## 2 - Significant accounting policies

### 2.1 Presentation of financial statements

The financial statements are prepared in accordance with Luxembourg regulations relating to Undertakings for Collective Investment. The financial statements of the Fund have been prepared on a going concern basis.

### 2.2 Valuation of investment in securities

2.2.1 Securities listed on a recognised stock exchange or dealt in on any other regulated market that operates regularly, is recognised and is open to the public, are valued at their last available closing prices, or, in the event that there should be several such markets, on the basis of their last available closing prices on the main market for the relevant security.

2.2.2 In the event that the last available closing price does not, in the opinion of the Board of Directors, truly reflect the fair market value of such securities, the value is defined by the Board of Directors based on the reasonably foreseeable sales proceeds determined prudently and in good faith.

2.2.3 Securities not listed or traded on a stock exchange or not dealt in on another regulated market are valued on the basis of the probable sales proceeds determined prudently and in good faith by the Board of Directors.

2.2.4 Securities not listed or traded on a stock exchange or not dealt in on another regulated market are valued at their face value with interest accrued.

2.2.5 In case of short term instruments which have a maturity of less than 90 days, the value of the instrument based on the net acquisition cost, is gradually adjusted to the repurchase price thereof. In the event of the material changes in market conditions, the valuation basis of the investment is adjusted to the new market yields.

2.2.6 Investments in open-ended UCIs are valued on the basis of the last available net asset value of the units or shares of such UCIs.

2.2.7 All other securities and other assets are valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors.

### 2.3 Valuation of Futures

The value of financial derivative instruments traded on exchanges or on other Regulated Markets shall be based upon the last available settlement prices of these financial derivative instruments on exchanges and Regulated Markets on which the

## Notes to the financial statements (continued)

particular financial derivative instruments are traded by the Fund; provided that if financial derivative instruments could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the value of such financial derivative instruments shall be such value as the Directors may deem fair and reasonable. The financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market will be valued in a reliable and verifiable manner on a daily basis and verified by a competent professional appointed by the Fund.

### 2.4 Valuation of total return swaps

Swaps linked to indexes or financial instruments are valued at their market value, net present value of future cash flows, based on the applicable index or financial instrument, in accordance with the procedure laid down by the Board of Directors.

### 2.5 Net realised gains or losses on performance swaps

The realised on swaps in the Statement of Operations and Changes in Net Assets includes the balances on swaps paid or received by the Fund in the context of the increase / decrease of the composition of the securities basket, or paid / received in the context of subscriptions / redemptions at the Fund's level.

### 2.6 Net realised gains or losses resulting from investments

The realised gains or losses resulting from the sales of investments are calculated on an average cost basis.

### 2.7 Foreign exchange translation

The accounts of each Sub-Fund are maintained in the reference currency of the Sub-Fund and the financial statements are expressed in that currency.

The acquisition cost of securities expressed in a currency other than the reference currency is translated into the reference currency at the exchange rates prevailing on the date of purchase.

Income and expenses expressed in other currencies than the reference currency are converted at exchange rates ruling at the transaction date.

Assets and liabilities expressed in other currencies than the reference currency are converted at exchange rates ruling at the period end.

The realised or unrealised gains and losses on foreign exchange are recognised in the Statement of Operations and Changes in Net Assets in determining the increase or decrease in net assets.

### 2.8 Forward foreign exchange contracts

Net change in unrealised profits and losses on forward foreign exchange contracts are valued on the basis of forward exchange rates prevailing at the relevant valuation date and are included in the Statement of Operations and Changes in Net Assets.

Forward foreign exchange contracts are disclosed in the Statement of Net Assets under the item "Net unrealised profit/loss on forward foreign exchange contracts".

Net change in unrealised profits and losses and net realised gain/loss are recorded in the Statement of Operations and Changes in Net Assets.

### 2.9 Combined financial statements

The combined Statement of Net Assets and combined Statement of Operations and Changes in Net Assets represent the total of the Statements of Net Assets Assets and Statements of Operations and Changes in Net Assets of the individual Sub-Funds, converted in Euro, based on exchange rates applicable at period-end.

### 2.10 Income

Dividends are credited to income on the date upon which the relevant securities are first listed as ex-dividend. Interest income is accrued on a daily basis.

## Notes to the financial statements (continued)

For the index Sub-Funds which replicate the composition of a financial index, the dividend payments are included in the swap performance.

### **2.11 Formation expenses**

The formation expenses of the Fund are borne by the Management Company.

### **2.12 Other income**

Amounts of other income in the Statement of Operations and Changes in Net Assets include mainly fees on redemptions/subscriptions.

## **3 - Management fees**

### 5 - Taxation

The amended Law of December 17, 2010 lays down that Sub-Funds of umbrella UCI established under the Law of December 20, 2002 are exempted of the *taxe d'abonnement* if they comply with following conditions stated in the article 175 e):

- whose securities are listed or dealt in on a stock exchange or another market which is regulated, operates regularly and is recognised and open to the public;
- whose exclusive object is to replicate the performance of one or several indices.

Considering that all classes of shares of all Sub-Funds of the Fund described in the Prospectus comply with the conditions required by the article 175 e) of the amended Law of December 17, 2010, the Board of Directors decided, by a Circular Resolution dated December 31, 2010, that all Sub-Funds and their classes of shares are exempted of the *taxe d'abonnement* as from January 1, 2011.

The Fund is not liable to any Luxembourg tax other than a once-and-for-all tax of EUR 1250 that was paid upon incorporation.

Investment income from dividends and interest received by the Fund may be subject to withholding taxes at varying rates. Such withholding taxes are usually not recoverable.

### 6 - Total return swap agreements

The total return swaps entered into by the Sub-Funds are governed by the ISDA Master Agreements (the "Master Agreement") signed by Amundi Asset Management on behalf of the Sub-Funds with Barclays Bank Ireland PLC, BNP Paribas, BOFA Securities Europe SA, Goldman Sachs International, Morgan Stanley SE and Société Générale (the "OTC Counterparties").

The terms and conditions of the swap transactions are detailed for each swap transaction in appendices to this Master Agreement.

Under the Master Agreement, the Sub-Fund pays to the OTC Counterparty an amount reflecting the performance of the basket of securities (including income received held by the Sub-Fund, and receives an amount reflecting the performance of an index (see below the index for each Sub-Fund).

The performance difference between the two legs is adjusted by (i) the difference of repo rate between the basket of securities held by the Sub-Fund and the index components, (ii) the difference between the index components dividend level in the index methodology and their market price, and (iii) pricing parameters linked to the index replication.

The market value of those swaps, used only for index replication purpose are booked in the caption "Swap at market value" of the Statement of Net Assets.

Counterparty's countries are listed following the ISO 3166-1 standard.

Lines captioned "basket of securities" in the tables below should be read in accordance with the swap details presented per Sub-fund and do not have to be considered as swap positions.

As at June 30, 2023, no collateral was received or granted by the collective investment undertaking as part of Total Return Swaps.
