➤ What is this product?

Type: This product is a SICAV.

Term: No fixed term.

Objectives: The Fund aims to offer shareholders a portfolio of equities considered to be stable, of high quality and demonstrating growth prospects.

The Fund may use US common stocks (securities issued by companies whose registered office is located in the United States or whose main economic activities are based in the United States or which hold, as holding companies, prominent participations in companies based in the United States) which shall at all times represent at least 2/3 of the Fund's total assets. The Fund shall invest principally in securities that are undervalued in relation to their potential, in order to generate profits. Derivatives shall be used solely for the purpose of currency hedging. The Fund applies a strict selection criteria to identify businesses of quality. These criteria are, among others, market share, unit growth, barriers to entry to the market that the business can impose on the sector in question, a track record of growth and profitability, production costs in comparison to the relevant business sector, government regulations, use of debt and quality of management. The Company investments may be subject to sustainability risks. Sustainability risks are environmental, social or governance events or conditions that, if they occur, could cause an actual or a potential material negative impact on the value of the Company's investments.

The investment manager may also lend the Fund's portfolio securities to eligible third parties in order to generate additional income.

Dividends that the Fund receives are automatically reinvested in the Fund and are thus part of the Fund's value. No dividends will be distributed for this class.

Subscriptions and redemptions of the Fund's shares can be made on each day which is a normal bank business day in Luxembourg and also a normal trading day of the New York Stock Exchange in the United States.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The S&P 500 Total Return Index is used for performance comparison purposes only. The Fund is actively managed and although a significant part of the investments of the Fund could be components of the benchmark, the Investment Manager is free to choose how the Fund is managed without any restriction and the Fund's portfolio may therefore deviate significantly from the abovementioned benchmark.

Intended retail investor: This product is intended for investors who are prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return, and who plan to stay invested for at least 5 years. It is designed to form part of a portfolio of investments.

Depositary: The Fund's assets are held through its Depositary, which is J.P. Morgan SE - Luxembourg Branch.

Distribution type: The product is accumulating.

➤ What are the risks and what could I get in return?

Risk indicator

Lower risk

Higher risk

1 2 3 4 5 6 7

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance.

Example investment: EUR 10,000		1 year	5 years

➤ What happens if Carne Global Fund Managers (Luxembourg) S.A. is unable to pay out?

You may face a financial loss should the manufacturer or depository/custodian, JP Morgan SE, Luxembourg Branch, default on their obligations. There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

➤ What are the costs?

Costs over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

Example Investment: EUR 10,000	If you cash in after 1 year	If you cash in after 5 years
Total costs	EUR 451	EUR 1,990
Annual cost impact(*)	4.51%	2.22%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 16.80% before costs and 14.58% after costs.

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

The table shows the impact on return per year		If you exit after 1 year	
One-off costs upon entry or exit	Entry costs	Up to 3.00% This is the most you will be charged.	Up to EUR 300
	Exit costs	We do not charge an exit fee for this product.	EUR 0
Ongoing costs taken each year	Management fees and other administrative or operating costs	1.49% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 149
	Transaction costs	0.02% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 2
Incidental costs taken under specific conditions	Performance fees and carried interest	There is no performance fee for this product.	EUR 0

➤ How long should I hold it and can I take my money out early?

The recommended minimum holding period: 5 years.

The Fund is designed to be held over the long term and we recommend that you hold this investment for at least 5 years.

You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the sub-fund on any business day (as set out in the Fund's prospectus).

If you cash in at an early stage this will increase the risk of lower investment returns or a loss.

➤ How can I complain?
