Directors' Report

COMPANY OVERVIEW

Manulife Global Fund ("MGF") is a Luxembourg-domiciled open-ended investment company. The Company is registered under Part I of the Luxembourg Law of 17 December 2010 (as amended) (the "2010 law").

As of end of the current financial year Manulife Global Fund i.e. the Company had US\$5.2 billion assets under management, across 29 active Sub-Funds, an increase of 14.2% year on year as compared to the end of the previous financial year where the assets under management were US\$4.54 billion, across 30 Sub-Funds.

MGF Global Multi-Asset Diversified Income Fund which is the largest Sub-Fund on the platform saw its assets rise from US\$658 million to US\$920 million, an increase of 39.8% on year on year. MGF India Equity Fund (US\$462.5 million) and the MGF China Value Fund (US\$459.5 million) being the second and third largest Sub-Funds on the platform, saw an increase of 53.1% and decrease of 5.1% in assets, respectively.

The Company terminated the MGF China Total Return Bond Fund in June 2024 due to lack of demand and poor growth prospects. To maintain an efficient platform, during the year, the Company rationalized share classes and de-registered Sub-Funds while at the same time to cater to evolving demand and business needs, launched additional share classes with income features and registered Sub-Funds in existing jurisdictions, further details on which is provided in below.

ACTIVITIES DURING THE YEAR

i. Product Innovation

During the financial year MGF Sustainable Asia Bond Fund was successfully transitioned from an article 8 to an article 9 Sub-Fund while the MGF U.S. Bond Fund was renamed to MGF USD Income Fund in support of an investment objective change and a stronger focus on income/yield generation. Both changes were implemented in Q3 2023 and Q1 2024, respectively.

Keeping in mind the evolving demand and business expectation the Fund launched the 'C' Share class in July 2023 which caters specifically to the Central Provident Fund mandates in Singapore. The C share classes hold US\$43.7 million as of the end of the current financial year.

ii. Governance and Risk Management

No adverse governance or risk management events to report for the financial year.

Christakis Partassides retired as the Director of the Company effective end of February 2024. Mr Christakis Partassides confirms that he has no disagreement with the Board and he is not aware of any matter in relation to his retirement that needs to be brought to the attention of the shareholders of the Company.

iii. Significant Change/s

Effective 1st August 2023 Manulife Investment Management (Ireland) Limited replaced Manulife Investment Management International Holdings Limited ("MIMIHL") as the Distributor of the Company and its Sub-Funds. Following the appointment, Manulife Investment Management (Ireland) Limited now provides the Company with distribution services regarding the sale, switching, redemption and marketing of the Shares internationally.

Directors' Report

ROLE AND RESPONSIBILITY OF THE BOARD OF DIRECTORS

The responsibility of the Board is governed exclusively by Luxembourg law. With respect to the annual accounts of the Company, the duties of the Directors are governed by the Law of 10 December 2010 on, inter alia, the accounting and annual accounts of undertakings for collective investment and by the Law of 17 December 2010, as amended, relating to undertakings for collective investment. Pursuant to the Amended and Restated Management Company Services Agreement, the Management Company is entrusted with the day-to-day management of the Company, with the responsibility to perform directly or by way of delegation operational functions relating to the investment management and the administration of the Company and the marketing and distribution of the Shares. In agreement with the Company, the Management Company has decided to delegate several of its functions as is further described in the Prospectus. All other matters in relation to the Company are reserved for approval by the Board. The matters reserved for the Board include determination of each Sub-Fund's investment objective and policies, investment restrictions and powers, amendments to the Prospectus, reviewing and approving key investment and financial data, including the annual accounts, as well as the appointment of, and review of the services provided by, the Management Company, Auditor and Depositary. Prior to each Board meeting the Directors receive detailed and timely information allowing them to be prepared for the items under discussion during the meeting. For each meeting the Board requests, and receives, reports from, amongst others, the Management Company, the investment managers, the Administrator, the Depositary and the risk manager as well as proposals for changes to existing Sub-Funds or proposals to launch new ones as appropriate. Senior representatives of each of these functions attend Board meetings by invitation to enable the Directors to question the reports presented to them. The Directors take decisions in the interests of the Company and its shareholders as a whole and refrain from taking part in any deliberation or decision which creates a conflict of interest between their personal interests and those of the Company and its shareholders. The Board can take independent professional advice if necessary and at the Company's expense.

CORPORATE GOVERNANCE AND ALFI CODE OF CONDUCT

The Board is responsible for ensuring that a high level of corporate governance is met and considers that the Company has complied with the best practices in the Luxembourg funds industry.

In particular the Board has adopted the ALFI Code of Conduct (the "Code") which sets out principles of good governance.

The Board considers that the Company has been in compliance with the principles of the Code in all material aspects throughout the year ended 30 June 2024. The Board undertakes an annual review of ongoing compliance with the principles of the Code.

Investment Manager Report

GLOBAL MARKET REVIEW

Between July 2023 and June 2024, markets saw positive returns across equity markets, with mixed results in fixed income.

A series of risk events such as the downgrading of the US government's credit rating, continuing fears about China's property market, the Middle East conflict and political uncertainty in Europe marked the period. At the outset, major central banks remained hawkish but divergent rate cut expectations emerged, with European banks being the first to start the rate cut cycle.

The second half of 2023 saw positive returns across equity and fixed income markets as a surprise dovish pivot by the US Federal Reserve Board (Fed), resilient economic activity and a moderation in inflation data pushed stocks higher.

However, markets were initially negative across equity and fixed income as economic headwinds remained, with rising yields putting pressure on risk assets. Investors also grappled with inflationary concerns, mixed signals about global economic activity, and the downgrade of the US government's credit rating, as well as China's sluggish property market outlook.

Despite the start of the Israel-Hamas conflict in the Middle East, markets still staged a strong comeback in Q4 2023 given a moderation in inflation data in developed markets, coupled with the changing narrative around rate cut expectations in the US.

The first half 2024 saw positive returns across equity markets, whilst fixed income markets were mixed, given the higher-for-longer interest rate environment. Despite positive equity returns amongst major benchmark indices, market breadth and participation narrowed considerably in Q2 2024, with most gains concentrated in large-cap growth stocks, bolstered by continued enthusiasm for artificial intelligence (AI) related stocks.

Markets were expecting up to six US Fed rate cuts in 2024. However, these expectations dwindled to three by year-end, given resilient US economic data and a pickup in inflation. In the US, gains concentrated in the technology and communication services sectors were supported by strong corporate earnings. Data releases indicated ongoing economic resilience, yet inflation was marginally higher, meaning rates remained unchanged.

Europe and the UK saw growth prospects improve and falling inflation. The Swiss National Bank (SNB) and the European Central Bank started the rate cut cycle.

Within Asia, Japanese equities held up well, though the Japanese yen fell to a 38-year low. China saw some recovery as investor sentiment improved due to property market initiatives by the government and improving economic activity.

In quantitative terms between July 2023 and June 2024, MSCI World gained 19.92%. Regionally, the US led gains with the Standard & Poor's (S&P) rising +24.56%. Japan also performed well, gaining +13.53%, closely followed by Asia Pacific ex Japan, emerging markets and Europe, which returned +13.38%, 12.97% and 12.37%, respectively. Latin America fell into negative territory at -5.09%, dragged down by both Brazil and Mexico.

Within MSCI World, information technology stood at the forefront of the rankings gaining +38.36%, followed by communication services +37.63%, driven by AI enthusiasm. Real estate and utilities lagged, although they remained in positive territory, returning +5.63% and 5.78%, respectively. Consumer staples also lagged with +2.68% returns.

