#### Additional information for investors in Germany, Austria and Switzerland

For the distribution of the SICAV's shares in Germany, RAM Active Investments (Europe) S.A. is appointed paying and information agent. The paying and information agent in Germany accepts the redemption and conversion orders.

For the distribution of the SICAV's shares in Austria, ERSTE BANK DER ÖSTERREICHISCHEN SPARKASSEN AG is appointed paying and information agent. In this capacity, the aforementioned agent ensures that Austrian investors are able to make subscription payments and to receive income corresponding to repayments on redemptions and distributions of dividends.

#### For the distribution of the SICAV's shares in Switzerland:

### Representative and distributor in Switzerland:

RAM Active Investments S.A. in Switzerland is appointed as the representative of the SICAV and of companies that have contracted commitments to the SICAV's shareholders for Switzerland. In this capacity, RAM Active Investments S.A. is also responsible for distributing the shares of the SICAV, in or from Switzerland.

#### Payment service in Switzerland:

CACEIS BANK, Montrouge, Nyon/Switzerland Branch is appointed as paying office of the SICAV for Switzerland.

#### Report on activities of the Board of Directors

#### 2022 Review

2022 was a challenging year for the financial markets, with inflation at its highest level in forty years and central banks stepping up their efforts to bring down price pressures. The main reasons for this challenging market environment were the post-COVID monetary and fiscal policies in developed markets, the war in Ukraine and the zero-COVID policy in China. Against this background, interest rates rose sharply and risk assets suffered significant losses during the year. The markets were relieved in the fourth quarter and rallied a little as mild weather in Europe mitigated the impact of the energy crisis and China unexpectedly ended its zero-COVID policy. However, this was not enough to save the year. Despite the increased likelihood of a recession (historically, inversion of the yield curve has been a relatively good predictive signal), the strength of the labour market and the resilience of corporate earnings gave investors hope of a soft landing.

From the perspective of asset classes, bonds suffered losses as the interest rate effect and the credit spread effect weighed on performance. Overall, high yield bonds showed less of a decline than investment grade bonds, as they carry less maturity risk, and the widening of credit spreads was fairly contained. Emerging markets underperformed, mainly impacted by the poor performance of Chinese fixed income bonds and bonds from countries with higher dollar exposure. In the equity market, value stocks significantly outperformed growth stocks, a development consistent with the effect of the rising interest rate cycle. By early 2022, the valuation of growth stocks had risen to double that of value stocks. On the foreign exchange market, the USD increased as the Fed moved aggressively to normalise its monetary policy. Commodities ended the year with a double-digit gain overall but with large variations between sectors and volatility throughout the year. Finally, gold prices rose as investors turned to inflation-hedging assets.

Our strategies recorded losses in 2022. Traditional assets accounted for the bulk of the negative contribution, with the investment grade bond bias and developed market equities, particularly US exposures, acting as a drag on performance. Alternative strategies saw contained losses and the outlook for future returns increased in this category as increased dispersion between asset classes is expected. In risk-reduction strategies, significant gains were made in the first part of the year. The recovery in the past few months of the year and the low volatility of equities relative to other asset classes erased some of the accumulated gains.

#### **Outlook for 2023**

In our view, the financial market turbulence of 2022 should continue in 2023 as investors shift from inflation risks to recession risks (impact on growth and earnings). Interest rates in developed markets are beginning to have an increased negative transmission effect on the economy and financial conditions are expected to deteriorate over the coming months. The impact of quantitative tightening achieved by reducing the balance sheet of central banks in the US and Europe is also a big unknown in terms of the consequences of rising rates.

We expect inflation in developed markets to fall gradually but to remain above the central banks' target and for US inflation to fall faster than European inflation due to a weaker dollar, bloated inventories, a slowdown in hiring and subdued increases in rents.

The current rally in the financial markets appears to be driven mainly by low quality assets, which presume that the tightening of financial conditions is over and that the inflection point for corporate earnings is in sight. We believe that the latest rise on the equity and credit markets is due to "fear of missing the boat".

### Report on activities of the Board of Directors (continued)

We favour an approach with exposure to equities at the lower end of the historical valuation range and to adopt selective and focused themes such as value, infrastructure and China.

At this stage, we prefer Investment Grade over High Yield and the US and emerging markets over the European market.

At present, US Treasury bills and their role in protecting portfolios are an attractive asset. In alternative investments, arbitrage and macro/CTA strategies should provide portfolio diversification, as these benefit from a high dispersion.

The SFDR annexes are included in the (non-audited) "Additional Information" section of this report.

Luxembourg, 17 March 2023

The Board of Directors

Note: The information in this report represents historical data and is not an indication of future results.

#### **Audit report**

To the Shareholders of RAM (LUX) TACTICAL FUNDS

#### Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of RAM (LUX) TACTICAL FUNDS (the "Fund") and of each of its sub-funds as at 31 December 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 31 December 2022:
- the combined statement of operations and other changes in net assets for the Fund and the statement of operations and other changes in net assets for the sub-fund for the year then ended;
- the statement of investments and other net assets as at 31 December 2022; and
- the notes to the financial statements, which include a summary of significant accounting policies.

#### **Basis for opinion**

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

#### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

#### Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
  a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
  involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
  control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the
  disclosures, and whether the financial statements represent the underlying transactions and events
  in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

PricewaterhouseCoopers, Société coopérative Represented by

#### Notes to the financial statements

as at 31st December 2022

#### Note 1 - General Information

RAM (LUX) TACTICAL FUNDS (the "SICAV") is a "Société d'Investissement à Capital Variable" (SICAV) with multiple sub-funds subject to Luxembourg law incorporated on 30th November 2006 for an unlimited period in accordance with the amended Law of 10th August 1915 and its amending laws relating to commercial companies, the law relating to Undertakings for Collective Investment (UCI) and in accordance with the Council Directive 2009/65/CE as amended. The SICAV is subject to Part I of the Law of 17th December 2010 in its currently valid version relating to Undertakings for Collective Investment (the "Law of 2010").

For the sole purpose of facilitating administration when marketing share classes, these are grouped together by category: clusters of share classes. These "clusters" are as follows: Retail 1, Retail 2, Retail 3, Retail 4, Retail 5, Retail 6, Instit 2 and RAM.

#### Share classes belonging to the Retail 1 Cluster:

Name of share class	Named hereafter	Hedged
В	В	
Сн	CH	Hedged
Ен	EH	Hedged

#### Share classes belonging to the Retail 2 Cluster:

Name of share class	Named hereafter	Hedged
F	F	
Gн	GH	Hedged
Jн	JH	Hedged

#### Share classes belonging to the Retail 3 Cluster:

Name of share class	Named hereafter	Hedged
U	U	
U <sub>H</sub> (EUR)	UH (EUR)	Hedged
U <sub>H</sub> (CHF)	UH (CHF)	Hedged

#### Share classes belonging to the Retail 4 Cluster:

Name of share class	Named hereafter	Hedged
X	X	
X <sub>H</sub> (EUR)	XH (EUR)	Hedged
XB	XB	
XB <sub>H</sub> (EUR)	XBH (EUR)	Hedged

### Share classes belonging to the Retail 5 Cluster:

Name of share class	Named hereafter	Hedged
XN	XN	
XN <sub>H</sub> (EUR)	XNH (EUR)	Hedged

### Share classes belonging to the Retail 6 Cluster:

Name of share class	Named hereafter	Hedged
XI <sub>D</sub>	XID	
XIc	XIC	

#### Notes to the financial statements (continued)

as at 31st December 2022

Name of share class	Named hereafter	Hedged
XM <sub>D</sub>	XMD	
$XM_C$	XMC	
$XS_D$	XSD	
XS1 <sub>D</sub>	XS1D	

#### Share classes belonging to Instit 2 Cluster:

Name of share class	Named hereafter	Hedged	
I	1		<u>.</u>
I <sub>H</sub> (EUR)	IH (EUR)	Hedged

#### Share classes belonging to RAM Cluster:

Name of share class	Named hereafter	Hedged
R	R	
RAM	RAM	
RAM <sub>CH</sub>	RAMCH	Hedged

All issued share classes are accumulation share classes except share classes  $XI_D$ ,  $XM_D$ ,  $XS_D$  et  $XS1_D$  which are distribution share classes.

