This key information document is accurate as at 14/06/2024.

What is this Product?

Type This Product is a UCITS Fund. This Product is a Sub-Fund of a Luxembourg Société d'Investissement à Capital Variable. The Product is governed by Part I of the Luxembourg Law of 17 December 2010 as amended.

Term This Product has no specific maturity date. However, this Product might be dissolved or merged, in this case you would be informed by any appropriate means approved by the regulation.

Objectives The Product has a sustainable investment objective which is to allocate the capital towards sustainable economic models with environmental and/or social benefits by investing in companies providing solutions to address mainly environmental issues. The Product will seek to invest in companies, listed on European stock exchanges, while systematically including Environmental, Social and Governance ("ESG") considerations, with financial performance measured against the MSCI Europe Net Dividends Reinvested Index over the recommended minimum investment period of 5 years.

- The Product is actively managed. The Product's performance may be compared to the Benchmark. In practice, the portfolio of the Sub-Fund is likely to include constituents of the Benchmark, but the Investment Manager has full discretion in the selection of the securities comprising the portfolio within the limits of the Sub-Fund's investment policy. However, it does not aim to replicate that Benchmark and may therefore significantly deviate from it.
- The Benchmark can be used to determine the performance fee that will possibly be levied.
- The Investment policy of the Sub-Fund is to invest in European equity securities of companies whose business activities include the development, production, promotion or marketing of technologies, services or products that contribute to environment protection. It mainly invests in European companies active in the renewable energy, transition energy, energy efficiency and natural resources management such as agricultural/food and water production cycle.
- The Product follows an ESG thematic and "Best-In-Universe" approach (complemented by sectoral exclusion, commitment and voting policies) which aims at assessing systematically the social and environmental impacts of each company in relation to the achievement of UN SDGs. It involves the rating of each company in respect of the criteria: Environmental (such as environmental recycling), Social (such as employee health) and Governance (such as business ethics). An ESG strategy may comprise methodological limitations such as the ESG Driven Investments Risk. Please refer to the sections "Description of the extra-financial analysis and consideration of the ESG criteria" and "Principal risks" of the Prospectus for additional information.
- The Sub-Fund may invest at least 80% of its net assets in European equity securities and up to 10% of its net asset in money market and cash instruments.
- The Sub-Fund may use derivatives for hedging and efficient portfolio management purposes.
- This hedged share class aims at hedging the net asset value against the fluctuations between the reference currency of the Product and the Share Class reference currency.
- Income earned by the Product is reinvested.
- **Shareholders may redeem Shares on demand on any business day in Luxembourg at 13h30.**

Intended retail investor The Product is suitable for institutional and retail investors who are looking for an exposure to the equity markets via investment in stocks; are interested in investing in a socially responsible fund; can afford to set aside capital for at least 5 years (long term horizon); can accept temporary and/or potential capital losses; and can tolerate volatility.

Practical information

- **Product depositary:** Brown Brothers Harriman (Luxembourg) S.C.A
- Additional information about the Product (including English versions of the full prospectus, reports and accounts for the entire SICAV), procedure for the exchange of Shares from one Sub-Fund to another Sub-Fund, may be obtained free of charge at the registered office of the Management Company or Administrative Agent. What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the Product for 5 years.

The Summary Risk Indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 4 out of 7, which is a medium risk class. This classification rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. The currency of this Product may be different from that of your country. As you may receive payments in the currency of this Product and not that of your country, the final return you will get will depend on the exchange rate between these two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the Product not included in the summary risk indicator: none.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

The figures shown include all the costs of the Product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years		If you exit after 1 year		If you exit after 5 years	
Example investment: GBP 10,000					
Scenarios					
Minimum This Product does not include any guarantee so you could lose some or all of your investment.

What happens if Natixis Investment Managers International is unable to pay out?

The assets of the Product are held in safekeeping by Brown Brothers Harriman (Luxembourg) S.C.A, as the depositary of the Product. In the event of insolvency of Natixis Investment Managers International, the Product assets will not be affected. However, in the event of the Depositary's insolvency, there is a potential risk of financial loss. However, this risk is mitigated to a certain extent by the fact that the Depositary is required by law and regulation to segregate its own assets from Product's assets.

There is an investor compensation or guarantee scheme in the case of default of the Depositary provided by law.

What are the costs?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product and how well the Product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	532 GBP	1,107 GBP
Annual cost impact (*)	5.4%	2.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 4.7% before costs and 2.5% after costs.

We may share part of the costs with the person selling you the Product to cover the services they provide to you. They will inform you of the amount. These figures include the maximum distribution fee that the person selling you the Product may charge which amount to 59 GBP. This person will inform you of the actual distribution fee.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	4.00% of the amount invested. This is the most you will be charged. The person selling you the Product will inform you of the actual charge.	Up to 400 GBP
Exit costs	We do not charge an exit fee.	None
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.15% The ongoing costs figure is based on expenses for the year ending in December 2023. This figure may vary from year to year.	110 GBP
Transaction costs	0.23% of the value of your investment per year. <i>This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.</i>	22 GBP
Incidental costs taken under specific conditions		
Performance fees	20.0% of the performance above the Reference Index 0.00% of the value of your investment per year. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. Performance fees may be charged even when the performance of the Product is negative, notably if the performance of the benchmark is lower than the performance of the Product.	0 GBP

An investor engaging in excessive trading or market timing practices may be subject to a levy of up to 2%.

How long should I hold it and can I take my money out early?

Recommended holding period: 5 years

This duration corresponds to the period during which you must remain invested in the Product to obtain a potential return while minimizing the risk of losses. This duration is linked to the asset mix, the management objective, and the investment strategy of your Product.

You can request the sale of your Product everyday. You may receive less than expected if you cash in earlier than the recommended holding period. The recommended holding period is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels.

How can I complain?
