2 PRINCIPAL ACCOUNTING CONVENTIONS

■ PRESENTATION OF THE FINANCIAL STATEMENTS

These financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements. The financial statements reflect the Net Asset Values ("NAV") as calculated on the last business day of the period based on latest available market prices of the investments.

■ COMBINED FINANCIAL STATEMENTS OF THE SICAV

The combined statement of net assets and combined statement of operations and changes in net assets are expressed in USD and correspond to the total of the statements of net assets and statements of operations and changes in net assets of the individual Sub-Funds, converted in USD at the exchange rates applicable at period-end.

■ VALUATION OF INVESTMENT IN SECURITIES

The value of any cash on hand or on deposit bills and demand notes and accounts receivable, prepaid expenses, cash dividends, interest declared or accrued and not yet received, all of which are deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.

Securities listed on a recognized stock exchange or dealt on any other Regulated Market that operates regularly, is recognized and is open to the public, are valued at their last available closing prices, or, in the event that there should be several such markets, on the basis of their last available closing prices on the main market for the relevant security.

In the event that the last available closing price does not, in the opinion of the Board of Directors of the SICAV, truly reflect the fair market value of the relevant securities, the value of such securities is defined by the Board of Directors of the SICAV based on the reasonably foreseeable sales proceeds determined prudently and in good faith.

Securities not listed or traded on a stock exchange or not dealt on another Regulated Market are valued on the basis of the probable sales proceeds determined prudently and in good faith by the Board of Directors of the SICAV.

The liquidating value of futures, forward or options contracts not traded on exchanges or on other Regulated Markets shall mean their net liquidating value determined, pursuant to the policies established by the Board of Directors of the SICAV, on a basis consistently applied for each different variety of contracts.

The liquidating value of futures, forward or options contracts traded on exchanges or on other regulated markets shall be based upon the last available settlement prices of these contracts on exchanges and regulated markets on which the particular futures, forward foreign exchange contracts or options contracts are traded by the Company; provided that if a futures, forward foreign exchange contracts or options contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors of the SICAV may deem fair and reasonable.

The value of money market instruments not listed or dealt in on any stock exchange or any other Regulated Market are valued at their face value with interest accrued.

In case of short term instruments with remaining maturity of less than 90 days the value of the instrument based on the net asset acquisition cost is gradually adjusted to the repurchase price thereof. In the event of material changes in market conditions, the valuation basis of the investment is adjusted to the new market yields.

Interest rate swaps are valued at their market value established by reference to the applicable interest rates curve.

Investments in collective investment schemes are valued on the basis of the last available prices of the units or shares of such collective investment schemes.

All other transferable securities and other permitted assets are valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors of the SICAV.

■ VALUATION OF FORWARD FOREIGN EXCHANGE CONTRACTS

Net realised result and change in unrealised appreciation and depreciation are included in the statement of operations and changes in net assets.

■ NET REALISED GAINS OR LOSSES RESULTING FROM INVESTMENTS

The realised gains or losses resulting from the sales of investments are calculated on an average cost basis.

■ FOREIGN EXCHANGE TRANSLATION

The accounts are maintained in US Dollar ("USD") and the financial statements are expressed in that currency.

The acquisition cost of securities purchased expressed in a currency other than the USD is translated in USD at the exchange rates prevailing at the date of the purchase.

Income and expenses expressed in other currencies than the USD are translated in USD at exchange rates ruling at the transaction date.

At period-end, investments, assets and liabilities expressed in other currencies than the USD are translated at exchange rates ruling at this date. The net realised gains and losses or net change in unrealised appreciations and depreciations on foreign exchange are recognised in the statement of operations and changes in net assets in determining the increase or decrease in net assets.

■ INCOME

Dividends are recorded at the ex-dividend date. Interest income is recorded on an accrual basis.

5 PERFORMANCE FEES

The Investment Manager may receive a performance fee from each class of shares according to the mechanisms detailed in the prospectus dated May 2023.

- The Net Asset Value of each relevant share class (before deduction of the performance fee) and
- The reference asset which represents and replicates the Net Asset Value of the relevant share class (before deduction of the performance fee) at the first day of the performance observation period, adjusted by subscriptions/redemptions at each valuation, to which the Reference for Performance fee (as stated for each Sub-Fund and share class) is applied.

Please refer to the prospectus for details of applicable performance fees rates and the Reference for Performance fee.

8 DIVIDENDS

The Distribution Shares apply the corresponding Sub-Fund's dividend policy (see the relevant Data sheet under Part I) in distributing an annual percentage of the net asset value ("Fixed Dividend") which payment may be scheduled following predetermined frequencies.

The following are the single or double letter suffixes currently in use and which indicate a frequency:

"QD" for quarterly dividend,

"MD" for monthly dividend,

"D" for annual dividend.

The proportion of Fixed Dividend corresponding to a given frequency is as follows :

Frequency distribution	Proportion of Fixed Dividend	Example of a Fixed Dividend amounting 4%
MD - Monthly	1/12 (8,333%)	0,333%
QD - Quarterly	1/4 (25%)	1%
D - Annually	1/1 (100%)	4%

Fixed Dividend may result to have the dividend composed of capital attributable to the Shares, whose amount will be driven by the amount of existing investment incomes and capital gains.

Fixed Dividend will seek to pay out a dividend regardless of the performance of the Shares. As a result, the net asset value of such Shares may fluctuate more than the other Classes of Shares for which it is generally not intended by the Board of Directors to distribute capital, and the potential for future appreciation of such net asset value of such Shares may be eroded.

The dividends payable are recorded in the "Statement of Net Assets" in the caption "other liabilities".

To each category of Distribution Shares corresponds a Fixed Dividend, with exception of the class OHE-QD and IU5-QD that distribute an annual dividend as determined by the Board.

Distribution Shares proposing a monthly or quarterly payment declare interim dividends. Quarterly dividends will be distributed on the last Business Day of February, May, August and November of each financial year. Monthly dividends will be distributed on the last business day of each month.

The Board of Directors will propose to distribute dividends in the form of cash in the relevant Class Currency. The Board of Directors may also decide that dividends be reinvested by the attribution of additional Shares of the same Class and Category of Shares. Such Shares will be issued on the payment date at the NAV per Share of the relevant Class in noncertificated form. Fractional entitlements to registered Shares will be recognized to three decimal places.

Dividends remaining unclaimed five years after the dividend record date will be forfeited and will accrue for the benefit of the relevant Class of Shares of the relevant Sub-Fund.

The payment of dividend remains always subject to the minimum capital requirements to be respected by the Company in accordance with the 2010 Law.
