*Ce document a été publié le 01/01/2025.*

## What is this product?

**Type:** Shares of a compartment of CPR Invest, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

**Term:** The term of the compartment is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

**Objectifs:** A feeder fund is a fund which invests at least 85% of its assets in another fund, called a master fund. CPR Invest - Silver Age (the "Feeder Compartment") invests in the T-unit of CPR Silver Age, a French Mutual Investment Fund (the "Master Fund").

The investment objective of the Feeder Compartment is the same as the Master Fund. *The investment objective of the Master Fund is to outperform the European equity markets over the long term, at least 5 years, by taking advantage of the momentum of European equities associated with the ageing of the population. The Master Fund is investing in a portfolio of European equities related to the theme of the ageing of the population.*

*To achieve this, the investment policy seeks to select the best performing European securities (in and/or outside EMU) in various sectors benefiting from the ageing of the population (pharmaceuticals, medical equipment, savings, etc.). Within this universe, the management is carried out in two stages: segment allocation defined based on the growth prospects of each sector and selection of securities within each sector through an approach that is both quantitative and qualitative while also including liquidity and market capitalization criteria.*

*The compartment seeks to achieve a weighted average ESG score of its portfolio (weighted average of exposures) greater than that of its reference index or investment universe.*

*Within this theme and for diversification purposes, the Master Fund may also invests, without exceeding 25%, in securities from other geographical areas.*

The best-in-class approach does not exclude any sector of activity in principle. All economic sectors are therefore represented in this approach and the Compartment may therefore be exposed to some controversial sectors.

*The equity exposure will range from 75% to 120% of the portfolio's total assets.*

*For the management of its liquidity, the portfolio may invest up to 25% in money market and interest rate products.*

*Financial Derivatives instruments or temporary securities purchases and sales can be used by the Master Fund as hedging and/or exposure measures.*

Derivatives instruments may be used by the Feeder Compartment for hedging purposes only.

*As the Master Fund's management is based on a specific theme for which there is no benchmark index, it can't be defined a relevant benchmark for this Fund.* The Compartment is actively managed. The Compartment may use a Benchmark a posteriori as an indicator for assessing the Compartment's performance and, as regards the performance fee benchmark used by relevant share classes, for calculating the performance fees. There are no constraints relative to any such Benchmark restraining portfolio construction.

It is intended that the performance of the Feeder Compartment will be strongly correlated to that of the Master Fund. However, the performance of the Feeder Compartment will be lower than that of the T-unit of the Master Fund due to, in particular, costs and expenses incurred by the Feeder Compartment.

The Compartment is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

**Intended Retail Investor:** This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.

**Redemption and Dealing:** Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the CPR Invest prospectus.

**Distribution Policy:** As this is a non-distributing share class, investment income is reinvested.

**More Information:** You may get further information about the compartment, including the prospectus, and financial reports which are available at and free of charge on request from: CPR Asset Management at 91-93, boulevard Pasteur – CS 61595 – 75730 Paris Cedex 15. The Net Asset Value of the compartment is available on [www.cpram.com](http://www.cpram.com)

**Dépositaire :** CACEIS Bank, Luxembourg Branch.

## What are the risks and what could I get in return?

### INDICATEUR DE RISQUE

Risque le plus faible

Risque le plus élevé

The risk indicator assumes you keep the product for 5 ans.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

**Additional risks:** Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the CPR Invest prospectus.

### PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the compartiment over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

**What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

Recommended holding period : 5 ans			
Investissement 10 000 EUR			
Scénarios		Si vous sortez après	
		1 an	5 ans
Minimum	Il n'existe aucun rendement minimal garanti. Vous pourriez perdre tout ou une partie de votre investissement.		
Scénario de tensions	<b>Ce que vous pourriez obtenir après déduction des coûts</b>	€1 970	€2 030
	Rendement annuel moyen	-80,3%	-27,3%
Scénario défavorable	<b>Ce que vous pourriez obtenir après déduction des coûts</b>	€7 470	€8 800
	Rendement annuel moyen	-25,3%	-2,5%
Scénario intermédiaire	<b>Ce que vous pourriez obtenir après déduction des coûts</b>	€9 330	€11 040
	Rendement annuel moyen	-6,7%	2,0%
Scénario favorable	<b>Ce que vous pourriez obtenir après déduction des coûts</b>	€12 040	€14 160
	Rendement annuel moyen	20,4%	7,2%

