GENERAL INFORMATION

INFORMATION TO THE SHAREHOLDERS

Information concerning Redwheel Funds (the "SICAV") is published in newspapers and, if required by law, in the Mémorial, and deposited with the Registre de Commerce et des Sociétés (Register of Commerce and Companies), Luxembourg.

The SICAV is registered with the Registre de Commerce et des Sociétés, Luxembourg, under number B 122 802 where its consolidated Articles of Incorporation have been filed.

The issue and redemption prices of shares of each Sub-Fund are made public at the registered office of the SICAV, where the annual and semi-annual reports may be obtained.

A request for listing on the Luxembourg Stock Exchange may be made for all or some of the SICAV's Sub-Funds/categories or Classes of shares.

Investors residing in Germany can receive free of charge from the German Payments and Information Office the prospectus, the articles of association of the investment company and the most recent report on activities and, in so far as subsequently published, also the latest annual report, as well as requesting the net asset value per share, the current issue, exchange and redemption prices of the shares and all other financial information about the SICAV which is available to the shareholders from the registered office of the investment company.

The net asset value per share of each Class and the issue and redemption prices per share of each Sub-Fund may be obtained during business hours at the registered office of the SICAV and of the Management Company and are also available on the websites www.redwheel.com and www.fundinfo.com.

Subscriptions cannot be received on the basis of this financial report. Subscriptions are valid only if made on the basis of the current prospectus, supplemented by the latest annual report and the most recent semi-annual report if published thereafter.

NET ASSET VALUE PER SHARE

The net asset value per share is calculated and shares may be issued, converted and redeemed as of each full day (other than a Saturday or a Sunday or 24 December of each year) on which the banks in both London and Luxembourg are open for business (the "Valuation Day") unless otherwise provided for a specific Sub-Fund in the Appendix: Sub-Funds Details of the prospectus of the SICAV (the "Appendix of the prospectus").

When preparing the audited annual report and unaudited semi-annual report, if the last day of the financial year and the semi-annual period is not a Business Day, a day which is a Luxembourg bank business day unless otherwise provided for a specific Sub-Fund in the Appendix of the prospectus, the net asset value of the last Valuation Day of the year and the half-year period will be replaced by a net asset value calculated as at the last day of the period concerned.

RISK MANAGEMENT

Global Exposure

When assessing the risks involved in the management of assets of each Sub-Fund, the Management Company carefully monitors the risks of the portfolios, including market risks, liquidity risks, counterparty risks and operational risks. Each Sub-Fund adopts an adequate global exposure measurement depending on the complexity of its investment policy and the level of exposure to complex financial derivative instruments to achieve the investment objectives and returns. In that context, the methodology used is provided for a specific Sub-Fund in the Appendix of the prospectus.

Commitment Approach

For Sub-Funds having little exposure to complex financial derivative instruments or limited recourse to financial derivative instruments, the global exposure is measured by taking into account the market value of the equivalent position in the underlying asset of the financial derivative instruments or the financial derivative instruments' notional value, as appropriate. The Sub-Fund's total commitment to financial derivative instruments, limited to 100% of the Sub-Fund's total net asset value, is then quantified as the sum, as an absolute value, of the individual commitments, after consideration of the possible effects of netting and hedging in accordance with applicable laws and regulations, including the ESMA Guidelines on Risk Measurement and the Calculation of Global Exposure and Counterparty Risk for UCITS of 28 July 2010 ("Commitment Approach").

Leverage

Any Sub-Fund using the VaR approach for the calculation of its global exposure is required, in accordance with the aforementioned ESMA Guidelines, to disclose its expected level of leverage. When applicable to a Sub-Fund this information will be set out for the Sub-Fund concerned in the Appendix of the prospectus. During the year ended 31 December 2023 none of the Sub-Funds used the VaR approach.

In this context leverage is a measure of the aggregate derivative usage and is calculated as the sum of the notional exposure of the financial derivative instruments used (including those used for hedging purposes at the Share Classes level), without the use of netting arrangements (the "Notional Approach").

GENERAL INFORMATION (CONTINUED)

RISK MANAGEMENT (CONTINUED)

As the calculation neither takes into account whether a particular financial derivative instrument increases or decreases investment risk, nor takes into account the varying sensitivities of the notional exposure of the financial derivative instruments to market movements, this may not be representative of the level of investment risk within a Sub-Fund.

Upon request of an investor, the Management Company will provide supplementary information relating to the quantitative limits that apply in the risk management of each Sub-Fund, to the methods chosen to this end and to the recent evolution of the risks and yields of the main categories of instruments.

DIRECTORS' REPORT

To our Shareholders,

The Board of Directors of Redwheel Funds SICAV (the "Fund") is pleased to present the Fund's Annual Report, including the audited financial statements, for the financial year from 1 January to 31 December 2023.

Review of activities 2023

Despite widespread predictions of a tumultuous year, financial markets in 2023 proved to be more resilient than many anticipated. The year was characterised by a remarkable ability to adapt to unforeseen challenges and avoid the direst forecasts.

Global economic growth, while slower than in previous years, did not plummet as some had feared. The United States and Japan, in particular, demonstrated unexpected resilience in the face of global headwinds. China's re-emergence from its lockdown, while not as dramatic as some had hoped, was nonetheless smoother than expected.

Inflation, which had been a major concern in 2022, surprised many by falling sharply across the globe. The feared credit defaults and collapse of private assets, which were anticipated due to the excesses of the previous low-interest-rate environment, did not materialise. While the private capital raising environment has undoubtedly become more challenging, there have been no significant signs of a widespread private asset crisis.

Despite these positive developments, the performance of "the Magnificent Seven" US technology giants overshadowed many global and US equity managers. These tech titans, with their significant exposure to artificial intelligence (AI) innovation, continued to outperform the broader market.

Central banks, which had been criticised for their handling of the pandemic-induced economic turmoil, successfully navigated a complex monetary policy environment, gradually raising interest rates to more normal levels while maintaining their ability to stimulate the economy if necessary.

While some of the concerns that dominated the headlines in 2023 may still materialise, and underlying systemic tensions remain, the year overall was marked by its ability to avoid the worst-case scenarios.

When the dust settles, two key developments will likely stand out as defining characteristics of 2023.

The rise of AI

The pervasiveness and transformative power of AI took many by surprise, challenging long-held beliefs and disrupting the status quo. Visual processing, language capabilities, and creativity – once considered uniquely human domains – were among the areas where AI made significant strides, unsettling some and raising concerns about existential risks.

As we moved beyond the initial panic and euphoria, it became increasingly clear that AI's technological advancements were rapidly translating into real-world solutions and products. The entrepreneurial spirit of businesses embracing these new technologies and tools was encouraging, signalling the beginning of a wave of innovation that could last for years or even decades.

In financial markets, the immediate impact of AI was evident in the outperformance of tech majors with significant exposure to AI advancements. The next wave of AI's impact will be more nuanced and far-reaching, as AI tools and technologies penetrate various sectors and reshape the competitive landscape of numerous industries.

Sustainability's mainstream acceptance

Somewhat controversially, 2023 will also be remembered as the year when sustainability gained genuine acceptance among mainstream investors. While some might point to the underperformance of ESG, sustainability, and impact-focused strategies, there is a deeper story to be told.

In recent years, the surge of capital into these strategies was often driven by a naive belief that sustainable investing was a sure bet – good for the environment, good for society and good for returns. This reallocation of capital required a test, and the past few years have provided that test.

The most compelling evidence of sustainability's structural acceptance in the investment industry is the funds' flow dynamic. Despite market fluctuations, flows into sustainable strategies remain robust, indicating that many client groups are committed to aligning their portfolios with products and managers that integrate and emphasise sustainability considerations.

Expectations for 2024 and beyond

As we look towards 2024, it is reasonable to anticipate a continuation of the global geopolitical and macroeconomic concerns that have dominated in recent years. Geopolitical tensions are likely to remain concentrated in three key areas: Gaza / Israel, Russia / Ukraine and China / Taiwan.

These conflicts have a proven ability to disrupt market stability and pose unpredictable risks. On the macroeconomic front, the primary focus will undoubtedly remain on the extent of the economic slowdown in the United States and the severity of the recession in Europe.

Corporate Governance statement

The Board of Directors of the Fund is responsible for supervising the Fund and its delegates in accordance with the articles of incorporation, prospectus, and laws and regulations applicable to Luxembourg investment funds.

The names of the Directors are listed with their principal occupations in the Directors and Administration section of this report and in the Fund's Prospectus.

The Board of Directors confirms the Fund's adherence to the principles of the ALFI Code of Conduct for Luxembourg Investment Funds, as updated and reissued in June 2022.

The Board consists of five Directors, two of whom are employees and shareholders of RWC Partners Limited, the Global Distributor and an affiliate of the Investment Manager, RWC Asset Management LLP. The remaining three Directors are independent of RWC Asset Management LLP, and do not hold shares in any Sub-Funds of Redwheel Funds SICAV.

DIRECTORS' REPORT (CONTINUED)

During the Financial Year, three Board meetings were held on 15 March, 8 June and 4 October. The board meeting in respect of Q4 2023 was held on 17 January 2024. All Directors were present at all four Board meetings.

At the Board meetings, the Directors review the management of the Fund's assets and all other significant matters so as to ensure that they maintain overall control and supervision of the Fund's affairs. The Board is responsible for the appointment and monitoring of all service providers to the Fund. The Directors are kept fully informed of investment and financial controls and other matters relevant to the business of the Fund.

The Directors are responsible for ensuring the Fund's Annual Report is prepared in accordance with Luxembourg GAAP and applicable legal and regulatory requirements.

Remuneration paid to the Directors for the year ended 31 December 2023 is disclosed in the Notes to the Financial Statements.

Internal Controls

The Board is ultimately responsible for the Fund's system of internal controls and for reviewing its effectiveness. The Board confirms that there is an ongoing process for identifying, evaluating and managing the significant risks faced by the Fund.

SFDR (EU Sustainable Finance Disclosure Regulation)

Certain information about the environmental or social characteristics and sustainable investment objectives of the Sub-Funds, as applicable, is available in the SFDR (Unaudited) section of the annual report.

Business of the Annual General Meeting

The Annual General Meeting was last held on 28 April 2023 and all resolutions were passed unanimously. The next Annual General Meeting will be held at the registered office of the Fund on 30 April 2024 at 3.00 p.m. (Luxembourg time). Notice and agenda of the meeting will be sent to the shareholders prior to the meeting.

NOTES TO THE FINANCIAL STATEMENTS
31 December 2023

GENERAL

Redwheel Funds (the "SICAV") is an open-ended collective investment company with variable capital (Société d'Investissement à Capital Variable) under Luxembourg law, constituted for an unlimited duration, with an umbrella structure comprising different Sub-Funds and Classes. It was set up in Luxembourg on 21 December 2006, in accordance with Part I of the amended law of 17 December 2010 (the "Law").

Its Articles of Incorporation were amended for the last time on 8 June 2011 and published in the Mémorial on 27 June 2011.

The SICAV is registered in the Luxembourg Trade Register under the number B 122 802.

The SICAV offers investors, within the same investment vehicle, a choice between several sub-funds ("Sub-Funds") which are distinguished mainly by their specific investment policy and/or by the currency in which they are denominated.

As at 31 December 2023, the following Sub-Funds are available for investors:

- Redwheel Global Convertibles Fund
- Redwheel Asia Convertibles Fund
- Redwheel Nissay Japan Focus Fund
- Redwheel Global Emerging Markets Fund
- Redwheel Next Generation Emerging Markets Equity Fund
- Redwheel China Equity Fund
- Redwheel Global Equity Income Fund
- Redwheel Responsible Global Income Fund
- Redwheel Sustainable Emerging Markets Fund
- Redwheel Clean Economy Fund
- Redwheel Biodiversity Fund
- Redwheel Life Changing Treatments Fund

Redwheel Responsible Global Income Fund launched on 2 March 2023, Redwheel Sustainable Emerging Markets Fund launched on 26 September 2023, Redwheel Clean Economy Fund launched on 14 November 2023, Redwheel Biodiversity Fund launched on 10 October 2023, and Redwheel Life Changing Treatments Fund launched on 31 October 2023.

The SICAV may issue different Classes of shares. As at 31 December 2023, only Class A, B, C, F, I, JA, JR, L, LA, LB, R, S, ZF and ZM shares are in issue. Class A, B, C, F, I, JA, JR, L, R, S, ZF and ZM may also be divided into Classes of shares denominated in different currencies and the Investment Manager may hedge the reference currency of certain Classes (the "Class Currency") back to the relevant Sub-Fund currency in order to protect

shareholders from adverse currency movements. The effects of this hedging will be reflected in the net asset value and performance of the appropriate Class.

Class A and R shares are available to all investors and are subject to a minimum subscription amount.

As a result of the implementation of the Retail Distribution Review in the United Kingdom and as a result of its impact on the structure of the Classes of shares, the Board of Directors has decided to restrict going forward the Class B and S shares to institutional investors within the meaning of Article 174 of the amended Law ("Institutional Investor").

Class C, F, I, JA, JR, L, ZF and ZM shares are dedicated to certain investors as determined by RWC Partners Limited and the Board of Directors.

As at 31 December 2023, the following Share Classes are available to investors (not necessarily available for all Sub-Funds):

Class A shares which are denominated in:

- Class A – EUR
- Class A – EUR (DIS)
- Class A – EUR (HDG)
- Class A – USD
- Class A – USD (DIS)
- Class A – USD (HDG)
- Class A – GBP (HDG)
- Class A – CHF (HDG)
- Class A – JPY

Class B shares which are denominated in:

- Class B – EUR
- Class B – EUR (DIS)
- Class B – EUR (HDG)
- Class B – USD
- Class B – USD (DIS)
- Class B – USD (HDG)
- Class B – GBP
- Class B – GBP (DIS)
- Class B – GBP (DIS HDG)
- Class B – GBP (HDG)
- Class B – CHF (HDG)
- Class B – JPY

Class C shares which are denominated in:

- Class C – EUR (HDG)

Class F shares which are denominated in:

- Class F – AUD

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

- Class S – USD (DIS)
- Class S – GBP
- Class S – GBP (DIS)
- Class S – GBP (HDG)
- Class S – CHF (HDG)

Class ZF shares which are denominated in:

- Class ZF – USD

Class ZM shares which are denominated in:

- Class ZM – USD
- Class ZM – GBP

Summary of investment objective of the Sub-Funds available for investors:

- for Redwheel Global Convertibles Fund, to provide a return by investing primarily in a diversified portfolio of convertible securities throughout the world;
- for Redwheel Asia Convertibles Fund, to provide a return by investing primarily in a diversified portfolio of convertible securities throughout Asia;
- for Redwheel Nissay Japan Focus Fund, to provide superior long-term capital growth by investing primarily in equity securities issued by Japanese companies;
- for Redwheel Global Emerging Markets Fund, to provide long term capital appreciation by investing primarily in global emerging markets and, to a limited extent, frontier markets;
- for Redwheel Next Generation Emerging Markets Equity Fund, to provide long term capital appreciation by investing primarily in smaller emerging markets and frontier equity markets on a global basis;
- for Redwheel China Equity Fund, to provide long term capital appreciation by investing primarily in Chinese equity securities;
- for Redwheel Global Equity Income Fund, to provide a combination of income and long term capital growth by investing primarily in a portfolio of global companies;
- for Redwheel Responsible Global Income Fund, to provide a combination of income and long-term capital growth by investing primarily in a portfolio of global companies;
- for Redwheel Sustainable Emerging Markets Fund, to provide long term capital appreciation by investing primarily in equities in global emerging markets and, to a limited extent, frontier markets, in companies that act to support the United Nations Sustainable Development Goals ("SDGs");
- for Redwheel Clean Economy Fund to provide long-term capital growth, by investing primarily in a portfolio of global companies acting to support SDGs, in particular environmental themes;
- for Redwheel Biodiversity Fund to provide long-term capital growth by investing primarily in a portfolio of global companies acting to support SDGs, in particular biodiversity by reducing or limiting negative impact of human's activities on biodiversity;

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
31 December 2023

GENERAL (CONTINUED)

- for Redwheel Life Changing Treatments Fund to provide both long-term capital growth, by investing primarily in a portfolio of global companies, and a Sustainable Investment objective to support SDGs by investing in companies that contribute to targets defined by one or more SDGs with a focus on good health and well-being.

The full detail of the Investment objective and policy can be found in the prospectus of the SICAV.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Combined financial statements

The various positions of the combined financial statements of the SICAV are equal to the sum of the various corresponding positions in the financial statements of each Sub-Fund and are expressed in euros (EUR). Bank accounts, other net assets/liabilities as well as the value of the portfolio securities, income and fees that are expressed in currencies other than EUR were converted to EUR at the following exchange rates as at 31 December 2023:

Redwheel Asia Convertibles Fund	1 USD - 0.9030569 EUR
Redwheel Nissay Japan Focus Fund	1 JPY - 0.0063931 EUR
Redwheel Global Emerging Markets Fund	1 USD - 0.9052641 EUR
Redwheel Next Generation Emerging Markets Equity Fund	1 USD - 0.9052641 EUR
Redwheel China Equity Fund	1 USD - 0.9030569 EUR
Redwheel Global Equity Income Fund	1 USD - 0.9052641 EUR
Redwheel Responsible Global Income Fund	1 USD - 0.9052641 EUR
Redwheel Sustainable Emerging Markets Fund	1 USD - 0.9052641 EUR
Redwheel Clean Economy Fund	1 USD - 0.9052641 EUR
Redwheel Biodiversity Fund	1 USD - 0.9052641 EUR
Redwheel Life Changing Treatments Fund	1 USD - 0.9052641 EUR

The Sub-Funds may enter into cross-investments with other Sub-Funds within the SICAV. As at 31 December 2023, Redwheel Global Convertibles Fund held investments in Redwheel Asia Convertibles Fund, Class C – EUR totaling EUR 18,113,142.34, which equated to 4.68% of Redwheel Global Convertibles Fund's net assets. As at 31 December 2023, Redwheel Global Emerging Markets Fund held

investments in Redwheel China Equity Fund, Class ZF - USD totaling USD 18,615,380.00, which equated to 1.27% of Redwheel Global Emerging Markets Fund's net assets. As at 31 December 2023, the total of cross-Sub-Funds' investments amounts to EUR 34,964,978.07 and therefore total combined NAV as at 31 December 2023 without cross-investments would amount to EUR 2,825,279,261.39.

b) Valuation of investments in securities

The value of assets, which are listed or dealt in on any stock exchange, is based on the last available price on the stock exchange, which is normally the principal market for such assets.

The value of assets dealt in on any other Regulated Market is based on the last available price.

In the event that any assets are not listed or dealt in on any stock exchange or on any other Regulated Market, or if, with respect to assets listed or dealt in on any stock exchange, or other Regulated Market as aforesaid, the price as determined pursuant to paragraph mentioned above is not representative of the fair market value of the relevant assets, the value of such assets will be based on the reasonably foreseeable sales price determined prudently and in good faith.