Fixed income markets ended the period with a mixed performance due to diminished rate cut expectations. The FTSE World Government Bond Index fell -0.63%, whilst investment-grade credits Bloomberg Global Aggregate – Corporate rose +4.89%. Less rate-sensitive and riskier segments such as high-yield bonds fared well, with the Bloomberg Global High Yield up +11.82% and the US High Yield up +10.41%.

OUTLOOK

The medium to long-term outlook is that lower interest rates will be accommodative for economic growth, with inflation falling and resiliency in corporate earnings growth. However, geopolitical challenges and the upcoming US Presidential Election may pose challenges to investor sentiment. Short-term market volatility is likely as growth and inflation data remain front and center for the US Fed. Recent developments in respect of the US elections are likely to result in further uncertainty around candidates and how their policies may impact varying market sectors.

The global easing cycle has begun with signs of disinflation across most regions. All major central banks have indicated that rate cuts are likely, provided inflation continues to moderate, except for the Bank of Japan (BoJ), which finally moved out of its negative interest rate policy. As super-core inflation in the US is likely to moderate, expectations are that the US Fed may cut three times in 2024 and four times in 2025.

In the medium-term, a slowdown in the US economy is still expected, although the economy remains resilient.

Outside the US, G7 growth has already felt the effects of tighter interest rate policies, and markets may be particularly sensitive to any variance from a soft-landing narrative.

In Asia, negative sentiment has been dominated by a trend in aggregate growth in China, with particularly persistent tail risks to the property sector. In the medium-term, China may see growth in policy-supported sectors and exports, offset by weakness in the property sector and domestic consumption.

Equity valuations in Asian markets are considered reasonable, although a sustained recovery in household consumption and property sales will be needed for a cyclical rebound to continue. In Japan, policy normalization has begun with expectations that inflation may reach 2%, and that the BoJ will normalize its policy rate over the next two years. The Japanese yen should strengthen due to favorable interest rate differentials with the rest of the world, and the yield curve slowly flatten as the BoJ raises rates towards neutral.

The second half 2024 may see a more favorable environment for equities with corporate earnings strength broadening beyond large-cap technology names, whilst the November US election should also help keep markets buoyant.

Overall, markets may experience into the second half, particularly as investors reprice interest rate and potentially inflation expectations.

Audit Report

To the Shareholders of
Manulife Global Fund

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Manulife Global Fund (the “Fund”) and of each of its sub-funds as at 30 June 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- the statement of net assets as at 30 June 2024;
- the statement of changes in net assets for the year then ended;
- the statement of operations for the year then ended;
- the portfolio of investments as at 30 June 2024; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Audit Report

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

Audit Report

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

2 Accounting policies

2.1 Presentation of Financial Statements

The financial statements are prepared under the going concern basis of accounting in accordance with Luxembourg regulations relating to undertakings for collective investments, except for China Total Return Bond Fund which was terminated on 24 June 2024. As such, the financial statements for this sub-fund has been prepared on a non-going concern basis. The application of the non-going concern basis of accounting has not lead to material adjustments to the sub-fund's published Net Asset Value. Cash of the Sub-Fund is monitored by management and any cash available after settlement of all outstanding expenses would be re-distributed to the shareholders.

At the reporting date the cash amount held at custody for the following terminated sub-fund was:

Sub-fund	Cash held at custody as at reporting date	
China Total Return Bond Fund	USD	(53,381)*

* Overall positive cash balance after realized proceed from forward contract after year end.

2.2 Investments

Listed securities and securities dealt in on another regulated market are valued on the basis of their last available market price at the "Valuation Point" on the period end date. The prospectus defines the "Valuation Point" as such time on each Business Day as may be determined by the Directors at which the Net Asset Value per Share of a respective Sub-Fund may be determined.

Non-listed securities and money market instruments listed or dealt on a regulated market but in respect of which the last sales price is not representative of the fair value, are valued on the basis of their probable sales prices as determined with prudence and in good faith by the Board of Directors upon the advice of the Investment Managers. Liquid assets are valued at their face value with interest accrued; in the case of short-term instruments (especially discount instruments) that have a maturity of less than 90 days, the value of the instrument based on the net acquisition cost, is gradually adjusted to the repurchase price thereof while the investment return calculated on the net acquisition cost is kept constant. In the event of material changes in market conditions, the valuation basis of the investment is adjusted to the new market yields.

In the event of it being impossible or incorrect to carry out a valuation in accordance with the above rules owing to particular circumstances, the Board of Directors is entitled to use other generally recognized valuation principles upon the advice of the Investment Managers, in order to reach a proper valuation of the Company's total assets.

Units of underlying UCI and UCITS (target funds) are valued on the basis of their last available Net Asset Value per unit or share reduced by any applicable charges.

Realised gains and losses on sales of investments in securities are determined on the basis of average cost.

Any resulting gains or losses are recognized in the Statement of Changes in Net Assets under the heading "Net profits/(losses) realised on sale of investments and options". The net change in unrealised appreciation/(depreciation) on investments and options is included in the Statement of Changes in Net Assets under the heading "Net change in unrealised appreciation/(depreciation) on investments and options".

As approved by the pricing committee, the valuation of Renminbi ("RMB") securities, denominated in Chinese Renminbi ("CNY") and traded through Hong Kong or Singapore, is done at the Hong Kong delivered Chinese Renminbi ("CNH") foreign exchange rate. All securities subject to this specific pricing process are indicated in the portfolios with a ***.

For the year ended 30 June 2024

2 Accounting policies (continued)

2.3 Investment Income

Dividends are credited to income on the date upon which the relevant securities are first listed as "ex-dividend", net of any irrecoverable withholding tax. Bond and deposit interest income is accrued on a daily basis.

2.4 Foreign currency transaction

Amounts included in the Statement of Operations in foreign currency are translated into the accounting currency of the respective sub-funds at rates of exchange prevailing on the date of the transaction. Resulting translation gains and losses are recognized in the Statement of Operations in the period in which they occur.

The financial statements and accounting records of each sub-fund are expressed in the reference currency of the relevant sub-fund. Transactions in currencies other than the sub-funds' currency are translated into the sub-funds' currency based on the exchange rates in effect at the date of the transaction.

Assets and liabilities denominated in other currencies are translated at the rate of exchange prevailing at the balance sheet date. Any resulting gains or losses are recognized in the Statement of Changes in Net Assets under the heading "Net profits/(losses) realised on foreign currency".

The main exchange rates used as of 30 June 2024 are:

Notes to the Financial Statements

For the year ended 30 June 2024

2 Accounting policies (continued)

2.7 Options

The Company may purchase and write (sell) options.

The risk associated with purchasing an option is that the Company pays a premium whether or not the option is exercised. Additionally, the Company bears the risk of loss of the premium and any change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities.

When the sub-fund writes an option, the premium received by the sub-fund is recorded as a liability and is subsequently adjusted to the current market value of the option written. In writing covered options, the sub-fund bears market risk of an unfavourable change in the price of the security underlying the written option. Exercise of an option written by the sub-fund could result in the sub-fund selling or buying a security at a price different from the current market value. Losses from written market index call options may be unlimited.

Premiums received from writing options which expire unexercised are recorded by the sub-fund on the expiration date as realised gains from options transactions. The difference between the premium and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realised gain, or if the premium is less than the amount paid for the closing purchase transaction, as a realised loss. If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the sub-fund has realised a gain or a loss. If a written put option is exercised, the premium reduces the cost basis of the security purchased by the sub-fund.

