

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Crossinvest Swiss Opportunity Fund (the "Sub-Fund") is a sub-fund of CROSSFUND SICAV (the "Fund")

Class A EUR (the "Class") - ISIN: LU1776393032

The Fund has appointed FundPartner Solutions (Europe) S.A. as management company.

Objectives and investment policy

The investment objective of the Sub-Fund is to achieve a long term capital growth in Swiss Francs by pursuing exposure opportunities to the Swiss market.

The Sub-Fund is actively managed. The Sub-Fund has no benchmark index and is not managed in reference to a benchmark index.

The Sub-Fund will achieve its objective by taking an exposure to any type of equity and equity related securities of companies which are domiciled, headquartered or exercise the predominant part of their activity in Switzerland.

The Sub-Fund will mainly invest

- directly in the securities/asset classes mentioned above, and/or
- indirectly through undertakings for collective investment (UCIs, within a limit of 45% of the Sub-Fund's net assets), structured products or any other type of transferable securities, financial derivative instruments, linked (or offering an exposure) to the securities/asset classes mentioned above.

Except the Swiss exposure, the choice of investments will neither be limited by an economic sector nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single currency and/or in a single economic sector.

The Sub-Fund may also invest directly or indirectly in other asset classes, among others any type of debt securities (including money market instruments), bank deposits, cash and cash equivalents.

For hedging and for any other purposes, the Sub-Fund may use any type of financial derivative instruments. However, it will be principally futures, options, contracts for difference and swaps (including total return swaps).

If the investment manager considers this to be in the best interest of the shareholders, the Sub-Fund may also hold, up to 100% of its net assets,

liquidity as among others cash deposits, money market UCIs (within the 45% limit above-mentioned) and money market instruments.

Dealing Frequency

The net asset value for the Class is calculated on each bank business day in Luxembourg based on the pricing of the preceding business day (the "Valuation Day"). The cut-off time to submit subscriptions and/or redemption orders is 3 p.m. at the latest on the Valuation Day.

Distribution Policy

The Class is cumulative. No dividend will normally be distributed.

Currency

The currency of this Class is EUR.

This is a currency hedged class. It aims to reduce the impact on your investment of movements in the exchange rate between the Sub-Fund currency and the Class currency.

Investment Horizon

Please note that the Sub-Fund might not be suited for investors planning to redeem their shares within three years.

Minimum investment and/or holding requirement

For the Class, the minimum initial subscription amount is EUR 50'000.

Risk and reward profile

Risk Disclaimer

- This current risk profile is based on historical data and may not be a reliable indication of the future risk profile of the Sub-Fund.

- The risk category shown is not guaranteed and may shift over time.

- The lowest category, which corresponds to Number 1, cannot be regarded as being risk-free.

- The Sub-Fund does not provide any capital guarantee or asset protection measures.

Why is this Sub-Fund in this category?

The Fund is a high risk vehicle which aims to provide a long-term capital growth by investing in equity and equity related securities of companies which are domiciled, headquartered or exercise the predominant part of their activity in Switzerland. Therefore its risk/reward profile corresponds to the underlying volatility of the Swiss equity market.

Are there any other particular Risks?

- **Liquidity risks:** The Sub-Fund may invest part of its assets in less liquid securities. Those are securities that cannot easily be sold or exchanged for cash without a substantial loss in value. Those securities also cannot be sold quickly because of a lack of ready and willing investors or speculators to purchase the asset in certain market conditions.

- **Counterparty risks:** The Sub-Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Sub-Fund.

- **Credit risks:** The Sub-Fund may invest a portion of its assets in debt securities. The issuers of these debt securities may become insolvent, which will mean that the securities will lose all or some of their value.

- **Risks from the use of derivatives:** The Sub-Fund may use financial derivatives instruments which may result in the Sub-Fund being leveraged and may result in material fluctuations in the value of the Sub-Fund. Leverage on certain types of transactions including derivatives may impair the Sub-Fund's liquidity, cause it to liquidate positions at unfavourable times or otherwise cause the Sub-Fund not to achieve its intended objective.

Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested resulting in the sub-fund being exposed to a greater loss than the initial investment.

- **Operational risks:** The Sub-Fund may fall victim to fraud or criminal acts. It may suffer losses as a result of misunderstandings or mistakes by employees of the Management Company or by external third parties or may be damaged by external events, such as natural disasters.

Charges

One-off charges taken before or after you invest

Entry charge	3.00%
Exit charge	3.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	2.01%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	Paid yearly to the investment manager, accrued on each valuation date and equivalent to 15.00% of the performance of the net asset value per share exceeding the high water mark.
-----------------	---

The charges you pay are used to pay the cost of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

These percentages are maximum figures which might be charged by intermediaries, in some cases you might pay less. The actual entry and exit charges can be found out from your adviser or distributor.

The percentage of ongoing charges is based on the last year's expenses, ending 31/12/2021. This figure may vary from year to year. It excludes:

- Performance fees (if applicable)
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking.

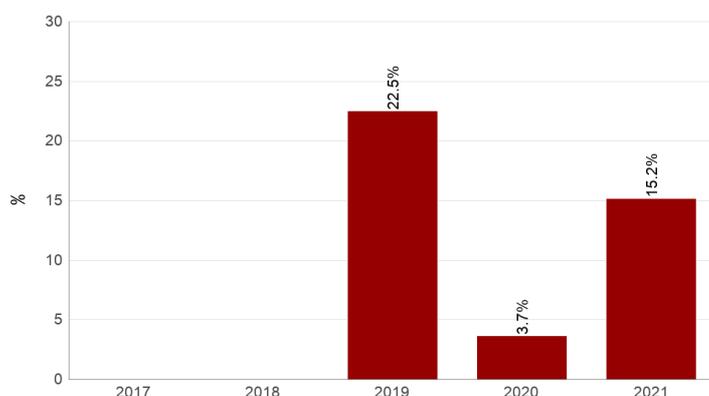

For the last financial year, the performance fee charged to the Class was 2.22% of the average annual net assets of the Class.

In case of share conversion, the shareholders may be charged with a maximum fee of 3.0%.

For more detailed information on expenses, please refer to the Fund's prospectus, section which details the Fund expenses, which is available at the management company's office.

Past performance

■ A EUR (LU1776393032)

Please be aware that past performance is not a reliable indicator of future results.
