What is this product?

TYPE OF PRODUCT

The product is a sub-fund of DNB Fund (the "Fund"), an Undertaking for Collective Investment in Transferable Securities (UCITS) under the laws of the Grand-Duchy of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration and liquidation must be decided upon by the board of directors.

OBJECTIVES

The Sub-Fund aims to achieve a maximum return on investment over the long term without undue risk. The Sub-Fund invests mainly in small and medium capitalization companies in Asia ex-Japan, with a focus on mid cap equities. The Sub-Fund invests in equities at least 80% of its net assets. Investments in other UCITS(s) or UCI(s), if any, will never exceed 10% of the net assets of the Sub-Fund.

Derivatives: The Sub-Fund may engage in forward foreign currency exchange contracts in order to hedge the assets of the Sub-Fund against currency fluctuations.

Benchmark: The Sub-Fund follows an actively managed strategy. The benchmark is MSCI AC Asia ex Japan Mid Cap Index Net. It has been included as a point of reference against which the performance of the Sub-Fund may be compared. It can be used as a pool from which to select the investments, but the Sub-Fund does not aim to systematically replicate its composition.

ESG information: The Sub-Fund promotes, among other characteristics, environmental or social characteristics, and the companies in which the investments are made follow good governance practices in accordance with article 8 of SFDR. The Sub-Fund does not have a sustainable investment objective in accordance with article 9 of SFDR. Please refer to the Prospectus for more information.

Dividend policy: No dividends are intended to be distributed. Any income derived from the portfolio is reinvested.

INTENDED RETAIL INVESTOR

Investors must have experience with volatile products and should be aware that the value of the Sub-Fund may fall as well as rise and the invested capital may not be fully repaid. Investors must be able to accept significant temporary losses. The Sub-Fund is designed for the investment objective of building up capital with a Recommended Holding Period of 7 years.

OTHER INFORMATION

Depositary: Bank Pictet & Cie (Europe) AG, succursale de Luxembourg.

Asset segregation: There is segregated liability between sub-funds of DNB Fund, meaning that the assets of a sub-fund will not be available to meet a claim of a creditor, or another third party made against another sub-fund.

Dealing: Investors may redeem shares on demand, on a daily basis. Please see the Prospectus for details.

Switching: Investors may switch between share classes or sub-funds of the Fund. Please see the Prospectus for details.

Additional information: More detailed information on the Fund, such as the prospectus, other classes, the key information, the latest Net Asset Value, the articles of incorporation as well as the latest annual and semi-annual report, can be obtained free of charge, in English, from the Administrative Agent, the distributors, the Management Company or online at www.fundsquare.net.

This key information document describes the Class of one sub-fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 7 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 12 years. Markets could develop very differently in the future.

Recommended holding period: Example investment		7 years NOK 100,000		
		If you exit after 1 year	If you exit after 7 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	NOK 60,800	NOK 20,000	
	Average return each year	-39.2%	-20.6%	
Unfavourable scenario	What you might get back after costs	NOK 74,600	NOK 96,200	This type of scenario occurred for an investment between June 2021 and December 2024.
	Average return each year	-25.4%	-0.6%	
Moderate scenario	What you might get back after costs	NOK 106,500	NOK 147,100	This type of scenario occurred for an investment between August 2015 and August 2022.
	Average return each year	6.5%	5.7%	
Favourable scenario	What you might get back after costs	NOK 171,200	NOK 216,600	This type of scenario occurred for an investment between April 2014 and April 2021.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depositary, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depositary's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depositary will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- NOK 100,000 is invested.

Investment of NOK 100,000	If you exit after 1 year	If you exit after 7 years
Total costs	NOK 1,456	NOK 14,794
Annual cost impact (*)	1.5%	1.5%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.2% before costs and 5.7% after costs.