2.8 Swap contracts

Over-the-Counter ("OTC") swap contracts are valued by an independent pricing service. Centrally cleared swaps listed or settled on a multilateral or trade facility platform, such as a registered exchange, are valued at the daily settlement price determined by the respective exchange.

The unrealised appreciation/(depreciation) on swap contracts is included in the Statement of Net Assets under the headings "Unrealised appreciation on swap contracts" and "Unrealised depreciation on swap contracts".

Any resulting gains or losses are recognized in the Statement of Changes in Net Assets under the heading "Net profits/(losses) realised on swap contracts". Notes to the Financial Statements

For the year ended 30 June 2024

3 Expenses (continued)

3.2 Performance Fee

During the year ended 30 June 2024, no performance fee is levied in respect of any of the share classes.

3.3 Management Company

The Company has designated Manulife Investment Management (Ireland) Limited to act as its Management Company pursuant to a management company services agreement dated 18 June 2021 and effective 1 July 2021 (as may be amended from time to time) (the "**Management Company Services Agreement**").

The Management Company was incorporated in Ireland on 14 October 2018 as a private company limited by shares, registered under Part 2 of the Irish Companies Act 2014, under registration number 635225. The Management Company was authorised by the Central Bank of Ireland, on 16 April 2019, pursuant to the UCITS Regulations as a UCITS management company and on 15 April 2021 pursuant to the European Union (Alternative Investment Fund Managers) Regulations 2013 (which shall be taken to include the provisions of the Central Bank's AIF Rulebook) as an alternative investment fund manager. It has its registered office at Second Floor, 5 Earlsfort Terrace, Dublin 2 D02 CK83, Ireland. The constitution of the Management Company was most recently updated on 17 April 2019.

Pursuant to the Management Company Services Agreement, the Management Company is entrusted with the day-to-day management of the Company, with the responsibility to perform, directly or by way of delegation, all operational functions relating to the investment management and the administration of the Company and the marketing and distribution of the Shares.

In agreement with the Company, the Management Company has decided to delegate several of its functions as is further described in the Prospectus.

The Management Company shall adopt procedures aiming to control that the execution of the mandates given to the different agents are carried out in accordance with the conditions agreed and in compliance with the rules and regulations in force.

In consideration for its services, the Management Company is entitled to receive from the Company a management company fee of a maximum of 0.013% per annum per sub-fund.

These fees are payable monthly and are calculated on the average net assets of each sub-fund for the relevant month.

3.4 Administration and Depositary fees

Citibank Europe plc, Luxembourg Branch receives fees as Administrator and Depositary at annual rates as follows:

Administration fee:

The Company pays the fees of the Administrator, Registrar, Listing Agent, Paying Agent and Transfer Agent at commercial rates agreed between these parties and the Company, in addition to reasonable out-of-pocket expenses properly incurred in the course of carrying out their duties. The maximum fee paid for these services by the Company will be 0.5% p.a. of its Net Asset Value (excluding reasonable out-of-pocket expenses).

The actual fees charged are 4 basis points p.a. on Net Asset Value per sub-fund below first USD 250 million and 3 basis points p.a. on Net Asset Value per sub-fund above USD 250 million, with a minimum of USD 10,000 per sub-fund p.a.

3 Expenses (continued)

3.6 Brokerage

No transactions were entered into by the Company that were effected through the Manulife Group and no commissions were paid to the Manulife Group for any transactions.

3.7 Cash commissions

All cash commissions received by the Management Company, the Investment Managers, Sub-Investment Managers or investment advisers or any of their associated persons arising out of the sale and purchase of investments for the Company are credited to the account of the relevant sub-fund managed or advised by such Investment Manager, Sub-Investment Manager or investment advisers.

The prospectus allows the Management Company, the Investment Managers, Sub-Investment Managers or investment advisers or any of their associated persons to receive and retain goods and services and other soft dollar benefits which are of demonstrable benefit to the Shareholders as may be permitted under relevant regulations from brokers and other persons through whom such investment transactions are carried out. These goods and services include, but are not limited to, qualifying research services, computer hardware and software obtained to enhance investment decision making and appropriate order execution services.

In all cases where such goods and services and other soft dollar benefits are retained by the Management Company or any of the Investment Managers, Sub-Investment Managers or investment advisers or any of their associated persons, such person shall ensure that transaction execution is consistent with best execution standards, that any brokerage fee borne by the relevant sub-fund does not exceed customary institutional full service brokerage rates for such transactions, and that the availability of soft dollar benefits is not the sole or primary purpose for transacting with such broker or dealer.

No soft commission arrangements were entered into in respect of the Company's transactions with brokers, except that of Manulife Investment Management (US) LLC.

4 Taxation

4.1 General

The Company is not liable for any Luxembourg tax on profits or income, and dividends paid by the Company are not liable to any withholding tax, subject to certain conditions. The Company is liable in Luxembourg to subscription tax (*taxe d'abonnement*) of 0.05% per annum in respect of the aggregate Net Asset Value at the end of the relevant quarter, calculated and payable quarterly in respect of the following Classes currently: AA Classes, C Classes, R Classes, I2 Classes, I6 Classes, P Classes, S Classes and W Classes Shares of all the Sub-Funds.

A reduced tax rate of 0.01% per annum in respect of the aggregate Net Asset Value at the end of the relevant quarter, calculated and payable quarterly, apply to Classes sold only to and held by Institutional Investors. In addition, Sub-Funds which invest exclusively in deposits and money market instruments in accordance with the 2010 Law are also liable to such reduced tax rate, calculated per annum on their net assets. The relevant Classes currently include: I Classes, I3 Classes, I4 Classes, I5 Classes, I7 Classes as well as Class J. Please note that the benefit of the reduced 0.01% tax rate is subject to interpretation on the status of Institutional Investors by the competent authorities. Any reclassification made by the competent authorities as to the status of investors may subject all I Classes, I3 Classes, I4 Classes, I5 Classes, I7 Classes as well as Class J Shares to tax of 0.05%. No stamp duty or other tax is payable in Luxembourg on the issue of Shares.

Foreign income, capital gains, dividends and interest may be subject to withholding taxes or other taxes imposed by the country of origin concerned and such taxes may not be recoverable by the Company or its Shareholders. Where there is a reasonable likelihood that a tax liability will be incurred, such tax payable is provided for in the Net Asset Value.

In order to minimize the impact of local taxation on investment returns, the Company makes claims, where practicable, under the domestic law of the country of origin concerned and the relevant double tax treaties. These claims are made on the Company's understanding of the validity of such claims, given the information available to the Company from its depositaries, external advisers and other sources, as to the interpretation and application of the relevant legal provisions by the tax authorities in the country of origin concerned. These claims are included in the Statement of Net Assets under the heading "Tax reclaim" and in the Statement of Operations under the heading "Taxation", which shows the net position of tax expenses and income from claims.

4.2 India

Section 2(14)(b) of the Income-tax Act, 1961 ("the Act") of India Income Tax provides any security held by foreign institutional investor which has invested in such security in accordance with the regulations made under the Securities and Exchange Board of India Act, 1992 would be treated as capital asset. Hence, any income arising from transfer of such security by a Foreign Portfolio Investor (FPI) would be in the nature of capital gain and subject to capital gain tax.

Indian capital gain tax payable is included in the Statement of Net Assets under the heading "Other liabilities". The net position of capital gain tax is included in the Statement of Operations under the heading "Taxation".