The SICAV's Prospectus including the Articles of Association and the factsheet of the sub-fund, the key investment document ("KID"), the annual reports including audited financial statements and unaudited semi-annual reports are available free of charge:

- -at the SICAV's registered office and at the Management Company's registered office,
- -at the registered office of the representative and distributor in Switzerland, RAM Active Investments S.A., Geneva.
- -from the payment service in Switzerland, CACEIS BANK, Montrouge, Nyon/Switzerland Branch,
- -from the paying and information agent in Germany, MARCARD, STEIN & CO AG, Hamburg,
- -from the paying and information agent in Austria, ERSTE BANK DER ÖSTERREICHISCHEN SPARKASSEN AG, Vienna,
- -from the paying and information agent in France, CREDIT INDUSTRIEL ET COMMERCIAL (CIC), 6, Avenue de Provence, F-75009 Paris.

The complaint settlement procedure foreseen by the CSSF Regulation relating to the out-of-court resolution of complaints is available at the registered office of the SICAV.

#### Note 2 - Significant accounting policies

#### a) Presentation of the financial statements

The financial statements of the SICAV are prepared in accordance with the Luxembourg legal and regulatory requirements concerning Undertaking for Collective Investment and with generally accepted accounting principles in Luxembourg. The financial statements of the SICAV have been prepared on a going concern basis.

#### b) Valuation of assets

The value of cash on hand or on deposit, bills and paper payable on demand, accounts receivable, prepaid expenses, and dividend and interest payments declared or due that remain outstanding is represented by the nominal value of those assets except, however, when collection of that amount

#### Notes to the financial statements (continued)

as at 31st December 2022

appears unlikely. In that last case, the value shall be determined by deducting an amount the SICAV deems appropriate to reflect the true value of those assets.

The value of all transferable securities, money market instruments and financial derivatives that are listed on an exchange or traded on another regulated market that operates regularly and is recognised and open to the public, is determined at the latest price available.

If SICAV investments are listed on an official stock exchange or traded on another regulated market that operates regularly and is recognised and open to the public and traded by market markers outside the stock market on which the investments are listed or the market on which they are traded, the Board of Directors may determine a principal market for the investments in question, which shall thereafter be valued at the last price available on this market.

Financial derivatives not listed on an official stock exchange or traded on any other regulated market that operates regularly and is recognised and open to the public shall be valued in accordance with market practice, as may be described in greater detail in the Prospectus.

Cash and money market instruments may be valued at their nominal value plus interest, or on the basis of the amortised cost method. Where practical, all other assets may be valued on the same basis.

The value of units representing any open-ended undertaking for collective investment is determined using the last official Net Asset Value per unit or the last Net Asset Value estimate if this value is more recent than the official Net Asset Value, provided that the SICAV is guaranteed that the valuation method used for this estimate is consistent with that used for the calculation of the official Net Asset Value.

In the case of:

- transferable securities, money market instruments and/or financial derivatives in the portfolio on the valuation day not listed or traded on a stock exchange or on another regulated market that operates regularly and is recognised and open to the public or,
- transferable securities, money market instruments and/or financial derivatives listed and traded on a stock exchange or other such market whose prices determined do not, in the opinion of the Board of Directors, reflect the true value of these transferable securities, money market instruments and/or financial derivatives or,
- financial derivatives traded over the counter and/or securities that represent undertaking for collective investment whose prices determined do not, in the opinion of the Board of Directors, reflect the true value of the financial derivatives or securities that represent undertaking for collective investment,

the Board of Directors estimates their probable market value prudently and in good faith.

Values expressed in another currency than that of the respective sub-funds are converted to the last known average price.

#### c) Acquisition cost of securities in the portfolio

The acquisition cost of the securities held by each sub-fund that are denominated in currencies other than the reference currency of the sub-fund is converted into this currency at the exchange rate prevailing on the date of purchase.

#### Notes to the financial statements (continued)

as at 31st December 2022

#### d) Net realised gain/(loss) on securities portfolio

The realised gains and losses on securities portfolio are calculated on the basis of the average acquisition cost and are disclosed net in the statement of operations and other changes in net assets.

#### e) Investment portfolio income

Dividend income is disclosed at the ex-date, net of any withholding tax.

Interest income accrued and payable are recorded, net of any withholding tax.

#### f) Valuation of forward foreign exchange contracts

Open forward foreign exchange contracts are valued at forward market rates for the remaining period from valuation date to the maturity of the contracts. Net unrealised gains or losses of open contracts are disclosed in the statement of net assets. Net variation of unrealised gains and losses and net realised gains and losses are disclosed in the statement of operations and other changes in net assets.

#### q) Valuation of futures contracts

Open futures contracts are valued at the last settlement or close price on the stock exchanges or regulated markets. Net unrealised gains losses of open contract are disclosed in the statement of net assets. Net variation of unrealised gains or losses and net realised gains or losses are disclosed in the statement of operations and other changes in net assets.

#### h) Valuation of swaps contracts

Swaps contracts are posted off-balance sheet and valued on the basis of the recalculated market prices by using the traditional elements of pricing considering the value, the volatility of the underlying, the interest rates and the residual value of the swap. Unrealised gains or losses of open contracts are disclosed in the statement of net assets. Net variation of unrealised gains and losses and net realised gains and losses are disclosed in the statement of operations and other changes in net assets.

#### i) Valuation of option contracts

Premiums paid on the purchase of options contracts are disclosed under the item "Option contracts at market value" in the statement of net assets and are presented as cost in the statement of investments and other net assets. Open option contracts outstanding at the date of the financial statements are valued at the last settlement or closing price on the stock exchanges or regulated markets. Net variation of unrealised gains or losses and net realised gains or losses are disclosed in the statement of operations and other changes in net assets.

#### j) Formation expenses

The formation expenses were totally amortised on a straight line basis over a period of five years.

If the launch of a sub-fund occurs after the launch date of the SICAV, the costs of formation in relation to the launch of the new sub-fund is charged to such sub-fund alone and may be amortised over a maximum of 5 years with effect from the sub-fund's launch date.

#### Notes to the financial statements (continued)

as at 31st December 2022

#### k) Conversion of foreign currencies

Cash at banks, other net assets and liabilities and the market value of the securities in portfolio expressed in currencies other than the reference currency of the sub-fund are converted into this currency at the exchange rate prevailing on the date of the financial statements. Income and expenses expressed in currencies other than the reference currency of the sub-fund are converted into this currency at the exchange rate prevailing on the date of the transaction. Net realised gains or losses on foreign exchange are disclosed in the statement of operations and other changes in net assets.

