration is subject to conditions of continued employment, the financial performance of the management company, and the absence of conduct inconsistent with the company's standards that could have an impact on the level of risk for Ostrum Asset Management and/or the products managed. This vesting is also subject to obligations in terms of adherence to the rules on risks and compliance. Failure to comply with these obligations may result in a partial or total reduction of the vested portion. It may also be subject to a full or partial repayment commitment in order to ensure ex-post risk adjustment. Employees in receipt of deferred variable remuneration are prohibited from using personal hedging or insurance strategies over the entire vesting period.

The terms and conditions for determining, valuing, awarding, vesting and paying deferred variable remuneration as an equivalent financial instrument are detailed in Ostrum Asset Management's Long-Term Incentive Plan (LTIP).

#### **III. GOVERNANCE**

The general and specific principles of the remuneration policy are defined and documented by the Ostrum Asset Management Human Resources Department.

Ostrum Asset Management's Permanent Controls Department and Risk Department have an active role in the development, ongoing monitoring and assessment of the remuneration policy. They are thus involved in determining the overall strategy applicable to the Management Company to promote the development of effective risk management. In this respect, they are involved in determining the scope of the identified population for the Permanent Controls Department and in determining the indexing and the basket of funds for the LTIP for the Risk Department. The Risk Department is also responsible for assessing the impact of the variable remuneration structure on the risk profile of managers.

Ostrum Asset Management's remuneration policy is approved by the Ostrum Asset Management Board of Directors in its supervisory function. The general and specific principles, application methods and quantified data of the remuneration policy, including the identified staff and the highest levels of remuneration, are approved in detail by the members of the Executive Committee of Ostrum Asset Management.

# Natixis AM Funds

## Appendix I (continued)

### Additional Information (Unaudited) (continued)

<b>Remuneration disclosure for Ostrum Asset Management</b>
--

#### Remuneration policy (continued)

##### III. GOVERNANCE (continued)

The Ostrum Asset Management Remuneration Committee is established and acts in accordance with regulations:

- both in its composition: the independence and expertise of its members, the majority of whom, including its Chairman, do not perform executive functions within Ostrum Asset Management, and are therefore independent

- And in the exercise of its duties, which include the following roles:

- Advice and assistance to the Board of Directors for the development and implementation of the Management Company's remuneration policy;
- Assistance to the Board of Directors in overseeing the development and operation of the Management Company's remuneration system;
- Particular attention is paid to the assessment of the mechanisms adopted to ensure that the remuneration system considers all the categories of risk, liquidity and level of assets under management in an appropriate manner and to ensure compatibility of the remuneration policy with the economic strategy, objectives, values and interests of the Management Company and the products managed, as well as with those of investors.

In this context, the general and specific principles, the compliance of Ostrum Asset Management's remuneration policy with the applicable regulations to which it is subject and the application methods and quantified summary data of its remuneration policy, including the identified employees and the highest levels of remuneration, are submitted to the Ostrum Asset Management Remuneration Committee for review, before being approved by its Board of Directors in its supervisory role.

The Executive Management of Natixis Investment Managers then submits the above information in summary form for the approval of Natixis's Executive Management, which then transmits it to the Natixis Remuneration Committee, before it is approved by its Board of Directors in its supervisory role. The Natixis Remuneration Committee itself is established and acts in accordance with regulations, both in its membership (the independence and expertise of its members) and in the exercise of its duties. The majority of its members, including its Chairman, do not hold executive positions within Ostrum Asset Management, are outside the Natixis Group and are therefore completely independent.

The remuneration of Ostrum Asset Management's Chief Executive Officer is proposed by the Executive Management of Natixis Investment Managers and Natixis, then presented to the Ostrum Asset Management Remuneration Committee and finally to the Natixis Remuneration Committee.

The remuneration packages of Risk and Compliance Directors of Ostrum Asset Management are reviewed, as part of the independent reviews carried out by the Risk and Compliance units, by the Risk and Compliance Directors of Natixis Investment Managers. They are then submitted to the Ostrum Asset Management Remuneration Committee, and then to the Natixis Remuneration Committee. In short, all roles assigned to remuneration committees and set out in the regulatory texts are in practice performed by the Remuneration Committee established at Ostrum Asset Management and/or by the Natixis Remuneration Committee.

The general and specific principles of the remuneration policy are communicated internally to all employees and members of the Works Council. Ostrum Asset Management also complies with all its obligations in terms of external reporting.

This entire review, validation and communication process takes place every year. It includes any regulatory and contextual changes and is conducted in line with the Natixis remuneration policy.

# Natixis AM Funds

## Appendix I (continued)

### Additional Information (Unaudited) (continued)

<b>Remuneration disclosure for Ostrum Asset Management</b>
--

#### Remuneration policy (continued)

##### III. GOVERNANCE (continued)

Finally, the entire remuneration policy of Ostrum Asset Management is subject to a centralised and independent annual review by the Internal Audit Department of Natixis Investment Managers.

When Ostrum Asset Management delegates the financial management of one of the portfolios that it manages to another management company, it ensures that the delegated company is in compliance with the regulations in force.

#### Remuneration paid during the last financial year

The total amount of remuneration for the financial year paid by the Management Company to its staff, broken down into fixed and variable remuneration, and the number of beneficiaries, is as follows:

Fixed remuneration in 2023*:	€ 33,136,152
Variable remuneration awarded for 2023:	€ 14,108,065
Employees concerned:	412 employees

\* *Theoretical fixed remuneration for full-time equivalents (FTE) in December 2023*

The aggregate amount of remuneration, broken down into the senior executives and members of staff of the Management Company whose activities have a significant impact on the risk profile of the Management Company and/or portfolios is as follows:

Total remuneration awarded for 2023:	€ 19,510,380 including:
- Senior executives:	€ 4,731,500
- Members of staff:	€ 14,778,880

Employees concerned: 97

## Appendix I (continued)

### Additional Information (Unaudited) (continued)

<b>Remuneration disclosure for DNCA</b>
---

#### Remuneration policy

##### I. PREAMBLE

The remuneration policy implemented by the DNCA Group (DNCA Finance and its two branches) takes into account the "common provisions on remuneration policies within management companies" drafted by the main professional associations representing asset management as well as the provisions arising from the UCITS V, AIFM, MiFID 2 Directives, ESMA's guidance on good remuneration policies under the Undertakings for Collective Investment in Transferable Securities Directive (ESMA /2016/411 and ESMA/2016/575) dated 31 March 2016 and 14 October 2016 respectively, as well as Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability disclosures in the financial services sector.

The requirements for the integration of ESG criteria arising from Article 5 of the European SFDR Regulation (Regulation 2019/2088 of the European Parliament and of the Council on the publication of sustainability information in the financial services sector" (27 November 2019) and Article 29 of the Law N°2019-1147 of 8 November 2019 on energy and climate were also taken into account. The Policy defined and formalised by DNCA Finance's Executive Committee is approved by Natixis Investment Managers (hereinafter NIM) and by DNCA Finance's supervisory body. It is reviewed annually and submitted for a compliance opinion to DNCA Finance's Head of Compliance and Internal Control.

Its purpose is to promote sound and effective risk management and not to lead members of the Supervisory Committee, the Executive Committee or any other member of the DNCA Group staff to take excessive risks.

It is also defined in such a way as to avoid situations of conflict of interest and prevent risk-taking that is ill-considered or incompatible with the interests of clients.

This policy applies to all DNCA Group personnel and specifies the specific provisions that exist for identified personnel.

The remuneration policy is based on the assessment of skills and annual and multi-year quantitative and qualitative performance criteria. Its fundamental principles include aligning the interests of investors, employees and DNCA Group companies.

##### II. SCOPE OF STAFF IDENTIFIED

The staff identified includes:

- Members of the Executive Committee
- Members of staff responsible for portfolio management
- Control function managers (risk, compliance and internal control)
- Managers of support or administrative activities
- Other risk-takers
- Employees whose total remuneration is in the same bracket as the Executive Board and risk-takers

A review of the scope of identified personnel is carried out annually.

# Natixis AM Funds

## Appendix I (continued)

### Additional Information (Unaudited) (continued)

<b>Remuneration disclosure for DNCA</b>
---

#### Remuneration policy (continued)

##### III. TYPES OF REMUNERATION

The remuneration structure for DNCA Group employees is identical for all employees and breaks down into:

- fixed remuneration;
- individual variable remuneration as specified below;
- collective variable remuneration (i.e. profit-sharing).

Collective variable remuneration is not covered by the AIFM and UCITS Directives, as it is part of a general, non-discretionary policy and does not encourage risk-taking. It is therefore excluded from the definition of remuneration.

An appropriate balance is struck between the fixed and variable components of total remuneration. The fixed component may represent a sufficiently high proportion of total remuneration so that a flexible policy can be exercised with regard to the variable components of remuneration, including the possibility of paying no variable component at all.

##### IV. DETERMINING VARIABLE PAY

Individual variable remuneration depends on the job and the level of responsibility. It is awarded on a discretionary basis according to individual performance.

It is made up as follows:

- A cash component
- A cash component indexed to a representative basket of FIAs and UCITS set up by DNCA Finance for identified staff.

The DNCA Group does not pay variable compensation using instruments or methods that would facilitate circumvention of the legislative and regulatory provisions applicable to it.

Variable remuneration is awarded on the basis of the contribution to individual performance assessed by the Executive Committee of DNCA Finance in accordance with the principles set out below.

- Variable remuneration packages are defined on the basis of the DNCA Group's annual results, but also on the basis of qualitative factors, such as the practices of competing companies, the general market conditions in which the results were obtained and factors that may have temporarily influenced the business line's performance.
- The remuneration policy figures, including the population identified and the highest remunerations, are approved successively, in detail, by the members of the DNCA Finance Supervisory Committee, then by an Intermediate Committee bringing together the DNCA Finance Supervisory Committee and NATIXIS IM General Management. NATIXIS IM then submits the above information, in a more summarised form, to NATIXIS General Management for approval, which ultimately reports to the NATIXIS Remuneration Committee.

# Natixis AM Funds

## Additional Information (Unaudited) (continued)

<b>Remuneration disclosure for DNCA</b>
---

### Remuneration policy (continued)

#### IV. DETERMINING VARIABLE PAY (continued)

##### Criteria for determining discretionary Variable Remuneration for identified staff

Performance is assessed on the basis of quantitative and qualitative criteria specific to the main business lines of the staff identified (Management, Trading Desk, Sales and Investment Advisory staff, Compliance and Control functions, etc.).

Internal / Risk). Depending on the function, it incorporates a time scale and takes into account compliance with risk limits and customer interests.

The variable remuneration package is determined on the basis of quantitative and qualitative criteria.

Specific criteria incorporating sustainability risks, i.e. social, environmental and governance issues, have been defined for:

- DNCA General Management
- Management Department
- the SRI team (managers and analysts)
- as well as the heads of management teams.

For each function, qualitative and quantitative criteria are defined, for example:

- Qualitative criteria: Monitoring and implementation of the Responsible Investor policy. Monitoring and implementation of sustainability risk management rules. Monitoring compliance with the exclusion policy (divestment). Monitoring of the application of the rules of voting and engagement by the managers....etc.
- Quantitative criteria : Application of the voting policy: 100% of companies held must be voted on at the AGM. Compliance with the minimum ABA rating depending on the strategy. For SRI-labelled funds only: compliance with the two KPIs > benchmark index. For ART9 funds: min 80% Sustainable investments, etc.

In order to avoid any conflict of interest or compromise their objectivity, the assessment of compliance and internal control managers and risk control managers is carried out on the basis of objectives and results specific to these functions, independently of those of the business lines whose operations they validate and control.

#### V. VARIABLE PAY ARRANGEMENTS FOR IDENTIFIED STAFF

- The proportion of variable compensation that is deferred over 3 years increases with the amount of variable compensation awarded and can reach 60% for the highest compensation packages in the DNCA Group. The deferral is currently applied as follows:
  - Up to €199k in variable pay: no deferral
  - Between €200K and €499K in variable pay: 50% deferred from €1
  - From €500k in variable pay: 60% deferral to the 1st euro

The thresholds for triggering deferred variable remuneration are subject to change in line with regulations or changes in internal policies.

A minimum of 50% of variable remuneration is also paid in financial instruments in the form of cash indexed to the performance of a basket of products managed by DNCA Finance.

# Natixis AM Funds

## Additional Information (Unaudited) (continued)

<b>Remuneration disclosure for DNCA</b>
---

### Remuneration policy (continued)

#### V. VARIABLE PAY ARRANGEMENTS FOR IDENTIFIED STAFF (continued)

- The Basket of Funds is determined in such a way as to seek to align the interests of employees as satisfactorily as possible with those of investors without, however, having a concentration of target funds. It is made up of UCI representing DNCA Finance's main management strategies.

This Basket of Funds may be adapted in line with developments in DNCA Finance's product range and management expertise. The composition and weighting of the Basket of Funds are reviewed annually to ensure that they are representative.

- Vesting of variable compensation is subject to the financial performance of the management company and the absence of non-standard behaviour that could have an impact on the risk level of the DNCA Group and/or the products managed.

This acquisition is also subject to risk and compliance obligations. Failure to comply with these obligations may result in a partial or total reduction in the acquisition. Lastly, it may be returned in whole or in part, to ensure that risks are adjusted after the fact.

In the event that a partial or total individual reduction in variable remuneration is envisaged, the matter will be submitted to an ad hoc committee comprising the members of the DNCA Finance Executive Committee, the heads of the HR Department, the Finance Department and the Compliance and Internal Control Department, as well as any other business line manager whose participation is relevant. This ad hoc committee will be responsible for taking the decision on the proposed partial or total reduction.

This ad hoc committee reserves the right to seek the opinion of NATIXIS IM (HR and/or Compliance departments).

Accordingly, unless otherwise provided by applicable local laws and regulations, the DNCA Group reserves the right to cancel and/or reduce variable compensation payments in the event of DNCA Finance's negative financial performance over a variable compensation vesting period and, in particular, in the event that DNCA Finance's Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA), established at the end of said vesting period, is zero or negative.

Such a decision would be the responsibility of DNCA Finance's Executive Committee and would have to be validated by the Supervisory Board, in consultation with NIM.

Unless otherwise provided for by applicable local laws and regulations, the DNCA Group also reserves the right to cancel and/or reduce variable remuneration payments in the event of the materialisation of a major sustainability risk (i.e. the occurrence of an environmental, social or governance event or situation that would have a significant and lasting negative impact on the value of the funds/products under management) in relation to the objectives set for staff.

In addition, unless otherwise provided for by applicable local laws and regulations, in the event that the employee's behaviour justifies dismissal for misconduct or removal for just cause, in particular because of his/her responsibility for actions resulting in significant losses for the company or in the event of failure to comply with the obligations of good repute and competence (or for an employee who is no longer an employee or corporate officer of the DNCA Group, a Natixis company or Groupe BPCE in France or abroad, whose behaviour would have justified dismissal for misconduct or removal for just cause under the same conditions as above, if this behaviour had been discovered while he/she was still an employee or corporate officer of the DNCA Group, a Natixis company or the BPCE Group in France or abroad), the DNCA Group reserves the right to request reimbursement of payments made in

# Natixis AM Funds

<b>Remuneration disclosure for DNCA</b>
---

### Remuneration policy (continued)

#### V. VARIABLE PAY ARRANGEMENTS FOR IDENTIFIED STAFF (continued)

respect of variable remuneration to the employee, for a period of 5 years following the date of payment.

In addition, in the event of departure following dismissal for misconduct or removal for just cause, variable remuneration not yet earned may not be paid in full or in part.

- In the event of the departure of an employee from the DNCA Group's identified population, all the financial performance conditions of the management company, the initial payment schedule and the terms of indexation to the Basket of Funds remain unchanged.

#### VI. BAN OF HEDGING STRATEGIES AND QUARANTEED VARIABLE PAY

Employees undertake not to use personal hedging or insurance strategies linked to remuneration or liability in order to counteract the impact of the risk alignment incorporated in remuneration agreements.

