Unaudited Semi-Annual Report

As at June 30, 2024

No subscriptions should be made on the basis of the financial report alone. Subscriptions should only be made on the basis of the current Prospectus supplemented by the latest Annual Report and the latest Semi-Annual Report, if published thereafter.

Performance data shown represents past performance and is not a guarantee of future results. More recent performance may be lower or higher. Principal value and returns fluctuate over time (including as a result of currency fluctuations) so that Shares, when redeemed, will be worth more or less than their original cost. Performance shown is net of all Fund expenses, but does not include the effect of sales charges or correspondent bank charges, and assumes reinvestment of distributions. If such charges were included, returns would have been lower. Performance for other Share classes will be more or less depending on differences in fees and sales charges. For periods when certain Share classes were unsubscribed or not yet created (the "inactive Share classes"), performance is imputed using the actual performance of the Fund's active Share class which has been determined by the management company as having the closest characteristics to such inactive Share class and adjusting it based on the difference in TERs and, where applicable, converting the net asset value of the active Share class into the currency of quotation of the inactive Share class. The quoted performance for such inactive Share class is the result of an indicative calculation.

Unless otherwise indicated, all defined terms used herein shall have the same meaning as set out in the Prospectus of the Fund.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Presentation of financial statements

The financial statements are prepared in accordance with the Luxembourg regulations relating to Undertakings for Collective Investment.

Cross-Funds investments were not eliminated from the combined figures. At June 30, 2024, the total of cross-funds investments amounts to EUR 64,102,004 and therefore the total combined NAV at period-end without cross-investments would amount to EUR 11,888,401,983.

As at June 30, 2024, the cross-investments within the SICAV are as follow:

Fund	Cross investment	Amount (in EUR)
Mirova Europe Sustainable Equity Fund	Mirova Euro Short Term Sustainable Bond Fund	1,613,429

		64,102,004

b) Method of calculation

The value of each Fund's assets shall be determined as follows:

- Securities and money market instruments traded on exchanges and Regulated Markets* –valued at the last closing price unless the SICAV believes that an occurrence after the publication of the last market price and before any sub-fund next calculates its net asset value will materially affect the security's value. In that case, the security may be fair valued at the time the Administrative Agent determines its net asset value by or pursuant to procedures approved by the SICAV.
- Securities and money market instruments not traded on a Regulated Market (other than short-term money market instruments)* – based upon valuations provided by pricing vendors, which valuations are determined based on normal, institutional-size trading of such securities using market information, transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders.
- Short-term money market instruments (with remaining maturity of less than 90 calendar days or less)* – valued with the principle of amortized cost (which approximates market value under normal conditions).
- Futures, options and forwards* – unrealised gain or loss on the contract using current settlement price. When a settlement price is not used, future and forward contracts will be valued at their fair value as determined pursuant to procedures approved by the SICAV as used on a consistent basis.
- Shares of open-ended funds* – last published net asset value.

Notes to the Financial Statements

As at June 30, 2024 (continued)

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Method of calculation (continued)

- f. *Cash on hand or deposit, bills, demand notes, accounts receivable, prepaid expenses, cash dividends and interest declared or accrued and not yet received* – full amount, unless in any case such amount is unlikely to be paid or received in full, in which case the value thereof is arrived at after the Umbrella Fund or its agent makes such discount as it may consider appropriate in such case to reflect the true value thereof.
- g. *Credit Default Index Swaps (CDX)* – Swaps are marked to market based upon daily prices obtained from third party pricing agents and verified against the value from the counterparty. Realised appreciation/(depreciation) and change in unrealised appreciation/(depreciation) resulting there from are included in the statement of changes in net assets respectively under the heading “Net realised appreciation/(depreciation) on swaps” and “Change in net unrealised appreciation/(depreciation) on swaps”.
- h. *All other assets* – fair market value as determined pursuant to procedures approved by the Board of Directors of the SICAV.

c) Foreign exchange translation

The value of all assets and liabilities not expressed in the Reference Currency of a Fund will be converted into the Reference Currency of such Fund at rates last quoted by any major bank.

The exchange rate used as at June 30, 2024:

1 EUR = 1.071750 USD

d) Swing Pricing

Subscriptions and redemptions can potentially have a dilutive effect on the Funds' Net Assets Values per share and be detrimental to long term investors as a result of the costs, bid-offer spreads or other losses that are incurred by the SICAV in relation to the trades undertaken by the Management Company. In order to protect the interest of existing shareholders, the Management Company may decide to introduce a swing pricing mechanism for any Fund.