At the date of the financial statements, the exchange rates are the following:

1	EUR	=	1.4460745 0.9872845 7.4362303 0.8875078 8.3312872 140.8340139 1.0674500	CAD CHF DKK GBP HKD JPY USD	Canadian Dollar Swiss Franc Danish Krona Pound Sterling Hong Kong Dollar Japanese Yen US Dollar

#### I) Other liquid assets

The caption "Other liquid assets" disclosed in the statement of net assets is mainly composed of treasury accounts held by the counterparties of the financial instruments and derivatives.

#### m) Bank overdrafts and other liquid liabilities

The caption "Bank overdrafts" disclosed in the statement of net assets is mainly composed of debt treasury accounts held by the banks.

The caption "Other liquid liabilities" disclosed in the statement of net assets is mainly composed of debt treasury accounts held by the counterparties of the financial instruments and derivatives.

#### n) Combined financial statements

The combined financial statements of the SICAV are expressed in EUR and are equal to the sum of the corresponding items in the financial statements of each sub-fund converted into this currency at the exchange rate prevailing at the date of the financial statements.

#### Notes to the financial statements (continued)

as at 31st December 2022

At the date of the financial statements, the exchange rate used for the combined financial statements is the following:

1 EUR = 1.0674500 USD US Dollar

#### o) Revaluation difference

The item "Revaluation difference" in the combined statement of operations and other changes in net assets represents the valuation difference of the net assets at the beginning of the financial year of the Sub-Funds converted into the reference currency of the SICAV with the exchange rates applicable at the beginning of the financial year and the exchange rates applicable at the end of the financial year.

#### p) Transaction fees

Transaction costs disclosed under the item "Transaction fees" in the expenses of the statement of operations and other changes in net assets are mainly composed of broker fees incurred by the SICAV and of fees relating to transactions paid to the depositary as well as of transaction fees on financial instruments and derivatives.

#### Note 3 - Management fees

The Board of Directors of the SICAV appointed RAM Active Investments (Europe) S.A. (formerly RAM Active Investments (Luxembourg) S.A.) as Management Company for management, administration and marketing services.

The Investment managers receive an annual management fee excluding marketing expenses payable on a quarterly basis and calculated on the average of the net assets of the sub-fund as described below:

The management fee, paid on basis of general market practice in Luxembourg, is recorded under the caption "Management fees" in the expenses of the statement of operations and other changes in net assets.

#### Note 4 - Performance fee ("outperformance fee")

RAM RAMCH

RAM Active Investments S.A. receives the performance fees for the class I and IH (EUR) of the subfund RAM (LUX) TACTICAL FUNDS - GLOBAL BOND TOTAL RETURN FUND.

For the share class, the performance fee includes the principle of crystallization of redemptions and adjustments on subscriptions in order to limit bias in the calculation of performance fee.

No performance fee is provided for the share classes B, CH, EH, F, GH, JH, U, UH (CHF), UH (EUR), X, XH (EUR), XB, XBH (EUR), XN, XNH (EUR), IN, INH (EUR) R, RAM and RAMCH of the sub-fund RAM (LUX) TACTICAL FUNDS - GLOBAL BOND TOTAL RETURN FUND.

#### Notes to the financial statements (continued)

as at 31st December 2022

The performance of the share classes equals the difference between the NAV per share at the end of the period in question ("final NAV") and that at the end of the previous period ("initial NAV"), expressed as a percentage (the "performance"). For the first period for which this performance fee is applicable, the initial NAV is equal to the initial subscription price of the share class.

The performance fee accrued for each Net Asset Value calculation is payable at the end of each financial year (period).

The performance fee is calculated as follows:

#### For RAM (LUX) TACTICAL FUNDS - GLOBAL BOND TOTAL RETURN FUND

#### For the I and IH (EUR) share class:

For each period in which the performance of the sub-fund exceeds until 14 th June 2022 the performance of the 3-month interbank rate offered in London (3 month US Dollar (USD) LIBOR interest rate) and since 15th June 2022 the performance of the retrospective and risk-free reference indices (SOFR, SONIA, ESTER, SARON), offsetting any currency effect relative to the currency of the share classes concerned ("reference index"), expressed as a percentage (the "outperformance"), a fee of 10% of the outperformance calculated based on the net assets the day before the performance fee is deducted is payable if (1) the performance of the share classes exceeds the performance of the Reference Index over the period and (2) the outperformance of the class over the period is higher than the highest historic periodic outperformance ("High Water Mark" principle).

At the date of the financial statements, no performance fee was recorded for the sub-fund RAM (Lux) TACTICAL FUNDS - GLOBAL BOND TOTAL RETURN FUND.

For the subs-funds RAM (LUX) TACTICAL FUNDS - SUSTAINABLE FLEXIBLE FUND and RAM (LUX) TACTICAL FUNDS - SUSTAINABLE NEXTGEN TMF\* 2028 no performance fee is foreseen.

#### Note 5 - Central administration cost

The item "Central administration costs" disclosed in the statement of operations and other changes in net assets is mainly composed of the administrative agent.

#### Note 6 - Other administration costs

The caption "Other administration costs" disclosed in the statement of operations and other changes in net assets is mainly composed by commissions on administrative intervention, Fundsquare fees, marketing fees, NAV publication fees, hedging share commission, paying agent commission, distribution commissions and other commissions and fees.

#### Note 7 - Subscription duty ("Taxe d'abonnement")

The SICAV is governed by Luxembourg laws.

Pursuant to the legislation and regulations in force, the SICAV is subject to an annual subscription duty ("taxe d'abonnement") of 0.05% which is payable quarterly and calculated on the basis of the net assets of each sub-fund on the last day of each quarter.

A lower rate of 0.01% is applied to the classes I, IN, INH (EUR), R, RAM and RAMCH shares reserved to institutional investors according to Article 174 (2) of the amended law of 17th December 2010.

#### Notes to the financial statements (continued)

as at 31st December 2022

Pursuant to Article 175 (a) of the amended law of 17th December 2010 the net assets invested in undertakings for collective investment already subject to the "taxe d'abonnement" are exempt from this tax.

#### Note 8 - Belgian subscription duty ("taxe d'abonnement belge")

The Belgian imposes to Undertakings for Collective Investment which were authorised to market their shares publicly in Belgium, the payment of an annual tax. This tax is due from the moment of the registration of a Sub-Fund with the "Financial Services and Markets Authority" ("FSMA") and amounts to 0.0925% on the total of the net sums invested in Belgium as at 31 December of the previous year.

The Sicav is liable for this tax at the latest on 31 March of each year.

This tax is recorded in the caption "Other taxes" of the statement of operations and other changes in net assets.

#### Note 9 - Changes in investments

Changes in the composition of the securities portfolio during the current year are available on demand and free of charge:

- from the registered office of the SICAV,
- from the registered office of the Management Company,
- from the registered office of the Representative and Distributor in Switzerland, RAM Active Investments S.A., Geneva,
- from the Payment Service in Switzerland, CACEIS BANK, Montrouge, Nyon/Switzerland Branch,
- from the paying and information agent in Germany, MARCARD, STEIN & CO AG, Hamburg,
- from the paying and information agent in Austria, ERSTE BANK DER ÖSTERREISCHICHEN SPARKASSEN AG, Vienna.

#### Note 10 - Cross investments

According to the article 181 (8) of the amended law 17th December 2010, the Sub-Fund RAM (LUX) TACTICAL FUNDS-SUSTAINABLE FLEXIBLE FUND invested in the Sub-Funds as described below as at 31st December 2022:

Sub-Fund	Description	Currency	Quantity	Market value	% of total net assets
RAM (LUX) TACTICAL FUNDS-SUSTAINABLE	RAM (Lux) Tactical Fds Global Bond Total				
FLEXIBLE FUND	Return IH Cap	EUR	67,000.47	5,953,661.76	7.51%

The combined financial statements has not been adjusted to neutralise the impact of the above. The combined net assets as at 31st December 2022, as corrected without the amount of the cross investment, amount to EUR 325,656,022.78.

In order to reduce counterparty risk on forward foreign exchange exposure and from a minimum transfer amount of EUR 100,000.00:

- BANQUE DE LUXEMBOURG pays to the sub-fund cash collateral, if the unrealised result is positive: thus, cash collateral received is disclosed in the caption "Cash at banks" in the Statement of net assets. The amount received and to be redeemed to BANQUE DE LUXEMBOURG is disclosed in the caption "Redeemable cash collateral received",
- BANQUE DE LUXEMBOURG receives cash collateral, if the unrealised result is negative: thus, cash collateral paid is disclosed under the caption "Cash at banks in the Statement of net assets. The amount paid and to be received by the Fund from BANQUE DE LUXEMBOURG is disclosed in the caption "Receivable on cash collateral paid".

#### Note 14 - Events

The Board of Directors draws the attention to the following Russian-related positions as at 31st December 2022 in the sub-fund: RAM (LUX) TACTICAL FUNDS-GLOBAL BOND TOTAL RETURN FUND.

The Board of Directors performs a close monitoring to the evaluation of the restrictive measures and ensures a cautious valuation approach pricing them all at "0".

RZD Capital Plc (Isin code : XS2271376498) GAZ Finance Plc (Isin code : CH1120085688) Russian Federation (Isin code : RU000A102BT8

#### Note 15 - Subsequent events

There are no significant subsequent events.

#### Additional information (unaudited)

as at 31st December 2022

#### 1 - Risk management

As required by Circular CSSF 11/512 as amended, the Board of Directors of the SICAV needs to determine the global risk exposure of the SICAV either by applying the commitment approach or the VaR ("Value at Risk") approach.

In terms of risk management, the Board of Directors of the SICAV decided to adopt, as a method of determining the global risk exposure:

- the absolute VAR approach for the following sub-funds:
  - RAM (LUX) TACTICAL FUNDS GLOBAL BOND TOTAL RETURN FUND
  - RAM (LUX) TACTICAL FUNDS SUSTAINABLE FLEXIBLE FUND
  - RAM (LUX) TACTICAL FUNDS SUSTAINABLE NEXTGEN TMF\* 2028

The absolute VaR is calculated according to the following parameters:

Type of model: Monte CarloConfidence interval: 99 %Holding period: 20 days

For the observation period from 1st January 2022 until 31st December 2022 for the following sub-funds:

Sub-funds	minimum VaR limit	maximum VaR limit	average VaR limit	Leverage value* as at 31/12/22
RAM (LUX) TACTICAL FUNDS - GLOBAL BOND TOTAL RETURN FUND	1.27%	2.33%	1.78%	162%
RAM (LUX) TACTICAL FUNDS - SUSTAINABLE FLEXIBLE FUND	3.34%	8.62%	5.31%	82%
RAM (LUX) TACTICAL FUNDS - SUSTAINABLE NEXTGEN TMF* 2028	1.58%	5.04%	2.93%	52%

<sup>\*</sup>The leverage value is determined using the calculation method of the commitment, therefore after taking into account the netting or hedging provisions.

#### 2 - Remuneration

From 1st January 2022 until 31st December 2021 (the "Reference Period"), the total amount of wages and salaries paid-in cash and/or restricted securities by RAM Active Investments (Europe) S.A. (the "Management Company") to its entire staff (composed during the Reference Period in average of 6 employees) was EUR 1,156,096.30.

In particular, during the Reference Period, the total amount of wages and salaries was split into fixed and variable remuneration as follows:

- Fixed remuneration: EUR 923,728.14 - Variable remuneration: EUR 262,368.16

No fees based on the performance of the Fund or carried interest are used to remunerate employees of the Company.

#### Additional information (unaudited) (continued)

as at 31st December 2022

The total amount of remuneration paid to senior management and members of staff (including outsourced staff) of the Company whose actions have a material impact on the risk profile of the Company or falling within the remuneration bracket of senior management and risk takers during the Reference Period was EUR 485,735.79.

Please note that above figures are provided for overall services provided by the Company and they do not represent a breakdown at the level of the Fund.

Details of the remuneration policy of the Management Company, including a description of the key remuneration elements and an overview of how remuneration is determined, is available under <a href="https://www.ram-ai.com">www.ram-ai.com</a>.

## 3 - Information concerning the transparency of securities financing transactions and of reuse of cash collateral (regulation EU 2015/2365, hereafter "SFTR")

During the reporting period, the SICAV did not engage in transactions which are subject to the publication requirements of SFTR. Accordingly, no information concerning the transparency of securities financing transactions and of reuse of cash collateral should be reported.

#### 4 - Sustainability-related disclosures

In accordance with the requirements of the EU Regulations 2019/2088 on sustainability related disclosures in the financial services sector (the "SFDR") as amended, it is noted that for the sub-funds RAM (LUX) TACTICAL FUNDS - GLOBAL BOND TOTAL RETURN FUND, RAM (LUX) TACTICAL FUNDS - SUSTAINABLE FLEXIBLE FUND et RAM (LUX) TACTICAL FUNDS - SUSTAINABLE NEXTGEN TMF\* 2028 referred to under article 8, the (unaudited) RTS annex is presented on the pages hereafter.

#### ANNEXE IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name:

RAM (LUX) TACTICAL FUNDS - GLOBAL BOND

**TOTAL RETURN FUND** 

with a social objective: %

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Environmental and/or social characteristics** Did this financial product have a sustainable investment objective? [tick and fill in as relevant, the percentage figure represents sustainable investments]. \* No It made sustainable investments It promoted environmental/social (E/S) with an environmental characteristics and while it did not have as its objective a sustainable investment, it objective: \_\_%. had a proportion of % of sustainable in economic activities that qualify investments as environmentally sustainable under the EU Taxonomy with an environmental objective in economic activities that qualify as in economic activities that do not environmentally sustainable under qualify as environmentally the EU Taxonomy sustainable under the EU Taxonomy with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective It made sustainable investments It promoted E/S characteristics, but did not

### Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product *met*? [list the environmental and/or social characteristics promoted by the financial product. For the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852 in respect of sustainable investments with environmental objectives, list the environmental objectives set out in Article 9 of that Regulation to which the sustainable investment

make any sustainable investments

Regulation (EU) 2020/852 in respect of sustainable investments with environmental objectives, list the environmental objectives set out in Article 9 of that Regulation to which the sustainable investment underlying the financial product contributed. For financial products that made sustainable investments with social objectives, list the social objectives].

The fund considers the following indicators:

- Investment in corporate debt:
  - o % of portfolio exposed to corruption and bribery
  - % of portfolio exposed to controversies relating to the ethical conduct of the company's business
  - $\circ\ \ \,$  % of portfolio exposed to human rights controversies
  - % of portfolio subject to exclusions relating to management, staff management, tax, ethical and/or risk issues (among others)
- Investment in government debt:
  - o % of portfolio with insufficient corruption control
  - % of portfolio with a high risk of political instability and/or violence/terrorism

#### How did the sustainability indicators perform?

As at 31/12/2022, the fund has the following performance for the indicators:

- Investment in corporate debt:
  - % of portfolio exposed to corruption and bribery: **0%**
  - % of portfolio exposed to controversies relating to the ethical conduct of the company's business: 0%
  - % of portfolio exposed to human rights controversies: 0%
  - % of portfolio subject to exclusions relating to management, staff management, tax, ethical and/or risk issues (among others): 0%
- Investment in government debt:
  - % of portfolio with insufficient corruption control: 0%
  - % of portfolio with a high risk of political instability and/or violence/terrorism: 0%
- ...and compared to previous periods? [include for financial products where at least one previous periodic report was provided].