Variable salary guarantees are prohibited, except in the case of recruitment. In this case, the guarantee is strictly limited to one year.

## Appendix II

### Additional Information (Unaudited)

#### GLOBAL RISK EXPOSURE

##### The "Commitment approach":

The global risk exposure of the following Funds is managed through the use of the Commitment approach method as described in the Prospectus of the SICAV:

- Natixis Conservative Risk Parity
- Ostrum Euro Inflation
- Ostrum SRI Euro High Dividend Equity
- Ostrum SRI Credit Short Duration
- Ostrum SRI Euro Aggregate
- Ostrum SRI Global Subordinated Debt
- Seeyond Multi Asset Conservative Growth Fund
- Seeyond SRI Europe Minvol
- Seeyond SRI Global Minvol

##### The "Absolute VaR approach":

The following Funds use Absolute Value at Risk (VaR) approach in order to monitor and measure the global exposure.

Name	Methodology	Contractual VaR Limit	Min	Max	Average	Average Leverage (Sum of Notionals)
Ostrum SRI Total Return Sovereign	Absolute VaR	5.50%	0.37%	3.54%	1.60%	1.00
Ostrum Total Return Credit	Absolute VaR	5.00%	0.84%	2.33%	1.52%	1.00
Ostrum Fixed Income Multi Strategies	Absolute VaR	20.00%	1.37%	6.14%	2.59%	2.99
Natixis Bond Alternative Risk Premia	Absolute VaR	20.00%	1.27%	11.98%	3.51%	17.51
Natixis Global Multi Strategies	Absolute VaR	20.00%	0.52%	2.22%	1.25%	2.34
Seeyond Multi Asset Diversified Growth Fund	Absolute VaR	20.00%	3.22%	10.34%	6.83%	4.72
Seeyond Volatility Alternative Income	Absolute VaR	20.00%	2.81%	12.16%	5.48%	3.20

# Natixis AM Funds

## Appendix II (continued)

### Additional Information (Unaudited) (continued)

#### GLOBAL RISK EXPOSURE (continued)

##### The "Relative VaR approach":

The Funds Ostrum Global Aggregate and Ostrum Global Emerging Bonds use the Relative Value at Risk (VaR) approach in order to monitor and measure the global exposure. The calculation of the Relative VaR of the Fund is based on a reference portfolio which is constituted by the reference index.

Name	Methodology	Contractual VaR Limit	Min	Max	Average	Average Leverage (Sum of Notionals)
Ostrum Global Aggregate	Relative VaR	2x VaR of the Reference Index	0.85	1.93	1.34	1.33
Ostrum Global Emerging Bonds	Relative VaR	2x VaR of the Reference Index	0.88	1.13	1.01	0.16

The VaR figures have been calculated based on the following input data:

- Model used: MC
- Confidence level: 99%
- Holding period: 1 month (20 business days)
- Length of data history: 1Y

The leverage of the Fund is based on the sum of the notionals of the derivatives used.

### Additional Information (Unaudited)

#### SECURITIES FINANCING TRANSACTIONS REGULATION (SFTR) DISCLOSURES

Securities Financing Transaction Regulation ("SFTR") introduces reporting for securities financing transactions ("SFTs") and Total Return Swaps.

A Securities Financing Transaction (SFT) is defined as per Article 3(11) of the SFTR as:

- a repurchase/reverse repurchase agreement
- securities or commodities lending and securities or commodities borrowing
- a buy-sell back transaction or sell-buy back transaction, or
- a margin lending transaction.

As at June 30, 2024, Natixis Bond Alternative Risk Premia and Natixis Global Multi Strategies held Total Return Swaps as type of instruments under the scope of the SFTR.

### **Additional Information (Unaudited)**

#### **Sustainable Financial Disclosure Regulation**

Information referred to in Article 11(2) of Regulation (EU) 2019/2088 for sub-funds classified as Article 8 and 9 on Sustainable Investment is available in the Additional unaudited information SFDR (Sustainable Finance Disclosure Regulation) section.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product Name : Ostrum SRI Total Return Sovereign  
 Legal Entity Identifier : 5493 00THFQDO6K1JWA 65  
 Publication date :

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: \_\_\_%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: \_\_\_%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 91.1% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, **but did not make any sustainable investments**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the environmental and social characteristics of maintaining an average ESG rating higher than that of its investment universe (the “**Investment Universe**”).

The Fund’s GHG intensity was lower than that of the Investment Universe.

Moreover, in accordance with the SRI French label guidelines the Fund maintained an average ESG rating higher than that of its Filtered Investment Universe (as defined below) and the Government spending on health and education indicator of the Sub-Fund was higher than that of the Investment Universe (these calculations exclude non-eligible assets as defined by the SRI French label guidelines).

The Fund also complied with the sectoral and exclusions policies of the Delegated Investment Manager including the exclusion of the worst offenders of fundamental standards of responsibility.

The filtered investment universe (the “**Filtered Investment Universe**”) is defined as the Investment Universe (Euro-denominated bonds and money market securities issued by OECD and EEA member states) from which are excluded :

- 20% of the issuers with the lowest ESG ratings within each issuer category (including the most controversial issuers according to the Delegated Investment Manager’s exclusion and sector policies and the lowest rated issuers); and
- the sovereign debt.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

### ● **How did the sustainability indicators perform?**

Prerequisite: Unless otherwise indicated, the results presented below correspond to the average of the 4 quarter-ends of the reference period.

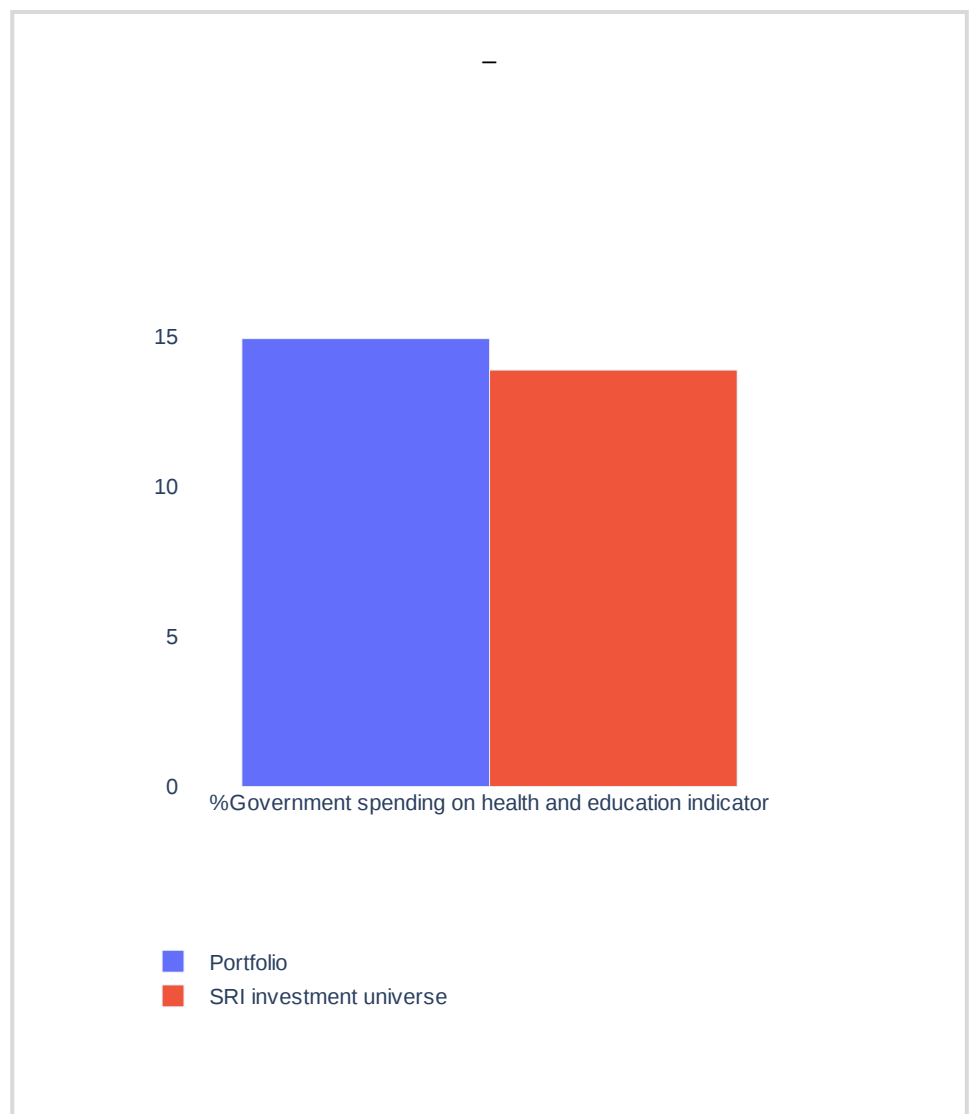

As of 28th of June 2024, the results of the sustainable indicators are :

- Average ESG rating of the fund : 83.54 (SDG Index from 0 to 100)
- Average ESG rating of the SRI investment universe : 82.35 (SDG Index from 0 to 100)
- GHG Intensity of the fund : 141.57
- GHG Intensity of the SRI investment universe : 192.4
- Government spending on health and education indicator of the fund : 14.94%
- Government spending on health and education indicator of the investment universe : 13.89%
- The number of holdings in The Fund found to be in breach of the exclusion policy : 0

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

● **... and compared to previous periods?**

The comparison of sustainability indicator performance with the previous period cannot be established due to the implementation of new requirements for the new reference period. In the previous period, the indicators were calculated based on the last value of the period, while they are now calculated as an average of the end of quarter values for the reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Sustainable investments contributed to an environmental or social objective which depends on the project being funded. In the Sub-Fund, sustainable investment are the green, social and sustainability linked bonds.

The objectives of the sustainable investments are :

- **Green Bonds:** they finance projects targeting an energetic and ecologic transition
  - Renewable energy
  - Energy efficiency
  - Pollution prevention control,
  - Sustainable environmental management of living natural resources and land use...

- **Social Bonds:** they finance projects aiming to solve or mitigate social impacts
  - Affordable basic infrastructure (drinking water, sanitation...)
  - Access to basic services (health, housing, education, training)
  - Job creation, food security, digital Access...
- **Sustainability Linked Bonds:** they finance general company needs that target an ambitious Corporate Social Responsibility policy. They are bonds based on predefined KPIs sustainable targets.

***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The Delegated Investment Manager, at the level of the Fund, took into in a quantitative way account the Principal Adverse Impacts (the “PAI”) which concern Sovereign issuers, Green bond sovereign issuers, quasi-sovereign issuers (guaranteed agencies, supranational agencies, local authorities, etc.) and semi-public issuers (non-guaranteed agencies, or sponsored, and public compagnies). The Sub-Fund does not invest in private issuers.

Taking into account PAI allows the Delegated Investment Manager to verify that sustainable investments do not harm other objectives. In addition, the Delegated Investment Manager applies its exclusion policies (especially worst offenders) and ensures a permanent monitoring of controversies.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

PAI at the level of the Fund have been taken into account at several levels as detailed in the methodology published on Ostrum Asset Management’s website <https://www.ostrum.com/fr/notre-documentation-rse-et-esg#prise-en-compte-des-pai> and summarised below:

1. PAI indicators sourcing  
Each PAI (mandatory and optional) is calculated using data provided by the data provider MSCI ESG Research at the issuer level and aggregated at portfolio level.
2. ESG Human Rights indicators and ESG rating provided by external providers  
If PAI correspond to indicators followed by the Sub-Fund, they are taken into account by the Delegated Investment Manager through the integration in the rating methodology or the definition of an investment constraint specific to the Sub-Fund.  
For instance, the GHG Intensity of the Sub-Fund is monitored and must be lower than GHG Intensity of the Investment Universe.
3. Sectoral and exclusion policies  
The Delegated Investment Manager’s exclusion and sectoral policies allow to remove from the Investment Universe any sector or issuer that fails to comply with certain criteria some of which are directly related to certain PAI (e.g. coal exclusion is related to GHG emissions).\*
4. Engagement policy and engagement campaigns  
Through its engagement policy and engagement campaigns, the Delegated Investment Manager tries to influence companies to limit the negative impact of its investment decisions on Environmental, social, respect for human rights and the fight against corruption issues\*.  
\*The Sub-Fund does not invest in private issuers.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not Applicable

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The mandatory PAI which concern which concern Sovereign issuers, Green bond sovereign issuers, quasi-sovereign issuers (guaranteed agencies, supranational agencies, local authorities, etc.) and semi-public issuers (non-guaranteed agencies, or sponsored, and public companies) have been taken into account.. The methodology is available on Ostrum Asset Management's website <https://www.ostrum.com/fr/notre-documentation-rse-et-esg#prise-en-compte-des-pai>

If PAI correspond to indicators followed by the Sub-Fund, they are taken into account by the Delegated Investment Manager of the Sub-Fund through the integration in the rating methodology or the definition of an investment constraint specific to the Sub-Fund.

For instance, the GHG Intensity of the Sub-Fund is monitored and must be lower than GHG Intensity of the Investment Universe.

In addition, the Delegated Investment Manager applies its exclusion and sectoral policies which allow to remove from the Investment Universe any sector or issuer that fails to comply with certain criteria some of which are directly related to PAI (Investee countries subject to social violations through our exclusions policies (worst offenders))More information on principal adverse impacts on sustainability factors is available in the periodic reporting pursuant to Article 11(2) of the SFDR.

\*Green Bonds

The displayed country is the country of risk.

The displayed percentages of assets are the average of the four end of trimesters of the exercise.

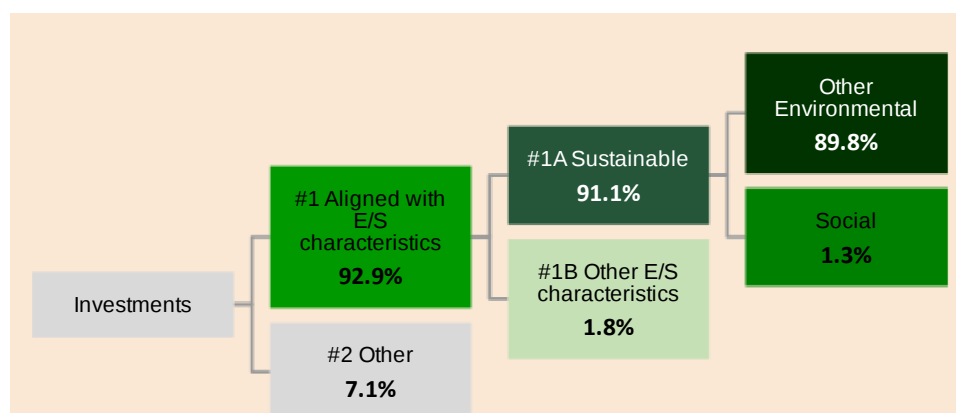

## What was the proportion of sustainability-related investments?

As of 28th of June 2024, the share of sustainable investment was 91.1%.

### ● What was the asset allocation?

Prerequisite : the fund promotes environmental and social (E/S) characteristics with a minimum of sustainable investment since May 2024; that is why the results displayed below are not an average of the 4 quarter-ends of the reference period.

As of 30th of June 2024, the fund invested 92.9% of its Asset under Management in securities alignes with the E/S Characteristics. Hence, 7.1% of the Asset under Management were invested in the category #2. Others.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remainings investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

### Asset allocation

describes the share of investments in specific assets.

● **In which economic sectors were the investments made?**

All economic sectors belonging to the investment universe except those subject to exclusions, in accordance with the exclusion policies applied by the fund .

**To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not Applicable. At the reporting date, based on the available reported and estimated issuer data, the management company did not identify any gas or nuclear taxonomy alignment in the investment portfolio.”