If, for the Funds listed below, net subscriptions or net redemptions on any calculation day exceeds a certain threshold (“the Swing Threshold”), the net asset value per share will be adjusted respectively upwards or downwards by a Swing Factor (“the Swing Factor”). Swing Thresholds and Swing Factors are determined and reviewed on a periodic basis by the Management Company.

The Swing Factor will be set by the Management Company to reflect estimated dealing and other costs, and may not exceed 2% of the net asset value.

The volatility of the Funds' net asset values may not reflect the true portfolio performance, and therefore might deviate from the Funds' benchmark as a consequence of the application of the swing pricing mechanism.

Performance fees, if any, are calculated on the basis of the net asset value before the application of swing pricing adjustments.

Mirova Funds

Notes to the Financial Statements

As at June 30, 2024 (continued)

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

d) Swing Pricing (continued)

The swing pricing Mechanism may be applied to the following Funds:

- Mirova Euro Green and Sustainable Bond Fund;
- Mirova Euro Green and Sustainable Corporate Bond Fund;
- Mirova Euro High Yield Sustainable Bond Fund;
- Mirova Euro Short Term Sustainable Bond Fund.

During the period ended June 30, 2024, none of Funds applied swing pricing adjustments.

At the date of the report, no swing pricing was applied to the Net Assets Values of the Sub-Funds of the SICAV.

Note 3 – MANAGEMENT AND ADMINISTRATION FEES

Management fees comprise the aggregate amount of Management Company fees, Investment Managers fees and Distributors fees.

Administration fees comprise the fees due to the Depositary fees, the Administrative Agent, the Paying Agent, the Domiciliary and Corporate Agent and Registrar and Transfer Agent, the costs relating to the translation and printing of key information documents, prospectus and reports to shareholders, independent auditor's fees, outside counsels and other professionals as well as other administrative expenses.

The All-in Fee is defined as the aggregate of Management Fees and Administration Fees paid annually by each Fund, other than taxes (such as "Taxe d'abonnement") and expenses relating to the creation or liquidation of any Fund or Share Class. The All-in Fee shall not exceed such percentage of each Fund's average daily net asset value as indicated in each Fund's description.

If the yearly actual expenses paid by the Funds exceed the applicable All-in fee, the Management Company will support the difference; if the yearly actual expenses paid by the Fund are lower than the applicable All-in fee, the Management Company will keep the difference. The difference between the yearly actual expenses paid by the Funds and the applicable All-in fees is recorded in the management fees caption of the statement of operations.

*The performance fee applies to all existing Share Classes of the Fund except for M and NPF Share Classes.

**The performance fee applies to all existing Share Classes of the Fund except for NPF Share Classes.

***The performance fee applies to all existing Share Classes of the Fund except for Q, G and NPF Share Classes.

****The performance fee applies to all existing Share Classes of the Fund except for M and Q Share Classes.

If, over the Observation Period, the Valued Asset of the Fund is higher than the Reference Asset defined above, the actual performance fee will be accrued with the applicable percentage of performance fee, applied on the difference between these two assets. The performance fee is calculated and accrued on each Valuation Day.

If, over the Observation Period, the Valued Asset of the Fund is lower than the Reference Asset, the performance fees will be zero.

Any underperformance of the Valued Asset of the Fund compared to the Reference Asset at the end of the relevant Observation Period should be clawed back before any performance fee becomes payable over years on a rolling basis, i.e. the Management Company should look back at the past 5 years for the purpose of compensating underperformances.

A reset will be implemented if:

- (i) an underperformance is not compensated and no longer relevant as this successive period of five years has elapsed,
- (ii) a performance fee is paid at any time during this successive period of five years.

In case the Valued Asset of the Fund has overperformed the Reference Asset on the last Valuation Day of the Observation Period, the Management Company should be able to crystallise the accrued performance fee over the Observation Period (subject to any clawback as indicated above). Such crystallized performance fee shall be payable within three months to the Management Company.

In case of redemption and/or closure/merger of the relevant Fund, the due share of performance fee portion corresponding to the number of shares which have been redeemed is definitely payable to the Management Company within three months as from the relevant Observation Period.

In application of the ESMA Guidelines on performance fees (ESMA34-39-992) and Circular CSSF 20/764, the table below displays the actual amount of performance fees charged by each relevant Share Class and the percentage of these fees based on the Share Class Net Asset Value ("NAV"). Only the Share Classes for which performance fees have been charged are shown below:
