BROCK MILTON CAPITAL UCITS SICAV

BROCK MILTON CAPITAL UCITS SICAV (previously denominated COELI GLOBAL UCITS SICAV) (the "Company") is listed on the official list of undertakings for collective investment pursuant to the law of 17 December 2010 relating to undertakings for collective investment, as modified from time to time (hereafter referred to as the "2010 Law") and submitted to the 2010 Law and to the law of 10 August 1915 on commercial companies, as amended from time to time (the "1915 Law"). It is subject in particular to the provisions of Part I of the 2010 Law, which relates specifically to undertakings for collective investment in transferable securities ("UCITS"), as defined by the Directive 2009/65/EC of the European Parliament and the Council, as amended or recasted from time to time. However, such listing does not require any Luxembourg authority to approve or disapprove either the adequacy or the accuracy of this prospectus of the Company (the "Prospectus") or the portfolio of securities held by the Company. Any representation to the contrary would be unauthorised and unlawful.

The Company's board of directors (the "Board of Directors") has taken all possible precautions to ensure that the facts indicated in this Prospectus are accurate in all material respects and that no point of any importance has been omitted which could render erroneous any of the statements set forth herein.

Any information or representation not contained herein, in the appendixes to the Prospectus (the "Appendixes" or each the "Appendix"), in the key information documents of the Company (the "KIDs") or in the reports, which form an integral part hereof, must be regarded as unauthorised. Neither the remittance of this Prospectus, nor the offer, issue or sale of shares of the Company (the "Shares") will constitute a representation that the information given in this Prospectus is correct as of any time subsequent to the date hereof. In order to take account of important changes such as the opening of a new sub-fund of Shares, this Prospectus, as well as its Appendixes will be updated at the appropriate time. Subscribers are therefore advised to contact the Company in order to establish whether any later Prospectus has been published.

References to the terms or abbreviations set out below designate the following currencies:
SEK: Swedish Krona, EUR: Euro, USD: US Dollar.

I. GENERAL DESCRIPTION

1. INTRODUCTION

BROCK MILTON CAPITAL UCITS SICAV is an investment company with variable share capital consisting of various sub-funds, each relating to a portfolio of specific assets made up of transferable securities and money market instruments within the meaning of the 2010 Law and the Grand-ducal regulation of 8 February 2008 ("Transferable Securities" and "Money Market Instruments" respectively) as well as other eligible assets in compliance with Article 41 of the 2010 Law denominated in various currencies. The characteristics and investment policies of each sub-fund are defined in Appendix IV "The Sub-Funds".

The capital of the Company is divided into several sub-funds (each a "Sub-Fund", together the "Sub-Funds") each of which may offer several classes of Shares (the "Class" or together the "Classes"), as defined in [Section III](#) below and for each Sub-Fund in accordance with the respective provisions described in the Sub-Fund's relevant data sheet under Appendix IV.

The Company may create new Sub-Funds. In such an event, this Prospectus will be amended accordingly and will contain detailed information on the new Sub-Funds in its Sub-Funds' data sheets under Appendix IV. The actual launch of any new Sub-Fund or Class of Shares within a Sub-Fund mentioned in the Prospectus and in the KIDs will be decided by the Board of Directors. More particularly, the Board of Directors will determine the initial subscription price and subscription period/day, as well as the payment date of those initial subscriptions.

The Shares of each Sub-Fund of the Company are issued and redeemed at prices calculated for each Sub-Fund with a frequency in accordance with the respective provisions described in the Sub-Fund's relevant data sheet under Appendix IV and provided the banks in Luxembourg are open for business on this day (a "Bank Business Day") (the calculation day so defined being hereafter referred to as a "Valuation Day") if not otherwise is provided for in the relevant data sheet under Appendix IV. For the avoidance of doubt and unless otherwise stated in the relevant data sheets, half-closed bank business days in Luxembourg are considered as being closed for business.

The net asset value (the "Net Asset Value") of each Sub-Fund or of each Class of Shares will be expressed in its reference currency, as stipulated in the Sub-Fund's relevant data sheet under Appendix IV.

The reference currency of the Company is expressed in Euro.

2. THE COMPANY

The Company was incorporated in Luxembourg for an unlimited period on November 17, 2023, under the name "**COELI GLOBAL UCITS SICAV**" and registered with the Luxembourg Register for Trade and Companies (*Registre de Commerce et des Sociétés* – "RCS") under number B 282136.

The Company's deed of incorporation ("Articles of Incorporation") has been filed with the RCS and published on 7 December 2023 in the *Recueil Electronique des Sociétés et Associations* ("RESA"), where they may be consulted and where copies may be obtained.

The Company's Articles of Incorporation have been amended on February 9, 2024 (and such amendments will be published in the RESA) to change, *inter alia*, the name of the Company into "**BROCK MILTON CAPITAL UCITS SICAV**".

The minimum capital as provided by the 2010 Law is set at EUR 1.250.000,00 (one million two hundred and fifty thousand Euro). The Company's capital is at all times equal to the sum of the values of the net assets of its Sub-Funds and represented by Shares of no par value.

Variations in the capital are effected "ipso jure" (automatically by the effect of law).

II. MANAGEMENT AND ADMINISTRATION

1. BOARD OF DIRECTORS

The Board of Directors is responsible for the administration, management and marketing of the Company and of the assets of each Sub-Fund. It may carry out all acts of management and administration on behalf of the Company; it may in particular purchase, sell, subscribe or exchange any Transferable Securities, Money Market Instruments and other eligible assets and exercise all rights directly or indirectly attached to the Company's assets.

The list of the members of the Board of Directors, as well as of the other administrative bodies in operation may be found in this Prospectus and in the periodic reports.

2. MANAGEMENT COMPANY

Waystone Management Company (Lux) S.A. (the "Management Company"), has been appointed as management company of the Company, to perform investment management, administration and marketing functions for the Company pursuant to the agreement effective as of 17 November 2023 between the Company and the Management Company.

The Management Company is a company incorporated under Luxembourg law with registered office situated at 19, rue de Bitbourg, L-1273 Luxembourg, Grand Duchy of Luxembourg registered with the RCS under number B 96744. The Management Company was incorporated for an unlimited duration in Luxembourg on 23 October 2003 in the form of a public limited company (*société anonyme*), in accordance with the 1915 Law.

The deed of incorporation of the Management Company was published in the *Mémorial* on 26 November 2003, number of the *Mémorial* 1252. Its subscribed capital amounts to EUR three million nine hundred and fifty thousand (EUR 3,950,000). The approved statutory auditor (*réviseur d'entreprises agréé*) of the Management Company is Grant Thornton Audit & Assurance, with its registered office at 13, rue de Bitbourg, 1273, Luxembourg, Grand Duchy of Luxembourg.

The Management Company is governed by Chapter 15 of the 2010 Law and, in this capacity, is responsible for the collective management of the Company's portfolio in accordance with Appendix II to the 2010 Law.

The names of other undertakings for collective investment managed by the Management Company from time to time, if any, are available at the registered office of the Management Company. The Company may terminate the agreement with the Management Company upon 3 (three) months' written notice. The Management Company may resign from its duties provided it gives the Company 3 (three) months' written notice.

In accordance with the laws and regulations currently in force and with the prior approval of the Board of Directors, the Management Company is authorised to delegate, unless otherwise provided herein, all or part of its duties and powers to any person or company, which it may consider appropriate, it being understood that the Prospectus will be amended prior thereto and that the Management Company will remain entirely liable for the actions of such representative(s).

The management duties and the duties of Administrative Agent and Registrar Agent are currently delegated, as described hereafter.

The Management Company shall carry out distribution services for the purpose of marketing, distributing and promoting the Shares of the Sub-Funds. The Management Company can appoint one or several distributors in order to ascertain such distribution services. The Management Company has appointed BROCK MILTON CAPITAL AB (previously denominated Coeli Global AB), as global distributor, pursuant to a global distribution agreement effective as of 17 November 2023.

As consideration for the above services, the Management Company shall be paid a commission as stipulated under Section VI below.

The Management Company has in place a remuneration policy in line with the Directive 2009/65/EC of the European Parliament and of the Council as amended (the "UCITS Directive").

The remuneration policy sets out principles applicable to the remuneration of senior management, all staff members having a material impact on the risk profile of the financial undertakings as well as all staff members carrying out independent control functions.

In particular, the remuneration policy complies with the following principles in a way and to the extent that is appropriate to the size, internal organisation and the nature, scope and complexity of the activities of the Management Company:

- it is consistent with and promotes sound and effective risk management and does not encourage risk taking which is inconsistent with the risk profiles, rules or Articles of Incorporation;
- if and to the extent applicable, the assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the investors of the Company in order to ensure that the assessment process is based on the longer-term performance of the Company and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period;
- it is in line with the business strategy, objectives, values and interests of the Management Company and the Company and of the Shareholders, and includes measures to avoid conflicts of interest; and
- fixed and variable components of total remuneration are appropriately balanced and the fixed component represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy on variable remuneration components, including the possibility to pay no variable remuneration component.

The remuneration policy is determined and reviewed at least on an annual basis by a remuneration committee.

The details of the up-to-date remuneration policy of the Management Company, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of the persons responsible for awarding the remuneration and benefits, including the composition of the remuneration committee, are available on <https://www.waystone.com/waystone-policies/>, a paper copy will be made available free of charge upon request.

Additional information which the Management Company must make available to investors in accordance with Luxembourg laws and regulations such as but not limited to complaints handling procedures of the Company's shareholders (the "Shareholders"), management of activities giving rise to detrimental conflict of interests, voting rights policy of the Management Company etc., shall be available at the registered office of the Management Company.

3. DEPOSITARY BANK

CACEIS Investor Services Bank S.A. is acting as the Company's depositary (the "**Depositary**") in accordance with a depositary bank and principal paying agent agreement effective as of 17 November 2023 as amended from time to time (the "**Depositary Agreement**") and the relevant provisions of the UCITS Directive.

CACEIS Investor Services Bank S.A. is registered with the Luxembourg Register for Trade and Companies (RCS) under number B-47192 and was incorporated in 1994 under the name "First European Transfer Agent". It is licensed to carry out banking activities under the terms of the Luxembourg law of 5 April 1993 on the financial services sector and specializes in custody, fund administration and related services. Shareholders may consult, upon request at the registered office of the Company, the Depositary Agreement to have a better understanding and knowledge of the limited duties and liabilities of the Depositary.

The Depositary has been entrusted with the custody and/or, as the case may be, recordkeeping and ownership verification of the Sub-Funds' assets, and it shall fulfil the obligations and duties provided for by Part I of the 2010 Law. In particular, the Depositary shall ensure an effective and proper monitoring of the Company's cash flows.

In due compliance with the 2010 Law and UCITS' applicable regulations (the "UCITS Rules"), the Depositary shall:

- (i) ensure that the sale, issue, re-purchase, redemption and cancellation of Shares of the Company are carried out in accordance with the applicable national law and the UCITS Rules or the Articles of Incorporation;
- (ii) ensure that the value of the Shares is calculated in accordance with the UCITS Rules, the Articles of Incorporation;
- (iii) carry out the instructions of the Company or the Management Company acting on behalf of the Company, unless they conflict with the UCITS Rules, or the Articles of Incorporation;
- (iv) ensure that in transactions involving the Company's assets any consideration to the Company is remitted to the Company within the usual time limits; and
- (v) ensure that the Company's income is applied in accordance with the UCITS Rules and the Articles of Incorporation.

The Depositary shall not delegate any of the obligations and duties set out in (i) to (v) of this clause.

In compliance with the provisions of the UCITS Directive, the Depositary may, under certain conditions, entrust part or all of the assets which are placed under its custody and/or recordkeeping to correspondents or third party custodians as appointed from time to time. The Depositary's liability shall not be affected by any such delegation, unless otherwise specified, but only within the limits as permitted by the 2010 Law.

A list of these correspondents/third party custodians are available on the website of the Depositary (<https://www.rbcits.com/en/gmi/global-custody.page>). Such list may be updated from time to time. A complete list of all correspondents/third party custodians may be obtained, free of charge and upon request, from the Depositary.

Up-to-date information regarding the identity of the Depositary, the description of its duties and of conflicts of interest that may arise, the safekeeping functions delegated by the Depositary and any conflicts of interest that may arise from such a delegation are also made available to investors on the website of the Depositary (<https://www.rbcits.com/en/who-we-are/caceis/disclaimer.page>), and upon request.

There are many situations in which a conflict of interest may arise, notably when the Depositary delegates its safekeeping functions or when the Depositary also performs other tasks on behalf of the Company, such as administrative agency and registrar and transfer agency services. In order to protect the Company's and its Shareholders' interests and comply with applicable regulations, a policy and procedures designed to prevent situations of conflicts of interest and monitor them when they arise have been set in place within the Depositary, aiming namely at:

- a. identifying and analysing potential situations of conflicts of interest;
- b. recording, managing and monitoring the conflict of interest situations either in:
 - relying on the permanent measures in place to address conflicts of interest such as maintaining separate legal entities, segregation of duties, separation of reporting lines, insider lists for staff members; or
 - implementing a case-by-case management to (i) take the appropriate preventive measures such as drawing up a new watch list, implementing a new Chinese wall, making sure that operations are carried out at arm's length and/or informing the concerned Shareholders of the Company, or (ii) refuse to carry out the activity giving rise to the conflict of interest.

The Depositary has established a functional, hierarchical and/or contractual separation between the performance of its UCITS depositary functions and the performance of other tasks on behalf of the Company, notably, administrative agency and registrar and transfer agency services.

The Company and the Depositary may terminate the Depositary Agreement at any time by giving ninety (90) days' prior notice in writing. The Company may, however, dismiss the Depositary only if a new depositary bank is appointed within two (2) months to take over the functions and responsibilities of the Depositary. After its dismissal, the Depositary must continue to carry out its functions and responsibilities until such time as the entire assets of the Sub-Fund(s) have been transferred to the new depositary bank.

The Depositary has no decision-making discretion nor any advice duty relating to the Company's investments. The Depositary is a service provider to the Company and is not responsible for the preparation of this Prospectus and therefore accepts no responsibility for the accuracy of any information contained in this Prospectus or the validity of the structure and investments of the Company.

4. ADMINISTRATIVE AGENT, DOMICILIARY AGENT AND REGISTRAR AND TRANSFER AGENT

The Management Company has appointed CACEIS Investor Services Bank S.A. ("**CACEIS**"), a credit institution authorised in Luxembourg, to act as administrative agent (hereafter referred to as the "**Administrative Agent**"), as its domiciliary agent (the "**Domiciliary Agent**") and as its registrar and transfer agent (the "**Registrar Agent**"), pursuant to an agreement effective as of 17 November 2023 between the Management Company, the Company and CACEIS.

As Administrative Agent, CACEIS is responsible for the calculation of the Net Asset Value, the maintenance of books and records, the administration of the day-to-day operations and business of the Company and other general administrative functions. Further, the Administrative Agent is responsible for the calculation of the *taxe d'abonnement*, the reporting and publication services (such as e.g. the preparation of the financial reports, the liaising with the Company's auditor and the supervisory authorities, the filing with the supervisory authorities of all statements required under applicable laws and regulations in Luxembourg) as well as for the provision of the annual and semi-annual reports of the Company.

As Registrar Agent, CACEIS is responsible for processing the issue (registration), redemption and conversion of Shares in the Company, for the settlement arrangements thereof, as well as for keeping official records of the Shareholders' register (the "Register").

As Domiciliary Agent, CACEIS shall grant the Company an address to establish its registered office and shall assume the provisions of the services of domiciliary agent in accordance with applicable laws and regulations.

In order to provide those services, CACEIS must enter into outsourcing arrangements with third party service providers in - or outside the CACEIS group (the "**Sub-contractors**"). As part of those outsourcing arrangement, CACEIS may be required to disclose and transfer personal and confidential information and documents about the Shareholders and individuals related to the Shareholders (the "**Related Individuals**") (the "**Data transfer**") (such as identification data – including the Shareholders and/or the Related Individual's name, address, national identifiers, date and country of birth, etc. – account information, contractual and other documentation and transaction information) (the "**Confidential Information**") to the Sub-contractors. In accordance with Luxembourg law, CACEIS is due to provide a certain level of information about those outsourcing arrangements to the Company, which, in turn, must be provided by the Company to the Shareholders.

A description of the purposes of the said outsourcing arrangements, the Confidential Information that may be transferred to Sub-contractors thereunder, as well as the country where those Sub-contractors are located is therefore set out in the below table.

Type of Confidential Information transmitted to the Sub-contractors	Country where the Sub-contractors are established	Nature of the outsourced activities
Confidential Information (as defined above)	Belgium Canada Hong Kong India Ireland Jersey Luxembourg Malaysia Poland Singapore United Kingdom United States of America	<ul style="list-style-type: none"> • Transfer agent/ shareholders services (incl. global reconciliation) • Treasury and market services • IT infrastructure (hosting services, including cloud services) • IT system management / operation Services • IT services (incl. development and maintenance services) • Reporting • Investor services activities

Confidential Information may be transferred to Sub-contractors established in countries where professional secrecy or confidentiality obligations are not equivalent to the Luxembourg professional secrecy obligations applicable to CACEIS. In any event, CACEIS is legally bound to, and has committed to the Company that it will enter into outsourcing arrangements with Sub-contractors which are either subject to professional secrecy obligations by application of law or which will be contractually bound to comply with strict confidentiality rules. CACEIS further committed to the Company that it will take reasonable technical and organisational measures to ensure the confidentiality of the Confidential Information subject to the Data Transfer and to protect Confidential Information against unauthorised processing. Confidential Information will therefore only be accessible to a limited number of persons within the relevant Sub-contractor, on “a need to know” basis and following the principle of the “least privilege”. Unless otherwise authorised/required by law, or in order to comply with requests from national or foreign regulatory authorities or law enforcement authorities, the relevant Confidential Information will not be transferred to entities other than the Sub-contractors.

5. INVESTMENT MANAGERS

For the day-to-day management of each of the Company’s Sub-Funds, the board of directors of the Management Company may be assisted under its overall control and responsibility by one or several investment manager(s) (“Investment Manager(s)”), it being understood that the Prospectus will be amended accordingly and will contain detailed information.

The Investment Managers provide the Management Company with advice, reports and recommendations in connection with the management of the assets of the Sub-Funds and shall advise the Management Company as the selection of liquid assets and other securities and assets constituting the portfolios of the Sub-Funds and have discretion, on a day-to-day basis and subject to the overall control of the Management Company, to purchase and sell such liquid assets and other securities and otherwise to manage the Sub-Funds’ portfolios. Any management activities of the Investment Managers shall be subject to compliance with the investment objective, strategy and restrictions of the relevant Sub-Funds as set out in the respective fact sheet of the Sub-Funds in the Appendix IV of the Prospectus, as well as with any additional restrictions and directions notified by the Management Company to the Investment Managers from time to time.

The Investment Manager(s) can receive fees for their services provided to the Company as Investment Manager(s) as described in the Sub-Fund’s relevant data sheet under Appendix IV if applicable and are payable by the Company out of the assets of the relevant Sub-Fund.

In addition the Investment Manager(s) may be entitled to receive a performance fee from the Company in accordance with the provision for each Sub-Fund, as described in the Sub-Fund’s relevant data sheet under Appendix IV.

The Investment Manager(s) may be assisted, under its overall control and responsibility and with prior approval of the Management Company, by one or more sub-investment managers (the "Sub-Investment Manager(s)") and/or investment advisor ("Investment Advisor(s)") for each Sub-Fund.

6. GLOBAL DISTRIBUTOR

The Management Company has delegated, with the consent of the Company, its distribution function to BROCK MILTON CAPITAL AB, with registered office at Sveavägen 24-26 SE-11157 Stockholm Sweden (the "Global Distributor"). BROCK MILTON CAPITAL AB is a company regulated by the Swedish Financial Supervisory Authority, Finansinspektionen.

The Global Distributor is, *inter alia*, responsible for assisting investors and/or financial intermediaries to make applications for Shares and for observing all applicable laws and regulatory requirements relating to the promotion, distribution, sale and purchase of Shares in the relevant countries of distribution of Shares.

7. NOMINEES

The Company and the Management Company and the Global Distributor may decide to appoint distributors and local paying agents to act as nominees (hereinafter the "Nominees"). Nominees must be professionals of the financial sector, domiciled in countries in which financial intermediaries are subject to similar obligations of identification as those which are provided for under Luxembourg law and under [Section III 2. C. "Fight against money laundering"](#) below. Such Nominees may be appointed for the purpose of assisting it in the distribution of the Shares of the Company in the countries in which they are marketed. Certain distributors and local paying agents may not offer all of the Sub-Funds/ Classes of Shares or all of the subscription/redemption currencies to their customers. Customers are invited to consult their distributor or local paying agent for further details.

Nominee contracts will be signed between the Company or the Management Company and the Global Distributor, and the various distributors and/or local paying agents.

Copies of the various Nominee contracts, if any, are available to Shareholders during normal office hours at the Management Company's registered office and at the registered office of the Company.

The Shares of the Company may be subscribed directly at the head office of the Registrar Agent or through the intermediary of distributors appointed by the Management Company in countries where the Shares of the Company are distributed.

All distributors and nominee service providers must be (i) professionals of the financial sector of a Financial Action Task Force ("FATF") member country which are subject under their local regulations to anti money laundering rules equivalent to those required by Luxembourg law or (ii) professionals established in a non-FATF member state provided they are a subsidiary of a professional of the financial sector of a FATF member state and they are obliged to follow anti money laundering and terrorism financing rules equivalent to those required by Luxembourg law because of internal group policies.

A list of the distributors and local paying agents, if any, shall be at disposal at the Management Company's and the Company's registered office as well as at the registered office of the distributors and local paying agents.

8. AUDITOR OF THE COMPANY

The Company's accounts and annual reports are revised by PricewaterhouseCoopers S.C., 2, rue Gerhard Mercator, L-2182 Luxembourg, Grand Duchy of Luxembourg, in its capacity as the Company's approved statutory auditor (the "Auditor").

III. THE SHARES

1. GENERAL PRINCIPLES

The Company's capital is represented by the assets of its various Sub-Funds, each Sub-Fund having its own investment policy. Subscriptions are invested in the assets of the relevant Sub-Fund.

A. CLASSES OF SHARES

Pursuant to the Articles of Incorporation, the Board of Directors may decide to issue, within each Sub-Fund, one or several Class(es) of Shares, the assets of which will be commonly invested but subject to specific features which are defined hereunder for the different Classes of Shares such as, but not limited to, sales and/or redemption charge structures, currency structures, marketing target or hedging policies. Where different Classes are issued within a Sub-Fund, the details of each Class are described in the Sub-Fund's relevant data sheet under Appendix IV. References herein to Shares of a Sub-Fund should be construed as being to Shares of a Class of a Sub-Fund also, if the context so requires.

The Company shall in any event issue Class Initiator Shares which shall be issued to the Investment Manager, its subsidiaries, parent entities or any company controlled by the Investment Manager.

For the time being, within each Sub-Fund, the Company has decided to issue Classes of Shares as further described in the synthetic table under [Appendix IV.C](#).

Should it become apparent that Shares reserved to institutional investors within the meaning of Article 174 (2) of the 2010 Law, are held by individuals other than those authorised, the Board of Directors will have the said Shares converted, at the cost of the relevant Shareholder, into Shares of another Class, if available, or redeemed, at the cost of the relevant Shareholder.

Before subscribing, investors are invited to check in each Sub-Fund's data sheet under Appendix IV which Classes of Shares are available in each Sub-Fund. Any minimum initial subscription amount, minimum further subscription amount and minimum holding amount, if any, are also mentioned in the list of Sub-Funds launched under Appendix IV.C. The Board of Directors may waive such amounts if it is in the interest of the Company or its investors.

The Shares will be issued at the subscription prices calculated on each Valuation Day mentioned under each Sub-Fund's relevant data sheet under Appendix IV.

The assets of the various Classes of a Sub-Fund are combined into one single portfolio which is segregated from the assets of the other Sub-Funds of the Company.

The Company may, in the interests of the Shareholders, split or consolidate the Shares of any Sub-Fund or Class.

The Company may open further Sub-Funds and thus create new Shares of each Class representing the assets of these Sub-Funds.

Any individual or corporate entity may acquire Shares in the various Sub-Funds making up the net assets of the Company by following the procedures defined in this section.

The Shares of each Sub-Fund are of no par value and carry no preferential subscription rights upon the issue of new Shares. Each Share carries one vote at the general meetings of Shareholders, regardless of its Net Asset Value.

All Shares in the Company must be fully paid up.

Non-base currency Classes may be hedged against the currency of the relevant Sub-Fund. Specific details are described in the Sub-Fund's relevant data sheet under Appendix IV.

There can be no assurances that this currency hedging strategy will fully eliminate the exchange rate risk between the base currency and the Class currency.

Currency hedging techniques may be used at Share Class level. In this context, the Investment Manager will limit hedging to the extent of the relevant hedged share class currency exposure. Over-hedged positions will not normally exceed 105% of the Net Asset Value of the relevant hedged share class and under-hedged positions shall not normally fall short of 95% of the portion of the Net Asset Value of the relevant hedged share class which is to be hedged against currency risk. Hedged positions will be reviewed on an on-going basis by the Investment Manager, at least at the same valuation frequency as the applicable Sub-Fund, to ensure that over-hedged or under-hedged positions do not exceed/fall short of the permitted levels outlined above and to ensure that positions materially in excess of 100% of the Net Asset Value of the relevant hedged share class will not be carried forward from month to month. In the event that the hedging in respect of a hedged share class exceeds 105% of the Net Asset Value of the relevant hedged share class due to

market movements or redemptions of shares, the Investment Manager shall reduce such hedging appropriately as soon as possible thereafter.

Shareholders should also note that generally there is no segregation of assets and liabilities between classes in a Sub-Fund and therefore a counterparty to a derivative overlay entered into in respect of a hedged share class may have recourse to the assets of the relevant Sub-Fund attributable to other classes of that Sub-Fund where there is insufficient assets attributable to the hedged share class to discharge its liabilities. While the Company has taken steps to ensure that the risk of contagion between classes is mitigated in order to ensure that the additional risk introduced to the Sub-Fund through the use of a derivative overlay is only borne by the shareholders in the relevant class, this risk cannot be fully eliminated.

An up-to-date list of the Classes with a contagion risk is available upon request at the registered office of the Company.

B. REGISTERED SHARES

The Shares of each Sub-Fund are, as determined by the Board of Directors, issued in registered form. Shareholders will receive confirmations of inscription in the Register, at the Shareholder's requests.

The inscription of the Shareholder's name in the Register of Shareholders evidences his or her right of ownership of such Shares.

All Shares are of no par value and carry no preferential or pre-emptive rights. Each Share of the Company to whatever Sub-Fund it belongs is entitled to one vote at any general meeting of Shareholders, in compliance with Luxembourg law and the Articles of Incorporation.

The Company draws the investors' attention to the fact that any investor will only be able to fully exercise his investor rights directly against the Company, notably the right to participate in general meetings of Shareholders, if the investor is registered himself and in his own name in the Register. In cases where an investor invests in the Company through an intermediary investing into the Company in his own name but on behalf of the investor, it may not always be possible for the investor to exercise certain Shareholder rights directly against the Company. Investors are advised to take advice on their rights.

