MFS[®] Investment Funds listing

The following sub-funds comprise the MFS Investment Funds family.

Each sub-fund name is preceded with "MFS Investment Funds —" which may not be stated throughout this report.

Blended Research® Emerging Markets Equity Fund Blended Research® Global Equity Fund European Research Fund Global Concentrated Equity Fund Global Equity Euro Hedged Fund Global Equity Fund

Global Listed Infrastructure Fund Global Value Ex-Japan Fund Global Value Fund Low Volatility Global Equity Fund U.S. Municipal Bond Fund

The following sub-fund of the Fund is not registered for marketing in the Federal Republic of Germany in accordance with Section 310 of the German Investment Code (KAGB):

European Research Fund

Units of the above mentioned sub-fund are not allowed to be marketed in Germany.

Available only to eligible investors who are not citizens or residents of the United States.

This report is prepared for the general information of unitholders. It is authorized for distribution to prospective investors only when preceded or accompanied by a prospectus and relevant key investor information documents.

MFS Investment Funds is a Luxembourg registered "Fonds Commun de Placement" (FCP) designed to meet the needs of eligible investors.

In case of a conflict between the English and translated versions, the English version will govern.

The German Key Investor Information Documents, the English Prospectus as well as the English Management Regulations of MFS Investment Funds may be inspected at and are available free of charge by regular mail or by e-mail from the German Paying and Information Agent Marcard, Stein & Co AG, Ballindamm 36, 20095 Hamburg.

GENERAL INFORMATION

MFS Investment Funds (the "fund") has been established as an open-end investment fund subject to the Luxembourg Law of 17 December 2010, as amended, concerning undertakings for collective investment in transferable securities (the "2010 law").

The list of changes in the portfolios of the sub-funds for the period 1 October 2022 to 31 March 2023 is available from the registered office of the Management Company of the fund.

Information concerning issue and repurchase prices of units is available from the registered office of the Management Company of the fund.

Note 1: The Fund

MFS Investment Funds (the "fund") was established as a "Fonds Commun de Placement" by the predecessor to MFS Investment Management Company (Lux) S.à r.l. (the "Management Company") on 14 July 2000. The Management Company was incorporated in and under the laws of the Grand Duchy of Luxembourg as a Société Anonyme on 20 June 2000 and converted to a Société à Responsabilité Limitée as of 27 June 2011. The fund comprises separate sub-funds each of which relates to a separate portfolio of securities with specific investment objectives. The fund is an Undertakings for Collective Investment in Transferable Securities ("UCITS") fund subject to the provisions of Part I of the Luxembourg Law of 17 December 2010, as amended. Each sub-fund offers various unit classes as disclosed in the fund's prospectus. Unit classes available for each sub-fund as of 31 March 2023, can be found under "Statistical Information" in this report.

Note 2: Summary of Significant Accounting Policies

The financial statements have been prepared in accordance with Luxembourg legal and regulatory requirements applicable to investment funds. In relation to the accounts of the fund, there were no significant reconciling differences between Luxembourg legal and regulatory requirements for investment funds and Generally Accepted Accounting Principles ("GAAP") used in the United States for the six months ended 31 March 2023.

- A) Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in Luxembourg requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of income and expenses during the reporting period. Actual results may differ from those estimates.
- B) Financial Instrument Valuations Equity securities are generally valued at the last sale or official closing price on their primary market or exchange as provided by a third-party pricing service. Equity securities, for which there were no sales reported that day, are generally valued at the last quoted daily bid quotation on their primary market or exchange as provided by a third-party pricing service.
 - Debt instruments and floating rate loans are generally valued at an evaluated or composite bid as provided by a third-party pricing service.
 - Futures contracts are generally valued at the last posted settlement price on their primary exchange as provided by a third-party pricing service. Futures contracts for which there were no trades that day for a particular position are generally valued at the closing bid quotation on their primary exchange as provided by a third-party pricing service.

Forward foreign currency exchange contracts are generally valued at the mean of bid and asked prices for the time period interpolated from rates provided by a third-party pricing service for proximate time periods.

Short-term instruments with a maturity at issuance of 60 days or less may be valued at amortized cost, which approximates market value.

Open-end investment companies are generally valued at their net asset value per share excluding redemption fees (if any).

Securities and other assets generally valued on the basis of information from a third-party pricing service may also be valued at a broker/dealer bid quotation.

Values obtained from third-party pricing services can utilize both transaction data and market information such as yield, quality, coupon rate, maturity, type of issue, trading characteristics, and other market data. The values of securities and other assets and liabilities expressed in non-base currencies are converted to the base currency of the sub-fund based upon exchange rates provided by a third-party source.

The Management Company has delegated primary responsibility for determining or causing to be determined the value of the sub-fund's investments (including any fair valuation) to Massachusetts Financial Services Company ("MFS") (the "Investment Manager") pursuant to valuation policies and procedures approved and overseen by the Board of Managers of the Management Company (the "Board"). In carrying out the valuation policies and procedures, the Investment Manager provides instructions to the Administration Agent on an ongoing basis. If the Investment Manager determines that reliable market quotations are not readily available, investments are valued at fair value as determined in good faith by the Investment Manager in accordance with such procedures under the oversight of the Board. Please refer to Note 14 with respect to securities impacted by the Russia and Ukraine conflict.

