Website www.ubs.com/fml

The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising UBS Fund Management (Luxembourg) S.A in relation to this Key Information Document.

This PRIIP is authorised in Luxembourg.

The Management Company is authorised in Luxembourg and supervised by the Commission de Surveillance du Secteur Financier (CSSF).

This key information is accurate as at 09 April 2024.

What is this product?

Type

Jyske SICAV is an undertaking for collective investment in transferable securities (UCITS) incorporated in the legal form of an investment company with variable capital (SICAV) under Part I of the Luxembourg 2010 Law on undertakings for collective investment.

Term

The Product does not have a maturity date (the Product has been established for an indefinite period of time). The Manufacturer may terminate the Product early. The amount you will receive upon early termination may be less than the amount you invested.

Objectives

The objective of the portfolio management is to generate a return over time, which is at least in line with the market development measured by a comparable benchmark return, a composite benchmark consisting of 50% ICE BofA BB-B European Currency High Yield Constrained Index (Hedged EUR), and 50% ICE BofA BB-B US High Yield Constrained Index (Hedged EUR). The Sub-Fund's assets are primarily invested directly and indirectly in a portfolio of high-yield bonds issued by companies, mainly rated below investment grade. The bonds involve a high credit risk. In principle, investments in other currencies than EUR will be hedged to EUR. This sub-fund promotes environmental and/or social characteristics but does not have a sustainable investment objective. The Sub-Fund may invest in Regulated Markets and other regulated markets that are members of the WFE or FESE. In addition, the Sub-Fund's assets may be invested in the US market for high yield bonds, regulated by the FINRA and in Rule 144 A issues that can be converted into instruments registered within 1 year with the SEC in accordance with the Securities Act of 1933 being traded on the OTC fixed income market. There are no requirements of the rating of such bonds, the size of the issues or the liquidity. The Sub-Fund may also invest directly in rated CoCos for less than 20% of its assets. No more than 10% of the Sub-Fund's net assets may be invested in Transferable Securities or Money Market Instruments. The Sub-Fund may invest up to 10% of its assets in UCITS and other UCIs. The Sub-Fund pursues an active investment strategy. Due to the active strategy, the Sub-Fund's investments may deviate considerably from the benchmark, and your reward may be higher as well as lower than the benchmark. The benchmark is only used for comparison of performance.

The return of the fund depends primarily on the development of interest rates and creditworthiness of the issuers and the interest income. The return may also be affected by currency fluctuations, where active or unhedged positions exist.

This share class may pay out distributions once a year.

Intended retail investor

This fund applies to retail investors with a basic financial understanding, who can accept a possible loss on the investment amount. The fund is aimed at growing the investment value, with a bias to income-generating assets, while granting daily access to the capital under normal market conditions. With their investment in this fund, investors can satisfy medium term investment needs. The fund is suited to be acquired by the target client segments without any restriction of the distribution channel or platform.

Depositary

UBS Europe SE, Luxembourg Branch

Latest price can be found at www.ubs.com/fml

What are the risks and what could I get in return?

Indicator

The risk indicator assumes you keep the product for 4 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level. The past may be a poor predictor of the future and, hence, the actual risk of losing money may vary significantly.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The product may be exposed to further risk factors such as operational, political and legal risks which are not included in the summary indicator. Please refer to the prospectus for more detail.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performances of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		4 years	
Example Investment:		EUR 10 000	
		If you exit after 1 year	If you exit after 4 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	EUR 5 330	EUR 5 960
	Average return each year	-46.7%	-12.1%
Unfavourable	What you might get back after costs	EUR 8 080	EUR 9 130
	Average return each year	-19.2%	-2.2%
Moderate	What you might get back after costs	EUR 10 060	EUR 10 590
	Average return each year	0.6%	1.4%
Favourable	What you might get back after costs	EUR 11 610	EUR 11 530
	Average return each year	16.1%	3.6%

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all costs of the product itself. The figures do not take account of your personal tax situation, which can also have an impact on how much you receive back.

Unfavourable scenario: This type of scenario occurred for an investment between 2018 and 2022.

Moderate scenario: This type of scenario occurred for an investment between 2016 and 2020.

Favourable scenario: This type of scenario occurred for an investment between 2014 and 2018.

What happens if UBS Fund Management (Luxembourg) S.A. is unable to pay out?

Losses are not covered by an investor compensation or guarantee scheme. Furthermore, with respect to UBS Europe SE, Luxembourg Branch as depositary of the Fund, which is responsible for the safekeeping of the assets of the Fund (the "Depositary"), there is a potential default risk if the assets of the Fund held with the Depositary are lost. However, such default risk is limited as the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary is liable to the Fund or to the investors of the Fund for the loss by the Depositary or one of its delegates of a financial instrument held in custody unless the Depositary is able to prove that the loss has arisen as a result of an external event beyond its reasonable control.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The table shows the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed that the product performs as shown in the moderate scenario.
- 10 000 EUR is invested.

	If you exit after 1 year	If you exit after 4 years
Total costs	EUR 365	EUR 863
Annual cost impact (*)	3.7%	2.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 3.7% before costs and 1.4% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2.0% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to EUR 200
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.2% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 120
Transaction costs	0.5% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 48
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	EUR 0

For additional information about costs, refer to the prospectus, which is available at www.ubs.com/fml

How long should I hold it and can I take money out early?

Recommended holding period: 4 Year(s)

The recommended holding period for this product is 4 year(s). This is our recommended holding period based on the risk and expected return with the product. Please note that the expected return is not guaranteed. The more the actual holding period deviates from the recommended holding period for the product, the more your actual return will also deviate from the product assumptions. Depending on your needs and limitations, a different holding period may be suitable for you. Consequently, we recommend that you discuss this issue with your customer service representative.

Investors may demand to redeem their units on any business day in which banks are open for business in Luxembourg and Denmark.

How can I complain?

If you have a complaint about the product, the manufacturer of the product or the person who recommended or sold the product to you, please speak to your client advisor or contact us at www.ubs.com/fml-policies
