

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Thematics Subscription Economy Fund (N1/A (USD) ISIN: LU2095318528), a sub-fund of Natixis International Funds (Lux) I SICAV

Management Company and Promoter: Natixis Investment Managers S.A., part of the Natixis group of companies
Investment Manager: Thematics Asset management, part of the Natixis group of companies

Objectives and Investment Policy

Investment objective:

The investment objective of Thematics Subscription Economy Fund (the "Fund") is long-term growth of capital through an investment process systematically including Environmental, Social and Governance ("ESG") considerations.

Investment policy:

The Fund promotes environmental or social characteristics but does not have as its objective a sustainable investment. However, it invests partially in assets that have a sustainable objective.

The Fund invests primarily in equity securities of companies identified as participating or having an exposure to the potential growth relating to the investment theme of the subscription economy i.e. the business model where companies offer access to products and/or services to the consumers for recurring payments (either on a subscription or a pay-per-use basis) instead of selling them as a one-time transaction.

The Fund invests at least two-thirds of its total assets in equity securities worldwide. This may include common stocks, preferred stocks and, on an ancillary basis, closed-ended real estate investment trusts ("REITs"), and depository receipts for any of those equity investments. The Fund may also invest up to 30% of its total assets in equity securities in emerging markets including certain eligible A-Shares via the Shanghai-Hong Kong Stock Connect program and/or Shenzhen-Hong Kong Stock Connect program.

The Fund may invest up to one-third of its total assets in other types of securities than those described above and in money market instruments, cash and cash equivalents. The Fund may invest up to 10% of its net assets in undertakings for collective investment, including exchange traded funds that qualify as UCITS.

The Fund is actively managed with an emphasis on companies having, in the opinion of the Investment Manager, an attractive risk/return profile driven by long-term secular trends.

As part of the responsible approach of the Fund, the Investment Manager excludes controversial activities deemed to have a significant negative impact on the achievement of social and environmental objectives during the screening process. The Investment Manager systematically includes non-financial considerations in the fundamental analysis of companies. Each company is reviewed with respect to authoritative standards on ESG. Among the ESG criteria considered:

- Environmental criteria: company climate change resiliency, effluents and waste management, environmental impact of products and services.
- Social criteria: company and supplier's health and safety records, labour practices, product social responsibility and data privacy management.
- Governance criteria: board quality, review company's executive compensation, shareholder rights and business ethics.

The Investment Manager derives an internal ESG risk score in percentage. This ESG scoring is then rounded to 0 or 1, and carries an equal weight (25%) as the other criteria (Quality, Trading Risk and Management) considered in weighing each stock. While the review of the ESG criteria permanently cover at least 90% of the Fund's net assets, a low ESG score does not exclude a stock from the portfolio, but it will limit its position size. These in-depth analyses result in selecting companies assessed to practice good governance and whose activities do not significantly harm the achievement of sustainable development.

The Fund will permanently have a better ESG rating than its Reference index.

The Investment Manager practices active ownership by voting in general meetings and engaging with companies held in the portfolio on ESG topics.

For additional information, please refer to the "ESG Policy" of the Investment Manager available on its website. ESG risk assessments remain subjective and dependent on the quality of the available information due to a lack of a standardized methodology on ESG reporting.

The Fund is unconstrained by industry, index, currency, geography or capitalization size. The Investment Manager aims to invest in companies whose shares are selling below the Investment Manager's estimate of intrinsic value.

On an ancillary basis, the Fund may use derivatives for hedging and investment purposes, enter into securities lending and borrowing transactions as well as repurchase agreements and reverse repurchase agreements.

The Reference Currency of the Fund is the US Dollar.

For indicative purposes only, the Fund's performance may be compared to the Morgan Stanley Capital International All Country World ("MSCI ACWI") Index. The Fund is unconstrained by the reference index and may therefore significantly deviate from it.

Shareholders may redeem Shares on demand on any business day in Luxembourg on which the New York Stock Exchange and the NASDAQ are open. Income derived from the Fund is distributed for distributing Shares and reinvested for accumulating Shares. Please refer to the section entitled "Subscription, Transfer, Conversion and Redemption of Shares" of the Prospectus for additional information.

Recommendation: this Fund may be appropriate for investors who can afford to set aside capital for 5 years.

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

This ranking on the synthetic risk and reward indicator scale is due to the Fund's allocation to equity markets. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. There is no capital guarantee or protection on the value of the Fund. The lowest category does not mean "risk free".

The following risks are materially relevant to the Fund but are not adequately captured by the synthetic indicator:

Stock Connect Risk: The Fund may invest in China "A" shares via the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect programs which are subject to additional clearing and settlement constraints, potential regulatory changes as well as operational and counterparty risks.

Geographic Concentration risk: Funds that concentrate investments in certain geographic regions may suffer losses, particularly when the economies of those regions experience difficulties or when investing in those regions become less attractive. Moreover, the markets in which the funds' invest may be significantly affected by adverse political, economic or regulatory developments.

Portfolio Concentration risk: Funds investing in a limited number of securities may increase the fluctuation of such funds' investment performance. If such securities perform poorly, the fund could incur greater losses than if it had invested in a larger number of securities.

Smaller Capitalization risk: Funds investing in companies with small capitalizations may be particularly sensitive to wider price fluctuations, certain market movements and less able to sell securities quickly and easily.

Please refer to the section entitled "Specific Risks" of the Prospectus for additional details on risks.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

Charges by Share Class-Share Class N1

One-Off charges taken before or after you invest

Entry Charge 4.00%

Exit Charge None *

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the Fund over a year

Ongoing Charges: 1.10% p.a.

Total Expense Ratio (TER)

Charges taken from the Fund under certain specific conditions

Performance Fee: None

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

*A levy of up to 2.00% may be applied to an investor engaging in excessive trading or market timing practices.

The **ongoing charges** figure is based on expenses for the year ending December 2020. It excludes the portfolio transaction costs, except in the case of an entry/exit charge paid by the SICAV when buying or selling units in another collective investment undertaking.

For more information about charges, please refer to chapters “Charges and Expenses” and “Subscription, transfer, conversion and redemption of shares” of the Fund’s prospectus, which is available at www.im.natixis.com/intl/intl-fund-documents.

Past Performance

There are insufficient data to provide a useful indication of past performance to investors of this share class.

Past performance is not a reliable indicator of future performance.

Date of creation of the Fund: 10 December 2019.
