

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Nordea 2 – US Corporate Enhanced Bond Fund, HBI-DKK Share Class

ISIN-Code: LU2133134283

The management company is Nordea Investment Funds S.A., a company of the Nordea Group.

Objectives and investment policy

The fund's objective is to provide shareholders with investment growth in the medium to long term.

In actively managing the fund's diversified portfolio, the management team selects securities that appear to offer superior investment opportunities. The team targets modest levels of return above the fund's benchmark.

The fund mainly invests in US corporate bonds.

Specifically, the fund invests at least two thirds of total assets in debt securities that are issued by companies that are domiciled, or conduct the majority of their business, in the United States of America. The fund also invests at least two thirds of total assets in debt securities with a long-term rating of AAA/Aaa or lower, but not lower than BBB-/Baa3, or equivalent.

The fund's main currency exposure is to the base currency, although it may also be exposed (through investments or cash) to other currencies.

The fund may use derivatives and other techniques for hedging (reducing risks), efficient portfolio management and to seek investment gains. A derivative is a financial instrument which derives its value from the value of an underlying asset. The use of derivatives is not cost or risk-free.

The fund applies baseline environmental and/or social safeguards. Further information regarding the way the fund takes environmental and/or social criteria into account is available in the fund's prospectus and accessible via nordea.lu.

The fund is subject to Nordea Asset Management's responsible investment policy.

This fund may not be appropriate for investors who plan to withdraw their money within a period of 3 years.

While the fund compares its performance against the Bloomberg Barclays Capital US Investment Grade Corporate Index, it may freely select the securities that it will invest in. Risk characteristics of the fund's portfolio will bear resemblances to those of the reference index.

This share class is not distributing dividends. Income from investments is reinvested.

The fund is denominated in USD. Investments in this share class settle in DKK. This share class seeks to largely protect its performance against the USD/DKK fluctuations.

Risk and reward profile

The indicator measures the risk of fluctuations of the Net Asset Value of the share class based on the last 5 years volatility and places the fund in category 4. This means that the purchase of units in the fund is connected to **medium risk** of such fluctuations.

Please note that category 1 does not mean a risk free investment.

Historical data, such as is used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the UCITS, as the category might change in the future.

Following risks are materially relevant to the UCITS but are not adequately captured by the synthetic indicator and may cause additional loss:

- **ABS/MBS risk:** Mortgage-backed and asset-backed securities (MBSs and ABSs) typically carry prepayment and extension risk and can carry above-average liquidity risk.
- **Credit risk:** A bond or money market security, whether from a public or private issuer, could lose value if the issuer's financial health deteriorates.
- **Derivatives risk:** Small movements in the value of an underlying asset can create large changes in the value of a derivative, making derivatives highly volatile in general, and exposing the fund to potential losses significantly greater than the cost of the derivative.
- **Prepayment and extension risk:** Any unexpected behaviour in interest rates could hurt the performance of callable debt securities (securities whose issuers have the right to pay off the security's principal before the maturity date).

For more information on risks the fund is exposed to, please refer to the section "Risk Descriptions" of the Prospectus.

Key Investor Information

Nordea 2 – US Corporate Enhanced Bond Fund, HBI-DKK

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

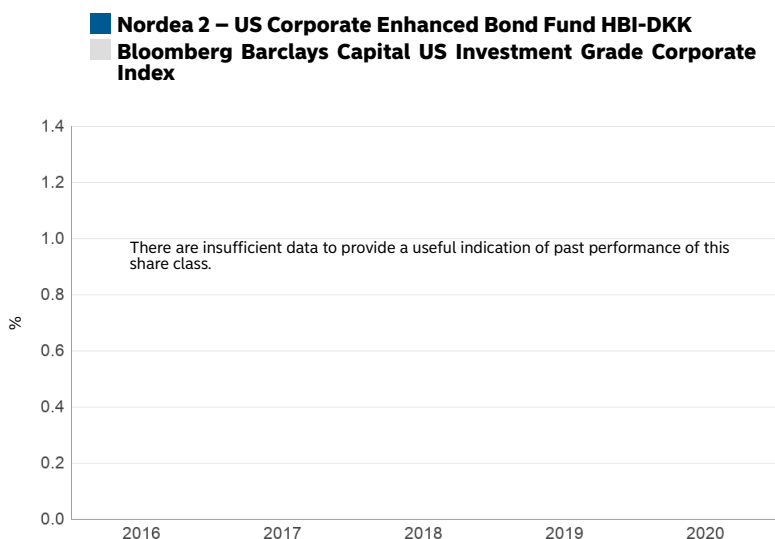

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.20%
Charges taken from the fund under certain specific conditions	
Performance fee	The share class is not subject to any performance fee.

The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find the exact charges which will apply to your investment by contacting your financial adviser or distributor.

The ongoing charges figure shown here is an estimate of the charges. An estimate is being used because the share class has been in existence for less than a full calendar year. The fund's annual report for each financial year will include detail on the exact charges made. The ongoing charges figure may vary from year to year. It excludes performance related fees and transaction costs including third party brokerage fees and bank charges on securities transactions.

For more information about charges, please see section 15 of the fund's prospectus, which is available at www.nordea.lu.

Past performance

- The fund was launched in 2016 and the share class in 2020.

Practical information

- Nordea 2, SICAV is an umbrella fund, consisting of separate funds, each issuing one or more share classes. This Key Investor Information Document is prepared for a share class. Assets and liabilities of each fund of Nordea 2, SICAV are segregated, meaning that your investment in this fund is only impacted by profits and losses in this fund.