Under the valuation policies and procedures applicable to the sub-funds, investments may be valued at fair value if the Investment Manager determines that an investment's value has been materially affected by events occurring after the close of the exchange or market on which the investment is principally traded (such as foreign exchange or market) and prior to the determination of the sub-fund's net asset value, or after the halt of trading of a specific security where trading does not resume prior to the close of the exchange or market on which the security is principally traded. Events that occur after markets close (such as developments in foreign markets) and prior to the determination of the sub-fund's net asset value may be deemed to have a material effect on the value of securities traded in these markets. Accordingly, the sub-fund's non-U.S. ("foreign") equity securities may often be valued at fair value. The Investment Manager may rely on third-party pricing services or other information (such as the correlation with price movements of similar securities in the same or other markets; the type, cost and investment characteristics of the security; the business and financial condition of the issuer; and trading and other market data) to assist in determining whether to fair value and at what value to fair value an investment. The value of an investment for purposes of calculating the sub-fund's net asset value can differ depending on the source and method used to determine the value. When fair valuation is used, the value of an investment used to determine the sub-fund's net asset value may differ from quoted or published prices for the same investment. There can be no assurance that the sub-fund could obtain the fair value assigned to an investment if it were to sell the investment at the same time at which the sub-fund determines its net asset value per unit.

C) Dividends and Interest — Dividends received in cash are recorded on the ex-dividend date. Certain dividends from foreign securities will be recorded when the sub-fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date. Interest income is recorded on the accrual basis. Each sub-fund generally accretes discounts and amortizes premiums on debt securities as adjustments to interest income. Dividend and interest payments received in additional securities are recorded on the ex-dividend or ex-interest date in an amount equal to the value of the security on such date. Debt obligations may be placed on non-accrual status or set to accrue at a rate of interest less than the contractual coupon when the collection of all or a portion of interest has become doubtful. Interest income for those debt obligations may be further reduced by the write-off of the related interest receivables when deemed uncollectible.

at 31 March 2023 (unaudited)

The sub-funds may receive proceeds from litigation settlements. Any proceeds received from litigation involving portfolio holdings are reflected in the Statements of Operations and Changes in Net Assets in net realized gain (loss) on investments, derivatives, and currency transactions if the security has been disposed of by the sub-fund or in net change in unrealized gain (loss) on investments, derivatives, and currency translation if the security is still held by the sub-fund. Any other proceeds from litigation not related to portfolio holdings are recorded as net realized gain, in the Statements of Operations and Changes in Net Assets.

- D) Foreign Currency Translation Purchases and sales of foreign investments, income, and expenses initially expressed in foreign currencies are converted each business day into each sub-fund's base currency based upon currency exchange rates prevailing on the respective dates of such transactions or on the reporting date for foreign denominated receivables and payables. The base currency for the European Research Fund, Global Concentrated Equity Fund, Global Equity Euro Hedged Fund, Global Equity Fund, and Global Value Fund is EUR. The base currency for all the remaining sub-funds is USD. Gains and losses attributable to foreign currency exchange rates on sales of securities and foreign exchange rate movements on receivables, payables, income, and expenses are recorded for financial statement purposes as net realized gain (loss) on investments, derivatives, and currency transactions. The portion of both realized and unrealized gains and losses on investments that results from fluctuations in currency exchange rates is not separately disclosed.
- E) Cost of Securities Sold In determining the cost of securities sold, each sub-fund uses the average cost basis.
- F) Derivative Collateral Requirements Derivative counterparty credit risk is managed through formal evaluation of the creditworthiness of all potential counterparties. On certain, but not all, uncleared derivatives, the sub-fund attempts to reduce its exposure to counterparty credit risk, whenever possible by entering into an International Swaps and Derivatives Association ("ISDA") Master Agreement on a bilateral basis, at the sub-fund level. The ISDA Master Agreement gives each party to the agreement the right to terminate all transactions traded under such agreement if there is a specified deterioration in the credit quality of the other party. Upon an event of default or a termination of the ISDA Master Agreement, the non-defaulting party has the right to close out all transactions traded under such agreement and to net amounts owed under each agreement to one net amount payable by one party to the other. This right to close out and net payments across all transactions traded under the ISDA Master Agreement could result in a reduction of the sub-fund's credit risk to such counterparty equal to any amounts payable by the sub-fund under the applicable transactions, if any. These netting rights may be stayed or limited in the event the counterparty becomes insolvent. However, absent an event of default by the counterparty or a termination of the agreement, the ISDA Master Agreement does not result in an offset of reported balance sheet assets and liabilities across transactions between the sub-fund and the applicable counterparty.

Collateral and margin requirements differ by type of derivative. Margin requirements are set by the clearing broker and the clearinghouse for cleared derivatives (e.g., futures contracts, cleared swaps, and exchange-traded options). Collateral terms are contract specific for uncleared derivatives (e.g., forward foreign currency exchange contracts, uncleared swap agreements, and uncleared options). For derivatives traded under an ISDA Master Agreement, which contains a collateral support annex, the collateral requirements are netted across all transactions traded under such counterparty-specific agreement and an amount is posted from one party to the other to collateralize such obligations. Cash that has been segregated or delivered to cover the sub-fund's collateral or margin obligations under derivative contracts, if any, will be reported separately in the Statements of Assets and Liabilities as "Restricted Cash" for uncleared derivatives and/or "Deposits with brokers" for cleared derivatives. Securities pledged as collateral or margin for the same purpose, if any, are noted in the Schedules of Investments. The sub-funds may be required to make payments of interest on uncovered collateral or margin obligations with the broker. Any such payments are included in "Interest expense and similar charges" in the Statements of Operations and Changes in Net Assets. Collateral received consists of cash and/or high quality government debt, which is not reported in the Statements of Assets and Liabilities or Schedules of Investments. At 31 March 2023, the following sub-funds had segregated cash or received cash and/or high quality government debt as collateral for open cleared and uncleared derivatives.

