## Report of the Board of Directors

Dear Shareholders,

We hereby present to you the annual report of ABSALON, together with its sub-funds ABSALON - EM Corporate Debt and ABSALON - Global High Yield.

ABSALON is organised in Luxembourg as a société d'investissement à capital variable ("SICAV") and qualifies as a collective investment undertaking under Part I of the Luxembourg law of December 17, 2010. The Company qualifies as an undertaking for collective investment in transferable securities under article 1(2) of the Directive 2009/65/EC and may therefore be offered for sale in any EU Member State, subject to registration.

The Company was established on February 27, 2015 for an indefinite duration.

The Company is presently structured as an umbrella fund.

The Board of Directors of the Fund has analyzed the current developments in relation to the coronavirus and is satisfied that business continuity plans address on-going operational risks and ensure that the Fund's activities are not disrupted. As a result of the Coronavirus there is a high uncertainty to the 2021 performance of all sub-funds. Please refer to the subsequent events paragraph in the notes of the financial statements.

On 11 March 2020, the World Health Organisation declared the outbreak of COVID-19 as a pandemic. Persistent concerns about the impact of the virus on the global economy and the resulting uncertainty in the valuation of the investments in this report may therefore lead to significant deviations from the actual value if the investments are sold today. Significant corrections in the market and increased volatility in recent months may have a significant impact on the Fund's future valuation of the investments. The relevant committees will monitor further developments at national and international level closely, particularly with regard to the economic impact on the fund.

As at June 30, 2021, the net assets and the performance of the share price of the sub-funds during the reporting period were as follows:

## Derivative Exposure (unaudited)

The table below shows the derivative exposure as per June 30, 2021:

Sub-fund	Derivative exposure in %
ABSALON - EM Corporate Debt	104.28
ABSALON - Global High Yield	85.47

## Risk Management (unaudited)

When determining the global risk exposure of the fund, the Management Company uses the value-at-risk calculation as its risk management procedure for the ABSALON in accordance with CSSF circular (11/512). The relative value-at-risk method has been used for its sub-funds.

During the period from January 1, 2021 until June 30, 2021 the relative VaR approach has been used for monitoring and measuring the global risk associated with derivatives.

The derivative-free reference portfolio is shown below:

Sub-fund	Derivative-free reference portfolio
ABSALON - EM Corporate Debt	100% JP Morgan Emerging Markets Bond Index Global Diversified (USD)
ABSALON - Global High Yield	60% BofA Merrill Lynch Global High Yield Index; 20% JP Morgan Emerging Markets Bond Index (EMBI) Global Diversified (USD); 20% MSCI AC World Local

The VaR of the sub-fund is set in relation to the VaR of the reference portfolio and should not exceed 200% VaR limit utilization.

The VaR is calculated based on a historical simulation and the following parameterization 99% confidence level, 1-day holding period and 1-year observation period.

The following VaR key figures have been calculated during the reporting period:

Sub-fund	Lowest VaR	Highest VaR	Average VaR
ABSALON - EM Corporate Debt	36.91	87.11	54.51
ABSALON - Global High Yield	30.96	100.84	57.05

The leverage is calculated in accordance with the sum of notional approach and guidelines specified in CESR/10-788. Hedging and netting effects are not considered in the calculation. Therefore an unleveraged portfolio results in a leverage of 100%.

The average leverage during the reporting period is shown below:

Sub-fund	Average leverage in %
ABSALON - EM Corporate Debt	207.49
ABSALON - Global High Yield	185.50

#### **2.1 Computation of the net asset value**

The Company is presently structured as an umbrella fund. The reference currency and the reporting currency of the Company is the Euro (EUR).

The net asset value per sub-fund, net asset value per share, net asset value per class, the redemption price of shares and the issue price of shares shall be determined on each valuation date, at least twice a month. The valuation dates for each sub-fund are indicated in the relevant appendix of the prospectus.

The net asset value of each sub-fund and the net asset value of the relevant class shall be expressed in the currency of each sub-fund as described in the relevant appendix of the Prospectus. Whilst the reporting currency of the Company is the Euro, the net asset value is made available in the currency of each sub-fund as described in the relevant appendix of the Prospectus. The net asset value shall be determined on each valuation date separately for each share of each sub-fund and for each class dividing the total net asset value of the relevant sub-fund and of the relevant class by the number of outstanding shares of such sub-fund and of the relevant class.

- b. The value of all securities which are listed on an official stock exchange is determined on the basis of the last available prices. If there is more than one stock exchange on which the securities are listed, the Board of Directors may in its discretion select the stock exchange which shall be the principal stock exchange for such purposes.

Amounts determined in accordance with such valuation principles shall be translated into the currency of the sub-fund's accounts at the respective exchange rates, using the relevant rates quoted by a bank or another first class financial institution.

The liabilities of the Company shall be deemed to include:

- e. any other liabilities of the Company of whatever kind towards third parties.

For the purposes of valuation of its liabilities, the Company may duly take into account all ongoing or periodic administrative and other expenses by valuing them for the entire year or any other period and by dividing the amount concerned proportionately for the relevant fractions of such period.