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup> ?**

Yes:

In fossil gas  In nuclear energy

No

1. Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

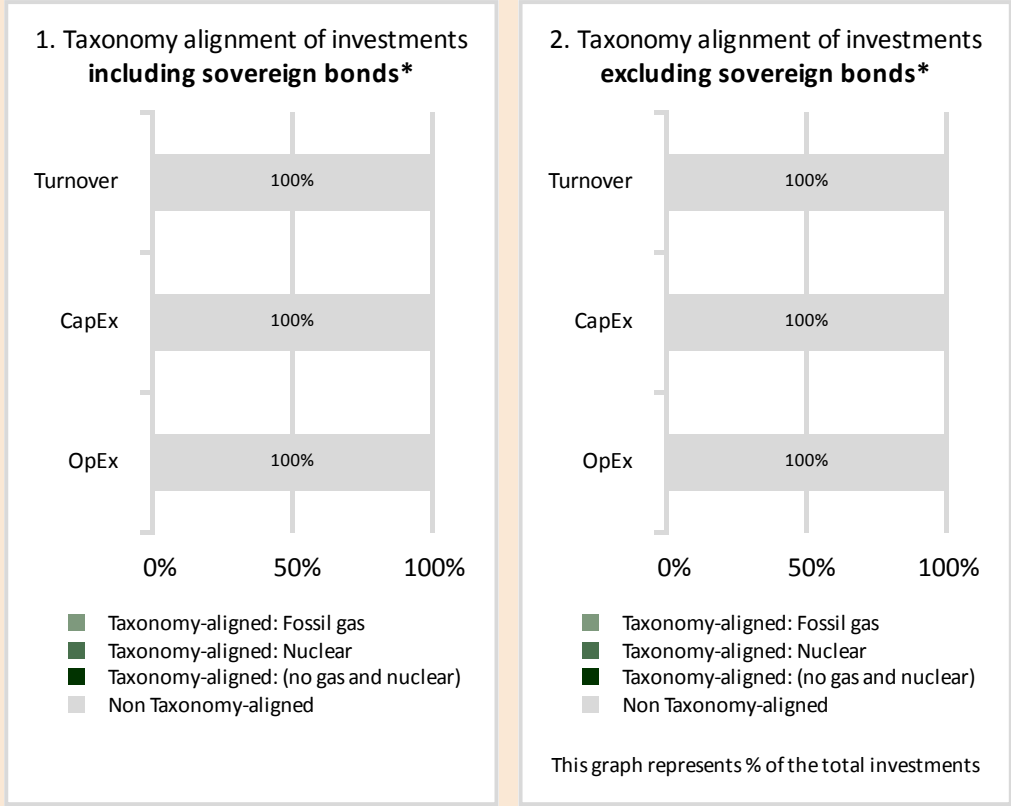

**Transitional activities** are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **Turnover** reflecting the share of revenue from green activities of investee companies,

- **Capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **Operational expenditure (OpEx)** reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- **What was the share of investments made in transitional and enabling activities?**  
Not Applicable
- **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**  
Not Applicable

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Sub-Fund commits to a minimum of 1% of sustainable investments with an environmental objective. These investments could be aligned with the EU Taxonomy but the Delegated Investment Manager is not currently in a position to specify the exact proportion of the Sub-Fund's underlying investments which take into account the EU criteria for environmentally sustainable economic activities. However, the position is kept under review as the underlying rules are finalized and the availability of reliable data increases over time.

**What was the share of socially sustainable investments?**

As of 28th of June 2024, the share of socially sustainable investment was 1.3%.

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Are included in others :, assets not covered by an ESG rating, cash (excluding cash not invested), the proportion of UCIs not aligned with E/S characteristics, derivatives traded on a regulated or over the counter markets for hedging and/or exposure purposes, repurchase and revers repurchase agreements for cash management purposes and to optimise the Sub-Fund’s income and performance. Information on the list of assets classes and financial instruments and their use can be found in the Prospectus. Minimum environmental or social safeguards are not systematically applied.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the fund achieved its environmental and social objectives by:

- Selecting the best rated issuers according to an ESG rating
- By aiming to maintain the average ESG rating of the portfolio, better than that of its investment universe

### How did this financial product perform compared to the reference benchmark?

Not Applicable

- **How did the reference benchmark differ from a broad market index?**  
Not Applicable
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not Applicable
- **How did this financial product perform compared with the reference benchmark?**  
Not Applicable
- **How did this financial product perform compared with the broad market index?**  
Not Applicable

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product Name : Ostrum SRI Credit Short Duration  
 Legal Entity Identifier : 5493 00DRWTJV30SSEL 30  
 Publication date :

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: \_\_\_%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: \_\_\_%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 26.89% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, **but did not make any sustainable investments**

## To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the environmental and social characteristics of maintaining an average ESG rating higher than its Filtered Investment Universe (as defined below) and avoiding issuers based on sectoral and exclusions policies including worst offenders of fundamental standards of responsibility

The filtered investment universe (the “Filtered Investment Universe”) is defined as the initial investment universe (euro-denominated credit) from which are excluded:

- 20% of the issuers with the lowest ESG ratings within each issuer category (including the most controversial issuers according to Ostrum's exclusion and sector policies and the lowest rated issuers); and
- the sovereign debt.

In addition, the Fund's GHG intensity must be lower than the one of its Investment Universe. These calculations exclude non-eligible assets as defined by the SRI French label.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

### ● **How did the sustainability indicators perform?**

Prerequisite: Unless otherwise indicated, the results presented below correspond to the average of the 4 quarter-ends of the reference period.

As of 28th of June 2024, the results of the sustainable indicators are :

- Average ESG rating of the Fund : 3.56
- Average ESG rating of the SRI investment universe : 3.63
- GHG Intensity Fund : 56.91
- GHG Intensity of the SRI investment universe : 116.9

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

● **... and compared to previous periods?**

The comparison of sustainability indicator performance with the previous period cannot be established due to the implementation of new requirements for the new reference period. In the previous period, the indicators were calculated based on the last value of the period, while they are now calculated as an average of the end of quarter values for the reference period.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Sustainable investments that raise funds for activities contribute to an environmental or social objective depending on the project being funded. These are the green, social and sustainability linked bonds in the Sub-Fund.

The objectives of the Sustainable Investments are :

**Green Bonds:** they finance projects targeting an energetic and ecologic transition

- Renewable energy
- Energy efficiency
- Pollution prevention & control,
- Sustainable environmental management of living natural resources and land use...

**Social Bonds:** they finance projects aiming to solve or mitigate social impacts

- Affordable basic infrastructure (drinking water, sanitation...)
- Access to basic services (health, housing, education, training)
- Job creation, food security, digital Access...

**Sustainability Linked Bonds:** they finance general company needs that target an ambitious Corporate Social Responsibility policy. They are bonds based on predefined KPIs sustainable targets.

***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The Delegated Investment Manager takes into account all the Principal Adverse Impacts (the “PAI”) in a quantitative way (. Taking into account PAI allows The Delegated Investment Manager to verify that sustainable investments do not harm other objectives. In addition, the Delegated Investment Manager applies its exclusion policies (especially worst offenders) and ensures a permanent monitoring of controversies.

***How were the indicators for adverse impacts on sustainability factors taken into account?***

PAI at the level of the funds managed by Ostrum Asset Management, the Delegated Investment Manager, are taken into account at several levels as detailed in the methodology published on Ostrum Asset Management’s website <https://www.ostrum.com/fr/notre-documentation-rse-et-esg#prise-en-compte-des-pai> and summarised below:

1. PAI indicators sourcing  
Each PAI (mandatory and optional) is calculated using data provided by the data provider MSCI ESG Research at the issuer level and aggregated at portfolio level.
2. ESG Human Rights indicators and ESG rating provided by external providers  
If PAI correspond to indicators followed by the Sub-Fund, they are taken into account by the Delegated Investment Manager through the integration in the rating methodology or the definition of an investment constraint specific to the Sub-Fund.  
For instance, the GHG Intensity of the Sub-Fund is monitored and must be lower than GHG Intensity of the Investment Universe (these calculations exclude non-eligible assets as defined by the SRI French label)
3. Sectoral and exclusion policies  
The Delegated Investment Manager’s exclusion and sectoral policies allow to remove from the investment universe any sector or issuer that fails to comply with certain criteria some of which are directly related to certain PAI (e.g. coal exclusion is related to GHG emissions).
4. Engagement policy and engagement campaigns  
Through its engagement policy and engagement campaigns, the Delegated Investment Manager tries to influence companies to limit the negative impact of its investment decisions on Environmental, social, respect for human rights and the fight against corruption issues

***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The Delegated Investment Manager applied its exclusion policies (especially worst offenders) and ensures a permanent monitoring of controversies.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

All mandatory PAI are taken into account. The methodology is available on Ostrum Asset Management's website <https://www.ostrum.com/fr/notre-documentation-rse-et-esg#prise-en-compte-des-pai>

If PAI correspond to indicators followed by the Sub-Fund, they are taken into account by the Delegated Investment Manager through the integration in the rating methodology or the definition of an investment constraint specific to the Sub-Fund.

For instance, the GHG Intensity of the Sub-Fund is monitored and must be lower than GHG Intensity of the Investment Universe

In addition, the Delegated Investment Manager applies its exclusion and sectoral policies which allow to remove from the investment universe any sector or issuer that fails to comply with certain criteria some of which are directly related to PAI (e.g. coal exclusion is related to GHG emissions)

More information on principal adverse impacts on sustainability factors is available in the periodic reporting pursuant to Article 11(2) of the SFDR

## What was the proportion of sustainability-related investments?

As of 28th of June 2024, the share of sustainable investment was 26.89%.

### ● What was the asset allocation?

**Reminder:** the results published below represent the average of the 4 quarter-ends of the reference period.

As of 28st of June 2024, the fund invested 85.49% of its NAV in companies that qualify as aligned with E/S characteristics (#Aligned with E/S characteristics). Hence, the fund invested 14;51% in the category # Other.

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● ***In which economic sectors were the investments made?***

All economic sectors belonging to the investment universe except those subject to exclusions, in accordance with the exclusion policies applied by the fund .

**To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable.

● ***Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy <sup>1</sup> ?***

Yes:

In fossil gas  In nuclear energy

No

1. Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **Turnover** reflecting the share of revenue from

green activities of investee companies,

- **Capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **Operational expenditure (OpEx)** reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- **What was the share of investments made in transitional and enabling activities?**  
Not Applicable.
- **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**  
Not Applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund commits to a minimum of 1% of sustainable investments with an environmental objective. These investments could be aligned with the EU Taxonomy but the Delegated Investment Manager is not currently in a position to specify the exact proportion of the Sub-Fund's underlying investments which take into account the EU criteria for environmentally sustainable economic activities. However, the position is kept under review as the underlying rules are finalized and the availability of reliable data increases over time.

**What was the share of socially sustainable investments?**

As of 28th of June 2024, the share of socially sustainable investment was 2.86%.

## What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included in “#2 other”: sovereign debt, assets not covered asset by an ESG rating, cash (excluding cash not invested), the proportion of UCIs not aligned with E/S characteristics, derivatives traded on a regulated or over the counter markets for hedging and/or exposure purposes, repurchase and revers repurchase agreements for cash management purposes and to optimise the Sub-Fund’s income and performance. Information on the list of assets classes and financial instruments and their use can be found in the Prospectus. Minimum environmental or social safeguards are not systematically applied.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the fund met its environmental and social objectives by:

- Selecting issuers from among the best rated according to an ESG rating
- Seeking to maintain a better average ESG rating for the portfolio than that of its investment universe
- Being invested in Green, Sustainable and Social bonds for at least 5% of assets, including 1% in Social bonds.
- 

The portfolio’s Great rating was managed over the period to be lower than that of the investment universe. Management has systematically taken into account the analysis of issuers included in the fund’s overall rating. At 28/06/2024, the portfolio’s SRI rating stood at 3.58 and remains better than its reference universe, whose average rating was 3.61 on a scale of 1 to 10.

We favoured investment in “green”, “social”, “SLB” and “sustainable” issues. Thanks in particular to the primary market, we increased the share of these securities to 43.1%, including 12.1% green bonds, 2.7% social bonds, 1.1% SLB and 27.1% MSCI flagged investments.

Over the period, the fund considered the main negative impacts on sustainability factors in its securities selection. For example, it did not invest in issuers such as Enbw Gas GMBH or TotalEnergies. Conversely, we favoured issuers considered more virtuous in terms of these sustainability factors, such as Iberdrola.

## How did this financial product perform compared to the reference benchmark?

- **How did this financial product perform compared with the reference benchmark?**

Not Applicable

- **How did this financial product perform compared with the broad market index?**

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not Applicable

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product Name : Ostrum Euro Inflation  
 Legal Entity Identifier : 5493 0002KMABI9MYHI 39  
 Publication date :

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: \_\_\_%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: \_\_\_%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 0% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, **but did not make any sustainable investments**

## To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the environmental and social characteristics of maintaining an average ESG rating higher than that of the Bloomberg Euro Govt Inflation Linked Bond 1 to 10 Year Treasury Index (the “Reference Index”) and excluding countries that are considered as controversial according to the Delegated Investment Manager. Additionally, the Fund’s GHG intensity must be lower than that of the Reference Index.

No reference benchmark has been designated for the purpose of attaining the E/S characteristics promoted by the Fund.

### ● *How did the sustainability indicators perform?*

Prerequisite: Unless otherwise indicated, the results presented below correspond to the average of the 4 quarter-ends of the reference period.

As of 28th of June 2024, the results of the sustainable indicators are:

- Percentage of investments made in countries under US or European embargo that would be contrary to the restrictions in force : 0
- Percentage of investments in countries identified by the Financial Action Task Force as having strategic deficiencies in their anti-money laundering and anti-terrorist financing systems : 0
- average ESG rating of the Sub-Fund 81.25
- average ESG rating of the Reference Index 81.14
- GHG Intensity of the Sub-Fund 151.07
- GHG intensity of the Reference Index 153.63

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

● **... and compared to previous periods?**

The comparison of sustainability indicator performance with the previous period cannot be established due to the implementation of new requirements for the new reference period. In the previous period, the indicators were calculated based on the last value of the period, while they are now calculated as an average of the end of quarter values for the reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

**Principal adverse impacts** are the most significant negative impacts of

investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The mandatory PAI which concern Sovereign issuers, Green bond sovereign issuers, quasi-sovereign issuers (guaranteed agencies, supranational agencies, local authorities, etc.) and semi-public issuers (non-guaranteed agencies, or sponsored, and public companies) have been taken into account.

The methodology is available on Ostrum Asset Management's website (<https://www.ostrum.com/fr/notre-documentation-rse-et-esg#prise-en-compte-des-pai>).

The Fund does not invest in private issuers.

If PAI correspond to indicators followed by the Sub-Fund, they are taken into account by the Delegated Investment Manager through the integration in the rating methodology or the definition of an investment constraint specific to the Sub-Fund.

For instance, the GHG Intensity of the Sub-Fund is monitored and must be lower than GHG Intensity of the Reference Index.

In addition, the Delegated Investment Manager applied exclusion and sectoral policies which allow to remove from the investment universe any sector or issuer that fails to comply with certain criteria some of which are directly related to PAI

More information on principal adverse impacts on sustainability factors is available in the periodic reporting pursuant to Article 11(2) of the SFDR.

The displayed country is the country of risk.

The displayed percentages of assets are the average of the four end of trimesters of the exercise.

