2 PRINCIPAL ACCOUNTING CONVENTIONS

PRESENTATION OF FINANCIAL STATEMENTS

These financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to undertakings for collective investment in transferable securities and generally accepted accounting principles in Luxembourg.

The financial statements reflect the Net Asset Values ("NAV") as calculated on the last business day of the period based on latest available market prices of the investments.

Valuation of investments and other instruments

The following pricing policy applies:

- **Valuation of investments** - Investments which are quoted or dealt in on an official stock exchange or on a Regulated Market or any Other Regulated Market are valued at the last available prices at 6.00 p.m. Luxembourg time except for Amundi Investment Funds - Japanese Equity where the investments are valued at the last available prices at 2.00 p.m. Pricing rules (Bid/Mid/Ask) of each Sub-Fund are regularly reviewed by the Board of Directors of the Management Company of the Fund, and may be adapted either to the investment cycle and/or to the investment objective of each Sub-Fund.
Applications for subscriptions, conversions and redemptions in the Amundi Investment Funds - Japanese Equity received and accepted by 2.00 p.m. Luxembourg time on the relevant Valuation Day will be processed at the Net Asset Value of the following day (D+1).
In the event that any assets held in a Sub-Fund's portfolio on the relevant day are not quoted or dealt in on any stock exchange or on any Regulated Market, or on any Other Regulated Market or if, with respect of assets quoted or dealt in on any stock exchange or dealt in on any such markets, the last available price (as determined pursuant to the previous paragraph) is not representative of the fair market value of the relevant assets, the value of such assets is based on a reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the SICAV.
- **Open-ended and closed-ended UCIs** - Units or shares of open-ended UCIs are valued at their last determined and available Net Asset Value or, if such price is not representative of the fair market value of such assets, then the price is determined prudently and in good faith by the Board of Directors of the SICAV. Units or shares of a closed-ended UCI are valued at their last available market value.
- **Forward foreign exchange contracts** - Forward foreign exchange contracts are valued at the forward rate applicable at the "Statement of Net Assets" date for the period until their maturity. Net unrealised gain and loss on forward foreign exchange contracts are recorded in the "Statement of Net Assets". The SICAV also offers Hedged Share Class. All gain/(loss) on forward foreign exchange contracts used for Hedged Share Classes are allocated solely to the relevant Share Class.
- **Financial futures contracts** - Financial futures contracts are valued at the quoted price available on an official stock exchange (following the pricing policy as described above under "Valuation of investments"). Initial margin deposits are made in cash upon entering into futures contracts. Subsequent payments, referred to as variation margins, are made or received by the Sub-Fund periodically and are based on changes in the market value of open futures contracts. Net unrealised gain and loss on financial futures contracts are recorded in the "Statement of Net Assets"Assets". When the contract is closed, the concerned Sub-Fund records a realised gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the opening transaction.
- **Upfront premium Options contracts** - When the Sub-Fund purchases an options contract with an upfront premium, it pays a premium and an amount equal to that premium is recorded as an asset. When the Sub-Fund writes an option with an upfront premium, it receives a premium and an amount equal to that premium is recorded as a liability.
The asset or liability is adjusted daily to reflect the current market value of the options contracts.
Options contracts which are quoted or dealt in on a stock exchange or on a Regulated Market or any Other Regulated Market are valued at the exchange quoted price (following the pricing policy described above under "Valuation of investments"). OTC options are marked-to-market based upon daily prices calculated by third party agents and verified against the value received from the counterparty.
If the last known prices are not representative, the valuation will be based on the potential realisation value estimated by the Board of Directors of the SICAV with prudence and in good faith.

If an option expires unexercised, the Sub-Fund realises a gain or loss to the extent of the premium received or paid. Premiums received or paid, net unrealised gain and loss from options contracts are recorded in the "Statement of Net Assets" under the account balances "Upfront premium Options contracts purchased at market value" or "Upfront premium Options contracts written at market value".

- **Futures-style options contracts** - Futures-style options contracts are valued at the quoted price available on an official stock exchange (following the pricing policy as described above under "Valuation of investments"). Initial margin deposits are paid in cash upon entering into the contract. Subsequent positive or negative cashflows, referred to as variation margins, are paid or received by the Sub-Fund periodically and are based on changes in the market value of open options contracts. When the contract is closed, the concerned Sub-Fund records a realised gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the opening transaction.

Net unrealised gain and loss on futures-style options contracts are recorded in the "Statement of Net Assets".

- **Swaps contracts** - Sub-Funds may enter into different types of swaps agreements such as interest rate swaps, swaptions, inflation-linked swaps, credit default swaps and total return swaps. Net unrealised gain and loss on swaps contracts are recorded in the "Statement of Net Assets". Swaps contracts are valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors of the SICAV.

Swaps contracts are marked-to-market at each Net Asset Valuation calculation date. The market value is based on the valuation of elements laid down in the contract, and it is obtained from third party agents, market makers or internal models, pursuant to the procedures established by the Board of Directors of the SICAV.