The transferable debt securities are valued using the amortised cost method. This method involves valuing a security as its cost and thereafter assuming its amortisation to maturity of any discount or premium.

c) Net realised gain or loss on the sales of investments

Realised gains or losses on sales of investments are calculated on the basis of average cost of investments sold.

d) Dividend income from investments

Dividend income from investments includes dividends on equity securities net of any withholding taxes incurred during the reporting period.

e) Interest income from investments

Interest income from investments includes interest on bonds and accretion of market discount/ amortisation of premiums recorded into income over the life of the underlying investment.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
31 December 2023

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

f) *Cost of investments in securities*

The cost of investments in securities in currencies other than the currency of the Sub-Fund is converted to the currency of the Sub-Fund at the exchange rate prevailing on the purchase date. The combined cost of investments in securities for the SICAV is equal to the sum of the cost of investments in securities of each Sub-Fund converted to EUR at the exchange rate prevailing on 31 December 2023.

g) *Valuation of forward foreign exchange contracts and currency swaps*

Unmatured forward foreign exchange contracts and currency swaps are valued by reference to the forward exchange rate prevailing on the remaining life of the contract. Interest attributable to swaps, if any, is disclosed under "Administrative, depositary and other expenses" in the Statement of Operations and Changes in Net Assets. The resulting unrealised profit or loss is recorded in the Statement of Operations and Changes in Net Assets.

h) *Valuation futures and listed options contracts*

Futures contracts and listed options are valued based on their closing price the previous day on the market concerned. The resulting unrealised profit or loss is booked in the Statement of Operations and Changes in Net Assets.

i) *Formation expenses*

The SICAV's formation expenses and the expenses relating to the creation of new Sub-Funds may be capitalised and amortised over a period not exceeding five years, as permitted by Luxembourg law and in accordance with Luxembourg generally accepted accounting principles.

j) *Valuation of contracts for difference*

Contracts for difference are valued based on the closing market price of the underlying security. Upon entering into contracts for difference, the SICAV may be required to pledge to the broker an amount of cash and/or other assets equal to a certain percentage of the contract amount ("initial margin").

Subsequently, payments known as "variation margin" are made or received by the SICAV periodically, depending on fluctuations in the value of the underlying security. During the period the

contracts are open, changes in the value of contracts are recognised as unrealised gains and losses on swap contracts by marking to market at each valuation point in order to reflect the value of the underlying security. The difference between the value of the underlying at the time it was opened and the value at the time it was closed is disclosed under "Net realised result on swaps" in the Statement of Operations and Changes in Net Assets. The open contracts for difference are listed in the Notes to the Financial Statements.

Dividends receivable attributable to open contracts for difference are recorded under "Dividend receivable on swaps contracts" in the Statement of Net Assets. Dividends payable attributable to open contracts for difference are recorded under "Dividend payable on swaps contracts" in the Statement of Net Assets. Dividend income and expenses are disclosed under "Other income" and "Administrative, depositary and other expenses", respectively, in the Statement of Operations and Changes in Net Assets. The unrealised appreciation/(depreciation) is recorded under "Unrealised gain on swaps contracts" or "Unrealised loss on swaps contracts", respectively, in the Statement of Net Assets. The movement in such amounts is recorded under "Change in net unrealised appreciation/(depreciation) on swaps" in the Statement of Operations and Changes in Net Assets at the end of the period.

The contracts are subject to a daily financing charge and income, usually applied at a previously agreed rate, which is disclosed within the "Net realised result on swaps" in the Statement of Operations and Changes in Net Assets.

k) *Valuation of credit index swaps and commodity index swap contracts*

Credit index swaps and commodity index swap contracts are marked to market at each NAV calculation date. The estimated market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models. Interest attributable to swaps, if any, is disclosed under "Administrative, depositary and other expenses" in the Statement of Operations and Changes in Net Assets. The unrealised gain/(loss) is disclosed in the Statement of Net Assets under "Swaps at market value". Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised result on swaps" and "Change in net unrealised appreciation/(depreciation) on swaps".

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
31 December 2023

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

l) Valuation of OTC options

The Board of Directors decided to determine the value of OTC options primarily on the basis of market prices supplied to the SICAV by Markit, a financial service provider qualifying as an appropriate third party, independent of the relevant counterparty to the OTC options, which proceeds with a daily verification and pursuant to methods allowing the SICAV to check it.

m) Swing pricing

A Sub-Fund may suffer dilution of the net asset value per share due to investors buying or selling shares in a Sub-Fund at a price that does not reflect the dealing and other costs, such as but not limited to bid/offer spreads, execution commission and stamp duty, that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows.

In order to counter this impact, a swing pricing mechanism may be adopted to protect the interests of shareholders of each Sub-Fund. If on any Valuation Day, the aggregate net transactions in shares of a Sub-Fund exceed a pre-determined threshold, as determined and reviewed for each Sub-Fund on a periodic basis by the Board of Directors, the net asset value per share may be adjusted upwards or downwards to reflect net inflows and net outflows, respectively. The net inflows and net outflows will be determined by the Board of Directors based on the latest available information at the time of calculation of the net asset value per share. The swing pricing mechanism may be applied across all Sub-Funds. The extent of the price adjustment will be set by the Board of Directors to reflect dealing and other costs. Such adjustment may vary from Sub-Fund to Sub-Fund and will not exceed 2% of the original net asset value per share. The swing pricing mechanism is applied on the capital activity at the level of the Sub-Fund and does not address the specific circumstances of each individual investor transaction. The adjustment will be an addition when the net movement results in an increase of all Shares of the Sub-Fund and a deduction when it results in a decrease of all Shares of the Sub-Fund. With respect to certain Classes, the Investment Manager may be entitled to a Performance Fee, where applicable, this will be based on the unswung NAV.

The net asset value per share as disclosed in the statistical information is the published net asset

value per share, whereas the total net assets disclosed in the Statement of Net Assets is the total net asset value excluding any year end swing adjustments.

During the year ended 31 December 2023, Redwheel Global Convertibles Fund, Redwheel Nissay Japan Focus Fund, Redwheel Global Emerging Markets Fund, Redwheel Next Generation Emerging Markets Equity Fund, Redwheel China Equity Fund, Redwheel Global Equity Income Fund, Redwheel Responsible Global Income Fund and Redwheel Sustainable Emerging Markets Fund applied swing pricing adjustments.

As at period end, swing pricing was applied on the net asset value per share of Redwheel Nissay Japan Focus Fund. The swung net asset value of this Sub-Fund is JPY 21,662,122,256.29 and the unswung NAV is 21,705,533,322.95.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
31 December 2023

**FEES ON THE ISSUE, REDEMPTION AND
CONVERSION OF THE SICAV'S SHARES**

For each Sub-Fund, the minimum initial subscription for:

- Class A and R in any Sub-Fund is EUR 1,000 or currency equivalent;
- Class B, JA and JR in any Sub-Fund is EUR 1,000,000 or currency equivalent;
- Class C and LB in any Sub-Fund is EUR 10,000,000 or currency equivalent;
- Class F in any Sub-Fund is EUR 10,000 or currency equivalent;
- Class I is determined in the discretion of the Investment Manager upon consultation with the Board of Directors;
- Class L, LA, ZF and ZM in any Sub-Fund is EUR 25,000 or currency equivalent;
- Class S in any Sub-Fund is EUR 100,000,000 or currency equivalent.

Further to the prospectus dated August 2023, the minimum initial subscription for:

- Redwheel Global Convertibles Fund for Class S Shares is brought to EUR 200,000,000 or currency equivalent;
- Redwheel Nissay Japan Focus Fund for Class A and R Shares is brought to EUR 1,000, GBP 1,000, USD 1,000, CHF 1,000 or JPY 150,000 and for Class B shares to EUR 10,000,000, GBP 10,000,000, USD 10,000,000, CHF 10,000,000 or JPY 1.5 billion;
- Redwheel Global Equity Income Fund for Class I Shares is brought to USD 250,000,000 or currency equivalent;
- Redwheel Responsible Global Income Fund for Class I Shares is brought to USD 250,000,000 or currency equivalent;
- Redwheel Sustainable Emerging Markets Fund for Class I Shares is brought to EUR 250,000,000 or currency equivalent;
- Redwheel Clean Economy Fund for Class I Shares is brought to EUR 250,000,000 or currency equivalent;
- Redwheel Biodiversity Fund for Class I Shares is brought to EUR 250,000,000 or currency equivalent;
- Redwheel Life Changing Treatments Fund for Class I Shares is brought to EUR 250,000,000 or currency equivalent.

The minimum subsequent investment for Class A Shares and Class R Shares in any Sub-Fund is EUR 1,000 or currency equivalent. The minimum subsequent investment for Class B Shares, Class L Shares, Class LA Shares, Class LB Shares, Class LR Shares, Class S Shares, Class ZF Shares and Class ZM Shares in any Sub-Fund is EUR 5,000, USD 5,000, GBP 5,000, CHF 5,000 or JPY 750,000. The minimum subsequent investment for Class C Shares,

Class F Shares, Class JA Shares and Class JR Shares in any Sub-Fund is EUR 10,000 or currency equivalent. The minimum subsequent investment for Class I Shares is determined in the discretion of the Investment Manager upon consultation with the Board of Directors.

An initial charge of up to 5.00% of the net asset value may be charged on subscriptions in favour of intermediaries active in the placement of the Shares. An initial charge, if applicable, will be deducted from the purchase monies paid by shareholders and may be paid to or retained by intermediaries or distributors.

Any shareholder may present to the Administration Agent his shares for redemption in part or whole on any Valuation Day.

No redemption fees or charges are charged by the SICAV and no redemption commission is charged by the Investment Manager.

If as a result of a redemption, conversion or transfer, a Shareholder is owner of a small balance of Shares, which is considered as a value not above EUR 20 (or the equivalent amount in another currency), the Board of Directors or Administration Agent on behalf of the Board of Directors may decide at its sole discretion to redeem such position and repay the proceeds to the Shareholder.

The shareholders have the right to convert all or a part of their Shares of one Class in any Sub-Fund into Shares of another Class of the same Sub-Fund or of another existing Sub-Fund by applying for conversion in the same manner as for the redemption of Shares.

A Sub-Fund may be closed to new subscriptions or conversions in (but not to redemptions or conversions out) if, in the opinion of the Board of Directors, this is necessary to protect the interests of existing shareholders. One such circumstance would be where the Sub-Fund has reached a size such that the capacity of the market and/or the capacity of the Investment Manager has been reached, and where to permit further inflows would be detrimental to the performance of the Sub-Fund. The Board of Directors may however decide to accept subsequent subscriptions from existing shareholders if, in the Board of Directors' opinion, this is in the interest of existing shareholders of the relevant Sub-Fund or of the Fund.

Any Sub-Fund which, in the opinion of the Board of Directors, is materially capacity constrained may be closed to new subscription or conversion, as described in the paragraph above, without notice to shareholders. Once closed to new subscriptions or conversion in, a Sub-Fund will not be re-opened until, in the opinion of the Board of Directors, the circumstances which required closure no

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
31 December 2023

**FEES ON THE ISSUE, REDEMPTION AND
CONVERSION OF THE SICAV'S SHARES
(CONTINUED)**

longer prevail and significant capacity is available with the Sub-Fund for new investment.

Where closures to new subscriptions or conversion occur, the website www.redwheel.com will be amended to indicate the change in status of the applicable Sub-Fund.

The Directors of the SICAV are responsible for its management and supervision including the determination of investment policies.

**MANAGEMENT AND ADMINISTRATIVE
FEES**

The Board of Directors has appointed Waystone Management Company (Lux) S.A. as Management Company to perform investment management, administration and marketing functions for the SICAV.

The Board of Directors has appointed RWC Asset Management LLP to act as investment manager assuring the day-to-day management for the Sub-Funds. RWC Partners Limited is the managing member of RWC Asset Management LLP.

The Investment Manager may at its own expense appoint other entities of Redwheel Group to receive advice or co-manage the assets of the Sub-Funds.

The following reflect management, administrative and operational fees as a percentage of the average total net assets of the Classes of shares as provided in the Appendix of the prospectus. Rates provided represent the maximum possible fee per Sub-Fund, the actual rates applied for the year ended 31 December 2023 may be lower than rates presented below:

Redwheel Global Convertibles Fund

Classes of shares	Management fees	Administrative and operational fees
Class A - EUR	1.50%	0.35%
Class A - USD (HDG)	1.50%	0.35%
Class A - GBP (HDG)	1.50%	0.35%
Class A - CHF (HDG)	1.50%	0.35%
Class B - EUR	0.80%	0.25%

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
31 December 2023

DIRECTORS' FEES

Richard Goddard receives as Chairman of the Board an annual fee of EUR 35,000. The other two Independent Directors receive an annual fee each of EUR 25,000, with Sandrine Reynaud paid pro-rata from the date of her appointment. These fees are fixed and there is no variable element. The Directors who are employees of or otherwise affiliated with RWC Asset Management LLP do not receive remuneration from the Fund in respect of their roles as Directors of the Fund.

PERFORMANCE FEE

The performance fee is calculated based on the performance of each relevant Share Class of certain Sub-Funds over the relevant Crystallisation Period. The performance fee is calculated and accrued daily in the net asset value of each relevant Share Class and is payable to the Investment Manager at the end of the Crystallisation Period.

a) Methodology A (High-Water Mark Model)

The performance fee for each Sub-Fund may be calculated with reference to a High-Water Mark. The High-Water Mark is the point after which a performance fee becomes payable. The High-Water Mark will be the higher of (i) the net asset value at launch of the Share Class and (ii) the net asset value at which the last performance fee has been paid.

The performance fee for each Class of these Sub-Funds will be calculated as follows:

- (i) On each Valuation Day, the net asset value before the daily performance fee accrual of each Class is compared to the net asset value from the previous day.
- (ii) If the difference between the net asset value of a specific Share Class between one Valuation Day and the next is positive and the net asset value of this Share Class is above the applicable High-Water Mark, it is applied to the portion of assets attributable to that Class and then multiplied by the percentage rate at which the performance fee is charged (the "Performance Fee Rate") and added to the performance fee accrued since the start of the Crystallisation Period. If the difference between the net asset value of a specific Share Class between one Valuation Day and the next is negative, it is applied to the portion of assets attributable to that Class and then multiplied by the percentage rate at which the performance fee is charged and subtracted from the performance fee accrued since the start of the Crystallisation Period.

- (iii) The performance fee accrual will never fall below zero. If at any time during a given Crystallisation Period the performance fee accrual has been reduced to zero, there will be no further accrual until the net asset value per Share has increased above the High-Water Mark.
- (iv) A High-Water Mark will be used to ensure that, following one or more Crystallisation Periods of depreciation, the Investment Manager does not receive a performance fee until the net asset value per Share is above the High-Water Mark at the end of the Crystallisation Period.
- (v) Appropriate adjustments are made for redemptions, dividends and currency conversions.

The performance fee is crystallised, where applicable, from each Class as of the last Valuation Day of the Crystallisation Period or on the date of the liquidation of a Sub-Fund where a performance fee applies and is paid to the Investment Manager. For a merger, on the last date of a merger of a Sub-Fund, if a performance fee applies and if practical and in the best interests of shareholders in both the merging and receiving Sub-Funds, the Investment Manager will transfer the uncrystallised fee to the absorbing Sub-Fund; otherwise if not practical and subject to authorisation, any performance fee applying shall be paid on the date of the merger.

Should redemptions occur on a Valuation Day where the performance fee accrual is positive, the performance fee accrual pro-rata of the Shares being redeemed will be crystallised and will be payable to the Investment Manager at the end of the Crystallisation Period.

Should redemptions occur on a Valuation Day where the performance fee accrual is negative, the performance fee accrual pro-rata of the shares being redeemed will be adjusted, in that the negative accrual will be proportionally reduced in line with the shares being redeemed.

The Investment Manager does not implement a limited Reference Period for the calculation of the performance fees. For clarity, the Reference Period is not shorter than the life of the applicable Sub-Fund.

b) Methodology B (Benchmark Model)

The performance fee for each Class of these Sub-Funds will be calculated as follows:

- (i) On each Valuation Day, the change in net asset value before the daily performance fee accrual of each Class is compared to the change in the relevant benchmark.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
31 December 2023

PERFORMANCE FEE (CONTINUED)

- (ii) If the change in the net asset value of a specific Share Class is above the change in the relevant benchmark between one Valuation Day and the next the Excess Performance is applied to the portion of assets attributable to that Class and then multiplied by the percentage rate at which the performance fee is charged (the "Performance Fee Rate") and added to the performance fee accrued since the start of the Crystallisation Period. If the change in net asset value of a specific Share Class is lower than the change in benchmark between one Valuation Day and the next, it is applied to the portion of assets attributable to that Class and then multiplied by the percentage rate at which the performance fee is charged and subtracted from the performance fee accrued since the start of the Crystallisation Period.
- (iii) The performance fee accrual will never fall below zero. If at any time during a given Crystallisation Period the performance fee accrual has been reduced to zero, there will be no further accrual until the cumulative excess return over the benchmark since the last performance fee payment has become positive. For the avoidance of doubt, a performance fee will only be payable at the end of a Crystallisation Period after any underperformance previously incurred has been recovered.
- (iv) Appropriate adjustments are made for redemptions, dividends and currency conversions.

The performance fee is crystallised, where applicable, from each Class of these Sub-Funds on the last Valuation Day of the Crystallisation Period or on the date of the liquidation of a Sub-Fund where a performance fee applies. For a merger, on the last date of a merger of a Sub-Fund, if a Performance Fee applies and if practical and in the best interests of shareholders in both the merging and receiving Sub-Funds, the Investment Manager will transfer the uncrystallised fee to the absorbing Sub-Fund; otherwise if not practical and subject to authorisation, any performance fee applying shall be paid on the date of the merger.

Should redemptions occur on a Valuation Day where the performance fee accrual is positive, the performance fee accrual pro-rata of the shares being redeemed will be crystallised and will be payable to the Investment Manager at the end of the Crystallisation Period.

Should redemptions occur on a Valuation Day where the performance fee accrual is negative, the performance fee accrual pro-rata of the shares being redeemed will be adjusted, in that the negative accrual will be proportionally reduced in line with the shares being redeemed.

The Fund and the Management Company draw the investors' attention to the fact that, in case the relevant benchmark and the Sub-Fund performance fall, a performance fee will be charged based on the aforementioned methodology to the extent the Sub-Fund outperforms the benchmark.

The Investment Manager does not implement a limited Reference Period for the calculation of the performance fees. For clarity, the Reference Period is not shorter than the life of the applicable Sub-Fund.

No performance fee is applicable for Redwheel Global Convertibles Fund, Redwheel Global Emerging Markets Fund, Redwheel Next Generation Emerging Markets Equity Fund, Redwheel China Equity Fund, Redwheel Global Equity Income Fund, Redwheel Responsible Global Income Fund, Redwheel Sustainable Emerging Markets Fund, Redwheel Clean Economy Fund, Redwheel Biodiversity Fund and Redwheel Life Changing Treatments Fund.

A performance fee is applicable to the below Sub-Funds at the following performance fee rates. Unless otherwise noted the below performance fee rates apply to Class A, B and R Shares:

Sub-Funds	Performance fee rate	Benchmark	Applicable method
Redwheel Asia Convertibles Fund (Class P Shares)	15%	Refinitiv Asia ex Japan Convertible USD Hedged	Benchmark Model
Redwheel Nissay Japan Focus Fund	15%	TOPIX Total Return Index	Benchmark Model

During the year ended 31 December 2023 no performance fees were charged to these Sub-Funds.

DEPOSITARY FEE

Brown Brothers Harriman (Luxembourg) S.C.A. has been appointed depositary bank for the SICAV. In remuneration of its services, Brown Brothers Harriman (Luxembourg) S.C.A is entitled to receive a fee paid monthly and based on the net assets of the SICAV.

ANNUAL TAX

Under current law and practice, the SICAV is not liable to any Luxembourg income tax, nor are dividends paid by the SICAV liable to any Luxembourg withholding tax. The SICAV is not subject to net wealth tax in Luxembourg.

However, each Class of shares is liable in Luxembourg to a "taxe d'abonnement" of 0.05% per annum of its net assets, such tax being payable quarterly and calculated on the total net asset value of each Class at the end of the relevant quarter.

However, in respect of any Class of shares which comprises only institutional investors (within the meaning of article 129 of the amended 2002 Law), the tax levied will be at the rate of 0.01% per annum, such tax being payable quarterly and calculated on the total net asset value of each Class at the end of the relevant quarter.

*The Sub-Fund launched on 2 March 2023.

TRANSACTION FEE

The total amount of transaction fees included in the Statement of Operations and Changes in Net Assets of each Sub-Fund consist of depositary and sub-custodian fees connected with transactions and brokerage fees, if any.

CHANGES IN THE INVESTMENT PORTFOLIO FOR THE YEAR ENDED 31 DECEMBER 2023

A copy of the changes in the investment portfolio for the year from 1 January 2023 to 31 December 2023 is available free of charge at the registered office of the SICAV.