C. FRACTIONS OF SHARES

Fractions of Shares with up to four decimal places will rounded down and be issued for registered Shares deposited directly with the Depositary.

Share transfer forms for the transfer of registered Shares are available at the registered office of the Registrar Agent.

D. UNITED STATES OF AMERICA (THE "USA")

The Shares have not been registered under the United States Securities Act of 1933, as amended (the "1933 Act"); they may therefore not be publicly offered or sold in the USA, or in any of its territories subject to its jurisdiction or to or for the benefit of a U.S. Person as such expression is defined by Article 10 of the Articles of Incorporation and hereinafter.

The Shares are not being offered in the USA, and may be so offered only pursuant to an exemption from registration under the 1933 Act, and have not been registered with the Securities and Exchange Commission or any state securities commission nor has the Company been registered under the Investment Company Act of 1940, as amended (the "1940 Act"). No transfer or sale of the Shares shall be made unless, among other things, such transfer or sale is exempt from the registration requirement of the 1933 Act and any applicable state securities laws or is made pursuant to an effective registration statement under the 1933 Act and such state securities laws and would not result in the Company becoming subject to registration or regulation under the 1940 Act. Shares may furthermore not be sold or held either directly by nor to the benefit of, among others, a citizen or resident of the USA, a partnership organized or existing in any state, territory or possession of the USA or other areas subject to its jurisdiction, an estate or trust the income of which is subject to United States federal income tax regardless of its source, or any corporation or other entity organized under the law of or existing in the USA or any state, territory or possession thereof or other areas subject to its jurisdiction (a "U.S. Person"). All purchasers must certify that the beneficial owner of such Shares is not a U.S. Person and is purchasing such Shares for its own account, for investment purposes only and not with a view towards resale thereof.

E. FATCA

FATCA, a portion of the Hire Act, became law in the United States in 2010. It requires financial institutions outside the US ("foreign financial institutions" or "FFIs") to pass information about "Financial Accounts" held by specified US persons, directly or indirectly, to the US tax authorities, the Internal Revenue Service ("IRS") on an annual basis. A 30% withholding tax is imposed on certain US source income of any FFI that fails to comply with this requirement. On 28 March 2014, the Grand-Duchy of Luxembourg entered into a Model 1 Intergovernmental Agreement ("IGA") with the United States of America and a memorandum of understanding in respect thereof. The Company would hence have to comply with such Luxembourg IGA, as implemented into Luxembourg law by the Law of 24 July 2015 relating to FATCA (the "FATCA Law") in order to comply with the provisions of FATCA rather than directly complying with the US Treasury Regulations implementing FATCA. Under the FATCA Law and the Luxembourg IGA, the Company may be required to collect information aiming to identify its direct and indirect shareholders that are specified US persons for FATCA purposes ("FATCA reportable accounts"). Any such information on FATCA reportable accounts provided to the Company will be shared with the Luxembourg tax authorities which will exchange that information on an automatic basis with the Government of the United States of America pursuant to Article 28 of the convention between the Government of the United States of America and the Government of the Grand-Duchy of Luxembourg for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes in Income and Capital, entered into in Luxembourg on 3 April 1996. The Company intends to comply with the provisions of the FATCA Law and Luxembourg IGA to be deemed compliant with FATCA and will thus not be subject to the 30% withholding tax with respect to its share of any such payments attributable to actual and deemed U.S. investments of the Company. The Company will continually assess the extent of the requirements that FATCA and notably the FATCA Law place upon it.

To ensure the Company's compliance with FATCA, the FATCA Law and the Luxembourg IGA in accordance with the foregoing, the Company may:

- a. request information or documentation, including W-8 tax forms, a Global Intermediary Identification Number, if applicable, or any other valid evidence of a Shareholder's FATCA registration with the IRS or a corresponding exemption, in order to ascertain such Shareholder's FATCA status;
- b. report information concerning a Shareholder and his account holding in the Company to the Luxembourg tax authorities if such account is deemed a FATCA reportable account under the FATCA Law and the Luxembourg IGA;
- c. report information to the Luxembourg tax authorities (*Administration des Contributions Directes*) concerning payments to Shareholders with FATCA status of a non-participating foreign financial institution;
- d. deduct applicable US withholding taxes from certain payments made to a Shareholder by or on behalf of the Company in accordance with FATCA, the FATCA Law and the Luxembourg IGA; and
- e. divulge any such personal information to any immediate payor of certain U.S. source income as may be required for withholding and reporting to occur with respect to the payment of such income.

2. SHARE ISSUE AND SUBSCRIPTION PRICE

A. CONTINUOUS OFFERING

After the close of the initial offering period (as stipulated in each Sub-Fund's relevant data sheet under Appendix IV) each Sub-Fund's Share may be subscribed at the registered office of the Registrar Agent on any Valuation Day as stipulated in each Sub-Fund's relevant data sheet under Appendix IV at a price per Share equal to the Net Asset Value per Share calculated on such relevant Valuation Day for the relevant Sub-Fund plus a maximum subscription fee (for the benefit of the distributor) in accordance with the provision described in the Sub-Fund's relevant data sheet under Appendix IV.

This subscription fee may be retroceded to the various financial intermediaries involved in the marketing of the Shares.

Any investor applying for subscription of Shares may at any time request such subscription by way of a written application, considered irrevocable, sent to the Registrar Agent. Requests must contain the following information:

- the exact name and address of the person making the subscription request

- the amount or the number of Shares to be subscribed
- the Sub-Fund to which such subscription applies
- the Class of Shares concerned
- the subscription amount and instruction of payments to be used in cases of future redemptions.

Provided the application together with any required documentation as well as cleared funds are received prior to the cut-off time stated in the information regarding of each Sub-Fund, the Shares will be issued based on the Net Asset Value per Share applicable on that Valuation Day. If received thereafter, the application will be deferred to the following Valuation Day.

Shares will be allotted on receipt of the payment and of the duly fulfilled application form.

The Company reserves the right to reject any application in whole or in part. Details of the method of application for Shares are set out in the application form. Application forms can be obtained from the registered office of the Registrar Agent. Investors may apply for Shares by facsimile or letter at the registered office of the Registrar Agent.

Payment must be made in the reference currency of the Class of Shares in accordance with the provisions described in the Sub-Fund's relevant data sheet under Appendix IV. If the payment is made in a currency different from the reference currency of the relevant Class or Sub-Fund, any currency conversion cost shall be borne by the respective Shareholder or the payment may be rejected.

The Board of Directors may, under its own responsibility and in accordance with this Prospectus accept subscriptions by way of *in specie* transfer of assets. In exercising its discretion, the Board of Directors will take into account the investment objective, philosophy and approach of the relevant Sub-Fund and whether the proposed *in specie* assets comply with those criteria including the permitted investments of such Sub-Fund.

In order for Shares in the Company to be issued further to an *in specie* subscription, the transfer of the legal ownership of the assets to Company must have been completed and the assets in question must have already been valued. In the specific case of an *in specie* transfer of shares or units of a UCITS or other undertakings for collective investments ("UCI"), Shares will only be issued once the name of the Company has been entered into in the register of shareholders or unitholders of the relevant UCITS or other UCI and the shares or units of the UCITS or other UCI have been valued on the basis of the next net asset value to be calculated after the aforementioned entry.

For any *in specie* subscription, a valuation report will be drawn up by the Company's auditors giving in particular the quantity, denomination and method of valuation adopted for these assets. Such special audit report will also specify the total value of the assets expressed in the currency of the Sub-Fund concerned by this contribution. Upon receipt of that verification and a properly completed application form, the Registrar Agent will allot the requisite number of Shares in the normal manner. The Board of Directors reserves the right to decline to register any person on the Register until the subscriber has been able to prove title to the assets in question. The subscriber shall be responsible for all custody and other costs involved in changing the ownership of the relevant assets unless the Board of Directors otherwise agrees. The specific costs for such subscriptions *in specie*, in particular the cost of the said special audit report will be borne by the subscriber.

Taxes or brokerage fees that may be due on a subscription are paid by the subscriber. Under no circumstances may these costs exceed the maximum authorised by the laws, regulations and general banking practices of the countries in which the Shares are acquired.

The Board of Directors may resolved to only accept Shareholders' initial applications for ownership in any Sub-Fund Class of Shares for a minimum initial subscription amount stipulated in the list of Sub-Funds launched under Appendix IV.C.

The Board of Directors may set for each Sub-Fund or Class of Shares different minimum initial subscription amounts, minimum further subscription amounts and minimum holding amounts, in accordance with the provision described in the list of Sub-Funds launched under Appendix IV.C.

No Class of Shares will be issued by the Company in a Sub-Fund during any period when the calculation of the Net Asset Value per Share of any particular Class of Shares is suspended by the Board of Directors pursuant to the power reserved to it by the Articles of Incorporation and described under Section IV "Net Asset Value" hereafter. Any such suspension shall be publicised by the Company and a notice of any such suspension shall be given to the persons having applied for subscription, and any application either presented or suspended along such suspension may be withdrawn by way of a written notice to be received by the Company prior to the termination of the relevant suspension which will inform the Registrar Agent.

Unless so withdrawn, any application shall be taken into consideration on the first Valuation Day following such suspension.

Such suspension as to any Class of Shares will have no effect on the calculation of the Net Asset Value, subscription price or redemption price, the issue, redemption and conversion of the Shares of any other Class.

The issue price of Shares in the Sub-Funds is available at the registered office of the Company, of the Management Company and of the Administrative Agent.

B. REFUSAL OF SUBSCRIPTIONS

The Company may restrict or prevent the ownership of Shares by any person, firm or company if the holding of Shares by such person, firm or company results in a breach of law or regulations whether Luxembourg or foreign or if such holding may be detrimental to the Company or the majority of its Shareholders (as further described in the Company's Articles of Incorporation), as its discretion and without liability.

The Company does not allow market timing (defined as an arbitrage method through which an investor systematically subscribes and redeems or converts Shares of the Company within a short time period, by taking advantage of time differences and/or imperfections or deficiencies in the method of determination of the Net Asset Value of the Company).

Moreover, in any case of suspicion of such market timing practice, the Board of Directors reserves the right to:

- refuse any subscription;
- redeem at any time Shares in the Company.

Such actions do not need to be justified.

C. FIGHT AGAINST MONEY LAUNDERING AND FINANCING OF TERRORISM

In accordance with international regulations and Luxembourg laws and regulations (including, but not limited to, the amended Law of 12 November 2004 on the fight against money laundering and financing of terrorism, the Grand Ducal Regulation dated 1 February 2010, CSSF Regulation 12-02 of 14 December 2012, CSSF Circulars 13/556 and 15/609 concerning the fight against money laundering and terrorist financing, and any respective amendments or replacements), obligations have been imposed on all professionals of the financial sector in order to prevent undertakings for collective investment from money laundering and financing of terrorism purposes. As result of such provisions, the registrar and transfer agent of a Luxembourg UCI must ascertain the identity of the subscriber in accordance with Luxembourg laws and regulations. The registrar and transfer agent may require subscribers to provide any document it deems necessary to effect such identification. In addition, the Registrar Agent, as delegate of the Company, may require any other information that the Company may require in order to comply with its legal and regulatory obligations, including but not limited to the CRS Law (as defined below).

In case of delay or failure by an applicant to provide the required documentation, the subscription request will not be accepted and in case of redemption, payment of redemption proceeds delayed. Neither the Company nor the Registrar Agent will be held responsible for said delay or failure to process deals resulting from the failure of the applicant to provide documentation or incomplete documentation.

From time to time, Shareholders may be asked to supply additional or updated identification documents in accordance with client's ongoing due diligence obligations according to the relevant laws and regulations.

3. REDEMPTION OF SHARES

Unless otherwise provided for in Appendix IV, Shareholders may place redemption orders every Bank Business Day for all or part of their shareholdings. Redemption requests, considered irrevocable, should be sent to the registered office of the Registrar Agent. Requests must contain the following information:

- the exact name and address of the person making the redemption request
- the number of Shares or the amount to be redeemed
- the Sub-Fund to which such Shares belong
- the Class of Shares and instruction of payments to be used in cases to credit the investor.

Provided the application together with any required documentation is received prior to the cut-off time stated in Appendix IV in relation to each Sub-Fund, the Shares will be redeemed based on the Net Asset Value per Share applicable on that Valuation Day. If received thereafter, the application will be deferred to the next following Valuation Day.

A redemption fee (for the benefit of the relevant Class) at a maximum rate in accordance with the provision described in the Sub-Fund's relevant data sheet under Appendix IV may be deducted from this amount.

The redemption value may be higher than, equal to, or lower than the initial purchase price.

The redemption price may be rounded up or down to the nearest unit of the relevant currency as the Board of Directors shall determine.

Unless otherwise provided for in Appendix IV, the redemption proceeds will be paid on the third Bank Business Day after the relevant Valuation Day by bank transfer.

The payment of the redemption price shall automatically be made in the reference currency of the relevant Class of Shares or Sub-Fund, except upon instructions to the contrary are received from the Shareholder. In such case, payment may be made in the reference currency of the Company or in any other freely convertible currency and any currency conversion cost shall be deducted from the amount payable to that Shareholder.

Redemption orders will not actually be processed, and the redemption proceeds will not actually be paid until the redemption form for registered Shares has been received.

Neither the Board of Directors, nor the Registrar Agent will be held responsible for any lack of payment of whatever form resulting from the application of possible exchange controls or other circumstances beyond its/their control which may limit or render impossible the transfer of the redemption proceeds to other countries.

In relation to an application for redemption, or transfer of Shares, the Company and/or Registrar Agent may require at any time such documentation as it/they deem appropriate. Failure to provide such information in a form which is satisfactory to the Company and/or Registrar Agent may result in an application for redemption or transfer not being processed. Should documentation not be forthcoming with regard to the return of payments or the redemption of Shares, then such payment may not proceed.

No third party payments will be made.

In addition to the suspension of the issue of Shares, a suspension of the calculation of the Net Asset Value of a Sub-Fund entails also the suspension of redemptions of that Sub-Fund as set out in Section IV.2. below. Any suspension of redemptions will be notified in accordance with Section IV "Net Asset Value" by all appropriate means to the Shareholders having presented their requests, the execution of which has been differed or suspended. The Board of Directors may decide to delay the payment of redemption proceeds, in circumstances where the Company is unable to repatriate cash proceeds or during any period where the calculation of the Net Asset Value has been suspended.

The payment of redemption proceeds that has been delayed will occur within three Bank Business Days after the next Valuation Day following the suspension.

If the total net redemption requests received for one Sub-Fund or one Class on any Valuation Day exceed 10% of the Net Asset Value thereof, the redemption requests presented may be reduced and differed proportionally so as to reduce the number of Shares redeemed on such day to 10% of the Net Asset Value of the Sub-Fund or Class in question. Any redemption request thus differed will have priority over the redemption requests received on the following Valuation Day, but always subject to the limit of 10% mentioned above.

In normal circumstances the Board of Directors will maintain adequate level of liquid assets in order to meet redemption requests.

Redemption in specie

The Board of Directors may at the request of a Shareholder elect to satisfy a redemption in whole or in part by way of the transfer *in specie* of assets of the Company. The Board of Directors will ensure that the transfer of assets *in specie* in cases of such redemptions will not be detrimental to the remaining Shareholders of the Company by pro-rating the redemption *in specie* as far as possible across the entire portfolio of securities

and will ensure that all Luxembourg law provisions have been respected, and in particular, in accordance with article 21 of the Articles of Incorporation, the obligation to present an evaluation report from the Auditor of the Company confirming the number, the denomination and the value of the assets which the Board of Directors will have determined to be transferred in counterpart of the redeemed Shares. This audit report will also confirm the way of determining the value of the assets which will have to be identical to the procedure for determining the Net Asset Value of the Shares. The specific costs for such redemptions *in specie*, in particular the cost of the special audit report will be borne by the redeeming Shareholder or by a third party, but will not be borne by the Company unless the Board of Directors considers that the redemption in kind is in the interest of the Company or made to protect the interests of the Company.

4. CONVERSION OF SHARES

If such right is set out in Appendix IV of the Prospectus, Shareholders have the right, subject to the provisions hereinafter specified, to convert on the Valuation Day specified for each Sub-Fund in Appendix IV of the Prospectus Shares from one Sub-Fund for Shares of another Sub-Fund within the same Class of Shares or to convert whole or part of their Shares of one Class into Shares of another Class, if any, within the same Sub-Fund.

A conversion can be analysed as a simultaneous transaction of redemption and subscription of Shares.

Consequently, such a transaction may only be processed on the first Valuation Day on which both the Net Asset Values of the Sub-Funds involved in the said transaction are calculated.

Shareholders of one Class in a Sub-Fund may request at any time the conversion of all or part of their holdings into Shares of another Class in the same or another Sub-Fund. Only institutional investors within the meaning of Article 174 (2) of the 2010 Law may convert their Shares into a Class that is reserved to institutional investors.

Conversion, considered irrevocable, must be sent at the registered office of the Registrar Agent by letter or facsimile, and by indicating the name of the Sub-Fund into which the Shares are to be converted and specifying the Class of the Shares to be converted, the Class of the Shares of the new Sub-Fund to be issued. If this information is not given, the conversion will be made into Shares of the same Class.

Provided the application together with the required documentation is received prior to the cut-off time stated in the information regarding of each Sub-Fund in Appendix IV of the Prospectus, the Shares will be converted based on the Net Asset Value per Share applicable on that Valuation Day. If received thereafter, the application will be deferred to the following Valuation Day.

The conversion proceeds will normally be settled on the third Bank Business Day after the relevant Valuation Day.

Shares may be converted on any Valuation Day following receipt of the conversion request, by reference to the Net Asset Value of the Shares of the Sub-Funds concerned as established on such Valuation Day.

The rate at which all or part of the holding of a given Sub-Fund or Class (the "original Sub-Fund") is converted into Shares of another Sub-Fund or Class (the "new Sub-Fund") is determined as precisely as possible in accordance with the following formula:

$$A = \frac{(B \times C) - F}{D} \times E$$

- A being the number of Shares of the new Sub-Fund to be attributed;
- B being the number of Shares of the original Sub-Fund to be converted;
- C being the prevailing Net Asset Value per Share of the original Sub-Fund on the day in question;
- D being the prevailing Net Asset Value per Share of the new Sub-Fund on the day in question;
- E being the exchange rate applicable at the time of the transaction between the currency of the Sub-Fund to be converted and the currency of the Sub-Fund to be attributed; and
- F being a conversion fee payable to the original Sub-Fund, at a maximum rate in accordance with the provision described in the Sub-Fund's relevant data sheet under Appendix IV.

A conversion fee (for the benefit of the original class) at a maximum rate in accordance with the provision described in the Sub-Fund's relevant data sheet under Appendix IV may be deducted from the prevailing Net Asset Value per Share of the original Sub-Fund used for the conversion. This maximum rate should be the same applicable rate for all the conversion order executed on the same Valuation Day.

After conversion, the Registrar Agent will inform the Shareholders of the number of Shares obtained of the new Sub-Fund and their cost.

In converting Shares of a Sub-Fund into Shares of another Class or Sub-Fund, a Shareholder must meet the applicable minimum initial subscription amount requirements of this target Class or Sub-Fund, if any.

If, as a result of any request for conversion, the number of Shares held by any Shareholder in a Sub-Fund or Class would fall below the value of minimum initial subscription amount indicated in the old Sub-Fund, the Company may treat such request as a request to convert the entire shareholding of such Shareholder. In addition, the Shareholder must comply with the minimum holding requirements, if any, with respect to the new Sub-Fund, as stipulated in the list of Sub-Funds launched under Appendix IV.C.

No conversion of Shares may be carried out whenever the calculation of the Net Asset Value of one of the Sub-Funds involved in the conversion operation is suspended.

Any suspension of conversions will be notified in accordance with Section IV "Net Asset Value" by all appropriate means to the Shareholders having presented their requests, the execution of which has been differed or suspended.

5. PREVENTION OF MARKET TIMING AND LATE TRADING PRACTICES – SWING PRICING

The SICAV does not allow investments which are associated with late trading or market timing practices, as such practices may adversely affect the interests of the Shareholders.

5.1 Market Timing

Market Timing is to be understood as an arbitrage method through which an investor systematically subscribes and redeems or converts shares of the same UCI within a short time period, by taking advantage of time differences and/or imperfections or deficiencies in the method of determination of the Net Asset Value of the UCI.

Accordingly, the Board of Directors may, whenever it deems it appropriate, cause the Registrar Agent to reject an application for subscription and/or switching of Shares from investors whom the Directors consider market timer and may, if necessary, take appropriate measures in order to protect the interests of the other investors. For these purposes, the Board of Directors may consider an investor's trading history and the Registrar Agent may combine Shares which are under common ownership or control.

5.2 Late Trading

Late Trading is to be understood as the acceptance of a subscription, conversion or redemption order after the time limit fixed for accepting orders (cut-off time) on the relevant day and the execution of such order at the price based on the Net Asset Value applicable to such same day.

Therefore, the subscriptions, conversions or redemptions are dealt with at an unknown Net Asset Value.

6. STOCK EXCHANGE LISTING

It will be set out in Appendix IV of the Prospectus whether the Shares of one of the Company's Sub-Funds or Classes are listed on the Luxembourg Stock Exchange and the Board of Directors may decide in relation thereto at its discretion.

IV. NET ASSET VALUE

1. GENERAL PRINCIPLES

A. DEFINITION AND CALCULATION OF THE NET ASSET VALUE

The Net Asset Value per Share of each Sub-Fund and Class of Shares of the Company is calculated in Luxembourg by the Administrative Agent, under the responsibility of the Management Company, on each Valuation Day on a frequency as defined in the Sub-Funds' relevant data sheets under Appendix IV, provided this day is a Bank Business Day in Luxembourg.

The Net Asset Values are expressed in the Sub-Fund's and Class' respective reference currency, as stated in the list of Sub-Funds launched under Appendix IV.C.

The value of the Shares of each Sub-Fund and Class is obtained by dividing the Net Asset Value of the assets of the Sub-Fund and Class considered by the number of outstanding Shares of these Sub-Funds and Classes. The number of decimals for the calculation of the Net Asset Value will be rounded up to 2 decimals.

If the Board of Directors considers that the Net Asset Value calculated on a given Valuation Day is not representative of the true value of the Company's Shares, or if, since the calculation of the Net Asset Value, there have been significant fluctuations on the stock exchanges concerned, the Board of Directors may decide to actualise the Net Asset Value on that same day. In these circumstances, all subscription, redemption and conversion requests received for that day will be handled on the basis of the actualised Net Asset Value with due care and good faith.

B. DEFINITION OF THE PORTFOLIOS OF ASSETS

The Board of Directors will establish a distinct portfolio of net assets for each Sub-Fund. Where relations between Shareholders and third parties are concerned, this portfolio will be attributed only to the Shares issued by the Sub-Fund in question, taking into account, if necessary, the break-down of this portfolio between the Shares of this Sub-Fund, in accordance with the provisions of this clause.

In order to establish these different portfolios of net assets:

1. if two or more Shares' Classes belong to a given Sub-Fund, the assets allocated to such Classes will be invested together according to the investment policy of the relevant Sub-Fund subject to the specific features of said Shares' Classes;
2. the proceeds resulting from the issue of the Shares of a Class of a given Sub-Fund will be attributed in the Company's accounts to the relevant Class of this Sub-Fund and the assets, liabilities, income and expenses relating to this Sub-Fund/ Class will also be attributed thereto;
3. the assets, liabilities, income and expenses relating to this Sub-Fund/Class will also be attributed thereto;
4. where any asset derives from another asset, such derivative asset will be applied in the books of the Company to the same Sub-Fund from which it was derived, and on each subsequent revaluation of an asset, the increase or decrease in value will be attributed to the Sub-Fund to which it belongs;
5. if the Company has to bear a liability which is connected with an asset of a particular Sub-Fund or Class with a transaction carried out in relation to an asset of a particular Sub-Fund or Class, this liability will be attributed to that particular Sub-Fund or Class (for example: hedging transactions);
6. in the case where any asset or liability of the Company cannot be considered as being attributable to a particular Class of Shares, such asset or liability shall be allocated to all the Classes of Shares pro rata to their respective Net Asset Values or in such other manner as determined by the Board of Directors acting in good faith. With reference to the relations between Shareholders and third parties, each Sub-Fund and Class of Shares will be treated as a separate entity.

C. VALUATION OF ASSETS

The assets of each Sub-Fund of the Company will be valued in accordance with the following principles:

1. The value of any cash at hand or on deposit, bills, demand notes and accounts receivable, prepaid expenses, dividends and interests matured but not yet received shall be valued at the par-value of the assets, except if it appears that such value is unlikely to be paid or received in full. In such a case, subject to the approval of the Board of Directors, the value shall be determined by deducting a certain amount to reflect the true value of the assets.
2. The value of Transferable Securities, Money Market Instruments and/or financial derivative instruments listed on an official Stock Exchange or dealt in on a regulated market which operates regularly and is recognised and open to the public (a "Regulated Market"), as defined by laws and regulations in force, is based on the latest available price and if such Transferable Securities are dealt in on several markets, on the basis of the latest known price on the stock exchange which is normally the principal market for such securities. If the latest known price is not representative, the value shall be determined based on a reasonably foreseeable sales price to be determined prudently and in good faith.
3. In the event that any Transferable Securities or/and Money Market Instruments are not listed or dealt in on any stock exchange or any other Regulated Market operating regularly, recognised and open to the public, as defined by the laws and regulations in force, the value of such assets shall be assessed on the basis of their foreseeable sales price estimated prudently and in good faith.
4. The liquidating value of derivative contracts not traded on exchanges or on other Regulated Markets shall mean their net liquidating value determined by the Board of Directors in a fair and reasonable manner, on a basis consistently applied for each different variety of contracts, and verified by a competent professional appointed by the Company in accordance with market practice. The liquidating value of futures, forward and options contracts traded on exchanges or on other Regulated Markets shall be based upon the last available settlement prices of these contracts on exchanges and Regulated Markets on which the particular futures, forward or options contracts are traded by the Company; provided that if a futures, forward and options contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable.
5. Credit default swaps will be valued at their present value of future cash flows by reference to standard market conventions, where the cash flows are adjusted for default probability. Interest rate swaps will be valued at their market value established by reference to the applicable interest rates' curve. Other swaps will be valued at fair market value as determined in good faith pursuant to the procedures established by the board of directors and recognised by the auditor of the Company.
6. The value of Money Market Instruments not listed or dealt in on any stock exchange or any other Regulated Market and with remaining maturity of less than 12 (twelve) months and of more than 90 (ninety) days is deemed to be the nominal value thereof, increased by any interest accrued thereon. Money market instruments with a remaining maturity of 90 (ninety) days or less will be valued by the amortised cost method, which approximates market value.
7. Units of UCITS and/or other UCI will be valued at their last determined and available Net Asset Value or, if such price is not representative of the fair market value of such assets, then the price shall be determined by the Board of Directors on a fair and equitable basis. Units or shares of a closed-ended UCI will be valued at their last available stock market value.
8. All other securities and other assets will be valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors.
9. The value of all assets and liabilities not expressed in the reference currency of a Sub-Fund will be converted into the reference currency of such Sub-Fund at rates last quoted by major banks. If such quotations are not available, the rate of exchange will be determined in good faith by or under procedures established by the Board of Directors.
10. The Board of Directors, at its sole discretion, may permit some other method of valuation to be used if it considers that such valuation better reflects the fair value of any asset of the Company.