- **Combined financial statements** - The figures of each Sub-Fund are presented in their respective Base Currency. The combined financial statements are expressed in euros and the sum of the Sub-Funds' net assets which are in another currency are converted in euros at the exchange rates prevailing at period end. The combined financial statements are presented for information purposes only.

3 EXCHANGE RATES USED AS OF 30 JUNE 2024

Assets and liabilities expressed in currencies other than the Base Currency of the relevant Sub-Fund are converted at exchange rates prevailing as at 30 June 2024. Transactions in foreign currencies are converted into the Base Currency of the relevant Sub-Fund at exchange rates prevailing on the transaction dates.

4 MANAGEMENT, INVESTMENT MANAGEMENT AND DISTRIBUTION FEES

The management fee is a percentage of the Net Asset Value of each Sub-Fund, which ranges, according to the prospectus, from 0.15% to 2.00% per annum and it is calculated and accrued on each Valuation Day on the basis of the Net Asset Value of the relevant Share Class and is payable monthly in arrears.

For Share Classes S and X, the management fees are agreed between the Management Company and the relevant investors and are charged and collected by the Management Company directly from the Shareholder and will not be charged to the Sub-Funds or reflected in the Net Asset Value.

The management fee rates effectively applied as at 30 June 2024 are as follows:

No distribution fees were charged to the Sub-Funds.

5 PERFORMANCE FEES

The Management Company may earn a performance fee for certain Classes of Shares within certain Sub-Funds where the Net Asset Value per Share of the Class outperforms its benchmark during a Performance Period (as defined below) under the circumstances detailed in this section. Please refer to Appendices I and II of this Prospectus for details of applicable performance fee rates and benchmarks.

For Class X Shares, any performance fee will be charged and collected by the Management Company directly from the Shareholders and will not, therefore, be reflected in the Net Asset Value.

A performance period ("Performance Period") is a calendar year.

The calculation of performance fees applies to each concerned share class and on each Net Asset Value calculation date. The calculation is based on the comparison (hereafter the "Comparison") between:

- The Net Asset Value of each relevant share class (before deduction of the performance fee) and
- The reference asset (hereafter the "Reference Asset") which represents and replicates the Net Asset Value of the relevant share class (before deduction of the performance fee) at the first day of the performance observation period, adjusted by subscriptions/redemptions at each valuation, to which the performance fees benchmark (as stated for each sub-fund and share class) is applied.

As from the 1st January 2022, the Comparison is carried out over a performance observation period of five years maximum, the anniversary date of which corresponds to 31 December of each year (hereafter the "Anniversary Date").

6 DEPOSITARY AND PAYING AGENT, ADMINISTRATOR, REGISTRAR AND TRANSFER AGENT FEES

The Depositary and Paying Agent, the Administrator and the Registrar and Transfer Agent receive out of the assets of the relevant Sub-Fund, a fee for their services as detailed below.

- **Depositary and Paying Agent:** The fee is a percentage of portfolio value at each month end of the Sub-Fund. It ranges from 0.003% to 0.50% p.a. depending on where the assets of the relevant Sub-Fund are held. The fee is calculated and accrued on each Valuation Day and is payable quarterly in arrears.
- **Administrator:** The fee for the main services provided, amounts to an annual rate of 0.01%, is calculated and accrued on each Valuation Day on the basis of the Net Asset Value of the relevant Sub-Fund. It is payable quarterly in arrears.
- **Registrar and Transfer Agent:** The main components of the compensation for the services provided are the number of the existing active Share Classes, the number of clients' accounts and the number of transactions processed.

7 TAXATION OF THE SICAV - TAXE D'ABONNEMENT

In accordance with the legislation currently prevailing in Luxembourg, the SICAV is not subject to any taxes on income or capital gains. The SICAV is subject to a subscription tax *Taxe d'abonnement*, which amounts to an annual rate of 0.05% based on the Net Asset Value of each Sub-Fund at the end of each calendar quarter, calculated and paid quarterly. However, this tax is reduced to 0.01% for Net Asset Value related to Share Classes only aimed at eligible institutional investors and for Sub-Funds whose sole object is collective investment in money market instruments and in deposits with credit institutions.

Pursuant to Article 175 (a) of the amended law of 17 December 2010, the net asset invested in UCIs already subject to *Taxe d'abonnement* is exempted from this tax. Interest and dividend income received by the SICAV may be subject to non-recoverable withholding tax in the countries of origin.

All transactions are bilateral transactions.

ISDA Master Agreement applies to all OTC derivative transactions including total return swap transactions entered by the Sub-Funds. An ISDA Master Agreement is a bilateral agreement established by the Sub-Fund and a counterparty, which governs OTC derivative transactions, including total return swaps. The overall OTC derivative exposures under ISDA Master Agreement are netted and collateralized together. For this reason for collateral information on total return swaps we make reference to the note 12 to the financial statements which includes and reflects the overall OTC derivative transactions entered by the Sub-Funds. The collateral received is held in custody and it is not reused.