SIGNIFICANT EVENTS DURING THE YEAR

A new prospectus was issued on 11 January 2023. As reflected in the new prospectus, with effect from 16 January 2023 Redwheel Sustainable Convertibles Fund changed its name to Redwheel Responsible Convertibles Fund. The new prospectus also included updates to the SFDR disclosure and a change of pricing for global funds.

Redwheel Responsible Global Equity Income Fund launched on 2 March 2023.

Sandrine Reynaud was appointed to the Board of Directors with effect from 14 April 2023.

A new prospectus was issued on 10 August 2023. As reflected in the new prospectus, four Sub-Funds were opened, the minimum initial subscription, minimum holding and minimum subsequent investment was changed for Class B and IR. The new prospectus also included updates to the management fee, SFDR disclosure and a change of pricing for global funds.

Redwheel Sustainable Emerging Markets Fund launched on 26 September 2023.

Redwheel Biodiversity Fund launched on 10 October 2023.

Redwheel Life Changing Treatments Fund launched on 31 October 2023.

Redwheel Clean Economy Fund launched on 14 November 2023.

Geopolitical and other events (e.g., wars, terrorism, natural disasters, epidemics or pandemics) may disrupt securities markets and adversely affect global economies and markets, thereby decreasing the value of each Sub-Fund's investments. Market disruptions can also prevent the Sub-Funds from implementing their investment strategies and achieving their investment objective.

The SICAV has direct exposure to securities of companies domiciled in Russia through the investments held by Sub-Fund Redwheel Global Emerging Markets Fund. Following the start of the conflict in Ukraine the Sub-Fund reduced its exposure to Russia by selling a substantial portion of its Russian holdings. As of 31 December 2023 the remaining Russian holdings of the Sub-Fund continue to be fair valued to nil.

There were no other significant events during the year requiring adjustments of disclosure to the annual report.

SUBSEQUENT EVENTS

A new prospectus was issued on 22 February 2024. As reflected in the new prospectus, two Sub-Funds were opened. The new prospectus also included updates to the Board of Directors of the Management Company, taxation, management fees, administrative and operational fees.

There were no other significant events occurring after 31 December 2023, which would require revision of the figures or disclosure in the annual report.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
31 December 2023

FORWARD FOREIGN EXCHANGE CONTRACTS ON CURRENCIES

Shares are denominated in Euro (EUR), US Dollar (USD), British Pound (GBP), Swiss Franc (CHF), Japanese Yen (JPY) and Australian Dollars (AUD) may be issued and redeemed in these currencies. The assets of each Sub-Fund may, however, be invested in securities or other investments, which are denominated in currencies other than the currency in which a Class of shares is denominated. Consequently, each Sub-Fund is exposed to risks that the exchange rate of its currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Sub-Fund's assets or liabilities denominated in currencies other than the base currency. For example, an investor who acquires GBP shares will be subject to foreign exchange risk in respect of those assets of the Sub-Fund which are denominated in any currency other than GBP. For hedge or look through hedge Share Classes the assets of the non-base currency Classes are hedged against the base currency and foreign exchange transactions with respect to the non-base currency. Shares may be undertaken with a view to protecting the value of those Classes against the base currency. The foreign currency exposure of the Classes is substantially hedged through the use of forward contracts. The profits and losses from these transactions are allocated solely among the shares of the respective Classes to which they relate.

However, the following Sub-Funds will not hedge Share Classes denominated in another currency than the currency of the Sub-Fund:

- Redwheel Global Emerging Markets Fund
- Redwheel Next Generation Emerging Markets Equity Fund
- Redwheel China Equity Fund
- Redwheel Global Equity Income Fund
- Redwheel Responsible Global Income Fund
- Redwheel Sustainable Emerging Markets Fund
- Redwheel Clean Economy Fund
- Redwheel Biodiversity Fund
- Redwheel Life Changing Treatments Fund

REMUNERATION (UNAUDITED)

Waystone Management Company (Lux) S.A. (Henceforth, "Waystone", "WMC Lux", or the "Company") has adopted a remuneration policy in accordance with the applicable regulatory framework, particularly:

- The ESMA Guidelines on sound remuneration policies under the UCITS Directive of 14 October 2016 (ESMA/2016/575) and the ESMA Guidelines on sound remuneration policies under the AIFMD (ESMA/2013/232, as amended by ESMA/2016/579),
- The Law of 17 December 2010 relating to undertakings for collective investment,
- The Law of 12 July 2013 on alternative investment fund managers, and
- The CSSF Circular 18/698 of 23 August 2018 on the Authorization and organization of investment fund managers incorporated under Luxembourg law.

Through its remuneration policy, and as prescribed by the Sustainable Finance Disclosure Regulation [Regulation (EU) 2019/2088 of 27 November 2019 or the "SFDR"], the Company ensures that the structure of its remuneration does not encourage excessive risk taking with respect to sustainability risks when performing its activities as AIFM/Management Company, while it promotes sound and effective risk management with respect to sustainability risks.

Details of Waystone's remuneration policy, including the persons in charge of determining the fixed and variable remunerations of staff, a description of the key remuneration elements, and an overview of how remuneration is determined, is available under <https://www.waystone.com/waystone-policies/>.

With respect to the financial year ended 31 December 2023 (when, as of that date, WMC Lux had a headcount of 83 employees), the total fixed and variable remuneration paid by the Company to its employees amounted to EUR 8,084,973 and EUR 714,783 respectively.

The total remuneration paid by the Company to senior management and members of its identified staff whose actions have a material impact on the risk profile of the collective investment schemes managed amounted to EUR 3,872,522.

The Company's remuneration committee has reviewed the implementation of the remuneration policy and has not identified any deficiency in that respect. Moreover, the current version of the remuneration policy was updated and approved by the Board of directors in the financial year ended 31 December 2023, being the current version dated of November 2023.

The remuneration policy was reviewed and approved by the Board of Directors of the Company on 29 November 2023.

INFORMATION TO SWISS SHAREHOLDERS (UNAUDITED)

The representative in Switzerland is FIRST INDEPENDENT FUND SERVICES LTD, Feldeggstrasse 12, CH-8008 Zurich. The paying agent in Switzerland is Helvetische Bank AG, Seefeldstrasse 215, CH-8008 Zurich. The prospectus, the key information documents, the articles of association, the list of purchases and sales, as well as the annual and the semi-annual reports may be obtained free of charge from the representative in Switzerland. In respect of the units offered in Switzerland, the place of performance is at the registered office of the representative in Switzerland. The place of jurisdiction is at the registered office of the representative in Switzerland or at the registered office or place of residence of the investor.

The Total Expense Ratio (TER) as at 31 December 2023 for each Sub-Fund is calculated in accordance with the recommendations of the AMAS, approved by the FINMA.

The Asset Management Association Switzerland AMAS was created in 2020 following the merger between SFAMA (Swiss Funds & Asset Management Association) and AMP (Asset Management Platform).

TER (TOTAL EXPENSE RATIO)

The Total Expense Ratio (TER) represents the ratio of the total expenses, except transactions fees, annually supported by the SICAV for each Sub-Fund.

The TER should be calculated as follow:

TER = Total charges of the Sub-Fund/Average net asset value of the Sub-Fund x 100.

The calculation as per AMAS is as below:

$$\text{TER\%} = \frac{\text{Total operating expense expenses in CU*}}{\text{Average Net Asset in CU*}}$$

*CU = currency units in the accounting currency of the collective investment scheme.

Each Sub-Fund's TER is detailed in this Annual Report, please refer to the section Unaudited TER (Total Expense Ratio).

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Redwheel Global Convertibles Fund

Legal entity identifier: 5493003YYKPBTEUJNT64

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promotes environmental and social characteristics related to (i) the reduction and mitigation of greenhouse gas emissions and (ii) social and employee matters.

These environmental and social characteristics were promoted by means of:

Negative Exclusions

The Investment Manager applied specific hard exclusions on companies that derive income from products and business practices considered to be harmful to the environment or society. The Sub-Fund did not invest in any companies that were in breach with these exclusion criteria during the reference period.

Principal Adverse Impact (“PAI”)

The Investment Manager considered the negative externalities of investments on sustainability factors as an integrated part of the investment process.

Positive Tilt

The Sub-Fund maintained a lower greenhouse gas intensity relative to the reference benchmark.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● How did the sustainability indicators perform?

The Investment Manager uses the following sustainability indicators to measure the attainment of the characteristics promoted by the Sub-Fund. The Investment Manager measured the Sub-Fund against the below indicators on a quarterly basis over the reference period. The performance of the indicators is provided below, calculated as an average of the quarterly snapshots during the reference period.

PAI Indicator	Metric	Unit of Measure	Fund Value	Coverage (%)
GHG Intensity of investee companies (Table 1 PAI 3)	GHG intensity of investee companies	metric tonnes of carbon dioxide equivalents per million euro invested (tCO ₂ eq/EURm)	257.08	92.69%
Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4)	Share of investments in investee companies without carbon emissions reduction initiatives aimed at aligning with the Paris Agreement	% of NAV involved	42.91	92.76%
Lack of a human rights policy (Table 3 PAI 9)	Share of investments in entities without a human rights policy	% of NAV involved	17.13	90.17%

Coverage (%): the proportion of the net assets where data is available to present the indicator

Source: Sustainalytics

● ...and compared to previous periods?

Not applicable. 2023 was the first reference year the sustainability indicators were formally recorded for the Sub-Fund.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable. The Sub-Fund did not commit to make sustainable investments.

Principal adverse impacts

are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered the principal adverse impacts of its investment decisions on sustainability factors, in particular those relating to the environmental and social characteristics promoted by the Sub-Fund. Please see below for the focus PAI indicators and detail on how these indicators were considered by the Investment Manager.

- GHG intensity of investee companies (Table 1 PAI 3)
- Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4):
- Lack of human rights policy (Table 3 PAI 9):

Prior to making an investment, the Investment Manager conducted investment due diligence to evaluate a variety of factors, including relevant sustainability factors. The evaluation includes a quantitative assessment of the impact of the investment on sustainability factors through reference to the indicators identified above. Following the assessment of an investment against the indicators, the Investment Manager decides what action to take with a view to limiting or reducing the identified adverse impact.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 01/01/23 – 31/12/23

Largest investments	Sector	% Assets	Country
Redwheel Funds SICAV - Redwheel Asia Convertibles Fund C Accumulation	Unassigned	4.31	Unassigned

Weights are given as an average over the period 01/01/2023 – 31/12/2023.

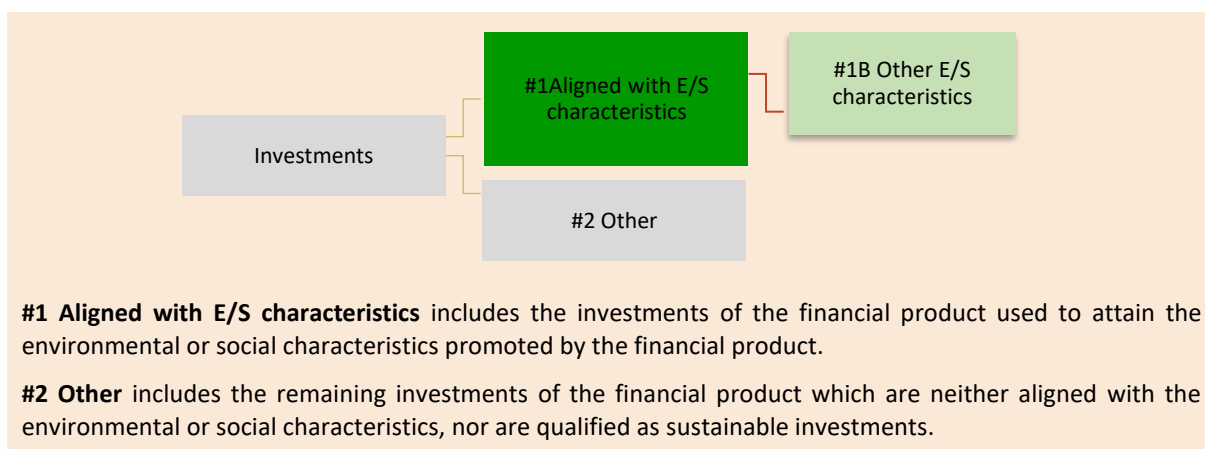

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The Sub-Fund invested on average 99.55% of its net assets in investments used to attain the environmental and/or social characteristics promoted by the financial product.

The remaining investments were used to achieve the broader objectives of the Sub-Fund.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

The Sub-Fund made investments in the following economic sectors: Communication Services, Consumer Discretionary, Consumer Staples, Energy, Financials, Health Care, Industrials, Information Technology, Materials, Real Estate and Utilities.

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable.

● ***Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?***

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Sub-Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Sub-Fund has not committed to make sustainable investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments included the remaining investments of the financial product which were not used to attain the environmental or social characteristics. These investments during the period consisted of cash and cash equivalents. Minimum safeguards were not applied.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The following actions were taken during the reference period:

Security Selection

The Investment Manager integrated sustainability analysis into security selection, with analysis of key environmental and social characteristics conducted prior to investment and on an ongoing basis.

Stewardship

The Investment Manager undertook stewardship activities during the reference period to understand, monitor and advise on relevant sustainability issues, including company meetings. The team interacted with issuers where possible, both in relation to financial and sustainability performance.

Positive Tilt

The Sub-Fund maintained a greenhouse gas intensity of investee companies lower than the reference benchmark across the reference period. The weighted average greenhouse gas intensity of the Sub-Fund was on average 36.4% lower than the reference benchmark over the period.

Negative Exclusions

The exclusion criteria were applied on existing and potential securities and no securities in breach were held during the reference period.

How did this financial product perform compared to the reference benchmark?

Not applicable. The Sub-Fund does not utilise a reference benchmark for the purpose of attaining the environmental or social characteristics promoted.

● *How does the reference benchmark differ from a broad market index?*

Not applicable.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Not applicable.

● *How did this financial product perform compared with the reference benchmark?*

Not applicable.

● *How did this financial product perform compared with the broad market index?*

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Redwheel Asia Convertibles Fund

Legal entity identifier: 5493003UXXXM4ACNY514

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promotes environmental and social characteristics related to (i) the reduction and mitigation of greenhouse gas emissions and (ii) social and employee matters.

These environmental and social characteristics were promoted by means of:

Negative Exclusions

The Investment Manager applied specific hard exclusions on companies that derive income from products and business practices considered to be harmful to the environment or society.

Principal Adverse Impact (“PAI”)

The Investment Manager considered the negative externalities of investments on sustainability factors as an integrated part of the investment process.

Positive Tilt

The Sub-Fund maintained a lower greenhouse gas intensity relative to the reference benchmark.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● *How did the sustainability indicators perform?*

The Investment Manager uses the following sustainability indicators to measure the attainment of the characteristics promoted by the Sub-Fund. The Investment Manager measured the Sub-Fund against the below indicators on a quarterly basis over the reference period. The performance of the indicators is provided below, calculated as an average of the quarterly snapshots during the reference period.

PAI Indicator	Metric	Unit of Measure	Fund Value	Coverage (%)
GHG Intensity of investee companies (Table 1 PAI 3)	GHG intensity of investee companies	metric tonnes of carbon dioxide equivalents per million euro invested (tCO ₂ eq/EURm)	308.99	98.75%
Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4)	Share of investments in investee companies without carbon emissions reduction initiatives aimed at aligning with the Paris Agreement	% of NAV involved	56.76	98.75%
Lack of a human rights policy (Table 3 PAI 9)	Share of investments in entities without a human rights policy	% of NAV involved	29.40	94.79%

Coverage (%): the proportion of the net assets where data is available to present the indicator

Source: Sustainalytics

● *...and compared to previous periods?*

Not applicable. 2023 was the first reference year the sustainability indicators were formally recorded for the Sub-Fund.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Not applicable. The Sub-Fund did not commit to make sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered the principal adverse impacts of its investment decisions on sustainability factors, in particular those relating to the environmental and social characteristics promoted by the Sub-Fund. Please see below for the focus PAI indicators and detail on how these indicators were considered by the Investment Manager.

- GHG intensity of investee companies (Table 1 PAI 3)
- Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4):
- Lack of human rights policy (Table 3 PAI 9):

Prior to making an investment, the Investment Manager conducted investment due diligence to evaluate a variety of factors, including relevant sustainability factors. The evaluation includes a quantitative assessment of the impact of the investment on sustainability factors through reference to the indicators identified above. Following the assessment of an investment against the indicators, the Investment Manager decides what action to take with a view to limiting or reducing the identified adverse impact.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01/01/23 – 31/12/23

Weights are given as an average over the period 01/01/2023 – 31/12/2023.

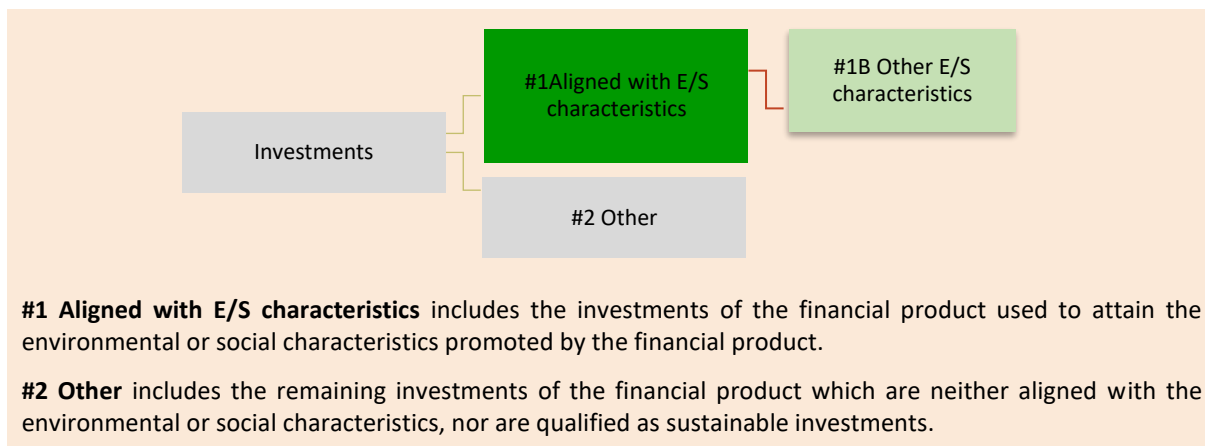

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The Sub-Fund invested on average 98.81% of its net assets in investments used to attain the environmental and/or social characteristics promoted by the financial product.

The remaining investments were used to achieve the broader objectives of the Sub-Fund.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

The Sub-Fund made investments in the following economic sectors: Communication Services, Consumer Discretionary, Consumer Staples, Energy, Financials, Health Care, Industrials, Information Technology, Materials and Real Estate.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● ***Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy²?***

Yes:

In fossil gas In nuclear energy

No

² Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Sub-Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Sub-Fund has not committed to make sustainable investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments included the remaining investments of the financial product which were not used to attain the environmental or social characteristics. These investments during the period consisted of cash and cash equivalents. Minimum safeguards were not applied.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The following actions were taken during the reference period:

Security Selection

The Investment Manager integrated sustainability analysis into security selection, with analysis of key environmental and social characteristics conducted prior to investment and on an ongoing basis.

Positive Tilt

The Sub-Fund maintained a greenhouse gas intensity of investee companies lower than the reference benchmark across the reference period. The weighted average greenhouse gas intensity of the Sub-Fund was on average 46.1% lower than the reference benchmark over the period.

Negative Exclusions

The exclusion criteria were applied on existing and potential securities. One security considered in breach was held during the reference period but was sold immediately once the Investment Manager became aware.

How did this financial product perform compared to the reference benchmark?

Not applicable. The Sub-Fund does not utilise a reference benchmark for the purpose of attaining the environmental or social characteristics promoted.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Redwheel Nissay Japan Focus Fund

Legal entity identifier: 549300TC6C1DQYSKHO65

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ____%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promotes environmental and social characteristics related to (i) the reduction and mitigation of greenhouse gas emissions and (ii) social and employee matters.