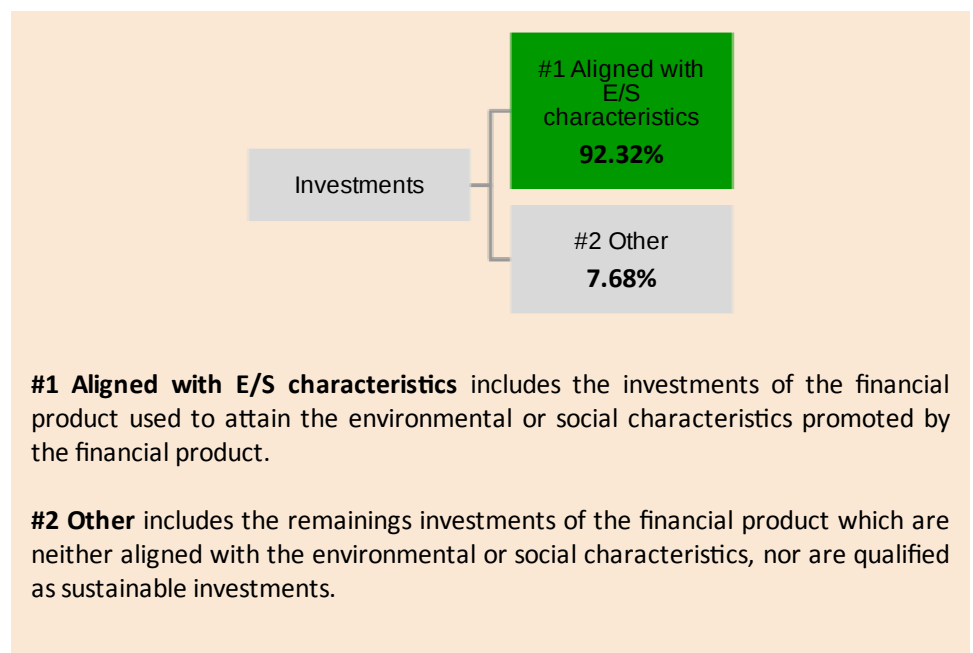

## What was the proportion of sustainability-related investments?

Not applicable.

### ● **What was the asset allocation?**

**Reminder:** the results published below represent the average of the 4 quarter-ends of the reference period.

As of 28st of June 2024, the fund invested 92.32% of its NAV in companies that qualify as aligned with E/S characteristics (#Aligned with E/S characteristics). Hence, the fund invested 7.68% in the category # Other.

### ● **In which economic sectors were the investments made?**

All economic sectors belonging to the investment universe except those subject to exclusions, in accordance with the exclusion policies applied by the fund.

## To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

To comply with the EU Taxonomy, the criteria for **fossil gas**

include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **Turnover** reflecting the share of revenue from green activities of investee companies,
- **Capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **Operational expenditure** (OpEx) reflecting green operational

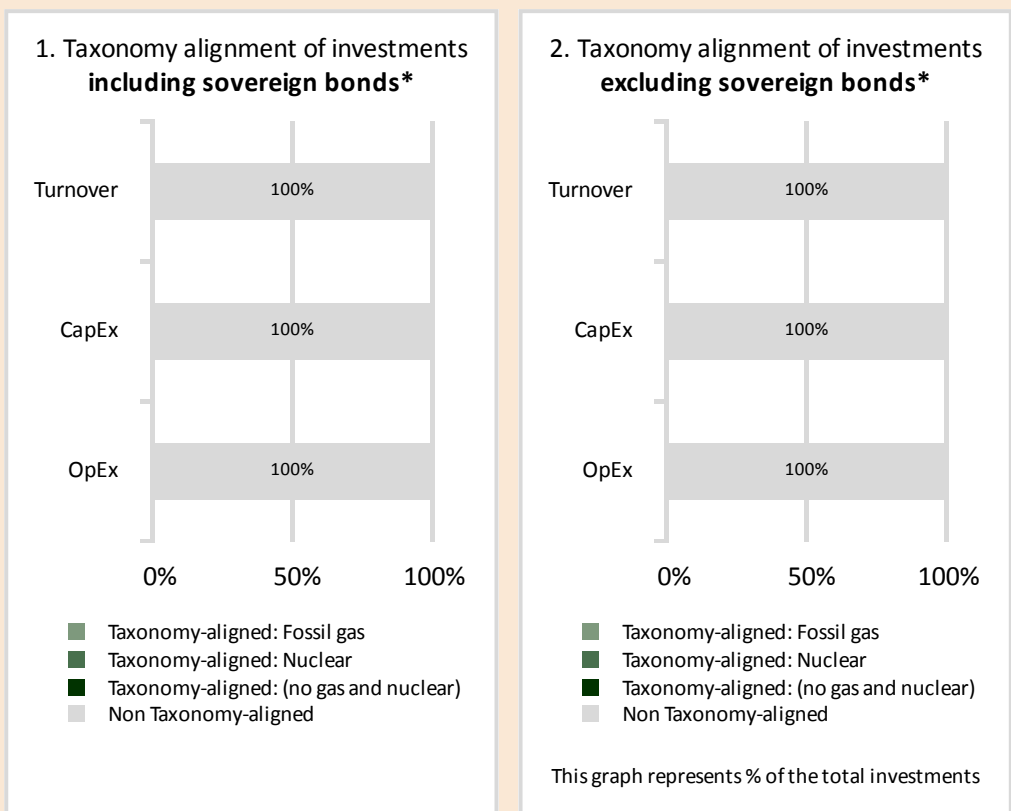

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup> ?**

Yes:  
 In fossil gas     In nuclear energy

No

1. Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. ● **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

activities of investee companies.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

### **What was the share of socially sustainable investments?**

Not applicable.

### **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The following investments are included in “#2 Other” : cash, assets not covered by an ESG rating, money market funds, futures, options or swaps, as well as over-the-counter forward contracts, to expose its assets to interest rate, foreign exchange or credit risks, or hedge against such risks, within the limits set out in section “Use of derivatives, investment techniques and special hedging instruments” of the Investment Policy of the Sub-Fund . Minimum environmental or social safeguards are not systematically applied.

### **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund promotes E/S characteristics, but will not make any sustainable investments. The Sub-fund will invest at least 85% of its NAV in investments aligned with E/S characteristics (#1 Aligned with E/S characteristics). The Sub-fund may invest up to 15% of its NAV in cash, non-ESG rated assets, money market funds, futures, futures, options and swaps, as well as over-the-counter contracts, to expose its assets to interest rate, currency or credit risk or to hedge against such risks (#2 Other).

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: \_\_\_%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: \_\_\_%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 0% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, **but did not make any sustainable investments**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the environmental and social characteristics of maintaining an average ESG rating higher than that of its Filtered Investment Universe (as defined below). The filtered investment universe (the “Filtered Investment Universe”) is defined as the initial investment universe (the MSCI EMU DNR index) from which are excluded 20% of the issuers with the lowest ESG ratings within each issuer category.

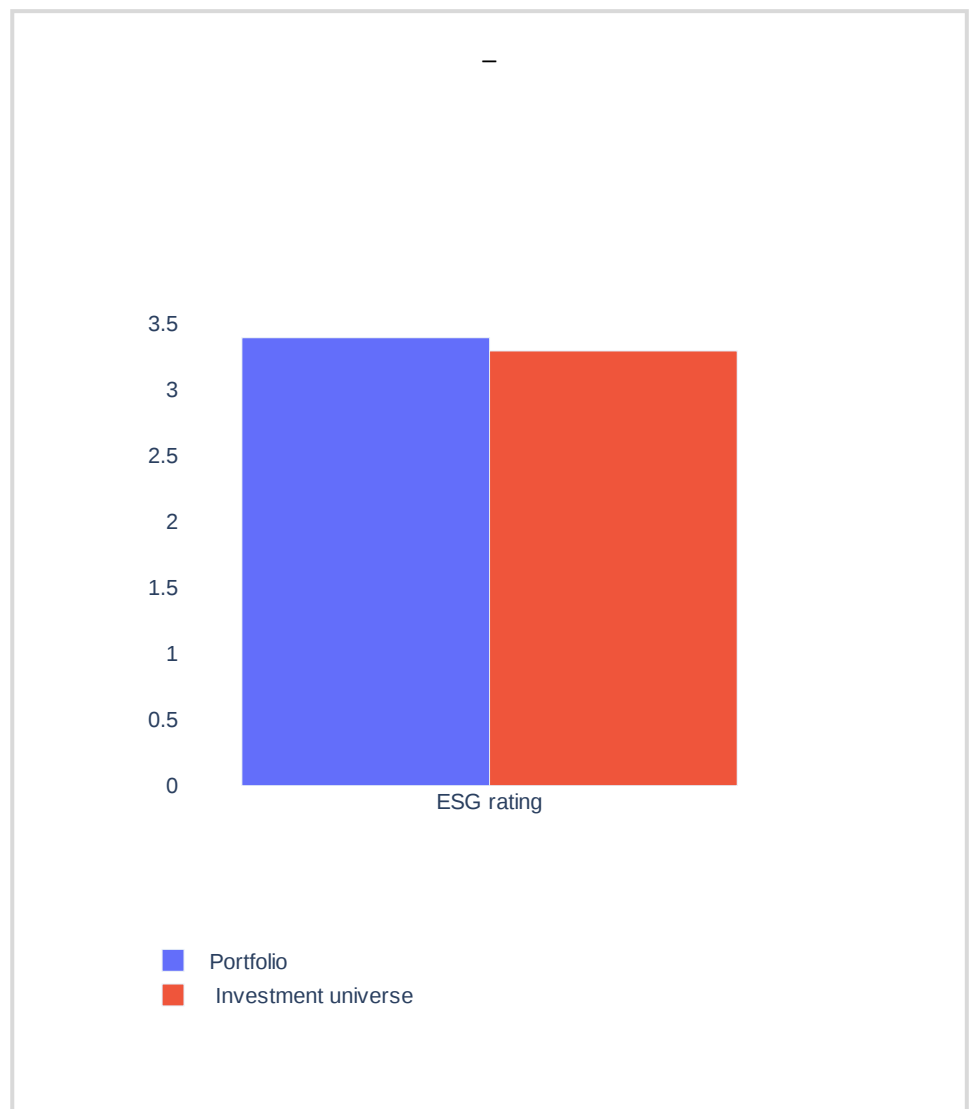

The Fund also complied with the sectoral and exclusions policies of the Delegated Investment Manager including the exclusion of the worst offenders of fundamental standards of responsibility. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Fund.

1 This Fund does not have the French “Label ISR”

### ● *How did the sustainability indicators perform?*

As of 28th of June 2024, the results of the sustainable indicators are :

- Average ESG rating of the Fund : 3.39 (GREaT score)
- Average ESG rating of the investment universe : 3.29 (GREaT score)

● **... and compared to previous periods?**

Not Applicable - this is the first SFDR document produced for this portfolio.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did this financial product consider principal adverse impacts on sustainability factors?**

All mandatory PAI are taken into account. GHG intensity of the portfolio is monitored in order to maintain it at a lower level than the SRI investment universe. More information on principal adverse impacts on sustainability factors is available in the periodic reporting pursuant to Article 11(2) of the SFDR.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product Name : Ostrum SRI Euro Aggregate  
 Legal Entity Identifier : 5493 002NJ6FRPOMN6I 22  
 Publication date :

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: \_\_\_%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: \_\_\_%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 43.79% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, **but did not make any sustainable investments**

## To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted the environmental and social characteristics of maintaining an average ESG rating higher than that of its Filtered Investment Universe (as defined below). These calculations exclude non-eligible assets as defined by the SRI French label guidelines.

The filtered investment universe (the “**Filtered Investment Universe**”) is defined as the initial investment universe (euro-denominated investment-grade credit and government bonds as well as agencies and covered bonds) from which are excluded :

- 20% of the issuers with the lowest ESG ratings within each issuer category (including the most controversial issuers according to the Delegated Investment Manager’s exclusion and sector policies and the lowest rated issuers); and
- the sovereign debt.

The Sub-Fund also complies with the sectoral and exclusions policies of the Delegated Investment Manager including the exclusion of the worst offenders of fundamental standards of responsibility

In addition, the Sub-Fund’s GHG intensity must be lower than that of the Investment Universe.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

### ● **How did the sustainability indicators perform?**

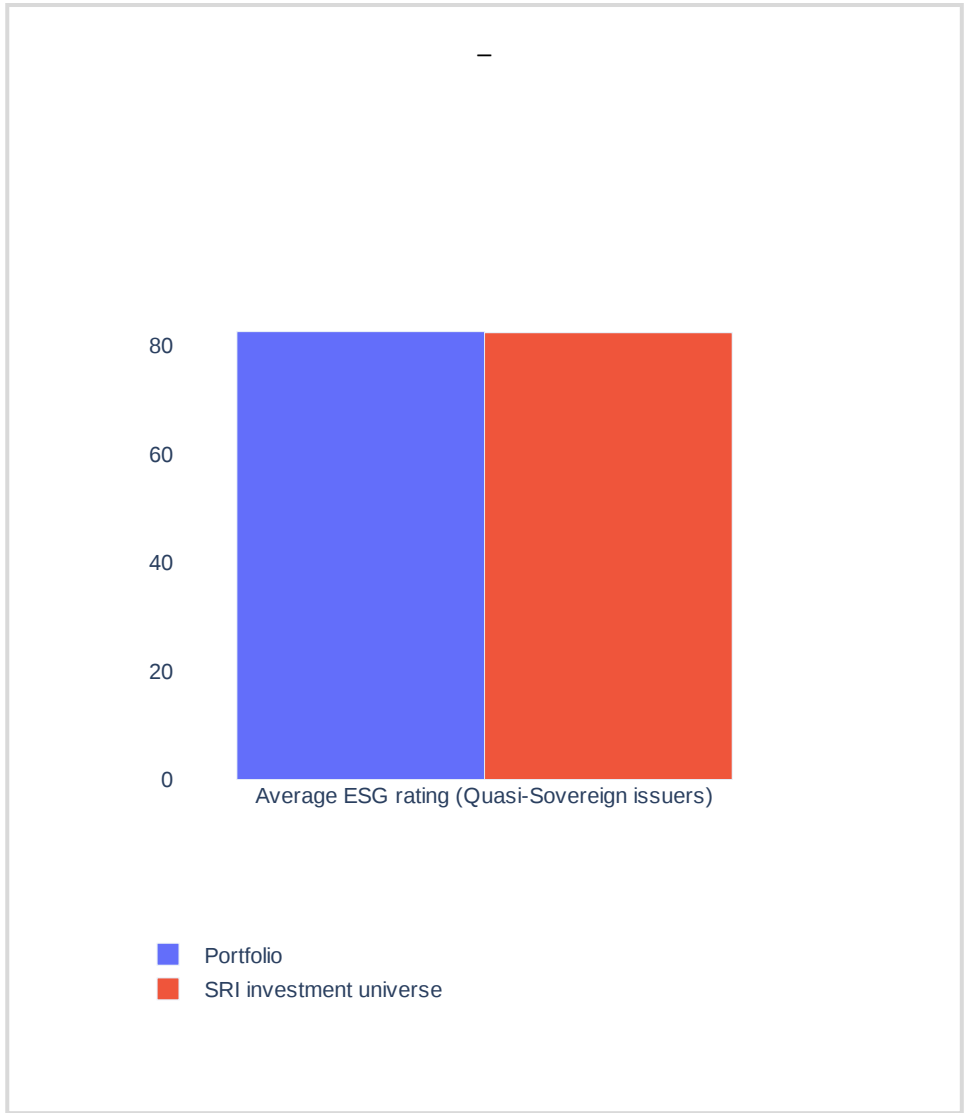

Prerequisite: Unless otherwise indicated, the results presented below correspond to the average of the 4 quarter-ends of the reference period.

As of 29th of June 2024, the results of the sustainable indicators are :

- Average ESG rating of the Fund : 3.4 for Credit securities (Provider GREaT) and 82.55 (provider SDG Index) for Quasi-Sovereign issuers
- Average ESG rating of the SRI investment universe : 3.59(Provider GREaT) for Credit securities and 82.4 for Quasi-Sovereign issuers
- GHG Intensity of the Fund : 69.27 Credit securities et 149.15 for Quasi-Sovereign issuers
- GHG Intensity of the SRI investment universe : 99.34 Credit securities and 192.58 for Quasi-Sovereign issuers
- Public expenditure on education indicator for the Fund (only for green bonds sovereign issuers and quasi-sovereign issuers) : 14.57%
- Public expenditure on education indicator for the SRI investment universe (only for green bonds sovereign issuers and quasi-sovereign issuers) : 13.89%

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

● **... and compared to previous periods?**

The comparison of sustainability indicator performance with the previous period cannot be established due to the implementation of new requirements for the new reference period. In the previous period, the indicators were calculated based on the last value of the period, while they are now calculated as an average of the end of quarter values for the reference period.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Sustainable investments contribute to an environmental or social objective which depends on the project being funded. In the Sub-Fund, sustainable investments are the green, social and sustainability linked bonds.