Sub-Fund	Cash Segregated by the Sub-Fund (Restricted Cash)	Collateral Received by the Sub-Fund	Deposits with brokers for futures	Deposits with brokers for cleared swaps	
Low Volatility Global Equity Fund	\$1,100,000	\$	\$ —	\$	
U.S. Municipal Bond Fund	\$	\$—	\$235,410	\$	

- G) Forward Foreign Currency Exchange Contracts Each sub-fund may enter into forward foreign currency exchange contracts for the purchase or sale of a specific foreign currency at a fixed price on a future date. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of the contract. Certain sub-funds may enter into forward foreign currency exchange contracts for efficient portfolio management, hedging, or for investment purposes. For efficient portfolio management purposes, the sub-fund may enter into contracts to deliver or receive foreign currency it will receive from or require in its normal investment activities. For hedging purposes, the sub-fund may use contracts in a manner intended to protect foreign currency denominated securities from declines in value due to unfavorable exchange rate movements. For investment purposes, certain sub-funds may enter into contracts with the intent of changing the relative exposure of the sub-fund's portfolio of securities to different currencies to take advantage of anticipated exchange rate changes. The forward foreign currency exchange contracts are adjusted by the daily exchange rate of the underlying currency and any unrealized gains or losses are recorded as a receivable or payable for forward foreign currency exchange contracts until the contract settlement date. On contract settlement date, any gains or losses are recorded as realized gain (loss) on investments, derivatives, and currency transactions in the Statements of Operations and Changes in Net Assets. Collateral, in the form of cash or securities, is held in segregated accounts with the sub-fund's depositary in connection with these agreements. Details of the forward foreign currency exchange contracts outstanding are listed in Note 10.
- H) Hedged Unit Classes Certain sub-funds offer classes with the aim to reduce exchange rate and return fluctuations between the applicable non-base currency hedged unit class ("Hedged Unit Classes") and the unhedged base currency class of the relevant sub-fund. MFS will be responsible for engaging in hedging transactions for such Hedged Unit Classes. The terms and conditions applicable to the Hedged Unit Classes are the same as those which apply for the same classes of units offered in the base currency, the difference being the hedging of the Hedged Unit Class to the base currency of the sub-fund. MFS may execute such hedging transactions by using various hedging techniques and instruments, including forward foreign currency exchange contracts, foreign exchange swap contracts, currency futures contracts, written call options, and purchased put options. The gains/losses and expenses of the hedging

at 31 March 2023 (unaudited)

process will be borne by the Hedged Unit Classes. Given that there is no segregation of liabilities between unit classes of the sub-funds, there is a risk that, under certain circumstances, currency hedging transactions in relation to one unit class (e.g. a Hedged Unit Class) could result in liabilities which might affect the net asset value of the other unit classes of the same sub-fund. For example, if a currency hedging transaction in respect of a Hedged Unit Class were to result in liabilities that the Hedged Unit Class has insufficient assets to cover, assets attributable to the other unit classes of the sub-fund may be used to cover the liabilities. Further, collateral posting requirements, which may become more burdensome in light of recent regulatory developments, may require the sub-fund to maintain a larger allocation to cash and cash-equivalent instruments than the Investment Manager would otherwise determine to hold. This could negatively affect performance for the sub-fund as a whole, even where the corresponding derivative transactions are in respect of the Hedged Unit Classes alone. Details of the class-specific forward foreign currency exchange contracts outstanding are listed in Note 11.

- I) Futures Contracts The sub-funds may enter into futures contracts which may be used to hedge against or obtain broad market exposure, interest rate exposure, currency exposure, or to manage duration. A futures contract represents a commitment for the future purchase or sale of an asset at a specified price on a specified date. Upon entering into a futures contract, the sub-fund is required to deposit with the broker either in cash or securities an initial margin in an amount equal to a certain percentage of the notional amount of the contract, which subjects the sub-fund to counterparty risk to the clearing broker and possibly the clearinghouse with respect to such collateral. Subsequent payments (variation margin) are made or received by the sub-fund each day, depending on the daily fluctuations in the value of the contract, and are recorded for financial statement purposes as unrealized gains or losses by the sub-fund until the contract is closed or expires at which point the gain or loss on futures contracts is realized. Upon entering into such contracts, the sub-fund bears the risk of interest or exchange rates or securities' prices moving unexpectedly, in which case, the sub-fund may not achieve the anticipated benefits of the futures contracts and may realize a loss. Details of the futures contracts outstanding are listed in Note 12.
- J) Combined Statements The combined Statements of Assets and Liabilities and Statements of Operations and Changes in Net Assets are presented in EUR at the exchange rate at 31 March 2023. The currency translation adjustment relates to the retranslation of the opening Net Asset Values at this exchange rate. The currency exchange rates (USD to EUR) for 31 March 2023 and 30 September 2022 were 0.920429 and 1.020773, respectively.
- K) Negative Interest Each sub-fund may be charged interest ("negative interest") on cash balances. Any such payments are included in "Interest expense and similar charges" in the Statements of Operations and Changes in Net Assets.
- L) Distributions Net investment income attributable to all classes, except for Gross Income Classes and Income Classes, will not be distributed to unitholders. Instead, it will be included in the portfolio of the relevant sub-fund and class and be reflected in the net asset value of such sub-fund and class. For Gross Income Classes (designated "GD"), the dividend is calculated at the discretion of the Board of Managers of the Management Company on the basis of the expected gross income over a given period, with relevant expenses of the class deducted after such distribution. For Income Classes (designated "ND" for "net distributing"), substantially all of the net income attributable to such units is distributed.
- M) Repurchase Agreements Each sub-fund may enter into repurchase agreements. Each repurchase agreement is recorded at cost. For certain repurchase agreements, collateral posted by the counterparty is held by the sub-funds' depositary or its agent, while for others it may be held with a third-party agent. In the latter case, the sub-funds are exposed to additional counterparty risk with respect to such collateral due to the possibility of insolvency of the third-party agent. Under Luxembourg regulations, the sub-funds' depositary has established procedures to monitor collateral held with such third-party agent on behalf of the sub-funds. Each sub-fund monitors, on a daily basis, the value of the collateral to ensure that its value, including accrued interest, is greater than amounts owed to each sub-fund under each such repurchase agreement. Interest income earned on the sub-fund's investment in repurchase agreements are reflected in "Income on repurchase agreements" in the Statements of Operations and Changes in Net Assets. For the six months ended 31 March 2023, the following sub-funds had transaction costs for repurchase agreements. These amounts are included in the total transaction costs in Note 13. At 31 March 2023, there were no open repurchase agreements.

