

## KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### Loomis Sayles U.S. Growth Equity Fund (R/A(USD) ISIN: LU1429558221), a sub-fund of Natixis International Funds (Lux) I SICAV

Management Company and Promoter: Natixis Investment Managers S.A., part of the Natixis group of companies  
Investment Manager: Loomis, Sayles & Company, L.P., part of the Natixis group of companies

#### Objectives and Investment Policy

##### Investment objective:

The investment objective of Loomis Sayles U.S. Growth Equity Fund (the "Fund") is long-term growth of capital through an investment process that systematically includes Environmental, Social and Governance ("ESG") considerations.

##### Investment policy:

The Fund invests primarily in U.S. companies and focuses on larger issuers. The Fund invests at least 80% of its total assets in equity securities of U.S. companies. The Fund focuses on stocks of large capitalisation companies, but the Fund may invest in companies of any size.

The Fund's equity investments may include common stocks, preferred stocks and, on an ancillary basis, closed-ended real estate investment trusts ("REITS") and equity-related instruments such as warrants.

The Fund may invest up to 20% of its total assets in other securities than those described above including equity-linked notes (i.e. debt instruments having a final pay-out based on the return of the underlying equity) and convertible bonds issued by U.S. companies as well as common stocks, preferred stocks, convertible bonds and other equity-related instruments issued by non-U.S. companies traded on non-U.S. exchanges or as depositary receipts (i.e. negotiable securities traded on a local stock exchange representing equity issued by a foreign listed company) and certain eligible A-Shares via the Shanghai-Hong Kong Stock Connect program and/or Shenzhen-Hong Kong Stock Connect program. The Fund may invest no more than 10% of its net assets in undertakings for collective investment.

The Fund is actively managed and normally invests across a wide range of sectors and industries. The Investment Manager employs a growth style of equity management that emphasises companies with sustainable competitive advantages, long-term structural growth drivers, attractive cash flow returns on invested capital, and management teams focused on creating long-term shareholder value.

The Investment Manager aims to invest in companies whose shares are selling significantly below the Investment Manager's estimate of intrinsic value. The Investment Manager conducts a non-financial analysis on at least 90% of the Fund's net assets on an ongoing basis by selecting securities based on its conviction through a proprietary seven-step research framework structured around three key criteria:

Quality, Growth and Valuation. ESG considerations are integrated at each step of the Investment Manager's process; however, the majority of material ESG considerations is embedded in the analysis of Quality criteria. Any company failing to meet the Quality criteria will be eliminated from the Fund's investment universe, regardless of the Growth or Valuation profile of the company. In addition, the Investment Manager excludes direct investments in issuers (i) deriving any portion of their total revenue from the production or distribution of thermal coal, cluster munitions, biological weapons, chemical weapons and (ii) deriving any portion of their total revenue from the production of and more than 20% of their total revenue from the distribution of tobacco products and civilian firearms.

For any additional information as to the use of ESG criteria by the Investment Manager, please refer to the ESG policy which is available on its website.

On an ancillary basis, the Fund may use derivatives for hedging and investment purposes.

The Reference Currency of the Fund is the US Dollar.

The Fund is not managed relative to a specific index. However, for indicative purposes only, the Fund's performance may be compared to the S&P 500 Index. In practice, the portfolio of the Fund is likely to include constituents of the index, however, the Fund is unconstrained by the index and may therefore significantly deviate from it.

Shareholders may redeem Shares on demand on any business day in Luxembourg. Income derived from the Fund is distributed for distributing Shares and reinvested for accumulating Shares, as further detailed in this document. Please refer to the section entitled "Subscription, Transfer, Conversion and Redemption of Shares" of the Prospectus for additional information.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within less than 5 years.

#### Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

This ranking on the synthetic risk and reward indicator scale is due to the Fund's allocation to equity markets. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. There is no capital guarantee or protection on the value of the Fund. The lowest category does not mean "risk free".

The following risks are materially relevant to the Fund but are not adequately captured by the synthetic indicator:

**Stock Connect Risk:** The Fund may invest in China "A" shares via the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect programs which are subject to additional clearing and settlement constraints, potential regulatory changes as well as operational and counterparty risks.

**Geographic Concentration risk:** Funds that concentrate investments in certain geographic regions may suffer losses, particularly when the economies of those regions experience difficulties or when investing in those regions become less attractive. Moreover, the markets in which the funds invest may be significantly affected by adverse political,

economic or regulatory developments.

**Portfolio Concentration risk:** Funds investing in a limited number of securities may increase the fluctuation of such funds' investment performance. If such securities perform poorly, the fund could incur greater losses than if it had invested in a larger number of securities.

**Growth/Value Equities risk:** Investments in equities tend to fluctuate more than investments in bonds, but also offer greater potential for growth. The price of equity investments may sometimes fluctuate quite dramatically in response to the activities and results of individual companies, as well as in connection with general market and economic conditions. Additionally, funds may hold equities having either a growth or value bias; prices of the growth bias equities tend to be more sensitive to certain market movements as they are often subject to factors such as future earnings expectations which may vary with changing market conditions; whereas equities with a value bias may continue to be underpriced by the market for sustained periods of time.

Please refer to the section entitled "Specific Risks" of the Prospectus for additional details on risks.

## Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
