**CONSTITUTION**

Eurizon Capital S.A., the Management Company, was incorporated as a Limited Company under the Laws of the Grand Duchy of Luxembourg.

Eurizon Fund (the "Fund") was created in the Grand Duchy of Luxembourg on 27 July 1988 and is administered by Eurizon Capital S.A. (the "Management Company") by virtue of Management Regulations initially published on 28 September 1988 in the "Mémorial, Recueil Spécial des Sociétés et Associations" in the Grand Duchy of Luxembourg. The Management Regulations in force have been filed with the "Registre de Commerce et des Sociétés" in Luxembourg, where they may be consulted and where copies may be obtained.

The Fund is an umbrella fund. The Sub-Funds which are active during the year are listed below:

## GENERAL MEETINGS

The Annual General Meeting of the Management Company takes place every year at the registered office, or at any other location in Luxembourg specified in the convening notice, within six months of the end of each financial year.

## INFORMATION FOR FUND UNITHOLDERS

Copies of audited annual reports as at 31 December and copies of the unaudited semi-annual reports as at 30 June are available free of charge to Unitholders at the Depositary Bank, other establishments specified by the latter, and at the registered office of the Management Company.

The periodic reports contain all information relative to the Fund, to the composition and development of its assets.

The financial year begins on 1 January and ends on 31 December.

The Net Asset Value is published every day on the Management Company's website [www.eurizoncapital.com](http://www.eurizoncapital.com)

The Net Asset Value as well as the subscription and redemption prices of the Fund Units can also be obtained from the Depositary Bank.

Other information intended for participants is published in the "Mémorial, Recueil Spécial des Sociétés et Associations" and in the "Registre de Commerce et des Sociétés" in Luxembourg, if this publication is specified by the Management Regulations or by law.

## GLOBAL EXPOSURE AND EXPECTED LEVEL OF LEVERAGE (UNAUDITED)

The method used to calculate the global exposure is the commitment approach for all the Sub-Funds except for the following Sub-Funds which are using the method of the absolute historical Value at Risk ("VaR"):

- Eurizon Fund - Active Allocation
- Eurizon Fund - Bond Flexible
- Eurizon Fund - Flexible Multistrategy
- Eurizon Fund - SLJ Enhanced Currency Basket (liquidated on 24 February 2022)
- Eurizon Fund - SLJ Flexible Global Macro

Sub-Fund	Historical VaR (1m, 99%) 01/01/2022 - 31/12/2022			Leverage Sum of Notionals 01/01/2022 - 31/12/2022
	Min	Max	Average	Average
Eurizon Fund - Active Allocation	3,21%	7,29%	5,12%	213,13%
Eurizon Fund - Bond Flexible	0,80%	6,76%	3,60%	267,16%
Eurizon Fund - Flexible Multistrategy	1,44%	3,29%	2,52%	190,33%
Eurizon Fund - SLJ Enhanced Currency Basket	0,00%	5,90%	3,80%	294,80%
Eurizon Fund - SLJ Flexible Global Macro	4,54%	8,97%	6,67%	247,93%

## REMUNERATION POLICY (UNAUDITED)

The Remuneration Policy of Eurizon Capital S.A. (hereinafter also referred as the "Company") is based on the principles applied in the Intesa Sanpaolo Group including:

- alignment with the interests of shareholders, customers and their assets under management, the medium and long term strategies and objectives, under a framework of reference rules aimed at avoiding conflict of interests, and at the proper control of current and future business risks and ensuring an adequate level of liquidity and capitalization;
- consistency with and promotion of sound and effective risk management and discouragement of risk-taking which is inconsistent with the risk profile, rules or instruments of incorporation of the assets managed;

The Remuneration Policy has been prepared on the basis of the Intesa Sanpaolo Group's remuneration policies and, for what is not in conflict, not governed or more restrictive, in compliance with European and national regulations governing the asset management industry:

- the Law of 12 July 2013 on alternative investment fund managers (transposing the EU Directive 2011/61/EU - the AIFM Directive), and

---

– the Law of 17 December 2010 relating to undertakings for collective investment (transposing the EU Directive 2014/91/UE - the UCITS V Directive).