Sub-Fund	Transaction Costs
Blended Research Global Equity Fund	\$517
Global Value Ex-Japan Fund	\$512
Global Value Fund	€466
Low Volatility Global Equity Fund	\$398
U.S. Municipal Bond Fund	\$493

N) *Municipal Debt* - The value of municipal debt instruments can be affected by changes in their actual or perceived credit quality. The credit quality and ability to pay principal and interest when due on municipal debt instruments can be affected by, among other things, the financial condition of the issuer or guarantor, the issuer's future borrowing plans and sources of revenue, the economic feasibility of the revenue bond project or general borrowing purpose, and political or economic developments in the region where the instrument is issued. Municipal debt instruments generally trade in the over-the-counter market. Information about the financial condition of an issuer of municipal debt instruments may not be as extensive as that which is made available by corporations whose securities are publicly traded. Many municipal debt instruments are supported by insurance, which typically guarantees the timely payment of all principal and interest due on the underlying municipal debt instrument, but does not insure against market fluctuations which affect the price of the underlying instrument. Generally, when municipal debt issuers utilize insurance for a municipal debt instrument it is to bolster protection for investors thereby increasing the attractiveness of the instrument for investment. Such insurance is not necessarily indicative of the relative risk of a municipal debt instrument compared to an equivalently rated corporate debt instrument. Changes in the financial condition of an individual municipal insurer can affect the market for a municipal debt instrument such insurer has guaranteed as financial deterioration may impact an insurer's ability to guarantee continued payment of principal and interest for a specific municipal debt instrument.

at 31 March 2023 (unaudited)

Note 3: Swing Pricing

Large transactions into or out of a sub-fund can create "dilution" of the sub-fund's assets because the price at which an investor buys or sells units may not entirely reflect the trading and other related costs that arise when the Investment Manager trades securities to accommodate the large inflows and outflows. Therefore, the Management Company has adopted procedures such that a sub-fund's net asset value per unit may be adjusted upward or downward (otherwise known as "swing pricing") in order to reduce the impact of such costs (i.e., brokerage commissions, bid-ask spreads, and transfer taxes) to existing unitholders of that sub-fund. In the usual course of business, the procedures will be triggered whenever the net purchases, exchanges, and redemptions in units of all classes on a particular business day exceed a certain percentage of the sub-fund's assets as set by the Board from time to time. If the procedures result in a material adjustment to net asset value per unit; in case of a large amount of net purchases, the net asset value per unit will be adjusted upward and purchasers of sub-fund units on that valuation date will effectively contribute an additional amount to offset the related transaction costs; and conversely, net asset value per unit will be adjusted downward with a large amount of net redemptions. The adjusted net asset value will be applicable to all purchases. exchanges, or redemptions in units of all classes on that valuation day. As a sub-fund's net purchases, redemptions, and exchanges vary from business day to business day, it is not possible to predict how frequently a sub-fund's net asset value will be adjusted. Based on these adjustments, the volatility of a sub-fund's net asset value may not fully reflect the true performance of the sub-fund's underlying assets. The published/dealing NAV per unit, as adjusted in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, is disclosed in Statistical Information and may include a swing pricing adjustment. This adjustment is not recognized in either the Statements of Assets and Liabilities or the Statements of Operations and Changes in Net Assets. At 31 March 2023, no sub-funds included a swing pricing adjustment. A swing pricing historical activity report for the period is available at fcp.mfs.com.

Any adjustment to a sub-fund's net asset value (the "swing factor") will generally not exceed 2% of the net asset value of the relevant sub-fund on the relevant valuation date. However, under extraordinary conditions and when necessary in light of the best interests of investors, the Board may determine to use a swing factor in excess of 2% for a sub-fund. Such a decision must be notified to the CSSF, and investors will be informed via notice published in a Luxembourg newspaper and in another newspaper of more general circulation, as well as on *fcp.mfs.com*.

Note 4: Securities Loaned

Goldman Sachs Agency Lending ("GSAL"), as lending agent, may loan the securities of certain sub-funds (currently only the European Research Fund) to certain qualified institutions (the "Borrowers") approved by the fund. The loans are collateralized by high quality government debt in an amount at least equal to the market value of the securities loaned marked-to-market on a daily basis; such collateral is held within the sub-fund's depositary's custodian network. GSAL provides the applicable sub-fund with indemnification against Borrower default, including failure to deliver to the sub-fund any applicable distributions with respect to securities on loan or to return to the applicable sub-fund securities on loan in accordance with the lending agreement. On loans collateralized by high quality government debt, a fee is received from the Borrower, and is allocated between the sub-fund and the lending agent (which is not a related party to the fund, Management Company, Investment Manager or Depositary). Under the current securities lending agreement, the lending agent will receive 15% of income generated up to \$4 million from securities lending transactions and 12.5% of income exceeding \$4 million from securities lending transactions. A nominal account maintenance and per-transaction fee is also paid to the Depositary Trust Clearing Corporation in connection with collateral maintenance. Income and expense from securities lending is separately reported in the Statements of Operations and Changes in Net Assets. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income as disclosed in Note 2. The market value of securities loaned and collateral outstanding at 31 March 2023 for the applicable sub-funds were as follows:

Sub-Fund	Market Value of Securities Loaned	Market Value of Collateral
European Research Fund	€3,481,782	€3,876,420

Note 5: Related Party Transactions

A) Management Company Fee — The Management Company carries out the functions of management of the fund as prescribed under Luxembourg regulations. The Management Company is responsible for the fund's investment management and administration, including overall investments of the fund and the implementation of distribution and marketing functions. The Management Company delegates, under the Management Company's supervision and control, certain administrative, distribution and investment and management functions to affiliates or third-party service providers. The Management Company has appointed MFS, an affiliate, as the Investment Manager and Administrative Services Agent.