The objectives of the sustainable investments are :

**Green Bonds:** they finance projects targeting an energetic and ecologic transition

- Renewable energy
- Energy efficiency
- Pollution prevention & control,
- Sustainable environmental management of living natural resources and land use...

**Social Bonds:** they finance projects aiming to solve or mitigate social impacts

- Affordable basic infrastructure (drinking water, sanitation...)
- Access to basic services (health, housing, education, training)
- Job creation, food security, digital Access...

**Sustainability Linked Bonds:** they finance general company needs that target an ambitious Corporate Social Responsibility policy. They are bonds based on predefined KPIs sustainable targets.

***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The Delegated Investment Manager took into account all the Principal Adverse Impacts (the “PAI”) in a quantitative way. Taking into account PAI allows the Delegated Investment Manager to verify that sustainable investments do not harm other objectives. In addition, the Delegated Investment Manager applies its exclusion policies (especially worst offenders) and ensures a permanent monitoring of controversies.

***How were the indicators for adverse impacts on sustainability factors taken into account?***

The Investment Manager took into account all the PAI at entity level in a quantitative way (the various data relating to the PAI will be provided in a report published on the the Investment Manager website

<https://www.ostrum.com/fr/notre-documentation-rse-et-esg#prise-en-compte-des-pai> and summarised below:

1. PAI indicators sourcing  
Each PAI (mandatory and optional) is calculated using data provided by the data provider MSCI ESG Research at the issuer level and aggregated at portfolio level.
2. ESG Human Rights indicators and ESG rating provided by external providers  
If PAI correspond to indicators followed by the Sub-Fund, they are taken into account by the Delegated Investment Manager of the Sub-Fund through the integration in the rating methodology or the definition of an investment constraint specific to the Sub-Fund.  
For instance, the GHG Intensity of the Sub-Fund is monitored and must be lower than GHG Intensity of the Investment Universe
3. Sectoral and exclusion policies  
The Delegated Investment Manager’s exclusion and sectoral policies allow to remove from the investment universe any sector or issuer that fails to comply with certain criteria some of which are directly related to certain PAI (e.g. coal exclusion is related to GHG emissions).
4. Engagement policy and engagement campaigns  
Through its engagement policy and engagement campaigns, the Delegated Investment Manager tries to influence companies to limit the negative impact of its investment decisions on Environmental, social, respect for human rights and the fight against corruption issues.

***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

The Investment Manager applied its exclusion policies (especially worst offenders) and ensured a permanent monitoring of controversies.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

All mandatory PAI have been taken into account. The methodology is available on Ostrum Asset Management's website <https://www.ostrum.com/fr/notre-documentation-rse-et-esg#prise-en-compte-des-pai>

If PAI correspond to indicators followed by the Sub-Fund, they are taken into account by the Delegated Investment Manager of the Sub-Fund through the integration in the rating methodology or the definition of an investment constraint specific to the Sub-Fund.

For instance, the GHG Intensity of the Sub-Fund is monitored and must be lower than GHG Intensity of the Investment Universe

In addition, the Delegated Investment Manager applies its exclusion and sectoral policies which allow to remove from the Investment Universe any sector or issuer that fails to comply with certain criteria some of which are directly related PAI (for example :investee countries subject to social violations through our exclusions policies (worst offenders).

More information on principal adverse impacts on sustainability factors is available in the periodic reporting pursuant to Article 11(2) of the SFDR.

\*Green Bonds

The displayed country is the country of risk.

The displayed percentages of assets are the average of the four end of trimesters of the exercise.

## What was the proportion of sustainability-related investments?

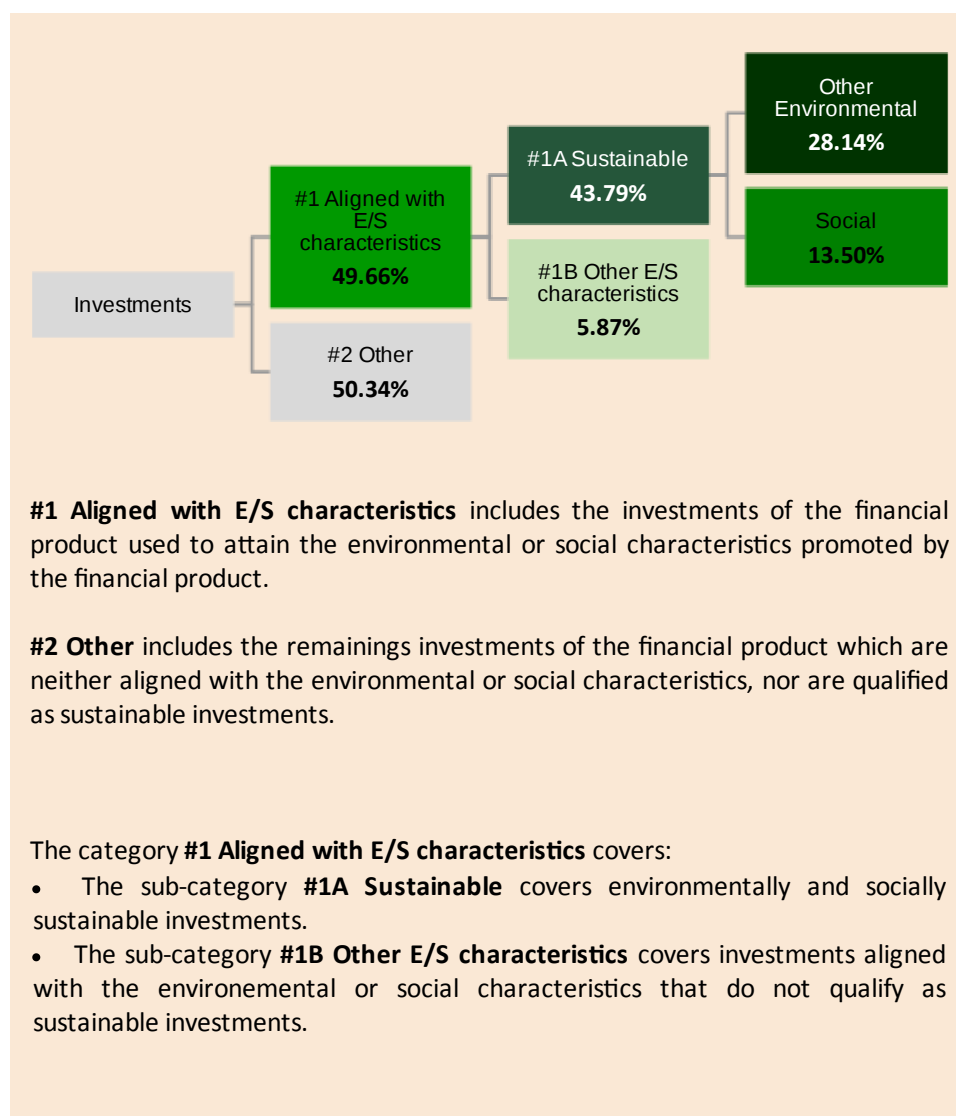

As of 28th of June 2024, the share of sustainable investment was 43.79%.

### ● What was the asset allocation?

**Reminder:** the results published below represent the average of the 4 quarter-ends of the reference period.

As of 28th of June 2024, the fund invested 49.66% of its Asset under Management in securities alignes with the E/S Characteristics\*. Therefore, 50.34% of the Asset under Management were invested in the category #2. Others

\*Since November 6, 2023, the compartment has displayed a minimum alignment percentage of 66.7%.

**Asset allocation**  
describes the share  
of investments in  
specific assets.

● **In which economic sectors were the investments made?**

All economic sectors belonging to the investment universe except those subject to exclusions, in accordance with the exclusion policies applied by the fund.

**To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup> ?**

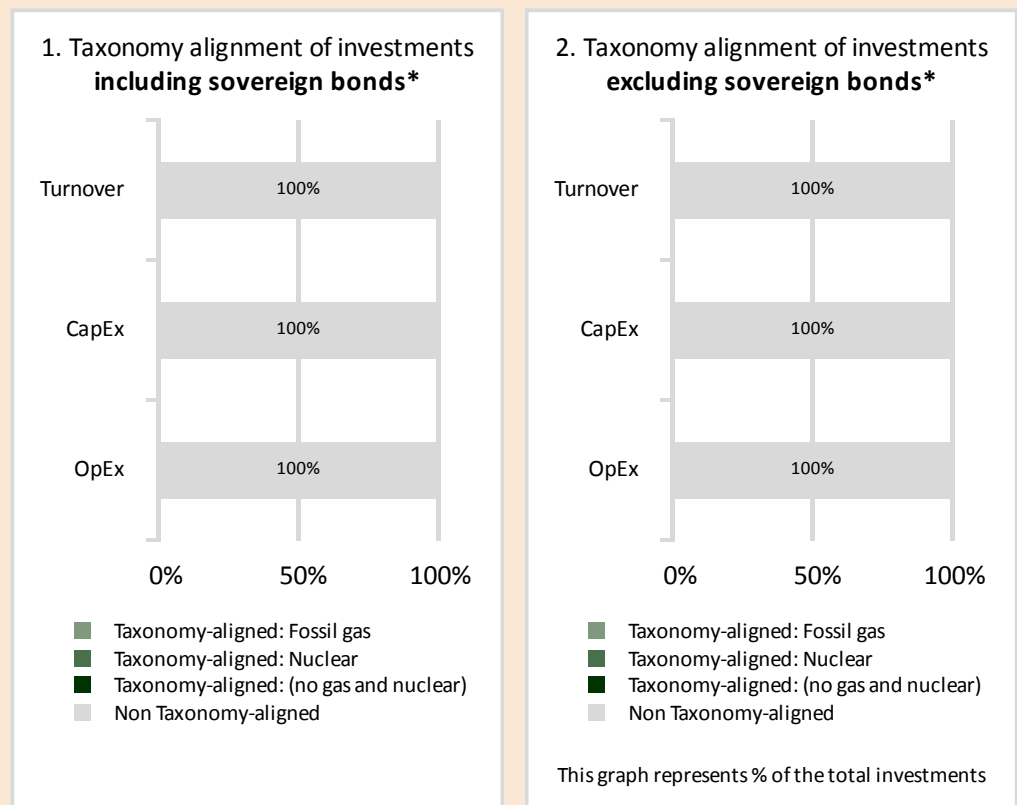

Yes:

In fossil gas  In nuclear energy

No

1. Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.**

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **Turnover** reflecting the share of revenue from green activities of investee companies,
- **Capital expenditure** (CapEx) showing the green investments

made by investee companies, e.g. for a transition to a green economy.

- **Operational expenditure** (OpEx) reflecting green operational activities of investee companies.

At the reporting date, based on the available reported and estimated issuer data, the management company did not identify any gas or nuclear taxonomy alignment in the investment portfolio.

- **What was the share of investments made in transitional and enabling activities?**

Not applicable

- **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

### **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Sub-Fund commits to a minimum of 1% of sustainable investments with an environmental objective. These investments could be aligned with the EU Taxonomy but the Delegated Investment Manager is not currently in a position to specify the exact proportion of the Sub-Fund's underlying investments which take into account the EU criteria for environmentally sustainable economic activities. However, the position is kept under review as the underlying rules are finalized and the availability of reliable data increases over time.

### **What was the share of socially sustainable investments?**

As of 28th of June 2024, the share of socially sustainable investment was 13.50%.

### **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Are included in others : assets not covered by an ESG rating, Emerging debt, cash (excluding cash not invested), the proportion of UCIs not aligned with E/S characteristics, derivatives traded on a regulated or over the counter markets for hedging and/or exposure purposes, repurchase and reverse repurchase agreements for cash management purposes and to optimise the Sub-Fund's income and performance. Information on the list of assets classes and financial instruments and their use can be found in the prospectus. Minimum environmental or social safeguards are not systematically applied.

### **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The fund promotes environmental and/or social (E/S) characteristics. To meet its E/S objectives, it takes the following approach:

- Invest at least 66.7% of its NAV in investments aligned with E/S characteristics.
- Hold at least 15% sustainable investments (for more information on Ostrum AM's definition of sustainable investments, a document is available on Ostrum AM's website ([www.ostrum.com](http://www.ostrum.com)) under the “ESG” section)
- Maintain a lower carbon intensity in the portfolio than that of the initial investment universe
- For green and quasi-sovereign issuers (green and non-green), outperform its investment universe compared to its “S” indicator: public spending on education.
- In addition, when assessing sustainable bonds, the analysts, where possible and applicable, take into account environmental and social externalities of projects, ensuring that these externalities do not cause harm to the environmental and social objective of the instrument.

### Reference

benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product Name : OSTRUM SRI GLOBAL SUBORDINATED DEBT  
 Legal Entity Identifier : 5493 003136PVHMWSR9 58  
 Publication date :

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: \_\_\_%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: \_\_\_%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 0% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, **but did not make any sustainable investments**

## To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted the environmental and social characteristics of maintaining an average ESG rating higher than its Filtered Investment Universe (as defined below) and avoiding issuers based on sectoral and exclusions policies including worst offenders of fundamental standards of responsibility.

The filtered investment universe (the “Filtered Investment Universe”) is defined as the initial investment universe (subordinated bonds or similar securities), issued by private, public, sovereign or supranational issuers, which may be corporate entities and/or financial institutions.) from which are excluded

- 20% of the issuers with the lowest ESG ratings within each issuer category (including the most controversial issuers according to Ostrum's exclusion and sector policies and the lowest rated issuers); and
- the sovereign debt.

The Sub-Fund's GHG intensity was lower than the one of its Investment Universe.

These calculations exclude non-eligible assets as defined by the SRI French label guidelines.

### ● **How did the sustainability indicators perform?**

Prerequisite: Unless otherwise indicated, the results presented below correspond to the average of the 4 quarter-ends of the reference period.

As of 28th of June 2024, the results of the sustainable indicators are :

- Average ESG rating of the Fund : 3.52 (GREaT score)
- Average ESG rating of the SRI investment universe : 3.6 (GREaT score)
- GHG Intensity Fund : 47.41
- GHG Intensity of the SRI investment universe : 58.32
- The number of holdings in the Fund found to be in breach of the sectoral and exclusion policies : 0

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

● **... and compared to previous periods?**

The comparison of sustainability indicator performance with the previous period cannot be established due to the implementation of new requirements for the new reference period. In the previous period, the indicators were calculated based on the last value of the period, while they are now calculated as an average of the end of quarter values for the reference period.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not Applicable

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not Applicable

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

Not Applicable

**Principal adverse impacts** are the most significant negative impacts of

investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not Applicable

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

## How did this financial product consider principal adverse impacts on sustainability factors?

All mandatory PAI are taken into account. GHG intensity of the portfolio is monitored in order to maintain it at a lower level than the SRI investment universe. More information on principal adverse impacts on sustainability factors is available in the periodic reporting pursuant to Article 11(2) of the SFDR.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/06/2023 - 30/06/2024

## What was the proportion of sustainability-related investments?

Not Applicable

### ● *What was the asset allocation?*

**Reminder:** the results published below represent the average of the 4 quarter-ends of the reference period.

As of 28st of June 2024, the fund invested 87.65% of its NAV in companies that qualify as aligned with E/S characteristics (#Aligned with E/S characteristics). Hence, the fund invested 12.35% in the category # Other.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remainings investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

### ● *In which economic sectors were the investments made?*

All economic sectors belonging to the investment universe except those subject to exclusions, in accordance with the exclusion policies applied by the fund.

