Note 2 - Principal accounting methods

a) Presentation of the financial statements

The financial statements of the Company are presented in accordance with the legislation in force in Luxembourg governing undertakings for collective investment. The currency of the Company is the euro (EUR).

BNP Paribas Easy's (combined) financial statements are expressed in EUR by converting the financial statements of the sub-funds denominated in currencies other than EUR at the exchange rate prevailing at the end of the financial period.

The statement of operations and changes in net assets covers the financial period from 1 January 2023 to 30 June 2023.

Notes to the financial statements at 30/06/2023

b) Net asset value

This semi-annual report is prepared on the basis of the last net asset value as at 30 June 2023.

c) Valuation of the securities portfolio

The value of shares or units in undertakings for collective investment shall be determined on the basis of the last net asset value available on the Valuation Day. If this price is not a true reflection, the valuation shall be based on the probable sale price estimated by the Board of Directors in a prudent and bona fide manner.

The valuation of all securities listed on a stock exchange or any other regulated market which functions regularly, is recognised and accessible to the public, is based on the last known closing price on the Valuation Day, and, if the securities concerned are traded on several markets, on the basis of the last known closing price on the major market on which they are traded, or the relevant market as used by the index provider. If the last known closing price is not a true reflection, the valuation shall be based on the probable sale price estimated by the Board of Directors in a prudent and bona fide manner.

Unlisted securities or securities not traded on a stock exchange or another regulated market which functions in a regular manner is recognised and accessible to the public, shall be valued on the basis of the probable sale price estimated in a prudent and bona fide manner by a qualified professional appointed for this purpose by the Board of Directors.

If permitted by market practice, liquid assets, Money Market instruments and all other instruments may be valued at their nominal value plus accrued interest or according to the linear amortisation method. Any decision to value the assets in the portfolio using the linear amortisation method must be approved by the Board of Directors, which will record the reasons for such a decision. The Board of Directors will put in place appropriate checks and controls concerning the valuation of the instruments.

d) Conversion of foreign currencies

The accounts of each sub-fund are kept in the currency in which its net asset value is expressed, and the financial statements are expressed in that currency.

The cost of investments denominated in currencies other than the sub-fund accounting currency is converted into that currency at exchange rate prevailing at the purchase date.

Income and expenses in currencies other than the sub-fund accounting currency are converted into that currency at the exchange rate at the transaction date.

The resulting realised and unrealised foreign exchange profits or losses are included in the Statement of Operations and Changes in Net Assets.

The exchange rates used for each date are the WM Reuters closing spot rates 4 pm London time.

e) Valuation of forward foreign exchange contracts

Unexpired forward foreign exchange contracts are valued on the basis of the forward exchange rates applicable on the valuation date or the closing date, and the resulting unrealised profits or losses are recorded in the accounts. The unrealised appreciation/depreciation is disclosed in the Statement of net assets under "Net Unrealised gain/(loss) on financial instruments". Realised gains/(losses) and change in unrealised appreciation/depreciation as a result thereof are included in the Statement of operations and changes in net assets respectively under "Net realised result on Financial instruments" and "Movement on net unrealised gain/(loss) on Financial instruments".

f) Valuation of futures contracts

Unexpired futures contracts are valued at the last price known on the valuation date or closing date and the resulting unrealised profits or losses are accounted for.

Margin accounts to guarantee the liabilities on futures contracts are included in the "Cash at banks and time deposits" account in the statement of net assets. The unrealised appreciation/depreciation is disclosed in the Statement of net assets under "Net Unrealised gain/(loss) on financial instruments". Realised gains/(losses) and change in unrealised appreciation/depreciation as a result thereof are included in the Statement of operations and changes in net assets respectively under "Net realised result on Financial instruments" and "Movement on net unrealised gain/(loss) on Financial instruments".

Notes to the financial statements at 30/06/2023

g) Valuation of swaps

A Total Return Swap (TRS) is a bilateral agreement in which each party agrees to exchange payments based on the performance of an underlying instrument represented by a security, commodity, basket or index thereof for a fixed or variable rate. One party pays out the total return of a specific reference asset, and in return, receives a regular stream of payments. The total performance will include gains and losses on the underlying, as well as any interest or dividends during the contract period according to the type of underlying. The cash flows to be exchanged are calculated by reference to an agreed upon notional amount or quantity.