Not applicable

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives? [include for financial products that made sustainable investments, where not included in the reply to the above question, describe the objectives. Describe how the sustainable investments contributed to the sustainable investment objective. For the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852, list the environmental objectives set out in Article 9 of that Regulation to which the sustainable investment underlying the financial product contributed.

Not Applicable, the fund does not make sustainable investments.

- How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective? [include where the financial product includes sustainable investments]
  - How were the indicators for adverse impacts on sustainability factors taken into account?

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding principles on Business and Human Rights? Details:

Not Applicable, the fund does not make sustainable investments.

[Include a statement for the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852]

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomyaligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities.

The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Principle adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors? [include section if the financial product considered principal adverse impacts on sustainability factors].

Not Applicable, the fund does not make sustainable investments.

#### What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 31/12/2022

Largest investments	Sector	Sub-sector	% Assets	Country

#### What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

Not Applicable, the fund does not make sustainable investments.

#### What was the asset allocation?

The category **#1 Aligned with E/S characteristics** includes investments of the financial product used to achieve the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments;

The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

[Include note only for the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852]

To comply with the EU
Taxonomy, the criteria
for fossil gas include
limitations on
emissions and
switching to fully
renewable power or
low-carbon fuels by
the end of 2035. For
nuclear energy, the
criteria include
comprehensive safety
and waste
management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental

objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

In which economic sectors were the investments made? [include information referred to in Article 54 of this Regulation].

Sector	% Assets
Government	51.74%
Financial	21.69%
OTC Derivatives	15.66%
Utilities	6.44%
Cash	1.08%
ETF	1.05%

To what extent were the sustainable investments with an environmental objective aligned with the EU taxonomy? [include section for the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852 and include information in accordance with Article 51 of this Regulation]

Not Applicable, the fund does not make sustainable investments.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes: [specify below, and details in the graphs of the box]
In fossil gas In nuclear energy

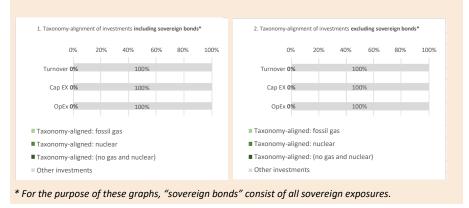

**₩** No

[Include note for the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852]
Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure
   (CapEx) showing the
   green investments made
   by investee companies,
   e.g. for a transition to a
   green economy;
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds \*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Include information on Taxonomy aligned fossil gas and nuclear energy and the explanatory text in the left margin on the previous page only if the financial product invested in fossil gas and/or nuclear energy taxonomy-aligned economic activities during the reference period]

What was the share of investments made in transitional and enabling activities? [include a breakdown of the proportions of investments during the reference period].

0%

<sup>&</sup>lt;sup>1</sup> Fossil gas and/or nuclear activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

[Include note for the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852 that invest in environmental economic activities that are not environmentally sustainable economic activities].

are sustainable investments with an environmental objective thatdo not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods? [include where at least one previous periodic report was provided]

0%

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy? [include section only for the financial products referred to in Article 6, first subparagraph of Regulation (EU) 2020/852 where the financial product included sustainable investments with an environmental objective that invested in economic activities that are not environmentally sustainable economic activities, and explain why the financial product invested in economic activities that were not aligned to EU Taxonomy]

Not Applicable, the fund does not make sustainable investments.

What was the share of socially sustainable investments? [include only where the financial product included sustainable investments with a social objective].

Not Applicable, the fund does not make sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The instruments included under "other" were:

- Derivative products, used for risk management or financial opportunities and which do not have environmental and/or social data.
- Products not covered by the environmental and/or social data available to us, but presenting financial opportunities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period? [List the actions taken within in period covered by the periodic report to meet the environmental or social characteristics promoted by the financial product, including shareholder engagement as referred to in Article 3g of Directive 2007/36/EC and any other engagement relating to the environmental or social characteristics promoted by the financial product]

Closure of positions that do not respect the social criteria promoted by the fund.

How did this financial product perform compared to the reference benchmark? [include section where an index has been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the financial product and indicate where the methodology used for the calculation of the designated index can be found]

No sustainable reference benchmark for the fund.

How does the reference benchmark differ from a broad market index?

[Insert note for financial products where an index has been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the financial product]

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?
- How did this financial product perform compared with the reference benchmark?
- How did this financial product perform compared with the broad market index?

#### ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: RAM (LUX) TACTICAL FUNDS - Sustainable Flexible Fund

Legal entity identifier: 549300WMGAS13M2IU579

Sustainable
investment means
an investment in an
economic activity
that contributes to
an environmental or
social objective,
provided that the
investment does not
significantly harm
any environmental or

social objective and

that the investee

companies follow

good governance

practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social

characteristics

#### Did this financial product have a sustainable investment objective? × No It promoted environmental/social (E/S) It made sustainable investments characteristics and while it did not have as its with an environmental objective: objective a sustainable investment, it had a proportion of 15% of sustainable investments in economic activities that qualify as environmentally sustainable with an environmental objective in economic under the EU Taxonomy activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as environmentally with an environmental objective in economic sustainable under the EU activities that do not qualify as Taxonomy environmentally sustainable under the EU Taxonomy with a social objective It made sustainable investments It promoted E/S characteristics, but did not make any sustainable investments with a social objective: %

To what extent were the environmental and/or social characteristics promoted by this financial product *attained* 

#### **Environmental characteristics:**

- Reduction in greenhouse gas (GHG) emissions intensity, Scope 1\*, Scope 2\*\* and Scope 3\*\*\*
- Reduction of Carbon footprint, Scope 1, Scope 2 and Scope 3
- Reduction of exposure to Fossil Fuels

#### **Social characteristics:**

- Compliance with the United Nations Global Compact
- Compliance with the Universal Declaration of Human Rights
- No exposure to controversial weapons

### Sustainability indicators

measure how the environmental or social characteristics promoted by the product are attained.

#### **General characteristics:**

The sub-fund promotes certain environmental and social safeguards by applying exclusionary criteria regarding sources of income and business practices that RAM-AI considers detrimental. (For further details, please refer to the RAM-AI ESG exclusion policy at https://www.ram-ai.com/en/regulatory-information)

#### How did the sustainability indicators perform?

Sustainability indicators	Average from January to December 2022 - Monthly observations
Carbon footprint, Scope 1 (TC2/EVIC)	19.07
Carbon footprint, Scope 2 (TC2/EVIC)	3.87
Carbon footprint, Scope 3 (TC2/EVIC)	111.91
Carbon footprint, Scope 1+2 (TC2/EVIC)	22.94
Carbon footprint, Scope 1+2+3 (TC2/EVIC)	134.85
GHG intensity, Scope 1 (TC2/MSALES)	35.89
GHG intensity, Scope 2 (TC2/MSALES)	8.69
GHG intensity, Scope 3 (TC2/MSALES)	252.45
GHG intensity, Scope 1+2 (TC2/MSALES)	44.58
GHG intensity, Scope 1+2+3 (TC2/MSALES)	297.03
GHG intensity, Scope 1+2+3 as % of a global portfolio of capitalisation- weighted developed equities	35.03%
Exposure to Fossil Fuels (% of revenues)	1.08%
Exposure to activities with a significant impact on global warming such as coal, oil sand, shale gas and ultra-deep water drilling (% of revenues)	0.61%
Exposure to Controversial weapons (% of revenues)	0.00%
% of portfolio in breach of the UN Global Compact, the Universal Declaration of Human Rights and the UN Global Compact and the OECD Guidelines for Multinational Enterprises.	0.42%
% of securities of companies following RAM's exclusion policy	0.00%

#### ... and compared to previous periods?

Not applicable

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The objective of the sub-fund's sustainable investments was to contribute to climate change mitigation.

