The Commission de Surveillance du Secteur Financier ("CSSF") is responsible for supervising the Product and BNPP AM Luxembourg.

**Date of production of the KID:** 15/06/2023

## WHAT IS THIS PRODUCT?

## Type

This Product is an undertaking for collective investment in transferable securities (UCITS). It is a sub-fund of BNP PARIBAS EASY, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

## Term

This Product has no maturity date.

BNPP AM Luxembourg is not entitled to terminate the Product unilaterally. The board of directors of the SICAV has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

## Objectives

The Fund is an index-tracking passively managed fund. The Fund seeks to replicate (with a maximum tracking error\* of 1%) the performance of the MSCI Emerging ESG Filtered Min TE (NTR) Index (Bloomberg: MXEMEFMT index) (the Index) by investing in a substitute basket, composed of, inter alia, shares of companies, debt securities or cash (synthetic replication). When investing in a basket of securities called substitute basket the performance is swapped with the performance of the index, generating counterparty risk.

It will invest up to 40% of its assets in Mainland China A shares via the Stock Connect and/or in "China B-Shares".

The Index is composed of Emerging Markets companies selected on the basis of Environmental, Social and Corporate Governance (ESG) criteria (such as environmental opportunity, pollution and waste, human capital, corporate governance, etc.) and based on their efforts to reduce their exposure to coal and unconventional fossil fuels, while minimising the tracking error compared to the parent index, the MSCI Emerging Markets index. As a result, companies involved in sectors with a potentially high negative ESG impact, those subject to significant violations of the UN Global Compact principles and those involved in severe ESG-related controversies are excluded from the Index. The type of approach used here is Best-in-universe (type of ESG selection consisting of giving priority to the issuers best rated from a non-financial viewpoint irrespective of their sector of activity, and accepting sector biases, because the sectors which are considered more virtuous on the whole will be more heavily represented). The extra-financial strategy of the Index, carried out at each step of the investment process, may comprise methodological limitations such as the risk related to ESG investment or the Index rebalancing. Further information on the Index, its composition, calculation and rules for periodical review and rebalancing and on the general methodology behind the MSCI indices can be found on [www.msci.com](http://www.msci.com).

\*The tracking error is a risk indicator that measures how closely a fund tracks the performance of its reference index.

Environmental, social and governance (ESG) criteria contribute to, but are not a determining factor in, the manager's decision making.

Incomes are systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

## Intended retail investors

This Product is designed for retail investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear a total capital loss. It is suited for clients who seek growth of capital. Potential investors should have an investment horizon of at least 5 years.

## Practical Information

■ Depository: BNP PARIBAS, Luxembourg Branch

■ This key information document is prepared for the aforementioned share class and describes a sub-fund of BNP PARIBAS EASY. Further information about the Product is contained in the prospectus and periodical reports which are issued at the level of the SICAV. Under the 2010 Law, there is segregated liability between sub-funds, meaning that the assets of the sub-fund will not be available to meet a claim of a creditor or another third-party made against another sub-fund.

■ Investors may switch between sub-funds of the SICAV. Please see the prospectus or contact your financial adviser for details.

■ Further information about the Product including the latest prospectus, Articles of Association, key information document, net asset values, latest published prices of share(s), periodical report, investment description, may be obtained free of cost, in English, from BNPP AM Luxembourg or online at <https://www.bnpparibas-am.com>.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

## Risk Indicator

The risk indicator assumes you keep the Product for 5 years.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 4 out of 7, which is a medium risk class. The risk category is justified by the investment in emerging markets that are likely to be subject to a higher than average volatility due to a high degree of concentration, greater uncertainty because less information is available, there is less liquidity, or due to greater sensitivity to changes in market conditions (social, political and economic conditions).

**Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. Because the Product currency is different from the reference currency of the Fund, you will be exposed to the fluctuations between those currencies.**

Other risks materially relevant to the Product not included in the summary risk indicator:

- Counterparty Risk: this risk is associated with the ability of a counterparty in an Over The Counter financial transaction to fulfil its commitments like payment, delivery and reimbursement.
- Operational risk: in the event of an operational breakdown within the management company, one of its representatives or the depositary, investors could face various disruptions (late payment, delivery etc.).

For additional details regarding the risks, please refer to the prospectus.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years			
Example Investment: GBP 10,000		If you exit after 1 year	If you exit after 5 years
<b>Scenarios</b>			
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	<b>What you might get back after costs</b>	4,290.99 GBP	2,714.61 GBP
	Average return each year	-57.09%	-22.96%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	7,818.52 GBP	7,698.5 GBP
	Average return each year	-21.81%	-5.10%
<b>Moderate</b>	<b>What you might get back after costs</b>	10,017.57 GBP	13,366.49 GBP
	Average return each year	0.18%	5.98%
<b>Favourable</b>	<b>What you might get back after costs</b>	13,915.42 GBP	19,575.71 GBP
	Average return each year	39.15%	14.38%

The favorable scenario occurred for an investment between 2016 and 2021.

The moderate scenario occurred for an investment between 2014 and 2019.

The unfavorable scenario occurred for an investment between 2021 and 2023.

## WHAT HAPPENS IF BNPP AM LUXEMBOURG IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM Luxembourg. In the event BNPP AM Luxembourg would default, the assets of the Product/SICAV, held by a depositary, would not be affected by this default.

In case of default of the depositary, the risk of financial loss of the Product/SICAV is mitigated by the legal segregation of the assets of the depositary from those of the Product/SICAV.

## WHAT ARE THE COSTS?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If this Product is used as an underlying of an insurance policy or a capitalization policy, the costs presented do not include any costs related to such policies.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
<b>Total Cost</b>	330.07 GBP	508.47 GBP
<b>Annual Cost Impact (*)</b>	3.31%	0.98%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.95% before costs and 5.98% after costs.

**Composition of costs**

One-off entry or exit costs	If you exit after 1 year	
<b>Entry costs</b>	Up to 3.00% of the amount you pay in when entering this investment.	Up to 300 GBP
<b>Exit costs</b>	We do not charge an exit cost.	0 GBP
Recurring costs levied annually		
<b>Management costs and other administrative and operating costs</b>	0.31% of the value of your investment per year. The amount is based on past expenses calculated on 31/12/2022.	30.07 GBP
<b>Transaction costs</b>	There are no transaction costs.	0 GBP
Incidental costs taken under specific conditions		
<b>Performance fees</b>	There is no performance fee for this Product.	0 GBP

In case of conversion, the investors may be charged a maximum fee of 1.50%.

**HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?****Recommended holding period ("RHP"): 5 years.**

The RHP has been defined and based on the risk and reward profile of the Product.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

Any redemption occurring before the end of the RHP may adversely impact the performance profile of the Product.

In addition, the investor's subscription, conversion or redemption order may be subject to an anti-dilution levy (maximum 0.3% for subscription or conversion in, and maximum 0.3% for redemption or conversion out) paid to the sub-fund in order to cover transaction costs.

**HOW CAN I COMPLAIN?**

For any claim, you are invited to contact your usual relationship manager that advised you on the Product. You can also contact BNPP AM Luxembourg, as described on its website [www.bnpparibas-am.lu](http://www.bnpparibas-am.lu) (Footnote 'Complaints management policy'), by sending an email to [amlu.complaints@bnpparibas.com](mailto:amlu.complaints@bnpparibas.com) or by writing to BNPP AM Luxembourg - Client Services - 10, rue Edward Steichen L-2540 Luxembourg.

**OTHER RELEVANT INFORMATION**