**Governance Structure**

All incentives and reward systems for the Company's personnel are subject to the following types of conditions:

- activation conditions for the Group and the Company, consisting of liquidity, capitalisation and financial parameters;
- financing conditions of the mechanism of bonus funding for the Group and the Company, according to a top-down approach such as to take into account the exceeding of certain liquidity, capitalisation and financial parameters, in the first place at the level of the Group and, therefore, of the Company;
- individual access condition, meaning the level of achievement of the individual performance objectives, subject to the verification of the absence of individual compliance breaches. The individual performance objectives include financial as well as non-financial criteria.

The Board of Directors of the Company establishes and reviews annually the remuneration policy of the Company and ensures consistency with the overall policy of the Company in terms of risk-taking, the strategy and long-term, corporate governance structure and internal control objectives. It involves the Conducting Officers, each for their own responsibilities, in the definition and implementation of the Remuneration Policy.

The Company decided to entrust the Independent Directors Committee with the advisory and consulting functions aimed to support the Board of Directors in all activities relating to remuneration, defined in accordance with the principles set out in the ESMA Guidelines on sound remuneration policies (ESMA 232/2013 and 411/2016). The Committee is entirely composed of independent members. External persons can still participate in the meetings of the Committee in relation to specific items.

The internal process related to the governance of remuneration involves the Human Resources, the Risk Management, the Compliance and the Operations & Finance departments, each under the supervision of the respective Conducting Officer.

The Corporate Control Functions verify, for each area of competence (Risk Management, Compliance, Internal Audit), the alignment of the remuneration practices with the approved policies and the applicable regulations.

The ex-ante annual independent internal review of the remuneration system concluded its design to be appropriate.

**Compensation Structure**

The compensation of personnel includes:

- Fixed component, defined on the basis of the contractual category, the role held and the extent of responsibilities, reflecting the experience and skills required, as well as the quality of the contribution to corporate results;
- Variable component, linked to employee's performance and aligned with the annual results actually achieved and the risks prudentially assumed.

The criteria for the definition of the Company incentive systems, in application of the Intesa Sanpaolo Group's remuneration policy, aimed at ensuring the correlation between remuneration, performance and risks are, among others:

- the measurement of performance from multiple perspectives in order to align the management and employees behaviour to medium and long term strategic drivers, both quantitative (profitability, growth, productivity, cost of risk / sustainability) and qualitative (strategic actions or projects and managerial quality), on different perimeters (Group / Structure / Individual);
- the principle of selectivity, by differentiating the best performances and assigning higher bonuses;
- the principle of financial sustainability, by the definition of a bonus pool correlated to the performance of a Group parameter, currently identified as Income before tax from continuing operations and the use of a solidarity mechanism, according to which the amount of total bonuses paid to the employees of each Business Unit depends in part on the Group's overall performance (reflected in the size of the bonus pool) and in part on the degree of expected contribution to the Group's results;
- the definition of target bonus for roles and professional clusters to be used across all Group, in order to guarantee internal balance and the ongoing benchmarking between roles and/or professional clusters Group target bonuses and external market practices;

– the verification of the so-called individual compliance breaches as a restriction to bonus accrual (disciplinary measures, serious findings received from the Bank's control functions, sanctions by the Supervisory Authorities).

Vesting of the variable remuneration for Risk Takers is governed by specific rules in terms of:

- Deferral mechanisms;
- Payment partly in cash and partly in instruments and retention period for units/shares of funds;
- *Ex-post* adjustment mechanisms - *malus* or clawback.

### **Compensation for 2022**

In accordance with the Law as of 17 December 2010 on Undertakings for Collective Investments (as subsequently amended) in conjunction with the guidelines on sound remuneration policies under UCITS published by the European Securities and Markets Authority (ESMA), the Company has identified individuals who have a material impact of the Company's risk profile (Material Risk Takers).