Total return swaps are marked to market at each NAV calculation date. The unrealised appreciation/depreciation is disclosed in the Statement of net assets under “Net Unrealised gain/(loss) on financial instruments”. Realised gains/(losses) and change in unrealised appreciation/depreciation as a result thereof are included in the Statement of operations and changes in net assets respectively under “Net realised result on Financial instruments” and “Movement on net unrealised gain/(loss) on Financial instruments”.

h) Income

Dividends are recorded at the ex-dividend date. Interest is recorded on an accrual basis.

i) Tracking error

The tracking error is the difference between the return on a sub-fund, and the benchmark it is expected to track. It is measured as the standard deviation of the difference in the fund's and index's returns over time.

j) Anti-Dilution Levy (“ADL”)

As detailed in the prospectus, for certain sub-funds, in addition to the entry, conversion or exit cost that may be charged to the investor, an anti-dilution levy may be paid by the investors to the Sub-Fund. Such amount covers transaction costs (including dealing costs relating to the acquisition, disposal or sale of portfolio's assets, taxes and stamp duties) in order to ensure that all investors in a Sub-Fund are treated equitably and preserve the Net Asset Value of the relevant sub-fund (notably to accommodate large inflows and outflows) where the implementation of such mechanism is considered to be in the best interests of the sub-fund's shareholders.

This anti-dilution levy is charged to subscriptions, conversions and redemptions to ensure that the existing shareholders are not adversely affected by shareholders who are executing subscription, conversion or redemption orders.

No anti-dilution levy is charged to redemption orders directly followed by subscription orders on the same share class, made by the same investor (applying to the same number of shares and the same Net Asset Value).

In the event swing pricing mechanism or an anti-dilution levy mechanism is applied to a sub-fund, as decided by the Board of Directors, the other mechanism shall not be cumulatively applied to client orders.

Anti-dilution levy will not be charged for conversions within a same sub-fund.

ADL levels are updated at each ADL committees (composed of representatives of Management Company: Management, Board of directors, Compliance, Risk etc.). The committees are held approximately once a quarter, or, in case of major events such as the modification of a country tax which could cause the significant variation of those levels.

Information regarding maximum ADL levels are available in the section “Documents” for each sub-fund accessible on the following website: <https://www.bnpparibas-am.com>.

The detail of applicable rates for the relevant sub-funds as at 30 June 2023 is detailed in the below table:

Note 11 - Swaps**Total Return Swaps**

A Total Return Swap (TRS) is an agreement to exchange the total performance of a bond or other underlying asset (share, index, etc.) for a benchmark rate plus a spread. The total performance includes the interest coupons, dividends and profits and losses on the underlying asset over the life of the agreement, depending on the type of underlying concerned. The risk in this type of agreement is linked to the fact that the benefit for each counterparty will depend on how the underlying asset performs over time, which is unknown at the time at which the agreement is entered into.

Note 13 - Changes in the composition of the securities portfolio

The list of changes in the composition of the securities portfolio during the period is available free of charge at the Management Company's registered office and from local agents.

Note 14 - List of Investment managers

As at 30 June 2023, all opened sub-funds are managed by BNP PARIBAS ASSET MANAGEMENT France.

Note 15 - Transaction fees

Transaction fees incurred by the Company relating to purchase or sale of transferable securities, money market instruments, derivatives or other eligible assets are mainly composed of standard fees, sundry fees on transaction, stamp fees, brokerage fees, custody fees, VAT fees, stock exchange fees and RTO fees (Reception and Transmission of Orders).

In line with bond market practice, a bid-offer spread is applied when buying and selling these securities. Consequently, in any given transaction, there will be a difference between the purchase and sale prices quoted by the broker, which represents the broker's fee.

Note 16 - Tax claims as part of the Aberdeen/Fokus Bank Project

In several European Union member states, community law grants undertakings for collective investments (UCIs) the right to file claims with a view to recovering taxes they have been unjustly forced to pay. When one member state imposes a greater tax burden on a foreign UCI than on a resident UCI, this constitutes discrimination under community law.

This principle was confirmed by the ruling of the Court of Justice of the European Union (CJEU) in the "Aberdeen" case (18 June 2009). This ruling acknowledges that a non-resident UCI can be subject to discriminatory taxation, which constitutes an obstacle to freedom of establishment and/or the free movement of capital. Other CJEU rulings have subsequently confirmed this jurisprudence. Key examples are the rulings in the Santander (10 May 2010) and Emerging Markets (10 April 2014) cases regarding French and Polish tax legislation, respectively.

In light of this jurisprudence and in order to safeguard the right of UCIs to receive tax rebates, the management company has decided to file claims with the tax authorities in several member states whose discriminatory legislation fails to comply with community law. Preliminary studies will be carried out to determine whether or not the claims are viable, i.e. for which funds, in which member states and over what period of time it is necessary to request a rebate.

To date, there is no European legislation establishing a uniform framework for this type of claim. As a result, the time taken to receive a rebate and the complexity of the procedure vary depending on the member state in question. This means that it is necessary to constantly monitor developments in this regard.

Due to the uncertainty of the recoverability of the amounts, no accrual is recorded and it is booked under the caption "Income on investments and assets" when received.

Notes to the financial statements at 30/06/2023

Note 17 - Regulation on transparency of Securities Financing Transactions and Reuse of collateral (SFTR)

This collateral applies to all OTC activity of this fund. There is no way to distinguish it upon type of instrument it is related to.