Each sub-fund pays the Management Company an annual fee approved by the Board, which is intended to cover the expenses of services the Management Company provides in connection with its mandate, plus a target profit margin. These expenses include legal, regulatory and operational costs of the Management Company as well as fees paid by the Management Company to third parties to provide certain administrative, risk management and reporting services to the Management Company, including the administrative support services provided by MFS. The fund also reimburses the Management Company for out-of-pocket expenses related to its services.

Each sub-fund pays a separate fee for services provided by the Investment Manager, Transfer Agent, and Depositary.

The management company fee is computed daily and is allocated such that each sub-fund pays a fixed fee of \$20,000 (or currency equivalent) plus an asset-based fee at an agreed upon annual rate based on average daily net assets over \$40 million and up to \$4 billion (or currency equivalent) for each sub-fund. The management company fee incurred by each sub-fund for the six months ended 31 March 2023 was equivalent to the following annual effective rates of each sub-fund's average daily net assets:

Sub-Fund	% of Average Daily Net Assets
Blended Research Emerging Markets Equity Fund	0.0313%
Blended Research Global Equity Fund	0.8277%

at 31 March 2023 (unaudited)

Sub-Fund – (continued)	% of Average Daily Net Assets
European Research Fund	0.0305%
Global Concentrated Equity Fund	0.0314%
Global Equity Euro Hedged Fund	0.0403%
Global Equity Fund	0.0302%
Global Listed Infrastructure Fund	0.9435%
Global Value Ex-Japan Fund	0.0386%
Global Value Fund	0.0427%
Low Volatility Global Equity Fund	0.0328%
U.S. Municipal Bond Fund	0.0359%

B) Investment Management Fee — Under the fund's Management Regulations, the Management Company is responsible for providing overall investment advisory services. The Management Company has appointed MFS to provide the Management Company with day-to-day investment management of the fund. The investment management fee is computed daily and paid monthly at the following annual rates as of 31 March 2023 based on average daily net assets of each unit class for the sub-funds below:

Sub-Fund	% of Average Daily Net Assets
Blended Research Emerging Markets Equity Fund	0.60%
Blended Research Global Equity Fund	0.35%
European Research Fund	0.37%
Global Concentrated Equity Fund	0.75%
Global Equity Euro Hedged Fund	0.65%
Global Equity Fund	0.65%
Global Listed Infrastructure Fund	0.65%
Global Value Ex-Japan Fund	0.70%
Global Value Fund	0.65%
Low Volatility Global Equity Fund	0.40%
U.S. Municipal Bond Fund	0.30%

The investment management fee for the Euro Z Class units and USD Z Class units will be administratively levied and will be paid directly by the unitholder to the Management Company, in relation to investment management services provided by MFS to the sub-fund, and the payment of such fee is not charged to or paid by the sub-fund.

The Management Company has agreed in writing to waive 0.25% of the investment management fee for the Blended Research Emerging Markets Equity Fund Euro W Class units. This reduction is included in "Expenses reimbursed by related parties" in the Statements of Operations and Changes in Net Assets.

C) Expense Cap Arrangement – The Investment Manager has agreed in writing to bear certain expenses such that "Other Expenses" do not exceed the rates of average daily net assets of each unit class noted in the table below. This expense cap arrangement excludes taxes, certain tax reclaim recovery expenses (including contingency fees), tax transparency-related expenses, and expenses associated with the sub-fund's investment activities such as interest expense. To the extent "Other Expenses" exceed the expense cap rate, the difference is attributable to certain "Other Expenses" that are excluded from the expense cap arrangement, such as taxes, certain tax reclaim recovery expenses, tax transparency-related expenses, and interest expenses associated with the sub-funds' investment activities. "Other Expenses" generally include all sub-fund expenses except for the investment management fee. The sub-funds do not pay distribution and service fees. "Other Expenses" include fees paid to the Management Company, Depositary and Transfer Agent, legal and audit fees, and expenses in connection with the sub-fund's operation and central administration in Luxembourg, among others.

Sub-Fund	% of Average Daily Net Assets
Blended Research Emerging Markets Equity Fund	0.10%
Blended Research Global Equity Fund	0.05%
European Research Fund	0.10%
Global Concentrated Equity Fund	0.15%
Global Equity Euro Hedged Fund	0.15%

at 31 March 2023 (unaudited)

% of Average Daily Net Assets
0.15%
0.10%
0.15%
0.10%
0.05%
0.10%

The reductions under these agreements are included in "Expenses reimbursed by related parties" in the Statements of Operations and Changes in Net Assets. These expense cap agreements are voluntary and may be rescinded at any time at the discretion of MFS.

D) Other – All transactions entered into between the fund and MFS have been entered into in the ordinary course of business and on normal commercial terms. The fund has not entered into any transactions through a broker who is a connected person, nor has the fund entered into any transactions which are outside the ordinary course of business or not on normal commercial terms.