These environmental and social characteristics were promoted by means of:

Negative Exclusions

The Investment Manager applied specific hard exclusions on companies that derive income from products and business practices considered to be harmful to the environment or society. The Sub-Fund did not invest in any companies that were in breach with these exclusion criteria during the reference period.

Principal Adverse Impact (“PAI”)

The Investment Manager considered the negative externalities of investments on sustainability factors as an integrated part of the investment process.

Stewardship

The Investment Manager undertook stewardship activities, including company meetings and voting, during the reference period to understand, monitor and advise on relevant sustainability issues.

Further detail and examples are provided below within the actions taken to achieve the environmental and/or social characteristics.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● How did the sustainability indicators perform?

The Investment Manager uses the following sustainability indicators to measure the attainment of the characteristics promoted by the Sub-Fund. The performance of the indicators is provided below, calculated as an average of the quarterly snapshots during the reference period:

PAI Indicator	Metric	Unit of Measure	Fund Value	Coverage (%)
Carbon footprint (Table 1 PAI 2)	Carbon footprint	metric tonnes of carbon dioxide equivalents per million euro invested (tCO ₂ eq/EURm)	43.60	100.00%
Board gender diversity (Table 1 PAI 13)	Average ratio of female to male board members in investee companies	%	17.04	99.51%
Lack of complaints handling mechanisms related to employee matters (Table 3 PAI 5)	Share of investments in investee companies without any grievance/complaints handling mechanism related to employee matters	% of NAV involved	94.89	98.41%

Coverage (%): the proportion of the net assets where data is available to present the indicator

● **...and compared to previous periods?**

Please see the performance of the indicators for 2022 in the table below:

PAI Indicator	Metric	Unit of Measure	Fund Value	Coverage (%)
Carbon footprint (Table 1 PAI 2)	Carbon footprint	metric tonnes of carbon dioxide equivalents per million euro invested (tCO ₂ eq/EURm)	30.77	100.00%
Board gender diversity (Table 1 PAI 13)	Average ratio of female to male board members in investee companies	%	19.98	100.00%
Lack of complaints handling mechanisms related to employee matters (Table 3 PAI 5)	Share of investments in investee companies without any grievance/complaints handling mechanism related to employee matters	% of NAV involved	92.38	100.00%

Coverage (%): the proportion of the net assets where data is available to present the indicator

Source: Sustainalytics

The increase in carbon footprint from 2022 to 2023 was driven by two new investments Osaka Soda and Osaka Gas.

Osaka Gas is a regional utility company, hence the higher starting carbon footprint. Amongst the Investment Manager's main engagement agenda items is the company's decarbonisation strategy, which although only held since October 2023, has already been discussed with the company. The Investment Manager plans to work closely with Osaka Gas to ensure responsible implementation of their decarbonisation roadmap.

Osaka Soda also has a higher starting carbon footprint due to their core business in basic chemicals, specifically the production of caustic soda. However, the investment case was based on the company's relatively unknown and growing business in a product used in the manufacturing of GLP-1 diabetes drugs. This area of their business has now been more widely recognised by the market and continued to grow as a percentage of their revenues and profits, reducing the company's reliance on caustic soda.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not commit to make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered the principal adverse impacts of its investment decisions on sustainability factors, in particular those relating to the environmental and social characteristics promoted by the Sub-Fund. Please see below for the focus PAI indicators and detail on how these indicators were considered by the Investment Manager.

- Carbon footprint (Table 1 PAI 2)
- Board gender diversity (Table 1 PAI 13):
- Lack of complaints handling mechanisms related to employee matters (Table 3 PAI 5):

Prior to making an investment, the Investment Manager conducted investment due diligence to evaluate a variety of factors, including relevant sustainability factors. The evaluation includes a quantitative assessment of the impact of the investment on sustainability factors through reference to the indicators identified above. Following the assessment of an investment against the indicators, the Investment Manager decides what action to take with a view to limiting or reducing the identified adverse impact.

The Investment Manager conducted stewardship activities with a number of investee companies on the focus PAI indicators. Examples of these activities are provided in the “What actions have been taken to meet the environmental and/or social characteristics during the reference period?” section below.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 01/01/23 – 31/12/23

Largest investments	Sector	% Assets	Country
Asahi Intecc Co., Ltd.	Health Care	8.63	Japan
Chiba Bank, Ltd.	Financials	5.90	Japan
Relo Group, Inc.	Real Estate	5.73	Japan
Fancl Corporation	Consumer Staples	5.46	Japan
T&D Holdings, Inc.	Financials	4.97	Japan
COSMOS Pharmaceutical Corporation	Consumer Staples	4.80	Japan
GMO Payment Gateway, Inc.	Financials	4.50	Japan
Miura Co., Ltd.	Industrials	4.34	Japan
Hitachi Zosen Corporation	Industrials	3.99	Japan
Dexerials Corp.	Information Technology	3.93	Japan
Renesas Electronics Corporation	Information Technology	3.64	Japan
IBIDEN CO., LTD.	Information Technology	3.46	Japan
Olympus Corp.	Health Care	3.36	Japan
Milbon Co., Ltd.	Consumer Staples	3.19	Japan
Kansai Paint Co., Ltd.	Materials	3.09	Japan

Weights are given as an average over the period 01/01/2023 – 31/12/2023.

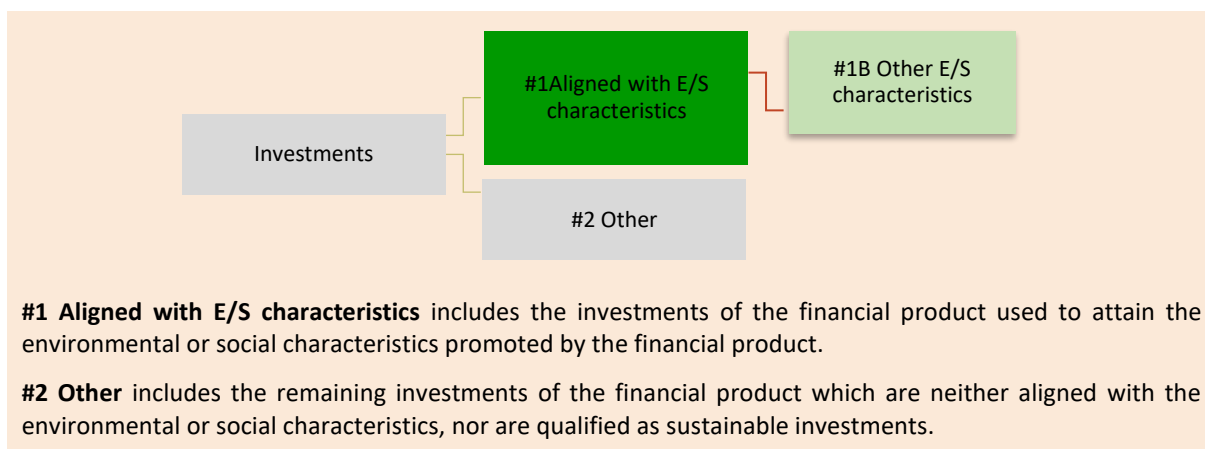

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The Sub-Fund invested on average 97.19% of its net assets in investments used to attain the environmental and/or social characteristics promoted by the financial product.

The remaining investments were used to achieve the broader objectives of the Sub-Fund.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

The Sub-Fund made investments in the following economic sectors: Communication Services, Consumer Discretionary, Consumer Staples, Financials, Health Care, Industrials, Information Technology, Materials, Real Estate and Utilities.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● ***Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy³?***

Yes:

In fossil gas In nuclear energy

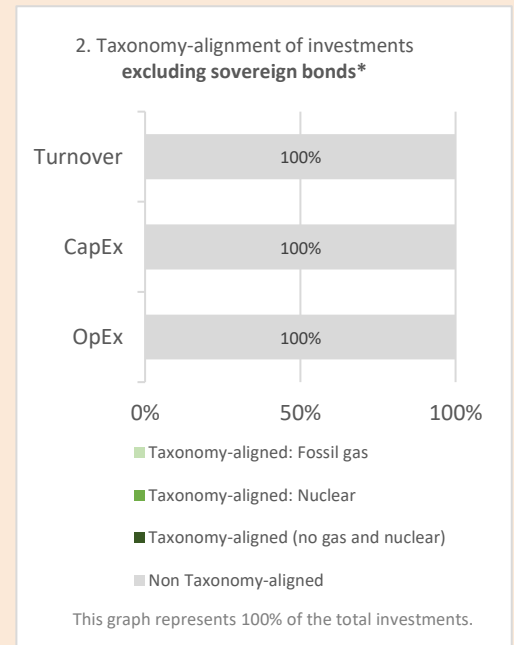

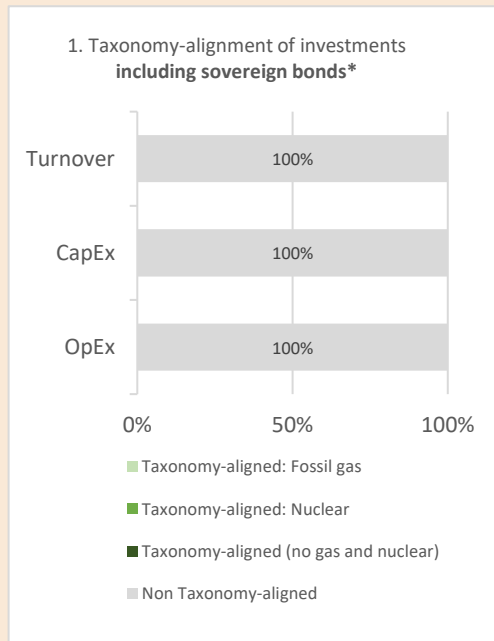

No

³ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Sub-Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Sub-Fund has not committed to make sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments included the remaining investments of the financial product which were not used to attain the environmental or social characteristics. These investments during the period consisted of cash and cash equivalents. Minimum safeguards were not applied.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The following actions were taken during the reference period:

Security Selection

The Investment Manager integrated sustainability analysis into security selection, with analysis of key environmental and social characteristics conducted prior to investment and on an ongoing basis.

Stewardship

The Investment Manager undertook stewardship activities during the reference period to understand, monitor and advise on relevant sustainability issues, including voting and company meetings. The following examples of stewardship activities were carried out during the reference period.

The Investment Manager engaged with Miura on their carbon footprint and policies over two meetings with senior management and company President Miyauchi, including the operational risks and opportunities associated with carbon neutrality. The management believes that the opportunities exceed the risks and the Investment Manager emphasised that more detailed reporting of policy for carbon neutrality is necessary to reassure investors and that the company should include this information in an integrated report format.

The Investment Manager met with Daifuku to discuss and influence the company’s decarbonisation strategy. The company aims to decrease its CO2 emissions by 25% by 2030 but this is below government guideline targets and will be revised to incorporate scope 3 measurements in targeting. The Investment Manager stressed the importance of balancing environmental improvements with profitability and for clearly explaining this to investors.

Chiba Bank’s influence on the Chiba region’s manufacturing base (the highest CO2 emitting prefecture in Japan, including Tokyo) is a core tenet of the Investment Manager’s engagement agenda. Further progress has been made through the establishment of the Chiba SDG Advancement Network. Chiba Bank is using the Network to enhance its direct efforts with their client base, by offering lower interest rates on funds for investment in greenhouse gas emission reduction.

Although a recent investment, engagement with Osaka Gas has been productive. Following their first buyback in 10 years, they have also detailed planned investment into decarbonisation.

Regarding board gender diversity, the Investment Manager engaged with Kansai Paint on their low level of senior female staff. The company argued that the headline number for senior women was skewed by their operations in India, where there was an overwhelmingly large percentage of senior male employees. However, they acknowledged that even outside of India, they can do more to improve the situation.

During a meeting with Relo Group, the Investment Manager questioned and pressured the company regarding their corporate governance practices. The Investment Manager stated its belief that the current tenure of the external directors is too long and risked calling their independence into question. The Investment Manager clearly explained that should the next appointment come from within the company, or their independence be questionable, the Investment Manager would vote against the re-election of the president. In addition, the Investment Manager pointed to the necessity of appointing female directors and board members. The company acknowledged that they recognised these points, and that action would be taken to address them at the next Annual General Meeting.

Following ongoing engagement with Dexerials around gender diversity, the company has actively increased the hiring of women. They have also introduced a more generous maternity policy, which now includes job protection and support in returning to the workplace, which very unusual and commendable within Japanese corporates.

For complaints handling mechanisms, the Investment Manager engage broadly on this topic across the portfolio companies. Solid governance, board independence, risk controls and employee protection are themes that are topical and engaged on throughout the portfolio.

Negative Exclusions

The exclusion criteria were applied on existing and potential securities and no securities in breach were held during the reference period.

How did this financial product perform compared to the reference benchmark?

Not applicable. The Sub-Fund does not utilise a reference benchmark for the purpose of attaining the environmental or social characteristics promoted.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

● ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Redwheel Global Emerging Markets Fund

Legal entity identifier: 22210085BEL20QEFQD13

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics related to:

- Environmental policies and GHG emissions related disclosures, with a particular focus on carbon emission reduction initiatives
- Social and employee matters, with a particular focus on diversity and gender equality

The environmental and social characteristics were promoted by means of:

Proprietary Analytical Framework

The Investment Manager utilised its independent analytical process for ESG during the period. The analysis was part of the overall fundamental review and was incorporated for each issuer prior to investment.

Negative Exclusions

The Investment Manager applied specific hard exclusions on companies that derive income from products and business practices considered to be harmful to the environment or society. The Sub-Fund did not invest in any companies that were in breach with these exclusion criteria during the reference period.

Principal Adverse Impacts (“PAI”)

The Investment Manager considered the negative externalities of investments on sustainability factors as an integrated part of the investment process.

Stewardship

The Investment Manager undertook stewardship activities, including company meetings and voting, during the reference period to understand, monitor and advise on relevant sustainability issues. Further detail and examples are provided within the actions taken to achieve the environmental and/or social characteristics below.

● How did the sustainability indicators perform?

The Investment Manager uses the following sustainability indicators to measure the attainment of the characteristics promoted by the Sub-Fund. The Investment Manager measured the Sub-Fund against the below indicators on a quarterly basis over the reference period. The performance of the indicators is provided below, calculated as an average of the quarterly snapshots during the reference period.

PAI Indicator	Metric	Unit of Measure	Fund Value	Coverage (%)
Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4)	Share of investments in investee companies without carbon emissions reduction initiatives aimed at aligning with the Paris Agreement	% of NAV involved	59.29	97.80%
Exposure to companies active in the fossil fuel sector (Table 1 PAI 4)	Share of investments in companies active in the fossil fuel sector	% of NAV involved	6.97	98.00%
Board gender diversity (Table 1 PAI 13)	Average ratio of female to male board members in investee companies	%	13.37	97.80%
Exposure to controversial weapons (Table 1 PAI 14)	Share of investments in investee companies involved in the manufacture or selling of controversial weapons	% of NAV involved	0	98.19%

Coverage (%): the proportion of the net assets where data is available to present the indicator

Source: Sustainalytics

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **...and compared to previous periods?**

Not applicable. 2023 was the first reference period the sustainability indicators were formally recorded for the Sub-Fund.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not commit to make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

— **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered the principal adverse impacts of its investment decisions on sustainability factors, in particular those relating to the environmental and social characteristics promoted by the Sub-Fund. Please see below for the focus PAI indicators and detail on how these indicators were considered by the Investment Manager.

- Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4)
- Exposure to companies active in the fossil fuel sector (Table 1 PAI 4)
- Board gender diversity (Table 1 PAI 13)
- Exposure to controversial weapons (Table 1 PAI 14)

Prior to making an investment, the Investment Manager conducted investment due diligence to evaluate a variety of factors, including relevant sustainability factors. The evaluation includes a quantitative assessment of the impact of the investment on sustainability factors through reference to the indicators identified above. Following the assessment of an investment against the indicators, the Investment Manager decides what action to take with a view to limiting or reducing the identified adverse impact.

Exposure to controversial weapons is a hard exclusion for the Sub-Fund, and as such companies with exposure are not considered for investment. The Investment Manager actively engages with companies on the remaining PAIs as well as other ESG related opportunities, such as governance or other social concerns. For example, fossil fuel companies and the highest contributors of carbon emission to the portfolio are prioritized for engagement. Similarly, companies with 0% female Board representation are actively engaged.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01/01/23 – 31/12/23

Largest investments	Sector	% Assets	Country
Tencent Holdings Ltd.	Communication Services	4.56	China
First Quantum Minerals Ltd.	Materials	4.41	Zambia
Baidu, Inc.	Communication Services	4.34	China
Kuaishou Technology	Communication Services	3.73	China
PDD Holdings Inc.	Consumer Discretionary	3.70	China
Alibaba Group Holding Limited	Consumer Discretionary	3.69	China
SK hynix Inc.	Information Technology	3.47	Korea
Taiwan Semiconductor Manufacturing Company Limited	Information Technology	3.20	Taiwan
MediaTek Inc.	Information Technology	2.84	Taiwan
Ivanhoe Mines Ltd.	Materials	2.84	DR Congo
Gold Fields Limited	Materials	2.72	South Africa
Vale S.A.	Materials	2.23	Brazil
Li Auto Inc.	Consumer Discretionary	2.14	China
Country Garden Services Holdings Co. Ltd.	Real Estate	2.08	China
Geely Automobile Holdings Limited	Consumer Discretionary	1.93	China

Weights are given as an average over the period 01/01/2023 – 31/12/2023.

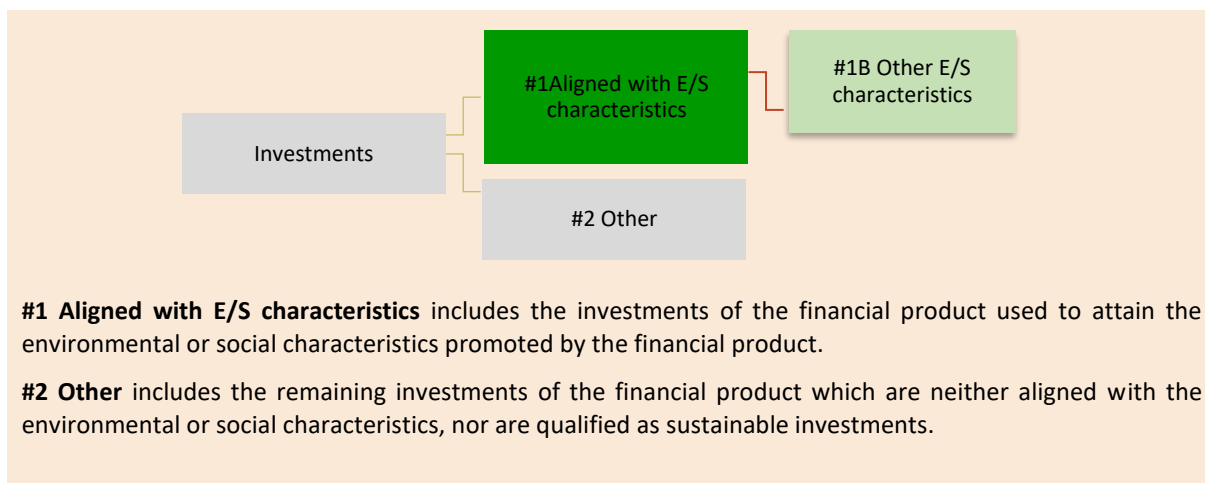

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● *What was the asset allocation?*

The Sub-Fund invested on average 99.35% of its net assets in investments used to attain the environmental and/or social characteristics promoted by the financial product.

