2 PRINCIPAL ACCOUNTING CONVENTIONS

■ PRESENTATION OF FINANCIAL STATEMENTS

These financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

The financial statements reflect the Net Asset Values ("NAV") as calculated on the last business day of the period based on latest available market prices of the investments.

Valuation of investments and other instruments

The following pricing policy applies:

■ **Valuation of investments** - Investments which are quoted or dealt in on an official stock exchange or on a Regulated Market or any Other Regulated Market are valued at the last available prices at close of business of the relevant Valuation Day. Pricing rules (Bid/Mid/Ask) of each Sub-Fund are regularly reviewed by the Board of Directors of the Management Company of the Fund, and may be adapted either to the investment cycle and/or to the investment objective of each Sub-Fund.

In the event that any assets held in a Sub-Fund's portfolio on the relevant day are not quoted or dealt in on any stock exchange or on any Regulated Market, or on any Other Regulated Market or if, with respect of assets quoted or dealt in on any stock exchange or on any such markets, the last available price (as determined pursuant to the previous paragraph) is not representative of the fair market value of the relevant assets, the value of such assets is based on a reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the SICAV.

■ **Open-ended and closed-ended UCIs** - Units or shares of open-ended UCIs are valued at their last determined and available Net Asset Value or, if such price is not representative of the fair market value of such assets, then the price is determined prudently and in good faith by the Board of Directors of the SICAV. Units or shares of a closed-ended UCI are valued at their last available market value.

■ **Forward foreign exchange contracts** - Forward foreign exchange contracts are valued at the forward rate applicable at the "Statement of Net Assets" date for the period until their maturity. Net unrealised gain and loss on forward foreign exchange contracts are recorded in the "Statement of Net Assets".

The SICAV also offers Hedged Share Class. All gain/(loss) on forward foreign exchange contracts used for Hedged Share Classes are allocated solely to the relevant Share Class.

- **Financial futures contracts** - Financial futures contracts are valued at the quoted price available on an official stock exchange (following the pricing policy as described above under "Valuation of investments"). Initial margin deposits are made in cash upon entering into futures contracts. Subsequent payments, referred to as variation margins, are made or received by the Sub-Fund periodically and are based on changes in the market value of open futures contracts. Net unrealised gain and loss on financial futures contracts are recorded in the "Statement of Net Assets". When the contract is closed, the concerned Sub-Fund records a realised gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the opening transaction.
- **Upfront premium Options contracts** - When the Sub-Fund purchases an options contract with an upfront premium, it pays a premium and an amount equal to that premium is recorded as an asset. When the Sub-Fund writes an option with an upfront premium, it receives a premium and an amount equal to that premium is recorded as a liability.
The asset or liability is adjusted daily to reflect the current market value of the options contracts.
Options contracts which are quoted or dealt in on a stock exchange or on a Regulated Market or any Other Regulated Market are valued at the exchange quoted price (following the pricing policy described above under "Valuation of investments"). OTC options are marked-to-market based upon daily prices calculated by third party agents and verified against the value received from the counterparty.
If the last known prices are not representative, the valuation will be based on the potential realisation value estimated by the Board of Directors of the SICAV with prudence and in good faith.
If an option expires unexercised, the Sub-Fund realises a gain or loss to the extent of the premium received or paid. Premiums received or paid, net unrealised gain and loss from options contracts are recorded in the "Statement of Net Assets" under the account balances "Upfront premium Options contracts purchased at market value" or "Upfront premium Options contracts written at market value".
- **Futures-style options contracts** - Futures-style options contracts are valued at the quoted price available on an official stock exchange (following the pricing policy as described above under "Valuation of investments"). Initial margin deposits are paid in cash upon entering into the contract. Subsequent positive or negative cashflows, referred to as variation margins, are paid or received by the Sub-Fund periodically and are based on changes in the market value of open option contracts. When the contract is closed, the concerned Sub-Fund records a realised gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the opening transaction.
Net unrealised gain and loss on futures-style options contracts are recorded in the "Statement of Net Assets".
- **Swaps contracts** - Sub-Funds may enter into different types of swaps agreements such as interest rate swaps, swaptions, inflation-linked swaps, credit default swaps and total return swaps. Net unrealised gain and loss on swaps contracts are recorded in the "Statement of Net Assets". Net realised and net change in unrealised gain/(loss) on swap contracts are recorded in the "Statement of Operations and Changes in Net Assets". Swaps contracts are valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors of the SICAV.
Swaps contracts are marked-to-market at each Net Asset Valuation calculation date. The market value is based on the valuation of elements laid down in the contract, and it is obtained from third party agents, market makers or internal models, pursuant to the procedures established by the Board of Directors of the SICAV.
- **Income** - Interest income is accrued on a daily basis. Dividends are shown net of withholding taxes deducted at source, and are recorded as income on the ex-dividend date.
- **Combined financial statements** - The figures of each Sub-Fund are presented in their respective Base Currency. The combined financial statements are expressed in euros. The combined financial statements are presented for information purposes only.