For the year ended 30 June 2024, the total capital gain tax expenses for the following sub-funds are as follows:

Sub-Fund	Capital Gain Tax in USD For the year ended 30 June 2024
Asia Total Return Fund	169,686
Asian Small Cap Equity Fund	934,119
India Equity Fund	22,806,626
Sustainable Asia Equity Fund	725,921

5 Dividend policy

The Company's policy is to, with respect to all Distributing Classes, distribute such dividend amount to its Shareholders as per the respective dividend policy of each Distributing Class shown in the table below, as the Company may determine at its discretion. The Directors may, at their discretion, pay dividends out of income, realized capital gains and/or capital, of certain sub-funds in respect of Shares of certain Classes of such sub-funds. For the dividend policy of respective distributing share classes, please refer to Section 10 of the Prospectus.

However, if the amount of dividend payable to a Shareholder in respect of each Class is less than USD 50.00, the dividend will, instead, be reinvested for the account of such Shareholder in Shares of that Class, notwithstanding any earlier indication of the Shareholder to receive cash dividends.

The following dividends were distributed to Shareholders during the year ended 30 June 2024:

9 Swing Pricing Policy

In order to manage the liquidity risks of the sub-funds and with the aim of protecting existing Shareholders of the sub-funds in the event of significant net cash inflows or outflows, the Company may make adjustments to the calculation of the Net Asset Value of any sub-fund on each Business Day in accordance with its swing pricing policy, which shall be set out as follows:

The Company may need to accommodate significant net cash inflows or outflows resulting from large subscription, redemption and/or switching activity by investors which result in high transaction costs associated with a sub-fund's portfolio trades. As a result, the sub-fund may suffer reduction of the NAV per Share ("dilution"). In order to reduce this dilution impact and to protect existing Shareholders' interests, a swing pricing policy ("Swing Pricing Policy") shall be adopted by the Company as part of its daily valuation policy. The Swing Pricing Policy shall be applicable to all sub-funds.

If on any Business Day, the aggregate net investor(s) transactions in Shares of a sub-fund exceed a pre-determined threshold as calculated as a percentage of the relevant sub-fund's Net Asset Value or as a fixed amount expressed in the base currency of the relevant sub-fund (as determined and reviewed by the Board or any duly authorised delegate of the Board from time to time), the NAV per Share of the sub-fund will be adjusted upwards or downwards to reflect the costs (including dealing costs and estimated bid/offer spreads) attributable to net inflows and net outflows respectively ("Adjustment") if the Board considers it is in the best interest of the investors.

Notes to the Financial Statements

For the year ended 30 June 2024

9 Swing Pricing Policy (continued)

The value of the Adjustment for each sub-fund will be reviewed at least twice a year to reflect the estimated costs of trading assets held by the relevant sub-fund and prevailing market conditions. The estimation procedure for the value of the Adjustment captures the main factors causing dealing costs. Such Adjustment may vary from sub-fund to sub-fund and will not exceed 2.00% of the original NAV per Share (the "Maximum Adjustment"). Under exceptional circumstances, the Directors may, in the interest of Shareholders, decide to temporarily increase the Maximum Adjustment indicated above, subject to prior notification thereof to Shareholders and investors. The value of the Adjustment is determined by the Board or any duly authorised delegate of the Board.

The Swing Pricing mechanism may be applied across all Sub-Funds.

The following Sub-Fund has triggered the swing pricing mechanism as at the last valuation point 28 June 2024:

Notes to the Financial Statements

For the year ended 30 June 2024

13 Important Events (continued)

With effect from 1 August 2023, Manulife Investment Management (Europe) Limited and Manulife Investment Management (Singapore) Pte. Ltd. have been appointed as Co-Sub-Investment Managers of Global Climate Bond Fund.

With effect from 1 August 2023, Manulife Investment Management (Singapore) Pte. Ltd. has been appointed as Sub-Investment Manager of Asia Pacific REIT Fund* and India Equity Fund*.

With effect from 1 August 2023, the investment objective and policy of Sustainable Asia Bond Fund has been changed and, as a result, the sub-fund has been converted from an Article 8 SFDR fund to an Article 9 SFDR fund.

Mr Christakis Partassides retired as a Director of the Company with effect from 29 February 2024.

With effect from 29 April 2024, U.S. Bond Fund has been repositioned and renamed as USD Income Fund. The investment objective of the sub-fund has been changed such that the sub-fund will aim to achieve income generation. The investment policy of the sub-fund has also been changed accordingly.

With effect from 29 April 2024, the investment policy of Sustainable Asia Equity Fund has been enhanced to strengthen the underlying environmental, social and governance assessment processes adopted by the sub-fund.

China Total Return Bond Fund was terminated on 24 June 2024.

Those charged with governance are continuing to monitor the impact of the Ukrainian-Russian War and act in the best interest of the investors, while keeping with their regulatory and fiduciary responsibilities. Considering the application of sanctions against certain Russian entities, the suspension of trading in Russian securities for foreign investors and ongoing geopolitical uncertainty, the value of the Russian securities held by the Fund had been written down based on the Fund's valuation policy.

14 Subsequent Events

The sub-funds Diversified Real Asset Fund, Global Climate Bond Fund and Global Environmental Transformation Fund have not yet launched as at the date of issuance of this report.

In the context of India capital gain tax, subsequent to year end, the Finance (No. 2) Bill, 2024 received the assent of the President of India on 16 August 2024 and has become The Finance (No. 2) Act, 2024. Therefore, the Finance (No. 2) Bill, 2024 have become law, including the amendments and tax rates proposed therein effective 23 July 2024.

* With effect from 1 August 2023, the requirement of Offshore Fund Tax Exemption Scheme (also known as 13D scheme) shall apply to these Funds for Singapore Tax purpose.

1 Global Exposure

The following sections indicate whether the UCITS global exposure is managed under a commitment approach or an absolute Value at Risk (absolute VaR) approach.

The Management Company uses the “Commitment Approach” methodology in order to measure the global exposure of each Sub-Fund and manage the potential loss to them due to market risk.

The Commitment Approach is a methodology that aggregates the underlying market or notional values of financial derivative instruments to determine the degree of global exposure of a sub-fund to financial derivative instruments.

2 Securities Financing Transaction Regulation

The Securities Financing Transaction Regulation ("SFTR") introduces reporting requirements for securities financing transactions ("SFTs") and total return swaps. A SFT is defined as per Article 3 (11) of the SFTR as:

- a repurchase/reverse repurchase agreement;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction; or
- a margin lending transaction.

During the year from 1 July 2023 to 30 June 2024, the Company did not enter into transactions within the scope of the SFTR.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 67.7% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

In line with the disclosure within the Sub-Fund’s prospectus, the Sub-Fund promoted environmental and social characteristics by investing in issuers who demonstrated strong or improving sustainability attributes. The environmental and social characteristics promoted by the Sub-Fund include:

- Reduction in carbon emissions;

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

6 EU Sustainable Finance Disclosure Regulation (“SFDR”) and EU Taxonomy² Disclosures (continued)

- Implementation of diversity considerations;
- Demonstration of overall stronger performance on practices and management of sustainability issues, relative to peers; and
- Provision of products or services to help improve environmental and/or social performance.

As of 30 June 2024, 67.7% of the Sub-Fund’s net assets were invested in sustainable investments, of which 33.9% with an environmental objective, 33.8% with an social objective.

