## What is this product?

**Type:** Shares of a Sub-Fund of LFS, a SICAV.

**Term:** The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

**Objectives:** The Subfund aims to achieve medium to long-term capital growth through the investments in corporate bonds.

**There can be no guarantee that the Subfund's investment objective will be achieved.**

The Subfund's performance is described in the annual reports as well as in the "Past Performance" section of <https://www.amundi.lu>. **It must be noted in this regard that historical performance data cannot predict future performance. Therefore, the future performance of the Fund may be less or more favourable than its past performance.**

**Intended Retail Investor:** This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds

seeking to increase the value of their investment and to receive income while preserving some or all of the capital invested over the recommended holding period and who are prepared to take on a high level of risk to their original capital.

**Redemption and Dealing:** Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the LFS prospectus.

**Distribution Policy:** As this is a distributing share class, investment income is distributed.

**Depository:** BNP PARIBAS LUXEMBOURG.

## What are the risks and what could I get in return?

### RISK INDICATOR

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the LFS prospectus.

### PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Sub-Fund over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

**What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

## What happens if Amundi Luxembourg S.A. is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of LFS. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.