Every other asset shall be assessed on the basis of the foreseeable realisation value which shall be estimated prudently and in good faith.

In the event where the interests of the Company or its Shareholders so justify or where that extraordinary circumstances render valuations as aforesaid impracticable or inadequate, the Company is authorised, prudently and in good faith, to follow other rules in order to achieve a fair valuation of its assets.

All and any assets not expressed in the currency of the Sub-Fund to which they belong shall be converted into the currency of that Sub-Fund at the exchange rate applying on the concerned Bank Business Day or at such exchange rate as may be agreed in the relevant forward contracts.

The value of the net assets per Share of each Class, as well as their issue, redemption and conversion prices shall be made available at the registered office of the Company every Bank Business Day.

Adequate deductions will be made for expenses to be borne by the Company and account will be taken of the Company's liabilities according to fair and prudent criteria. Adequate provisions will be made for the expenses to be borne by the Company and account may be taken of the Company's off balance sheet liabilities according to fair and prudent criteria.

2. SUSPENSION OF THE CALCULATION OF THE NET ASSET VALUE, OF ISSUES, CONVERSIONS AND REDEMPTIONS OF SHARES

- A. The Board of Directors is authorised to suspend temporarily the calculation of the Net Asset Value of the assets of one or more Sub-Fund(s) or Class(es) of the Company and the Net Asset Value per Share of such Sub-Fund(s) or Class(es), as well as the issue, redemption and conversion of the Shares of these Sub-Funds or Classes, in the following cases:
- a) when any of the principal stock exchanges, on which a substantial portion of the assets of one or more Sub-Funds of the Company is quoted or dealt in, is closed other than for ordinary holidays, or during which dealings therein are suspended or restricted;
 - b) when the market of a currency, in which a substantial portion of the assets of one or more Sub-Fund(s) or Class(es) of the Company is denominated, is closed other than for ordinary holidays, or during which dealings therein are suspended or restricted;
 - c) where the existence of any state of affairs which constitutes an emergency as a result of which disposals or valuation of assets owned by the Company attributable to such Sub-Fund(s) or Class(es) would be impracticable;
 - d) when any breakdown arises in the means of communication normally employed in determining the value of the assets of one or more Sub-Fund(s) or Class(es) of the Company or when for whatever reason the value of one of the Company's investments cannot be rapidly and accurately determined;
 - e) when the Company is unable to repatriate funds for the purpose of making payments on the redemption of Shares of such Sub-Fund(s) or Class(es) or during which any transfer of funds involved in the realisation or acquisition of investments or payments due on redemption of Shares of such Sub-Fund(s) or Class(es) cannot in the opinion of the Directors be effected at normal rates of exchange;
 - f) when the Board of Directors has determined that there has been a material change in the valuations of a substantial proportion of the investments of the Company attributable to a particular Class of Shares in the preparation or use of a valuation or the carrying out of a later or subsequent valuation;
 - g) when any other circumstance or circumstances where a failure to do so might result in the Company or its Shareholders incurring any liability to taxation or suffering other pecuniary disadvantages or any other detriment which the Company or its Shareholders might so otherwise have suffered;
 - h) when the determination of the Net Asset Value per Share of and/or the redemptions in the underlying investment funds representing a material part of the assets of the Sub-Fund(s) or Class(es) is suspended;
 - i) when exchange restrictions or restrictions on the transfer of capital render the execution of transactions on behalf of the Company impossible, or when purchases or sales made on behalf of the Company cannot be carried out at normal exchange rates;
 - j) when political, economic, military, monetary or fiscal circumstances which are beyond the control, responsibility and influence of the Company prevent the Company from disposing of the assets, or from determining the Net Asset Value, of one or more Sub-Fund(s) or Class(es) of the Company in a normal and reasonable manner;

- k) any period when, in the opinion of the Board of Directors, there exists unusual circumstances where it would be impracticable or unfair towards the Shareholders to continue dealing in the Shares of any Class of the Company;
 - l) as a consequence of any decision to liquidate or dissolve or merger of the Company or one or several Sub-Fund(s), in which event the Board of Directors may decide to suspend the determination of the Net Asset Value as from the date of its decision to propose to the Shareholders the winding up or liquidation or merger of the Company or the date of its decision to wind up or liquidate or merge the relevant Class(s);
 - m) in the event of the publication (i) of the convening notice to a general meeting of shareholders at which a resolution to wind up the Company or any Sub-Fund is to be proposed, or of the decision of the Board of Directors to wind up one or more Sub-Funds, or (ii) to the extent that such a suspension is justified for the protection of the shareholders, of the notice of the general meeting of shareholders at which the merger of the Company or a Sub-Fund is to be proposed, or of the decision of the Board of Directors to merge one or more Sub-Funds;
 - n) while the Net Asset Value of any subsidiary of the Company may not be determined accurately;
 - o) where the master UCITS of a feeder Sub-Fund temporarily suspends the repurchase, redemption or subscription of its units/shares, whether on its own initiative or at the request of its competent authorities;
 - p) any period where circumstances exist that would justify the suspension for the protection of Shareholders in accordance with the Law.
 - q) any other circumstances beyond the control of the Board of Directors as determined by the Directors in their discretion.
- B. Any suspension of the calculation of the Net Asset Value of the Shares of one or more Sub-Fund(s) or Class(es) will be notified by the Company in such manner as it may deem appropriate. The Company will inform the Shareholders having requested the subscription, redemption or conversion of the Shares of these Sub-Funds or Classes of any suspension of calculation in the appropriate manner.

Such suspension with regard to any Sub-Fund or Classes of Shares shall have no effect on the calculation of the Net Asset Value of another Sub-Fund or Class.

During the suspension period, Shareholders may cancel any subscription, redemption or conversion orders they have placed. If orders are not cancelled, Shares will be issued, redeemed or converted on the basis of the first Net Asset Value calculated after the suspension period.

- C. In exceptional circumstances which may be detrimental to the Shareholders' interests (for example large numbers of redemption, subscription or conversion requests, strong volatility on one or more market(s) in which the Sub-Fund(s) or Class(es) is (are) invested), the Board of Directors reserves the right to postpone the determination of the value of this (these) Sub-Fund(s) or Class(es) until the disappearance of these exceptional circumstances and, if the case arises, until any essential sales of securities on behalf of the Company have been completed.

In such cases, subscriptions, redemption requests and conversions of Shares, which were suspended simultaneously, will be satisfied on the basis of the first Net Asset Value calculated thereafter.

V. DIVIDENDS

If the Board of Directors decides to authorise the Company to make distributions of income and capital gains, details of the distribution policy will be disclosed in the Sub-Fund's relevant data sheet under Appendix IV.

No distribution may be made which would result in the net assets of the Company falling below the minimum provided for by Luxembourg law.

Unless otherwise stated in the relevant data sheet under Appendix IV, the current policy of the Board of Directors is to reinvest any dividends collected by the Company in further shares of the relevant Sub-Fund and Class.

Dividends not claimed within five years from their payment date will lapse and revert to the relevant Sub-Fund.

VI. CHARGES AND EXPENSES

1. FEES TO BE BORNE BY THE COMPANY

The following costs may be charged to the Company:

- costs incurred in connection with the formation of the Company, including the cost of services rendered in the incorporation of the Company and in obtaining approval by the competent authorities;
- remuneration of the Investment Manager, the Investment Advisor (if any), the Depositary, the Principal Paying Agent, the Registrar Agent, the Administrative Agent, and the Management Company and, if any, the remuneration of correspondents;
- Administrative and domiciliary agency fees, if any;
- expenses for legal and other professional services relating to the management of the Company and its Sub-Funds;
- Auditors' costs and audit fees;
- remuneration of the members of the Board of Directors and reimbursement of their reasonable expenses, if any, including the costs of a directors and officers liability insurance;
- costs of printing and publishing information for the Shareholders and in particular the costs of printing and distributing the periodic reports, as well as the Prospectuses, brochures and other marketing material;
- brokerage fees and any other operating expenses or fees arising from transactions involving securities in the Company's portfolio;
- all taxes and duties which may be payable on the Company's income;
- the annual registration fee (cf. Section IX.1.), as well as taxes or other fees payable to the supervisory authorities and costs relating to the distribution of dividends;
- extraordinary expenses, in particular those relating to the consultation of experts or other such proceedings as may protect the Shareholders' interests;
- annual fees payable for stock exchange listing, if any;
- subscriptions to professional associations and other organisations in Luxembourg, which the Company will decide to join in its own interest and in that of its Shareholders;
- risk and compliance management and fund reports;
- license fees for benchmark disclosure may be charged when a Sub-Fund uses a benchmark which requires a license;
- research cost, if any;
- each Sub-Fund bears the costs and expenses of compliance with the EU Regulation 2019/2088 on sustainability-related disclosures in the financial services sector ("SFDR") and any other applicable legislation of regulations related to the EU Action Plan, including costs and expenses of collecting and calculating data and the preparation of policies, disclosures and reports in addition to other matters that relate solely to marketing and regulatory matters. It is difficult to predict the full extent of the impact of the SFDR and EU Action Plan on the Company and on each Sub-Fund. The Board of Directors of the Company will reserve the right to adopt such arrangements as it deems necessary or desirable to comply with any applicable requirements of the SFDR and any other applicable legislation or regulations related to the EU Action Plan.

The Company will pay to the Depositary annual fees, which are composed of different elements, which will include a fee for its supervisory duties of a maximum 0.0075% of the net asset value at the Company level subject to a minimum monthly fee per Sub-Fund of EUR 250, plus a minimum annual safekeeping fee of EUR 5,000.- per Sub-Fund, payable on a monthly basis. Additional fees (e.g. transaction fee) may be paid by the Company to the Depositary for additional services it may render, as disclosed in the Depositary Agreement.

The Company will pay to the Central Administration Agent annual fees which will vary up to a maximum of 0.02% of the net asset value at the Company level, subject to a minimum fee per sub-fund of EUR 20,000.-, payable on a monthly basis. Additional fees may be paid by the Company to the Central Administration Agent for additional services it may render (notably in its functions as Registrar Agent), as disclosed in the agreement for the delegation of the duties of the administrative, domiciliary, and registrar and transfer agent.

The Depositary, the Central Administration Agent as well as the Registrar Agent are also entitled to be reimbursed of reasonable disbursements and out of pocket expenses which are not included in the above mentioned fees.

The amount paid by the Company to the Depositary, the Central Administration Agent and the Registrar Agent will be mentioned in the annual report of the Company.

As Domiciliary Agent, CACEIS Investor Services Bank S.A. is entitled to receive a maximum fee of EUR 12,000.- per annum paid by the Company in addition to EUR 500 per Sub-Fund, subject to the automatic indexation or renegotiation of the relevant agreement between the parties.

As remuneration for its management company services the Management Company is entitled to receive out of the asset of each Class within each Sub-Fund a recurring management company fee of up to 0.04% p.a. or such other amount as determined in Appendix IV for each Sub-Fund and Class, subject to a minimum annual fee of EUR 9,000 per Sub-Fund. This fee will be calculated on a quarterly basis as the average of the month-end Net Asset Value of the previous quarter and shall be paid quarterly in arrears. In addition the Management Company is entitled to a fee of EUR 5,000 p.a. per Sub-Fund using the commitment approach and EUR 10,000 p.a. per Sub-Fund using the value at risk approach for the additional performance of risk management and compliance services.

Additional fees may be charged to the relevant Sub-Fund by the Management Company in relation to other ancillary services in the event of any change in the law or regulatory framework as may be agreed from time to time.

As remuneration for its investment management duties, the Investment Manager (if any) is entitled to receive, out of the assets of each Class within each Sub-Fund, an investment management fee payable monthly in arrears. The investment management fee includes the fee to be paid to the Global Distributor.

The percentage to be paid as investment management fee for each Class is set out in Appendix IV. In addition, the Investment Manager may receive a performance fee, if applicable for the relevant Sub-Fund's Class, as set out for each Class in Appendix IV.

In addition, any reasonable disbursements and out-of-pocket expenses, including telephone, telex, facsimile, electronic transmission and postage expenses etc. incurred by the Management Company, the Depositary, the Administrative Agent or the Registrar Agent within the framework of their mandates, as well as correspondents' costs, will be borne by the relevant Sub-Fund of the Company. The Paying Agent may charge a fee in accordance with the common market practice in the Grand Duchy of Luxembourg.

Under the terms of the agreement entered into by the Company and the Management Company, the Company will pay fees appearing in each Sub-Fund's relevant data sheet under Appendix IV.

All recurring general costs will be charged first against investment income, then, should this not be sufficient, against realised capital gains.

Expenses incurred in connection with the incorporation of the Company and the creation of the first Sub-Funds shall be borne by the Company and will be amortized over a period of five years. In the event of early termination of the Company, the unamortised portion of any costs and expenses will be accelerated, thereby decreasing amounts otherwise available for distribution.

Costs related to the establishment of any new Sub-Fund will be borne by such new Sub-Fund and amortised over a period of 1 (one) year from the date of establishment of such Sub-Fund or over any other period as

the Board of Directors may determine, with a maximum of 5 (five) years starting on the date of the Sub-Fund's establishment.

When a Sub-Fund is liquidated, any setting-up costs that have not yet been amortised will be charged to the Sub-Fund being liquidated.

2. FEES TO BE BORNE BY THE SHAREHOLDER

The subscription fees paid by Shareholders are described in each relevant Sub-Fund's data sheet under Appendix IV.

VII. CONFLICT OF INTERESTS

The Board of Directors of the Company, the Investment Manager (if any), the Management Company and other affiliated companies may from time to time act as directors, investment manager or as management company to other investment funds/clients and may act in other capacities in respect of such other investment funds or clients. It is therefore possible that the Board of Directors, the Investment Manager, the Management Company and other affiliated companies may, in the course of their business, have potential conflicts of interest with the Company.

In the event that any conflict of interest actually arises, the members of the Board of Directors, the Management Company and/or the Investment Manager will ensure that such conflict is resolved fairly and in the best interests of the Company and of the Shareholders.

The Company may also invest in other investment funds which are managed by the Management Company, the Investment Manager or any of their affiliated companies. The members of the board of directors of the Management Company may also be directors of investment funds and the interest of such investment funds and of the Company could result in conflicts.

In the event that such a conflict arises, the members of the board of directors of the Management Company and the members of the Board of Directors will ensure that it is resolved in a fair manner and in the best interests of the Company and of the Shareholders.

VIII. RISK MANAGEMENT PROCESS

The Company will employ an appropriate risk management system in order to detect, measure, manage and monitor in an appropriate manner the risks of the positions and their contribution to the overall risk profile of the relevant portfolio as further described in Appendix II.

IX. TAX STATUS - APPLICABLE LAW - OFFICIAL LANGUAGE

1. TAX STATUS

The following information is based on the laws, regulations, decisions and practice currently in force in Luxembourg and is subject to changes therein, possibly with retrospective effect. This summary does not purport to be a comprehensive description of all Luxembourg tax laws and Luxembourg tax considerations that may be relevant to a decision to invest in, own, hold, or dispose of Shares and is not intended as tax advice to any particular investor or potential investor. Prospective investors should consult their own professional advisers as to the implications of buying, holding or disposing of Shares and to the provisions of the laws of the jurisdiction in which they are subject to tax. This summary does not describe any tax consequences arising under the laws of any state, locality or other taxing jurisdiction other than Luxembourg.

A. TAXATION OF THE COMPANY

The Company is not subject to taxation in Luxembourg on its income, profits or gains.

The Company is not subject to net wealth tax in Luxembourg.

No stamp duty, capital duty or other tax will be payable in Luxembourg upon the issue of the Shares of the Company.

The Company is however subject to a subscription tax (*taxe d'abonnement*) levied at the rate of 0.05% *per annum* based on its net asset value at the end of the relevant quarter, calculated and paid quarterly. A reduced subscription tax rate of 0.01% *per annum* is applicable to Luxembourg UCITS whose exclusive object is the collective investment in money market instruments, the placing of deposits with credit institutions, or both.

A reduced subscription tax rate of 0.01% *per annum* is applicable to UCITS individual compartments of UCITS with multiple compartments, as well as for individual classes of securities issued within a UCITS or within a compartment of a UCITS with multiple compartments, provided that the securities of such compartments or classes are reserved to one or more institutional investors.

As from 1 January 2021, the Company or its individual Sub-Funds may benefit from reduced subscription tax rates depending on the value of the relevant Sub-Fund's net assets invested in economic activities that qualify as environmentally sustainable within the meaning of Article 3 of the Taxonomy Regulation (the "Qualifying Activities"), except for the proportion of net assets of the Company or its individual Sub-Funds invested in fossil gas and/or nuclear energy related activities. The reduced subscription tax rates would be of:

- 0.04% if at least 5% of the total net assets of the Company, or of its individual Funds, are invested in Qualifying Activities;
- 0.03% if at least 20% of the total net assets of the Company, or of its individual Funds, are invested in Qualifying Activities;
- 0.02% if at least 35% of the total net assets of the Company, or of its individual Funds, are invested in Qualifying Activities; and
- 0.01% if at least 50% of the total net assets of the Company, or of its individual Funds, are invested in Qualifying Activities.

The subscription tax rates mentioned above would only apply to the net assets invested in Qualifying Activities.

Subscription tax exemption applies to (i) investments in a Luxembourg UCI subject itself to the subscription tax, (ii) UCI, compartments thereof or dedicated classes reserved to retirement pension schemes, (iii) money market UCIs, (iv) UCITS and UCIs subject to the part II of the 2010 Law qualifying as exchange traded funds, and (v) UCIs and individual compartments thereof with multiple compartments whose main objective is the investment in microfinance institutions.

B. WITHHOLDING TAX

Interest and dividend income received by the Company may be subject to non-recoverable withholding tax in the source countries. The Company may further be subject to tax on the realised or unrealised capital appreciation of its assets in the countries of origin. The Company may benefit from double tax treaties entered into by Luxembourg, which may provide for exemption from withholding tax or reduction of withholding tax rate.

Distributions made by the Company are not subject to withholding tax in Luxembourg.

C. TAXATION OF THE SHAREHOLDERS

Luxembourg resident individuals

Capital gains realised on the sale of the Shares by Luxembourg resident individual investors who hold the Shares in their personal portfolios (and not as business assets) are generally not subject to Luxembourg income tax except if:

- (i) the Shares are sold within 6 months from their subscription or purchase; or
- (ii) if the Shares held in the private portfolio constitute a substantial shareholding. A shareholding is considered as substantial when the seller holds or has held, alone or with his/her spouse and underage children, either directly or indirectly at any time during the five years preceding the date of the disposal, more than 10% of the share capital of the company.

Distributions made by the Company will be subject to income tax. Luxembourg personal income tax is levied following a progressive income tax scale, and increased by the solidarity surcharge (*contribution au fonds pour l'emploi*) giving an effective maximum marginal tax rate of 45.78%. An additional temporary income tax

of 0,5% (*impôt d'équilibrage budgétaire temporaire*) will be due by Luxembourg individuals subject to Luxembourg State social security scheme in relation to their professional and capital income.

Luxembourg resident corporate

Luxembourg resident corporate investors will be subject to corporate taxation at the rate of 24.94% (in 2020 for entities having their registered office in Luxembourg-City) on capital gains realised upon disposal of the Shares and on the distribution received from the Company.

Luxembourg corporate resident investors who benefit from a special tax regime, such as, for example, (i) an undertaking for collective investment subject to the 2010 Law, (ii) specialized investment funds subject to the law of 13 February 2007 on specialised investment funds, as amended, or (iii) family wealth management companies subject to the amended law of 11 May 2007 related to family wealth management companies, as amended, are exempt from income tax in Luxembourg, but instead subject to an annual subscription tax (*taxe d'abonnement*) and thus income derived from the Shares, as well as gains realised thereon, are not subject to Luxembourg income taxes.

The Shares shall be part of the taxable net wealth of the Luxembourg resident corporate investors except if the holder of the Shares is (i) an UCI subject to the 2010 Law, (ii) a vehicle governed by the law of 22 March 2004 on securitisation, as amended, (iii) an investment company governed by the amended law of 15 June 2004 on the investment company in risk capital, as amended, (iv) a specialised investment fund subject to the law of 13 February 2007 related specialised investment funds, as amended or (v) a family wealth management company subject to the amended law of 11 May 2007 related to family wealth management companies, as amended. The taxable net wealth is subject to tax on a yearly basis at the rate of 0.5%. A reduced tax rate of 0.05% is due for the portion of the net wealth tax exceeding EUR 500 million.

Non-Luxembourg residents

Non-resident individuals or collective entities who do not have a permanent establishment in Luxembourg to which the Shares are attributable, are not subject to Luxembourg taxation on capital gains realized upon disposal of the Shares nor on the distribution received from the Company and the Shares will not be subject to net wealth tax. The additional temporary income tax of 0,5% (*impôt d'équilibrage budgétaire temporaire*) will be also due by individuals subject to Luxembourg State social security scheme in relation to their professional and capital income.

D. GERMAN TAXATION

For the purpose of the relevant classification under the German Investment Tax Act, in addition to the investment restrictions set out in the Appendix IV for a particular Sub-Fund, the Sub-Fund BROCK MILTON CAPITAL UCITS SICAV – BMC Global Select Fund will ensure a constant direct investment of more than 50% of their net assets into qualifying equity participations according to the German tax law.

For the purpose of this investment restriction, reference to "equity participations" includes inter alia:

- (1) shares in a company (which may not include depository receipts) that are admitted to official trading on a stock exchange or admitted to, or included in another organized market which fulfils the criteria of a "regulated market" as defined in Directive 2004/39/EC of the European Parliament and of the Council of 21 April 2004 on markets in financial instruments;
- (2) shares in a company other than a real estate company which is (i) resident in an EU member state or in a member state of the European Economic Area, and where it is subject to, and not exempt from corporate income tax; or (ii) is a resident in any other state and subject to, and not exempt from corporate income tax of at least 15%.

E. AUTOMATIC EXCHANGE OF INFORMATION

The Organisation for Economic Co-operation and Development ("OECD") has developed a common reporting standard ("CRS") to achieve a comprehensive and multilateral automatic exchange of information (AEOI) on a global basis. On 9 December 2014, Council Directive 2014/107/EU amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation (the "Euro-CRS Directive") was adopted in order to implement the CRS among the Member States. For Austria, the Euro-CRS Directive applies the first time by 30 September 2018 for the calendar year 2017, i.e. the Savings Directive will apply one year longer.

The Euro-CRS Directive was implemented into Luxembourg law by the law of 18 December 2015 on the automatic exchange of financial account information in the field of taxation, as amended ("CRS Law"). The CRS Law requires Luxembourg financial institutions to identify financial assets holders and establish if they are fiscally resident in countries with which Luxembourg has a tax information sharing agreement. Luxembourg financial institutions will then report financial account information of the asset holder to the Luxembourg tax authorities, which will thereafter automatically transfer this information to the competent foreign tax authorities on a yearly basis.

Accordingly, the Company may require its investors to provide information in relation to the identity and fiscal residence of financial account holders (including certain entities and their controlling persons) in order to ascertain their CRS status and report information regarding a Shareholder and his/her/its account to the Luxembourg tax authorities (*Administration des Contributions Directes*), if such account is deemed a CRS reportable account under the CRS Law. The Company shall communicate any information to the investor according to which (i) the Company is responsible for the treatment of the personal data provided for in the CRS Law; (ii) the personal data will only be used for the purposes of the CRS Law; (iii) the personal data may be communicated to the Luxembourg tax authorities (*Administration des Contributions Directes*); (iv) responding to CRS-related questions is mandatory and accordingly the potential consequences in case of no response; and (v) the investor has a right of access to and rectification of the data communicated to the Luxembourg tax authorities (*Administration des Contributions Directes*).

In addition, Luxembourg signed the OECD's multilateral competent authority agreement ("Multilateral Agreement") to automatically exchange information under the CRS. The Multilateral Agreement aims to implement the CRS among non-Member States; it requires agreements on a country-by-country basis.

The Company reserves the right to refuse any application for Shares if the information provided or not provided does not satisfy the requirements under the CRS Law.

Investors should consult their professional advisors on the possible tax and other consequences with respect to the implementation of the CRS.

2. APPLICABLE LAW

Any disputes between Shareholders and the Company will be settled in accordance with Luxembourg law.

3. OFFICIAL LANGUAGE

The official language of this Prospectus and of the Articles of Incorporation is English. However, the Board of Directors and the Management Company may, personally and on behalf of the Company, consider that these documents must be translated into the languages of the countries in which the Shares are offered and sold. In case of any discrepancies between the English text and any other language into which the Prospectus is translated, the English text will prevail.

X. FINANCIAL YEAR - MEETINGS – REPORTS

1. FINANCIAL YEAR

The financial year of the Company starts each year on 1 January and ends on the last day of December of each year. The first financial period began on the day of the incorporation and shall end on 31 December 2024.

2. MEETINGS

The annual general meeting of Shareholders will be held in Luxembourg, at the registered office of the Company or at any other place in the Grand Duchy of Luxembourg, which will be specified in the convening notice to the meeting, within six months following the end of the relevant financial year.

Shareholders will meet upon the call of the Board of Directors in accordance with the provisions of Luxembourg law.

3. PERIODIC REPORTS

Annual reports as at the last day of December, certified by the Auditor, and unaudited semi-annual reports as at last day of June are available to Shareholders free of charge.

Reports will be published at www.coeli.com.

The Company is authorised to publish an abridged version of the financial reports. However, a complete version of the financial reports may be obtained free of charge at the registered office of the Company, or the Management Company, as well as from the establishments designated by the Company. These reports will contain information concerning each Sub-Fund as well as the assets of the Company as a whole.

The financial statements of each Sub-Fund are expressed in its respective reference currency, whereas the consolidated accounts of the Company will be expressed in Euro.

The annual reports, which are made available within 4 (four) months after the end of the financial year, as well as the semi-annual reports, which are made public within 2 (two) months after the end of the half-year, are held at the Shareholders' disposal at the registered office of the Company and of the Management Company. The first audited annual report will be dated as of 31 December 2024 and the first semi-annual report will be dated as of 30 June 2024.

XI. LIQUIDATION OF THE COMPANY - MERGER OF SUB-FUNDS OR CLASSES

1. LIQUIDATION OF THE COMPANY

The Company will be liquidated in accordance with the provisions of the 2010 Law.

A. MINIMUM ASSETS

If the capital of the Company falls below two thirds of the required minimum capital prescribed by the 2010 Law, the Board of Directors must submit the question of the Company's dissolution to a general meeting of Shareholders for which no quorum will be prescribed and which will decide by a simple majority of the Shares represented at the meeting.

If the capital of the Company falls below one quarter of the required minimum capital prescribed by the 2010 Law, the Board of Directors must submit the question of the Company's dissolution to the general meeting of Shareholders for which no quorum will be prescribed; dissolution may be decided by the Shareholders holding one quarter of the Shares represented at the meeting.