Note 6: Depositary and Custodian Fees

Each sub-fund will pay State Street Bank International GmbH, Luxembourg Branch, the fund's depositary and global custodian (the "Depositary"), a fee based on the monthly net asset value of the month-end holdings by foreign markets of the sub-funds plus a fee based upon the trading activity of each sub-fund. The Depositary and the Management Company or MFS, on behalf of the fund, shall determine the level of the fee from time to time in light of market rates applicable in Luxembourg. The fee is approved by the Management Company's Board of Managers, on behalf of the fund. Reasonable disbursements and out-of-pocket expenses incurred by the Depositary or by other banks and financial institutions to which safekeeping of assets of the sub-funds is entrusted are in addition to the Depositary's fee. The Management Company, on behalf of the fund, has also entered into agreements with State Street to serve as the Administration Agent, Paying Agent, Registrar, Transfer Agent, and Fund Accounting Agent, for which it pays fees at commercial rates agreed upon between the parties, together with reasonable out-of-pocket expenses. The fees paid to the Depositary and Transfer Agent for these services are part of each sub-fund's operating expenses which are capped by MFS as described in Note 5.

Note 7: Commission Sharing

The Investment Manager and its affiliates (the "MFS Global Group") utilize a global investment platform built on the principle of close collaboration among members of its investment team, where research and investment ideas are shared. MFS Global Group investment professionals rely on their own internal research in making investment decisions even though they utilize external research provided by brokers or other research providers to help develop investment ideas. External research is also used to help understand market consensus, sentiment or perception, and identify relative inefficiencies more quickly and effectively.

The MFS Global Group makes decisions on the procurement of external research separately and distinctly from decisions on the selection of brokers that execute transactions for client accounts. The MFS Global Group will only execute a transaction with a broker who provides external research when, in the MFS Global Group's judgment, the broker is capable of providing best execution for that transaction.

However, as permitted by Section 28(e) of the U.S. Securities Exchange Act of 1934, as amended ("Section 28(e)"), which governs the Investment Manager, the MFS Global Group may cause certain clients to pay a broker that provides "brokerage and research services" (as defined in Section 28(e)) to the MFS Global Group an amount of commission for effecting a securities transaction for clients in excess of the amount other brokers would have charged for the transaction if the MFS Global Group determines in good faith that the greater commission is reasonable in relation to the value of the brokerage and research services provided viewed in terms of the MFS Global Group's overall responsibilities to its clients. The brokerage and research services received may be useful and of value to the MFS Global Group in serving both the accounts that generated the commissions and other clients of the MFS Global Group. Accordingly, not all of the research and brokerage services provided by brokers through which client securities transactions are effected may be used by MFS in connection with the client whose account generated the brokerage commissions.

The MFS Global Group has undertaken to bear the costs of external research for all accounts it advises, either by paying for external research out of its own resources, or by voluntarily reimbursing clients from its own resources for excess commissions paid to obtain external research. For accounts subject to a regulatory prohibition on the payment of excess commissions for research, including accounts that are directly or indirectly subject to the Markets in Financial Instruments Directive in the EU or U.K. ("MiFID II accounts"), the MFS Global Group will pay for external research out of its own resources. For all other accounts, the MFS Global Group operates a commission sharing arrangement that generates commission "credits" for the purchase of external research from commissions on equity trades in a manner consistent with Section 28(e). Under this arrangement the MFS Global Group may cause a client to pay commissions in excess of what the broker or other brokers might have charged for certain transactions in recognition of brokerage and research services provided by the executing broker. The MFS Global Group has voluntarily undertaken to reimburse clients from its own resources in an amount equal to all commission credits generated under this arrangement.

The research services obtained by the MFS Global Group through the use of commission credits may include: access to corporate management; industry conferences; research field trips to visit corporate management and/or to tour manufacturing, production or distribution facilities; statistical, research and other factual information or services such as investment research reports; access to analysts; a small number of expert networks; reports or databases containing corporate, fundamental, technical and political analyses; ESG-related information; portfolio modelling strategies; and economic research services, such as publications, chart services, and advice from economists concerning macroeconomics information, and analytical investment information about particular corporations.

at 31 March 2023 (unaudited)

Through the use of eligible brokerage and research services acquired with commission credits, the MFS Global Group initially avoids the additional expenses that it would incur if it developed comparable information through its own staff or if it purchased such services with its own resources. As a result, clients may pay more for their account transactions in the first instance than if the MFS Global Group caused clients to pay execution only rates. However, because the MFS Global Group has voluntarily undertaken to reimburse clients from its own resources for commission credits generated from client brokerage, the MFS Global Group ultimately assumes the additional expenses that it would incur if it purchased external research with its own resources.

Although the MFS Global Group generally bears the costs of external research, it generally does not pay, and therefore does not reimburse clients with respect to research that is made available by a broker to all of its customers and that the MFS Global Group generally considers to be of de minimis value, or for external research provided by executing brokers in fixed income transactions that incur mark-ups, mark-downs, and other fees rather than commissions. With respect to fixed income, the MFS Global Group believes that executing brokers in fixed income transactions do not charge lower mark-ups, mark-downs, commission equivalents or other fees if clients forego research services. Consequently, the MFS Global Group does not believe it pays higher mark-ups, mark-downs, commission equivalents or other fees to brokers on fixed income transactions than it would if it did not receive any research services from brokers. However, MiFID II generally considers research to be an inducement and therefore the MFS Global Group pays for certain categories of fixed income research received by the relevant affiliates out of its own resources.

Note 8: Taxation

The fund is subject to Luxembourg law with respect to its tax status. Under legislation and regulations currently prevailing in Luxembourg, the fund is subject to a "taxe d'abonnement" on its net assets at an annual rate of 0.05% for the Euro W Class and 0.01% for all other Classes. The "taxe d'abonnement" is calculated and payable quarterly on the basis of the net assets at the end of each calendar quarter. Interest and dividend income, and gains on securities, may be subject to non-recoverable withholding taxes deducted at source in the countries of origin.

