CT (Lux) SDG Engagement Global Equity XP Acc EUR Portfolio Hedged

(ISIN LU1917706175), a Fund of Columbia Threadneedle (Lux) III.
The independent Management Company for the Fund is Carne Global Fund Managers (Luxembourg) S.A.

Objectives and investment policy

The objective is to achieve long term capital growth and support sustainable development.

The Fund seeks to achieve this by investing in a diversified spread of equities (ordinary shares in companies) and equity related securities such as warrants (the right to purchase a security, at a specific price within a specific time frame) of small and mid capitalisation companies, which may be anywhere in the world, including emerging markets, and in any industry or sector. The Fund will hold a minimum of 51% in equities listed or traded on a recognised Stock Exchange.

The Fund will invest in companies identified through reference to the seventeen United Nations Sustainable Development Goals (SDGs), which address issues including poverty, inequality, climate change, environmental degradation, prosperity, peace and justice. Further information on the SDGs can be found at <https://sustainabledevelopment.un.org>.

The Fund is actively managed. The Manager believes that an appropriate comparator benchmark for reviewing fund performance is the MSCI ACWI SMID Cap NR Index, given the investment policy of the Fund and the approach taken by the manager. The Fund is not constrained by this benchmark and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition.

The Fund may enter into financial futures contracts (including equity index, interest rate and currency futures contracts), if in the opinion of the Investment Manager, such contracts will protect the value of the Fund's assets from adverse movements in equity markets, interest rates or currency exchange rates. Such investments will only be used for hedging purposes or efficient portfolio management.

Any income earned by this share class will be reinvested back into the share class to help boost the value of a share.

There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 5 years.

You may withdraw your investment on demand during any working day in Luxembourg. Your withdrawal instruction must be received before 12.00 central European time in order for your investment to be withdrawn the same day. Proceeds will normally be paid to you three business days later.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Historical data may not be a reliable indicator of the Fund's future risk profile thus the risk category shown is not guaranteed and may change over time. The lowest category does not mean 'risk free'.

The given rank reflects the effect of the Fund investing mainly in equities. Equities generally provide higher rewards and higher risk.

The indicator may not necessarily take into account the following risks:

Market Risk: the value of assets held by the Fund may go down as well as up. There can be no assurances that the investment objectives of the Fund will be achieved.

Smaller Companies Risk: smaller companies carry a higher degree of risk and their value can be more sensitive to market movement.

Restricted Diversification: investments are concentrated in companies which are focused in a specified number of areas. These investments are limited to a narrower segment of global stock markets and this may mean the Fund is more sensitive to price swings than a fund that is not focused on the SDGs.

Currency Risk: your investment may be adversely affected by changes in currency exchange rates.

Counterparty Risk: to gain greater income the Fund may deposit cash with various approved Counterparties. Return of the cash is dependent upon the continued solvency of the Counterparty.

Warrant Risk: small movements in the price of the asset to which the warrant relates may result in a disproportionately large movement, up or down, in the price of the warrant.
