What is this product?

Type

Global Dynamic Dividend Fund (the "Fund") is a US Dollar denominated sub-fund of a SICAV (société d'investissement à capital variable), abrdn SICAV I, incorporated in Luxembourg.

Term

abrdn SICAV I (the "Company") has no maturity date. The Fund and the Company may not be unilaterally terminated by abrdn Investments Luxembourg S.A.

Objective

The Fund aims to provide income combined with long term capital growth by investing at least two-thirds in companies listed globally. The Fund aims to outperform the MSCI AC World (Net) Index (USD) with a yield greater than the benchmark before charges.

Portfolio Securities

- The Fund will invest at least two-thirds in equities and equity related securities of companies on registered stock exchanges.
- The Fund may also invest in other funds (including those managed by abrdn) and money-market instruments, and cash.

Management Process

- The Fund is actively managed.
- The Fund invests the majority of its assets for the long term to generate income and capital growth. To increase the overall level of income generated, a small portion of investments are held for short periods of time to capture regular dividends that are paid along with one off or special dividends from companies.
- The benchmark is used as a reference point for portfolio construction and as a basis for setting risk constraints.
- In order to achieve its objective, the Fund will take positions whose weightings diverge from the benchmark or invest in securities which are not included in the benchmark. The investments of the Fund may deviate significantly from the components and their weightings in the benchmark.
- The fund's monthly distribution stream (while subject to change) is intended to be kept at a generally stable level. While the fund will generate an income stream from the dividends of the underlying holdings, there may be instances where the monthly distribution paid out will be supplemented by capital. The appropriate level of monthly distributions will be regularly reviewed, taking into consideration any changes in market conditions or other factors which may impact the income generated within the fund, therefore can be revised down or up.
- Due to the active nature of the management process, the Fund's performance profile may deviate significantly from that of the benchmark over the longer term.
- abrdn integrate environmental, social and governance (ESG) considerations within the investment process. Details of the Equity ESG Integration Approach are published at www.abrdn.com under "Sustainable Investing".

Derivatives and Techniques

- Derivatives will only be used for hedging or to provide exposures that could be achieved through investment in the assets in which the Fund is primarily invested. Usage of derivatives is monitored to ensure that the Fund is not exposed to excessive or unintended risks.

This fund is subject to Article 6 of the Sustainable Finance Disclosure Regulation ("SFDR").

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus). If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

Intended Retail Investor

Investors with basic investment knowledge. Investors who can accept large short term losses. Investors wanting income and growth over the longer term (5 years or more). The Fund has specific and generic risks with a risk rating as per the risk indicator. The Fund is intended for general sale to retail and professional investors through all distribution channels with or without professional advice.

The Fund's depositary is Citibank Europe plc Luxembourg Branch. The prospectus, the articles of association, the annual reports and interim reports may be obtained free of charge from our website or via the contact details in 'Other relevant information'. All documents are available in English and German; the prospectus is also available in French and Italian.