The figures shown include all the costs of the product itself, but may or may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

This type of scenario occurred for an investment using a suitable proxy.

Favourable scenario: this type of scenario occurred for an investment between 31/10/2016 and 29/10/2021.

Moderate scenario: this type of scenario occurred for an investment between 29/01/2016 and 29/01/2021

Unfavourable scenario: this type of scenario occurred for an investment between 31/03/2015 and 31/03/2020 .

### What happens if CPR Asset Management is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of CPR Invest. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

### Que va me coûter cet investissement?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### COÛTS AU FIL DU TEMPS

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested.

## Investissement 10 000 EUR

Scénarios	Si vous sortez après	
	1 an	5 ans*
Coûts totaux	€1 118	€1 744
Incidence des coûts annuels**	11,3%	3,5%

\* Période de détention recommandée.

\*\* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5,54% before costs and 2,00% after costs.

These figures include the maximum distribution fee that the person selling you the product may charge ( 10,00% of amount invested / 1 000 EUR). This person will inform you of the actual distribution fee.

If you are invested in this product as part of an insurance contract, the costs shown do not include additional costs that you could potentially bear.

### COMPOSITION DES COÛTS

Coûts ponctuels d'entrée ou de sortie		Si vous sortez après 1 an
Coûts d'entrée	This includes distribution costs of 10,00% of amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to 1 000 EUR

Coûts récurrents prélevés chaque année		
Frais de gestion et autres coûts administratifs ou d'exploitation	1,31% of the value of your investment per year. This percentage is based on actual costs over the last year.	118,17 EUR
Coûts de transaction	0,00% of the value of your investment per year. This is an estimate of the cost of buying and selling the underlying investments for the product. The actual amount depends on how much we buy and sell.	0,00 EUR
Coûts accessoires prélevés sous certaines conditions spécifiques		
Commissions de performance	Il n'y a pas de commission de performance pour ce produit.	0,00 EUR

### Combien de temps dois-je le conserver, et puis-je retirer de l'argent de façon anticipée?

**Recommended holding period:** 5 ans is based on our assessment of the risk and reward characteristics and costs of the compartiment.

This product is designed for medium-term investment; you should be prepared to stay invested for at least 5 years. You can redeem your investment at any time, or hold the investment longer.

**Order schedule:** Orders to redeem shares must be received before 09:00 (heure de Paris) Luxembourg time on the Valuation Day. Please refer to the CPR Invest Prospectus for further details regarding redemptions.

You may exchange shares of the Sub-Fund for shares of other sub-funds of CPR Invest in accordance with the CPR Invest prospectus.

### Comment puis-je formuler une réclamation?

Si vous avez des réclamations, vous pouvez :

- Envoyer un courrier à CPR Asset Management au 91-93 boulevard Pasteur, 75015 Paris - France
- Envoyer un e-mail à [client.servicing@cpram.com](mailto:client.servicing@cpram.com)

Dans le cas d'une réclamation, vous devez indiquer clairement vos coordonnées (nom, adresse, numéro de téléphone ou adresse e-mail) et fournir une brève explication de votre réclamation. Vous trouverez davantage d'informations sur notre site Internet [www.cpram.com](http://www.cpram.com).

Si vous avez une réclamation au sujet de la personne qui vous a conseillé ce produit, ou qui vous l'a vendu, vous devez vous rapprocher d'elle pour obtenir toutes les informations concernant la démarche à suivre pour faire une réclamation.