The remaining investments were used to achieve the broader objectives of the Sub-Fund.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● *In which economic sectors were the investments made?*

The Sub-Fund made investments in the following economic sectors: Communication Services, Consumer Discretionary, Consumer Staples, Energy, Financials, Health Care, Industrials, Information Technology, Materials, Real Estate and Utilities.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁴?**
 - Yes:
 - In fossil gas
 - In nuclear energy
 - No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

⁴ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Sub-Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Sub-Fund has not committed to make sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments included the remaining investments of the financial product which were not used to attain the environmental or social characteristics. These investments during the period consisted of cash and cash equivalents. Minimum safeguards were not applied.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The following actions were taken during the reference period:

Proprietary Analytical Framework

The Investment Manager utilised its independent analytical process for ESG during the period. The analysis was part of the overall fundamental review and was incorporated for each issuer prior to investment. The Sub-Fund maintained at least 95% of its holdings (by count) with an average internal score of 2 or higher indicating that most of its sustainability criteria are met or exceeded.

Negative Exclusions

The exclusion criteria were applied on existing and potential securities and no securities in breach were held during the reference period.

Stewardship

The Investment Manager undertook stewardship activities during the reference period to understand, monitor and advise on relevant sustainability issues, including voting and company meetings. The Investment Manager submitted voting instructions for all meetings in 2023 and had 29 active engagements. Below please find two specific examples:

- Following Sustainalytics' reclassification of China's Tencent Holdings and Baidu from the watchlist for United Nations Global Compact (UNGC) principle on human rights to non-compliant status, the Investment Manager engaged with both companies on human rights risk mitigation. In response, the Tencent IR team questioned the unverified media sources cited by Sustainalytics. They have been in direct contact with the ESG ratings provider to clarify their corporate policies and ESG practices. In addition, Tencent has applied for the UNGC membership to express their commitment to align business operations with the universal principles on human rights. Baidu, already a UNGC member since 2008, the company has been strengthening oversight over data privacy and data security as its top priority. Like Tencent, Baidu has engaged in a dialogue with Sustainalytics to bridge the information gap to ensure fair and unbiased representation of its ESG practice.
- In Q4 2023, following the appointment of Mike Fraser as the top executive at the South African miner Gold Fields, the Investment Manager engaged with the new CEO on diligence in capital allocation and continuity of the current climate strategy (see <https://www.goldfields.com/energy-and-climate-change.php> for details). Mr. Fraser promised to see if more can be done, especially when it comes to renewable power generation and water conservation.

The Investment Manager has both directly engaged with companies on the Board Gender Diversity but also with exchanges, such as the HK exchange to encourage them to require listing companies to have at least one qualified female member on the Board.

These engagements require time and persistence and will be ongoing.

How did this financial product perform compared to the reference benchmark?

Not applicable. The Sub-Fund does not utilise a reference benchmark for the purpose of attaining the environmental or social characteristics promoted.

● *How does the reference benchmark differ from a broad market index?*

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Redwheel Next Generation Emerging Markets Equity Fund

Legal entity identifier: 5493001WVIL1K45SF511

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: ___%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: ___%**

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics related to:

- Environmental policies and GHG emissions related disclosures, with a particular focus on carbon emission reduction initiatives
- Social and employee matters, with a particular focus on diversity and gender equality

The environmental and social characteristics were promoted by means of:

Proprietary Analytical Framework

The Investment Manager utilised its independent analytical process for ESG during the period. The analysis was part of the overall fundamental review and was incorporated for each issuer prior to investment.

Negative Exclusions

The Investment Manager applied specific hard exclusions on companies that derive income from products and business practices considered to be harmful to the environment or society. The Sub-Fund did not invest in any companies that were in breach with these exclusion criteria during the reference period.

Principal Adverse Impacts ("PAI")

The Investment Manager considered the negative externalities of investments on sustainability factors as an integrated part of the investment process.

Stewardship

The Investment Manager undertook stewardship activities, including company meetings and voting, during the reference period to understand, monitor and advise on relevant sustainability issues. Further detail and examples are provided within the actions taken to achieve the environmental and/or social characteristics below.

How did the sustainability indicators perform?

The Investment Manager uses the following sustainability indicators to measure the attainment of the characteristics promoted by the Sub-Fund. The performance of the indicators is provided below, calculated as an average of the quarterly snapshots during the reference period.

PAI Indicator	Metric	Unit of Measure	Fund Value	Coverage (%)
Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4)	Share of investments in investee companies without carbon emissions reduction initiatives aimed at aligning with the Paris Agreement	% of NAV involved	58.42	88.72%
Exposure to companies active in the fossil fuel sector (Table 1 PAI 4)	Share of investments in companies active in the fossil fuel sector	% of NAV involved	6.94	88.93%
Board gender diversity (Table 1 PAI 13)	Average ratio of female to male board members in investee companies	%	20.73	90.35%
Exposure to controversial weapons (Table 1 PAI 14)	Share of investments in investee companies involved in the manufacture or selling of controversial weapons	% of NAV involved	0	90.26%

Coverage (%): the proportion of the net assets where data is available to present the indicator

Source: Sustainalytics

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **...and compared to previous periods?**

Not applicable. 2023 was the first reference period the sustainability indicators were formally recorded for the Sub-Fund.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not commit to make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered the principal adverse impacts of its investment decisions on sustainability factors, in particular those relating to the environmental and social characteristics promoted by the Sub-Fund. Please see below for the focus PAI indicators and detail on how these indicators were considered by the Investment Manager.

- Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4)
- Exposure to companies active in the fossil fuel sector (Table 1 PAI 4)
- Board gender diversity (Table 1 PAI 13)
- Exposure to controversial weapons (Table 1 PAI 14)

Prior to making an investment, the Investment Manager conducted investment due diligence to evaluate a variety of factors, including relevant sustainability factors. The evaluation includes a quantitative assessment of the impact of the investment on sustainability factors through reference to the indicators identified above. Following the assessment of an investment against the indicators, the Investment Manager decides what action to take with a view to limiting or reducing the identified adverse impact.

Exposure to controversial weapons is a hard exclusion in the fund, and as such not considered for investment. The Investment Manager actively engages with companies on the remaining PAIs as well as other ESG related opportunities, such as governance or other social concerns. For example, the highest contributors of carbon emission to the portfolio are prioritized for engagement. Similarly, Board with 0% female representation are actively engaged.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01/01/23 – 31/12/23

Largest investments	Sector	% Assets	Country
Energiean Plc	Energy	3.19	Egypt
First Quantum Minerals Ltd.	Materials	2.94	Zambia
Emaar Properties (P.J.S.C)	Real Estate	2.50	United Arab Emirates
Ivanhoe Mines Ltd.	Materials	2.29	DR Congo
Credicorp Ltd.	Financials	2.17	Peru
Emaar Development PJSC	Real Estate	2.11	United Arab Emirates
Banco Santander-Chile	Financials	1.93	Chile
Ayala Corporation	Industrials	1.86	Philippines
Piraeus Financial Holdings S.A.	Financials	1.84	Greece
Grupo Financiero Banorte, S.A.B. de C.V.	Financials	1.83	Mexico
National Atomic Company Kazatomprom JSC	Energy	1.74	Kazakhstan
BDO Unibank, Inc.	Financials	1.74	Philippines
Ayala Land, Inc.	Real Estate	1.68	Philippines
Halyk Savings Bank of Kazakhstan JSC	Financials	1.59	Kazakhstan
OTP Bank Nyrt.	Financials	1.55	Hungary

Weights are given as an average over the period 01/01/2023 – 31/12/2023.

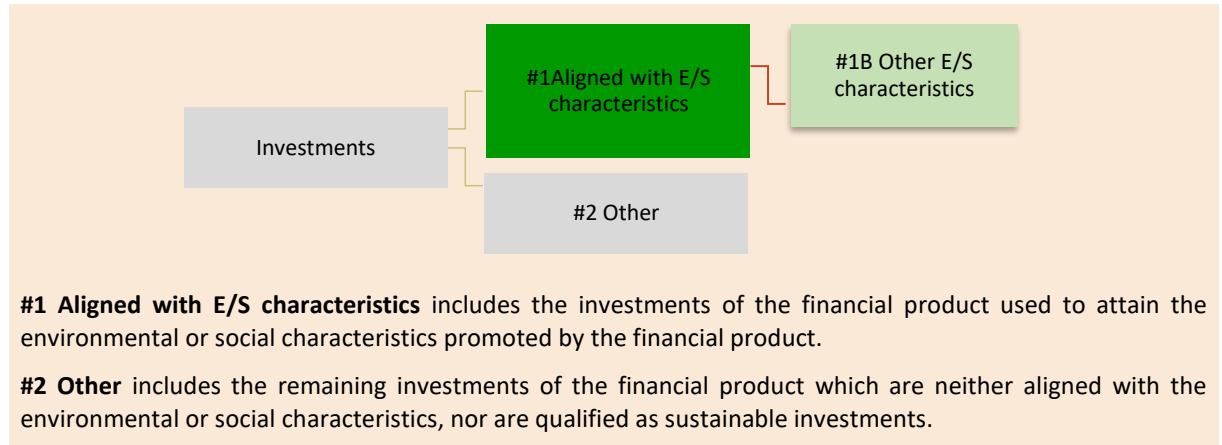

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● *What was the asset allocation?*

The Sub-Fund invested on average 99.09% of its net assets in investments used to attain the environmental and/or social characteristics promoted by the financial product.

The remaining investments were used to achieve the broader objectives of the Sub-Fund.

● *In which economic sectors were the investments made?*

The Sub-Fund made investments in the following economic sectors: Communication Services, Consumer Discretionary, Consumer Staples, Energy, Financials, Health Care, Industrials, Information Technology, Materials, Real Estate and Utilities.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

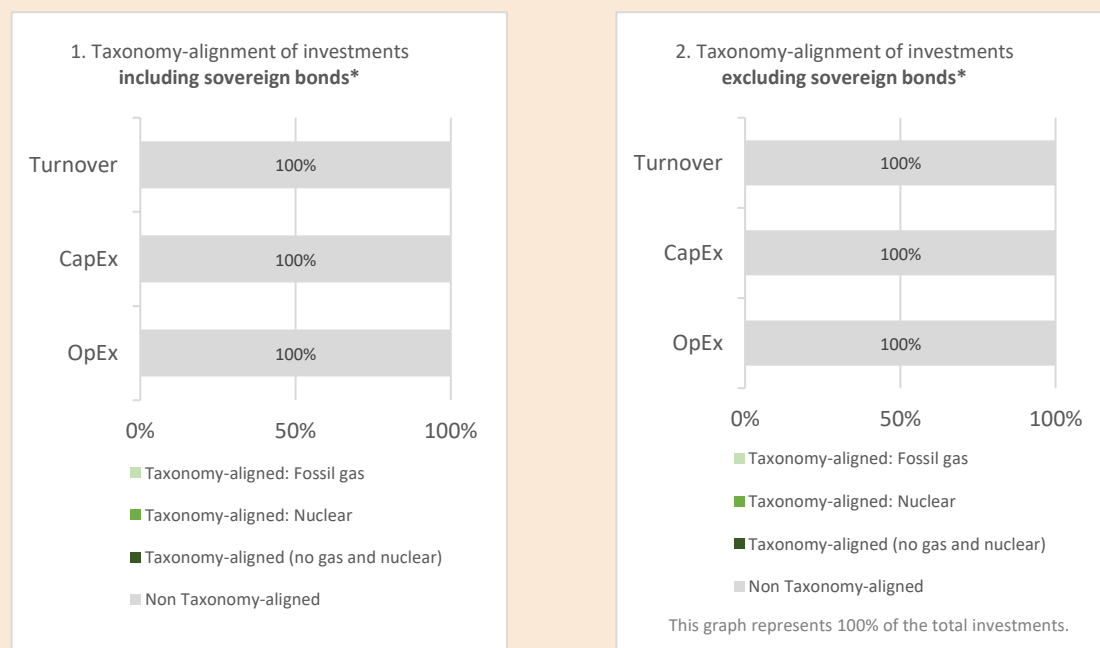

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁵?**

- Yes:
- In fossil gas In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

⁵ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Sub-Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Sub-Fund has not committed to make sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments included the remaining investments of the financial product which were not used to attain the environmental or social characteristics. These investments during the period consisted of cash and cash equivalents. Minimum safeguards were not applied.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The following actions were taken during the reference period:

Proprietary Analytical Framework

The Investment Manager utilised its independent analytical process for ESG during the period. The analysis was part of the overall fundamental review and was incorporated for each issuer prior to investment. The Sub-Fund maintained at least 95% of its holdings (by count) with an average internal score of 2 or higher indicating that most of its sustainability criteria are met or exceeded.

Negative Exclusions

The exclusion criteria were applied on existing and potential securities and no securities in breach were held during the reference period.

Stewardship

The Investment Manager undertook stewardship activities during the reference period to understand, monitor and advise on relevant sustainability issues, including voting and company meetings. The Investment Manager submitted voting instructions for all meetings in 2023 and had 33 active engagements. Below please find two specific examples:

- Hoa Phat Group and Tullow Oil are two of the highest emitters of carbon in the portfolio without carbon emission reduction initiatives aimed at aligning with the Paris Agreement and were prioritized for engagement in 2023. The Investment Manager had several conversations with management on this topic and offered Climate Action 100+'s as guidance for the companies to consider.
- Similarly, with Energean the Investment Manager believes their own emissions are relatively well managed, but the challenge for Energean is addressing Scope 3 – Downstream. The Investment Manager included CA100+ Net Zero Company Benchmark as reference in the request to the company; a framework commonly used in other engagement on climate change.

These engagements require time and persistence and will be ongoing.

How did this financial product perform compared to the reference benchmark?

Not applicable. The Sub-Fund does not utilise a reference benchmark for the purpose of attaining the environmental or social characteristics promoted.

● *How does the reference benchmark differ from a broad market index?*

Not applicable.

Reference benchmarks

are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Redwheel China Equity Fund

Legal entity identifier: 549300XQTK4Y83QCJ470

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics related to:

- Environmental policies and GHG emissions related disclosures, with a particular focus on carbon emission reduction initiatives
- Social and employee matters, with a particular focus on diversity and gender equality

The environmental and social characteristics were promoted by means of:

Proprietary Analytical Framework

The Investment Manager utilised its independent analytical process for ESG during the period. The analysis was part of the overall fundamental review and was incorporated for each issuer prior to investment.

Negative Exclusions

The Investment Manager applied specific hard exclusions on companies that derive income from products and business practices considered to be harmful to the environment or society. The Sub-Fund did not invest in any companies that were in breach with these exclusion criteria during the reference period.

Principal Adverse Impacts ("PAI")

The Investment Manager considered the negative externalities of investments on sustainability factors as an integrated part of the investment process.

Stewardship

The Investment Manager undertook stewardship activities, including company meetings and voting, during the reference period to understand, monitor and advise on relevant sustainability issues. Further detail and examples are provided within the actions taken to achieve the environmental and/or social characteristics below.

How did the sustainability indicators perform?

The Investment Manager uses the following sustainability indicators to measure the attainment of the characteristics promoted by the Sub-Fund. The Investment Manager measured the Sub-Fund against the below indicators on a quarterly basis over the reference period. The performance of the indicators is provided below, calculated as an average of the quarterly snapshots during the reference period.

PAI Indicator	Metric	Unit of Measure	Fund Value	Coverage (%)
Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4)	Share of investments in investee companies without carbon emissions reduction initiatives aimed at aligning with the Paris Agreement	% of NAV involved	87.30	98.90%
Exposure to companies active in the fossil fuel sector (Table 1 PAI 4)	Share of investments in companies active in the fossil fuel sector	% of NAV involved	0.00	99.41%
Board gender diversity (Table 1 PAI 13)	Average ratio of female to male board members in investee companies	%	12.92	97.77%
Exposure to controversial weapons (Table 1 PAI 14)	Share of investments in investee companies involved in the manufacture or selling of controversial weapons	% of NAV involved	0.00	100.00%

Coverage (%): the proportion of the net assets where data is available to present the indicator

Source: Sustainalytics

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **...and compared to previous periods?**

Not applicable. 2023 was the first reference period the sustainability indicators were formally recorded for the Sub-Fund.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not commit to make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered the principal adverse impacts of its investment decisions on sustainability factors, in particular those relating to the environmental and social characteristics promoted by the Sub-Fund. Please see below for the focus PAI indicators and detail on how these indicators were considered by the Investment Manager.

- Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4)
- Exposure to companies active in the fossil fuel sector (Table 1 PAI 4)
- Board gender diversity (Table 1 PAI 13)
- Exposure to controversial weapons (Table 1 PAI 14):

Prior to making an investment, the Investment Manager conducted investment due diligence to evaluate a variety of factors, including relevant sustainability factors. The evaluation includes a quantitative assessment of the impact of the investment on sustainability factors through reference to the indicators identified above. Following the assessment of an investment against the indicators, the Investment Manager decides what action to take with a view to limiting or reducing the identified adverse impact.

Exposure to controversial weapons is a hard exclusion for the Sub-Fund, and as such companies with exposure are not considered for investment. Fossil fuel exposure, while not a hard exclusion, has been 0% throughout the year. The Investment Manager actively engages with companies on the remaining PAIs as well as other ESG related opportunities, such as governance or other social concerns. For example, the highest contributors of carbon emission to the portfolio are prioritized for engagement. Similarly, companies with 0% female Board representation are actively engaged.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01/01/23 – 31/12/23

Largest investments	Sector	% Assets	Country
Alibaba Group Holding Limited	Consumer Discretionary	7.83	China
Baidu, Inc.	Communication Services	6.27	China
Kuaishou Technology	Communication Services	5.17	China
Li Auto Inc.	Consumer Discretionary	5.01	China

Tencent Holdings Ltd.	Communication Services	3.87	China
Meituan	Consumer Discretionary	3.86	China
Focus Media Information Technology Co., Ltd.	Communication Services	3.66	China
Sands China Ltd.	Consumer Discretionary	3.32	China
Qifu Technology, Inc.	Financials	3.31	China
PDD Holdings Inc.	Consumer Discretionary	3.00	China
Geely Automobile Holdings Limited	Consumer Discretionary	2.96	China
Country Garden Services Holdings Co. Ltd.	Real Estate	2.88	China
Lizhong Sitong Light Alloys Group Co., Ltd.	Materials	2.77	China
ANTA Sports Products Limited	Consumer Discretionary	2.65	China

Weights are given as an average over the period 01/01/2023 – 31/12/2023.

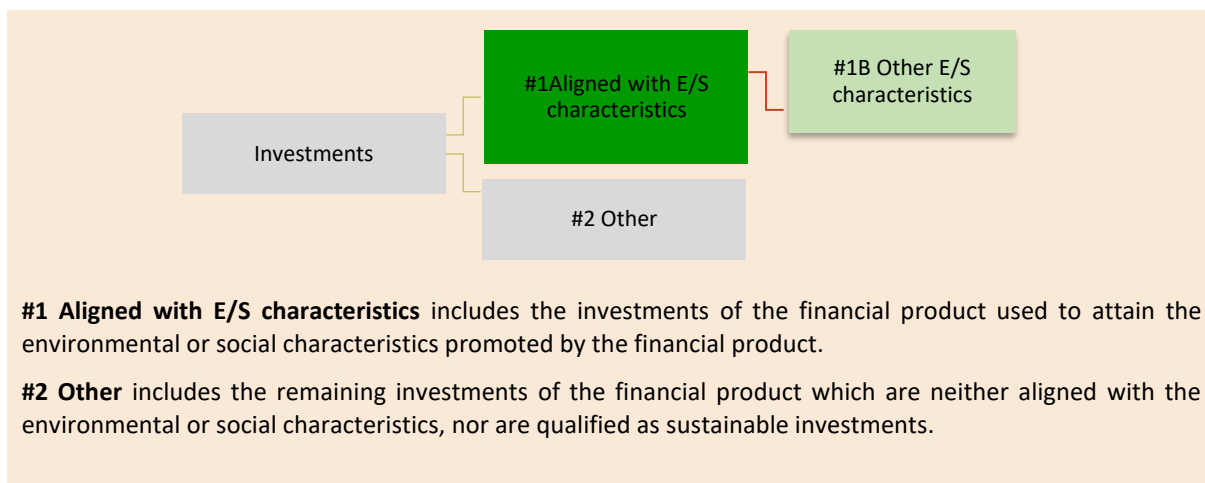

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● *What was the asset allocation?*

The Sub-Fund invested on average 98.86% of its net assets in investments used to attain the environmental and/or social characteristics promoted by the financial product.

