What is this product?

Type

- This product is a class of share of the Sub-Fund and denominated in EUR. The Fund Quantica UCITS Funds SICAV is an open ended investment company with a variable capital and qualifies as an Undertaking for Collective Investment in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Objectives

Investment objective

- The aim of the Sub-Fund is to achieve capital appreciation by gaining exposure to investments in accordance with a computer-based trading investment strategy designed by Quantica Capital AG (the "Investment Manager").

Investment policy

- The investments primarily include exchange traded futures and forward contracts on stock market indices, tradeable debt (bonds), interest rates, commodities and currencies. Futures contracts are agreements where one party agrees to buy or sell eligible assets in the future at a particular price within a fixed term. The Sub-Fund will make investments in transferable securities, including eligible structured transferable securities, as are required in order to give effect to the investment strategy.
- The strategy is globally diverse and follows a rules-based investment and risk process. It is price driven, meaning that price is the only selection criteria for inclusion in the strategy. The strategy's methodology is underpinned by four steps: (i) analysing market data to identify trends; (ii) investing according to the strength of a trend within certain risk parameters; (iii) optimising trade strategies; and (iv) continually assessing portfolio risk and portfolio performance.
- Derivatives may be used for investment and hedging purposes by increasing the Sub-Fund's exposure to certain investments (leverage) and to reduce exposure in respect of the assets (hedging). The average leverage level is expected to be 2500%.
- The Sub-Fund, which is calculated in US Dollars, may use hedging to try to reduce the effect of foreign exchange rate fluctuations where investments are denominated in currencies other than US Dollars.
- The Sub-Fund is actively managed with no reference to a benchmark.
- The Sub-Fund does not promote environmental or social characteristics in a way that meets the specific criteria contained in Article 8 of the Sustainable Financial Disclosure Regulation ("SFDR") or have sustainable investment as its objective in a way that meets the specific criteria contained in Article 9 of SFDR.

- Given the above objectives and the risk and reward profile of the product, the recommended holding period is 5 years.

Redemption and Dealing: This product is valued on each day which is a day on which banks are open for normal business in Luxembourg, London, Switzerland and New York and each clearing agent is open for business. Shares may be subscribed or redeemed on a daily basis no later than 3:00 p.m. (Luxembourg time) one Business Day prior to the relevant valuation day.

Distribution Policy: This product does not pay dividends. Income generated by the Sub-Fund is reinvested and included in the value of your share.

Intended investor

The Sub-Fund has been designed for investors who are looking for long term capital growth through exposure to alternative investment strategies. As the Sub-Fund may therefore employ sophisticated strategies (including the use of derivatives), it is intended only for knowledgeable and experienced investors who are able to understand and evaluate both the investment strategy and its inherent risks (such understanding and evaluation may be gained through advice from a professional advisor). In addition, investors must be able and willing to invest in a sub-fund with a high risk grading as further described in the prospectus under "Typology of Risk Profiles".

The class I2C-E is dedicated to institutional investors only.

The minimum investment is EUR 10,000.

Term

This product was incorporated for an undefined period. The manufacturer may not terminate it unilaterally. Only the board of directors of the Fund or a general meeting of shareholders may decide to terminate this product.

Practical information

Depositary: CACEIS Bank, Luxembourg Branch, 5, allée Scheffer L-2520 Luxembourg, Grand Duchy of Luxembourg

Further information: The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each sub-fund are segregated by law, meaning that the liabilities allocated to one sub-fund may not impact the other sub-fund. Shareholders are entitled to convert their shares in shares of another sub-fund/class of the fund, as more described in the prospectus.

Copies of the prospectus and of the last annual and semi-annual reports of the entire Fund as well as other practical information such as the latest price for the shares may be obtained free of charge, in English, from Alma Capital Investment Management or at www.fundsquare.net.

What are the risks and what could I get in return?

Risks

The product is classified in the category 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of Alma Capital Investment Management to pay you.

Not all risks affecting the Sub-Fund are adequately captured by the summary risk indicator.

This rating does not take into account other risk factors which should be considered before investing, including derivatives risk, leverage risk and commodity risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If the Fund is not able to pay you what is owed, you could lose your entire investment.

Beside the risks included in the risk indicator, other risks may affect the Fund performance. Please refer to the Fund prospectus, available free of charge at www.fundsquare.net.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because it is not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 31 March 2015 and 31 March 2020.

Moderate: this type of scenario occurred for an investment between 28 February 2018 and 28 February 2023.

Favourable: this type of scenario occurred for an investment between 31 October 2018 and 31 October 2023.

What happens if Alma Capital Investment Management S.A. is unable to pay out?

You are exposed to the risk that Alma Capital Investment Management S.A. might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment

periods. They are based on the following regulatory assumptions: (i) in the first year, you would get back the amount that you invested (0% annual return) and, for the other holding periods, the product performs as shown in the moderate scenario and (ii) € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	€ 275	€ 1,878
Annual cost impact*	2.8%	2.9%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.8% before costs and 4.9% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.00%. In case of conversion into another class or another sub-fund, no conversion fee is charged but you may be requested to bear the difference in subscription if higher.	up to € 0
Exit costs	0.00%.	up to € 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.20% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€ 120
Transaction costs	0.00% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€ 0
Incidental costs taken under specific conditions		
Performance fees	1.55% of the value of your investment per year. This is an estimate, calculated yearly and based on the average over the previous 5 years. The performance fee will be equal to 20% of the positive performance over the high water mark. The actual amount will vary depending on how well your investment performs.	€ 155

How long should I hold it and can I take money out early?

Recommended holding period ("RHP"): 5 years

The RHP has been defined by taking account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty prior to the end of the RHP or hold the investment longer. Redemptions of shares will be effected each valuation day provided that the redemption notice has been received no later than 3:00 p.m. (Luxembourg time) one (1) Business Day before the relevant valuation day, which is each Business Day. Applications received after that time will be considered for the following valuation day and processed on the next valuation day. Any cashing-in before the end of the recommended holding period may have a negative consequence on your investment.

How can I complain?

If you have any complaint about the product, please find the steps to be followed for lodging any complaint at www.almacapital.com/documentation/. You can also send your complaint at the registered office of the management company and/or directly to local distributors and/or paying agents of the relevant country of distribution or by e-mail to: compliance@almacapital.com. If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.