● *How did the sustainability indicators perform?*

As of 30 June 2024, the sustainability indicators’ performance are shown below. The Investment Manager does not use a reference benchmark to measure the attainment of the environmental and/or social characteristics. Instead the Investment Manager uses third party data and its own analysis to consider whether the metrics demonstrate such attainment. For the reporting period the Investment Manager is, however, satisfied that each of the measures outperforms the universe of investments which would be available to the Sub-Fund without the application of the Sub-Fund’s sustainability strategy, based on comparison with a broad-based non-ESG index.

Sustainability Indicator	Performance
GHG Emissions Intensity-Scope 1+2+3up (ton CO ₂ e/m USD revenue)	234.10
Board diversity (as measured by weighted average percentage of female directors)	16.17
Percentage of portfolio invested in companies assessed by the Investment Manager to demonstrate stronger performance on practices and management of sustainability issues compared to their peers	44.6
Percentage of portfolio assessed by the Investment Manager to provide products or services to help other improve environmental and/or social performance	41.2

● *...and compared to previous periods?*

As of 30 June 2023, the sustainability indicators’ performance are shown below. Please note the sustainability indicator were changed from the previous periods.

Sustainability Indicator	Performance
GHG Emissions Intensity – Scope 1+2+ tier 1 supplier Scope 3 (ton CO ₂ e/m USD revenue)	133.0
Women on Board (weighted average percentage of women on the board of the companies within the Sub-Fund)	18.1
Unadjusted Gender Pay Gap (the difference between the average gross hourly earnings of male and female employees as a percentage of male gross earnings)	17.4

6 EU Sustainable Finance Disclosure Regulation (“SFDR”) and EU Taxonomy² Disclosures (continued)

- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments of the Sub-Fund contributed to a sustainable objective through their performance in areas such as climate change mitigation, environmental pollution, diversity and inclusion and improved labour standards.

Although the Sub-Fund did not commit to a minimum level of alignment with the EU Taxonomy during the reporting period, the Investment Manager expected that the Sub-Fund’s sustainable investments contributed to the environmental objectives of climate change mitigation and natural resource use. The Sub-Fund also had socially focused sustainable investments which are not yet designated under the EU Taxonomy.

- ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The Investment Manager fully integrated ESG considerations into the investment decision making process. As part of the overall approach, the Investment Manager ensured that the sustainable investments made by the Sub-Fund Do No Significant Harm (“DNSH”) to sustainable investment objectives by (a) adhering to a detailed exclusion framework, and (b) identifying and considering the principal adverse impacts (“PAI”) on sustainability factors.

a) Exclusion Framework

The Sub-Fund adhered to an exclusion framework where certain companies were not considered permissible for investment. This included screening out companies, subject to data availability, which were considered by the third party data provider(s) used by the Investment Manager to be in violation of the Ten Principles of the UNGC. This also included companies with products or within industries that were considered by the Investment Manager to be unsustainable or associated with significant environmental or social risks. These may be updated from time to time depending on the assessment of each product or industry against the abovementioned principles, but during the reporting period, companies deriving more than 5% of revenue from alcohol, tobacco, gambling operations, adult entertainment, thermal coal production, conventional weapons and any revenue from controversial weapons were automatically eliminated from investment consideration (exclusion framework). This formed a material part of the Sub-Fund’s DNSH test.

Where no data is available from the third party data provider(s) regarding compliance with the exclusion framework above, issuers were not excluded from the Sub-Fund’s investment universe provided that they satisfied the positive screen applied by the Investment Manager and any other quantitative or qualitative analysis the Investment Manager considered relevant in order to satisfy the principle of “do no significant harm”.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Unaudited Supplementary Information

6 EU Sustainable Finance Disclosure Regulation (“SFDR”) and EU Taxonomy² Disclosures (continued)

During the reporting period, the Investment Manager monitored the ongoing status of companies within the Sub-Fund to ensure that the eligibility criteria applied at the point of investment continued to be complied with.

b) PAI on sustainability factors

The Investment Manager has assessed the PAI indicators relevant to the Sub-Fund and which the Investment Manager considered should be taken into account for the purposes of assessing whether sustainable investments otherwise cause significant harm.

— — — How were the indicators for adverse impacts on sustainability factors taken into account?

Based on data availability, the following PAI indicators were taken into consideration for investments in equities and/or fixed income products issued by corporate issuers for the proportion of holdings where data is available:

1. Scope 1 GHG emissions
2. Scope 2 GHG emissions
3. Scope 3 GHG emissions
4. Total GHG emissions
5. Carbon Footprint
6. GHG intensity of investee companies
7. Share of investments in companies active in the fossil fuel sector
8. Share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources
9. Energy consumption in GWh per million EUR of revenue of investee companies, per high impact climate sector
10. Share of investments in investee companies with sites/operations located in or near to biodiversity-sensitive areas
11. Tonnes of emissions to water generated by investee companies per million EUR invested, expressed as a weighted average
12. Tonnes of hazardous waste generated by investee companies per million EUR invested, expressed as a weighted average
13. Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
14. Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance /complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
15. Average unadjusted gender pay gap of investee companies
16. Average ratio of female to male board members in investee companies
17. Share of investments in investee companies involved in the manufacture or selling of controversial weapons

For investments in sovereign bonds and bonds issued by supranational entities, the following PAI indicators were considered:

Unaudited Supplementary Information

6 EU Sustainable Finance Disclosure Regulation (“SFDR”) and EU Taxonomy² Disclosures (continued)

1. GHG intensity of investee countries
2. Absolute number of investee countries subject to social violations
3. Relative number of investee countries subject to social violations
4. Non-cooperative tax jurisdictions

The Sub-Fund does not, however, set particular thresholds that must be attained in relation to the PAIs in order to consider whether the DNSH assessment has been satisfied but instead relied on a wider qualitative analysis based on a number of considerations, including industry sector.

Although mandatory to monitor the PAIs for sustainable investments, the PAIs were taken into account also on a whole portfolio level where it is possible to do so in both a quantitative and qualitative manner.

--- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm

Yes.

The exclusionary framework explained above aligns with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organization on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

How did this financial product consider principal adverse impacts on sustainability factors?

In addition to taking into account the PAIs as set out above, the Investment Manager aims on a continuing basis and throughout the reporting period to identify the adverse sustainability impact from the Sub-Fund’s investments in several ways, including via general screening criteria, ongoing review of PAIs and where appropriate supplemented by fundamental research during the Investment Manager’s investment processes.

Subject to data availability, the Investment Manager, with subject matter support from Manulife IM’s Sustainable Investment team, is responsible for assessing and monitoring the above PAI indicators for all in-scope assets on an ongoing basis using an internally developed monitoring system, third-party data, company issued data and public information. This assessment may

include both fundamental as well as quantitative analysis. Issuers identified as outliers on specific indicators, or which exhibit high adverse impact across several indicators will be subject to further analysis by the Investment Manager and may be reviewed by the Sustainable Investment team.

All 17 PAI indicators as set out in the pre-contractual disclosures have been considered in the investment process for investments in equities and/or fixed income products for the Sub-Fund, both at an overall portfolio level and in relation to the DNSH assessment for sustainable investment, subject to data availability. The Investment Manager monitors data availability on an ongoing basis with the aim toward improving both data quality and availability.

● **What was the share of investments made in transitional and enabling activities?**

As noted above, the Sub-Fund does not currently have access to data to calculate the Sub-Fund’s share of investments in transitional or enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU taxonomy during the previous reference period was 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As of 30 June 2024, 33.9% of the Sub-Fund’s net assets were invested in sustainable investments with an environmental objective not aligned with the EU Taxonomy.