The regulations provide rules in relation to the variable component of the compensation of Risk Takers, indicating that:

- at least 40% of the variable component (60% for significant bonuses) must be subject to deferred payment for a period of 3 years (5 years for significant bonuses);
- a substantial portion (at least 50%) is paid out in units / shares of funds managed by the Company, or equivalent instruments; said percentage is applied, in the same proportion, to both the deferred and upfront portions of the variable component;
- there is a specific holding period (of no less than 2 years for the upfront component, and shorter for the deferred portion) for the vesting of the financial instruments referenced above.

In case the Variable Compensation is lower than EUR 80 000, the Material Risk Takers receive their entire Variable Compensation in cash without any deferral.

The following aggregate compensation has been paid by the Company to its Material Risk Takers and Other Staff in 2022 (in EUR) in relation to all its activities:

Number of employees on an annual average: 72,3

Total Compensation: 9 373 163

Fixed Pay: 8 188 857

Variable Compensation: 1 184 306

Total Compensation for Material Risk Takers (including Senior Management): 2 493 623

Total Compensation for Other staff: 6 879 540

In addition to the compensation paid by the Company to its Material Risk Takers and Other Staff, as reported above, the aggregate remuneration paid to their own staff by the Investment Managers delegated by the Company to manage some Sub-Funds of the Fund has been estimated at EUR 19 177 354,55 based on the latest available annual accounts of these companies.

## **BOARD OF DIRECTORS OF THE MANAGEMENT COMPANY'S REPORT ON THE MANAGEMENT OF THE FUND**

Dear Unitholders,

In 2022 all major Countries in the world experienced tighter monetary policies designed to tackle the high level of inflation, that bottlenecks related to the consequences of the pandemic on the international logistics system had been generating since the end of 2021, and the impressive range of fiscal expansion measures taken to support recovery. The exception was China which had already introduced monetary restriction measures during 2021, while in 2022 it gradually restored stimulus to the economy held back by new waves of infections.

The effects of the Russian invasion of Ukraine, occurred in February, also contributed to the upsurge in inflation. The transformation of the supplies of gas, oil and raw materials from Russia to Europe into negotiation weapons had a share in the rise in prices. To this should be then added the uncertainty linked to the Chinese policies regarding the control of new Covid infection waves. Over the course of the year, China gradually eased its zero-Covid policy, which provided for repeated lockdowns, thus leaving room for a significant increase in infections.

In this context, the global stock market recorded in 2022 a loss of 16.0% in local currency (MSCI World Index) and of 12.8% in EUR. The US stock market (MSCI USA Index) was affected by the significant tightening of the Federal Reserve ("Fed", the US Central Bank), showing a decline by 19.8% in local currency and 14.6% in EUR. The rise in rates aimed at containing inflation was the main cause of the negative balances that were also recorded by the other major world stock exchanges, as in the case of the Euro area where a loss of 12.5% was highlighted (MSCI EMU Index). In aggregate, emerging markets were also negative, with the MSCI Emerging Markets Index posting a return of -15.5% in local currency and -14.9% in EUR. The emerging-area markets suffered in Asia as a result of the Chinese slowdown and in Latin America from the tight monetary policies.

On the bond markets, the government components experienced negative returns, with rates reflecting the restrictive policies of the central banks. In the United States, the 2-year yield, as a result of the 425 basis points rate hikes decided by the Fed, went from 0.73% to 4.43%; the 10-year rate rose from 1.51% to 3.87%, reflecting on the one hand the restrictive policy of the US Central Bank and on the other the uncertainty linked to the stability of the economic recovery. 2022 ended, in fact, with a strongly inverted US rate curve (i.e., with the rate level on the short-term part higher than that of the long-term part). A similar trend appeared in the curve of the European rates; the German 2-year rate went from -0.62% to 2.76% and the 10-year one from -0.18% to 2.57%. Even the European Central Bank ("ECB"), although a few months behind the Fed, tightened its monetary policy by introducing overall increases by 250 basis points. The Fed and the ECB both ended 2022 by slowing down the pace of increases in the light of a marginal decline in inflation; the European Monetary Institute, however, maintained a particularly restrictive message on future development, highlighting the need for a steady rate increase, with a still far off pause. The "aggressive" message of Christine Lagarde (President of the European Central Bank) related to the ECB lagging behind the Fed.

