Objectives and Investment Policy

Long-term capital growth above the medium-term average return in Euro terms by investing in Debt Securities with Euro exposure of global Bond Markets.

We manage this Sub-Fund in reference to a Benchmark. Sub-Fund's Benchmark plays a role for the Sub-Fund's performance objectives and measures. We follow an active management approach with the aim to outperform the Benchmark. Although our deviation from the investment universe, weightings and risk characteristics of the Benchmark is likely to be material in our own discretion, the minority of the Sub-Fund's investments (excluding derivatives) may consist of components of the Benchmark.

The Sub-Fund follows the Climate Engagement with outcome Strategy and therefore promotes environmental or social characteristics by including environmental and social factors in the investment decision and engages specifically with high emitters in order to promote climate consciousness. Minimum exclusion criteria for direct investments are applied. Min. 90% Sub-Fund assets are invested by us in bonds with a good credit rating as described in the investment objective. Min. 70% of Sub-Fund assets are invested by us in bonds of OECD and / or EU member states. Max. 20% of Sub-Fund assets may be invested by us in Emerging Markets. Max. 10% of Sub-Fund assets may be invested by us in High-Yield bonds bearing a

typically higher risk and higher potential of gains. Max. 20% of Sub-Fund assets may be invested by us in ABS and/or MBS. Max. 100% Sub-Fund assets may be held in deposits and/or may be invested directly in Money Market Instruments and/or (up to 10% of Sub-Fund assets) in money market funds on a temporary basis for liquidity management and/or defensive purpose. Max. 10% non-EUR Currency Exposure. The duration of the Sub-Fund assets should be between minus 2 and plus 4 years.

Benchmark: J.P. MORGAN EMU Bond 1-3 Year (in EUR).

Due to its investment strategy we expect a high volume of transactions which results in higher transactions costs reducing the return of the fund.

You may redeem shares of the fund usually on each business day.

We usually distribute the income of the fund on a yearly basis.

Recommendation: the Share Class of the Fund should be held for at least a medium-term investment horizon.

Derivatives may be used to offset exposure to price fluctuations (hedging), to take advantage of price differences between two or more markets (arbitrage) or to multiply gains although it may also multiply losses (leverage).

Risk and Reward Profile

← Typically lower rewards
← Typically lower risk

Typically higher rewards →
Typically higher risk →

This risk and reward indicator is based on past performance data. It may not be a reliable indication of the future risk profile of the fund.

The categorisation of the fund is not guaranteed and may change in the future.

Even the lowest category 1 does not mean a risk-free investment.

Why is the fund in this category?

Funds of category 2 have shown in the past a low volatility. The volatility describes how much the value of the fund went up and down in the past. The units of a fund of category 2 might be subject to low price fluctuations based on the historical volatilities observed.

The following material risks are not fully captured by the risk and reward indicator:

We may invest directly or indirectly a significant portion of the fund into bonds or money markets instruments. If the issuer may fall into insolvency or may suffer economical problems the interest and/or the capital of these assets may not or may not be completely paid and/or the price of the assets may drop.