## To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not Applicable At the reporting date, based on the available reported and estimated issuer data, the management company did not identify any gas or nuclear taxonomy alignment in the investment portfolio.

### ● *Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy <sup>1</sup> ?*

**Asset allocation** describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For

**nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

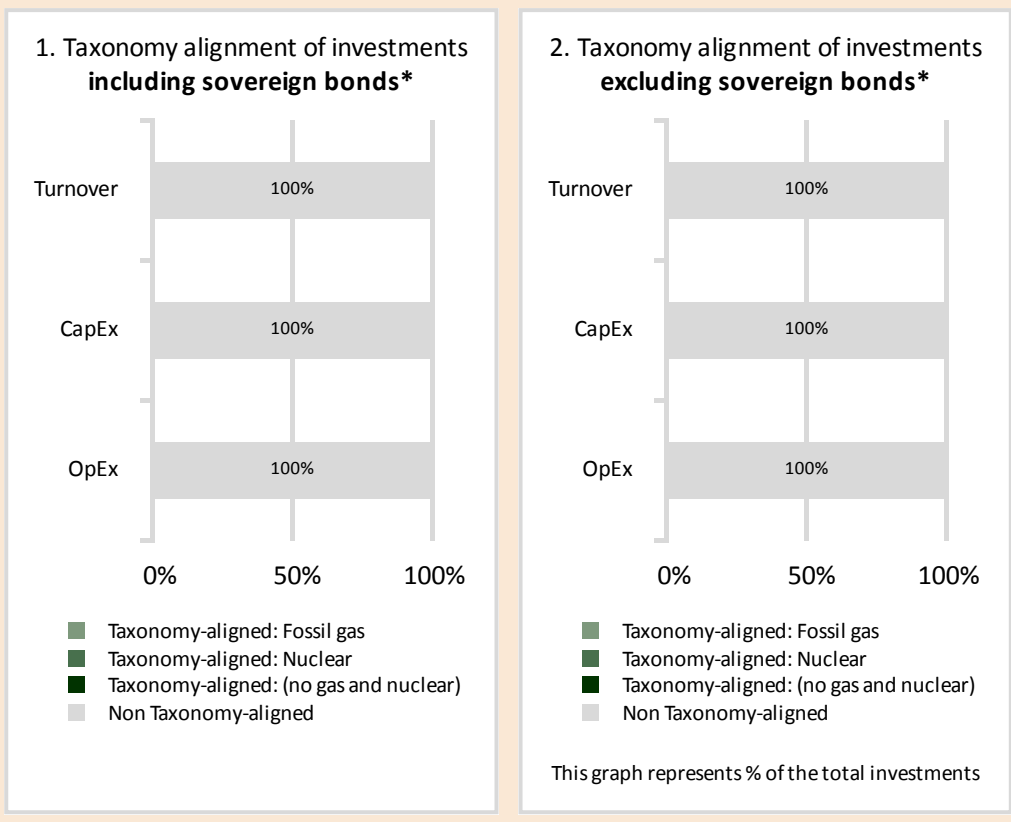

Taxonomy-aligned activities are expressed as a share of:

- **Turnover** reflecting the share of revenue from green activities of investee companies,
- **Capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **Operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Yes:  
 In fossil gas    In nuclear energy  
 No

1. Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- **What was the share of investments made in transitional and enabling activities?**  
Not Applicable
- **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**  
Not Applicable

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Not Applicable

**What was the share of socially sustainable investments?**

Not Applicable

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Are included in others : sovereign debt, cash (excluding cash not invested), the proportion of UCIs not aligned with E/S characteristics, derivatives traded on a regulated or over the counter markets for hedging and/or exposure purposes, repurchase and revers repurchase agreements for cash management purposes and to optimise the Fund’s income and performance. Information on the list of assets classes and financial instruments and their use can be found in the prospectus. Minimum environmental or social safeguards are not systematically applied.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

In terms of ESG integration, we ensured the portfolio outperformed its universe in terms of SRI score, Carbon Intensity levels and ESG impact indicators. The management team continuously considered Principal Adverse Impacts on sustainability factor either by applying exclusion policies such as the worst offenders or by maintaining a carbon intensity level lower than its investment universe issuers. For example, the fund avoided investing in companies belonging to the Oil & Gas sector. At the close of the period, the fund's average ESG rating was 3.36, compared to its SRI universe's rating of 3.5. It is important to note that a lower rating is actually better. At the beginning of the period, the portfolio's average ESG rating was 3.70, compared to 3.71 for its SRI investment universe. The Carbon Intensity (scope 1 & 2) measured in tons of CO2 per Million USD in revenue was 44.09 t.CO2/MUSD vs 53.98 t.CO2/MUSD. In June 2023, this score improved slightly to 43.34 t CO2/MUSD, compared to 70.98 t CO2/MUSD for the fund’s SRI universe. While the gap with the universe has decreased, the fund still maintains a healthy margin. Additionally, the three companies contributing the most to the fund's carbon intensity are actually invested through Green bonds. At the end of the period, over 82% of the portfolio was aligned with ESG characteristics. The remaining assets consist mainly of UCITs funds, derivatives, and cash used for cash management and global risk management purposes.

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: \_\_\_%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: \_\_\_%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 0% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, **but did not make any sustainable investments**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## To what extent were the environmental and/or social characteristics promoted by this financial product met?

The fund sought to promote the environmental and social characteristics of maintaining a value weighted ESG score better than its “investment universe” (as defined below), maintaining a carbon footprint lower than that of its “investment universe”, and excluding companies that are considered as controversial and actively engaging with portfolio companies on ESG issues. No reference benchmark has been designated for the purpose of attaining the E/S characteristics promoted by the fund.

### ● **How did the sustainability indicators perform?**

Prerequisite: Unless otherwise indicated, the results presented below correspond to the average of the 4 quarter-ends of the reference period.

As of 28th of June 2024, the results of the sustainable indicators are :

#### **For Equities**

- ESG Risk Score Equity : 15.49 (Sustainalytics Score)
- ESG Risk Score investment universe : 18.66 (Sustainalytics Score)
- Carbon Intensity Equity : 37.23
- Carbon Intensity of the investment universe : 56.33
- Mean percentage of independent administrators for Equity : 82.53
- Mean percentage of independent administrators of the investment universe : 80.26
- Percentage issuers, who did not respect the UN principles related to Human Rights, labour international standards, environment & anti-corruption during the investment's decision for Equity : 0%
- Percentage issuers, who did not respect the UN principles related to Human Rights, labour international standards, environment & anti-corruption during the investment's decision of the investment universe : 0%

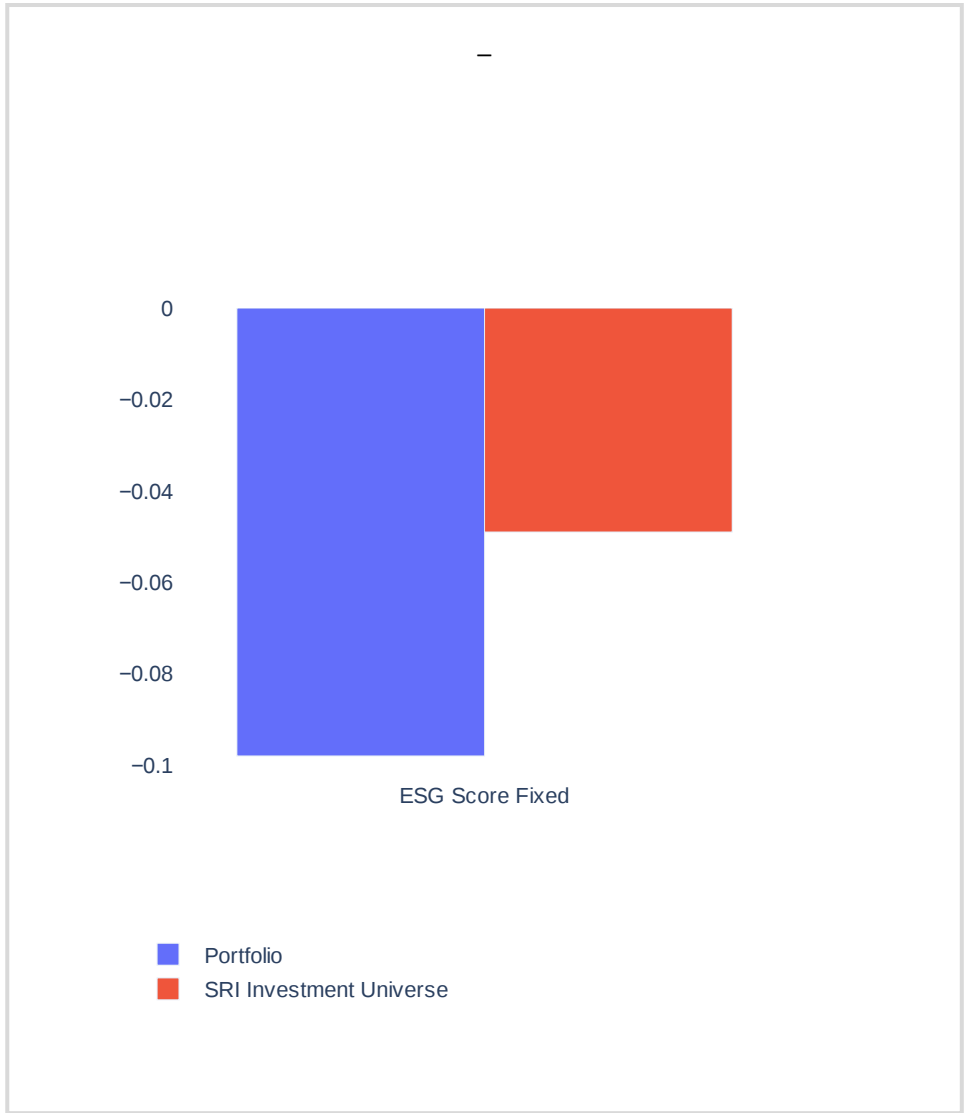

#### **For Fixed Income (Ecart type - lower is better)**

- Global ESG Score Fixed Income : -0.098 (Sustainalytics Score)
- Global ESG Score investment universe : -0.049 (Sustainalytics Score)
- Mean percentage of independant administrators: -0.199
- Mean percentage of independant administrators of the investment univers: -0.143
- Climate Risk Fixed Income : -0.066 (Sustainalytics Score)
- Climate Risk of the investment universe : -0.046 (Sustainalytics Score)

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

● **... and compared to previous periods?**

The comparison of sustainability indicator performance with the previous period cannot be established due to the implementation of new requirements for the new reference period. In the previous period, the indicators were calculated based on the last value of the period, while they are now calculated as an average of the end of quarter values for the reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not Applicable

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not Applicable

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not Applicable

**Principal adverse impacts** are the most significant negative impacts of

investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not Applicable

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered these impacts through the following means:

### Exclusions :

For Equity : this ensures that the portfolio excludes certain issuers on the basis of specific regulatory, sectoral and normative criteria.

These exclusions include, inter alia, the following :

- As required by law, companies that are involved in the production or distribution of anti-personnel mines or duster bombs, in accordance with the Ottawa and Oslo Conventions.
- Companies involved in the production, use, storage, sale or transfer of depleted uranium, chemical and biological weapons.
- Companies whose have significant revenue exposure in coal mining and coal-fired power generation
- Companies that are involved in serious controversies are also excluded, Such as those that violate the principles of the UN Global Compact (UNGC).  
For Sovereign Bonds :The purpose of this step is to reduce the government bond investment universe on the basis of non-financial, regulatory or normative criteria, as well as relative to their ESG rating.
- Countries that are "blacklisted", i.e. under US or European embargo mentioned on the EU list of non-cooperative jurisdictions for tax purposes, or identified by the Financial Action Task Force (FATF) as having strategic deficiencies in terms of anti-money laundering or counter-terrorist financing;
- Governments having a high ESG risk per the standard developed by external rating agencies are also excluded.

Relative approach applied to Global Equities : the ESG issues considered and their impact on stock ratings may depend on the company's sector, geographic location and capitalisation size.

- Environmental (E) issues include, in particular, carbon emissions, waste treatment and water stress.

- Social (S) issues include, in particular, employee safety, human capital management, and compliance with international labour standards.
- Corporate governance (G) issues include, in particular, the composition of supervisory and governance bodies, and accounting practices.

The first non-financial objective of the so-called "score-improving" global equity investment strategy is to improve the overall ESG rating (by relying on an ESG risk indicator supplied by a non-financial rating agency) of the securities held as compared to the investment universe from which the lowest-rated 20% of companies are excluded.

The purpose of the second "non-financial-indicator-improving" objective is to improve:

- A climate-related indicator: this consists in improving the overall carbon intensity level (total carbon emissions of a company compared to its revenue) of the securities held, in comparison With the investment universe. Aggregated to the portfolio, the objective is to achieve an average carbon intensity level below that of its investment universe
- A good governance-related indicator: this consists in improving the overall independence level of the bodies governing the securities held, as compared to the investment universe. In other words, aggregated to the portfolio, having a higher average percentage of directors meeting independence criteria than the investment universe

Global Sovereign Bonds : the ESG issues considered, and their impact on how securities are rated, are related to the nature of their issuers (sovereign states).

- Environmental (E) factors include the analysis of energy and natural resource issues.
- Social responsibility (S) factors include criteria related to meeting basic needs, health, and fairness,
- Governance (G) factors include analysis of institutions, compliance with laws and civil rights, and political stability.

The number-one objective of the "non-financial-indicator-improving sovereign bond investment strategy is to improve the overall ESG score of the securities held, compared to the investment universe filtered by our exclusion policy. This overall ESG rating is based on evaluations by an external service provider.

The second "non-financial-indicator-improving" objective is to improve climate risk measurement using a proprietary method. This measurement is based primarily on a carbon intensity analysis as well as the Governance quality of the sovereign issuers. The aim of the strategy is to improve this rating compared to the investment universe filtered by our exclusion policy.

More information on principal adverse impacts on sustainability factors is available in the periodic reporting pursuant to Article 11(2) of the SFDR.

## What were the top investments of this financial product?

Largest Investments	Sector	% Assets	Country

The displayed country is the country of risk.

The displayed percentages of assets are the average of the four end of trimesters of the exercise.

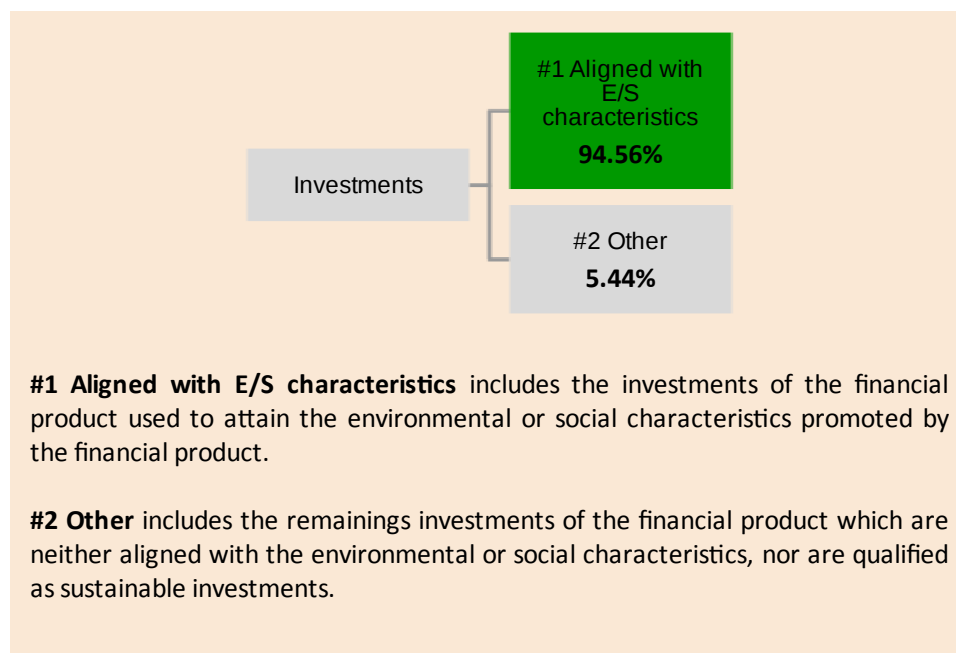

## What was the proportion of sustainability-related investments?

Not Applicable.