The fund is registered for Value Added Tax in the Grand Duchy of Luxembourg and subject to account for Value Added Tax in accordance with current regulations.

The Euro IRE T, Euro IRE T GD, Sterling UK T, and Sterling UK T GD classes are intended to achieve tax transparency with respect to certain countries and as such may not be subject to the same non-recoverable withholding taxes as those deducted within other unit classes. However, no guarantee can be given if and when such tax transparency can be achieved for these classes for a given market. These classes are reserved to pension plan investors and do not pay the taxe d'abonnement.

Note 9: Line of Credit

Each sub-fund and other funds managed by MFS participate in an unsecured committed line of credit, subject to a \$250 million sublimit provided by a syndicate of banks under a credit agreement. Borrowings may be made for temporary financing needs. Interest is charged to each sub-fund, based on its borrowings, generally at a rate equal to the highest of 1) Daily Simple SOFR (Secured Overnight Financing Rate) plus 0.10%, 2) the U.S. Federal Funds Effective Rate, or 3) the Overnight Bank Funding Rate, each plus an agreed upon spread. A commitment fee, based on the average daily unused portion of the committed line of credit, is allocated among the participating sub-funds. The line of credit expires on 14 March 2024 unless otherwise extended or renewed. In addition, each sub-fund and other funds managed by MFS have established a \$200 million unsecured uncommitted borrowing arrangement with its depositary bank for temporary financing needs. Interest is charged to each participating sub-fund, based on its borrowings, at rates equal to customary reference rates plus an agreed upon spread. Any interest fees are reflected in "Interest expense and similar charges" and any commitment fees are reflected in "Miscellaneous" expense in the Statements of Operations and Changes in Net Assets. None of the sub-funds had any borrowings outstanding under these arrangements at 31 March 2023.

Note 10: Open Forward Foreign Currency Exchange Contracts

At 31 March 2023, the sub-funds had outstanding the following forward foreign currency exchange contracts. Each sub-fund had sufficient cash and/or other securities to cover any commitments under these derivative contracts.

Note 12: Open Futures Contracts

At 31 March 2023, the sub-fund had the following futures contracts outstanding. The sub-fund had sufficient cash and/or other securities to cover any commitments under these derivative contracts.

Description	Currency	Counterparty	Expiration	Notional	Contracts	Net Unrealized Gain (Loss)
U.S. Municipal Bond Fund						
U.S. Treasury Bond (Long)	USD	BofA Securities, Inc.	June 2023	4,500,000	45	\$264,217
U.S. Treasury Note 5 yr (Short)	USD	BofA Securities, Inc.	June 2023	2,200,000	22	(47,609)
U.S. Treasury Ultra Bond (Long)	USD	BofA Securities, Inc.	June 2023	1,000,000	10	54,443
Total						\$271,051

The Statements of Assets and Liabilities reflect the net daily variation margin, if any, as of 31 March 2023 on open futures contracts which may differ from the net unrealized gain/(loss) shown above.

Note 13: Transaction Costs

For the six months ended 31 March 2023, the sub-funds incurred transaction costs which have been defined as brokerage commissions (which may include costs related to Research, see Note 7) in respect of the purchase or sale of transferable securities, money market instruments, derivatives or other eligible assets, and fees charged by the Depositary for the execution of the sub-funds transactions (which may include repurchase agreement transactions, see Note 2). Brokerage commissions are included in Average Cost in the Schedules of Investments or in Net Realized Gain (Loss) on Investments, Derivatives, and Currency Transactions in the Statements of Operations and Changes in Net Assets. The reimbursement of Research cost by MFS, if any, is included in "Other" in the Statements of Operations and Changes in Net Assets. Fees charged by the Depositary are disclosed as part of the Depositary fee in the Statements of Operations and Changes in Net Assets.

Sub-Fund	Transaction Costs
Blended Research Emerging Markets Equity Fund	\$222,285
Blended Research Global Equity Fund	\$2,475
European Research Fund	€120,807
Global Concentrated Equity Fund	€17,749
Global Equity Euro Hedged Fund	€5,267
Global Equity Fund	€67,334
Global Listed Infrastructure Fund	\$221_
Global Value Ex-Japan Fund	\$8,492
Global Value Fund	€7,387
Low Volatility Global Equity Fund	\$26,880
U.S. Municipal Bond Fund	\$2,023

Note 14: Russia and Ukraine Conflict

The market disruptions, which began in late February 2022, associated with geopolitical events related to the conflict between Russia and Ukraine may adversely affect the value of the sub-funds' assets and thus the sub-funds' performance. In addition, the Blended Research Emerging Markets Equity Fund and Blended Research Global Equity Fund invest in securities and/or derivative instruments that are economically tied to Russia and/or Ukraine. Escalation of the conflict between Russia and Ukraine in late February 2022 caused market volatility and disruption in the tradability of Russian securities, including closure of the local securities market, temporary restriction on securities sales by non-residents, and disruptions to clearance and payment systems. To the extent that the

at 31 March 2023 (unaudited)

sub-funds are unable to sell securities, whether due to market constraints or to the sanctions imposed on Russia by the United States and other countries, those securities will be considered illiquid and the value of those securities will reflect their illiquid classification. This may negatively impact the sub-funds' performance and/or ability to achieve their investment objectives. Management continues to monitor these events and to evaluate the related impacts, if any, to the sub-funds.

Note 15: Subsequent Events

Effective on or around 31 May 2023, the following MFS Investment Fund's unit classes will commence operations:

U.S. Municipal Bond Fund

Yen Z Class, Yen Z Hedged Class

ADDENDUM (UNAUDITED)

EXPENSE RATIOS

For the twelve months ended 31 March 2023:

The following expense ratio has been calculated in accordance with the Swiss Funds & Asset Management Association Guidelines on the calculation and disclosure of the Total Expense Ratio of collective investment schemes 16 May 2008 (Version of 20 April 2015).