The meeting will be convened so as to be held within 40 (forty) days from the date on which the net assets are recorded as having fallen below either two thirds or one quarter of the legal minimum.

Moreover, the Company may be dissolved by a decision of a general meeting of Shareholders ruling in accordance with the relevant statutory provisions.

B. VOLUNTARY LIQUIDATION

In case the Company is dissolved, its liquidation will be carried out by one or more liquidators appointed in accordance with the Articles of Incorporation and with the 2010 Law, which specifies the manner in which the net proceeds of liquidation, after deduction of expenses, is to be distributed amongst the Shareholders.

Amounts that have not been distributed by the close of the liquidation procedure will be consigned to the "*Caisse de Consignation*" in Luxembourg for the duration of the limitation period in favour of the Shareholders entitled thereto.

Shares will cease to be issued, redeemed and converted as soon as the decision to dissolve the Company is taken.

2. CLOSURE AND MERGER OF SUB-FUNDS OR CLASSES

A. CLOSURE OF SUB-FUNDS OR CLASSES

A Sub-Fund or a Class may be terminated by resolution of the Board of Directors under the following circumstances:

- if the Net Asset Value of a Sub-Fund or a Class is below a level at which the Board of Directors considers that its management may not be easily ensured; or
- in the event of special circumstances beyond its control, such as political, economic, or military emergencies; or
- if the Board of Directors should conclude, in light of prevailing market or other conditions, including conditions that may adversely affect the ability of a Sub-Fund or a Class to operate in an economically efficient manner, or if justified for financial or commercial reasons, and with due regard to the best interests of shareholders, that a Sub-Fund or a Class should be terminated.

The decision of the liquidation of the Sub-Fund or Class will be published by the Company and a notice relating to the closure of the Sub-Fund or Class will be sent to the Shareholders of the Sub-Fund or Class concerned before the effective date of such termination. Such notice shall indicate the reasons for such termination as well as the procedures to be enforced. Unless otherwise stated by the Board of Directors, shareholders of such Sub-Fund or Class of Shares may continue to apply for the redemption or the conversion of their Shares free of charge, but on the basis of the applicable Net Asset Value, taking into account the estimated liquidation expenses.

Establishment expenses shall be wholly written off as of the decision to liquidate is reached.

The net assets of the Sub-Fund or Class concerned will be divided amongst the remaining Shareholders of the Sub-Fund or Class.

Notwithstanding the powers conferred to the Board of Directors by the preceding paragraphs, the general meeting of shareholders of any one or all Classes of Shares issued in any Sub-Fund will, in any other circumstances, have the power, upon proposal from the Board of Directors, to redeem all the Shares of the relevant Class or Classes and refund to the shareholders the Net Asset Value of their Shares (taking into account actual realization prices of investments and realization expenses) calculated on the Valuation Day at which such decision shall take effect. There shall be no quorum requirements for such general meeting of shareholders which shall decide by resolution taken by simple majority of those present or represented and voting at such meeting.

Amounts which have not been distributed by the closure of the liquidation procedure of the Sub-Fund will be deposited in escrow at the "*Caisse de Consignation*" in Luxembourg for the limitation period in favour of the Shareholders entitled thereto.

The annual report relating to the financial year along which the decision to liquidate has been taken shall expressly state such decision and supply details regarding the implementation of liquidation operations.

B. MERGER OF SUB-FUNDS OR CLASSES

A Sub-Fund or a Class may merge with one or more other Sub-Funds or Classes by resolution of the Board of Directors if the Net Asset Value of a Sub-Fund or a Class is below at a level at which the Board of Directors considered that its management may not be easily ensured or in the event of changes or in the event of special circumstances beyond its control, such as political, economic, or military emergencies, or if the Board of Directors should conclude, in light of prevailing market or other conditions, including conditions that may adversely affect the ability of a Sub-Fund or a Class to operate in an economically efficient manner, and with due regard to the best interests of shareholders, that a Sub-Fund or a Class should be merged.

Within the conditions of the above paragraph, the Board of Directors may also decide to allocate the assets of any Sub-Fund or Class to another undertaking for collective investment organised under the provisions of Part I of the 2010 Law or under the legislation of a Member State of the European Union, or of the European Economic Area, implementing Directive 2009/65/EC or to a Sub-Fund within such other undertaking for collective investment.

The mergers will be undertaken within the framework of the 2010 Law.

Notwithstanding the powers conferred to the Board of Directors by the preceding paragraphs, the Board of Directors may decide to submit the decision for a merger to a meeting of Shareholders of the Sub-Fund or Class concerned. No quorum is required for such a meeting and decisions are taken by simple majority of those present or represented and voting at such meeting. In case of a merger of a Sub-Fund where, as a result, the Company ceases to exist, the merger shall be decided by a meeting of Shareholders resolving in accordance with the quorum and majority requirements for changing the Articles of Incorporation of the Company.

In the event that the Board of Directors believes it is required for the interests of the Shareholders of the relevant Sub-Fund or Class; or that a change in the economic or political situation relating to the Sub-Fund or Class concerned has occurred which would justify it; the reorganisation of one Sub-Fund or Class, by means of a division into two or more Sub-Funds or Classes, may be decided by the Board of Directors.

A publication and notice relating to the merger or division of the Sub-Fund or Class will be sent to the Shareholders of the Sub-Fund or Class concerned. In the case of a merger, the Shareholders will have the possibility to redeem or convert their Shares free of charge during a period of 30 days as specified by Article 72 (2) of the 2010 Law. In case of a division of sub-funds, the Shareholders will also have the possibility to redeem or convert their Shares free of charge during a period of 30 days. Any applicable contingent deferred sales charges are not to be considered as redemption charges and shall therefore be due, whereas any charges related to the merger shall not be borne by the respective Sub-Fund's Shareholders.

The Company's Auditor will produce a report on the merger.

These mergers may be justified by various economic circumstances as set out in the Articles of Incorporation.

XII. DATA PROTECTION

Personal data related to identified or identifiable natural persons provided to, collected or otherwise obtained by or on behalf of, the Fund (the "Controller") will be processed by the Controller in accordance with the Privacy Notice, a current version of which is available at the registered office of the Fund in Luxembourg, and in accordance with the General Data Protection Regulation (EU) 2016/679. Investors and any person contacting, or otherwise dealing directly or indirectly with, the Controller are invited to read and carefully consider the Privacy Notice, prior to contacting or otherwise so dealing, and in any event prior to providing or causing the provision of any data directly or indirectly to the Controller.

XIII. BENCHMARK REGULATION

In accordance with the provisions of Regulation (EU) 2016/1011 of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "Benchmark Regulation"), the indices or benchmarks used by the Sub-Funds are either non-EU benchmarks included in the European Securities and Markets Authority ("ESMA") register of third country benchmarks or provided by benchmark administrators which have been included in ESMA's register of benchmark administrators or provided by benchmark administrators which are located in a Non-EU country who benefit from the transitional arrangements set out in Article 51(5) of the Benchmark Regulation and accordingly have not yet been included in the register of third country benchmarks maintained by ESMA pursuant to Article 36 of the Benchmark Regulation.

The Management Company with the assistance of the Investment Manager produces and maintains a written plan setting out the actions that will be taken in the event of the benchmarks materially changing or ceasing to be provided (the "Contingency Plan"). The Contingency Plan will be available to investors on request and free of charges at the registered office of the Company.

The following benchmarks are used by the Sub-Funds for the purposes indicated in the table below.

Fund	Benchmark	Benchmark Administrator	Purpose
BROCK MILTON CAPITAL UCITS SICAV – BMC Global Select Fund	MSCI All Country World Daily Net Total return index	MSCI Limited	Performance fee
BROCK MILTON CAPITAL UCITS SICAV – BMC Global Small Cap Select Fund	MSCI ACWI Small Cap Net Total Return USD Index	MSCI Limited	Performance fee

XIV. INFORMATION - DOCUMENTS AVAILABLE TO THE PUBLIC

1. INFORMATION FOR SHAREHOLDERS

a) Net Asset Value

The Net Asset Values of the Shares of each Sub-Fund will be available on each Bank Business Day at the registered office of the Company and of the Administrative Agent. The Board of Directors may subsequently decide to publish these net values in newspapers of the countries in which the Shares of the Company are offered or sold.

b) Issue and redemption prices

The issue and redemption prices of the Shares of each Sub-Fund of the Company are made public on each Valuation Day at the registered office of the Administrative Agent.

c) Notices to Shareholders

Notices to Shareholders will be sent at their attention at their address as indicated in the Shareholder register and shall be made available at the registered office of the Company, free of charge. Furthermore, they may be published in Luxembourg and in the countries where the Company is marketed as well as in the [if](#) such publications are required by the applicable law or by the Articles of Incorporation.

d) Material contracts

The following contracts, not being contracts entered into in the ordinary course of business, have been entered or will be entered into and are or may be material:

- the Depositary Agreement effective as of 17 November 2023 between the Company and CACEIS Investor Services Bank S.A.;
- the Agreement for the delegation of the duties of the administrative, domiciliary, and registrar and transfer agent effective as of 17 November 2023 between the Management Company, the Company and CACEIS Investor Services Bank S.A.;
- the Management Company Services Agreement effective as of 17 November 2023 between the Management Company and the Company.

e) Rights of the investors

The Company draws the investors' attention to the fact that any investor will only be able to fully exercise his investor rights directly against the Company, notably the right to participate in general Shareholders' meetings if the investor is registered himself and in his own name in the Shareholders' register of the Company. In cases where an investor invests in the Company through an intermediary investing into the Company in his own name but on behalf of the investor, it may not always be possible for the investor to exercise certain Shareholder rights directly against the Company. Investors are advised to take advice on their rights.

f) Additional information which the Management Company must make available to investors in accordance with Luxembourg laws and regulations such as but not limited to Shareholder complaints handling

procedures, management of activities giving rise to detrimental conflict of interest, voting rights policy of the Management Company etc., shall be available at the registered office of the Management Company.

f) **Information relating to Sub-Funds with environmental and social characteristics or sustainable investment objectives is provided in Appendix V in accordance with Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"), Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088 ("Taxonomy Regulation") and Commission Delegated Regulation (EU) 2022/1288.**

2. DOCUMENTS AVAILABLE TO THE PUBLIC

Copies of the latest version of the Prospectus, of the Articles of Incorporation, of the latest annual and semi-annual reports of the Company and of the material contracts referred to above are available for inspection at the registered office of the Company and of the Management Company.

The Company publishes KIDs relating to each Sub-Fund or Class which are available upon request from the Management Company and the Company and for download on the following homepage of the Management Company: www.waystone.com.

Subscription forms may be obtained upon request at the registered office of the Registrar Agent.

XV. SOFT COMMISSION ARRANGEMENTS

The Investment Manager, as the case may be, may accept soft commissions from, or enter into soft arrangements with, stockbrokers (that are entities and not individuals) who execute trades on behalf of the Company and the soft commissions received are restricted to the following kinds of services:

- (a) research and price information;
- (b) performance measurement;
- (c) portfolio valuations; and
- (d) analysis and administration services.

The Investment Manager, as the case may be, may not receive or enter into soft commissions or arrangements unless such soft commissions or arrangements shall reasonably assist the Investment Manager in the provision of services to the relevant Sub-Fund the Investment Manager shall ensure at all times that the transactions are executed at the best available terms taking into account the relevant market at the time for transactions of the kind and size concerned.

The Investment Manager shall not enter into unnecessary trades in order to qualify for such soft commissions or arrangements and shall not receive goods and services such as travel, accommodation and entertainment. The Investment Manager will provide reports to the Management Company with respect to soft commissions including the nature of the services it receives.

XVI. SPECIAL CONSIDERATION ON RISKS

With regard to each Sub-Fund, future investors are recommended to consult their professional advisors to evaluate the suitability of an investment in a specific Sub-Fund, in view of their personal financial situation.

The number and allocation of portfolio assets in each Sub-Fund should reduce the Sub-Fund's sensitivity to risks associated with a particular investment. Nevertheless, potential investors should be aware of the fact that there can be no assurance that their initial investment will be preserved.

Past performance is not indicative of future results. Each Sub-Fund is subject to the risk of common stock investment. The price of the Shares and the income from them may fall as well as rise. There can be no assurance that each Sub-Fund will achieve its objectives. There is no guarantee that investors will recover the total amount initially invested.

In addition, future investors should give careful consideration to the following risks linked to an investment in certain Sub-Funds and to the specific risks for each Sub-Fund in accordance with the respective provisions described in the Sub-Fund's relevant data sheet under Appendix IV:

Regulated markets

Some markets, on which securities are listed, may not qualify as regulated markets under Article 41(1) of the 2010 Law. Investments in securities on these markets will be considered as investments in unlisted securities.

Risk of limited trading volume

Trading volumes of emerging country stock exchanges can be considerably lower than in leading world exchanges. The resulting lack of liquidity may adversely affect the price at which the securities held by a Sub-Fund can be sold.

Accounting and statutory standards

It may occur in some countries, where a Sub-Fund may potentially invest, that standards of accountancy, auditing and reporting are less strict than the standards applicable in more developed countries and that investment decisions have to be taken based on information less complete and accurate than that available in more developed countries.

Asset Backed Securities ("ABS") and Mortgage Backed Securities ("MBS")

Certain Sub-Funds may have exposure to a wide range of asset-backed securities (including asset pools in credit card loans, auto loans, residential and commercial mortgage loans, collateralised mortgage obligations and collateralised debt obligations), agency mortgage pass-through securities and covered bonds. The obligations associated with these securities may be subject to greater credit, liquidity and interest rate risk compared to other debt securities such as government issued bonds.

ABS and MBS are securities that entitle the holders thereof to receive payments that are primarily dependent upon the cash flow arising from a specified pool of financial assets such as residential or commercial mortgages, motor vehicle loans or credit cards.

ABS and MBS are often exposed to extension and prepayment risks that may have a substantial impact on the timing and size of the cashflows paid by the securities and may negatively impact the returns of the securities. The average life of each individual security may be affected by a large number of factors such as the existence and frequency of exercise of any optional redemption and mandatory prepayment, the prevailing level of interest rates, the actual default rate of the underlying assets, the timing of recoveries and the level of rotation in the underlying assets.

Covered bonds refer to bonds issued by a financial institution and secured by mortgages and/or tenant-owner units. In the event the financial institution becomes insolvent, the bond is covered.

Currency risks

Certain Sub-Funds, investing in securities denominated in currencies other than their reference currency, may be subject to fluctuations in exchange rates resulting in a reduction in the Sub-Fund's Net Asset Value. Changes in the exchange rate between the base currency of the Sub-Fund and the currency of its underlying assets may lead to a depreciation of the value of the Sub-Fund's assets as expressed in the Sub-Fund's base currency. The Sub-Fund may attempt to mitigate this loss by the use of hedging but only on the terms approved of in the Prospectus.

Investment in small and medium-capitalised companies (small and medium cap)

There are certain risks associated with investing in small cap stocks and the securities of small companies. The market prices of these securities may be more volatile than those of larger companies. Because small companies normally have fewer shares outstanding than larger companies it may be more difficult to buy and sell significant amounts of shares without affecting market prices. There is typically less publicly available information about these companies than for larger companies. The lower capitalisation of these companies and the fact that small companies may have smaller product lines and command a smaller market share than larger companies may make them more vulnerable to fluctuation in the economic cycle.

Investing in Emerging & Frontier Markets

The attention of the investor is drawn to the fact that investments in emerging and frontier markets may offer higher risk. There follows an overview of the general risks entailed by investments in the emerging markets:

- Emerging markets are at an early stage of development, frontier markets are at an advanced stage of development but have not reached the level of development of and are not to be classified as emerging markets; both, emerging and frontier markets suffer from increased risk of expropriation, nationalization and social, political and economic insecurity.

- Counterfeit securities - with the weakness in supervisory structures, it is possible for securities purchased by a Sub-Fund to be counterfeited. Hence it is possible to suffer losses.
- Liquidity difficulties - the buying and selling of securities can be costlier, lengthier and in general more difficult than is the case in the more developed markets. Difficulties with liquidity can also increase price volatility. Many emerging markets are small, have low trading volumes and suffer from low liquidity and high price volatility.
- Currency fluctuations - the currencies of countries in which a Sub-Fund invests, compared with the accounting currency of that Sub-Fund, can undergo substantial fluctuations once the Sub-Fund has invested in these currencies. Such fluctuations may have a significant effect on the Sub-Fund's income. It is not possible to apply currency risk hedging techniques to all currencies in emerging market countries.
- Currency export restrictions - it cannot be excluded that emerging and frontier markets limit or temporarily suspend the export of currencies. Consequently, it is not possible for a Sub-Fund to draw any sales proceeds without delays. To minimise the possible impact on redemption applications, a Sub-Fund will invest in a large number of markets.
- Settlement and custody risks - the settlement and custody systems in emerging and frontier markets countries are not as well developed as those in developed markets. Standards are not so high and the supervisory authorities do not have the same amount of experience. Consequently, it is possible for settlement to take place late, which may pose disadvantages for liquidity and securities.
- Restrictions on buying and selling - in some cases, emerging and frontier markets can place restrictions on the buying of securities by foreign investors. Some equities are thus not available to a Sub-Fund because the maximum number allowed to be held by foreign shareholders has been exceeded. As well as this, the participation of foreign investors in the net income, capital and distributions may be subject to restrictions or government approval. Emerging and frontier markets may also limit the sale of securities by foreign investors. Should a Sub-Fund be barred due to such a restriction from selling its securities in an emerging market, it will try to obtain an exceptional approval from the authorities responsible or to counter the negative impact of this restriction through its investments in other markets. A Sub-Fund will only invest in markets in which the restrictions are acceptable. However, it is not possible to prevent additional restrictions from being imposed.
- Accounting - the accounting, auditing and reporting standards, methods, practices and disclosures required by companies in emerging and frontier markets differ from those in developed markets in respect of content, quality and the deadlines for providing information to investors. It may thus be difficult to correctly evaluate the investment options. Consequently, there is generally less publicly available information about such companies than about companies in developed countries. Furthermore, the quality and reliability of official data published by the government or securities exchanges in emerging markets may not accurately reflect the statistics being reported.
- General market conditions - economic uncertainty, changes in law, trade barriers. Emerging and frontier market economies may differ favourably or unfavourably from the European market economies or other developed economies in such respects as growth of gross domestic product, rate of inflation, currency depreciation, asset reinvestment, resource self-sufficiency and balance of payments position. Further, emerging and frontier market economies are heavily dependent upon international trade and, accordingly, have been and may continue to be adversely affected by trade barriers, exchange controls, managed adjustments in relative currency values and other protectionist measures imposed or negotiated by the countries with which they trade. Such markets may be subject to higher inflation.
- Volatility - emerging and frontier markets are more likely than developed markets to experience periods of extreme volatility. Such volatility could result in substantial losses for the Sub-Fund.
- Governmental risks/taxation - there is the possibility of nationalization, expropriation, confiscatory taxation, imposition of withholding or other taxes on dividends, interest, capital gains or other income, limitations on the removal of funds or other assets of the Sub-Fund, political changes, government regulation, social instability or diplomatic developments, any of which could affect adversely economies of emerging and frontier markets or the value of the Sub-Fund's investments, or both.

- Reduced diversification - where Sub-Fund assets are invested in narrowly-defined markets or sectors of a given economy, risk is increased by the inability to broadly diversify investments and by potentially adverse developments within those markets or sectors.

For the reasons mentioned, Sub-Funds that invest in Emerging & Frontier Markets are especially suitable for investors who are aware of the risks.

Investing in Equity Securities

Investing in equity securities may offer a higher rate of return than those in short term and longer term debt securities. However, the risks associated with investments in equity securities may also be higher, because the investment performance of equity securities depends upon factors which are difficult to predict. Such factors include the possibility of sudden or prolonged market declines and risks associated with individual companies. The fundamental risk associated with any equity portfolio is the risk that the value of the investments it holds might decrease in value. Equity security values may fluctuate in response to the activities of an individual company or in response to general market and/or economic conditions. Historically, equity securities have provided greater long-term returns and have entailed greater short-term risks than other investment choices.

Exchange Traded Fund Risk

An Exchange Traded Fund ("ETF") may seek to track the performance of certain indices or certain assets, contracts and/or instruments invested in or held by such an ETF and thus the performance of an ETF will be subject to the same risks as affect the underlying assets. These may include, in particular, company-specific factors such as: earnings position, market position, risk situation, shareholder structure and distribution policy of the underlying companies, as well as macroeconomic factors, such as interest rate and price levels on the relevant markets, currency fluctuations and political, legal and regulatory developments.

Depository receipts Risk

Depository receipts are instruments in the form of share certificates in a portfolio of shares held in the country of domicile of the issuer. The legal owner of shares underlying the depository receipts is the custodian bank, who at the same time is the issuing agent of the depository receipts. There is a risk that the jurisdiction of issuance of the depository receipts or the jurisdiction to which the custodian agreement is subject does not recognise the purchaser of the depository receipts as the actual beneficial owner of the underlying shares. Therefore, in the event that the custodian bank becomes insolvent or that enforcement measures are taken against such a custodian bank, it may not be possible to exempt the relevant shares from the assets of the custodian bank subject to the insolvency proceedings and the holders of the relevant depository receipts may end up being treated as unsecured creditors of the custodian bank or their rights to the assets of the custodian bank may not be recognised at all, as part of such proceedings. In such circumstances, any amount realised by the holder of the relevant depository receipts may be significantly below their original value.

Market Risk

Market risk is the risk that one or more markets in which a Sub-Fund invests will go down in value, including the possibility that the markets will go down sharply and unpredictably.

Investments in Debt Securities

Among the principal risks of investing in debt securities are the following:

- interest rate risk (the risk that the value of the relevant Sub-Fund's investments will fall, if interest rates rise); interest rate risk generally is greater for Sub-Funds that invest in fixed income securities with relatively long maturities than for Sub-Funds that invest in fixed income securities with shorter maturities;
- credit risk (the risk that companies in which the relevant Sub-Fund invests, or with which it does business, will fail financially, and be unwilling or unable to meet their obligations to the Sub-Fund).

Foreign Investment Risks

Government regulations and restrictions in certain countries, including countries in Asia and the Pacific region, Africa, Eastern Europe and Latin America, may limit the amount and types of securities that may be purchased by a Sub-Fund or the sale of such securities once purchased. Such restrictions may also affect the market price, liquidity and rights of securities that may be purchased by a Sub-Fund, and may increase Sub-Fund expenses. In addition, the repatriation of both investment income and capital is often subject to restrictions such as the need for certain governmental consents, and even where there is no outright restriction, the mechanics of repatriation may affect certain aspects of the operation of a Sub-Fund. In particular, a Sub-Fund's ability to invest in the securities markets of several of the Asian countries and other

emerging countries is restricted or controlled to varying degrees by laws restricting foreign investment and these restrictions may, in certain circumstances, prohibit a Sub-Fund from making direct investments.

Warrants

Investment in warrants on Transferable Securities can lead to increased portfolio volatility. Thus, the nature of the warrants will involve Shareholders in a greater degree of risk than is the case with conventional securities.

Investments in Specific Sectors

Certain Sub-Funds will concentrate their investments in companies of certain sectors of the economy and therefore will be subject to the risks associated with concentrating investments in such sectors. More specifically, investments in specific sectors of the economy such as health care, consumer staples and services or telecommunications etc. may lead to adverse consequences when such sectors become less valued.

Investment in undertakings for collective investment

A Sub-Fund may invest in other undertakings for collective investment which may be operated and/or managed by the Investment Manager or a related party. As an investor in such other undertakings for collective investment, in addition to the fees, costs and expenses payable by a Shareholder in the Sub-Funds, each Shareholder will also indirectly bear a portion of the fees, costs and expenses of the underlying undertakings for collective investment, including management, investment management and, administration and other expenses. Further, there is also the possibility of conflicts in positions with respect to the same investment within different underlying undertakings.

Use of derivatives and other Investment Techniques

Certain Sub-Funds of the Company may also invest in financial derivative instruments, as more fully described in the investment policy of the relevant Sub-Funds, which may entail additional risks for Shareholders.

The methodology used to calculate the global exposure is specified in the relevant section of Appendix IV for each Sub-Fund.

Liquidity Risk

Most of the securities and instruments owned by the Company can usually be sold promptly at a fair price. But, the Company may invest in securities and instruments that can be relatively illiquid, meaning they may not be sold quickly, easily or at an advantageous price. Some securities or instruments are illiquid because of legal restrictions, the nature of such securities or instruments, or lack of buyers. Therefore, the Company may lose money or incur extra costs when selling those securities, however, the Company will only enter into OTC derivative transactions if it is allowed to liquidate such transactions at any time at a fair value.

General Risk associated with OTC transactions

Instruments traded in OTC markets may trade in smaller volumes, and their prices may be more volatile than instruments principally traded on exchanges. Such instruments may be less liquid than more widely traded instruments. In addition, the prices of such instruments may include an undisclosed dealer mark-up which a Sub-Fund may pay as part of the purchase price.

In general, there is less government regulation and supervision of transactions in OTC markets than of transactions entered into on organised exchanges. OTC derivatives are executed directly with the counterparty rather than through a recognised exchange and clearing house. Counterparties to OTC derivatives are not afforded the same protections as may apply to those trading on recognised exchanges, such as the performance guarantee of a clearing house.

The principal risk when engaging in OTC derivatives (such as non-exchange traded options, forwards, swaps, total return swaps or contracts for difference) is the risk of default by a counterparty who has become insolvent or is otherwise unable or refuses to honour its obligations as required by the terms of the instrument. OTC derivatives may expose a Sub-Fund to the risk that the counterparty will not settle a transaction in accordance with its terms, or will delay the settlement of the transaction, because of a dispute over the terms of the contract (whether or not bona fide) or because of the insolvency, bankruptcy or other credit or liquidity problems of the counterparty. Counterparty risk is generally mitigated by the transfer or pledge of collateral in favour of the Sub-Fund. The value of the collateral may fluctuate, however, and it may be difficult to sell, so there are no assurances that the value of collateral held will be sufficient to cover the amount owed to the Sub-Fund.

A Sub-Fund may enter into OTC derivatives cleared through a clearinghouse that serves as a central counterparty. Central clearing is designed to reduce counterparty risk and increase liquidity compared to bilaterally-cleared OTC derivatives, but it does not eliminate those risks completely. The central counterparty will require margin from the clearing broker which will in turn require margin from the Company. There is a risk of loss by a Sub-Fund of its initial and variation margin deposits in the event of default of the clearing broker with which the Sub-Fund has an open position or if margin is not identified and correctly reported to the particular Sub-Fund, in particular where margin is held in an omnibus account maintained by the clearing broker with the central counterparty. In the event that the clearing broker becomes insolvent, the Sub-Fund may not be able to transfer or "port" its positions to another clearing broker.

Investments in OTC derivatives may be subject to the risk of differing valuations arising out of different permitted valuation methods. Although the Management Company has implemented appropriate valuation procedures to determine and verify the value of OTC derivatives, certain transactions are complex and valuation may only be provided by a limited number of market participants who may also be acting as the counterparty to the transactions. Inaccurate valuation can result in inaccurate recognition of gains or losses and counterparty exposure.