3 EXCHANGE RATES USED AS OF 30 JUNE 2024

4 MANAGEMENT, INVESTMENT MANAGEMENT AND DISTRIBUTION FEES

The management fee is a percentage of the Net Asset Value of each Sub-Fund, which ranges, according to the prospectus, from max 0.35% to max 2.25% per annum and it is calculated and accrued on each Valuation Day on the basis of the Net Asset Value of the relevant Share Class and is payable monthly in arrears.

For Share Class X, the management fees are agreed between the Management Company and the relevant investors and are charged and collected by the Management Company directly from the Shareholder and will not be charged to the Sub-Funds or reflected in the Net Asset Value.

The Management Company is responsible for the payment of fees to the Investment Managers who may pass on all or a portion of their own fees to the Sub-Investment Managers.

The management fee rates effectively applied as at as at 30 June 2024 are as follows:

5 DEPOSITARY AND PAYING AGENT, ADMINISTRATOR, REGISTRAR AND TRANSFER AGENT

The Depositary and Paying Agent, the Administrator and the Registrar and Transfer Agent receive out of the assets of the relevant Sub-Fund, a fee for their services as detailed below.

- **Depositary and Paying Agent:** The fee is a percentage of portfolio value at each month end of the Sub-Fund. It ranges from 0.003% to 0.50% p.a. depending on where the assets of the relevant Sub-Fund are held. The fee is calculated and accrued on each Valuation Day and is payable quarterly in arrears.
- **Administrator:** The fee for the main services provided, amounts to an annual rate of 0.01%, is calculated and accrued on each Valuation Day on the basis of the Net Asset Value of the relevant Sub-Fund. It is payable quarterly in arrears.
- **Registrar and Transfer Agent:** The main components of the compensation for the services provided are the number of the existing active Share Classes, the number of clients' accounts and the number of transactions processed.

6 TAXATION OF THE SICAV - TAXE D'ABONNEMENT

In accordance with the legislation currently prevailing in Luxembourg, the SICAV is not subject to any taxes on income or capital gains. The SICAV is subject to a subscription tax *Taxe d'abonnement*, which amounts to an annual rate of 0.05% based on the Net Asset Value of each Sub-Fund at the end of each calendar quarter, calculated and paid quarterly. However, this tax is reduced to 0.01% for Net Asset Value related to Share Classes only aimed at eligible institutional investors and for Sub-Funds whose sole object is collective investment in money market instruments and in deposits with credit institutions.

Pursuant to Article 175 (a) of the amended law of 17 December 2010, the net asset invested in UCIs already subject to *Taxe d'abonnement* is exempted from this tax. Interest and dividend income received by the SICAV may be subject to non-recoverable withholding tax in the countries of origin.

11 STATEMENT OF PORTFOLIO MOVEMENTS

A list of changes in the portfolio for the period ended 30 June 2024 is available free of charge at the registered office of the Management Company of the SICAV. All details relating to the Outstanding Derivatives Contracts as at 30 June 2024 are presented within the Notes to the Financial Statements.

12 DIVIDENDS

- **Monthly Target Distributing:** these classes aim to distribute on a monthly basis a dividend based on an annual target yield defined at the beginning of the year.
- **Distributing Annually:** these classes distribute on an annual basis an amount based on the income generated in the previous year or a dividend based on an annual target yield defined at the launch date/beginning of the year. Depending on the Sub-Fund the income distributed could be net or gross of fees.

Dividend Distribution policy is described in the prospectus of the SICAV for further details.

13 SWING PRICING

On any valuation days when it believes that trading in a Sub-Fund's shares will require significant purchases or sales of portfolio investments, the Board of Directors may adjust the Sub-Fund's NAV to more closely reflect the actual prices of the underlying transactions, based on estimated dealing spreads, costs, and other market and trading considerations. In general, the NAV will be adjusted upward when there is strong demand to buy Sub-Fund shares and downward when there is strong demand to redeem sub-fund shares. Any such adjustment is applied to all the Sub-Fund's transactions of a given day.

Those adjustments follow the objective to protect the SICAV's long-term Shareholders from costs associated with ongoing subscription and redemption activity and are not meant to address specific circumstances of each individual investor. For any given Valuation Day, the adjustment will normally not be larger than 2% of NAV, but the Board of Directors can raise this limit when necessary to protect the interests of shareholders.

During the period ending June 30, 2024, the following Sub-Funds were in scope of the Swing Price Mechanism:
