#### 2.) SIGNIFICANT ACCOUNTING POLICIES

This report is drawn up at the responsibility of the Board of Directors of the Investment Company in accordance with the legal provisions applicable in Luxemburg and the standards for the preparation and presentation of reports.

- 1. The net assets of the Investment Company are shown in USD (reference currency).
- 2. The value of a share ("net asset value per share") is denominated in the currency laid down in the Annex to the sales prospectus ("fund currency"), unless any other currency is stipulated for any other share classes in the Annex to the sales prospectus ("share class currency").
- 3. The net asset value per share is calculated by the Investment Company or a third party commissioned for this purpose by the Investment Company, under the supervision of the Depositary Bank, on each banking day in Luxembourg, with the exception of 24 and 31 December of each year (valuation day). The Board of Directors may decide to apply different regulations to individual funds, but the net asset value per share must be calculated at least twice each month.
- 4. A Business Day is a day on which banks are normally open for business in Luxembourg and London.
- 5. In order to calculate the net asset value per share, the value of the assets of each sub-fund, less the liabilities of each sub-fund (net sub-fund assets is determined on each day specified in the relevant Annex to the sales prospectus ("Valuation Day") and this is divided by the number of shares in circulation in the respective sub-fund on the Valuation Day. The Management Company can, however, decide to determine the share value on the 24 and 31 December of a year without these determinations of value being calculations of the share value on a Valuation Day within the meaning of the above clause 1 of this point 4. Consequently, the shareholders may not demand the issue, redemption or exchange of shares on the basis of a net asset value determined on 24 December and/or 31 December of a year.
- 6. Insofar as information on the situation of the net assets of the company must be specified in the annual or semi-annual reports and/or other financial statistics pursuant to the applicable legislative provisions or in accordance with the conditions of the Articles of Association, the value of the assets of each sub-fund will be converted to the reference currency. The net sub-fund assets will be calculated according to the following principles:
  - a) Securities which are officially listed on a stock exchange are valuated at the last available market price. If a security is officially listed on more than one stock exchange, the last available listing on the stock exchange which represents the major market for this security shall apply.
    - The Management Company may stipulate for individual sub-funds that transferable securities, money market instruments, derivative financial instruments (derivatives) and other assets officially listed on a securities exchange are valued at the latest available closing price which provides a reliable valuation. Details on this can be found in the Annexes to the sales prospectus to the relevant sub-funds.
  - b) Securities not officially listed on a securities exchange but traded on a regulated market will be valued at a price that may not be lower than the bid price and not higher than the offered price at the time of valuation and which the Investment Company deems in good faith to be the best possible price at which the securities can be sold.

The Management Company may, on behalf of individual sub-funds, determine that transferable securities, money market instruments, derivative financial instruments (derivatives) and other assets which are not officially listed on a securities exchange (or whose stock exchange rate is not deemed representative, e.g. due to lack of liquidity) but which are traded on another regulated market, shall be valued at the latest available price there, and which the Management Company considers in good faith to be the best possible price at which the transferable securities, money market instruments, derivative financial instruments (derivatives) and other investments can be sold. Details on this can be found in the Annexes to the sales prospectus to the relevant sub-funds.

