Notes to the semi-annual report as at 31 March 2023 (Appendix)

1.) Introduction

Flossbach von Storch II (the “fund”) is an investment fund and has been created as a FCP (Fonds Commun de Placement) in the form of an umbrella fund with several sub-funds. The fund is governed by the provisions of Part I of the Law of 17 December 2010, as amended, relating to Undertakings for Collective Investment (“Law of 2010”). The term of the umbrella fund is unlimited. The term of individual sub-funds is however limited; this information can be found in the relevant annex specific to the sub-fund in the sales prospectus. The fund’s management regulations first came into force on 3 October 2017 and were published on the same date in the “Recueil électronique des sociétés et associations” (“RESA”), the information platform of the Luxembourg Trade and Companies Register. The latest amendment to the fund’s management regulations was published in the RESA platform on 30 December 2022.

The respective sub-funds are Feeder-UCITS within the meaning of Article 77 of the Law of 17 December 2010. The objective of the investment policy of the sub-fund Flossbach von Storch II - Defensive Allocation 2023, is to reflect as far as possible as a Feeder-UCITS the performance of the Flossbach von Storch - Multi Asset - Defensive (QT unit class), a legally dependent fund in accordance with Chapter 2 of the Law of 17 December 2010 in the form of an umbrella fund. The objective of the investment policy of the subfund Flossbach von Storch II - Rentas 2025, is to reflect as far as possible as a Feeder-UCITS the performance of the Flossbach von Storch - Bond Opportunities (QT unit class) a legally dependent fund in accordance with Chapter 2 of the Law of 17 December 2010 in the form of an umbrella fund. The objective of the investment policy of the subfund Flossbach von Storch II - Equilibrio 2026, is to reflect as far as possible as a Feeder-UCITS the performance of the Flossbach von Storch - Multi Asset - Balanced (QT unit class) a legally dependent fund in accordance with Chapter 2 of the Law of 17 December 2010 in the form of an umbrella fund.

The fund is managed by Flossbach von Storch Invest S.A. (the “management company”), a public limited company under the laws of Luxembourg with its registered office at 2, rue Jean Monnet, L-2180 Luxembourg. It was incorporated for an indefinite period on 13 September 2012. Its articles of association were published in Mémorial on 5 October 2012. The most recent amendment to the articles of association came into force on 15 November 2019 and was published in RESA. The management company is registered in the Trade and Companies Register of Luxembourg under registration number R.C.S. Luxembourg B 171513. The current version of the sales prospectus with integrated management regulations, the most recent annual and semi-annual reports and the key information documents of the individual Master-UCITS can be downloaded from the website of the management company (www.fvsinvest.lu).

2.) Key accounting and valuation principles

This report has been prepared under the responsibility of the Executive Board of the management company in conformity with the legal provisions and regulations prevailing in Luxembourg for the preparation and presentation of reports.

1. The net assets of the fund are denominated in euros (EUR) (the “reference currency”).

Notes to the semi-annual report as at 31 March 2023 (Appendix) (continued)

2. The value of a unit (“unit value”) is denominated in the currency laid down in the relevant annex to the sales prospectus (“sub-fund currency”) unless a currency other than the sub-fund currency has been specified in the relevant annex to the sales prospectus in relation to any other unit classes which may exist (“unit class currency”).
3. The unit value is calculated by the management company or a third party commissioned for this purpose by the management company, under the supervision of the depositary, on each banking day in Luxembourg with the exception of 24 and 31 December of each year (“valuation day”) and rounded up to two decimal places. The management company may decide on a different arrangement for individual sub-funds, in which case it should be taken into account that the unit value should be calculated at least twice a month.

However, the management company may decide to calculate the unit value on 24 and 31 December of a year without the calculation representing the unit value on a valuation day as defined by the previous sentence 1 of this clause 3. Consequently, investors cannot demand the issue, redemption and/or exchange of units on the basis of a unit value calculated on 24 and/or 31 December of a given year.