The remaining investments were used to achieve the broader objectives of the Sub-Fund.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● *In which economic sectors were the investments made?*

The Sub-Fund made investments in the following economic sectors: Communication Services, Consumer Discretionary, Consumer Staples, Financials, Health Care, Industrials, Information Technology, Materials and Real Estate.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

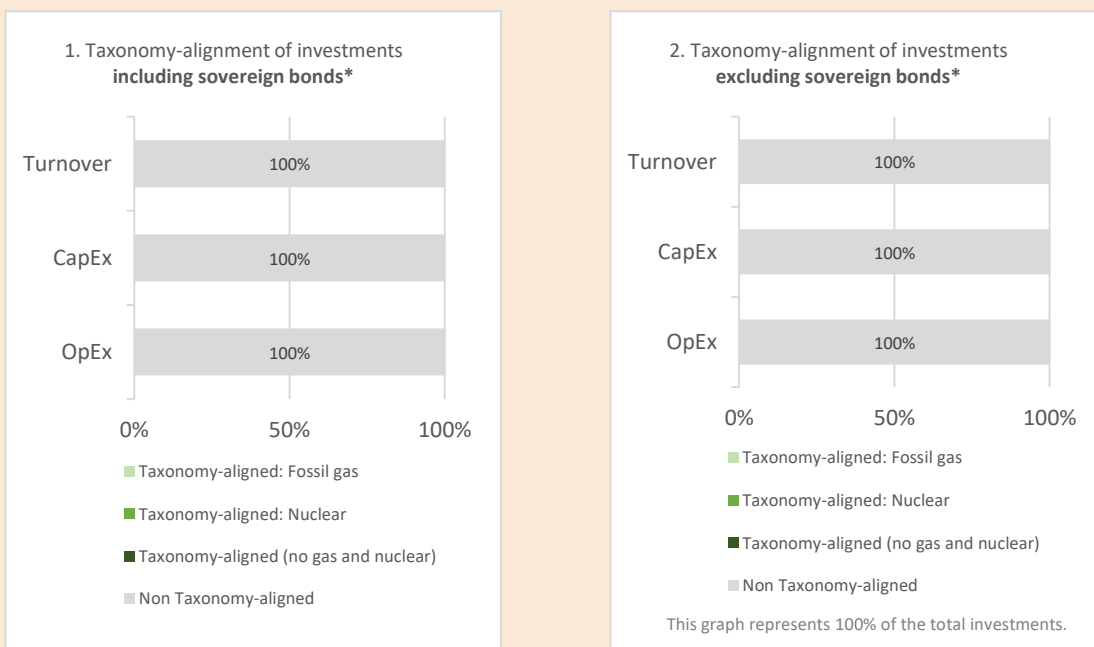

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁶?**

- Yes:
- In fossil gas In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

⁶ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Sub-Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Sub-Fund has not committed to make sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments included the remaining investments of the financial product which were not used to attain the environmental or social characteristics. These investments during the period consisted of cash and cash equivalents. Minimum safeguards were not applied.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The following actions were taken during the reference period:

Proprietary Analytical Framework

The Investment Manager utilised its independent analytical process for ESG during the period. The analysis was part of the overall fundamental review and was incorporated for each issuer prior to investment. The Sub-Fund maintained at least 95% of its holdings (by count) with an average internal score of 2 or higher indicating that most of its sustainability criteria are met or exceeded.

Negative Exclusions

The exclusion criteria were applied on existing and potential securities and no securities in breach were held during the reference period.

Stewardship

The Investment Manager undertook stewardship activities during the reference period to understand, monitor and advise on relevant sustainability issues, including voting and company meetings. The Investment Manager submitted voting instructions for all meetings in 2023 and had 8 active engagements. Below please find two specific examples:

- Following Sustainalytics' reclassification of China's Baidu from watchlist for the United Nations Global Compact (UNGC) principle on human rights to non-compliant status, the Investment Manager engaged with the company on human rights risk mitigation. Baidu, already a UNGC member since 2008, has been strengthening oversight over data privacy and data security as its top priority. Baidu has engaged in a dialogue with Sustainalytics to bridge the information gap to ensure fair representation of its ESG practice.
- Lizhong Sitong Light Alloy ('Lizhong') is a key aluminium alloy product maker in China and a market leader across its three focused businesses, including recycled cast aluminium alloy. It is one of the only three companies globally with scale-production capability of heat-free alloy - the material used for single-piece casting, which is a disruptive technique for auto manufacturing in the EV era. Driven by the increasing usage of aluminium in auto manufacturing, given the electrification trend and carbon emission reduction requirements, recycled aluminium alloy is expected to take 70-100% of its total cast aluminium alloy capacity (vs. 40%+ now) and help its cast aluminium alloy margin to expand. In this context, the Investment Manager engaged with Mr. Zhi Guo Li, Board Secretary & Director, on additional communication with respect to both Lizhong's product and process including internally established targets for efficiency and emissions reduction. In addition, consistent with the commitment to promote board gender diversity, the Investment Manager engaged on increasing women representation in senior management and on the Boards of Directors. Mr. Li highlighted limited availability of qualified candidates but did not exclude the possibility of adding a woman board member depending on search results.

The Investment Manager has both directly engaged with companies on the Board Gender Diversity but also with exchanges, such as the HK exchange to encourage them to require listing companies to have at least one qualified female member on the Board.

These engagements require time and persistence and will be ongoing.

How did this financial product perform compared to the reference benchmark?

Not applicable. The Sub-Fund does not utilise a reference benchmark for the purpose of attaining the environmental or social characteristics promoted.

● *How does the reference benchmark differ from a broad market index?*

Not applicable.

Reference benchmarks

are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Redwheel Global Equity Income Fund

Legal entity identifier: 5493001WF147DZX9NR09

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ____%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promotes environmental and social characteristics related to (i) the reduction and the mitigation of greenhouse gas emissions and (ii) social and employee matters.

The environmental and social characteristics were promoted by means of:

Security Selection

The Investment Manager applied systematic consideration of relevant sustainability factors within investment due diligence.

Positive Tilt

The Investment Manager maintained a positive tilt at the portfolio level towards issuers able to demonstrate effective management of sustainability issues.

Principal Adverse Impacts ("PAI")

The Investment Manager considered the negative externalities of investments on sustainability factors as an integrated part of the investment process.

Stewardship

The Investment Manager undertook stewardship activities, including company meetings and voting, during the reference period to understand, monitor and advise on relevant sustainability issues. Further detail and examples are provided below within the actions taken to achieve the environmental and/or social characteristics.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● How did the sustainability indicators perform?

The Investment Manager uses the following sustainability indicators to measure the attainment of the characteristics promoted by the Sub-Fund. The performance of the indicators is provided below, calculated as an average of the quarterly snapshots during the reference period:

PAI Indicator	Metric	Unit of Measure	Fund Value	Coverage (%)
GHG Intensity of investee companies (Table 1 PAI 3)	GHG intensity of investee companies	Metric tonnes of carbon dioxide equivalents per million euro invested (tCO ₂ eq/EURm)	76.68	100.00%
Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4)	Share of investments in investee companies without carbon emissions reduction initiatives aimed at aligning with the Paris Agreement	% of NAV involved	8.46	100.00%
Violations of UNGC & OECD Guidelines for Multinational Enterprises (Table 1 PAI 10)	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	% of NAV involved	0.00	100.00%

Coverage (%): the proportion of the net assets where data is available to present the indicator

Source: Sustainalytics

● ...and compared to previous periods?

Not applicable. 2023 was the first reference period the sustainability indicators were formally recorded for the Sub-Fund.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not commit to make sustainable investments.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts

are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered the principal adverse impacts of its investment decisions on sustainability factors, in particular those relating to the environmental and social characteristics promoted by the Sub-Fund. Please see below for the focus PAI indicators and detail on how these indicators were considered by the Investment Manager.

- GHG intensity of investee companies (Table 1 PAI 3)
- Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4)
- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises (Table 1 PAI 10)

Prior to making an investment, the Investment Manager conducted investment due diligence to evaluate a variety of factors, including relevant sustainability factors. The evaluation includes a quantitative assessment of the impact of the investment on sustainability factors through reference to the indicators identified above. Following the assessment of an investment against the indicators, the Investment Manager decides what action to take with a view to limiting or reducing the identified adverse impact.

An example during 2023 where the due diligence influenced the investment decision was Teleperformance, where due diligence found that the company had a key outsource resource for reviewing controversial material on social media sites. There were only modest levels of human rights protection for the workforce engaged in this activity in countries such as Tunisia and Columbia. The Team contrasted these policies to standards employed in various developed country police services where individuals have to view extreme content for work purposes. As a result, the company was deemed high risk and inappropriate for the strategy and thus avoided.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 01/01/23 – 31/12/23

Largest investments	Sector	% Assets	Country
Cisco Systems, Inc.	Information Technology	5.35	United States
Industria de Diseno Textil, S.A.	Consumer Discretionary	4.39	Spain
QUALCOMM Incorporated	Information Technology	4.36	United States
Sage Group plc	Information Technology	3.41	United Kingdom
Tapestry, Inc.	Consumer Discretionary	3.36	United States
BAE Systems Plc	Industrials	3.21	United Kingdom
Samsung Electronics Co., Ltd.	Information Technology	2.94	Korea
Zurich Insurance Group AG	Financials	2.92	Switzerland
Kering	Consumer Discretionary	2.62	France
Admiral Group Plc	Financials	2.60	United Kingdom
Diageo Plc	Consumer Staples	2.58	United Kingdom
Bayer Aktiengesellschaft	Health Care	2.48	Germany
Sanofi	Health Care	2.48	France
Taiwan Semiconductor Manufacturing Company Limited	Information Technology	2.45	Taiwan
Omnicom Group Inc	Communication Services	2.45	United States

Weights are given as an average over the period 01/01/2023 – 31/12/2023.

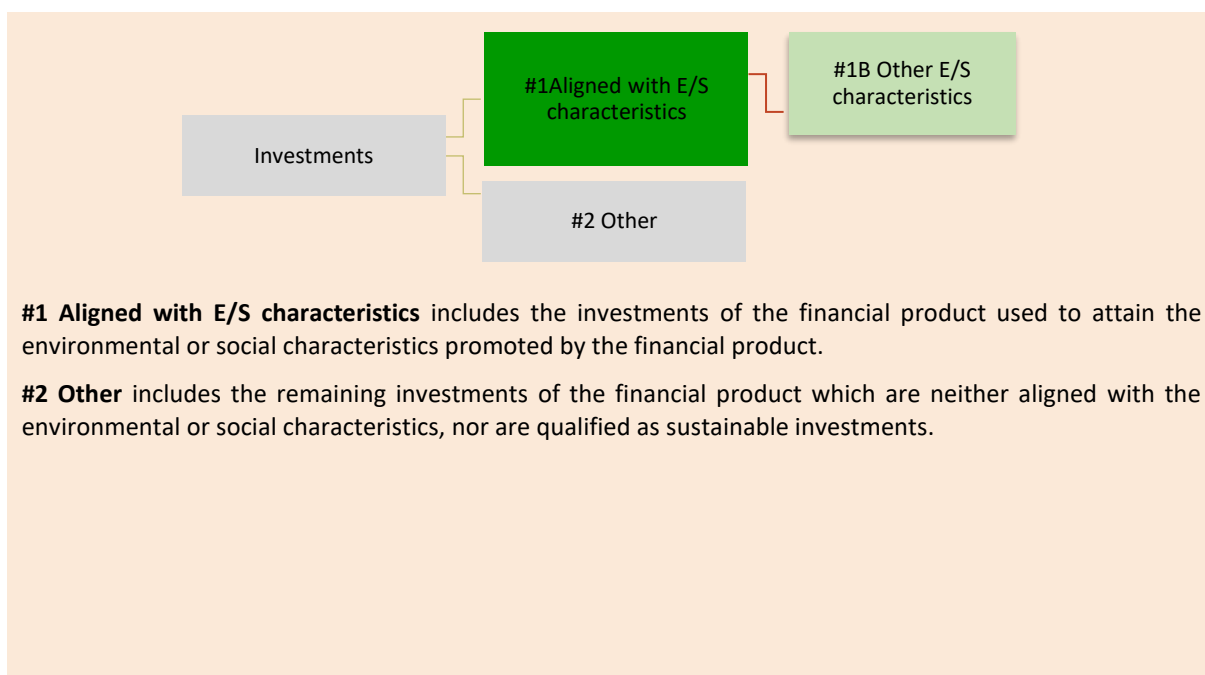

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● *What was the asset allocation?*

The Sub-Fund invested on average 96.37% of its net assets in investments used to attain the environmental and/or social characteristics promoted by the financial product.

The remaining investments were used to achieve the broader objectives of the Sub-Fund.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● *In which economic sectors were the investments made?*

The Sub-Fund made investments in the following economic sectors: Communication Services, Consumer Discretionary, Consumer Staples, Energy, Financials, Health Care, Industrials, Information Technology, Real Estate and Utilities.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

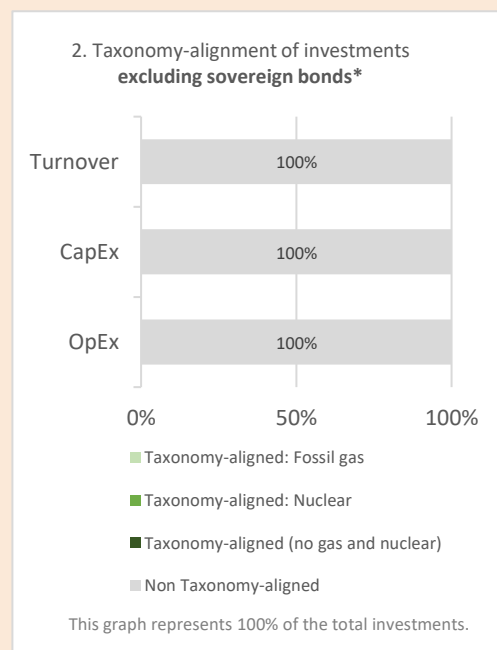

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁷?**
 - Yes:
 - In fossil gas
 - In nuclear energy
 - No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

⁷ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Sub-Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Sub-Fund has not committed to make sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments included the remaining investments of the financial product which were not used to attain the environmental or social characteristics. These investments during the period consisted of cash and cash equivalents. Minimum safeguards were not applied.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The following actions were taken during the reference period:

Security Selection

The Investment Manager applied systematic consideration of relevant sustainability factors within investment due diligence.

Stewardship

The Investment Manager undertook stewardship activities during the reference period to understand, monitor and advise on relevant sustainability issues, including voting and company meetings.

In collaboration with Greenwheel, Redwheel's sustainable thematic research team, the Investment Manager used the Human Rights Framework to establish the modern slavery risks associated with an investment, the actions required to resolve these risks, the probability of success, and the framework with which to monitor the ongoing success. For example, this was applied to Inditex, a current holding. The framework set an agenda for the Team along with Greenwheel to engage one-on-one with the company with regard to its processes for assessing and monitoring its supply chain. This not only gave insights into the four stages Inditex apply, but also statistics of the progress – for example 20%-50% of suppliers fail the initial pre assessment process. Further, the Team were able to engage on additional disclosures that would be best practice to deliver, especially in the differentiation of approach in each territory along with the lessons the company is learning from non-compliance issues and how the company is implementing corrective action - for example via collective bargaining and digitalisation of pay. This insight further helps the Team understand the interconnectivity of the spend on IT that the company is making in order for them to achieve the goals of assessing, monitoring and correcting human rights issue throughout the whole supply chain (1,729 suppliers across 8,271 factories, employing 3m people). This then aides the Team in modelling the cost impact of transitioning Inditex to its ESG challenges and establishing flags to monitor the progress, in turn forming the basis of the future engagement plan for Inditex.

Positive Tilt

The Sub-Fund maintained a weighted average ESG risk rating below that of (i.e. superior to) the reference benchmark during the reference period. The Sub-Fund ESG risk rating was an average of 19.5 versus the reference benchmark at 21.3. [Source: Sustainalytics]

How did this financial product perform compared to the reference benchmark?

Not applicable. The Sub-Fund does not utilise a reference benchmark for the purpose of attaining the environmental or social characteristics promoted.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Redwheel Responsible Global Income Fund

Legal entity identifier: 549300RVLBLZBJDYUR98

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promotes environmental and social characteristics related to (i) the reduction and the mitigation of greenhouse gas emissions and (ii) social and employee matters.

The environmental and social characteristics were promoted by means of:

Security Selection

The Investment Manager applied systematic consideration of relevant sustainability factors within investment due diligence.

Positive Tilt

The Investment Manager maintained a positive tilt at the portfolio level towards issuers able to demonstrate effective management of sustainability issues.

Negative Exclusions

The Investment Manager applied specific hard exclusions on companies that derive income from products and business practices considered to be harmful to the environment or society. The Sub-Fund did not invest in any companies that were in breach with these exclusion criteria during the reference period.

Principal Adverse Impacts ("PAI")

The Investment Manager considered the negative externalities of investments on sustainability factors as an integrated part of the investment process.

Stewardship

The Investment Manager undertook stewardship activities, including company meetings and voting, during the reference period to understand, monitor and advise on relevant sustainability issues. Further detail and examples are provided below within the actions taken to achieve the environmental and/or social characteristics.

● How did the sustainability indicators perform?

The Investment Manager uses the following sustainability indicators to measure the attainment of the characteristics promoted by the Sub-Fund. The performance of the indicators is provided below, calculated as an average of the quarterly snapshots during the reference period.

PAI Indicator	Metric	Unit of Measure	Fund Value	Coverage (%)
GHG Intensity of investee companies (Table 1 PAI 3)	GHG intensity of investee companies	Metric tonnes of carbon dioxide equivalents per million euro invested (tCO ₂ eq/EURm)	34.23	100.00%
Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4)	Share of investments in investee companies without carbon emissions reduction initiatives aimed at aligning with the Paris Agreement	% of NAV involved	10.63	100.00%
Violations of UNGC & OECD Guidelines for Multinational Enterprises (Table 1 PAI 10)	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	% of NAV involved	0.00	100.00%

Coverage (%): the proportion of the net assets where data is available to present the indicator

Source: Sustainalytics

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **...and compared to previous periods?**

Not applicable. The Sub-Fund launched in 2023.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not commit to make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts

are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered the principal adverse impacts of its investment decisions on sustainability factors, in particular those relating to the environmental and social characteristics promoted by the Sub-Fund. Please see below for the focus PAI indicators and detail on how these indicators were considered by the Investment Manager.

- GHG intensity of investee companies (Table 1 PAI 3)
- Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4)
- Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises (Table 1 PAI 10)

Prior to making an investment, the Investment Manager conducted investment due diligence to evaluate a variety of factors, including relevant sustainability factors. The evaluation includes a quantitative assessment of the impact of the investment on sustainability factors through reference to the indicators identified above. Following the assessment of an investment against the indicators, the Investment Manager decides what action to take with a view to limiting or reducing the identified adverse impact.