### ● **What was the asset allocation?**

**Reminder:** the results published below represent the average of the 4 quarter-ends of the reference period.

As of 28st of June 2024, the fund invested 94.56% of its NAV in companies that qualify as aligned with E/S characteristics (#Aligned with E/S characteristics). Hence, the fund invested 5.44% in the category # Other.

### ● **In which economic sectors were the investments made?**

All economic sectors belonging to the investment universe except those subject to exclusions, in accordance with the exclusion policies applied by the fund

## To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **Turnover** reflecting the share of revenue from green activities of investee companies,
- **Capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **Operational expenditure (OpEx)** reflecting green

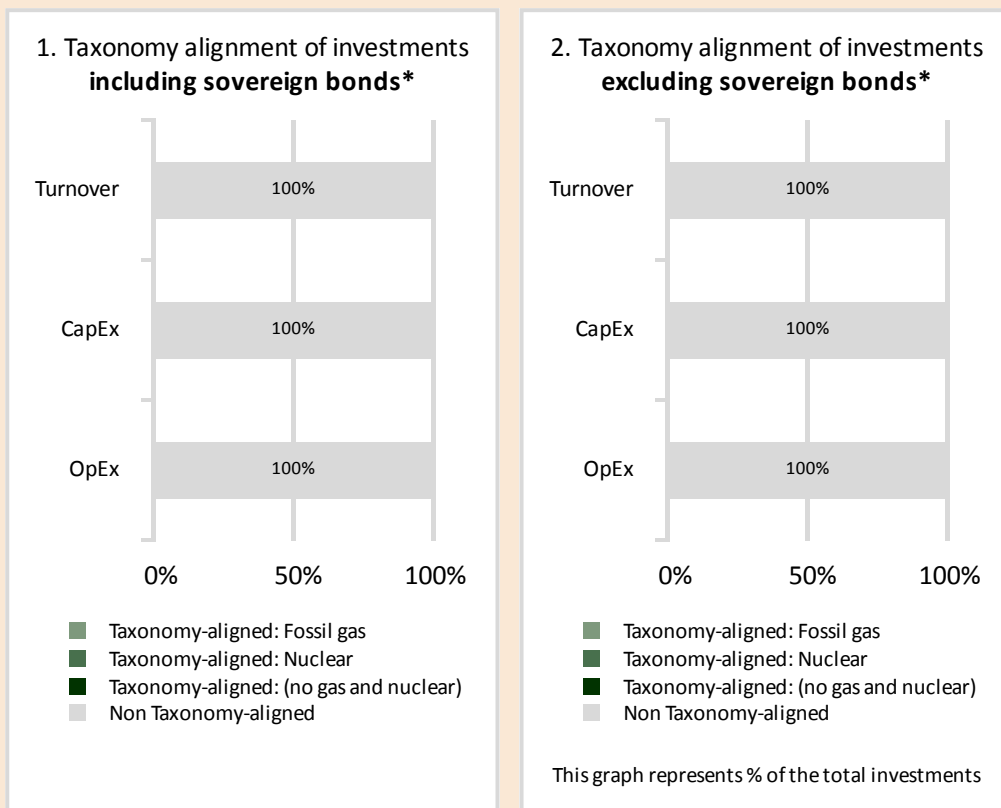

At the reporting date, based on the available reported and estimated issuer data, the management company did not identify any gas or nuclear taxonomy alignment in the investment portfolio.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup> ?**

Yes:  
 In fossil gas     In nuclear energy  
 No

1. Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.**

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

As the fund does not commit to invest in any "sustainable investment" within the meaning of the Taxonomy Regulation, the minimum share of investments in

operational activities of investee companies.

transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

- **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The fund promotes environmental and social characteristics but does not commit to making any sustainable investments. As a consequence, the fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

### **What was the share of socially sustainable investments?**

Non Applicable

### **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Few issuers may not be covered by the ESG Analysis while cash management is used for liquidity and passive management purposes. Then the fund may include derivatives and cash positions (which are not aligned with the E/S characteristics) as well as securities of issuers that are neither aligned with the fund’s E/S characteristics nor qualify as sustainable (but do meet the E/S safeguards defined in the UN Guiding Principles on Business and Human Rights).

### **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

In compliance with the application of the models, Management team has systematically integrated Environmental, Social and Governance considerations into the investment selection process. Regular monitoring of changes in the extra-financial rating of securities is carried out to ensure that none of the investments contravene the fund’s ESG philosophy.

### **How did this financial product perform compared to the reference benchmark?**

Not Applicable

- **How did the reference benchmark differ from a broad market index?**  
Not Applicable
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not Applicable
- **How did this financial product perform compared with the reference benchmark?**  
Not Applicable
- **How did this financial product perform compared with the broad market index?**

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not Applicable

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product Name : Seeyond Multi Asset Diversified Growth Fund  
 Legal Entity Identifier : 5493 00YFRCW6NM7Y2T 55  
 Publication date :

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: \_\_\_%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: \_\_\_%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 0% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, **but did not make any sustainable investments**

## To what extent were the environmental and/or social characteristics promoted by this financial product met?

The fund sought to promote the environmental and social characteristics of maintaining a value weighted ESG score better than its “investment universe” (as defined below), maintaining a carbon footprint lower than that of its “investment universe”, and excluding companies that are considered as controversial and actively engaging with portfolio companies on ESG issues. No reference benchmark has been designated for the purpose of attaining the E/S characteristics promoted by the fund.

### ● **How did the sustainability indicators perform?**

Prerequisite: Unless otherwise indicated, the results presented below correspond to the average of the 4 quarter-ends of the reference period.

As of 28th of June 2024, the results of the sustainable indicators are :

For Equities

- ESG Risk Score Equity : 15.49 (Sustainalytics Score)
- ESG Risk Score investment universe : 18.66 (Sustainalytics Score)
- Carbon Intensity Equity : 37.23
- Carbon Intensity of the investment universe : 56.39
- Mean percentage of independent administrators for Equity : 82.52
- Mean percentage of independent administrators of the investment universe : 80.26
- Percentage issuers, who did not respect the UN principles related to Human Rights, labour international standards, environment & anti-corruption during the investment's decision for Equity : 0%

Percentage issuers, who did not respect the UN principles related to Human Rights, labour international standards, environment & anti-corruption during the investment's decision of the investment universe : 0%

For Fixed Income (Ecart type - lower is better)

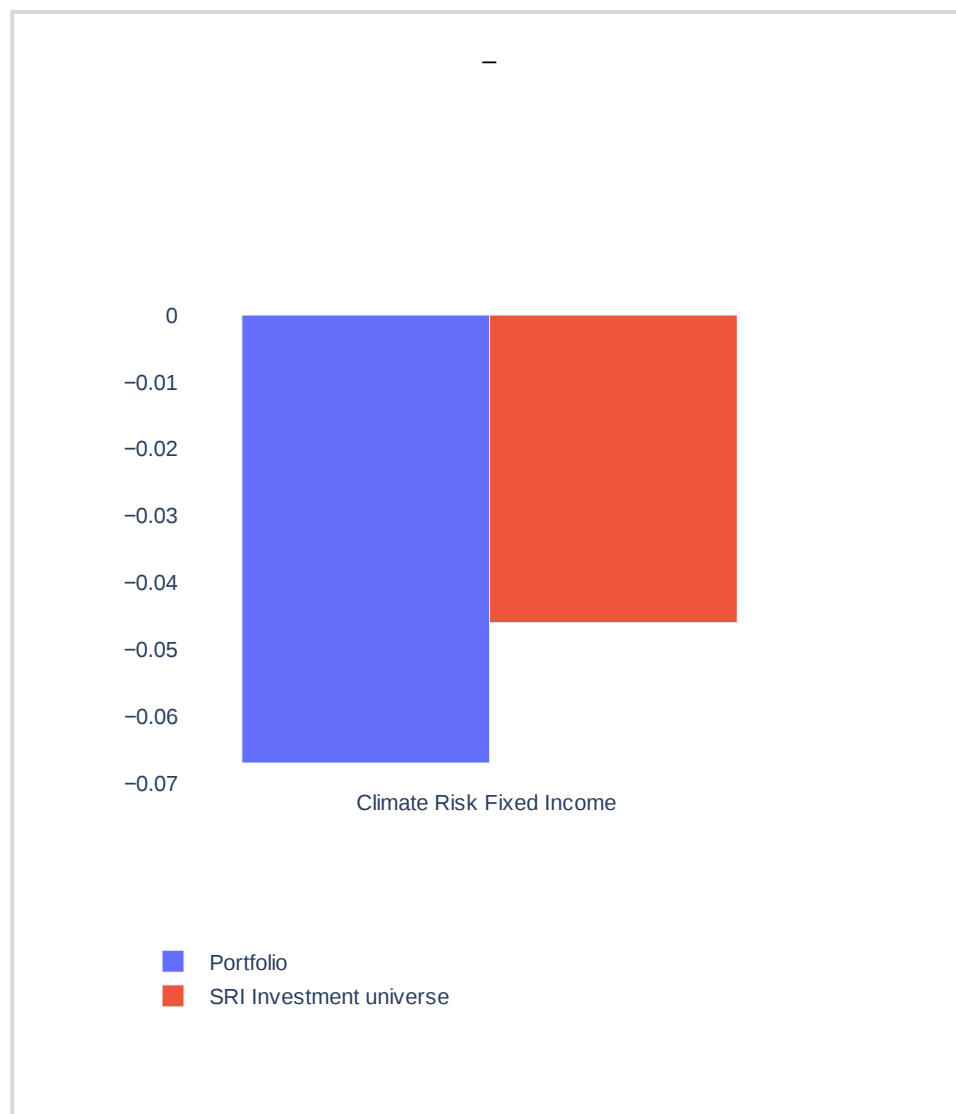

- Global ESG Score Fixed Income : -0.098 (Sustainalytics Score)
- Global ESG Score investment universe : -0.049 (Sustainalytics Score)
- Mean percentage of independent administrators: -0.199
- Mean percentage of independent administrators of the investment univers: -0.143
- Climate Risk Fixed Income : -0.067 (Sustainalytics Score)
- Climate Risk of the investment universe : -0.046 (Sustainalytics Score)

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

● **... and compared to previous periods?**

The comparison of sustainability indicator performance with the previous period cannot be established due to the implementation of new requirements for the new reference period. In the previous period, the indicators were calculated based on the last value of the period, while they are now calculated as an average of the end of quarter values for the reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not Applicable

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not Applicable

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not Applicable

**Principal adverse impacts** are the most significant negative impacts of

investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not Applicable

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered these impacts through the following means:

### Exclusions :

For Equity : this ensures that the portfolio excludes certain issuers on the basis of specific regulatory, sectoral and normative criteria.

These exclusions include, inter alia, the following

- As required by law, companies that are involved in the production or distribution of anti-personnel mines or duster bombs, in accordance with the Ottawa and Oslo Conventions.
- Companies involved in the production, use, storage, sale or transfer of depleted uranium, chemical and biological weapons.
- Companies whose have significant revenue exposure in coal mining and coal-fired power generation
- Companies that are involved in serious controversies are also excluded, Such as those that violate the principles of the UN Global Compact (UNGC).  
For Sovereign Bonds :The purpose of this step is to reduce the government bond investment universe on the basis of non-financial, regulatory or normative criteria, as well as relative to their ESG rating.
- Countries that are "blacklisted", i.e. under US or European embargo mentioned on the EU list of non-cooperative jurisdictions for tax purposes, or identified by the Financial Action Task Force (FATF) as having strategic deficiencies in terms of anti-money laundering or counter-terrorist financing;
- Governments having a high ESG risk per the standard developed by external rating agencies are also excluded.
- Relative approach applied to Global Equities : the ESG issues considered and their impact on stock ratings may depend on the company's sector, geographic location and capitalisation size.
- Environmental (E) issues include, in particular, carbon emissions, waste treatment and water stress.
- Social (S) issues include, in particular, employee safety, human capital management, and compliance with international labour standards.
- Corporate governance (G) issues include, in particular, the composition of supervisory and governance bodies, and accounting practices.

The first non-financial objective of the so-called "score-improving" global equity investment strategy is to improve the overall ESG rating (by relying on an ESG risk indicator supplied by a non-financial rating agency) of the securities held as compared to the investment universe from which the lowest-rated 20% of companies are excluded.

The purpose of the second "non-financial-indicator-improving" objective is to improve:

- A climate-related indicator: this consists in improving the overall carbon intensity level (total carbon emissions of a company compared to its revenue) of the securities held, in comparison With the investment universe. Aggregated to the portfolio, the objective is to achieve an average carbon intensity level below that of its investment universe
- A good governance-related indicator: this consists in improving the overall independence level of the bodies governing the securities held, as compared to the investment universe. In other words, aggregated to the portfolio, having a higher average percentage of directors meeting independence criteria than the investment universe

**For Global Sovereign Bonds :** the ESG issues considered, and their impact on how securities are rated, are related to the nature of their issuers (sovereign states).

- Environmental (E) factors include the analysis of energy and natural resource issues.
- Social responsibility (S) factors include criteria related to meeting basic needs, health, and fairness,
- Governance (G) factors include analysis of institutions, compliance with laws and civil rights, and political stability.

The number-one objective of the "non-financial-indicator-improving sovereign bond investment strategy is to improve the overall ESG score of the securities held, compared to the investment universe filtered by our exclusion policy. This overall ESG rating is based on evaluations by an external service provider.

The second "non-financial-indicator-improving" objective is to improve climate risk measurement using a proprietary method. This measurement is based primarily on a carbon intensity analysis as well as the Governance quality of the sovereign issuers. The aim of the strategy is to improve this rating compared to the investment universe filtered by our exclusion policy.

More information on principal adverse impacts on sustainability factors is available in the periodic reporting pursuant to Article 11(2) of the SFDR.

## What was the proportion of sustainability-related investments?

Not Applicable

### ● **What was the asset allocation?**

**Reminder:** the results published below represent the average of the 4 quarter-ends of the reference period.

As of 28th of June 2024, the fund invested 90.13% of its NAV in companies that qualify as aligned with E/S characteristics (#Aligned with E/S characteristics). Hence, the fund invested 9.87% in the category # Other.

### ● **In which economic sectors were the investments made?**

All economic sectors belonging to the investment universe except those subject to exclusions, in accordance with the exclusion policies applied by the fund.