The sustainable investments were made via a strategy of investing in companies with emission reduction targets and whose greenhouse gas (GHG) emission intensities (Scope 1 and 2) were relatively low in their sector. The strategy aims to reduce the GHG emission intensity of the portfolio (Scope 1, 2 and 3).

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The process of checking for significant harm to environmentally and socially sustainable investment (DNSH) objectives was based on the 14 mandatory PAI indicators as well as 2 optional PAI indicators (as listed in the section "How did this financial product consider principal adverse impacts on sustainability factors?"). When a negative assessment was observed on one of the harms, the security was excluded.

### How were the indicators for adverse impacts on sustainability factors taken into account?

In the context of checking significant harm to environmentally and socially sustainable investment objectives (DNSH), the 14 main mandatory negative impacts were included, as well as 2 optional ones. When a negative assessment was observed on one of the harms, the security was excluded. The process is described in more detail in the section "How did this financial product take into account principal adverse impacts on sustainability factors?".

#### Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The evaluation framework used in ESG controversies has been designed to be consistent with the international standards represented in many widely accepted global conventions. Thus this framework was consistent with:

- The Universal Declaration of Human Rights
- The ILO Declaration on Fundamental Principles and Rights at Work
- The United Nations Global Compact
- The OECD Guidelines for Multinational Enterprises

Any company involved in an ESG controversy that does not comply with the above framework has been excluded from the investment universe. Our third-party data provider has identified and assessed controversies that have impacted the company's operations and governance practices, highlighting products and services that have allegedly violated national or international laws and regulations, and/or commonly accepted global standards.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomyaligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The principle of "do no significant harm" applies only to investments underlying this financial product that take into account European Union criteria for environmentally sustainable economic activities.

The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Principle adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product take into account principal adverse impacts on *sustainability* factors?

The principal adverse effects have been incorporated into the construction of the investable universe, and the process has been applied systematically. RAM has developed a quantitative model of the PAIs. Each indicator had to meet a constraint approved by the Responsible Investment Committee and reviewed periodically. For each company in the investable universe, any breach of the constraint led to identification and subsequent exclusion. RAM also identified and mitigated the impact of PAIs through application of its exclusion policy. The exclusion policy covered:

- controversial behaviour, such as breach of the United Nations Guidelines or the OECD Guidelines for Multinational Enterprises
- income from an activity with a high risk of negative impact, such as controversial weapons.

Taking into account the environmental and social characteristics of the sub-fund, the following indicators have been prioritised:

- (1) Greenhouse gas ("GHG") emissions: Scope 1/2/3 and total GHG emissions
- (2) Carbon footprint 12/3
- (3) GHG intensity 12/3
- (4) Exposure to fossil fuels
- (7) Activities with an adverse impact on biodiversity-sensitive areas
- (10) Breaches of the principles of the United Nations Global Compact and the Organisation for Economic Co-operation and Development (OECD) guidelines for multinational enterprises.
- (14) Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)
- (14 optional) Number of identified cases of serious human rights issues and incidents.

For sustainable investments, in the context of checking significant harm to environmentally and socially sustainable investment objectives (DNSH), the 14 main mandatory adverse impacts were included, as well as 2 optional ones.

#### Mandatory indicators:

- (1) GHG emissions
- (2) Carbon footprint
- (3) GHG intensity of investee companies
- (4) Exposure to companies active in the fossil fuel sector
- (5) Share of non-renewable energy consumption and production
- (6) Energy consumption intensity by sector with high climate impact
- (7) Activities with a negative impact on biodiversity-sensitive areas
- (8) Discharges into water
- (9) Ratio of hazardous waste and radioactive waste
- (10) Breaches of the principles of the United Nations Global Compact and the OECD Guidelines for Multinational Enterprises.
- (11) Lack of compliance processes and mechanisms to monitor compliance with the principles of the United Nations Global Compact and the OECD Guidelines for Multinational Enterprises
- (12) Uncorrected gender pay gap
- (13) Gender balance in governance bodies
- (14) Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons or biological weapons)

#### Optional Indicators:

- (9) Investments in chemical companies
- (14) Recorded number of cases of serious human rights issues and incidents.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.01.2022 to 31.12.2022.

#### What were the top investments of this financial product?

Largest investments	Article SFDR	% Assets
RAM (Lux) Tactical Fds Global Bond Total Return IH Cap	8	7.71%
RAM (LUX) Syst Fds Long/Short Eur Equities PI Cap	8	5.87%
RAM (Lux) Syst Fds Long/Short GI Equities PIH EUR Cap	8	5.59%
RAM (LUX) Syst Fds Stable Climate Global Equities PI EUR Cap	9	5.09%
RAM (Lux) Syst Fds Diversified Alpha PIH Cap	6	4.27%
RAM (LUX) Syst Fds Emerging Markets Equities PI (EUR) Cap	8	4.07%
Lyxor Newcits IRL Plc Sandler US Equity Fund I Cap	6	2.91%
Helium Fd Selection S Cap	8	2.79%
Lazard GI Inv Fds Pic Rathmore Alternative A Cap	8	2.55%
RAM (Lux) Syst Fds Gl Sustainable Income Equities PI Cap	8	2.39%

Average exposure January 2022–December 2022

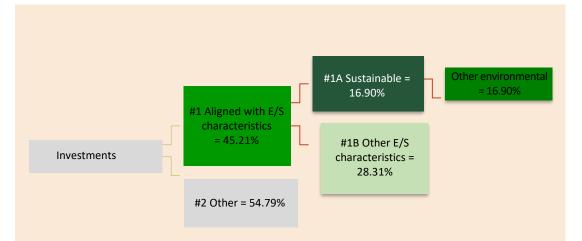

#### What was the proportion of sustainability-related investments?

#### Asset allocation describes the share

of investments in specific assets.

#### What was the asset allocation?

45.21% of the sub-fund's allocation was dedicated to investments with environmental characteristics, 16.90% of which was in sustainable investments. These sustainable investments had an environmental objective, without alignment with the taxonomy. A "success/failure" approach was used, in which a position was considered fully sustainable to the extent that 100% of the target company participated in the environmental objective of the strategy and were positively evaluated by the DNSH test. 54.79% of investments were not aligned with E/S characteristics and were dedicated to cash positions for liquidity management purposes and positions in derivatives used for hedging purposes.

**#1** Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives;

The subcategory **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

#### **Enabling activities**

directly enable other activities to make a substantial contribution to an environmental objective.

#### **Transitional activities**

are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The environmental objective of the sub-fund is not aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:	
In fossil gas	In nuclear energy
<b> ■</b> No	

 $<sup>^1</sup>$ Fossil gas and/or nuclear activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are defined in Commission Delegated Regulation (EU) 2022/1214.