4. The unit value is calculated on each valuation day based on the value of the assets of the respective sub-fund minus the liabilities of the respective sub-fund (“net sub-fund assets”) and divided by the number of units in circulation on the valuation day.
5. Insofar as information on the situation of the overall net assets of the fund must be provided in the annual or semi-annual reports, or in other financial statistics in accordance with applicable legislative provisions or in accordance with the fund management regulations, the value of the assets of each sub-fund will be translated into the reference currency. The respective sub-fund’s net assets are calculated in accordance with the following principles:
 - a) Securities, money market instruments, derivative financial instruments (derivatives) and other investments officially listed on a stock exchange are valued at the latest trade price which provides a reliable valuation on the trading day preceding the valuation day. If securities, money market instruments, derivative financial instruments or other assets are officially listed on more than one securities exchange, the price registered on the exchange with the greatest liquidity shall be authoritative in this respect.
 - b) Securities, money market instruments, derivative financial instruments (derivatives) and other investments not officially listed on a securities exchange (or whose market price is not deemed representative, e.g. due to lack of liquidity) but that are traded on a regulated market, shall be valued at a price that is not lower than the bid price and not higher than the offer price of the trading day preceding the valuation day and that the management company considers, to the best of its knowledge, to be the best possible price at which the securities, money market instruments, derivative financial instruments (derivatives) and other investments can be sold.

The management company may specify for individual sub-funds that securities, money market instruments, derivative financial instruments (derivatives) and other investments that are not officially listed on a securities exchange (or whose market price is not deemed representative, e. g.

Notes to the semi-annual report as at 31 March 2023 (Appendix) (continued)

due to lack of liquidity) but that are traded on a regulated market shall be valued at the last price available on this market that the management company considers, to the best of its knowledge, to be the best possible price at which the securities, money market instruments, derivative financial instruments (derivatives) and other investments can be sold. Details on this are contained in the annex of the sales prospectus to the sub-fund in question.

- c) OTC derivatives are valued daily on a verifiable basis determined by the management company.
- d) Units in UCI/UCITS are generally valued at the last redemption price fixed before the valuation day or at the latest available price that affords a reliable valuation. If the redemption of investment units has been suspended or if no redemption price has been set, these units and all other assets are valued at their respective market values as determined in good faith by the management company in line with generally accepted and verifiable valuation principles. If the fund is structured as a Feeder-UCITS, the units of the Master-UCITS are valued at the redemption price of the Master-UCITS on the valuation date.
- e) If the respective prices are not market prices, if the financial instruments listed under b) are not traded on a regulated market and if no prices have been set for financial instruments other than those listed under subsections a) to d), these financial instruments and the other legally permissible assets will be valued at their market prices as determined by the management company, to the best of its knowledge, in line with generally accepted, verifiable valuation rules (e.g. suitable valuation models taking account of current market conditions).
- f) Liquid funds are valued at their nominal value plus interest.
- g) Amounts due, for example, deferred interest claims and liabilities, shall in principle be rated at the nominal value.
- h) The market value of securities, money market instruments, derivative financial instruments (derivatives) and other assets which are denominated in a currency other than that of the relevant sub-fund shall be converted into the currency of the sub-fund at the exchange rate determined using WM/Reuters fixing at 17:00 CET/CEST on the trading day preceding the valuation day. Profits and losses from currency transactions will be added or deducted as appropriate.

The management company may stipulate for individual sub-funds that the market value of securities, money market instruments, derivatives and other investments denominated in a currency other than the relevant sub-fund currency will be converted into the relevant sub-fund currency at the exchange rate prevailing on the valuation date. Profits and losses from currency transactions will be added or deducted as appropriate. Details on this are contained in the annex of the sales prospectus to the sub-fund in question.

The respective sub-fund's net assets are reduced by any distributions paid, where applicable, to investors in the sub-fund concerned.

6. The resulting unit value is calculated for each sub-fund separately on the basis of the criteria provided above. However, if there are different unit classes within a sub-fund, the unit value will be calculated

Notes to the semi-annual report as at 31 March 2023 (Appendix) (continued)

separately for each unit class within the relevant sub-fund according to the above criteria. The composition and allocation of assets always occurs separately for each sub-fund.