- c) OTC derivatives shall be evaluated on a daily basis using a method to be determined and validated by the Investment Company in good faith on the basis of the sale value that is likely attainable and using generally accepted valuation models which can be verified by an auditor.
- d) UCITS and UCIs are valued at the most recently established and available redemption price. In the event that the redemption of the investment units is suspended, or no redemption prices are established, these units together with all other assets will be valued at their appropriate market value, as determined in good faith by the Management Company and in accordance with generally accepted valuation standards approved by the auditors.
- e) If the prices in question are not fair market prices, if the financial instruments under (b) are not traded on a regulated market, and if no prices are set for financial instruments different from those listed under (a)-(d), then these financial instruments and the other legally permissible assets shall be valued at their current market value, which shall be established in good faith by the Management Company on the basis of generally accepted and verifiable valuation rules (e.g. suitable valuation models taking account of current market conditions).
- f) Liquid funds are valued at their nominal value plus interest.
- g) The market value of securities and other investments which are denominated in a currency other than the currency of the relevant sub-fund shall be converted into the currency of the sub-fund at the last mean rate of exchange (WM/Reuters fixing at 4 pm London time). Gains and losses from foreign exchange transactions will on each occasion be added or subtracted.
  - The Management Company may stipulate for individual sub-funds that the transferable securities, money market instruments, derivative financial instruments (derivatives) and other assets denominated in a currency other than that of the sub-fund shall be converted into the sub-fund currency at the exchange rate of the trading day. Profits and losses from foreign exchange transactions shall, on each occasion, be added or subtracted. Details on this can be found in the Annexes to the sales prospectus to the relevant sub-funds.
- 7. The net asset value per share is calculated separately for each sub-fund pursuant to the aforementioned criteria. However, if there are different share classes within a sub-fund, the net asset value per share will be calculated separately for each share class within this sub-fund pursuant to the aforementioned criteria. The composition and allocation of assets always occurs separately for each sub-fund.
  - Costs incurred for the establishment of the Investment Company and the initial issue of shares will be amortized over the first five financial years against the assets of the sub-funds existing at the time of establishment. The set-up costs and the aforementioned costs that are not solely attributable to a specific sub-fund shall be allocated to the respective sub-fund assets on a pro rata basis. Costs that are incurred as a result of the launching of additional sub-funds will be amortised over a period of a maximum of five financial years after launch to the detriment of the assets of the sub-fund to which these costs can be attributed.

The tables published in this report may, for arithmetical reasons, contain rounding differences which are higher or lower than a unit (currency, percentage, etc.).

#### 3.) TAXATION

#### Taxation of the Investment Company

The Company's assets are not subject to taxation on their income and profits in the Grand Duchy of Luxembourg. The Company's assets are only subject to the "taxe d'abonnement" currently amounting to 0.05% p.a. A reduced "taxe d'abonnement" of 0.01% p.a. is applied to (i) the sub-funds or share classes, the shares of which are issued exclusively to institutional shareholders within the meaning of Article 174 of the Law of 17 December 2010, (ii) sub-funds whose sole purpose is to invest in money market instruments, in time deposits with credit institutions or both. The "taxe d'abonnement" is payable quarterly, based on the Company's net assets reported at the end of each quarter. The amount of the "taxe d'abonnement" is specified for each sub-fund or share class in the relevant Annex to the Sales Prospectus. An exemption from the "taxe d'abonnement" applies, inter alia, to the extent that the fund assets are invested in other Luxembourg investment funds, which in turn are already subject to the "taxe d'abonnement".

Income received by the Fund (in particular interest and dividends) may be subject to withholding or investment tax in the countries in which the relevant sub-fund assets are invested. The Fund may also be taxed on realised or unrealised capital gains of its investments in the source country. Neither the Depositary nor the Management Company are obliged to collect tax certificates.

- Model adjustments and editorial changes.

#### Russia/Ukraine conflict:

As a result of the measures decided worldwide due to the invasion of Russian troops into Ukraine at the end of February 2022, European stock exchanges in particular recorded significant price losses. In the medium term, the financial markets and the global economy are facing a future characterised primarily by uncertainty. The effects on the assets of the Fund or its sub-fund resulting from the ongoing conflict in Ukraine cannot be anticipated. At the time of preparing this report, the Management Company is of the opinion that there are no indications that speak against the continuation of the Fund and its sub-funds, nor have there been any valuation or liquidity problems for the Fund. The Management Company has established appropriate monitoring measures and controls to assess the impact on the Fund and its sub-funds in a timely manner.

There were no further significant events during the reporting period.