Unlike exchange-traded derivatives, which are standardised with respect to their terms and conditions, OTC derivatives are generally established through negotiation with the other party to the instrument. While this type of arrangement allows greater flexibility to tailor the instrument to the needs of the parties, OTC derivatives may involve greater legal risk than exchange-traded instruments, as there may be a risk of loss if the agreement is deemed not to be legally enforceable or not documented correctly. There also may be a legal or documentation risk that the parties may disagree as to the proper interpretation of the terms of the agreement. However, these risks are generally mitigated, to a certain extent, by the use of industry-standard agreements such as those published by the International Swaps and Derivatives Association (ISDA).

Collateral Risk

Although collateral may be taken to mitigate the risk of a counterparty default, there is a risk that the collateral taken, especially where it is in the form of securities, when realised will not raise sufficient cash to settle the counterparty's liability. This may be due to factors including inaccurate pricing of collateral, failures in valuing the collateral on a regular basis, adverse market movements in the value of collateral, a deterioration in the credit rating of the issuer of the collateral, or the illiquidity of the market in which the collateral is traded.

Where a Sub-Fund is in turn required to post collateral with a counterparty, there is a risk that the value of the collateral the Sub-Fund places with the counterparty is higher than the cash or investments received by the Sub-Fund.

In either case, where there are delays or difficulties in recovering assets or cash, collateral posted with counterparties, or realising collateral received from counterparties, the Sub-Funds may encounter difficulties in meeting redemption or purchase requests or in meeting delivery or purchase obligations under other contracts.

As a Sub-Fund may reinvest cash collateral it receives, there is a risk that the value on return of the reinvested cash collateral may not be sufficient to cover the amount required to be repaid to the counterparty. In this circumstance, the Sub-Fund would be required to cover the shortfall. In case of cash collateral reinvestment, all risks associated with a normal investment will apply.

As collateral will take the form of cash or certain financial instruments, the market risk is relevant. Collateral received by a Sub-Fund may be held either by the Depositary or by a third party custodian. In either case, there may be a risk of loss where such assets are held in custody, resulting from events such as the insolvency or negligence of a custodian or sub-custodian.

Legal Risk - OTC Derivatives

There is a risk that agreements and derivatives techniques are terminated due, for instance, to bankruptcy, supervening illegality or change in tax or accounting laws. In such circumstances, a Sub-Fund may be required to cover any losses incurred.

Furthermore, certain transactions are entered into on the basis of complex legal documents. Such documents may be difficult to enforce or may be the subject of a dispute as to interpretation in certain circumstances. Whilst the rights and obligations of the parties to a legal document may for example be governed by English law, in certain circumstances (for example insolvency proceedings) other legal systems may take priority which may affect the enforceability of existing transactions.

Leverage Risk

A Sub-Fund, as well as the UCI in which it may invest, may use leverage in its investment strategy. This leverage may take the form of loans for borrowed money (e.g., margin loans) or derivative securities and instruments that are inherently leveraged, including options, futures, forward contracts, swaps and repurchase agreements.

Leverage generates specific risks. It indeed amplifies both upside and downside movements of the underlying assets, hence increasing the Sub-Fund volatility. A high level of leverage implies that a moderate loss on one or more underlying assets could lead to large capital losses for this Sub-Fund, as well as for the UCI in which it may invest.

Indeed, in case of a market downfall, the Sub-Fund might not be able to liquidate its assets fast enough to be able to face margin calls or borrowing obligations. Also, in case of the use of derivatives, the collateral value can be much lower than that of the underlying assets it gives exposure to. Hence, adverse market movements might give rise to losses far higher than the investment. Finally, leverage leads to a proportional increase of Sub-Fund investment costs (especially replication and transaction costs).

In extreme conditions, this Sub-Fund might lose its entire value or could sustain a total loss of its investment in UCI in which it may invest.

Futures and options Risk

Under certain conditions, the Company may use options and futures on securities, indices and interest rates for different purposes (i.e. hedging and efficient portfolio management). Also, where appropriate, the Company may hedge market and currency risks using futures, options or forward foreign exchange contracts.

Transactions in futures carry a high degree of risk. The amount of the initial margin is small relative to the value of the futures contract so that transactions are "leveraged" or "geared". A relatively small market movement will have a proportionately larger impact which may work for or against the investor. The placing of certain orders which are intended to limit losses to certain amounts may not be effective because market conditions may make it impossible to execute such orders. Please also refer to Leverage Risk below.

Transactions in options also carry a high degree of risk. Selling ("writing" or "granting") an option generally entails considerably greater risk than purchasing options. Although the premium received by the seller is fixed, the seller may sustain a loss well in excess of that amount. The seller will also be exposed to the risk of the purchaser exercising the option and the seller will be obliged either to settle the option in cash or to acquire or deliver the underlying investment. If the option is "covered" by the seller holding a corresponding position in the underlying investment or a future on another option, the risk may be reduced.

Credit Rating Downgrading Risk

The credit rating assigned to a security or an issuer may be re-evaluated and updated based on recent market events or specific developments. As a result, securities may be subject to the risk of being downgraded. Similarly, an issuer having a certain rating may be downgraded, for example, as a result of deterioration of its financial condition. In the event of downgrading in the credit ratings of a security or an issuer relating to a security, a Sub-Fund's investment value in such security may be adversely affected.

Where a security held in a Sub-Fund's portfolio is downgraded, this will trigger a review of the reasons for the downgrade, which may be independent of the economic fundamentals of the instrument. Holdings are assessed on a case-by-case basis at the point of downgrade and a decision made on whether the downgrade represents a reason to discontinue holding the security. All holdings are monitored on an ongoing basis. The Investment Manager of the relevant Sub-Fund may or may not be able to dispose of the securities that are being downgraded, subject to the investment objectives of the relevant Sub-Fund. In the event that the downgrade of a security triggers the breach of an investment limit disclosed in the investment policy of a Sub-Fund, the Investment Manager will seek to remedy that situation by selling securities taking due account of the interests of its Shareholders.

SPACs Risk

Some Sub-Funds may invest directly or indirectly in special purpose acquisition companies (SPACs) or similar special purposes entities which are subject to a variety of risks beyond those associated with other equity securities. A SPAC is a publicly traded company that raises investment capital for the purpose of acquiring or merging with an existing company.

The structure of SPACs can be complex. SPACs may include different risks such as dilution, liquidity, conflicts of interests or the uncertainty as to the identification, evaluation and eligibility of the target company. Furthermore, investors in SPACs are subject to certain risks, including that (i) such SPAC may not be able

to locate or acquire target companies by the relevant deadline; (ii) such SPAC may not have identified, selected or approached any prospective target business at the time of investment; (iii) such SPAC may be unable to consummate a business combination or acquire a target company, or such combination or acquisition may not be successful due to, for example, the SPAC's shareholders rejecting the merger or the SPAC failing to satisfy requisite closing conditions; (iv) assets may be subject to third-party claims against such SPAC, (v) SPACs are structured as publicly-traded blank check companies and investors in SPACs may not be afforded any rights or benefits under applicable law; (vi) such SPAC will likely only complete one business combination, which will cause its returns and future prospects to be solely dependent on the performance of a single acquired business; and (vii) the value of any target business, including its stock price as a public company, may decrease following its acquisition by such SPAC.

SPACs do not have any operating history or ongoing business other than seeking acquisitions, and the value of their securities is particularly dependent on the ability of the SPAC's management to identify a merger target and complete an acquisition. Some SPACs may pursue acquisitions only within certain industries or regions, which may increase the volatility of their prices. In addition, these securities, which may be traded in the over-the-counter market, may be considered illiquid and/or may be subject to restrictions on resale.

Convertible securities Risk

A convertible security is generally a debt obligation, preferred stock or other security that pays interest or dividends and may be converted by the holder within a specified period of time into common stock at a specified conversion price. The value of convertible securities may rise and fall with the market value of the underlying stock or, like a debt security, vary with changes in interest rates and the credit quality of the issuer. A convertible security tends to perform more like a stock when the underlying stock price is high relative to the conversion price (because more of the security's value resides in the option to convert) and more like a debt security when the underlying stock price is low relative to the conversion price (because the option to convert is less valuable). Because its value can be influenced by many different factors, a convertible security is not as sensitive to interest rate changes as a similar non-convertible debt security, and generally has less potential for gain or loss than the underlying stock.

Contingent convertible debt securities Risk

Contingent convertible debt securities are bonds issued by companies, which convert into shares in the company when certain capital conditions are met and are subject to the following risks.

Trigger levels and conversion risk

Contingent convertible debt securities are complex financial instruments in respect of which trigger levels and conversion risk, depending on the distance of the capital ratio to the trigger level, differ. It might be difficult for the Investment Manager to anticipate the triggering events that would require the debt to convert into equity and to assess how the securities will behave upon conversion. In case of conversion into equity, the Investment Manager might be forced to sell these new equity shares because the investment policy of the Sub-Fund does not allow equity in its portfolio. This forced sale may itself lead to liquidity issue for these shares.

Unknown and yield risk

The structure of the contingent convertible debt securities is innovative yet untested. Investors have been drawn to this instrument as a result of its often attractive yield which may be viewed as a complexity premium. Yield has been a primary reason this asset class has attracted strong demand, yet it remains unclear whether investors have fully considered the underlying risks. Relative to more highly rated debt issues of the same issuer or similarly rated debt issues of other issuers, contingent convertible debt securities tend to compare favourably from a yield standpoint. The concern is whether investors have fully considered the risk of conversion or, for AT1 contingent convertible debt securities, coupon cancellation.

Write-down, capital structure inversion and industry concentration risk

The investment in contingent convertible debt securities may also result in a material loss. In this event, should a contingent convertible debt security undergo a write-down, the contingent convertible debt securities' investors may lose some or all of its original investment. Contrary to classical capital hierarchy, contingent convertible debt securities' investors may suffer a loss of capital when equity holders do not.

To the extent that the investments are concentrated in a particular industry, the contingent convertible debt securities' investors will be susceptible to loss due to adverse occurrences affecting that industry.

Call extension risk

Contingent convertible debt securities are issued as perpetual instruments, callable at pre-determined levels only with the approval of the competent authority.

Coupon cancellation risk

For some Contingent Convertible Debt Securities, coupon payments are entirely discretionary and may be cancelled by the issuer at any point, for any reason and for any length of time.

Liquidity risk

In certain circumstances finding a ready buyer for contingent convertible debt securities may be difficult and the seller may have to accept a significant discount to the expected value of the bond in order to sell it.

Distressed Securities Risk

To the extent expressly mentioned in the Sub-Fund's relevant data sheet under Appendix IV, certain Sub-Funds may invest in securities of issuers in weak financial condition, experiencing poor operating results, having substantial financial needs or negative net worth, facing special competitive or product obsolescence problems, or issuers that are involved in bankruptcy or reorganisation proceedings. Investments of this type involve substantial financial business risks that can result in substantial or total losses. Among the problems involved in investments in troubled issuers is the fact that information as to the conditions of such issuers may be limited, thereby reducing the Investment Manager's ability to monitor the performance and to evaluate the advisability of continued investments in specific situations. The market prices of such securities are also subject to abrupt and erratic market movements and above-average price volatility, and the spread between the bid and ask prices of such securities may be greater than normally expected. It may take a number of years for the market price of such securities to reflect their intrinsic value.

Defaulted Securities Risk

To the extent expressly mentioned in the Sub-Fund's relevant data sheet under Appendix IV, certain Sub-Funds may invest in debt securities on which the issuer is not currently making interest payments (defaulted debt securities). These Sub-Funds may buy defaulted debt securities if, in the opinion of the Investment Manager, it appears likely that the issuer may resume interest payments or other advantageous developments appear likely in the near future. These securities may become illiquid.

The risk of loss due to default may also be considerably greater with lower-quality securities because they are generally unsecured and are often subordinated to other creditors of the issuer. If the issuer of a security in a Sub-Fund's portfolio defaults, the Sub-Fund may have unrealised losses on the security, which may lower the Sub-Fund's Net Asset Value per share. Defaulted securities tend to lose much of their value before they default. Thus, the Sub-Fund's Net Asset Value per share may be adversely affected before an issuer defaults. In addition, the Sub-Fund may incur additional expenses if it must try to recover principal or interest payments on a defaulted security.

Included among the issuers of debt securities or obligations in which the Company may invest are entities organised and operated solely for the purpose of restructuring the investment characteristics of various securities or obligations. These entities may be organised by investment banking firms, which receive fees in connection with establishing each entity and arranging for the placement of its securities.

APPENDIXES TO THE PROSPECTUS

APPENDIX I INVESTMENT RESTRICTIONS

The Board of Directors shall, based upon the principle of risk spreading, have power to determine the corporate and investment policy for the investments for each Sub-Fund, the benchmark, the reference currency and the Company's management strategy.

Except to the extent that more restrictive rules are provided for in connection with a specific Sub-Fund under Appendix IV, the investment policy shall comply with the rules and restrictions laid down hereafter:

A. The Company may invest in:

- (1) Transferable Securities and Money Market Instruments admitted to or dealt in on a Regulated Market;
- (2) Transferable Securities and Money Market Instruments dealt in on another market in a Member State of the EU, which is regulated, operates regularly and is recognised and open to the public;
- (3) Transferable Securities and Money Market Instruments admitted to official listing on a stock exchange in a non-Member State of the EU or dealt in on another market in a non-Member State of the EU, which is regulated, operates regularly and is recognised and open to the public;
- (4) recently issued Transferable Securities and Money Market Instruments, provided that:
 - the terms of issue include an undertaking that application will be made for admission to official listing on a Regulated Market, stock exchange or on another Regulated Market as described under (1)-(3) above;
 - such admission is secured within one year of the issue;
- (5) units of UCITS and/or other UCIs within the meaning of the first and the second indent of Article 1(2) of Directive 2009/65/EC, whether situated in a Member State of the EU or in a non-Member State of the EU, provided that:
 - such other UCIs are authorised under laws which provide that they are subject to supervision considered by the Regulatory Authority (the "CSSF") to be equivalent to that laid down in Community law, and that cooperation between authorities is sufficiently ensured;
 - the level of protection guaranteed to unitholders in such other UCIs is equivalent to that provided for unitholders in a UCITS, and in particular that the rules on assets segregation, borrowing, lending and uncovered sales of Transferable Securities and Money Market Instruments are equivalent to the requirement of Directive 2009/65/EC;
 - the business of the other UCIs is reported in half-yearly and annual report to enable an assessment of the assets and liabilities, income and operation over the reporting period;
 - no more than 10% of the assets of the UCITS or of the other UCIs, whose acquisition is contemplated, can be, according to their constitutional documents, invested in aggregate in units of UCITS or other UCIs;
- (6) deposits with credit institutions, which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 (twelve) months, provided that the credit institution has its registered office in a Member State of the EU or, if the registered office of the credit institution is situated in a non-Member State of the EU, provided that it is subject to prudential rules considered by the CSSF as equivalent to those laid down in Community law;
- (7) derivatives financial instrument within the meaning of the Grand-ducal regulation of 8 February 2008, in particular options, futures, including equivalent cash-settled instruments, dealt in on a Regulated Market or other market referred to in (1), (2) and (3) above, and/or financial derivative instruments dealt in over-the-counter ("OTC derivative"), provided that:

- (i) - the underlying assets consist of instruments covered by the present Section A, of financial indices within the meaning of the Grand-ducal regulation of 8 February 2008, interest rates, foreign exchange rates or currencies, in which the Company may invest in accordance with its investment objectives;
 - the counterparties to OTC derivatives transactions are institutions subject to prudential supervision and belonging to the categories approved by the CSSF; and
 - the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and can, at the Company's initiative, be sold, liquidated or closed at fair value at any time by means of an offsetting transaction;
 - (ii) under no circumstances shall these operations cause the Company to diverge from its investment objectives.
- (8) Money Market Instruments other than those dealt in on a Regulated Market, as described under points (1) to (4), to the extent that the issuer or the issuer of such instruments is itself regulated for the purpose of protecting investors and saving, and provided that such instruments are:
- issued or guaranteed by a central, regional or local authority or by a central bank of a Member State of the EU, the European Central Bank, the EU or the European Investment Bank, a non-Member State of the EU or, in case of a Federal State, by one of the members making up the federation, or by a public international body to which one or more Member States belong, or
 - issued by an undertaking, any securities of which are dealt in, on Regulated Markets referred to in (1), (2) or (3) above, or
 - issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by EU law, or by an establishment, which is subject to and complies with prudential rules considered by the CSSF to be at least as stringent as those laid down by EU law within the meaning of the Grand-ducal regulation of 8 February 2008, or
 - issued by other bodies belonging to the categories provided that investments in such instruments are subject to investor protection rules, within the meaning of the Grand-ducal regulation of 8 February 2008, equivalent that laid down in the first, the second or the third indent and provided that the issuer is a company whose capital and reserves amount to at least EUR 10.000.000.- (ten million Euro) and which presents and publishes its annual accounts in accordance with directive 78/660/EEC, is an entity which, within a Group of Companies which includes one or several listed company(ies), is dedicated to the financing of the group or is an entity which is dedicated to the financing of securitisation vehicles, which benefit from a banking liquidity line within the meaning of the Grand-ducal regulation of 8 February 2008.

B. Moreover, in each Sub-Fund the Company may:

- (1) invest up to 10% of its net assets in Transferable Securities and Money Market Instruments other than those referred to above under Section A point (1) to (5) and (8);
- (2) hold ancillary liquid assets (being bank deposits at sight, such as cash held in current accounts with a bank accessible at any time). Liquid assets used to back-up derivatives exposure are not considered as ancillary liquid assets. Each Sub-Fund will not invest more than 20% of its net assets in ancillary liquid assets for ancillary liquidity purposes in normal market conditions. Under exceptional unfavourable market conditions and on a temporary basis, unless otherwise provided in Appendix IV, this limit may be breached, if justified in the interest of the investors;
- (3) borrow up to 10% of its net assets, provided that such borrowings are made only on a temporary basis. Commitments in connection with options and the purchase and sale of futures are not taken into consideration when calculating the investment limit;
- (4) acquire foreign currency by means of a back-to-back loan.

C. In addition, the Company shall comply in respect of the net assets of each Sub-Fund with the following investment restrictions per issuer:

(a) Risk Diversification Rules

For the purpose of calculating the restrictions described in (1) to (5) and (8) hereunder, companies, which are included in the same Group of Companies, are regarded as a single issuer.

To the extent an issuer is a legal entity with multiple sub-funds, where the assets of a sub-fund are exclusively reserved to the investors in such sub-fund and to those creditors whose claim has arisen in connection with the creation, operation or liquidation of that sub-fund, each sub-fund is to be considered as a separate issuer for the purpose of the application of the risk spreading rules.

▪ **Transferable Securities and Money Market Instruments**

- (1) No Sub-Fund may purchase additional Transferable Securities and Money Market Instruments of any single issuer if:
 - (i) upon such purchase more than 10% of its net assets would consist of Transferable Securities and Money Market Instruments of such issuer; or
 - (ii) the total value of all Transferable Securities and Money Market Instruments of issuers, in which it invests more than 5% of its net assets, would exceed 40% of the value of its net assets. This limitation does not apply to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision.
- (2) The limit of 10% stipulated in point (1) (i) is raised to 20% if the Transferable Securities and Money Market Instruments are issued by companies belonging to the same group, that are not required to consolidate their financial statements, pursuant to Council Directive 83/349/EEC of 13 June 1983, with regard to consolidated accounts or pursuant to accepted international accounting rules.
- (3) The limit of 10% stipulated in point (1)(i) is raised up to 35% if the Transferable Securities and Money Market Instruments are issued or guaranteed by an EU Member State, by its regional authorities, by any third State or by international public organisations of which several EU Member States are a member.
- (4) The limit of 10% set forth above under (1)(i) is increased up to 25% in respect of covered bond as defined under article 3, point 1 of Directive (EU) 2019/2162 of the European Parliament and of the Council of 27 November 2019 on the issue of covered bonds and covered bond public supervision and amending Directives 2009/65/EC and 2014/59/EU, and of qualifying debt securities issued before 8 July 2022 by a credit institution, which has its registered office in an EU Member State, and which, under applicable law, is submitted to specific public control, in order to protect the holders of such qualifying debt securities. For the purposes hereof, "qualifying debt securities" issued before 8 July 2022 are securities, the proceeds of which are invested in accordance with applicable law in assets providing a return which will cover the debt service through to the maturity date of the securities and which will be applied on a priority basis to the payment of principal and interest in the event of a default by the issuer. To the extent that a relevant Sub-Fund invests more than 5% of its net assets in debt securities issued by such an issuer, the total value of such investments may not exceed 80% of the net assets of such Sub-Fund.
- (5) The securities specified above under (3) and (4) are not to be included for purposes of computing the ceiling of 40% set forth above under (1) (ii).
- (6) **Notwithstanding the ceilings set forth above, each Sub-Fund is authorised to invest, in accordance with the principle of risk spreading, up to 100% of its net assets in Transferable Securities and Money Market Instruments issued or guaranteed by an EU Member State, by its local authorities, by any other Member State of the Organisation for Economic Cooperation and Development ("OECD"), by certain non-member states of the OECD (currently Brazil, Indonesia, Russia, Singapore and South Africa), or by a public international body of which one or more member state(s) of the EU are member(s), provided that (i) such securities are part of at least six different issues and (ii) the securities from any such issue do not account for more than 30% of the net assets of such Sub-Fund.**

(7) Without prejudice to the limits set forth hereunder under Section (b), the limits set forth in (1) are raised to a maximum of 20% for investments in shares and/or bonds issued by the same body, when the aim of the Sub-Fund's investment policy is to replicate the composition of a certain stock or bond index within the meaning of the Grand-ducal regulation of 8 February 2008, based, among others, on the following basis:

- the composition of the index is sufficiently diversified,
- the index represents an adequate benchmark for the market to which it refers,
- it is published in an appropriate manner.

The limit of 20% is raised to 35% where that proves to be justified by exceptional market conditions, in particular in Regulated Markets where certain Transferable Securities and Money Market Instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.

▪ **Bank deposits**

(8) A Sub-Fund may not invest more than 20% of its assets in deposits made with the same body.

▪ **Derivatives**

(9) The counterparty risk connected with OTC derivatives transactions may not exceed 10% of the net assets of a Sub-Fund, when the counterparty is one of the credit institutions referred to under Section A (6) above or 5% of its net assets in all other cases.

(10) Investments in derivatives may be made insofar as the overall risks, to which the underlying assets are exposed, do not exceed the investment limits stipulated under points (1) to (5), (8),(9),(13) and (14). When the Company invests in derivatives pegged to an index, such investments are not necessarily combined with the limits set forth under points (1) to (5), (8), (9), (13) and (14).

(11) When a Transferable Security or a Money Market Instrument includes a derivative financial instrument within the meaning of the Grand-ducal regulation of 8 February 2008, this derivative must be taken into account for the purpose of applying the provisions set out in Section C, point (14) and in Section D, point (1), and for the purpose of evaluating the risks connected with derivatives transactions, in such a way that the aggregate risk connected with the derivatives does not exceed the total Net Asset Value.

▪ **Units of Open-Ended Funds**

(12) The Company may not invest more than 20% of the net assets of each Sub-Fund in units of any one UCITS or other UCIs as defined in Section A, point (5).

Investments made in units of UCIs other than UCITS may not in aggregate exceed 30% of the assets of the Sub-Fund.

When a Sub-Fund has acquired units of UCITS and/or other UCIs, the assets of the respective UCITS or other UCIs do not have to be combined for the purposes of the limits laid down in points (13) and (14).

When the Company invests in the units of UCITS and/or other UCIs that are managed, directly or by delegation, by the same management company or by any other company, with which the management company is linked by common management or control, or by a substantial direct or indirect holding, that management company or other company may not charge subscription or redemption fees on account of the Company's investment in the units of such other UCITS and/or UCIs.

When a Sub-Fund invests a substantial proportion of its assets in UCITS and/or other UCIs, the maximum level of the management fees that may be charged both to the Sub-Fund itself and to the UCITS, and/or other UCIs in which the Sub-Fund intends to invest will not exceed 2.5%. In the annual report, it shall be indicated the maximum proportion of management fees charged both to each such Sub-Fund and to the UCITS and/or other UCIs, in which they invest.

▪ **Combined limits**

- (13) Notwithstanding the individual limits stipulated under Section C, points (1), (8) and (9) above, a Sub-Fund may not combine:
- investments in Transferable Securities or Money Market Instruments issued by the same entity, and/or
 - deposits made with the same entity, and/or
 - risks inherent in OTC derivatives transactions with the same entity, exceeding 20% of its net assets.
- (14) The limits set out under Section C, points (1), (3), (4), (8), (9) and (13) above may not be combined, and thus the aggregate investments of each Sub-Fund in Transferable Securities or Money Market Instruments issued by the same body, in deposits or derivative instruments made with this body carried out in accordance with points (1), (3), (4), (8), (9) and (13) under Section C above may not exceed a total of 35% of the assets of the of said Sub-Fund.

(b) Limitations on Control

- (15) No Sub-Fund may acquire such amount of shares carrying voting rights, which would enable the Company to exercise a significant influence over the management of the issuer.
- (16) A Sub-Fund may not acquire (i) more than 10% of the outstanding non-voting shares of any one issuer; (ii) more than 10% of the outstanding debt securities of any one issuer; (iii) more than 10% of the Money Market Instruments of any one issuer; or (iv) more than 25% of the outstanding shares or units of any one UCITs or other UCI.

The limits set forth in (ii) to (iv) may be disregarded at the time of acquisition if, at that time, the gross amount of bonds or of the Money Market Instruments or the net amount of the instruments in issue cannot be calculated.

The ceilings set forth above under (15) and (16) do not apply in respect of:

- Transferable Securities and Money Market Instruments issued or guaranteed by an EU Member State or by its local authorities;
- Transferable Securities and Money Market Instruments issued or guaranteed by any other State, which is not an EU Member State;
- Transferable Securities and Money Market Instruments issued by a public international body of which one or more EU Member State(s) is (are) member(s);
- Shares in the capital of a company, which is incorporated under or organised pursuant to the laws of a State, which is not an EU Member State, provided that (i) such company invests its assets principally in securities issued by issuers of that State, (ii) pursuant to the laws of that State, a participation by the relevant Sub-Fund in the equity of such company constitutes the only possible way to purchase securities of issuers of that State, and (iii) such company observes in its investments policy the restrictions set forth under Section C, points (1) to (5), (8), (9) and (12) to (16) and Section D, point (2);
- Shares in the capital of subsidiary companies which, exclusively on its or their behalf carry on only the business of management, advice or marketing in the country where the subsidiary is located, in regard to the redemption of shares at the request of shareholders.

D. In addition, the Company shall comply in respect of its net assets with the following investment restrictions per instrument:

Each Sub-Fund shall ensure that its global exposure relating to derivative instruments does not exceed the total net value of its portfolio.

The exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, foreseeable market movements and the time available to liquidate the positions.

E. Finally, the Company shall comply in respect of the assets of each Sub-Fund with the following investment restrictions:

No Sub-Fund may acquire commodities or precious metals or certificates representative thereof.