The investment process accommodated the combination of environmental and social objectives by allowing the Investment Manager the flexibility to allocate between these based on availability and attractiveness of investment opportunities.

What was the share of socially sustainable investments?

As of 30 June 2024, 33.8% of the Sub-Fund’s net assets were invested in socially sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under “#2 Other” comprised of cash or cash equivalents held for liquidity purposes and derivatives held for hedging and/or efficient portfolio management purposes. For the avoidance of doubt, derivatives instruments were not used to attain the sustainable investment objective of the Sub-Fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reporting period, binding elements were used to select investment to meet the environmental and/or social characteristics.

- The Sub-Fund, subject to data availability, avoided investing in companies which are in violation of international norms, which are each intended to set standards for responsible business conduct across a range of issues, such as human rights, sound governance, labour rights, and the environment, being OECD Guidelines for Multinational Enterprises

The Investment Manager also applied each aspect of the Sub-Fund’s sustainability criteria. These are:

- the Sub-Fund’s exclusion framework, which is explained in more detail above. This means that the Investment Manager was bound to avoid particular normative, sector- or value-based exclusions to prevent investments into activities that are deemed to be inappropriate for the Sub-Fund and/or harming any of the sustainable investment objective of the Sub-Fund. In particular, the Sub-Fund did not invest in companies deriving more than 5% of revenue from alcohol, tobacco, gambling operations, adult entertainment, thermal coal production, conventional weapons, and any revenue from controversial weapons.
- the Sub-Fund’s positive inclusion screening process as further detailed above; and
- the Investment Manager’s good governance assessment

The Investment Manager is bound to apply this selection process to all potential assets of the Sub-Fund with the exception of cash, cash equivalents and derivatives.

Sustainable investment objective

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

As of 30 June 2024, 99% of the Sub-Fund’s net assets were invested in sustainable investments, of which 64.8% with an environmental objective, 32.1% with an social objective, and 2.1% contributed to both environmental and social objectives.

● *How did the sustainability indicators perform?*

As of 30 June 2024, the sustainability indicators’ performance are shown below. The Sub-Investment Manager does not use a reference benchmark to measure the attainment of the Sub-Fund’s sustainable investment objective. Instead the Sub-Investment Manager uses third party data and its own analysis to consider whether the metrics demonstrate such attainment. For the reporting period the Sub-Investment Manager is, however, satisfied that each of the measures materially outperforms the universe of investments which would be available to the Sub-Fund without the application of the Sub-Fund’s sustainability strategy, based on comparison with a broad-based non-ESG index.

6 EU Sustainable Finance Disclosure Regulation (“SFDR”) and EU Taxonomy² Disclosures (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments not cause significant harm to any sustainable investment objective?

How were the indicators for adverse impacts on sustainability factors taken into account?

The Sub-Investment Manager fully integrated ESG considerations into the investment decision making process. As part of this overall approach, the Sub-Investment Manager ensured that the sustainable investments made by the Sub-Fund Do No Significant Harm (“DNSH”) to any environmental or social sustainable investment objectives by (a) adhering to a detailed exclusion framework and (b) identifying and considering the principal adverse impacts (“PAI”) on sustainability factors.

a) Exclusion Framework

In relation to its investment in both Sustainable Issuers and ESG bonds, the Sub Fund adhered to an exclusion framework where certain issuers were removed from the investment universe. This included screening out issuers, where possible, who were considered by the third-party data provider(s) used by the Sub-Investment Manager to be in violation of the Ten Principles of the UNGC. This also included issuers with products or within industries that were considered by the Sub-Investment Manager to be unsustainable or associated with significant environmental or social risks.

These may be updated from time to time depending on the assessment of each product or industry against the abovementioned principles, but during the reporting period issuers and/or bonds were automatically eliminated from investment consideration (exclusion framework) if the issuer of that bond derives:

- a) more than 5% of revenue from thermal coal power generation (However, the Sub-Investment Manager may make exceptions in the case of ESG bonds that support sustainable purposes in line with the Sub-Fund’s sustainable investment objective. Any such exception will be considered by the Sub-Investment Manager on a case-by-case basis, carrying out a qualitative and/ or quantitative assessment to determine that the issuance is a sustainable investment);
- b) more than 5% of revenue from alcohol, tobacco, adult entertainment, gambling operations or conventional weapons, and to the extent only that such revenue results from by-products or captive use, thermal coal mining and sales, or oil and gas extraction and production; and
- c) any revenue from controversial weapons.

Where no data is available from the third party data provider(s) regarding compliance with the exclusion framework above, issuers were not excluded from the Sub-Fund’s investment universe provided that they satisfied the positive screen applied by the Sub-Investment Manager and any other quantitative or qualitative analysis the Sub-Investment Manager considered relevant in order to satisfy the principle of “do no significant harm”.

During the reporting period, the Sub-Investment Manager monitored the ongoing status of companies within the Sub-Fund to ensure that the eligibility criteria applied at the point of investment continued to be complied with.

6 EU Sustainable Finance Disclosure Regulation (“SFDR”) and EU Taxonomy² Disclosures (continued)

b) PAI on sustainability factors

Subject to data availability, the Sub-Investment Manager took into account the following PAI indicators for the companies in which the Sub-Fund invested for the purposes of assessing whether sustainable investments cause significant harm to the sustainable investment objectives:

1. Scope 1 GHG emissions
2. Scope 2 GHG emissions
3. Scope 3 GHG emissions
4. Total GHG emissions
5. Carbon Footprint
6. GHG intensity of investee companies
7. Share of investments in companies active in the fossil fuel sector
8. Share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources
9. Energy consumption in GWh per million EUR of revenue of investee companies, per high impact climate sector
10. Share of investments in investee companies with sites/operations located in or near to biodiversity-sensitive areas
11. Tonnes of emissions to water generated by investee companies per million EUR invested, expressed as a weighted average
12. Tonnes of hazardous waste generated by investee companies per million EUR invested, expressed as a weighted average
13. Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
14. Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance /complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
15. Average unadjusted gender pay gap of investee companies
16. Average ratio of female to male board members in investee companies
17. Share of investments in investee companies involved in the manufacture or selling of controversial weapons

For investments in sovereign bonds and bonds issued by supranational entities, the following PAI indicators were considered:

1. GHG intensity of investee countries
2. Absolute number of investee countries subject to social violations
3. Relative number of investee countries subject to social violations
4. Non-cooperative tax jurisdictions

The Sub-Fund does not, however, set particular thresholds that must be attained in relation to the PAIs in order to consider whether the DNSH assessment has been satisfied but instead relied on a wider qualitative analysis based on a number of considerations, including industry sector.

Although mandatory to monitor the PAIs for sustainable investments, the PAIs were taken into account also on a whole portfolio level where it is possible to do so in both a quantitative and qualitative manner.

- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

- **What was the share of investments made in transitional and enabling activities?**

As noted above, the Sub-Fund does not currently have access to data to calculate the Sub-Fund’s share of investments in transitional or enabling activities.

Sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU taxonomy during the previous reference period was 0%.

- **What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?**

As of 30 June 2024, 64.8% of the Sub-Fund’s net assets were invested in sustainable investments with an environmental objective not aligned with EU Taxonomy. Sufficient and publicly available reliable data on EU Taxonomy is scarce, particularly as the Sub-Fund is not invested within the EU and there is no legal requirement within the jurisdictions of the Sub-Fund’s investments to provide this data. As such, the data coverage remains too low to support a meaningful or reliable calculation of Taxonomy-aligned investments in this Sub-Fund. Any assessment using equivalent data is also not currently reliable. The Sub-Investment Manager will continue to monitor and actively seek to address the gaps in such information and will provide updates on an annual basis.

