## What is this product?

## Type

This is an open ended UCITS fund.

## Term

The fund is established for an unlimited period. In certain circumstances the fund may be unilaterally terminated in accordance with legal requirements.

## Investment objective

The fund aims to provide capital growth in excess of the Bloomberg Multiverse TR ex Treasury A+ to B- USD Hedged index after fees have been deducted over a three to five year period by investing in bonds which meet the investment manager's sustainability criteria.

The fund is actively managed and invests at least two-thirds of its assets in investment grade and sub-investment grade bonds (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies) issued by governments, government agencies, supra-nationals and companies worldwide, including emerging market countries.

The fund may invest in excess of 50% of its assets in bonds that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds); up to 20% of its assets in asset backed and mortgage-backed securities; and up to 30% of its assets in convertible bonds including up to 10% of its assets in contingent convertible bonds (CoCo's).

The fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash (subject to the restrictions provided in the prospectus).

The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently.

The fund is valued with reference to the net asset value of the underlying assets.

**Benchmark:** The fund's performance should be assessed against its target benchmark being to exceed the Bloomberg Multiverse TR ex Treasury A+ to B- USD Hedged. The fund's investment universe is expected to overlap materially with the components of the target benchmark. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the target benchmark. The benchmark(s) does/do not take into account the environmental and social

characteristics or sustainable objective (as relevant) of the fund. Please see appendix III of the fund's prospectus for further details.

**Currency:** The sub-fund currency is USD. The share class currency is EUR.

## What happens if Schroder Investment Management (Europe) S.A. is unable to pay out?

The fund's assets are held in safekeeping by its depositary, so the fund's ability to pay out would not be affected by the insolvency of Schroder Investment Management (Europe) S.A. In addition, the fund's assets are segregated from the depositary's assets, which limits the risk of the fund suffering loss in case of default or insolvency of the depositary or someone acting on its behalf. However in the event of any loss, there is no compensation or guarantee scheme in place which may offset such loss.