- (1) No Sub-Fund may acquire commodities or precious metals or certificates representative thereof, provided that transactions in foreign countries, financial currencies, financial instruments, indices or Transferable Securities as well as futures and forward contracts, options and swaps thereon are not considered to be transactions in commodities for the purposes of this restriction.
- (2) No Sub-Fund may invest in real estate, provided that investments may be made in securities secured by real estate or interests therein or issued by companies which invest in real estate or interests therein.
- (3) No Sub-Fund may use its assets to underwrite any securities.
- (4) No Sub-Fund may issue warrants or other rights to subscribe for shares in such Sub-Fund.
- (5) A Sub-Fund may not grant loans or guarantees in favour of a third party, provided that such restriction shall not prevent each Sub-Fund from investing in non-fully paid-up Transferable Securities and Money Market Instruments or other financial instruments, as mentioned under Section A, points (5), (7) and (8).
- (6) The Company may not enter into uncovered sales of Transferable Securities, Money Market Instruments or other financial Instruments as listed under Section A, points (5), (7) and (8).
- (7) No Sub-Fund may invest in private equity securities.

F. Notwithstanding anything to the contrary herein contained:

- (1) The ceilings set forth above may be disregarded by each Sub-Fund, when exercising subscription rights attaching to Transferable Securities or Money Market Instruments in such Sub-Fund's portfolio. While ensuring observance of the principle of risk spreading, recently created Sub-Funds may derogate from paragraph C. for a period of six months following the date of their creation.
- (2) If such ceilings are exceeded for reasons beyond the control of a Sub-Fund or as a result of the exercise of subscription rights, such Sub-Fund must adopt as its priority objective in its sale transactions the remedying of such situation, taking due account of the interests of its shareholders.

The Board of Directors has the right to determine additional investment restrictions to the extent that those restrictions are necessary to comply with the laws and regulations of countries, where shares of the Company are offered or sold.

G. Cross Sub-Fund Investments

A Sub-Fund (the "Investing Sub-Fund") may subscribe, acquire and/or hold securities to be issued or issued by one or more Sub-Funds (each, a "Target Sub-Fund") without the Company being subject to the requirements of the Law of 1915, with respect to the subscription, acquisition and/or the holding by a company of its own shares, under the condition however that:

- (1) the Target Sub-Fund(s) do(es) not, in turn, invest in the Investing Sub-Fund invested in this (these) Target Sub-Fund(s); and
- (2) no more than 10% of the assets that the Target Sub-Fund(s) whose acquisition is contemplated may be invested in Shares of other Target Sub-Funds; and
- (3) voting rights, if any, attaching to the Shares of the Target Sub-Fund(s) are suspended for as long as they are held by the Investing Sub-Fund concerned and without prejudice to the appropriate processing in the accounts and the periodic reports; and
- (4) in any event, for as long as these securities are held by the Investing Sub-Fund, their value will not be taken into consideration for the calculation of the net assets of the Company for the purposes of verifying the minimum threshold of the net assets imposed by the 2010 Law.

H. Master-Feeder Structures

Under the conditions and within the limits laid down by the 2010 Law, the Company may, to the widest extent permitted by the Luxembourg laws and regulations (i) create any Sub-Fund qualifying either as a feeder UCITS (a "Feeder UCITS") or as a master UCITS (a "Master UCITS"), (ii) convert any existing Sub-Fund into a Feeder UCITS, or (iii) change the master UCITS of any of its Feeder UCITS.

- (1) A Feeder UCITS shall invest at least 85% of its assets in the units/shares of another master UCITS.
- (2) A Feeder UCITS may hold up to 15% of its assets in one or more of the following:
 - ancillary liquid assets in accordance with article 41 (2) of the 2010 Law;
 - financial derivative instruments, which may be used only for hedging purposes;
 - movable and immovable property which is essential for the direct pursuit of its business, if the Feeder UCITS is an investment company.
- (3) For the purposes of compliance with paragraph (D) above, the Feeder UCITS shall calculate its global exposure related to financial derivative instruments by combining its own direct exposure under the second indent under b) with either:
 - the master UCITS actual exposure to financial derivative instruments in proportion to the Feeder UCITS investment into the master UCITS; or
 - the master UCITS potential maximum global exposure to financial derivative instruments provided for in the Master UCITS management regulations or instruments of incorporation in proportion to the Feeder UCITS investment into the master UCITS.

APPENDIX II RISK MANAGEMENT PROCESS

The Company will employ a risk-management process which enables it to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of the portfolio; it will employ a process for accurate and independent assessment of the value of OTC derivative instruments.

Each Sub-Fund shall ensure that its global exposure relating to derivative instruments does not exceed the total net asset value of its portfolio.

The exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions. This shall also apply to the following paragraphs.

The global exposure relating to financial derivative instruments may be calculated through the Value-at-risk (VaR) methodology or the commitment approach. The methodology will be specified in the relevant Section of Appendix IV. C. for each Sub-Fund.

Each Sub-Fund may invest, according to its investment policy and within the limit laid down in Appendix I "Investment Restrictions" in financial derivative instruments provided that the exposure to the underlying assets does not exceed in aggregate the investment limits laid down in Appendix I "Investment Restrictions".

When a Sub-Fund invests in index-based financial derivative instruments, these investments do not have to be combined to the limits laid down in Appendix I "Investment Restrictions".

When a Transferable Security or Money Market Instrument embeds a derivative, the latter must be taken into account when complying with the requirements of this Appendix.

APPENDIX III

FINANCIAL TECHNIQUES AND INSTRUMENTS

Subject to the following conditions, the Company is authorised for each Sub-Fund to resort to techniques and instruments bearing on Transferable Securities, Money Market Instruments, currencies and other eligible assets, on the condition that any recourse to such techniques and instruments be carried out for the purpose of hedging and/or efficient management of the portfolio, altogether within the meaning of the Grand-ducal regulation of 8 February 2008.

Each Sub-Fund shall ensure that its global exposure relating to derivative instruments does not exceed the total net value of its portfolio.

The exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.

A. Techniques and Instruments relating to Transferable Securities, Money Market Instruments and other eligible assets

(1) General

To optimise portfolio management and/or to protect its assets and liabilities, the Company may use techniques and instruments involving Transferable Securities, Money Market Instruments, currencies and other eligible assets within the meaning of the Grand-ducal regulation of 8 February 2008 for each Sub-Fund provided that such techniques and instruments are used for the purposes of efficient portfolio management within the meaning of, and under the conditions set out in, applicable laws, regulations and CSSF-Circulars issued from time to time, in particular, but not limited to CSSF-Circulars 08/356 and 14/592 and ESMA-Guidelines 2014/937. In particular, those techniques and instruments should not result in a change of the investment objective of the relevant Sub-Fund or add substantial supplementary risks in comparison to the stated risk profile of such Sub-Fund.

The risk exposure to a counterparty generated through efficient portfolio management techniques and OTC financial derivatives must be combined when calculating counterparty risk limits referred to under Appendix I here above.

Furthermore, each Sub-Fund is notably authorised to carry out transactions intended to sell or buy foreign exchange rate futures, to sell or buy currency futures and to sell call options or to buy put options on currencies, in order to protect its assets against currency fluctuations or to optimise yield, i.e., for the purpose of sound portfolio management.

The Company is currently not using repurchase and reverse repurchase transactions and securities lending transactions as defined by the EU Regulation 2015/2365 on transparency of securities financing transactions and of reuse ("SFTR"), nor total return swaps or any other transactions which fall within the scope of SFTR. If a Sub-Fund was to use such securities lending, repurchase or reverse repurchase transactions, total return swaps or any other transactions which fall within the scope of SFTR in the future, the present Prospectus will be updated prior to the use of any such techniques and instruments.

(2) Limitation

When transactions involve the use of derivatives, the Company must comply with the terms and limits stipulated above in Appendix I, Section A, point (7), Section C, points (9), (10), (11), (13) and (14) and Section D, point (1).

The use of transactions involving derivatives or other financial techniques and instruments may not cause the Company to stray from the investment objectives set out in the Prospectus.

(3) Risks - Notice

In order to optimise their portfolio yield, all Sub-Funds are authorised to use the derivatives techniques and instruments described in this Appendix and Appendix I (particularly swaps of rates, currencies and other financial instruments, futures, and securities, rate or futures options), on the terms and conditions set out in said Appendices.

The investor's attention is drawn to the fact that market conditions and applicable regulations may restrict the use of these instruments. The success of these strategies cannot be guaranteed. Sub-funds using these techniques and instruments assume risks and incur costs they would not have assumed or incurred if they had not used such techniques. The investor's attention is further drawn to the increased risk of volatility generated by Sub-Funds using these techniques for other purposes than hedging. If the managers and sub-managers forecast incorrect trends for securities, currency and interest rate markets, the affected Sub-Fund may be worse off than if no such strategy had been used.

In using derivatives, each Sub-Fund may carry out over-the-counter futures or spot transactions on indices or other financial instruments and swaps on indices or other financial instruments with highly-rated banks or brokers specialised in this area, acting as counterparties. Although the corresponding markets are not necessarily considered more volatile than other futures markets, operators have less protection against defaults on these markets since the contracts traded on them are not guaranteed by a clearing house.

B. Securities Lending

(1) General

Securities lending ("Securities Lending") is a transaction whereby securities are transferred on a temporary basis from a lender to a borrower with the latter obliged to return the securities either on demand or at the end of a specific period.

If a Sub-Fund was to use such Securities Lending transactions in the future, for the purpose of generating additional capital or income or for reducing costs or risks and in accordance with the provisions of CSSF Circular 08/356 on the rules applicable to undertakings for collective investment when they employ certain techniques and instruments relating to transferable securities and money market instruments ("Circular 08/356") and SFTR, the present Prospectus will be updated prior to the use of any such techniques and instruments.

(2) Risks

Securities Lending involves counterparty risk, including the risk that the loaned securities may not be returned or returned in a timely manner in the event of a default, bankruptcy or insolvency of the borrower, and that rights to the collateral may be lost if the lending agent defaults. Should the borrower of securities fail to return securities lent by a Sub-Fund, there is a risk that the collateral received may be realised at a value lower than the value of the securities lent out, whether due to inaccurate pricing of the collateral, adverse market movements in the value of the collateral, a deterioration in the credit rating of the issuer of the collateral, or the illiquidity of the market in which the collateral is traded. As a Sub-Fund may reinvest the cash collateral received from borrowers, there is a risk that the value on return of the reinvested cash collateral may decline below the amount owed to those borrowers. Delays in the return of securities on loan may restrict the ability of the Sub-Fund to meet delivery obligations under security sales or payment obligations arising from redemption requests.

Due to the various counterparties, there is a potential risk of conflict of interests when the Company enters into total return swaps. The Management Company and Investment Manager respectively have appropriate policies in place in order to deal with such potential conflict of interests (where relevant).

C. Repurchase Agreement Transactions

(1) General

Should the Company enter into sale with right of repurchases transactions as well as reverse repurchase and repurchase agreement transactions in the future, it would be in accordance with the provisions of Circular 08/356. Such repurchase agreements can consist of forward transactions at the maturity of which the Company (seller) has the obligation to repurchase the assets sold and the counterparty (buyer) the obligation to return the assets purchased under the transactions. The Company could further enter into reverse

repurchase agreements that consist of forward transactions at the maturity of which the counterparty (seller) has the obligation to repurchase the assets sold and the Company (buyer) the obligation to return the assets purchased under the transactions. The Company could also enter into transactions that consist of the purchase/sale of securities with a clause reserving the counterparty/Company the right to repurchase the securities from the Company/counterparty at a price and term specified by the parties in their contractual arrangements.

The Company's involvement in such transactions is, however, subject to the additional following rules:

- (i) The counterparty to these transactions must be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law;
- (ii) The Company may only enter into reverse repurchase agreement and/or repurchase agreement transactions provided that it is able at any time (a) to recall the full amount of cash in a reverse repurchase agreement or any securities subject to a repurchase agreement or (b) to terminate the agreement in accordance with applicable regulations. However, fixed-term transactions that do not exceed seven days should be considered as arrangements on terms that allow the assets to be recalled at any time by the Company.

(2) Risks

The principal risk when engaging in repurchase or reverse repurchase transactions is the risk of default by a counterparty who has become insolvent or is otherwise unable or refuses to honour its obligations to return securities or cash to the relevant Sub-Fund as required by the terms of the transaction. Counterparty risk is mitigated by the transfer or pledge of collateral in favour of the relevant Sub-Fund. However, repurchase or reverse repurchase transactions may not be fully collateralised. Fees and returns due to the relevant Sub-Fund under repurchase or reverse repurchase transactions may not be collateralised. In addition, the value of collateral may decline in between collateral rebalancing dates or may be incorrectly determined or monitored. In such a case, if a counterparty defaults, the relevant Sub-Fund may need to sell non-cash collateral received at prevailing market prices, thereby resulting in a loss to the Sub-Fund.

A Sub-Fund may also incur a loss in reinvesting cash collateral received. Such a loss may arise due to a decline in the value of the investments made. A decline in the value of such investments would reduce the amount of collateral available to be returned by the relevant Sub-Fund to the counterparty as required by the terms of the transaction. The Sub-Fund would be required to cover the difference in value between the collateral originally received and the amount available to be returned to the counterparty, thereby resulting in a loss to the Sub-Fund.

Repurchase or reverse repurchase transactions also entail operational risks such as the non-settlement or delay in settlement of instructions and legal risks related to the documentation used in respect of such transactions.

A Sub-Fund may enter into repurchase or reverse repurchase transactions with other companies in the same group of companies as the Management Company. Affiliated counterparties, if any, will perform their obligations under any repurchase or reverse repurchase transactions concluded with the Sub-Fund in a commercially reasonable manner. In addition, the Management Company will select counterparties and enter into transactions in accordance with best execution and at all times in the best interests of the Sub-Fund and its investors. However, investors should be aware that the Management Company may face conflicts between its role and its own interests or that of affiliated counterparties.

D. Financial Derivative Instruments

(1) General

Over-the-counter (OTC) financial derivative instruments (including Total Return Swaps and other derivatives with similar characteristics) used by the Sub-Funds to gain exposure to underlying assets or for both investment and hedging policy purposes will be entered into with counterparties selected among first class financial institutions specialised in the relevant type of transaction, subject to prudential supervision which are subject to prudential supervision considered by the CSSF as equivalent to those prescribed by Community law. While there are no predetermined legal status, credit rating or geographical criteria applied in the selection of the counterparties, these elements may be taken into account in the selection process. The counterparties to such transactions will typically be organisations based in an OECD member state and will comply with Article 3 of the SFTR. The identity of the counterparties will be disclosed in the annual report

of the Company. In case of total return swaps, the counterparty will not assume any discretion over the composition of the Sub-Fund's portfolio or over the underlying of the total return swap.

(2) Counterparty Risk

In accordance with its investment objective and policy, a Sub-Fund may trade 'over-the-counter' (OTC) financial derivative instruments such as non-exchange traded futures and options, forwards, swaps, total return swaps or contracts for difference. OTC derivatives are instruments specifically tailored to the needs of an individual investor that enable the user to structure precisely its exposure to a given position. Such instruments are not afforded the same protections as may be available to investors trading futures or options on organised exchanges, such as the performance guarantee of an exchange clearing house. The counterparty to a particular OTC derivative transaction will generally be the specific entity involved in the transaction rather than a recognised exchange clearing house. In these circumstances the Sub-Fund will be exposed to the risk that the counterparty will not settle the transaction in accordance with its terms and conditions because of a dispute over the terms of the contract (whether or not bona fide) or because of the insolvency, bankruptcy or other credit or liquidity problems of the counterparty. This could result in substantial losses to the Sub-Fund.

Participants in OTC markets are typically not subject to the credit evaluation and regulatory oversight to which members of 'exchange-based' markets are subject. Unless otherwise indicated in the Prospectus for a specific Sub-Fund, the Company will not be restricted from dealing with any particular counterparties. The Company's evaluation of the creditworthiness of its counterparties may not prove sufficient. The lack of a complete and foolproof evaluation of the financial capabilities of the counterparties and the absence of a regulated market to facilitate settlement may increase the potential for losses.

The Company may select counterparties located in various jurisdictions. Such local counterparties are subject to various laws and regulations in various jurisdictions that are designed to protect their customers in the event of their insolvency. However, the practical effect of these laws and their application to the Sub-Fund and its assets are subject to substantial limitations and uncertainties. Because of the large number of entities and jurisdictions involved and the range of possible factual scenarios involving the insolvency of a counterparty, it is impossible to generalize the effect of their insolvency on the Sub-Fund and its assets. Investors should assume that the insolvency of any counterparty would generally result in a loss to the Sub-Fund, which could be material.

If there is a default by the counterparty to a transaction, the Company will under most normal circumstances have contractual remedies and in some cases collateral pursuant to the agreements related to the transaction. However, exercising such contractual rights may involve delays and costs. If one or more OTC counterparties were to become insolvent or the subject of liquidation proceedings, the recovery of securities and other assets under OTC derivatives may be delayed and the securities and other assets recovered by the Company may have declined in value.

Regardless of the measures that the Company may implement to reduce counterparty credit risk there can be no assurance that a counterparty will not default or that the Sub-Fund will not sustain losses on the transactions as a result. Such counterparty risk is accentuated for contracts with longer maturities or where the Sub-Fund has concentrated its transactions with a single or small group of counterparties.

(3) Management of Collateral and Collateral Policy

General

In the context of OTC financial derivative transactions and efficient portfolio management techniques, the Company may receive collateral with a view to reduce its counterparty risk. This section sets out the collateral policy applied by the Company in such case. All assets received by the Company in the context of efficient portfolio management techniques shall be considered as collateral for the purpose of this section.

Where there is a title transfer, the collateral received will be held by the Depositary in accordance with the Depositary's safekeeping duties under the Depositary Agreement. For other types of collateral arrangements, the collateral will be held with a central security depository or with a third party custodian subject to prudential supervision, and which is unrelated to the provider of the collateral.

Eligible Collateral

Collateral received by the Company may be used to reduce its counterparty risk exposure if it complies with the criteria set out in applicable laws, regulations and CSSF-Circulars issued from time to time notably in

terms of liquidity, valuation, issuer credit quality, correlation, risks linked to the management of collateral and enforceability. In particular, collateral should comply with the following conditions:

- (i) Any collateral received other than cash should be of high quality, highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation;
- (ii) It should be valued on at least a daily basis using available market prices and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place. The collateral will be marked to market daily and may be subject to daily variation margin requirements;
- (iii) It should be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty;
- (iv) It should be sufficiently diversified in terms of country, markets and issuers with a maximum exposure of 20% of the respective Sub-Fund's Net Asset Value to any single issuer on an aggregate basis, taking into account all collateral received. By way of derogation, a Sub-Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a Member State, one or more of its local authorities, a member state of the Organisation for Economic Co-Operation and Development, Brazil, Indonesia, Russia, Singapore and South Africa, or a public international body to which one or more Member States belong. In that case the Sub-Fund shall receive securities from at least six different issues, but securities from any single issue shall not account for more than 30% of the Net Asset Value of the Sub-Fund;
- (v) It should be capable of being fully enforced by the Company at any time without reference to or approval from the counterparty.

Subject to the abovementioned conditions, collateral received by the Company may consist of:

- (i) Cash and cash equivalents, including short-term bank certificates and money market instruments;
- (ii) Bonds issued or guaranteed by a Member State of the OECD or by their local public authorities or by supranational institutions and undertakings with EU, regional or worldwide scope;
- (iii) Shares or units issued by money market UCIs calculating a daily net asset value and being assigned a rating of AAA or its equivalent;
- (iv) Shares or units issued by UCITS investing mainly in bonds/shares mentioned in lit. (e) and (f) of section 1 of Chapter 5, "Investment Restrictions", below;
- (v) Bonds issued or guaranteed by first class issuers offering adequate liquidity;
- (vi) Shares admitted to or dealt in on a regulated market of a Member State of the EU or on a stock exchange of a Member State of the OECD, on the condition that these shares are included in a main index.

With respect to debt securities which may be received as collateral, their maximum maturity may not exceed 40 years.

Level of Collateral

The Company will determine the required level of collateral for OTC financial derivatives transactions and efficient portfolio management techniques by reference to the applicable counterparty risk limits set out in this Prospectus and taking into account the nature and characteristics of transactions, the creditworthiness and identity of counterparties and prevailing market conditions.

Haircut Policy

Collateral will be valued, on a daily basis, using available market prices and taking into account appropriate discounts which will be determined by the Company for each asset class based on its haircut policy. The policy takes into account a variety of factors, depending on the nature of the collateral received, such as the issuer's credit standing, the maturity, currency, price volatility of the assets and, where applicable, the

outcome of liquidity stress tests carried out by the Company under normal and exceptional liquidity conditions. No haircut will generally be applied to cash collateral.

According to the Company's haircut policy the following discounts will be made:

Type of Collateral	Discount
Cash and cash equivalents (only in currencies of G10 member states), including short-term bank certificates and money market instruments; a discount will only be made with regard to collateral not denominated in the reference currency of the relevant Subfund	0,5% - 1%
Bonds issued or guaranteed by a Member State of the OECD or by their local public authorities or by supranational institutions and undertakings with EU, regional or worldwide scope	0,5% - 5% <u>x</u>
Shares or units issued by money market UCIs calculating a daily net asset value and being assigned a rating of AAA or its equivalent	0,5% - 1%
Shares or units issued by UCITS investing mainly in bonds/shares below	15%
Bonds issued or guaranteed by first class issuers offering adequate liquidity	1% - 8% <u>x</u>
Shares admitted to or dealt in on a regulated market of a Member State of the EU or on a stock exchange of a Member State of the OECD, on the condition that these shares are included in a main index	15%**

Reinvestment of Collateral

Non-cash collateral received by the Company may not be sold, re-invested or pledged.

Cash collateral received by the Company can only be:

- (i) placed on deposit with credit institutions which have their registered office in an EU Member State or, if their registered office is located in a third-country, are subject to prudential rules considered by the CSSF as equivalent to those laid down in EU law;
- (ii) invested in high-quality government bonds;
- (iii) used for the purpose of reverse repurchase transactions (if applicable) provided the transactions are with credit institutions subject to prudential supervision and the Company is able to recall at any time the full amount of cash on accrued basis; and/or
- (iv) invested in short-term money market funds as defined in the ESMA-Guidelines 2010/049 on a Common Definition of European Money Market Funds.

Re-invested cash collateral should be diversified in accordance with the diversification requirements applicable to non-cash collateral as set out above.

The Sub-Fund concerned may incur a loss in reinvesting the cash collateral it receives. Such a loss may arise due to a decline in the value of the investment made with cash collateral received. A decline in the value of such investment of the cash collateral would reduce the amount of collateral available to be returned by the Company on behalf of such Sub-Fund to the counterparty at the conclusion of the transaction. The Sub-Fund would be required to cover the difference in value between the collateral originally received and the amount available to be returned to the counterparty, thereby resulting in a loss to the Sub-Fund.

(4) Total Return Swaps

A total return swap is a derivative contract in which one counterparty transfers the total economic performance, including income from interest and fees, gains and losses from price movements, and credit losses, of a reference obligation to another counterparty.

If a Sub-Fund enters into total return swap or invests in other financial instruments with similar characteristics, the type of assets, the maximum and the expected proportion of assets under management of the Sub-Fund that could be subject to total return swaps, the information required under the ESMA Guidelines shall be disclosed in the relevant Annex for such Sub-Fund and assets held by the Sub-Fund will comply with the investment limits set out in Articles 52, 53, 54, 55 and 56 of the UCITS Directive. Should a Sub-Fund enter

into such transactions, the purpose will be to generate additional capital or income and/or for reducing costs (reaching a certain exposure in a cost efficient way) or risks. The total return swaps used by the Sub-Funds are unfunded.

Each Sub-Fund may incur costs and fees in connection with total return swaps or other derivatives with similar characteristics, upon entering into these instruments and/or any increase or decrease of their notional amount. The amount of these fees may be fixed or variable. Information on costs and fees incurred by each Sub-Fund in this respect, as well as the identity of the recipients and any affiliation they may have with the Depository, the Investment Manager or the Management Company, if applicable, may be available in the annual report.

All revenues arising from total return swaps, net of direct and indirect operational costs and fees, will be returned to the Company. In particular, fees and cost may be paid to agents of the Company and other intermediaries providing services in connection with total return swaps as normal compensation of their services. Information on the identity of the entities to which such costs and fees are paid will also be available in the annual report of the Company.

The counterparties to total return swaps will be major banks and other financial institutions having an investment grade credit rating.

E. Co-management and Pooling

To ensure effective management of the Company, the Board of Directors and the Management Company may decide to manage all or part of the assets of one or more Sub-Funds with those of other Sub-Funds in the Company (pooling technique) or, where applicable, to co-manage all or part of the assets, except for a cash reserve, if necessary, of one or more Sub-Funds with the assets of other Luxembourg investment funds or of one or more sub-funds of other Luxembourg investment funds (hereinafter referred to as the "Party(ies) to the co-managed assets") for which the Depository is the appointed custodian bank.

These assets will be managed in accordance with the respective investment policies of the Parties to the co-managed assets, each of which is pursuing identical or comparable objectives. Parties to the co-managed assets will only participate in co-managed assets which are in accordance with the stipulations of their respective prospectuses and investment restrictions.

Each Party to the co-managed assets will participate in the co-managed assets in proportion to the assets it has contributed to the co-management. Assets and liabilities will be allocated to each Party to the co-managed assets in proportion to its contribution to the co-managed assets.

Each Party's rights to the co-managed assets apply to each line of investment in the said co-managed assets.

The aforementioned co-managed assets will be formed by the transfer of cash or, where applicable, other assets from each of the Parties participating in the co-managed assets. Thereafter, the Board of Directors and the Management Company may regularly make subsequent transfers to the co-managed assets. The assets can also be transferred back to a Party to the co-managed assets for an amount not exceeding the participation of the said Party to the co-managed assets.

Dividends, interest and other distributions deriving from income generated by the co-managed assets will accrue to each Party to the co-managed assets in proportion to its respective investment. Such income may be kept by the Party to the co-managed assets or reinvested in the co-managed assets.

All charges and expenses incurred in respect of the co-managed assets will be applied to these assets. Such charges and expenses will be allocated to each Party to the co-managed assets in proportion to its respective entitlement to the co-managed assets.

When the Company is liquidated or when the Board of Directors and the Management Company decide, without prior notice, to withdraw the participation of the Company or a Sub-Fund from co-managed assets, the co-managed assets will be allocated to the Parties to the co-managed assets in proportion to their respective participation in the co-managed assets.

Co-managed assets are not distinct legal entities and are not directly accessible to investors. However, the assets and liabilities of each Sub-Fund of the Company will be constantly separated and identifiable.

APPENDIX IV THE SUB-FUNDS

The Company's primary objective is to offer its Shareholders the possibility of participating in the professional management of portfolios of Transferable Securities, Money Market Instruments or other eligible assets, as defined by Article 41 of the 2010 Law and within the limits set forth by the relevant articles of such law and as defined in the investment policy of each Sub-Fund of the Company.

A. GENERAL PROVISIONS APPLICABLE TO EACH SUB-FUND'S INVESTMENT POLICY

Each Sub-Fund's investment policy, as it appears in this Appendix, has been defined by the Board of Directors.