- **What was the share of socially sustainable investments?**

As of 30 June 2024, 32.1% of the Sub-Fund’s net assets were invested in sustainable investments with a social objective not aligned with EU Taxonomy.

- **What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under “#2 Not sustainable” comprised of cash or cash equivalents held for liquidity purposes and derivatives held for hedging and/or efficient portfolio management purposes. For the avoidance of doubt, derivatives instruments were not used to attain the sustainable investment objective of the Sub-Fund.

- **What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reporting period, binding elements were used to select sustainable investments to attain the sustainable investment objective.

- The Sub-Fund, subject to data availability, avoided investing in companies which are in violation of international norms, which are each intended to set standards for responsible business conduct across a range of issues, such as human rights, sound governance, labour rights, and the environment, being OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labor Organization on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

- In addition to the international standards set out above, the Sub-Investment Manager applied the Sub-Fund’s exclusion framework, which is explained in more detail above. This means that the Sub-Investment Manager was bound to avoid particular normative, sector- or value-based exclusions to prevent investments into activities that are deemed to be inappropriate for the Sub-Fund and/or harming any of the sustainable investment objective of the Sub-Fund. In particular, the Sub-Fund did not invest in issuers which derive more than 5% of revenue from thermal coal power generation (however, the Sub-Investment Manager may make exceptions in the case of ESG bonds that support sustainable purposes in line with the Sub-Fund’s sustainable investment objective. Any such exception will be considered by the Sub-Investment Manager on a case by case basis, carrying out a qualitative and/or quantitative assessment to determine that the issuance is a sustainable investment); more than 5% of revenue from alcohol, tobacco, adult entertainment, gambling operations or conventional weapons, and to the extent only that such revenue results from by-products or captive use, thermal coal mining and sales, or oil and gas extraction and production; and any revenue from controversial weapons.
- The Sub-Fund has committed to a minimum level (85%) of sustainable investments. In order to achieve this, the Sub-Investment Manager was bound by the selection process for investments in fixed income securities issued by governments, agencies, supranationals and corporations in Asia (which shall include Australia and New Zealand), with the issuers and/or the securities demonstrating strong environmental and/or social sustainability attributes and/or enabling sustainable practices.
- All of the above elements are binding on the Sub-Investment Manager on a continuous basis.

ANNEX V

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: Manulife Global Fund – Global Climate Action Fund

Legal entity identifier: 5493008PRDYSWUK5TH37

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent was the sustainable investment objective of this financial product met?

The sustainable investment objective of the Sub-Fund is to invest at least 85% of its net assets in a diversified portfolio of companies who are leaders in making positive contributions to climate change (“Climate Leaders”) as defined by the Sub-Investment Manager or companies which are sustainable investments making a contribution to climate change, but do not fully satisfy the Sub Investment Manager’s criteria to be a Climate Leader.

The Sub-Fund contributed to climate change mitigation and climate change adaptation by investing in Climate Leaders or other sustainable investments. These are companies considered by the Sub-Investment Manager to be aligned with the principles of the Paris Agreement.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

As of 30 June 2024, 99.7% of the Sub-Fund’s net assets were invested in sustainable investments; 87.2% of the Sub-Fund’s net assets were invested in Climate Leaders.

● **How did the sustainability indicators perform?**

As of 30 June 2024, the sustainability indicators’ performance are shown below. The Sub-Investment Manager does not use a reference benchmark to measure the attainment of the Sub-Fund’s sustainable investment objective. Instead the Sub-Investment Manager uses third party data and its own analysis to consider whether the metrics demonstrate such attainment. For the reporting period the Sub-Investment Manager is, however, satisfied that each of the measures materially outperforms the universe of investments which would be available to the Sub-Fund without the application of the Sub-Fund’s sustainability strategy, based on comparison with a broad-based non-ESG index.

<i>Sustainability Indicator</i>	<i>Sub-Fund</i>

6 EU Sustainable Finance Disclosure Regulation (“SFDR”) and EU Taxonomy² Disclosures (continued)

The Sub-Investment Manager fully integrated ESG considerations into the investment decision making process. As part of this overall approach, the Sub-Investment Manager ensured that the sustainable investments made by the Sub-Fund Do No Significant Harm (“DNSH”) to any environmental or social sustainable investment objectives by (a) adhering to a detailed exclusion framework and (b) identifying and considering the principal adverse impacts (“PAI”) on sustainability factors.

a) Exclusion Framework

The Sub-Fund adhered to an exclusion framework where certain companies were removed from the investment universe. This included screening out companies, subject to data availability, which were considered by the third-party data provider(s) used by the Sub-Investment Manager to be in violation of the Ten Principles of the UNGC. This also included companies with products or within industries that are considered by the Sub-Investment Manager to be unsustainable or associated with significant environmental or social risks.

These may be updated from time to time depending on the assessment of each product or industry against the abovementioned principles, but during the reporting period companies deriving more than 25% of revenue from fossil fuel based power generation, more than 5% of revenue from alcohol, tobacco, adult entertainment, gambling operations or conventional weapons; and any revenue from controversial weapons, oil and gas extraction and production or thermal coal mining and sales were automatically eliminated from investment consideration (exclusion framework).

Where no data is available from the third party data provider(s) regarding compliance with the exclusion framework above, issuers were not excluded from the Sub-Fund’s investment universe provided that they satisfied the positive screen applied by the Sub-Investment Manager and any other quantitative or qualitative analysis the Sub-Investment Manager considered relevant in order to satisfy the principle of “do no significant harm”.

During the reporting period, the Sub-Investment Manager monitored the ongoing status of companies within the Sub-Fund to ensure that the eligibility criteria applied at the point of investment continued to be complied with.

b) PAI on sustainability factors

Subject to data availability, the Sub-Investment Manager took into account the following PAI indicators for the companies in which the Sub-Fund invested for the purposes of assessing whether sustainable investments cause significant harm to the sustainable investment objectives:

1. Scope 1 GHG emissions
2. Scope 2 GHG emissions
3. Scope 3 GHG emissions
4. Total GHG emissions
5. Carbon Footprint
6. GHG intensity of investee companies
7. Share of investments in companies active in the fossil fuel sector
8. Share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources
9. Energy consumption in GWh per million EUR of revenue of investee companies, per high impact climate sector

Unaudited Supplementary Information

6 EU Sustainable Finance Disclosure Regulation (“SFDR”) and EU Taxonomy² Disclosures (continued)

10. Share of investments in investee companies with sites/operations located in or near to biodiversity-sensitive areas
11. Tonnes of emissions to water generated by investee companies per million EUR invested, expressed as a weighted average
12. Tonnes of hazardous waste generated by investee companies per million EUR invested, expressed as a weighted average
13. Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
14. Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance /complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
15. Average unadjusted gender pay gap of investee companies
16. Average ratio of female to male board members in investee companies
17. Share of investments in investee companies involved in the manufacture or selling of controversial weapons

For investments in sovereign bonds and bonds issued by supranational entities, the following PAI indicators were considered:

1. GHG intensity of investee countries
2. Absolute number of investee countries subject to social violations
3. Relative number of investee countries subject to social violations
4. Non-cooperative tax jurisdictions

The Sub-Fund does not, however, set particular thresholds that must be attained in relation to the PAIs in order to consider whether the DNSH assessment has been satisfied but instead relied on a wider qualitative analysis based on a number of considerations, including industry sector.