An example during 2023 where the due diligence influenced the investment decision was Teleperformance, where due diligence found that the company had a key outsource resource for reviewing controversial material on social media sites. There were only modest levels of human rights protection for the workforce engaged in this activity in countries such as Tunisia and Columbia. The Team contrasted these policies to standards employed in various developed country police services where individuals have to view extreme content for work purposes. As a result, the company was deemed high risk and inappropriate for the strategy and thus avoided.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 02/03/23 – 31/12/23

Largest investments	Sector	% Assets	Country
Cisco Systems, Inc.	Information Technology	5.69	United States
QUALCOMM Incorporated	Information Technology	5.12	United States
Industria de Diseno Textil, S.A.	Consumer Discretionary	4.74	Spain
Sage Group plc	Information Technology	4.71	United Kingdom
Tapestry, Inc.	Consumer Discretionary	3.64	United States
Admiral Group Plc	Financials	3.54	United Kingdom
Samsung Electronics Co., Ltd.	Information Technology	3.50	Korea
Zurich Insurance Group AG	Financials	3.30	Switzerland
KDDI Corporation	Communication Services	3.18	Japan
Johnson & Johnson	Health Care	3.14	United States
Next Plc	Consumer Discretionary	3.05	United Kingdom
Sanofi	Health Care	3.03	France
PepsiCo, Inc.	Consumer Staples	2.97	United States
Omnicom Group Inc	Communication Services	2.64	United States
Kering	Consumer Discretionary	2.62	France

Weights are given as an average over the reference period after the fund launch: 02/03/2023 – 31/12/2023.

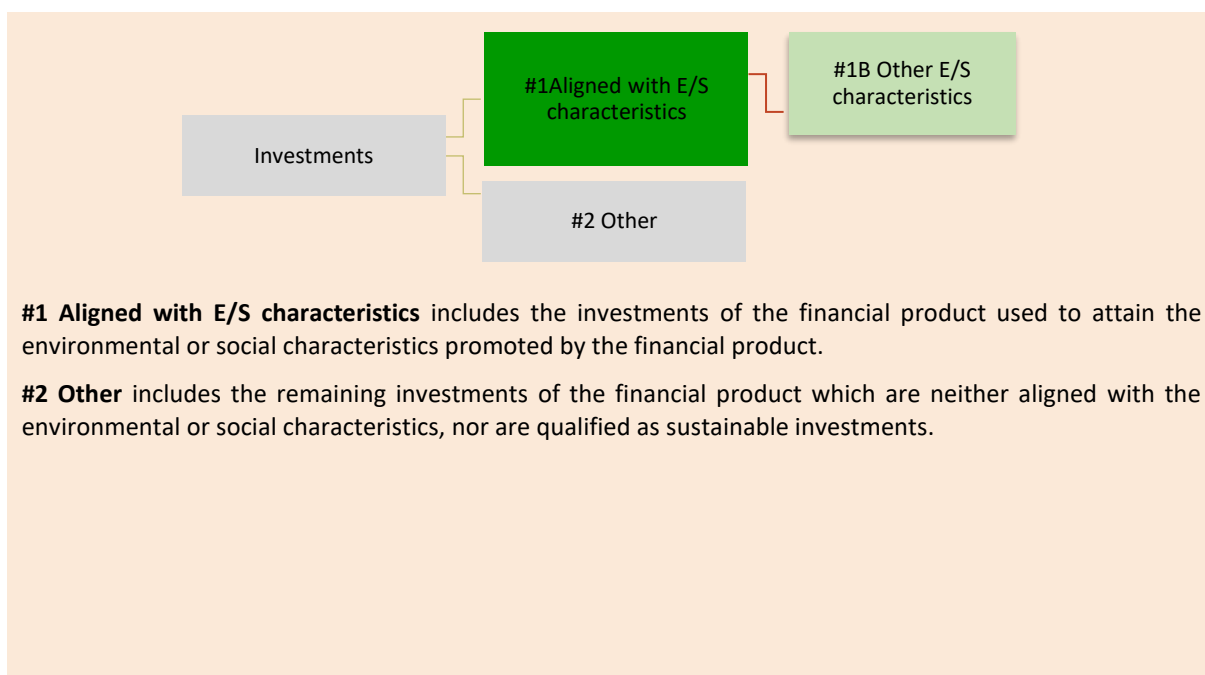

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● *What was the asset allocation?*

The Sub-Fund invested on average 96.39% of its net assets in investments used to attain the environmental and/or social characteristics promoted by the financial product.

The remaining investments were used to achieve the broader objectives of the Sub-Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● *In which economic sectors were the investments made?*

The Sub-Fund made investments in the following economic sectors: Communication Services, Consumer Discretionary, Consumer Staples, Financials, Health Care, Industrials, Information Technology, Real Estate and Utilities.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

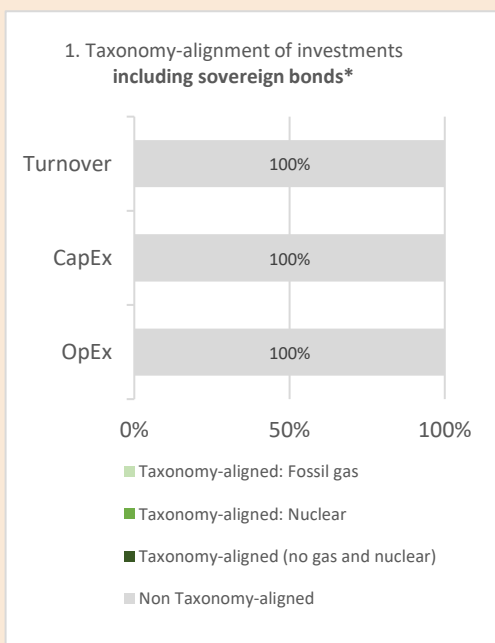

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁸?**
 - Yes:
 - In fossil gas
 - In nuclear energy
 - No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

⁸ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Sub-Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Sub-Fund has not committed to make sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments included the remaining investments of the financial product which were not used to attain the environmental or social characteristics. These investments during the period consisted of cash and cash equivalents. Minimum safeguards were not applied.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The following actions were taken during the reference period:

Security Selection

The Investment Manager applied systematic consideration of relevant sustainability factors within investment due diligence. As part of due diligence, the Investment Manager applied a consistent price per tonne of carbon emitted to all businesses analysed. Companies held during the period were considered to demonstrate the financial ability to suffer carbon costs and the cost of transition.

Stewardship

The Investment Manager undertook stewardship activities during the reference period to understand, monitor and advise on relevant sustainability issues, including voting and company meetings.

In collaboration with Greenwheel, Redwheel's sustainable thematic research team, the Investment Manager used the Human Rights Framework to establish the modern slavery risks associated with an investment, the actions required to resolve these risks, the probability of success, and the framework with which to monitor the ongoing success. For example, this was applied to Inditex, a current holding. The framework set an agenda for the Team along with Greenwheel to engage one-on-one with the company with regard to its processes for assessing and monitoring its supply chain. This not only gave insights into the four stages Inditex apply, but also statistics of the progress – for example 20%-50% of suppliers fail the initial pre assessment process. Further, the Team were able to engage on additional disclosures that would be best practice to deliver, especially in the differentiation of approach in each territory along with the lessons the company is learning from non-compliance issues and how the company is implementing corrective action - for example via collective bargaining and digitalisation of pay. This insight further helps the Team understand the interconnectivity of the spend on IT that the company is making in order for them to achieve the goals of assessing, monitoring and correcting human rights issue throughout the whole supply chain (1,729 suppliers across 8,271 factories, employing 3m people). This then aides the Team in modelling the cost impact of transitioning Inditex to its ESG challenges and establishing flags to monitor the progress, in turn forming the basis of the future engagement plan for Inditex.

Positive Tilt

The Sub-Fund maintained a weighted average ESG risk rating below that of (i.e. superior to) the reference benchmark during the reference period. The Sub-Fund ESG risk rating was an average of 17.8 versus the reference benchmark at 21.3.

The Sub-Fund maintained a weighted average GHG intensity on average 76% lower than the reference benchmark.

[Source: Sustainalytics]

Negative Exclusions

The exclusion criteria were applied on existing and potential securities and no securities in breach were held during the reference period.

How did this financial product perform compared to the reference benchmark?

Not applicable. The Sub-Fund does not utilise a reference benchmark for the purpose of attaining the environmental or social characteristics promoted.

● *How does the reference benchmark differ from a broad market index?*

Not applicable.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Redwheel Sustainable Emerging Markets Fund

Legal entity identifier: 213800QRHPOL3GDXO990

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: ___%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 67.44% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective: ___%**

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics related to global environmental and social objectives, including the United Nations Sustainable Development Goals (“SDGs”).

The environmental and social characteristics were promoted by means of:

Sustainable Investments

The Investment Manager invested over 50% of assets in instruments qualifying as sustainable investments. These companies positively contribute to environmental and/or social objectives, including the United Nations Sustainable Development Goals.

Negative Exclusions

The Investment Manager applied specific hard exclusions on companies that derive income from products and business practices considered to be harmful to the environment or society. The Sub-Fund did not invest in any companies that were in breach with these exclusion criteria during the reference period.

Principal Adverse Impacts (“PAI”)

The Investment Manager considered the negative externalities of investments on sustainability factors as an integrated part of the investment process.

Stewardship

The Investment Manager undertook stewardship activities, including company meetings and voting, during the reference period to understand, monitor and advise on relevant sustainability issues. Further detail and examples are provided within the actions taken to achieve the environmental and/or social characteristics below.

● ***How did the sustainability indicators perform?***

The Investment Manager uses the following sustainability indicators to measure the attainment of the characteristics promoted by the Sub-Fund. The performance of the indicators is provided below:

- Proportion of the Sub-Fund’s Net Asset Value invested in companies that qualified as sustainable investments: 67.44%
- Weighted average sustainable revenues: 57.21%

Weighted average sustainable revenues are calculated as the proportion of the Sub-Fund’s Net Asset Value in underlying revenues of investee companies that were considered to contribute to an environmental and/or social objective.

The performance of the sustainability indicators is provided as an average over the reference period.

Source: SDI AOP, Redwheel

● ***...and compared to previous periods?***

Not applicable. The Sub-Fund was launched in 2023.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Sub-Fund intends to partially invest in instruments qualifying as sustainable investments that positively contribute to environmental and/or social objectives, including the United Nations Sustainable Development Goals, without limitation. The Sub-Fund's sustainable investments were considered to contribute to a number of SDGs, including the following:

- SDG 3: Good Health and Well-Being
- SDG 4: Quality Education
- SDG 6: Clean Water and Sanitation
- SDG 7: Affordable and Clean Energy
- SDG 9: Industry, Innovation and Infrastructure

In order to qualify as a sustainable investment, the company is subject to the Investment Manager's sustainable investments assessment framework. To qualify, a company must contribute positively through the products and services that it offers, measured primarily through the proportion of underlying revenues generated from a sustainable activity, as well as do no significant harm to any environmental or social objective and follow 'good governance' practises.

The Investment Manager integrates third party data and internal analysis into its sustainable activity assessment framework. Further information as to the methodology used by the Investment Manager to define sustainable investments including the applicable threshold may be found on the website

www.redwheel.com/uk/en/professional/funds-and-documents/

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Redwheel sustainable investments assessment framework applies do no significant harm criteria. The assessment was conducted prior to all companies qualifying as sustainable investments. The assessment incorporates consideration of the issuer's operations as well as its products and services. The following criteria were included:

- Material negative contribution to an environmental or social objective from an issuer's products and services will not qualify as a sustainable investment. No issuers with greater than 10% of revenues negatively contributing to environmental and/or social objectives qualified as sustainable investments.
- ESG Risk Rating and Controversy scores, as provided by Sustainalytics or an equivalent third-party sustainability provider.
- Principal adverse impact (PAI) indicators, as detailed below

How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager considered the principal adverse impact (PAI) indicators within the Redwheel sustainable investments framework. All mandatory PAI indicators were considered, as well as optional PAI indicators considered of particular relevance. The assessment seeks to identify the environmental and social risks that relate to the company.

No specific thresholds were set with respect to PAI indicators, but if concerns exist regarding a number of indicators, then the issuer may not qualify as a sustainable investment. In cases where the adverse impacts are identified but do not lead to exclusion, the Investment Manager looked to undertake stewardship activities with companies on the relevant sustainability issues.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes. The Sub-Fund did not invest in any securities that were considered to be in breach of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered the principal adverse impacts of its investment decisions on sustainability factors, in particular those relating to the environmental and social characteristics promoted by the Sub-Fund. Please see the performance of the focus PAI indicators below, calculated as an average of the two quarter-end snapshots from the Sub-Fund’s launch to the end of the reference period. These indicators will continue to be monitored on a quarterly basis.

PAI Indicator	Metric	Unit of Measure	Fund Value	Coverage (%)
Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4)	Share of investments in investee companies without carbon emissions reduction initiatives aimed at aligning with the Paris Agreement	% of NAV involved	68.49	98.02%
Lack of a human rights policy (Table 3 PAI 9)	Share of investments in entities without a human rights policy	% of NAV involved	30.07	97.12%
Board gender diversity (Table 1 PAI 13)	Average ratio of female to male board members in investee companies	%	19.42	98.44%

Coverage (%): the proportion of the net assets where data is available to present the indicator

Source: Sustainalytics

Prior to making an investment, the Investment Manager conducted investment due diligence to evaluate a variety of factors, including relevant sustainability factors. The evaluation includes a quantitative assessment of the impact of the investment on sustainability factors through reference to the indicators identified above.

Following the assessment of an investment against the indicators, the Investment Manager determines the engagement candidates over the investment period. For example, the Investment Manager identifies the highest emitters and highest carbon intensity companies within the portfolio who do not have carbon emission reduction initiatives and targets them for engagement. Similarly, companies with 0% board gender diversity are targeted for engagement. With human rights, the Investment Manager completes preliminary desk research on companies without explicit human rights policies before engaging as it is recognised that human rights considerations may not be uniformly presented across all companies in all geographies. High risk laggards will be targeted.

Past controversies related to any number of PAI topics are considered and reviewed pre-investment. The Investment Manager will not invest in a company until comfortable with the resolution and resulting mitigation. For example, Klabin, a Brazilian paper and pulp company was named in the press in 2023 as having mining interests. The lead analyst and portfolio manager met with the company one-to-one to understand the context of the mining. The company explained, and followed up with an official statement via email, that these were permitted mines they used solely to extract resources needed to build roads for their own operations. Once the Investment Manager was comfortable with this understanding, the company was purchased for the Sub-Fund.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is:
26/09/23 – 31/12/23

Largest investments	Sector	% Assets	Country
ICICI Bank Limited	Financials	5.09	India
RUMO SA	Industrials	4.96	Brazil

PT Bank Mandiri (Persero) Tbk.	Financials	2.89	Indonesia
MediaTek Inc.	Information Technology	2.86	Taiwan
China Mengniu Dairy Co., Ltd.	Consumer Staples	2.84	China
XPeng Inc.	Consumer Discretionary	2.81	China

Weights are given as an average over the period 26/09/2023 – 31/12/2023.

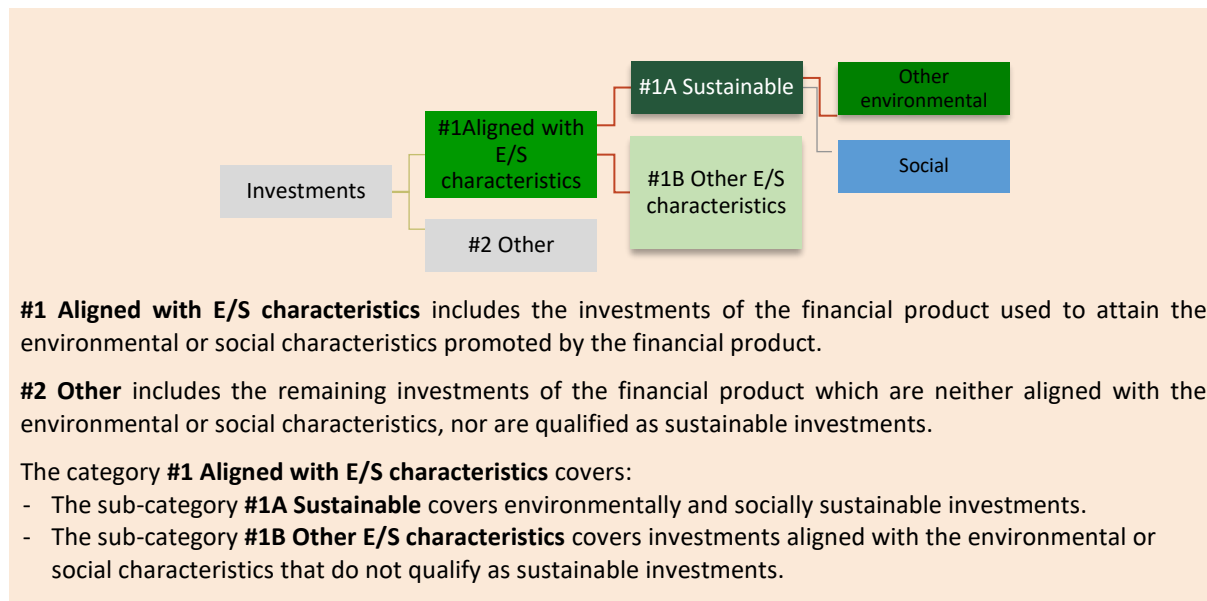

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● *What was the asset allocation?*

The Sub-Fund invested on average 98.81% of its net assets in investments used to attain the environmental and/or social characteristics promoted by the financial product.

The remaining investments were used to achieve the broader objectives of the Sub-Fund.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

The Sub-Fund made investments in the following economic sectors: Communication Services, Consumer Discretionary, Consumer Staples, Financials, Health Care, Industrials, Information Technology, Materials, Real Estate and Utilities.

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable.

● ***Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁹?***

Yes:

In fossil gas In nuclear energy

No

⁹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Sub-Fund invested on average 22.50% of its net assets in sustainable investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The Sub-Fund invested on average 44.94% of its net assets in sustainable investments with a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments included the remaining investments of the financial product which were not used to attain the environmental or social characteristics, but were used to attain the broader objectives of the Sub-Fund. These investments during the period consisted of cash and cash equivalents. Minimum safeguards were not applied.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The following actions were taken during the reference period:

Sustainable Investments

The Redwheel sustainable investments framework was applied for all securities that qualified as sustainable investments. The Sub-Fund invested over 50% of its net assets in sustainable investments at all points during the reference period.

Negative Exclusions

The exclusion criteria were applied on existing and potential securities and no securities in breach were held during the reference period.

Stewardship

The fund launched in September 2023. In preparation and since, the Investment Manager has been engaging with many of the portfolio companies across topics including disclosure of sustainable activities and PAIs. This work is ongoing, but the following examples of stewardship activities were carried out during the reference period:

- **Sustainable Activities Reporting:** The lead analyst, bank sector lead, and portfolio managers had several interactions with BDO Unibank, a Philippines based bank that provides banking services, including saving accounts, investment, loans, credit and debit cards, remittance, insurance, and trade financing services to customers in the Philippines. While the company mentioned financing activity related to the greening of the economy, the disclosures lacked detail. Through several email exchanges and phone calls during the year, the Investment Manager able to identify and quantify these activities and align 30.5% of their loan book as sustainable. The IR and Head of Sustainable Finance intend to have more explicit disclosures of these activities in the upcoming 2023 reports.
- **Board Gender Diversity:** Portfolio company Birlesik Magazalar A.S. operates food and basic consumer goods discount stores in Turkey, had 0% board gender diversity. During a conference call with the lead analyst and portfolio managers in Q3, the company IR explained that the company plans to have 25% women on the Board by 2027. The company’s more immediate focus has been on organizational changes to streamline the CEO and Chairman positions.
- **Carbon Emission Reduction Initiatives:** Portfolio company BIM Birlesik Magazalar A.S. operates food and basic consumer goods discount stores in Turkey, no carbon emission reduction initiatives disclosed, or aligned with SBTi. During a conference call with the lead analyst and PMs in Q3 2023, the company IR shared that the company is aware and working towards SBTi target and should have a plan in two years.
- **Human Rights Policies:** Many of the portfolio companies do not have explicit human rights policies. The Investment Manager has been completing desk work to identify equivalent language in other company disclosures. Similarly, the Investment Manager has used an internal human rights mapping framework to identify areas of highest human rights risk within portfolio sectors. With this desk work done, the Investment Manager will now embark on engaging with specific portfolio companies.

How did this financial product perform compared to the reference benchmark?

