Class R Shares, USD. ISIN: LU2041880175, a Fund of William Blair SICAV

This Fund is managed by William Blair Investment Management LLC

The independent Management Company of the Fund is FundRock Management Company S.A.

This Class represents other Class R share classes: R, EUR (LU2041880258), R, GBP (LU2041880332), R¹, GBP (LU2041880506), R, SEK (LU2195502864), R, NOK (LU2195502948).

Objectives and investment policy

The aim of the Fund is to provide capital growth by primarily investing, directly or indirectly (including through the Shanghai – Hong Kong and Shenzhen – Hong Kong Stock Connect programmes (“**Stock Connect**”) and the Investment Manager’s Qualified Foreign Institutional Investor (QFII) license) in the People’s Republic of China, including class A-Shares of companies listed on the Shanghai and Shenzhen Stock Exchanges (“**China A-Shares**”).

The Investment Manager will choose well-managed companies of all sizes which it believes to have above-average growth, profitability and quality characteristics. The Fund is actively managed within its objective and is not constrained by a benchmark.

The Fund may invest in China A-Shares through Stock Connect, which is a programme developed for the purpose of mutual stock market access between Hong Kong and China.

Any income generated by the Fund is reinvested to grow the value of your investment.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

You can buy and sell shares in the Fund on a daily basis on any full working day in Luxembourg when the New York Stock Exchange, commercial banks in China and Hong Kong, and Stock Connect is open for trading. Further information on the Fund’s investment objectives and policy are detailed in the prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund’s ranking on the Risk and Reward Indicator.

Typically lower rewards, lower risk ← → Typically higher rewards, higher risk

- This Fund is categorized as a 6 because funds of this type have historically experienced high rises and falls in value. However, even the lowest category does not mean “risk free”. The risk category shown above is not guaranteed and may shift over time. Historical data may not be a reliable indication for the future.
- Currency exchange rate fluctuations may have a positive or negative impact on the value of your investment.
- Emerging markets risk: Emerging markets or less developed countries may face more political, economic or structural challenges than developed countries. This may mean your money is at greater risk.
- By focusing its investments in China, the Fund will have greater exposure to the market, political and economic risks of that country than if it was more diversified across a number of countries.
- The Fund may invest directly or indirectly in Chinese domestic securities markets through various channels, including Stock Connect, which may be subject to additional risks, including regulatory, liquidity, operational, clearing, settlement, market suspension, custody and quota limitation risks.
- Investment in China A-Shares may also entail additional risks, such as risks linked to the ownership of shares.
- All the risks currently identified as being applicable to the Fund are detailed in the prospectus.