The Italy–Germany spread (i.e. the interest differential) on the ten-year maturity began 2022 at 135 basis points to reach a level of 214 basis points at the end of the reference period. All in all, it was a rather orderly development considering it was a year in which Italy called for early elections, moving from a Draghi-led technical government to a centre-right political government. This was combined with the loss of part of the ECB support, which announced the reduction in purchases of securities introduced during the pandemic crisis. The market confirmed a close attention to the evolution of the macro-Italian framework, but highlighted no idiosyncratic theme related to the country where the Fund's Management Company's sole shareholder and the Fund's Management Company's ultimate parent company is based.

In summary, in 2022 the global government bond market (JPM Global index) recorded a performance in local currency of -13.0% (-11.9% in EUR). The Eurozone (JPM EMU) recorded -17.9%, the US market (JPM USA) recorded -12.2% in local currency (-6.4% in EUR) and the Emerging Countries (JPM EMBI+) showed a decline of 24.7% (-19.7% if converted into EUR).

In the currency market, the dollar was in constant appreciation, continuing the trend started in 2021. In a context of great uncertainty arising from the high level of inflation and the vigorous reaction of the central banks, the US currency went from 1.13 to 1.06 against the euro, even touching 0.95 in greater uncertainty moments and upon some interventions by the Fed concerning very broad and sudden rate hikes. Considering the movements of the euro, the common currency weakened by 6.15% against the dollar and by 4.7% against the Swiss franc, while it strengthened by 7.5% against the yen and 5.7% against the pound sterling.

### **Activity of the Fund**

At of 31 December 2022, the mutual investment fund Eurizon Fund was composed of **87** active Sub-Funds for an overall value of EUR 76,838,558,255.97, including 59 Sub-Funds (43 as at 31 December 2021) categorised as articles 8 and 9 according to Sustainable Finance Disclosure Regulation (SFDR), representing about 60% of Eurizon Fund net assets.

The net assets of the Fund showed an overall decrease compared with the end of 2021 (- € 9 372 mio in other words – 10.87%) owing to a positive annual balance of the net sales (equivalent to € + 173 mio as a result of subscriptions amounting to € +101 635 mio and redemptions amounting to € -101 462 mio) combined with a negative net market effect of € -9 199 mio.

As concerns the in and outflows, two categories of Sub-funds registered a positive balance: Equity Sub-funds (€ +4 520 mio) and Cash Sub-Funds (€ +937 mio). The two other categories of Sub-Funds registered a negative balance: Bond Sub-Funds (€ -5 190 mio) and Flexible Sub-Funds (€ -94 mio).

The best results in term of sales were achieved by Eurizon Fund – Money Market EUR T1 (€ +2 837 mio) followed by Eurizon Fund – Bond USD LTE (€ +1 088 mio) and Eurizon Fund – Bond EUR Long Term LTE (€ +1 052 mio).

The most negative balances were achieved by Eurizon Fund – Bond Short Term EUR T1 (€ -5 497 mio) followed by Eurizon Fund – Cash EUR (€ -1 627 mio) and Eurizon Fund – Bond Aggregate RMB (€ -1 496 mio).

### **Russia / Ukraine conflict**

The direct exposure of the products established by the Fund to Russia, Belarus and Ukraine securities was relatively low at the beginning of Russia's invasion of Ukraine on 24 February 2022, with no Sub-Fund reporting an exposure in excess of 5% of its total net assets. Nevertheless, Eurizon Capital S.A. (hereinafter also referred as the “Company”) closely monitors the evolution of international sanctions, operational restrictions and disruptions relating to the Russian securities and markets as they adversely impact, or could impact, the ability of these Sub-Funds to operate on such securities and/or related local cash accounts. Liquidity and valuation issues related to these securities are monitored on a continuous basis by the Company so as to ensure the interests of the investors are preserved. In particular, as at 31 December 2022, certain securities are valued on the basis of fair valuation procedures, which may result in such securities being deemed to have a near-zero or zero value.

