What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of Quaero Capital Funds (Lux), an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However if, for any reason, the net assets of the Sub-Fund or of any Class or Sub-Class fall below the equivalent of EUR 5,000,000, or if a change in the economic or political environment of the Sub-Fund, Class or Sub-Class may have material adverse consequences on the Sub-Fund, Class or Sub-Class's investments, or if an economic rationalisation so requires, the board may decide on a compulsory redemption of all Shares outstanding in the Sub-Fund, Class or Sub-Class on the basis of the Net Asset Value per Share (after taking account of current realisation prices of the investments as well as realisation expenses), calculated as of the day the decision becomes effective.

OBJECTIVES

Objectives and investment policy

The objective of the Sub-Fund is to achieve over the long term a total return as high as possible by investing worldwide, including Russia and the People's Republic of China (PRC), mainly in debt securities of borrowers whose credit rating assigned by Standard & Poor's Corporation is not lower than B or its equivalent by Moody's or another rating agency.

Investments made in the PRC will be made exclusively in debt or equities securities traded in, or exposed to, the offshore Renminbi (the CNH, accessible outside the PRC and traded primarily in Hong Kong), the HKD, the EUR, the USD, the JPY, the GBP or the AUD.

The Sub-Fund may at any time be totally invested in one single currency, or in one single category of assets.

The Sub-Fund may invest in all types of debt securities such as fixed-rate or floating-rate bonds and notes, zero coupon bonds and notes, multiple currency bonds, any other type of debt securities. However, the Sub-Fund will not invest in asset-backed securities and mortgage-backed securities.

Direct investments (local shares) in Russia (which are not traded on the Moscow Interbank Currency Exchange - Russian Trading System Stock Exchange) will in aggregate not exceed 10% of the Sub-Fund's net assets.

Derivatives The Sub-Fund is authorised to invest on an ancillary basis in other eligible financial instruments, such as equities, cash. The Sub-Fund can also invest in financial derivative instruments, for currency hedging and/or for other purposes.

Benchmark The Sub-Fund is actively managed. The Sub-Fund has no benchmark index and is not managed in reference to a benchmark index.

Dividend Policy This Class distributes income. Dividend distributions are planned.

Share Class Currency The currency of the Class is GBP.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by the Central administration. This return depends mainly on the market value fluctuations of the underlying investments.

INTENDED RETAIL INVESTORS

The product is reserved to institutional investors. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and for receiving regular income and who wish to hold their investment over 4 years.

OTHER INFORMATION

Depository Pictet & Cie (Europe) S.A. (the "Depository").

Asset segregation The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing The Net Asset Value for the Class is calculated on each business day ("the Valuation Day"). The cut-off time to submit subscription orders is 4 p.m., one business day before the relevant Valuation Day. The cut off time to submit redemption orders is 4 p.m., one business day before the relevant Valuation Day.

Switching Shareholders may apply for any share of any sub-funds to be converted into shares of another sub-fund, provided that the conditions for accessing the target class are fulfilled with respect to this Sub-Fund, on the basis of their respective Net Asset Value calculated on the Valuation Day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For more details about how to switch between sub-funds, please refer to the prospectus, section which details the switch between sub-funds.

What are the risks and what could I get in return?

Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk Higher risk

The risk indicator assumes you keep the product for 4 years.

The actual risk can vary significantly if your cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment		4 years GBP 10,000		
		If you exit after 1 year	If you exit after 4 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs Average return each year	GBP 6,890 -31.1%	GBP 6,490 -10.2%	
Unfavourable scenario	What you might get back after costs Average return each year	GBP 8,540 -14.6%	GBP 8,380 -4.3%	This type of scenario occurred for an investment in the proxy then the product between March 2016 and March 2020.
Moderate scenario	What you might get back after costs Average return each year	GBP 10,040 0.4%	GBP 9,850 -0.4%	This type of scenario occurred for an investment in the product between November 2018 and November 2022.
Favourable scenario	What you might get back after costs Average return each year	GBP 12,100 21.0%	GBP 12,260 5.2%	This type of scenario occurred for an investment in the proxy then the product between October 2013 and October 2017.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to this Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depository, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depository's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depository will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depository.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- GBP 10,000 is invested

Investment of GBP 10,000	If you exit after 1 year	If you exit after 4 years
Total costs	GBP 202	GBP 667
Annual cost impact (*)	2.0%	1.6%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.2% before costs and -0.4% after costs.