In each Sub-Fund, the aim is to maximise the value of the invested assets. The Company takes such risks as it considers reasonable, in order to achieve the objective it sets itself. However, given market fluctuations and other risks to which investments in Transferable Securities, Money Market Instruments or other eligible assets are subject, there can be no guarantee that this objective shall be achieved.

Each Sub-Fund may use all the financial techniques and instruments permitted within Appendix III, unless the Sub-Fund and/or class clearly stipulate the contrary on particular financial techniques and instruments.

B. INVESTMENT POLICIES OF THE SUB-FUNDS

The different Sub-Funds' investments shall be made according to the restrictions imposed by the 2010 Law and by this Prospectus.

The Company needs not comply with the limits set out in Appendix I, when exercising subscription rights attached to Transferable Securities, Money Market Instruments or other eligible assets that form part of its assets.

If the limits referred to above are exceeded for reasons beyond the Company's control or as a result of the exercise of subscription rights, the Company must adopt as a priority objective for its future sales transactions the remedying of that situation, taking due account of the interests of its Shareholders.

C. LIST OF THE SUB-FUNDS

Non-base currency Classes may be hedged against the currency of the relevant Sub-Fund. Specific details are described in the Sub-Fund's relevant data sheet under Appendix IV.

There can be no assurances that this currency hedging strategy will fully eliminate the exchange rate risk between the base currency and the Class currency.

1. BROCK MILTON CAPITAL UCITS SICAV – BMC Global Select Fund

INVESTMENT STRATEGIES AND POLICY

The investment objective of the Sub-Fund BROCK MILTON CAPITAL UCITS SICAV – BMC Global Select Fund (referred to in the present Section as the "Sub-Fund") is to create long-term capital growth by investing in a portfolio of selected global equities. The aim is to outperform its benchmark, MSCI All Country World Daily Net Total Return Index.

The Sub-Fund mainly invests directly and indirectly (i.e. through funds, exchange traded funds ("Exchange Traded Funds" or "ETFs"), warrants, derivatives) in equities and equity linked securities (including, but not limited to, American depositary receipts, European depositary receipts, global depositary receipts). The Sub-Fund is allowed to invest in any equity security regardless of market capitalization or place of registered office.

The Sub-Fund may invest up to 30% of its net assets in emerging markets, including up to 15% of its net assets in China, through China A-Shares via the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect.

Unless otherwise provided in Appendix III of the Prospectus, the Sub-Fund is authorised to use financial techniques and instruments described in Appendix III of the Prospectus, for the purpose of hedging and/or efficient management of the portfolio, and within the limits set forth under Appendix III of the Prospectus.

The Sub-Fund may invest in deposits, money market instruments and fixed income instruments (such as government bonds) for cash management purposes up to 20% of its net assets.

Fixed-income securities will be rated investment grade credit (having a minimum credit rating of AA-, as measured by Standard & Poor's or any equivalent grade from other credit rating agencies).

In the event of downgrade of such security, the Investment Manager will remedy that situation, which may include selling such security, taking due account of the interests of shareholders.

Under exceptional circumstances or unfavourable market conditions, the Sub-Fund's net assets may also be invested up to 30% in deposits, money market instruments and money market funds in order to achieve its investment goals.

The Sub-Fund may not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

The Sub-Fund may hold up to 20% of its net assets in ancillary liquid assets.

Under exceptional unfavourable market conditions and on a temporary basis, and if justified in the interest of the investors, the Sub-Fund may however breach that limit for as long as the exceptionally unfavourable market condition persists.

The Sub-Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Sub-Fund is provided in Appendix V in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

FINANCIAL INSTRUMENTS

The Sub-Fund may invest in the following instruments: common stock, preferred stocks, closed-ended REITs, UCITS (including ETFs), UCIs (including ETFs), term deposits (for cash management), money market instruments, derivatives (forwards), government bonds, and depositary receipts.

RISK PROFILE

The risks pertaining to the Sub-Fund are primarily those inherent in investing in securities. These risks include settlement risks, custody risks, accounting standards risks, illiquidity of investments risks and foreign currency and exchange rates risks.

PROFILE OF THE TYPICAL INVESTOR

The Sub-Fund is suitable for investors with a long term investment horizon seeking long-term capital growth through investments in global equities.

DISCLAIMER: Past performance is not indicative of future results. The Sub-Fund is subject to the risk of financial markets. The price of the Shares and the income from them may fall as well as rise. Accordingly, there is no guarantee that investors will recover the total amount initially invested. There can be no assurance that the Sub-Fund will achieve its objectives.

GLOBAL EXPOSURE

The Company will use the commitment approach in order to calculate the global risk exposure of the Sub-Fund.

BANK BUSINESS DAY

A Bank Business Day for this Sub-Fund shall mean a day on which banks are open in Luxembourg.

SUBSCRIPTIONS

Any investor applying for subscription of Shares may at any time request such subscription by way of a written application, considered irrevocable, sent at the registered office of the Registrar Agent. Requests must contain the following information: the exact name and address of the person making the subscription request and the amount or the number of Shares to be subscribed, the Sub-Fund to which such subscription applies as well as the Class of Shares concerned, the subscription amount and instruction of payments to be used in cases of future redemptions.

Provided the application together with any required documentation are received prior to 2.00 p.m., Luxembourg time on a Valuation Day, the Shares will be issued based on the Net Asset Value per Share applicable on that Valuation Day. If received thereafter, the application will be deferred to the following Valuation Day. A subscription fee may be levied as set out under point "Available Classes of Shares" of the present section hereunder.

Payments for subscriptions must be received within two (2) Bank Business Days after the relevant Valuation Day.

Shares will be allotted on receipt of the payment and of the duly fulfilled application form.

REDEMPTIONS

Shareholders may place redemption orders every Bank Business Day for all or part of their shareholdings. Redemption requests, considered irrevocable, should be sent at the registered office of the Registrar Agent. Requests must contain the following information: the exact name and address of the person making the redemption request and the number of Shares or the amount to be redeemed, the Sub-Fund to which such Shares belong, as well as the Class of Shares and instruction of payments to be used in cases to credit the investor.

Provided the application together with any required documentation is received prior to 2.00 p.m., Luxembourg time on a Valuation Day, the Shares will be redeemed based on the Net Asset Value per Share applicable on that Valuation Day. If received thereafter, the application will be deferred to the next following Valuation Day. The redemption price shall be paid not later than two (2) Bank Business Days after the applicable Valuation Day. A redemption fee may be levied as set out under point "Available Classes of Shares" of the present section hereunder.

* The investment management fee includes the distribution fee paid to the Global Distributor for the relevant Class.

** Shares of Class S will only be issued to funds managed by Coeli Asset Management AB. However, the Board of Directors may in its discretion accept subscriptions from other investors.

*** In this perspective, Eligible Investor refers only to whether the Share Class is subject to a reduced subscription tax (*taxe d'abonnement*).

**** Shares of Class R-C will only be issued to investors that has been approved by the Global Distributor. However, the Board of Directors may in its discretion accept subscriptions from other investors.

***** Shares of Class Initiator will only be issued to the Investment Manager, its subsidiaries, parent entities or any company controlled by the Investment Manager.

Shareholders of the dividend share classes R-D SEK, I-D SEK, BT-D EUR and BT-D SEK will receive a fixed dividend of 4% p.a. regardless of the performance of such share class in the relevant year. The dividend will be paid out four weeks after the annual general meeting of the Shareholders of the Company at the latest. Dividends could be paid out of capital and further reduce the Sub-Fund's Net Asset Value. Dividends paid out of capital could be taxed as income in certain jurisdictions.

REFERENCE CURRENCY OF THE SUB-FUND: The reference currency of the Sub-Fund is SEK.

FEES CLAIMED BY LOCAL INTERMEDIARIES: In connection with the purchase and/or sales of the Shares in the local markets, local intermediaries may charge additional costs.

CHARGES AND EXPENSES

The Management Company is entitled to receive for its management company services out of the assets of the respective Class within the Sub-Fund a management fee, payable quarterly in arrears at such rate p.a. as set out in respect of each Class under point "Available Classes of Shares" here above. The fees are based on the average Net Asset Value of the relevant Class over the relevant period.

PERFORMANCE FEE

In addition to the Management Fee, the Investment Manager will receive a Performance Fee for its investment management services from the Sub-Fund, payable out of the assets attributable to the relevant Share Class.

The Performance Fee will be calculated in respect of each calendar year ending 31 December (the "Calculation Period"). The first Calculation Period will be the period commencing on the Business Day immediately following the close of the Initial Offer Period and ending on 31 December in the year in which the Share Class launched. The crystallisation date for the performance fee payable in all Share Classes will be 31 December in each year provided that at least 12 months of performance has been calculated for that Share Class.

The Performance Fee is calculated and accrued daily and paid to the Investment Manager at the end of a Calculation Period. A Performance Fee is payable only if the Net Asset Value per Share exceeds the respective Reference Net Asset Value per Share at the end of a Calculation Period.

The "Reference Net Asset Value" is the Net Asset Value of the Share Class as at the end of the last Calculation Period in respect of which a Performance Fee was paid (or if no Performance Fee has yet been paid, the initial Subscription Price multiplied by the number of Shares issued in the Class at the end of the initial offer period) increased on each Subscription Day by the value of any subscriptions and reduced pro rata by the value of any redemptions on each Redemption Day and further adjusted by the performance of the respective Benchmark over the course of the Calculation Period. The purpose of adjusting the Reference Net Asset Value for the value of new subscriptions is to prevent any artificial increase in the Performance Fee as a result of new subscriptions.

The "Reference Net Asset Value per Share" is the "Reference Net Asset Value" divided by the total number of outstanding Shares of the relevant Share Class on any given day.

Given that the performance of the Benchmark is reflected in the performance of the respective Reference Net Asset Value of a Share Class a performance fee could also be payable in case the share class has over performed it's respective Reference Net Asset Value but had a negative performance.

Where the Net Asset Value per Share does not exceed the respective Reference Net Asset Value per Share on the last Valuation Day of a Calculation Period, no Performance Fee is payable and the Reference Net Asset Value per Share for the start of the following Calculation Period remains unchanged from the end of the previous Calculation Period thereby ensuring any underperformance of the Net Asset Value per Share to the respective Reference Net Asset Value per Share is clawed back in subsequent Calculation Periods before any Performance Fee becomes payable. To this purpose, the length of the Performance Reference Period is equal to the whole life of the Sub-Fund and it cannot be reset.

When calculating the eventual Performance Fee, the Share Class performance will be determined on the basis of the change in the Net Asset Value per Share, net of all costs (for example management fees, administrative fees, crystallised Performance Fees but before any accrued uncrystallised Performance Fees.)

The Performance Fee, if any, will be calculated based on the number of Shares in issue on a given Valuation Day. The Reference Net Asset Value is converted to the currency of the respective Share Class for the Performance Fee calculation.

In the event the Net Asset Value per Share does not exceed the respective Reference Net Asset Value per Share on the last valuation day of a Calculation Period, any previous provision for Performance Fees is readjusted by means of a reversal of such provision.

The concept of "crystallization" will be applied, meaning that the Performance Fee due to the Investment Manager is precisely determined (accrued or "crystallized") at any time, in order to ensure that in the event that an investor applies for a redemption of shares during a Calculation Period any Performance Fee accrued in relation to those Shares up until the time of their redemption, will be crystallised and become payable to the Investment Manager at the end of the Calculation Period in which the Shares were redeemed.

The Benchmark and the Performance Fee Rate for each Share Class is given in the "Available Classes of Shares" table above.

The Performance Fee Amount on any given valuation day is calculated as follows:

Performance Fee Amount equals the greater of

1. $((A + B) - C) \times D \times E$ and
2. Zero

Where:

- A = Net Asset Value per Share net of all costs (eg Management Fees, Administrative Fees, crystallised Performance Fees but before any accrued uncrystallised Performance Fees.)
- B = Cumulated dividends per Share during the Calculation Period, if any.
- C = Reference Net Asset Value per Share
- D = Outstanding shares
- E = Performance Fee rate

The table below is used to illustrate the Performance Fee calculation. Please note that a Performance Fee Rate of 10% is used in this illustration.

Calculation Period (CP)	Net Asset Value per Share (NAVPS)	Reference Net Asset Value per Share (RNAVPS)	Performance Fee per Share (PFPS)	NAVPS (after PFPS)	RNAVPS at Start / End of CP
CP 1 Start	10,00	10,00	PFPS = 0	10,00	10,00
CP 1 End	11,00	10,50	PFPS = .05 At the end of CP 1 the NAVPS exceeds the RNAVPS therefore a PFPS of (NAVPS less RNAVPS) x 10% is payable ie $(11.00 - 10.50) \times 10\% = 0.05$	10,95	10,95

Notes:

1. Both the NAVPS and the RNAVPS had positive performance in CP 1.
2. At the end of CP 1 the NAVPS exceeds the RNAVPS by $11.00 - 10.050 = 0.50$, therefore a PFPS of 10% of $0.50 = 0.05$ is payable.
3. As the above example is based on 1 share, the total Performance Fee (PF) payable for the Share Class would be the PFPS x the total outstanding shares of that shareclass at the end CP 1

CP	NAVPS	RNAVPS	PFPS	NAVPS (after PFPS)	RNAVPS at Start / End of CP
CP 2 Start	10,95	10,95	PFPS = 0	10,95	10,95
CP 2 End	11,00	12,00	PFPS = 0 The NAVPS is lower than the RNAVPS therefore there is no PFPS payable	11,00	12,00

Notes:

1. Given that a PF was payable at the end of CP 1, the RNAVPS for the start of CP 2 is reset to equal the NAVPS after PFs at the end of CP 1 ie 10.95 thus ensuring that PFs, if any, at the end of CP 2 are only payable for any new performance of the NAVPS to the RNAVPS from the start of CP 2.
2. The NAVPS had positive performance in CP 2 and the RNAVPS had positive performance in CP 2.
3. Because the NAVPS is lower than the RNAVPS at the end of CP 2 there are no PFs payable.

CP	NAVPS	RNAVPS	PFPS	NAVPS (after PFPS)	RNAVPS at Start / End of CP
CP 3 Start	11,00	12,00	PFPS = 0	11,00	12,00
CP 3 End	9,50	8,50	PFPS = 0.10 At the end of CP 1 the NAVPS exceeds the RNAVPS therefore a PFPS of (NAVPS less RNAVPS) x 10% is payable ie (9.50 - 8.50) x 10% = 0.10	9,40	9,40

Notes:

1. Given that there were no PFs payable at the end of CP 2, the RNAVPS of 12.00 at the end of CP 2 is carried forward into the start of CP 3, thereby ensuring that any underperformance at the end of CP 2 of the NAVPS to the RNAVPS is clawed back in subsequent CPs before any PF becomes payable.
2. Both the NAVPS and the RNAVPS had negative performance in CP 3, dropping in value to 9.50 and 8.50 respectively at the end of CP 3. However, because the NAVPS still overperformed the RNAVPS at the end of CP 3 a PFPS of $(9.50 - 8.50) \times 10\% = 0.10$ is payable
3. As the above example is based on 1 share, the total Performance Fee (PF) payable for the Share Class would be the PFPS x the total outstanding shares of that shareclass at the end CP 3.
4. In the above example for CP 3 the fall in the RNAVPS from 12.00 to 8.50 at the end of CP 3 can be attributed to a fall in the performance of the

benchmark for CP 3 which is reflected in the decreased value of the RNAVPS at the end of CP 3.

BENCHMARK INFORMATION

MSCI All Country World Daily Net Total return index.

The Sub-Fund uses the benchmark for the calculation of the performance fee and for performance comparison purposes.

The Sub-Fund is actively managed. This means that the Investment Manager is taking investment decisions with the intention of achieving the Sub-Fund's investment strategies and policy; this may include decisions regarding asset selection and overall exposure to the market. The Investment Manager is not in any way constrained by the benchmark in its portfolio positioning.

The deviation from the benchmark may be complete or significant.

PUBLICATION OF THE NET ASSET VALUE

The Net Asset Value per Share as well as the issue and redemption prices of each Class within the Sub-Fund are available at the registered office of the Company and at www.coeli.com.

INVESTMENT MANAGER

The Management Company has appointed BROCK MILTON CAPITAL AB (previously denominated Coeli Global AB), with registered office at Sveavägen 24-26 SE-11157 Stockholm Sweden (the "Investment Manager") as Investment Manager of the Sub-Fund. BROCK MILTON CAPITAL AB is a company regulated by the Swedish Financial Supervisory Authority, Finansinspektionen.

The Investment Manager is entitled to receive for its investment management services out of the assets of the respective Class within the Sub-Fund an investment management fee, payable monthly in arrears at such rate p.a. as set out in respect of each Class under point "Available Classes of Shares" here above. The fees are based on the average Net Asset Value of the relevant Class over the relevant period.

2. BROCK MILTON CAPITAL UCITS SICAV – BMC Global Small Cap Select Fund

INVESTMENT STRATEGIES AND POLICY

The investment objective of the Sub-Fund BROCK MILTON CAPITAL UCITS SICAV – BMC Global Small Cap Select Fund (referred to in the present Section as the “Sub-Fund”) is to create long-term capital growth by investing in a portfolio of selected global equities. The aim is to outperform its benchmark, MSCI ACWI Small Cap Net Total Return USD Index.

The Sub-Fund mainly invests directly and indirectly (i.e. through funds, exchange traded funds (“Exchange Traded Funds” or “ETFs”), warrants, derivatives) in equities and equity linked securities (including, but not limited to, American depositary receipts, European depositary receipts, global depositary receipts). The Sub-Fund may only invest in companies with, at the time of the initial investment, a market capitalization of maximum of 6 billion USD. The Sub-Fund may, subject to the requirements in 2010 Law, invest in equities that at the time of the investment are not listed.

The Sub-Fund may invest up to 30% of its net assets in emerging markets, including up to 15% of its net assets in China through China A-Shares via the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect.

Unless otherwise provided in Appendix III of the Prospectus, the Sub-Fund is authorised to use financial techniques and instruments described in Appendix III of the Prospectus, for the purpose of hedging and/or efficient management of the portfolio and within the limits set forth under Appendix III of the Prospectus.

The Sub-Fund may invest in deposits, money market instruments and fixed income instruments (such as government bonds) for cash management purposes up to 20% of its net assets.

Fixed-income securities will be rated investment grade credit (having a minimum credit rating of AA-, as measured by Standard & Poor’s or any equivalent grade from other credit rating agencies).

In the event of downgrade of such security, the Investment Manager will remedy that situation, which may include selling such security, taking due account of the interests of shareholders.

Under exceptional circumstances or unfavourable market conditions, the Sub-Fund’s net assets may also be invested up to 30% in deposits, money market instruments and money market funds in order to achieve its investment goals.

The Sub-Fund may not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

The Sub-Fund may hold up to 20% of its net assets in ancillary liquid assets.

Under exceptional unfavourable market conditions and on a temporary basis, and if justified in the interest of the investors, the Sub-Fund may however breach that limit for as long as the exceptionally unfavourable market condition persists.

The Sub-Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Sub-Fund is provided in Appendix V in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

FINANCIAL INSTRUMENTS

The Sub-Fund may invest in the following instruments: common stock, preferred stock, closed-ended REITs, warrants, government bonds, term deposits, money market instruments, UCITS (including ETF), UCIs (including ETF), derivatives (equity options, equity futures, forwards), and depositary receipts.

RISK PROFILE

The risks pertaining to the Sub-Fund are primarily those inherent in investing in securities. These risks include settlement risks, custody risks, accounting standards risks, illiquidity of investments risks and foreign currency and exchange rates risks. Investing in the Sub-Fund also involves risks linked to investments in emerging markets.

PROFILE OF THE TYPICAL INVESTOR

The Sub-Fund is suitable for investors with a long-term investment horizon seeking long-term capital growth through investments in global equities.

DISCLAIMER: Past performance is not indicative of future results. The Sub-Fund is subject to the risk of financial markets. The price of the Shares and the income from them may fall as well as rise. Accordingly, there is no guarantee that investors will recover the total amount initially invested. There can be no assurance that the Sub-Fund will achieve its objectives.

GLOBAL EXPOSURE

The Company will use the commitment approach in order to calculate the global risk exposure of the Sub-Fund.

BANK BUSINESS DAY

A Bank Business Day for this Sub-Fund shall mean a day on which banks are open in Luxembourg.

SUBSCRIPTIONS

Any investor applying for subscription of Shares may at any time request such subscription by way of a written application, considered irrevocable, sent at the registered office of the Registrar Agent. Requests must contain the following information: the exact name and address of the person making the subscription request and the amount or the number of Shares to be subscribed, the Sub-Fund to which such subscription applies as well as the Class of Shares concerned, the subscription amount and instruction of payments to be used in cases of future redemptions.

Provided the application together with any required documentation are received prior to 2.00 p.m., Luxembourg time on a Valuation Day, the Shares will be issued based on the Net Asset Value per Share applicable on that Valuation Day. If received thereafter, the application will be deferred to the following Valuation Day. A subscription fee may be levied as set out under point "Available Classes of Shares" of the present section hereunder.

Payments for subscriptions must be received within two (2) Bank Business Days after the relevant Valuation Day.

Shares will be allotted on receipt of the payment and of the duly fulfilled application form.

REDEMPTIONS

Shareholders may place redemption orders every Bank Business Day for all or part of their shareholdings. Redemption requests, considered irrevocable, should be sent at the registered office of the Registrar Agent. Requests must contain the following information: the exact name and address of the person making the redemption request and the number of Shares or the amount to be redeemed, the Sub-Fund to which such Shares belong, as well as the Class of Shares and instruction of payments to be used in cases to credit the investor.

Provided the application together with any required documentation is received prior to 2.00 p.m., Luxembourg time on a Valuation Day, the Shares will be redeemed based on the Net Asset Value per Share applicable on that Valuation Day. If received thereafter, the application will be deferred to the next following Valuation Day. The redemption price shall be paid not later than two (2) Bank Business Days

after the applicable Valuation Day. A redemption fee may be levied as set out under point “Available Classes of Shares” of the present section hereunder.

* The investment management fee includes the distribution fee paid to the Global Distributor for the relevant Class.

** Shares of Class R-C will only be issued to investors that has been approved by the Global Distributor. However, the Board of Directors may in its discretion accept subscriptions from other investors.

*** In this perspective, Eligible Investor refers only to whether the Share Class is subject to a reduced subscription tax (*taxe d'abonnement*).

****Shares of Class Initiator will only be issued to the Investment Manager, its subsidiaries, parent entities or any company controlled by the Investment Manager.

Shareholders of the dividend share classes R-D SEK, I-D SEK and BT-D SEK will receive a fixed dividend of 4% p.a. regardless of the performance of such share class in the relevant year. The dividend will be paid out four weeks after the annual general meeting of the Shareholders of the Company at the latest. Dividends could be paid out of capital and further reduce the Sub-Fund's Net Asset Value. Dividends paid out of capital could be taxed as income in certain jurisdictions.

REFERENCE CURRENCY OF THE SUB-FUND: The reference currency of the Sub-Fund is SEK.

FEES CLAIMED BY LOCAL INTERMEDIARIES: In connection with the purchase and/or sales of the Shares in the local markets, local intermediaries may charge additional costs.

CHARGES AND EXPENSES

The Management Company is entitled to receive for its management company services out of the assets of the respective Class within the Sub-Fund a management fee, payable quarterly in arrears at such rate p.a. as set out in respect of each Class under point “Available Classes of Shares” here above. The fees are based on the average Net Asset Value of the relevant Class over the relevant period.

PERFORMANCE FEE

In addition to the Management Fee, the Investment Manager will receive a Performance Fee for its investment management services from the Sub-Fund, payable out of the assets attributable to the relevant Share Class.

The Performance Fee will be calculated in respect of each calendar year ending 31 December (the “Calculation Period”). The first Calculation Period will be the period commencing on the Business Day immediately following the close of the Initial Offer Period and ending on 31 December in the year in which the Share Class launched. The crystallisation date for the performance fee payable in all Share Classes will be 31 December in each year provided that at least 12 months of performance has been calculated for that Share Class.

The Performance Fee is calculated and accrued daily and paid to the Investment Manager at the end of a Calculation Period. A Performance Fee is payable only if the Net Asset Value per Share exceeds the respective Reference Net Asset Value per Share at the end of a Calculation Period.

The “Reference Net Asset Value” is the Net Asset Value of the Share Class as at the end of the last Calculation Period in respect of which a Performance Fee was paid (or if no Performance Fee has yet been paid, the initial Subscription Price multiplied by the number of Shares issued in the Class at the end of the initial offer period) increased on each Subscription Day by the value of any subscriptions and reduced pro rata by the value of any redemptions on each Redemption Day and further adjusted by the performance of the respective Benchmark over the course of the Calculation Period. The purpose of adjusting the Reference Net Asset Value for the value of new subscriptions is to prevent any artificial increase in the Performance Fee as a result of new subscriptions.

The “Reference Net Asset Value per Share” is the “Reference Net Asset Value” divided by the total number of outstanding Shares of the relevant Share Class on any given day.

Given that the performance of the Benchmark is reflected in the performance of the respective Reference Net Asset Value of a Share Class a performance fee could also be payable in case the share class has over performed it’s respective Reference Net Asset Value but had a negative performance.

Where the Net Asset Value per Share does not exceed the respective Reference Net Asset Value per Share on the last Valuation Day of a Calculation Period, no Performance Fee is payable and the Reference Net Asset Value per Share for the start of the following Calculation Period remains unchanged from the end of the previous Calculation Period thereby ensuring any underperformance of the Net Asset Value per Share to the respective Reference Net Asset Value per Share is clawed back in subsequent Calculation Periods before any Performance Fee becomes payable. To this purpose, the length of the Performance Reference Period is equal to the whole life of the Sub-Fund and it cannot be reset.

When calculating the eventual Performance Fee, the Share Class performance will be determined on the basis of the change in the Net Asset Value per Share, net of all costs (for example management fees, administrative fees, crystallised Performance Fees but before any accrued uncrystallised Performance Fees.)

The Performance Fee, if any, will be calculated based on the number of Shares in issue on a given Valuation Day. The Reference Net Asset Value is converted to the currency of the respective Share Class for the Performance Fee calculation.

In the event the Net Asset Value per Share does not exceed the respective Reference Net Asset Value per Share on the last valuation day of a Calculation Period, any previous provision for Performance Fees is readjusted by means of a reversal of such provision.

The concept of "crystallization" will be applied, meaning that the Performance Fee due to the Investment Manager is precisely determined (accrued or "crystallized") at any time, in order to ensure that in the event that an investor applies for a redemption of shares during a Calculation Period any Performance Fee accrued in relation to those Shares up until the time of their redemption, will be crystallised and become payable to the Investment Manager at the end of the Calculation Period in which the Shares were redeemed.

The Benchmark and the Performance Fee Rate for each Share Class is given in the "Available Classes of Shares" table above.