### **Participation and voting rights in Shareholders' Meetings**

Eurizon Capital S.A. believes that good standards of governance contribute to promote confidence in the capital market and that the role played by institutional investors, asset managers and their advisors is fundamental in the internal dialogue of the investee companies. The Company has a fiduciary commitment aimed at protecting and creating value for its Clients and Investors, which requires it to effectively address issues related to the corporate performance of the companies in which it invests on behalf of the assets under management. In this context, the Company attaches importance to the supervision of the so-called "external corporate governance", understood as corporate governance in relation to issuing companies.

The Company gives particular attention to the policies implemented by issuers in which it invests on behalf of the products it manages, in the belief that sound corporate governance policies and practices (incorporating environmental, social and governance issues) are able to create long-term shareholder value. The Company has also adopted a methodology for the selection of financial instruments that takes into account the principles of Sustainable and Responsible Investments (SRI).

The Company has adopted specific organisational and/or procedural measures in order to guarantee, in the presence of the discretionary attribution of the exercise of voting rights relating to the shareholdings "managed" by the Company, independence and autonomy in the exercise of participation and voting rights. Consequently, the Company has made available to investors a specific "Strategy for the exercise of participation and voting rights attached to the financial instruments held in the managed UCITS". The Strategy defines a set of procedures and measures for/to:

- monitor corporate events related to the financial instruments in the portfolio of the managed UCIs, where required by the characteristics of the financial instruments incorporating the rights to be exercised;
- assess the modalities and timing for the possible exercise of participation and voting rights, based on a cost-benefit analysis that also takes into account the investment objectives and policy of each managed UCI.

In this context, the Company adopts a "targeted" approach to corporate governance, favouring - in application of the principle of proportionality - participation in Shareholders' Meetings and engagement with companies considered "relevant" according to qualitative/quantitative criteria specified in internal regulations:

- participation in the shareholders' meetings of those companies in which significant shares of capital are held, as identified from time to time in company procedures, interacting with the Board of Directors;
- participation in Shareholders' Meetings considered relevant in the interest of the assets managed in order to discourage situations of particular interest, in protection or support of the interests of minority shareholders;
- contribution to the election of statutory auditors or directors through the list voting mechanism, representing minority shareholders;
- participation in Shareholders' Meetings at which extraordinary transactions are approved if, depending on the interests of the assets under management, participation is necessary to support or oppose the proposed transaction.

In the reference period (1 January 2022–31 December 2022) the Company took part to 115 shareholders' meetings of selected companies listed on the Italian Stock Exchange (30%) and on international markets (70%), voting on 1156 resolutions on the agenda on behalf the investment funds it manages.

For more information regarding the participation at Shareholders Meetings the list of Portfolio, the voting instructions and outcomes, please refer to the "Report on participation at shareholder meetings of companies with securities under portfolios of Eurizon Capital S.A." available at

<https://www.eurizoncapital.com/en/sustainability/stewardship-and-esg-engagement-policy>

## Independent auditor's report

To the Unitholders of  
Eurizon Fund  
28, Boulevard de Kockelscheuer  
L-1821 Luxembourg

### Opinion

We have audited the financial statements of Eurizon Fund (the "Fund") and of each of its sub-funds which comprise the statement of net assets, the portfolio, the commitments on future contracts, the option contracts, the forward foreign exchange contracts and the swap contracts as at 31 December 2022, and the statement of changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 December 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

### Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other information

The Board of Directors of the management company of the Fund (the "Board of Directors") is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

### **Responsibilities of the Board of Directors for the financial statements**

The Board of Directors is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

### **Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.