Although mandatory to monitor the PAIs for sustainable investments, the PAIs were taken into account also on a whole portfolio level where it is possible to do so in both a quantitative and qualitative manner.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes.

The exclusionary framework explained above is aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labor Organization on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

How did this financial product consider principal adverse impacts on sustainability factors?

In addition to taking into account the PAIs as set out above, the Sub-Investment Manager aims on a continuing basis and throughout the reporting period to identify the adverse sustainability impact

from the Sub-Fund’s investments in several ways, including via general screening criteria, ongoing review of PAIs and where appropriate supplemented by fundamental research during the Sub-Investment Manager’s investment processes.

Subject to data availability, the Sub-Investment Manager, with subject matter support from Manulife IM’s Sustainable Investment team, is responsible for assessing and monitoring the above PAI indicators for all in-scope assets on an ongoing basis using an internally developed monitoring system, third-party data, company issued data and public information. This assessment may include both fundamental as well as quantitative analysis. Issuers identified as outliers on specific indicators, or which exhibit high adverse impact across several indicators will be subject to further analysis by the Sub-Investment Manager and may be reviewed by the Sustainable Investment team.

All 17 PAI indicators as set out in the pre-contractual disclosures have been considered in the investment process for investments in equities and/or fixed income products for the Sub-Fund, both at an overall portfolio level and in relation to the DNSH assessment for sustainable investment, subject to data availability. The Sub-Investment Manager monitors data availability on an ongoing basis with the aim toward improving both data quality and availability.

What was the proportion of sustainability-related investments?

As of 30 June 2024, 99.7% of the Sub-Fund’s net assets were invested in sustainable investments. The category “#1 Sustainable” covers 99.7% of sustainable investments with environmental objectives.

The remaining assets of the Sub-Fund were used only for liquidity, efficient portfolio management or hedging purposes.

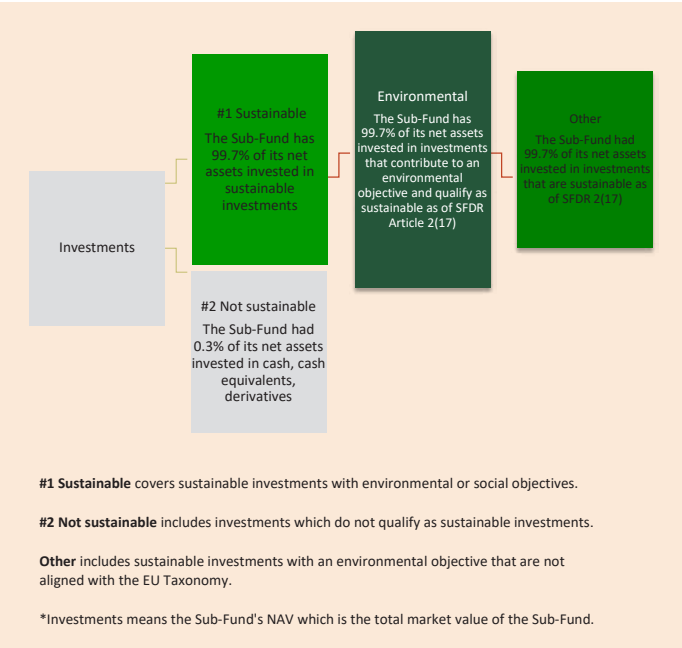

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

As of 30 June 2024:

Breakdown by sector/sub-sector	% of Portfolio Weight
Information technology	28.9%
Industrials	18.1%
Health care	17.9%
Financials	13.9%
Consumer discretionary	12.5%
Consumer staples	5.5%
Communication services	2.9%
Cash and cash equivalents, and derivatives	0.3%
Exposure to companies active in fossil fuel sector	5.6%

2.6% Koninklijke Ahold Delhaize

Koninklijke Ahold Delhaize NV is a sustainable investment within the subfund. It is not involved in the extraction and/or refining of fossil fuel, however, at some of its grocery stores chains, such as Stop & Shop, gasoline sales is part of its business. The gasoline sale revenue, only represents approximately 1.5% of the companies overall earning.

3.0% Canadian Pacific Kansas City Ltd

Canadian Pacific Kansas Railway is a sustainable investment within the subfund. It is not involved in the extraction and/or refining of fossil fuel. Its exposure to fossil fuel represented transportation and storage of crude oil and coal.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Please refer to the graph below in respect of the Sub-Fund’s investment alignment with EU Taxonomy.

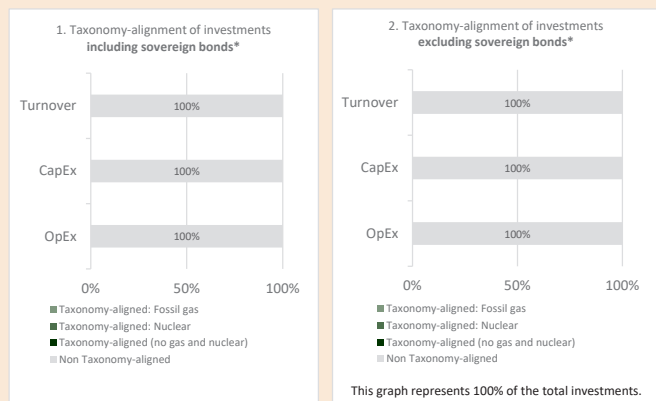

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas
 - In nuclear energy
- No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

As noted above, the Sub-Fund does not currently have access to data to calculate the Sub-Fund’s share of investments in transitional or enabling activities.

● **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU taxonomy during the previous reference period was 0%.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

As of 30 June 2024, 99.7% of the Sub-Fund’s net assets was invested in sustainable investments with an environmental objective not aligned with EU Taxonomy.

Sufficient and publicly available reliable data on EU Taxonomy is scarce, particularly as the Sub-Fund is not invested within the EU and there is no legal requirement within the jurisdictions of the Sub-Fund’s investments to provide this data. As such, the data coverage remains too low to support a meaningful or reliable calculation of Taxonomy-aligned investments in this Sub-Fund. Any assessment using equivalent data is also not currently reliable. The Sub-Investment Manager will continue to monitor and actively seek to address the gaps in such information and will provide updates on an annual basis.

What was the share of socially sustainable investments?

0% of the Sub-Fund’s net assets was classified as socially sustainable investments.

There was no commitment to a minimum proportion of sustainable investments with a social objective as the sustainable investment objective of the Sub-Fund is focused on environmental outcomes. However, the Sub-Investment Manager believes that, nevertheless, strong environmental measures generally have a positive effect also on social outcomes and that the two ideals are interlinked.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under “#2 Not sustainable” comprised of cash or cash equivalents held for liquidity purposes and derivatives held for hedging and/or efficient portfolio management purposes. For the avoidance of doubt, derivatives instruments were not used to attain the sustainable investment objective of the Sub-Fund.

 Sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

- The Sub-Fund has committed to a minimum level (85%) of sustainable investments. In order to achieve this, the Sub-Investment Manager was bound by the selection process for investments in companies who are leaders in making positive contributions to climate change (“Climate Leaders”) as defined by the Sub-Investment Manager or companies which are sustainable investments making a contribution to climate change, but which do not fully satisfy the Sub-Investment Manager’s criteria to be a Climate Leader. The Sub-Investment Manager was bound to apply this selection process to all potential assets of the Sub-Fund with the exception of cash, cash equivalents and derivatives.

All of the above elements are binding on the Sub-Investment Manager on a continuous basis.