#### In which economic sectors were the investments made?

Sector	Sub-sector	% Assets
Financial and insurance activities	Financial service activities, except insurance and pension funding	5.93%
Manufacturing	Manufacture of chemicals and chemical products	4.79%
Information and communication	Publishing activities	3.83%
Manufacturing	Manufacture of computer, electronic and optical products	3.72%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade, except of motor vehicles and motorcycles	3.44%
Manufacturing	Manufacture of basic pharmaceutical products and pharmaceutical preparations	3.04%
Electricity, gas, steam and air conditioning supply	Electricity, gas, steam and air conditioning supply	2.00%
Information and communication	Information service activities	1.78%
Financial and insurance activities	Activities auxiliary to financial service and insurance activities	1.67%
Administrative and support service activities	Office administrative, office support and other business support activities	1.49%
Mining and quarrying	Extraction of crude petroleum and natural gas	1.42%
Professional, scientific and technical activities	Architectural and engineering activities; technical testing and analysis	1.31%
Information and communication	Telecommunications	1.24%

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The symbol

represents sustainable

which do not take into account the criteria for

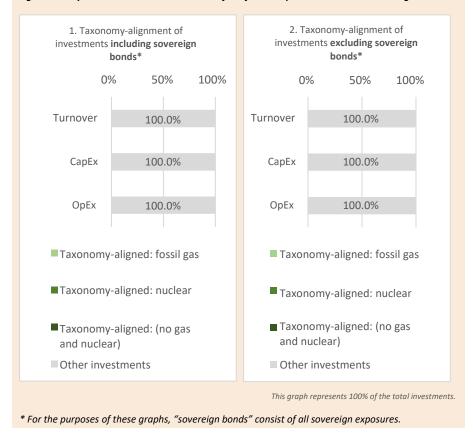

sustainable economic activities under Regulation (EU)

investments with an environmental objective

environmentally

2020/852.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

What was the share of investments made in transitional and enabling activities?

Not applicable

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable There are no taxonomy-aligned investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

16.90% of sustainable investments had an environmental objective without being aligned with the EU Taxonomy. The strategy was based on the conviction that within each sector, innovation and transition efforts contribute significantly to global reductions in greenhouse gas emissions. Therefore, sustainable investments were allocated to economic activities not aligned with the EU Taxonomy.

#### What was the share of socially sustainable investments?

0%. The sub-fund has not made any socially sustainable investments.

## What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Category "#2 Other" was dedicated to potential positions in cash for liquidity management purposes and/or derivatives used for investment or hedging purposes, sovereign bonds, and/or money market instruments, and/or money market funds.

The category may also include Article 6 funds according to the SFDR.

There is no minimum environmental or social guarantee for this category, but these positions remained compatible with the environmental and social characteristics promoted by the compartment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

In order to achieve the environmental characteristics of the product, several approaches were strengthened and/or implemented during the reporting period:

- some product policies were reviewed to strengthen the responsible investment process.
- new sustainability-related databases were acquired to provide more accurate, broad, reliable coverage.
- the engagement process was reviewed to strengthen engagements and improve monitoring.
- iv) the voting procedure allows the product to take an active role in conveying a sustainable direction.
- development of tools permitting, among other things, analysis of the impacts of investments on sustainability factors.

Reference benchmarks

are indexes to measure whether the financial

product attains the environmental or social characteristics that

they promote.

How did this financial product perform compared with the reference benchmark?

Not applicable. There is no reference benchmark.

- How does the reference benchmark differ from a broad market index?
- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?
- How did this financial product perform compared with the reference benchmark?
- How did this financial product perform compared with the broad market index?

#### ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: RAM (LUX) TACTICAL FUNDS - Sustainable NextGen TMF 2028

Legal entity identifier: 549300QOHZQ0XEVI3E26

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow

good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

# **Environmental and/or social characteristics**

To what extent were the environmental and/or social characteristics promoted by this financial product *attained* 

#### **Environmental characteristics:**

- Reduction in greenhouse gas (GHG) emissions intensity, Scope 1\*, Scope 2\*\* and Scope 3\*\*\*
- Reduction of Carbon footprint, Scope 1, Scope 2 and Scope 3
- Reduction of exposure to Fossil Fuels

#### Social characteristics:

- Compliance with the United Nations Global Compact
- Compliance with the Universal Declaration of Human Rights
- No exposure to controversial weapons

### Sustainability indicators

measure how the environmental or social characteristics promoted by the product are attained.

#### **General characteristics:**

The sub-fund promotes certain environmental and social safeguards by applying exclusionary criteria regarding sources of income and business practices that RAM-AI considers detrimental. (For further details, please refer to RAM-AI's ESG exclusion policy at https://www.ram-ai.com/en/regulatory-information)

#### How did the sustainability indicators perform?

Sustainability indicators	Average from January to December 2022 - Monthly observations
Carbon footprint, Scope 1 (TC2/EVIC)	11.42
Carbon footprint, Scope 2 (TC2/EVIC)	2.46
Carbon footprint, Scope 3 (TC2/EVIC)	53.21
Carbon footprint, Scope 1+2 (TC2/EVIC)	13.87
Carbon footprint, Scope 1+2+3 (TC2/EVIC)	67.08
GHG intensity, Scope 1 (TC2/MSALES)	26.35
GHG intensity, Scope 2 (TC2/MSALES)	6.43
GHG intensity, Scope 3 (TC2/MSALES)	161.48
GHG intensity, Scope 1+2 (TC2/MSALES)	32.77
GHG intensity, Scope 1+2+3 (TC2/MSALES)	194.25
GHG intensity, Scope 1+2+3 as % of a global portfolio of capitalisation- weighted developed equities	22.91%
Exposure to Fossil Fuels (% of revenues)	0.26%
Exposure to activities with a significant impact on global warming such as coal, oil sand, shale gas and ultra-deep water drilling (% of revenues)	0.71%
Exposure to Controversial weapons (% of revenues)	0.00%
% of portfolio in breach of the UN Global Compact, the Universal Declaration of Human Rights and the UN Global Compact and the OECD Guidelines for Multinational Enterprises.	0.35%
% of securities of companies following RAM's exclusion policy	0.00%

#### ... and compared to previous periods?

Not applicable

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The objective of the sub-fund's sustainable investments was to contribute to climate change mitigation.

The sustainable investments were made via a strategy of investing in companies with emission reduction targets and whose greenhouse gas (GHG) emission intensities (Scope 1 and 2) were relatively low in their sector. The strategy aims to reduce the GHG emission intensity of the portfolio (Scope 1, 2 and 3).

Principle adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption

and anti-bribery

matters.

#### How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The process of checking for significant harm to environmentally and socially sustainable investment (DNSH) objectives was based on the 14 mandatory PAI indicators as well as 2 optional PAI indicators (as listed in the section "How did this financial product consider principal adverse impacts on sustainability factors?"). When a negative assessment was observed on one of the harms, the security was excluded.

### How were the indicators for adverse impacts on sustainability factors taken into account?

In the context of checking significant harm to environmentally and socially sustainable investment objectives (DNSH), the 14 main mandatory negative impacts were included, as well as 2 optional ones. When a negative assessment was observed on one of the harms, the security was excluded. The process is described in more detail in the section "How did this financial product take into account principal adverse impacts on sustainability factors?".

#### Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The evaluation framework used in ESG controversies has been designed to be consistent with the international standards represented in many widely accepted global conventions. Thus this framework was consistent with:

- The Universal Declaration of Human Rights
- The ILO Declaration on Fundamental Principles and Rights at Work
- The United Nations Global Compact
- The OECD Guidelines for Multinational Enterprises

Any company involved in an ESG controversy that does not comply with the above framework has been excluded from the investment universe. Our third-party data provider has identified and assessed controversies that have impacted the company's operations and governance practices, highlighting products and services that have allegedly violated national or international laws and regulations, and/or commonly accepted global standards.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomyaligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The principle of "do no significant harm" applies only to investments underlying this financial product that take into account European Union criteria for environmentally sustainable economic activities.