The Performance Fee Amount on any given valuation day is calculated as follows:

Performance Fee Amount equals the greater of

1. $((A + B) - C) \times D \times E$ and
2. Zero

Where:

- A = Net Asset Value per Share net of all costs (eg Management Fees, Administrative Fees, crystallised Performance Fees but before any accrued uncrystallised Performance Fees.)
- B = Cumulated dividends per Share during the Calculation Period, if any.
- C = Reference Net Asset Value per Share
- D = Outstanding shares
- E = Performance Fee rate

The table below is used to illustrate the Performance Fee calculation. Please note that a Performance Fee Rate of 10% is used in this illustration.

Calculation Period (CP)	Net Asset Value per Share (NAVPS)	Reference Net Asset Value per Share (RNAVPS)	Performance Fee per Share (PFPS)	NAVPS (after PFPS)	RNAVPS at Start / End of CP
CP 1 Start	10,00	10,00	PFPS = 0	10,00	10,00
CP 1 End	11,00	10,50	PFPS = .05 At the end of CP 1 the NAVPS exceeds the RNAVPS therefore a PFPS of (NAVPS less RNAVPS) x 10% is payable ie $(11.00 - 10.50) \times 10\% = 0.05$	10,95	10,95

Notes:

1. Both the NAVPS and the RNAVPS had positive performance in CP 1.
2. At the end of CP 1 the NAVPS exceeds the RNAVPS by $11.00 - 10.050 = 0.50$, therefore a PFPS of 10% of $0.50 = 0.05$ is payable.
3. As the above example is based on 1 share, the total Performance Fee (PF) payable for the Share Class would be the PFPS x the total outstanding shares of that shareclass at the end CP 1

CP	NAVPS	RNAVPS	PFPS	NAVPS (after PFPS)	RNAVPS at Start / End of CP
CP 2 Start	10,95	10,95	PFPS = 0	10,95	10,95
CP 2 End	11,00	12,00	PFPS = 0 The NAVPS is lower than the RNAVPS therefore there is no PFPS payable	11,00	12,00

Notes:

1. Given that a PF was payable at the end of CP 1, the RNAVPS for the start of CP 2 is reset to equal the NAVPS after PFs at the end of CP 1 ie 10.95 thus ensuring that PFs, if any, at the end of CP 2 are only payable for any new performance of the NAVPS to the RNAVPS from the start of CP 2.
2. The NAVPS had positive performance in CP 2 and the RNAVPS had positive performance in CP 2.
3. Because the NAVPS is lower than the RNAVPS at the end of CP 2 there are no PFs payable.

CP	NAVPS	RNAVPS	PFPS	NAVPS (after PFPS)	RNAVPS at Start / End of CP
CP 3 Start	11,00	12,00	PFPS = 0	11,00	12,00
CP 3 End	9,50	8,50	PFPS = 0.10 At the end of CP 1 the NAVPS exceeds the RNAVPS therefore a PFPS of (NAVPS less RNAVPS) x 10% is payable ie (9.50 - 8.50) x 10% = 0.10	9,40	9,40

Notes:

1. Given that there were no PFs payable at the end of CP 2, the RNAVPS of 12.00 at the end of CP 2 is carried forward into the start of CP 3, thereby ensuring that any underperformance at the end of CP 2 of the NAVPS to the RNAVPS is clawed back in subsequent CPs before any PF becomes payable.
2. Both the NAVPS and the RNAVPS had negative performance in CP 3, dropping in value to 9.50 and 8.50 respectively at the end of CP 3. However, because the NAVPS still overperformed the RNAVPS at the end of CP 3 a PFPS of $(9.50 - 8.50) \times 10\% = 0.10$ is payable.
3. As the above example is based on 1 share, the total Performance Fee (PF) payable for the Share Class would be the PFPS x the total outstanding shares of that shareclass at the end CP 3.
4. In the above example for CP 3 the fall in the RNAVPS from 12.00 to 8.50 at the end of CP 3 can be attributed to a fall in the performance of the

benchmark for CP 3 which is reflected in the decreased value of the RNAVPS at the end of CP 3.

BENCHMARK INFORMATION

MSCI ACWI Small Cap Net Total Return Index

The Sub-Fund uses the benchmark for the calculation of the performance fee and for performance comparison purposes.

The Sub-Fund is actively managed. This means that the Investment Manager is taking investment decisions with the intention of achieving the Sub-Fund's investment strategies and policy; this may include decisions regarding asset selection and overall exposure to the market. The Investment Manager is not in any way constrained by the benchmark in its portfolio positioning.

The deviation from the benchmark may be complete or significant.

PUBLICATION OF THE NET ASSET VALUE

The Net Asset Value per Share as well as the issue and redemption prices of each Class within the Sub-Fund are available at the registered office of the Company and at www.coeli.com.

INVESTMENT MANAGER

The Management Company has appointed BROCK MILTON CAPITAL AB (previously denominated Coeli Global AB), with registered office at Sveavägen 24-26 SE-11157 Stockholm Sweden (the "Investment Manager") as Investment Manager of the Sub-Fund. BROCK MILTON CAPITAL AB is a company regulated by the Swedish Financial Supervisory Authority, Finansinspektionen.

The Investment Manager is entitled to receive for its investment management services out of the assets of the respective Class within the Sub-Fund an investment management fee, payable monthly in arrears at such rate p.a. as set out in respect of each Class under point "Available Classes of Shares" here above. The fees are based on the average Net Asset Value of the relevant Class over the relevant period.

APPENDIX V

SUSTAINABILITY DISCLOSURES

A. GENERAL PROVISIONS APPLICABLE TO EACH SUB-FUND'S SUSTAINABILITY DISCLOSURES

In accordance with SFDR, the Management Company and/or the Investment Manager identifies and analyses sustainability risk as part of their risk management process.

Sustainability risk means an environmental, social, or governance event or condition that, if it occurs, could potentially or actually cause a material negative impact on the value of a sub-fund's investment. Sustainability risks can either represent a risk of its own or have an impact on other risks and may contribute significantly to risks, such as market risk, operational risk, liquidity risk or counterparty risk. Sustainability risk may have an impact on long-term risk adjusted returns for investors. Assessment of sustainability risks is complex and may be based on environmental, social, or governance data which is difficult to obtain and may be incomplete, estimated, out of date or otherwise materially inaccurate. Even when identified, there can be no guarantee that these data will be correctly assessed.

Consequential impacts to the occurrence of sustainability risk can be many and varied according to a specific risk, region or asset class. Generally, when sustainability risk occurs for an asset, there will be a negative impact and potentially a total loss of its value and therefore an impact on the net asset value of the concerned sub-fund.

The Management Company and the Investment Manager believe that the integration of this risk analysis could help to enhance long-term risk adjusted returns for investors, in accordance with the investment objectives of the Sub-Funds. Sustainability risks are considered throughout the investment process of the Investment Manager by considering certain sectors and companies that may have increased exposure to environmental and social risk. The Investment Manager's Sustainable investing policy is based on ESG integration, Stewardship and Engagement, Investment restrictions, and Transparency and Reporting.

Further information about the Investment Manager's Sustainable investing policy is available upon request or online at the website of the Investment Manager, www.coeli.com/sustainability.

Each Sub-Fund that has environmental and/or social characteristics or has the objective of sustainable investment discloses whether it considers principal adverse impacts on sustainability factors and how in the pre-contractual disclosures for each Sub-Fund in this Appendix.

Basic exclusion criteria

The Company does not invest in companies that are active within the following areas:

- the manufacture, development or sale of weapons that are in violation of international conventions. Examples of such weapons include anti-personnel mines, cluster weapons as well as chemical and biological weapons (controversial weapons);
- involvement in the development of nuclear weapon programmes or the production of nuclear weapons.
- companies that have been verified as being in violation of established international norms and conventions, set out in the UN Global Compact and OECD Guidelines for Multinational Enterprises including the areas; environment, human rights, labour rights and anti-corruption, and where it is not possible to identify a willingness on the part of such companies to come to terms with the problems. If an existing investment fails to adhere to international norms and conventions the Investment Manager or its representative will engage with the relevant company, if no change is likely to happen within an acceptable time horizon, the Sub-Fund will divest from the holding.

ESG integration

The Investment Managers incorporates ESG data and sustainability information in the due diligence and investment process – as appropriate for respective sub-funds strategy and asset class – to identify and manage risks and opportunities in relation to the portfolio and/or underlying holding. Material ESG and sustainability aspects are considered as factors alongside financial factors, in support of making better-informed investment decisions and to help prioritize areas where change, improvements, and a positive outcome can be achieved in the portfolio and/or underlying holding.

The Investment Manager uses ESG data and sustainability information relevant for the specific investment strategy, asset class, due diligence, and ongoing monitoring. The information is leveraged from a variety of sources such as: company disclosure; engagement with company management or government representatives; third-party research and data; and other publicly available information such as industry data and news.

Third-party research and data services are used also for reporting. The cost derived from using external data providers can be borne by the Sub-Fund.

B. LIST OF THE SUB-FUNDS

Specific details regarding sustainability disclosures are described in each Sub-Fund's relevant data sheet under this Appendix.

1. BROCK MILTON CAPITAL UCITS SICAV- BMC GLOBAL SELECT FUND

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the

Product name: BROCK MILTON CAPITAL UCITS SICAV – BMC Global Select Fund
Legal entity identifier: 636700WQLRC31JCX1052

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

Yes
 No

<input type="checkbox"/> It will make a minimum of sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It will make a minimum of sustainable investments with a social objective: ___%	<input type="checkbox"/> It promotes Environmental/Social (E/S) characteristics and while it does not have as its objective a sustainable investment, it will have a minimum proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promotes E/S characteristics, but will not make any sustainable investments
---	---

What environmental and/or social characteristics are promoted by this financial product?

The Sub-Fund promotes environmental and social characteristics, in support of, for example, environmental protection and climate change mitigation, human rights and labour standards, and efforts against corruption in all its forms, including extortion and bribery, in line with international standards such as the UN Global Compact and the OECD Guidelines for Multinational Enterprises. The Sub-Fund seeks to limit and mitigate principal adverse impacts of its portfolio by the promoted environmental and social characteristics.

The promotion of environmental and social characteristics is implemented by:

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product

- Excluding certain products, such as: controversial weapons (verified involvement in the manufacture or selling of anti-personnel mines, cluster munitions, chemical and biological weapons), fossil fuel (Greenhouse gas emissions, share of investments in companies active in the fossil fuel sector), gambling, military equipment, pornography, alcohol and tobacco (revenue threshold).
- Engaging with or excluding certain companies relating to their adherence to international standards such as the UN Global Compact and the OECD Guidelines for Multinational Enterprises.

The Sub-Fund is actively managed and **no benchmark** has been chosen to measure its attainment of the E/S characteristics promoted.

● **What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?**

1. Greenhouse gas emissions
2. Share of investments in companies active in the fossil fuel sector
3. Share of investments in investee companies involved in the manufacture or selling of controversial weapons
4. Share of investments in investee companies involved in violations of the UN Global Compact principles or OECD Guidelines for Multinational Enterprises

● **What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?**

N/A

● **How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?**

N/A

How have the indicators for adverse impacts on sustainability factors been taken into account?

N/A

How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Does this financial product consider principal adverse impacts on sustainability factors?

Yes, _____

The Sub-Fund recognizes that an unintended consequence of some of its investments may include levels of adverse impact on broader aspects. Examples of such broader aspects include but are not limited to social and environmental matters, labor and employee matters, respect for human rights, and anti-corruption matters.

The Investment Manager has established measures within its due diligence procedure and/or investment process, in order identify principal adverse impacts of investment decisions on sustainability factors and seek to address and mitigate them.

The Sub-Fund considers principal adverse impacts on sustainability factors that are relevant to the investment strategy. Relevant indicators are:

- Greenhouse gas emissions
- Exposure to companies active in the fossil fuel sector
- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).
- Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises

Principal adverse impact of investment decisions on sustainability factors are considered both on entity level and on a product level.

Engagement dialogues are initiated by the Investment Manager with company management, regulators, interest groups, government representatives or peers, seeking to mitigate sustainability risks and principal adverse impacts.

The Investment Manager's engagement activities may come in the form of meetings, formal correspondence, participation at conferences, and exchange of information.

The Sub-Fund evaluates the outcome in the Investment Manager's Sustainable Investing Committee on a regular basis.

The Investment Manager's approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves.

Relevant information on principal adverse impacts on sustainability factors will also be disclosed in due course in the Sub-Fund's annual report.

No

What investment strategy does this financial product follow?

The investment objective of the Sub-Fund is to provide a diversified portfolio with an efficient risk adjusted return.

The Sub-Fund's approach to sustainable investments is based on three pillars:

ESG integration: *The Sub-Fund attaches great importance to thorough analysis in which ESG aspects are considered alongside financial factors in a holistic manner. Examples of this information include but are not limited to climate change, communities, customers, natural resources, pollution, waste, human resources, and stakeholders.*

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

Stewardship and engagement: *The Sub-Fund engages in constructive dialogue with company management, regulators, interest groups, government representatives and peers, seeking to contribute to positive development and change.*

Investment restrictions and exclusions: *The Sub-Fund identifies companies with a negative impact on the environment, society, and stakeholders, by excluding banned weapons, alcohol, fossil fuels, gambling, military equipment, pornography, and tobacco from its investment universe.*

The Investment Manager incorporates ESG data and sustainability information into the due diligence and investment process – as appropriate for its strategy and asset class –to identify and manage risks and opportunities in relation to the portfolio and/or underlying holding. Material ESG and sustainability aspects are considered as factors alongside financial factors, in support of making better-informed investment decisions.

The Investment Manager engages with its portfolio holdings based on prioritized areas where change, improvements, and a positive outcome can be achieved in the portfolio and/or underlying holding.

The Investment Manager adheres to investment restrictions based on established criteria for the Sub-Fund, as described above.

● **What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?**

1. *The Sub-Fund’s weighted Greenhouse gas emission is lower than that of the Sub-Fund’s relevant benchmark.*
2. *0% of investments in companies or corporate groups where more than 5 percent of the turnover comes from the extraction of fossil fuels.*
3. *0% exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).*
4. *The Sub-Fund avoids investment in companies involved in violations of UN Global Compact principles or OECD Guidelines for Multinational Enterprises, and where constructive engagement is limited.*

● **What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?**

Apart from the set investment restrictions implemented as a threshold, there is no commitment to exclude a minimum percentage of the potential investments

● **What is the policy to assess good governance practices of the investee companies?**

The Sub-Fund’s Policy for Sustainable Investing sets out a framework and guidelines to assess good governance practice of the investee companies.

The Sub-Fund is guided by international standards and principles to assess good governance and identify potential violators of, for example: The UN Global Compact (UNGC); The OECD Guidelines for Multinational Enterprises and Corporate Governance; and The UN Guiding Principles on Business and Human Rights (UNGPs).

Good governance of underlying investments is assessed during the due diligence process.

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

What is the asset allocation planned for this financial product?

The Sub-Fund invests in direct holdings. In order to meet the environmental or social characteristics promoted, the Sub-Fund:

Applies exclusion criteria to

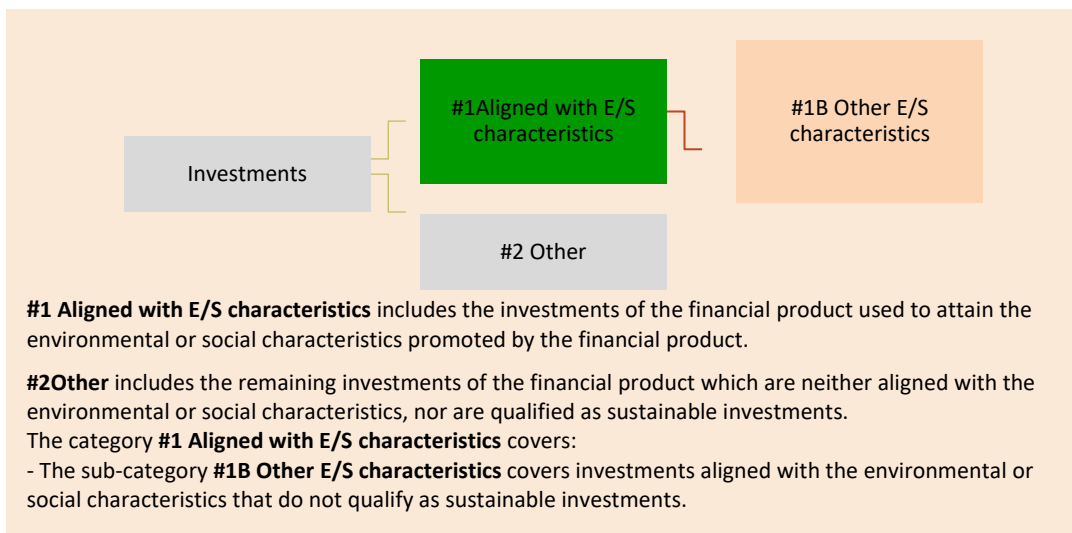

- certain products (including where five percent or more of the revenue is directly derived from production of alcohol, controversial weapons, fossil fuel, gambling, military equipment, pornography, and tobacco)

Applies engagement & dialogue and/or exclusion criteria to

- corporate adherence to international standards such as the UN Global Compact and the OECD Guidelines for Multinational Enterprises.

#1: 70% of the allocation will be aligned with the environmental and/or social characteristics promoted by the Sub-Fund.

#2: 30% of the total investments are set aside for cash positions, money market instruments and potential derivatives and other eligible assets which do not incorporate any environmental or social characteristic.

● How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?

Derivatives are not used to attain the environmental or social characteristics promoted by the Sub-Fund.

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● **What is the minimum share of investments in transitional and enabling activities?**
N/A

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

N/A

What is the minimum share of socially sustainable investments?

N/A

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

Cash, cash equivalents and derivatives used with the aim of reducing risk (hedging) or managing the Sub-Fund more efficiently in order to manage subscriptions and redemptions.

There are no minimum environmental or social safeguards for such investments.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

N/A

- ***How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?***

N/A

- ***How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?***

N/A

- ***How does the designated index differ from a relevant broad market index?***

N/A

- ***Where can the methodology used for the calculation of the designated index be found?***

N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Where can I find more product specific information online?

More product-specific information can be found on the website

www.coeli.com/sustainability-related-disclosures

2. BROCK MILTON CAPITAL UCITS SICAV – BMC GLOBAL SMALL CAP SELECT FUND

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: BROCK MILTON CAPITAL UCITS SICAV – BMC Global Small Cap Select Fund
Legal entity identifier: 636700ZR8CXLWWGIMH26

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

Yes

No

It will make a minimum of **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It will make a minimum of **sustainable investments with a social objective:** ___%

It **promotes Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promotes E/S characteristics, but **will not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

What environmental and/or social characteristics are promoted by this financial product?

The Sub-Fund promotes environmental and social characteristics, in support of, for example, environmental protection and climate change mitigation, human rights and labour standards, and efforts against corruption in all its forms, including extortion and bribery, in line with international standards such as the UN Global Compact and the OECD Guidelines for Multinational Enterprises. The Sub-Fund seeks to limit and mitigate principal adverse impacts of its portfolio by the promoted environmental and social characteristics.

The promotion of environmental and social characteristics is implemented by:

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- *Excluding certain products, such as: controversial weapons (verified involvement in the manufacture or selling of anti-personnel mines, cluster munitions, chemical and biological weapons), fossil fuel (Greenhouse gas emissions, share of investments in companies active in the fossil fuel sector), alcohol, gambling, military equipment, pornography, and tobacco (revenue threshold).*
- *Engaging with or excluding certain companies relating to their adherence to international standards such as the UN Global Compact and the OECD Guidelines for Multinational Enterprises.*

The Sub-Fund is actively managed and no benchmark has been chosen to measure its attainment of the E/S characteristics promoted.

● **What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?**

1. *Greenhouse gas emissions*
2. *Share of investments in companies active in the fossil fuel sector*
3. *Share of investments in investee companies involved in the manufacture or selling of controversial weapons*
4. *Share of investments in investee companies involved in violations of the UN Global Compact principles or OECD Guidelines for Multinational Enterprises*

● **What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?**

N/A

● **How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?**

N/A

How have the indicators for adverse impacts on sustainability factors been taken into account?

N/A

How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Does this financial product consider principal adverse impacts on sustainability factors?

Yes, _____

The Sub-Fund recognizes that an unintended consequence of some of its investments may include levels of adverse impact on broader aspects. Examples of such broader aspects include but are not limited to social and environmental matters, labor and employee matters, respect for human rights, and anti-corruption matters.

The Investment Manager has established measures within its due diligence procedure and/or investment process, in order identify principal adverse impacts of investment decisions on sustainability factors and seek to address and mitigate them.

The Sub-Fund considers principal adverse impacts on sustainability factors that are relevant to the investment strategy. Relevant indicators are:

- *Greenhouse gas emissions*
- *Exposure to companies active in the fossil fuel sector*
- *Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).*
- *Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises*

Principal adverse impact of investment decisions on sustainability factors are considered both on entity level and on a product level.

Engagement dialogues are initiated by the Investment Manager with company management, regulators, interest groups, government representatives or peers, seeking to mitigate sustainability risks and principal adverse impacts.

The Investment Manager's engagement activities may come in the form of meetings, formal correspondence, participation at conferences, and exchange of information.

The Sub-Fund evaluates the outcome in the Investment Manager's Sustainable Investing Committee on a regular basis.

The Investment Manager's approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves.

Relevant information on principal adverse impacts on sustainability factors will also be disclosed in due course in the Sub-Fund's annual report.

No

What investment strategy does this financial product follow?

The investment objective of the Sub-Fund is to create long-term capital growth by investing in a portfolio of selected global equities.

The Sub-Fund's approach to sustainable investments is based on three pillars:

ESG integration: *The Sub-Fund attaches great importance to thorough analysis in which ESG aspects are considered alongside financial factors in a holistic manner. Examples of this information include but are not limited to climate change, communities, customers, natural resources, pollution, waste, human resources, and stakeholders.*

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

Stewardship and engagement: *The Sub-Fund engages in constructive dialogue with company management, regulators, interest groups, government representatives and peers, seeking to contribute to positive development and change.*

Investment restrictions and exclusions: *The Sub-Fund identifies companies with a negative impact on the environment, society, and stakeholders, by excluding banned weapons, alcohol, fossil fuels, gambling, military equipment, pornography, and tobacco from its investment universe.*

The Investment Manager incorporates ESG data and sustainability information into the due diligence and investment process – as appropriate for its strategy and asset class – to identify and manage risks and opportunities in relation to the portfolio and/or underlying holding. Material ESG and sustainability aspects are considered as factors alongside financial factors, in support of making better-informed investment decisions.

The Investment Manager engages with its portfolio holdings based on prioritized areas where change, improvements, and a positive outcome can be achieved in the portfolio and/or underlying holding.

The Investment Manager adheres to investment restrictions based on established criteria for the Sub-Fund, as described above.

● **What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?**

1. *The Sub-Fund's weighted greenhouse gas emission is lower than that of the fund's relevant benchmark.*
2. *0% of investments in companies or corporate groups where more than 5 percent of the turnover comes from the extraction of fossil fuels.*
3. *0% exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).*
4. *The Sub-Fund avoids investment in companies that are in breach of the UNGC or OECD Guidelines for Multinational Enterprises, and where constructive engagement is limited.*

● **What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?**

Apart from the set investment restrictions implemented as a threshold, there is no commitment to exclude a minimum percentage of the potential investments

● **What is the policy to assess good governance practices of the investee companies?**

The Sub-Fund's Policy for Sustainable Investing sets out a framework and guidelines to assess good governance practice of the investee companies.

The Sub-Fund is guided by international standards and principles to assess good governance and identify potential violators of, for example: The UN Global Compact (UNGC); The OECD Guidelines for Multinational Enterprises and Corporate Governance; and The UN Guiding Principles on Business and Human Rights (UNGPs).

Good governance of underlying investments is assessed during the due diligence process.

What is the asset allocation planned for this financial product?

The Sub-Fund invests in direct holdings. In order to meet the environmental or social characteristics promoted, the Sub-Fund:

share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

Applies exclusion criteria to

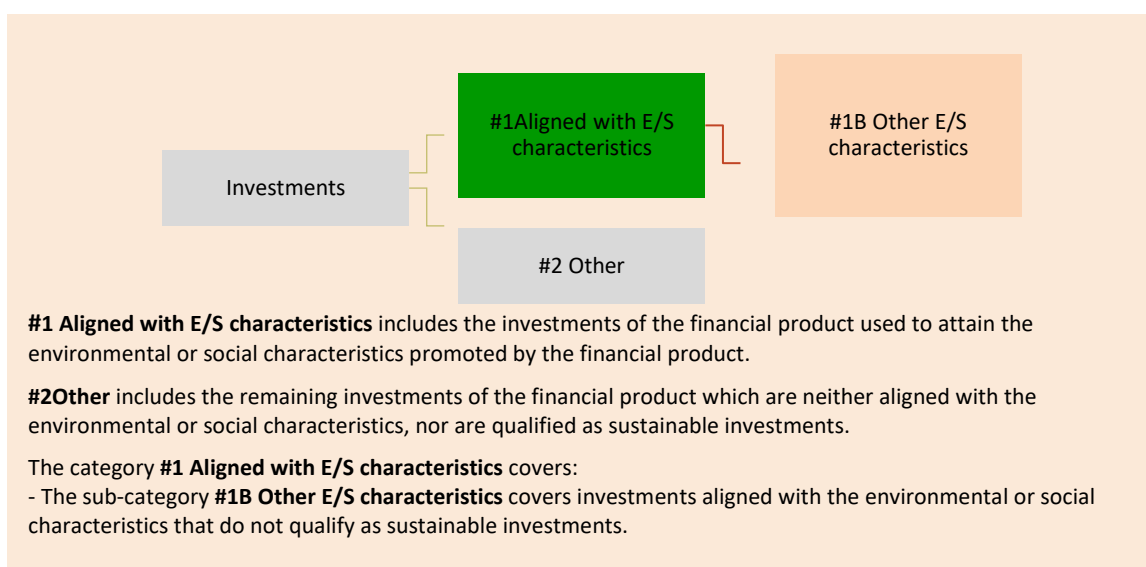

- *certain products (including where five percent or more of the revenue is directly derived from production of alcohol, controversial weapons, fossil fuel, gambling, military equipment, pornography, and tobacco)*

Applies engagement & dialogue and/or exclusion criteria to

- *corporate adherence to international standards such as the UN Global Compact and the OECD Guidelines for Multinational Enterprises.*

#1: 70% of the allocation will be aligned with the environmental and/or social characteristics promoted by the Sub-Fund.

#2: 30% of the total investments are set aside for cash positions, money market instruments and potential derivatives and other eligible assets which do not incorporate any environmental or social characteristic.

● ***How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?***

Derivatives are not used to attain the environmental or social characteristics promoted by the Sub-Fund.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

- Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy²?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

- What is the minimum share of investments in transitional and enabling activities?
N/A

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

N/A

What is the minimum share of socially sustainable investments?

N/A

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

Cash, cash equivalents and derivatives used with the aim of reducing risk (hedging) or managing the Sub-Fund more efficiently in order to manage subscriptions and redemptions.

There are no minimum environmental or social safeguards for such investments.

² Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

N/A

● *How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?*

N/A

● *How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?*

N/A

● *How does the designated index differ from a relevant broad market index?*

N/A

● *Where can the methodology used for the calculation of the designated index be found?*

N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