U.S. Municipal Bond Fund US Dollar Z Class 0.11%

SECURITIES FINANCING TRANSACTIONS REGULATION

Securities Financing Transactions Regulation (Regulation (EU) 2015/2365) ("SFTR") requires disclosure detailing the fund's use of securities financing transactions in the fund's annual and semiannual reports.

A securities financing transaction ("SFT") is defined per Article 31(11) of the SFTR as:

- a repurchase transaction;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction;
- a margin lending transaction.

The SFTR also extends the disclosure requirements to total return swaps.

The disclosure requirements are presented in the tables below. For additional information regarding the sub-funds' usage of SFTs and total return swaps, refer to the following Notes within the Notes to Financial Statements:

- Repurchase Agreements: Note 2
- Securities Loaned: Note 4

At 31 March 2023, the sub-funds had the following amounts of securities on loan as proportion to total lendable assets:

Sub-Fund	Market Value of Securities Loaned	Market Value as % of Total Lendable Assets (a)	
European Research Fund	€3,481,782	0.39%	

(a) Total Lendable Assets is defined as "Investments, at value" on the Statements of Assets and Liabilities which excludes cash and cash equivalents.

At 31 March 2023, the sub-funds had the following amounts of assets engaged in each type of SFT and as a percentage of the sub-fund's net assets:

Sub-Fund	Market Value of Securities Loaned	% of Net Assets
Settlement/clearing for each type of SFT:	Bi-Lateral	
European Research Fund	€3,481,782	0.39%

At 31 March 2023, the (up to) ten largest collateral issuers across all SFTs utilized by the sub-funds were as follows:

Securities Loaned Collateral:

			Quality		
Collateral Issuer	Sub-Fund	Туре	(Moody's)	Currency	Value
United States	European Research Fund	Bonds	Aaa	USD	€3,876,420

At 31 March 2023, the (up to) top 10 counterparties of each type of SFT were as follows:

Securities Loaned
Goldman Sachs Agency Lending
USA
€3,481,782

Aggregate transaction data for each type of SFT broken down according to the maturity tenor of the collateral:

3F1:		Securities Loaned						
Sub-Fund	Less than 1 day	1 day to 1 week	1 week to 1 month	1 to 3 months	3 months to 1 year	Greater than 1 year	Open maturity	
European Research Fund	€—	€—	€—	€—	€—	€3,876,420	€—	

Canusidian Languari

Aggregate transaction data for each type of SFT broken down according to the maturity tenor of SFTs:

3F1:		Securities Loaned						
Sub-Fund	Less than 1 day	1 day to 1 week	1 week to 1 month	1 to 3 months	3 months to 1 year	Greater than 1 year	Open maturity	
European Research Fund	€—	€—	€—	€—	€—	€—	€3,481,782	

Consultion Labored

Share of collateral received that is reused, compared to the maximum amount specified in the prospectus or in the disclosure to investors:

The sub-funds are not permitted to sell, reinvest or pledge collateral received in the form of securities. To the extent the sub-funds receive cash as collateral, such cash collateral would only be placed on deposit with credit institutions allowed under Luxembourg law, and if applicable may only be reinvested in high quality government bonds, reverse repurchase transactions (provided the transactions are with credit institutions subject to prudential supervision and the sub-fund is able to recall at any time the full amount of cash on accrued basis) or short-term money market funds allowed by Luxembourg law in order to mitigate the risk of losses on reinvestment. The sub-funds did not receive cash collateral for SFTs at 31 March 2023.

Safekeeping of collateral received by the sub-funds as part of SFTs, number and names of custodians and the amount of the collateral assets safe-kept by each of the custodians:

		Depositary	
		State Street Bank Internationa GmbH, Luxembourg Branch	
Sub-Fund	Number of Depositories	Securities Loaned Collateral Value	
European Research Fund	1	€3,876,420	

Safekeeping of collateral granted by the sub-fund as part of SFTs, proportion of collateral held in segregated accounts or in pooled accounts or in any other accounts:

At 31 March 2023, the sub-funds did not pledge collateral in connection with SFT.

Data on return and cost for each type of SFT broken down between the sub-fund, the manager of the collective investment undertaking and third parties (e.g. agent lender) in absolute terms and as a percentage of overall returns generated by that type of SFT:

For information on income or returns earned and costs incurred for repurchase agreements, refer to Note 2 and for securities loaned, refer to Note 4.

EU Sustainable Finance Disclosure Regulation ("SFDR")

Effective as of the date of this report, the following MFS Investment Funds sub-funds were designated as meeting the criteria of Article 8 under SFDR:

Blended Research Global Equity Fund European Research Fund Global Concentrated Equity Fund Global Equity Euro Hedged Fund Global Equity Fund Global Listed Infrastructure Fund Global Value Ex-Japan Fund Global Value Fund

These sub-funds promote the MFS Low Carbon Transition Characteristic. Further information on the characteristic is contained in the respective SFDR website disclosure which can be accessed at fcp.mfs.com (select location and applicable Article 8 fund for the 'SFDR Article 8 Fund Disclosure' document).

The extent to which each sub-fund met the underlying climate criteria as of 30 September 2022 is available attached to the most recent annual report and available at fcp.mfs.com (select location and applicable Article 8 fund for the 'SFDR Article 8 Fund Disclosure' document).

Neither the MFS Investment Funds Article 8 sub-funds listed above, nor the other sub-funds of MFS Investment Funds, take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation and portfolio alignment with such Taxonomy Regulation is not calculated.