The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

## How did this financial product take into account principal adverse impacts on *sustainability* factors?

The principal adverse effects have been incorporated into the construction of the investable universe, and the process has been applied systematically. RAM has developed a quantitative model of the PAIs. Each indicator had to meet a constraint approved by the Responsible Investment Committee and reviewed periodically. For each company in the investable universe, any breach of the constraint led to identification and subsequent exclusion. RAM also identified and mitigated the impact of PAIs through application of its exclusion policy. The exclusion policy covered:

- controversial behaviour, such as breach of the United Nations Guidelines or the OECD Guidelines for Multinational Enterprises
- income from an activity with a high risk of negative impact, such as controversial weapons.

Taking into account the environmental and social characteristics of the sub-fund, the following indicators have been prioritised:

- (1) Greenhouse gas ("GHG") emissions: Scope 1/2/3 and total GHG emissions
- (2) Carbon footprint 12/3
- (3) GHG intensity 12/3
- (4) Exposure to fossil fuels
- (7) Activities with an adverse impact on biodiversity-sensitive areas
- (10) Breaches of the principles of the United Nations Global Compact and the Organisation for Economic Co-operation and Development (OECD) guidelines for multinational enterprises.
- (14) Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

(14 optional) Number of identified cases of serious human rights issues and incidents.

For sustainable investments, in the context of checking significant harm to environmentally and socially sustainable investment objectives (DNSH), the 14 main mandatory adverse impacts were included, as well as 2 optional ones.

#### Mandatory indicators:

- (1) GHG emissions
- (2) Carbon footprint
- (3) GHG intensity of investee companies
- (4) Exposure to companies active in the fossil fuel sector
- (5) Share of non-renewable energy consumption and production
- (6) Energy consumption intensity by sector with high climate impact
- (7) Activities with a negative impact on biodiversity-sensitive areas
- (8) Discharges into water
- (9) Ratio of hazardous waste and radioactive waste
- (10) Breaches of the principles of the United Nations Global Compact and the OECD Guidelines for Multinational Enterprises.
- (11) Lack of compliance processes and mechanisms to monitor compliance with the principles of the United Nations Global Compact and the OECD Guidelines for Multinational Enterprises
- (12) Uncorrected gender pay gap
- (13) Gender balance in governance bodies
- (14) Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons or biological weapons)

#### Optional Indicators:

- (9) Investments in chemical companies
- (14) Recorded number of cases of serious human rights issues and incidents.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.01.2022 to 31.12.2022.

#### What were the top investments of this financial product?

Largest investments	Article SFDR	% Assets
RAM (LUX) Syst Fds Long/Short Eur Equities PI Cap	8	7.38%

Average exposure January 2022–December 2022

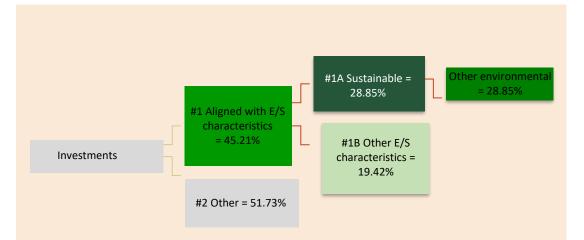

#### What was the proportion of sustainability-related investments?

#### What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

48.27% of the sub-fund's allocation was dedicated to investments with environmental characteristics, of which 28.85% was in sustainable investments. These sustainable investments had an environmental objective, without alignment with the taxonomy. A "success/failure" approach was used, in which a position was considered fully sustainable to the extent that 100% of the target company participated in the environmental objective of the strategy and were positively evaluated by the DNSH test. 51.73% of investments were not aligned with E/S characteristics and were dedicated to cash positions for liquidity management purposes and positions in derivatives used for hedging purposes.

The category **#1** Aligned with E/S characteristics includes investments of the financial product used to achieve the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives;

The subcategory **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In fossil gas In nuclear energy

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental

objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The environmental objective of the sub-fund is not aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy activities complying with the EU Taxonomy¹?		:ed
	Yes:	

📜 No

 $<sup>^1</sup>$ Fossil gas and/or nuclear activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are defined in Commission Delegated Regulation (EU) 2022/1214.

#### In which economic sectors were the investments made?

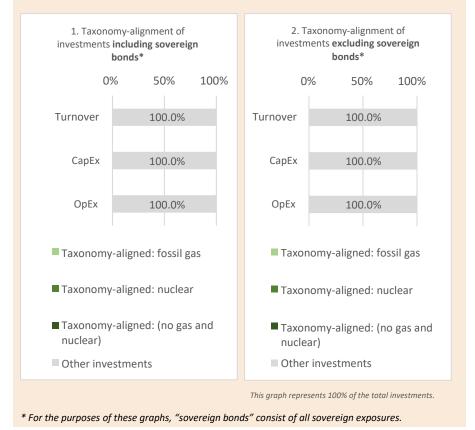

Sector	Sub-sector	% Assets
Information and communication	Publishing activities	5.06%
Manufacturing	Manufacture of computer, electronic and optical products	4.26%
Manufacturing	Manufacture of basic pharmaceutical products and pharmaceutical preparations	3.95%
Manufacturing	Other manufacturing	2.76%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade, except of motor vehicles and motorcycles	2.37%
Manufacturing	Manufacture of machinery and equipment n.e.c.	2.18%

Activities aligned with the taxonomy are expressed as a percentage of:

- turnover reflecting the share of revenue from green activities of investee companies;
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy;
- operational expenditure (OpEx) reflecting green operational activities of investee companies

The symbol represents sustainable investments with an environmental objective which do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

What was the share of investments made in transitional and enabling activities?

Not applicable

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable, there are no taxonomy-aligned investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

28.85% of sustainable investments had an environmental objective without being aligned with the EU Taxonomy. The strategy was based on the conviction that within each sector, innovation and transition efforts contribute significantly to global reductions in greenhouse gas emissions. Therefore, sustainable investments were allocated to economic activities not aligned with the EU Taxonomy.

#### What was the share of socially sustainable investments?

0%. The sub-fund has not made any socially sustainable investments.

## What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Category "#2 Other" was dedicated to potential positions in cash for liquidity management purposes and/or derivatives used for investment or hedging purposes, sovereign bonds, and/or money market instruments, and/or money market funds.

The category may also include Article 6 funds according to the SFDR.

There is no minimum environmental or social guarantee for this category, but these positions remained compatible with the environmental and social characteristics promoted by the compartment.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

In order to achieve the environmental characteristics of the product, several approaches were strengthened and/or implemented during the reporting period:

- i) some product policies were reviewed to strengthen the responsible investment
- new sustainability-related databases were acquired to provide more accurate, broad, reliable coverage.
- the engagement process was reviewed to strengthen engagements and improve monitoring.
- iv) the voting procedure allows the product to take an active role in conveying a sustainable direction.
- development of tools permitting, among other things, analysis of the impacts of investments on sustainability factors.

Reference benchmarks

are indexes to measure whether the financial

product attains the environmental or social characteristics that

they promote.

#### How did this financial product perform compared to the reference benchmark?

Not applicable. There is no reference benchmark.

- How does the reference benchmark differ from a broad market index?
- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?
- How did this financial product perform compared to the reference benchmark?
- How did this financial product perform compared with the broad market index?
