## What is this product?

### Type

The Fund is an investment company incorporated as a société anonyme qualifying as a Société d'Investissement à Capital Variable. The Fund's value is dependent on the performance of the underlying assets and may go up as well as down. Any capital invested in the Fund may be at risk.

### Objectives and Investment Policy

#### Investment Objective:

The Fund aims to provide long term capital growth and income by investing in a portfolio of Asian bonds.

#### Investment Policy:

The Fund will normally invest at least 90% of its assets in investment grade and non-investment grade rated bonds and unrated bonds and other similar securities that are issued by governments, government-related entities and supranational entities or companies based in Asia.

The Fund may invest up to 10% of its assets in onshore Chinese bonds traded on the China Interbank Bond Market (CIBM) and up to 10% of its assets in unrated Chinese onshore bonds.

The Fund will not invest more than 40% of its assets in non-investment grade rated bonds and up to 10% in lower quality debt securities issued by any single sovereign issuer.

The Fund may invest up to 10% of its assets in convertible bonds, up to 10% of its assets in asset-backed securities (ABS) and mortgage-backed securities (MBS), up to 10% in other funds and may invest in bank deposits, money market instruments for treasury purposes.

The Fund may invest up to 10% of its assets in contingent convertible securities. However, this is not expected to exceed 5%.

The Fund's primary currency exposure is to the US Dollar. The Fund may also have exposure up to 30% to non-US Dollar currencies including Asian currencies.

The Fund may invest in derivatives and use them for hedging and efficient portfolio management purposes. Derivatives will not be used extensively for investment purposes. Derivatives may also be embedded in other instruments used by the Fund.

- ◆ The Fund may enter into securities lending transactions for up to 29% of its assets. However, this is not expected to exceed 25%.
- ◆ Currency hedging is carried out in respect of the share class. The aim is to protect against exchange rate fluctuations between the share class currency SGD and the base currency of the Fund USD.
- ◆ Income is distributed.
- ◆ You may sell your investment on most working days.
- ◆ The Fund is actively managed and does not track a benchmark. The Fund has an internal or external target to a reference benchmark, Markit iBoxx USD Asia Bond.

- ◆ The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark.
- ◆ The deviation of the Fund's underlying investments' weightings relative to the benchmark are monitored, but not constrained, to a defined range.

### Intended Retail Investor

The Fund may be suitable for investors with a long term investment horizon and is intended for investors aiming for exposure to asset classes which may be subject to moderate volatility. The Fund may be suitable for investors looking for a core investment in their portfolio.

An investment in the Fund is only suitable for investors who are capable of evaluating the risks and merits of such an investment, and who have sufficient resources to bear any loss as the Fund is not guaranteed and they may receive back less than the amount invested. The Fund is designed for use as part of a diversified investment portfolio. Prospective investors should consult with their financial advisor before making an investment.

### Term:

The Fund does not have a maturity date.

The PRIIP Manufacturer cannot terminate the Fund unilaterally. The Board of Directors may furthermore decide to liquidate the Fund in certain circumstances set out in the prospectus and articles of incorporation of the Fund.

## What are the risks and what could I get in return?

### Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

### Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended Holding Period: 5 Years		If you exit after 1 year	If you exit after 5 years
Investment of SGD 10,000			
Minimum	The Fund is not covered by an investor compensation or guarantee scheme, you may lose some or all of the amount invested.		
Stress Scenarios	What you might get back	SGD 7,400	SGD 7,500
	Average Return each year	-25.99 %	-5.59 %
Unfavourable Scenario	What you might get back	SGD 7,830	SGD 8,190
	Average Return each year	-21.66 %	-3.91 %
Moderate Scenario	What you might get back	SGD 10,110	SGD 11,880
	Average Return each year	1.07 %	3.50 %
Favourable Scenario	What you might get back	SGD 10,840	SGD 12,580
	Average Return each year	8.43 %	4.70 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between August 2021 and April 2023. The moderate scenario occurred for an investment between May 2016 and May 2021. The favourable scenario occurred for an investment between August 2015 and August 2020. A suitable benchmark was used where the Fund had insufficient history.

## What happens if HSBC Investment Funds (Luxembourg) S.A. is unable to pay out?

The Fund's ability to pay out would not be affected by the default of HSBC Investment Funds (Luxembourg) S.A.. The Fund's assets are kept safe by the Depository Bank and are segregated from the assets of other Funds. This means that the holdings of one Fund are kept separate from the holdings of the other Funds and your investment in the Fund cannot be used to pay the liabilities of any other Fund. There is a potential liability risk for the Depository if the assets of the Fund are lost. The Depository is liable in case of its negligent or intentional failure to properly fulfil its obligations pursuant to the 2010 Law.

In the event of a bankruptcy or insolvency of the Depository Bank or other service provider, investors could experience delays (for example, delays in the processing of subscriptions, conversions and redemption of shares) or other disruptions and there may be a risk of default. The Fund is not covered by an investor compensation or guarantee scheme.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. For instance, if you invest in this product via a life insurer or capitalisation contract, this document does not take into account the fees of this contract.

### Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- ◆ In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

◆ SGD 10,000 is invested.

<b>Recommended Holding Period: 5 Years</b>	<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b>
<b>Investment of SGD 10,000</b>		
Total Costs	360 SGD	692 SGD
Annual cost impact % *	3.6%	1.2% each year

\* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.03% before costs and 3.50% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge up to 3.10%. This person will inform you of the actual distribution fee.
