What is this product?

Type

The Fund is an investment company incorporated as a société anonyme qualifying as a Société d'Investissement à Capital Variable. The Fund's value is dependent on the performance of the underlying assets and may go up as well as down. Any capital invested in the Fund may be at risk.

Objectives and Investment Policy

Investment Objective:

The Fund aims to provide long term capital growth and income by investing in a portfolio of "crossover" (that is, at the intersection of Investment Grade and Non-Investment Grade) securitised bonds, while promoting ESG characteristics.

The Fund promotes ESG characteristics within the meaning of Article 8 of SFDR. More information on HSBC Global Asset Management's responsible investing policies is available at www.assetmanagement.hsbc.com/about-us/responsible-investing/policies.

Investment Policy:

The Fund invests in a portfolio focused on the intersection (the "Crossover") between Investment Grade and Non-Investment Grade rated Securitised Credit. The Fund may also invest in other bonds instruments issued globally denominated in a range of currencies, including corporate bonds, securities issued by governments, government agencies and supranational bodies, and cash.

The Fund includes the identification and analysis of a company's ESG Credentials as an integral part of the investment decision making process. Please refer to the prospectus for further details. The Fund aims to invest in securities with a low and medium, HSBC proprietary, securitised credit ESG risk assessment rating.

Securitised Credit comprise Asset Backed Securities, Commercial Mortgage Backed Securities, Collateralised Loan Obligations and Residential Mortgage Backed Securities.

The Fund's investment in Securitised Credit will focus on those rated between BBB+ and BB-, or equivalent, as assigned by independent rating agencies such as Fitch, Moody's or Standard & Poor's.

If Fund receives a large subscription it may temporarily invest in money market instruments and/or short-dated bonds issued by governments in developed markets.

The Fund may invest up to 10% of its assets in Chinese onshore bonds through the China Interbank Bond Market (CIBM), up to 10% in other funds and may invest in bank deposits, money market instruments for treasury purposes.

The Fund's primary currency exposure is to US Dollar (USD) denominated bonds. Non-USD exposures will be hedged into USD.

The Fund may use derivatives and use for, managing interest, credit risks, currency positioning and efficient portfolio management purposes.

- ◆ The Fund may enter into securities lending transactions for up to 29% of its assets. However, this is not expected to exceed 25%.
- ◆ Currency hedging is carried out in respect of the share class. The aim is to protect against exchange rate fluctuations between the share class currency JPY and the base currency of the Fund USD.
- ◆ Income is reinvested.
- ◆ You may sell your investment weekly by submitting an application to the Administrator before the Dealing Day.
- ◆ The Fund is actively managed and is not constrained by a benchmark.

Intended Retail Investor

The Fund may be suitable for investors with a long term investment horizon. The Fund is intended for more experienced investors aiming to asset classes that have the potential to reduce liquidity and increase the volatility of return, or investors aiming for very active investment strategies which may result in a concentrated portfolio. The Fund may be suitable for investors looking for an investment to diversify an existing core portfolio.

An investment in the Fund is only suitable for investors who are capable of evaluating the risks and merits of such an investment, and who have sufficient resources to bear any loss as the Fund is not guaranteed and they may receive back less than the amount invested. The Fund is designed for use as part of a diversified investment portfolio. Prospective investors should consult with their financial advisor before making an investment.

Term:

The Fund does not have a maturity date.

The PRIIP Manufacturer cannot terminate the Fund unilaterally. The Board of Directors may furthermore decide to liquidate the Fund in certain circumstances set out in the prospectus and articles of incorporation of the Fund.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended Holding Period: 5 Years		If you exit after 1 year	If you exit after 5 years
Investment of JPY 100,000			
Minimum	The Fund is not covered by an investor compensation or guarantee scheme, you may lose some or all of the amount invested.

	Average Return each year	13.84 %	2.26 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between March 2015 and March 2020. The moderate scenario occurred for an investment between July 2015 and July 2020. The favourable scenario occurred for an investment between February 2016 and February 2021. A suitable benchmark was used where the Fund had insufficient history.

What happens if HSBC Investment Funds (Luxembourg) S.A. is unable to pay out?

The Fund's ability to pay out would not be affected by the default of HSBC Investment Funds (Luxembourg) S.A.. The Fund's assets are kept safe by the Depositary Bank and are segregated from the assets of other Funds. This means that the holdings of one Fund are kept separate from the holdings of the other Funds and your investment in the Fund cannot be used to pay the liabilities of any other Fund. There is a potential liability risk for the Depositary if the assets of the Fund are lost. The Depositary is liable in case of its negligent or intentional failure to properly fulfil its obligations pursuant to the 2010 Law. In the event of a bankruptcy or insolvency of the Depositary Bank or other service provider, investors could experience delays (for example, delays in the processing of subscriptions, conversions and redemption of shares) or other disruptions and there may be a risk of default. The Fund is not covered by an investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. For instance, if you invest in this product via a life insurer or capitalisation contract, this document does not take into account the fees of this contract.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- ◆ In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- ◆ JPY 100,000 is invested.

Recommended Holding Period: 5 Years	If you exit after 1 year	If you exit after 5 years
Investment of JPY 100,000		
Total Costs	3,878 JPY	7,051 JPY
Annual cost impact % *	3.9%	1.4% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.09% before costs and -0.69% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount. These figures include the maximum distribution fee that the person selling you the product may charge up to 3.10%. This person will inform you of the actual distribution fee.