7. Costs incurred for the establishment of the fund and the initial issue of units will be amortised over the first five financial years to the detriment of the assets in the sub-funds that existed on establishment. The formation expenses and the above-mentioned costs, which do not relate solely to the assets of a specific sub-fund, are split between the relevant sub-fund assets on a pro rata basis by the Management Company. Expenses which are incurred in connection with the issue of other sub-funds are charged to the relevant sub-fund assets to which they are attributable and depreciated within a period of a maximum of five years after the sub-funds have been issued.

For computational reasons, the tables included in this semi-annual report may contain rounding differences of up to plus or minus one unit (of currency, per cent, etc.).

3.) Taxation

Taxation of the fund

From a Luxembourg tax perspective, the fund has no legal personality as an investment fund and is tax transparent. The fund is not subject to tax on income or profits from its assets in the Grand Duchy of Luxembourg. The assets of the fund are only subject to the so-called "taxe d'abonnement" in the Grand Duchy of Luxembourg, at a current rate of 0.05% p.a. A reduced "taxe d'abonnement" of 0.01% p.a. is applicable to (i) sub-funds or unit classes whose units are only issued to institutional investors within the meaning of Article 174 of the Law of 17 December 2010, (ii) sub-funds whose only purpose is investing in money market instruments, in term money at financial institutions, or both. The "taxe d'abonnement" is payable quarterly on the sub-fund's net assets reported at the end of each quarter. The amount of the "taxe d'abonnement" is specified for each sub-fund or unit class in Annex 2 to the Sales Prospectus. An exemption from the "taxe d'abonnement" applies to fund assets that are invested in other Luxembourg investment funds that are themselves already subject to the taxe d'abonnement.

Income received from the fund (in particular interest and dividends) could be subject to withholding tax or investment tax in the countries where the fund assets are invested. The fund could also be subject to tax on realised or unrealised capital gains in the source country. Fund distributions, liquidation gains and disposal gains are not subject to withholding tax in the Grand Duchy of Luxembourg. Neither the Depositary nor the Management Company are obliged to obtain tax certificates.

Investors and potential investors are advised to inform themselves about the laws and regulations that apply to taxation of the fund assets and the subscription, purchase, possession, redemption, exchange and transfer of units and to seek advice from outside third parties, in particular from a tax advisor.

Taxation of earnings from fund units held by the investor

Investors that are or were not resident for tax purposes in the Grand Duchy of Luxembourg and do not maintain a business establishment or have a permanent representative there are not subject to Luxembourg income tax on income or disposal gains from their units in the fund.

Natural persons who are resident for tax purposes in the Grand Duchy of Luxembourg are subject to the progressive Luxembourg income tax.

Notes to the semi-annual report as at 31 March 2023 (Appendix) (continued)

Companies who are resident for tax purposes in the Grand Duchy of Luxembourg are subject to corporate income tax on the income from the fund units.

Investors and potential investors are advised to inform themselves about the laws and regulations that apply to taxation of the fund assets and the subscription, purchase, possession, redemption, exchange and transfer of units and to seek advice from outside third parties, in particular from a tax advisor.

4.) Use of income

The management company may distribute the income generated by the fund to investors or reinvest such income in the fund. Information about this can be found in the relevant annex to the sales prospectus for the individual sub-fund.

Income is utilised in accordance with Article 12 of the management regulations. The timing, amount and composition of the distributions are determined by the management company in the interests of the investors.

5.) Information on fees and expenses

Details of management and depositary fees can be found in the current sales prospectus.

6.) Fund current accounts (cash at banks and/or liabilities to banks)

All of the fund's current accounts (including those in different currencies) that actually and legally form only part of a single current account are designated as a single current account in connection with net fund assets. Current accounts in foreign currencies, if applicable, are converted into the currency of the fund. Interest is calculated on the basis of the terms of the relevant individual account.

7.) Events in the reporting period

With effect from 30 December 2022, the sales prospectus has been revised and updated due to Regulation (EU) 2022/1288.

There were no other significant changes and no other significant events during the reporting period.

8.) Events after the reporting period

There were no other significant changes and no other significant events after the reporting period.