**Asset allocation** describes the share of investments in specific assets.

## To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not Applicable

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup> ?**

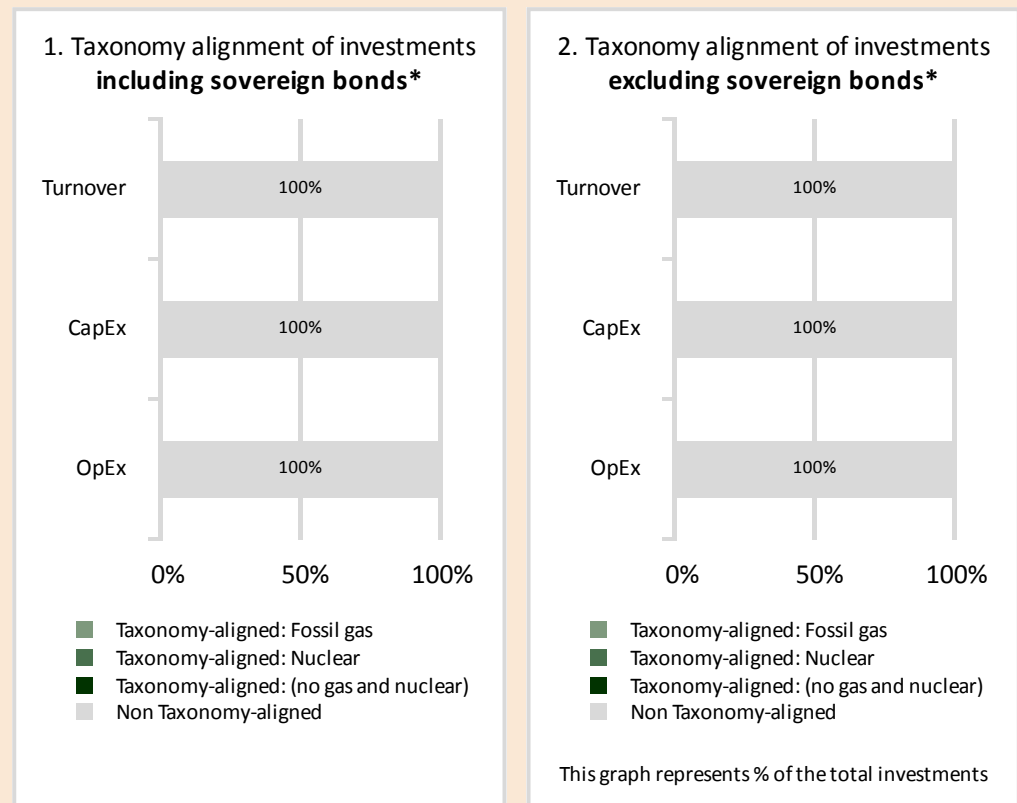

Yes:

In fossil gas  In nuclear energy

No

1. Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.**

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- **What was the share of investments made in transitional and enabling activities?**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **Turnover** reflecting the share of revenue from green activities of investee companies,
- **Capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for

a transition to a green economy.

- **Operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

As the fund does not commit to invest in any “sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

- **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

Not Applicable

### **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The fund promotes environmental and social characteristics but does not commit to making any sustainable investments. As a consequence, the fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

### **What was the share of socially sustainable investments?**

Not Applicable

### **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Few issuers may not be covered by the ESG Analysis while cash management is used for liquidity and passive management purposes. Then the Fund may include derivatives and cash positions (which are not aligned with the E/S characteristics) as well as securities of issuers that are neither aligned with the Sub-Fund’s E/S characteristics nor qualify as sustainable (but do meet the E/S safeguards defined in the UN Guiding Principles on Business and Human Rights).

### **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

In compliance with the application of the models, Management team has systematically integrated Environmental, Social and Governance considerations into the investment selection process. ## What was the proportion of sustainability-related investments?

Not Applicable.

### ● **What was the asset allocation?**

**Reminder:** the results published below represent the average of the 4 quarter-ends of the reference period.

As of 28st of June 2024, the fund invested 99.24% of its NAV in companies that qualify as aligned with E/S characteristics (#Aligned with E/S characteristics). Hence, the fund invested 0.76% in the category # Other;

### ● **In which economic sectors were the investments made?**

All economic sectors belonging to the investment universe except those subject to exclusions, in accordance with the exclusion policies applied by the fund

## To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

At the reporting date, based on the available reported and estimated issuer data, the management company did not identify any gas or nuclear taxonomy alignment in the investment portfolio.

### ● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy <sup>1</sup> ?**

**Asset allocation** describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include

comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

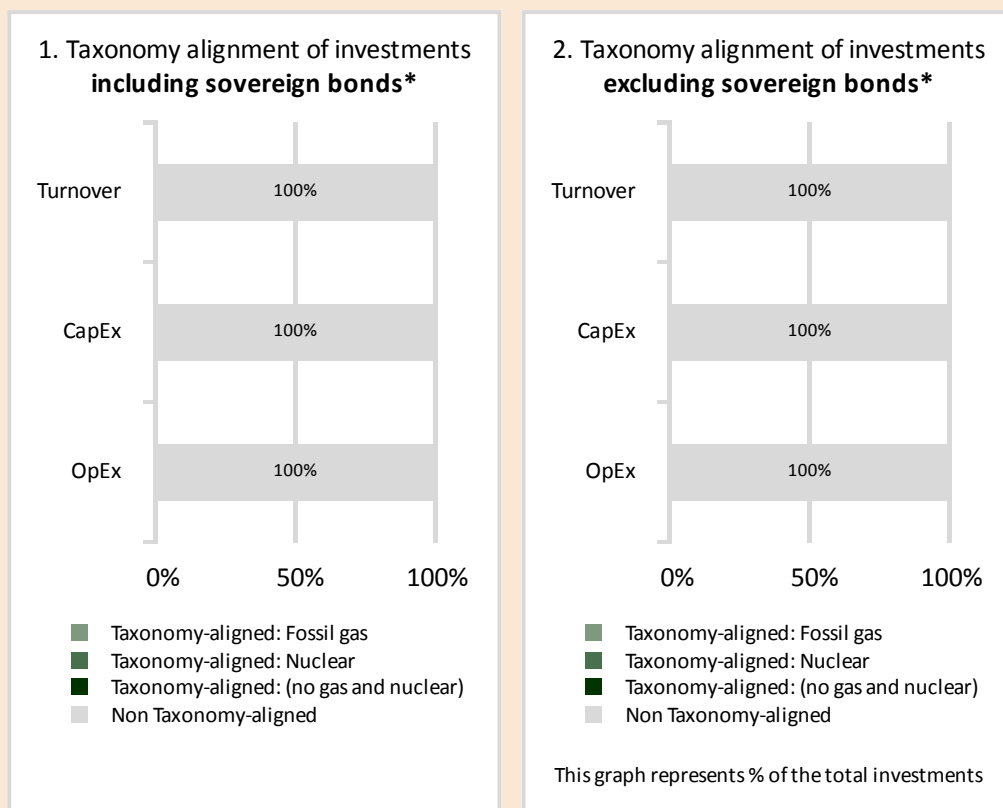

Taxonomy-aligned activities are expressed as a share of:

- **Turnover** reflecting the share of revenue from green activities of investee companies,
- **Capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **Operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Yes:  
 In fossil gas    In nuclear energy  
 No

1. Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.**

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

As the fund does not commit to invest in any "sustainable investment" within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

● **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

Not Applicable

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The fund promotes environmental and social characteristics but does not commit to making any sustainable investments. As a consequence, the fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

**What was the share of socially sustainable investments?**

Not Applicable

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Few issuers may not be covered by the ESG Analysis while cash management is used for liquidity and passive management purposes. Then the fund may include derivatives and cash positions (which are not aligned with the E/S characteristics) as well as securities of issuers that are neither aligned with the fund’s E/S characteristics nor qualify as sustainable (but do meet the E/S safeguards defined in the UN Guiding Principles on Business and Human Rights).

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the fund met its environmental and social objectives through the following factors:

- Exclusion of the 20% of stocks with the lowest ESG ratings;
- Exclusion of issuers that do not comply with the principles of the United Nations Global Compact relating to respect for human rights, international labour standards, the environment and the fight against corruption, at the time of the investment decision;
- Reduction in the carbon footprint, both in terms of total greenhouse gas (GHG) emissions, and average carbon intensity, compared to that of its investment universe.
- Obtaining an average percentage of independent directors higher than that of its investment universe.

**How did this financial product perform compared to the reference benchmark?**

Not Applicable

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How did the reference benchmark differ from a broad market index?***  
Not Applicable
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product Name : SEYOND SRI GLOBAL MINVOL  
 Legal Entity Identifier : 5493 004HYBGN29P4IT 24  
 Publication date :

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: \_\_\_%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: \_\_\_%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 0% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, **but did not make any sustainable investments**

## To what extent were the environmental and/or social characteristics promoted by this financial product met?

The fund sought to promote the environmental and social characteristics of maintaining a value weighted ESG score better than its “investment universe” (as defined below), maintaining a carbon footprint lower than that of its “investment universe”, and excluding companies that are considered as controversial and actively engaging with portfolio companies on ESG issues. No reference benchmark has been designated for the purpose of attaining the E/S characteristics promoted by the fund.

### ● **How did the sustainability indicators perform?**

Prerequisite: Unless otherwise indicated, the results presented below correspond to the average of the 4 quarter-ends of the reference period.

As of 28th of June 2024, the results of the sustainable indicators are :  
For Equities

- Carbon Intensity Equity : 93.15
- Carbon Intensity of the investment universe : 143.6
- Mean percentage of independent administrators for Equity : 80.90
- Mean percentage of independent administrators of the investment universe : 78.27
- Percentage issuers, who did not respect the UN principles related to Human Rights, labour international standards, environment & anti-corruption during the investment's decision for Equity : 0%
- Percentage issuers, who did not respect the UN principles related to Human Rights, labour international standards, environment & anti-corruption during the investment's decision of the investment universe : 0%

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

● **... and compared to previous periods?**

The comparison of sustainability indicator performance with the previous period cannot be established due to the implementation of new requirements for the new reference period. In the previous period, the indicators were calculated based on the last value of the period, while they are now calculated as an average of the end of quarter values for the reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not Applicable

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not Applicable

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not Applicable

**Principal adverse impacts** are the most significant negative impacts of

investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not Applicable

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered these impacts through the following means:

- Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons). It excludes issuers that have exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)
- Violations of UN Global Compact principles and Organization for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises. It excludes issuers that severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti corruption
- GHG emissions, Carbon footprint, GHG intensity of investee companies, Exposure to companies active in the fossil fuel sector and Activities negatively affecting biodiversity sensitive areas. It excludes issuers that derive a significant portion of their revenue from activities detrimental to society or the environment, such as, thermal coal, unconventional oil and gas, tobacco or palm oil.

More information on principal adverse impacts on sustainability factors is available in the periodic reporting pursuant to Article 11(2) of the SFDR.

## What were the top investments of this financial product?

Largest Investments	Sector	% Assets	Country
SEFY.SRI.EUROPE.MINVOL.I.A.EUR	Equity Fund	1.63	Luxembourg
CBOE GLOBAL MARKETS INC UF USD	Investment Services	1.21	United States
INTL BUSINESS MACHINES CORP UN USD	Computer Services	1.21	United States
JOHNSON & JOHNSON UN USD	Pharmaceuticals	1.15	United States
MICROSOFT CORP UW USD	Software	1.14	United States
KONINKLIJKE KPN NV NA EUR	Telecommunications Services	1.13	Netherlands

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

Largest Investments	Sector	% Assets	Country
DEUTSCHE BOERSE AG GY EUR	Investment Services	1.13	Germany
MCDONALD'S CORP UN USD	Restaurants and Bars	1.13	United States
VIVENDI SE FP EUR	Radio and TV Broadcasters	1.04	France

SWISS PRIME SITE-REG SE CHF	Real Estate Holding and Development	0.97	Switzerland
T-MOBILE US INC UW USD	Telecommunications Services	0.95	United States
INCYTE CORP UW USD	Biotechnology	0.91	United States

The displayed country is the country of risk.

The displayed percentages of assets are the average of the four end of trimesters of the exercise.

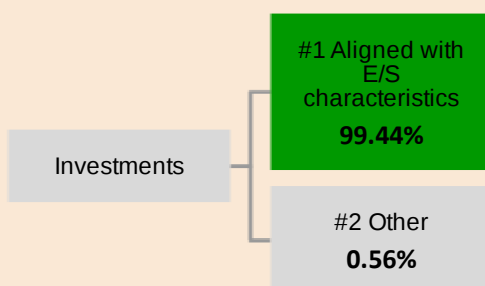

## What was the proportion of sustainability-related investments?

Not Applicable.

### ● *What was the asset allocation?*

**Reminder:** the results published below represent the average of the 4 quarter-ends of the reference period.

As of 28th of June 2024, the fund invested 99.44% of its NAV in companies that qualify as aligned with E/S characteristics (#Aligned with E/S characteristics). Hence, the fund invested 0.56% in the category # Other.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remainings investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

### ● *In which economic sectors were the investments made?*

All economic sectors belonging to the investment universe except those subject to exclusions, in accordance with the exclusion policies applied by the fund

## To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

At the reporting date, based on the available reported and estimated issuer data, the management company did not identify any gas or nuclear taxonomy alignment in the investment portfolio.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup> ?

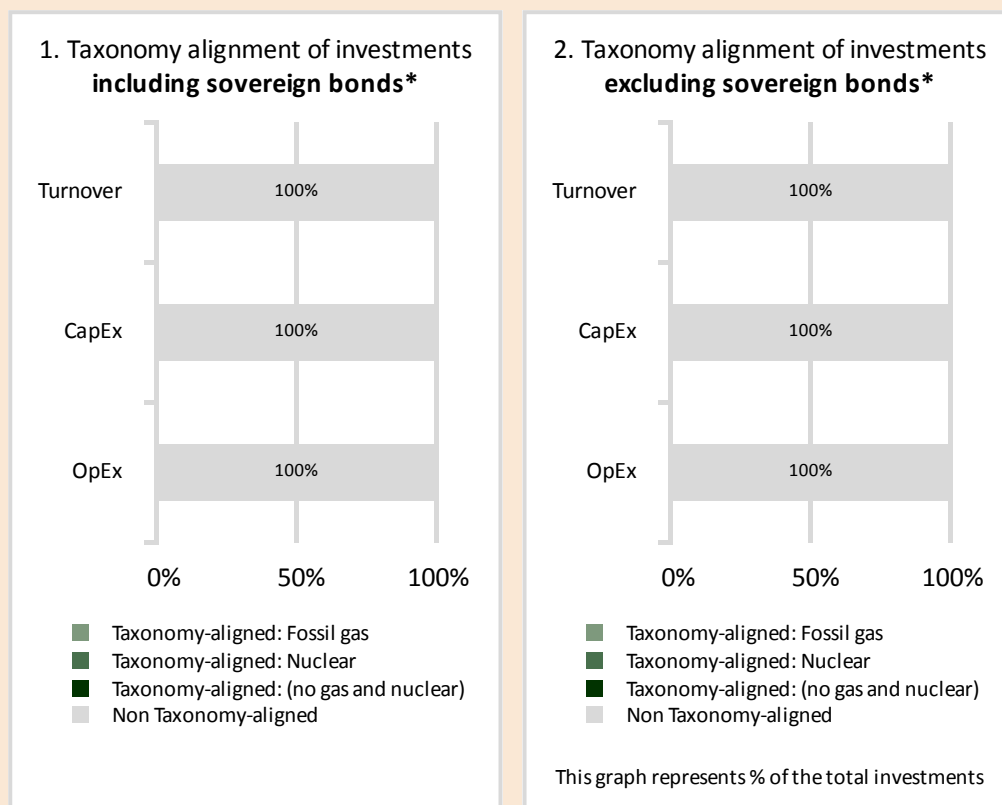

Yes:

In fossil gas  In nuclear energy

No

1. Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **Turnover** reflecting the share of revenue from green activities of investee companies,
- **Capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for

a transition to a green economy.

- **Operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the fund does not commit to invest in any “sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

● **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable

**What was the share of socially sustainable investments?**

Not applicable

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Few issuers may not be covered by the ESG Analysis while cash management is used for liquidity and passive management purposes. Then the fund may include derivatives and cash positions (which are not aligned with the E/S characteristics) as well as securities of issuers that are neither aligned with the fund’s E/S characteristics nor qualify as sustainable (but do meet the E/S safeguards defined in the UN Guiding Principles on Business and Human Rights).

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the fund met its environmental and social objectives through the following factors:

- Exclusion of the 20% of stocks with the lowest ESG ratings;
- Exclusion of issuers that do not comply with the principles of the United Nations Global Compact relating to respect for human rights, international labour standards, the environment and the fight against corruption, at the time of the investment decision;
- Reduction in the carbon footprint, both in terms of total greenhouse gas (GHG) emissions, and average carbon intensity, compared to that of its investment universe.
- Obtaining an average percentage of independent directors higher than that of its investment universe.