Not applicable. The Sub-Fund does not utilise a reference benchmark for the purpose of attaining the environmental or social characteristics promoted.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

● ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Redwheel Clean Economy Fund

Legal entity identifier: 213800MJ4TGKD6F3EK73

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 57.12% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Redwheel Clean Economy Fund was launched on 14th November 2023 so the reference period for the Sub-Fund covers the time from the launch of the Sub-Fund to the end of 2023.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promotes environmental and social characteristics related to positive impact on environmental themes.

These environmental and social characteristics were promoted by means of:

Sustainable Investments

The Investment Manager invested over 50% of assets in instruments qualifying as sustainable investments. These companies positively contribute to environmental and/or social objectives, including the United Nations Sustainable Development Goals, with focus on environmental themes.

Principal Adverse Impact (“PAI”)

The Investment Manager considered the negative externalities of investments on sustainability factors as an integrated part of the investment process.

Positive Tilt

The Investment Manager maintained a positive tilt at the portfolio level towards issuers able to demonstrate effective management of sustainability issues.

Negative Exclusions

The Investment Manager applied specific hard exclusions on companies that derive income from products and business practices considered to be harmful to the environment or society. The Sub-Fund did not invest in any companies that were in breach with these exclusion criteria during the reference period.

Stewardship

The Investment Manager undertook stewardship activities, including company meetings and voting, during the reference period to understand, monitor and advise on relevant sustainability issues.

Further detail and examples are provided within the actions taken to achieve the environmental and/or social characteristics below.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● ***How did the sustainability indicators perform?***

The Investment Manager uses the following sustainability indicators to measure the attainment of the characteristics promoted by the Sub-Fund. The performance of the indicators is provided below:

- Proportion of the Sub-Fund’s Net Asset Value invested in companies that qualified as sustainable investments: 57.12%
- Weighted average sustainable revenues: 48.92%

Weighted average sustainable revenues are calculated as the proportion of the Sub-Fund’s Net Asset Value in underlying revenues of investee companies that were considered to contribute to an environmental and/or social objective.

The performance of the sustainability indicators is provided as an average over the reference period.

Source: SDI AOP, Redwheel

● ***...and compared to previous periods?***

Not applicable. The Sub-Fund was launched in 2023.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Sub-Fund intends to partially invest in instruments qualifying as sustainable investments that positively contribute to environmental and/or social objectives, including the United Nations Sustainable Development Goals, without limitation. The Sub-Fund's sustainable investments were considered to contribute to a number of SDGs, including the following:

- SDG 7: Affordable and Clean Energy
- SDG 11: Sustainable Cities and Communities
- SDG 12: Responsible Consumption and Production
- SDG 13: Climate Action

In order to qualify as a sustainable investment, the company is subject to the Investment Manager's sustainable investments assessment framework. To qualify, a company must contribute positively through the products and services that it offers, measured primarily through the proportion of underlying revenues generated from a sustainable activity, as well as do no significant harm to any environmental or social objective and follow 'good governance' practises. The case for positive contribution may be supplemented if the company demonstrates significant contribution through alternative measures such as operational expenditure or capital expenditure.

The Investment Manager integrates third party data and internal analysis into its sustainable activity assessment framework. Further information as to the methodology used by the Investment Manager to define sustainable investments including the applicable threshold may be found on the website www.redwheel.com/uk/en/professional/funds-and-documents/

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Redwheel sustainable investments assessment framework applies do no significant harm criteria. The assessment was conducted prior to all companies qualifying as sustainable investments. The assessment incorporates consideration of the issuer's operations as well as its products and services. The following criteria were included:

- Material negative contribution to an environmental or social objective from an issuer's products and services will not qualify as a sustainable investment. No issuers with greater than 10% of revenues negatively contributing to environmental and/or social objectives qualified as sustainable investments.
- Assessment of ESG risk and controversy, informed by ratings as provided by Sustainalytics or an equivalent third-party sustainability provider.
- Principal adverse impact (PAI) indicators, as detailed below

How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager considered the principal adverse impact (PAI) indicators within the Redwheel sustainable investments framework. All mandatory PAI indicators were considered, as well as optional PAI indicators considered of particular relevance. The assessment seeks to identify the environmental and social risks that relate to the company.

No specific thresholds were set with respect to PAI indicators, but if concerns exist regarding a number of indicators, then the issuer may not qualify as a sustainable investment. In cases where the adverse impacts are identified but do not lead to exclusion, the Investment Manager looked to undertake stewardship activities with companies on the relevant sustainability issues.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes. The Sub-Fund did not invest in any securities that were considered to be in breach of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered the principal adverse impacts of its investment decisions on sustainability factors, in particular those relating to the environmental and social characteristics promoted by the Sub-Fund. Please see below for the performance of the focus PAI indicators, provided as at the end of the reference period. These indicators will continue to be monitored on a quarterly basis.

PAI Indicator	Metric	Unit of Measure	Fund Value	Coverage (%)
Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4)	Share of investments in investee companies without carbon emissions reduction initiatives aimed at aligning with the Paris Agreement	% of NAV involved	27.95	93.02%
Lack of a human rights policy (Table 3 PAI 9)	Share of investments in entities without a human rights policy	% of NAV involved	5.50	93.02%
Lack of processes and compliance mechanisms to monitor compliance with UNGC and OECD Guidelines (Table 1 PAI 11)	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance /complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	% of NAV involved	40.79	93.02%

Coverage (%): the proportion of the net assets where data is available to present the indicator

Prior to making an investment, the Investment Manager conducted investment due diligence to evaluate a variety of factors, including relevant sustainability factors. The evaluation includes a quantitative assessment of the impact of the investment on sustainability factors through reference to the indicators identified above. Following the assessment of an investment against the indicators, the Investment Manager decides what action to take with a view to limiting or reducing the identified adverse impact.

Source: Sustainalytics

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 14/11/23 – 31/12/23

Largest investments	Sector	% Assets	Country
Schneider Electric SE	Industrials	4.33	France
Veralto Corporation	Industrials	3.63	United States
Contemporary Amperex Technology Co., Limited	Industrials	3.54	China
DSM-Firmenich AG	Materials	3.27	Netherlands
Hexagon AB	Information Technology	3.27	Sweden
NextEra Energy, Inc.	Utilities	3.22	United States
Shoals Technologies Group, Inc.	Industrials	3.05	United States
National Grid Plc	Utilities	2.79	United Kingdom
Xylem Inc.	Industrials	2.68	United States
Enel S.p.A.	Utilities	2.61	Italy
Veolia Environnement SA	Utilities	2.55	France
Ball Corporation	Materials	2.54	United States
Siemens Aktiengesellschaft	Industrials	2.54	Germany
First Solar, Inc.	Information Technology	2.48	United States
Ameresco, Inc.	Industrials	2.45	United States

Weights are given as an average over the period 14/11/2023 – 31/12/2023.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The Sub-Fund invested on average 98.53% of its net assets in investments used to attain the environmental and/or social characteristics promoted by the financial product.

The remaining investments were used to achieve the broader objectives of the Sub-Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● ***In which economic sectors were the investments made?***

The Sub-Fund made investments in the following economic sectors: Consumer Discretionary, Consumer Staples, Financials, Health Care, Industrials, Information Technology, Materials, and Utilities.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● ***Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹⁰?***

Yes:

In fossil gas In nuclear energy

No

¹⁰ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Sub-Fund invested on average 54.90% of its net assets in sustainable investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The Sub-Fund invested on average 2.13% of its net assets in sustainable investments with a social objective.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments included the remaining investments of the financial product which were not used to attain the environmental or social characteristics. These investments during the period consisted of cash and cash equivalents. Minimum safeguards were not applied.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The following actions were taken during the reference period:

Sustainable Investments

The Redwheel sustainable investments framework was applied for all securities that qualified as sustainable investments. The Sub-Fund invested over 50% of its net assets in sustainable investments at all points during the reference period.

Stewardship

The Investment Manager undertook stewardship activities during the reference period to understand, monitor and advise on relevant sustainability issues, including voting and company meetings. The Investment Manager’s fundamental analysis of companies seeks to identify unmitigated risks, including sustainability or ESG risk. Where the Investment Manager believes there is no scope for mitigation, this will be considered as a potential engagement candidate.

Positive Tilt

The Sub-Fund maintained a weighted average ESG risk rating below that of (i.e. superior to) the reference benchmark during the reference period. The Sub-Fund ESG risk rating was an average of 18.7 versus the reference benchmark at 21.6. [Source: Sustainalytics]

Negative Exclusions

The exclusion criteria were applied on existing and potential securities and no securities in breach were held during the reference period.

How did this financial product perform compared to the reference benchmark?

Not applicable. The Sub-Fund does not utilise a reference benchmark for the purpose of attaining the environmental or social characteristics promoted.

● *How does the reference benchmark differ from a broad market index?*

Not applicable.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Not applicable.

● *How did this financial product perform compared with the reference benchmark?*

Not applicable.

● *How did this financial product perform compared with the broad market index?*

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Redwheel Biodiversity Fund

Legal entity identifier: 213800WWQA3RPLIPU45

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ____%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 63.76% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promotes environmental and social characteristics related to positive impact on biodiversity.

These environmental and social characteristics were promoted by means of:

Sustainable Investments

The Investment Manager invested over 50% of assets in instruments qualifying as sustainable investments. These companies positively contribute to environmental and/or social objectives, including the United Nations Sustainable Development Goals, with focus on biodiversity.

Principal Adverse Impact (“PAI”)

The Investment Manager considered the negative externalities of investments on sustainability factors as an integrated part of the investment process.

Positive Tilt

The Investment Manager maintained a positive tilt at the portfolio level towards issuers able to demonstrate effective management of sustainability issues.

Negative Exclusions

The Investment Manager applied specific hard exclusions on companies that derive income from products and business practices considered to be harmful to the environment or society. The Sub-Fund did not invest in any companies that were in breach with these exclusion criteria during the reference period.

Stewardship

The Investment Manager undertook stewardship activities, including company meetings and voting, during the reference period to understand, monitor and advise on relevant sustainability issues.

Further detail and examples are provided within the actions taken to achieve the environmental and/or social characteristics below.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● *How did the sustainability indicators perform?*

The Investment Manager uses the following sustainability indicators to measure the attainment of the characteristics promoted by the Sub-Fund. The performance of the indicators is provided below:

- Proportion of the Sub-Fund’s Net Asset Value invested in companies that qualified as sustainable investments: 63.76%
- Weighted average sustainable revenues: 49.90%

Weighted average sustainable revenues are calculated as the proportion of the Sub-Fund’s Net Asset Value in underlying revenues of investee companies that were considered to contribute to an environmental and/or social objective.

The performance of the sustainability indicators is provided as an average over the reference period.

Source: SDI AOP, Redwheel

● *...and compared to previous periods?*

Not applicable. The Sub-Fund was launched in 2023.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Sub-Fund intends to partially invest in instruments qualifying as sustainable investments that positively contribute to environmental and/or social objectives, including the United Nations Sustainable Development Goals, without limitation. The Sub-Fund's sustainable investments were considered to contribute to a number of SDGs, including the following:

- SDG 6: Clean Water and Sanitation
- SDG 12: Responsible Consumption and Production
- SDG 14: Life Below Water
- SDG 15: Life On Land

In order to qualify as a sustainable investment, the company is subject to the Investment Manager's sustainable investments assessment framework. To qualify, a company must contribute positively through the products and services that it offers, measured primarily through the proportion of underlying revenues generated from a sustainable activity, as well as do no significant harm to any environmental or social objective and follow 'good governance' practises. The case for positive contribution may be supplemented if the company demonstrates significant contribution through alternative measures such as operational expenditure or capital expenditure.

The Investment Manager integrates third party data and internal analysis into its sustainable activity assessment framework. Further information as to the methodology used by the Investment Manager to define sustainable investments including the applicable threshold may be found on the website www.redwheel.com/uk/en/professional/funds-and-documents/

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Redwheel sustainable investments assessment framework applies do no significant harm criteria. The assessment was conducted prior to all companies qualifying as sustainable investments. The assessment incorporates consideration of the issuer's operations as well as its products and services. The following criteria were included:

- Material negative contribution to an environmental or social objective from an issuer's products and services will not qualify as a sustainable investment. No issuers with greater than 10% of revenues negatively contributing to environmental and/or social objectives qualified as sustainable investments.
- Assessment of ESG risk and controversy, informed by ratings as provided by Sustainalytics or an equivalent third-party sustainability provider.
- Principal adverse impact (PAI) indicators, as detailed below

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

The Investment Manager considered the principal adverse impact (PAI) indicators within the Redwheel sustainable investments framework. All mandatory PAI indicators were considered, as well as optional PAI indicators considered of particular relevance. The assessment seeks to identify the environmental and social risks that relate to the company.

No specific thresholds were set with respect to PAI indicators, but if concerns exist regarding a number of indicators, then the issuer may not qualify as a sustainable investment. In cases where the adverse impacts are identified but do not lead to exclusion, the Investment Manager looked to undertake stewardship activities with companies on the relevant sustainability issues.

— **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Yes. The Sub-Fund did not invest in any securities that were considered to be in breach of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered the principal adverse impacts of its investment decisions on sustainability factors, in particular those relating to the environmental and social characteristics promoted by the Sub-Fund. Please see below for the performance of the focus PAI indicators, provided as at the end of the reference period. These indicators will continue to be monitored on a quarterly basis.

PAI Indicator	Metric	Unit of Measure	Fund Value	Coverage (%)
Investments in companies without carbon emission reduction initiatives (Table 2 PAI 4)	Share of investments in investee companies without carbon emissions reduction initiatives aimed at aligning with the Paris Agreement	% of NAV involved	35.63	95.09%
Lack of a human rights policy (Table 3 PAI 9)	Share of investments in entities without a human rights policy	% of NAV involved	10.24	93.70%
Lack of processes and compliance mechanisms to monitor compliance with UNGC and OECD Guidelines (Table 1 PAI 11)	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance /complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	% of NAV involved	54.14	92.75%

Coverage (%): the proportion of the net assets where data is available to present the indicator

Prior to making an investment, the Investment Manager conducted investment due diligence to evaluate a variety of factors, including relevant sustainability factors. The evaluation includes a quantitative assessment of the impact of the investment on sustainability factors through reference to the indicators identified above. Following the assessment of an investment against the indicators, the Investment Manager decides what action to take with a view to limiting or reducing the identified adverse impact.

Weights are given as an average over the period 10/10/2023 – 31/12/2023.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The Sub-Fund invested on average 97.89% of its net assets in investments used to attain the environmental and/or social characteristics promoted by the financial product.

The remaining investments were used to achieve the broader objectives of the Sub-Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● ***In which economic sectors were the investments made?***

The Sub-Fund made investments in the following economic sectors: Communication Services, Consumer Discretionary, Consumer Staples, Energy, Financials, Health Care, Industrials, Information Technology, Materials, and Utilities.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● ***Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹¹?***

Yes:

In fossil gas In nuclear energy

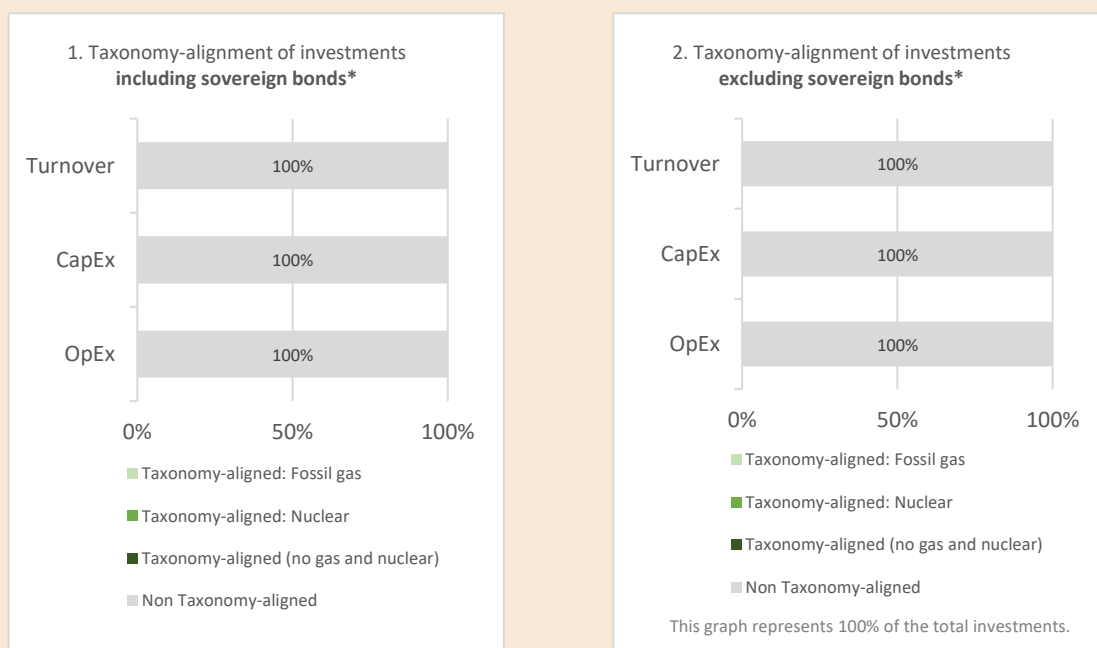

No

¹¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Sub-Fund invested on average 60.48% of its net assets in sustainable investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The Sub-Fund invested on average 3.11% of its net assets in sustainable investments with a social objective.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The “Other” investments included the remaining investments of the financial product which were not used to attain the environmental or social characteristics. These investments during the period consisted of cash and cash equivalents. Minimum safeguards were not applied.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The following actions were taken during the reference period:

Sustainable Investments

The Redwheel sustainable investments framework was applied for all securities that qualified as sustainable investments. The Sub-Fund invested over 50% of its net assets in sustainable investments at all points during the reference period.

Stewardship

The Investment Manager undertook stewardship activities during the reference period to understand, monitor and advise on relevant sustainability issues, including voting and company meetings. The Investment Manager’s fundamental analysis of companies seeks to identify unmitigated risks, including sustainability or ESG risk. Where the Investment Manager believes there is no scope for mitigation, this will be considered as a potential engagement candidate.

Positive Tilt

The Sub-Fund maintained a weighted average ESG risk rating below that of (i.e. superior to) the reference benchmark during the reference period. The Sub-Fund ESG risk rating was an average of 19.4 versus the reference benchmark at 21.7. [Source: Sustainalytics]

Negative Exclusions

The exclusion criteria were applied on existing and potential securities and no securities in breach were held during the reference period.

How did this financial product perform compared to the reference benchmark?

Not applicable. The Sub-Fund does not utilise a reference benchmark for the purpose of attaining the environmental or social characteristics promoted.

● *How does the reference benchmark differ from a broad market index?*

Not applicable.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Not applicable.

● *How did this financial product perform compared with the reference benchmark?*

Not applicable.

● *How did this financial product perform compared with the broad market index?*

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX V

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: Redwheel Life Changing Treatments Fund

Legal entity identifier: 213800IWBGTGYIIAXXI77

Sustainable investment objective

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** 97.31%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Redwheel Life Changing Treatments Fund was launched on 31st October 2023 so the reference period for the Sub-Fund covers only the time from the launch of the Sub-Fund to the end of 2023.

To what extent was the sustainable investment objective of this financial product met?

The sustainable investment objective is to support the United Nations Sustainable Development Goals (SDGs) by investing in companies that contribute to targets defined by one or more SDGs with a focus on SDG 3, Good Health and Well-Being.

To achieve this, the Sub-Fund invested in issuers that qualified as sustainable investments, through the Investment Manager's sustainable investments assessment framework. To qualify, a company must contribute positively through the products and services that it offers, measured primarily through the proportion of underlying revenues generated from a sustainable activity, as well as do no significant harm to any environmental or social objective and follow 'good governance' practises. The case for positive contribution may be supplemented if the company demonstrates significant contribution through alternative measures such as operational expenditure or capital expenditure.

The Investment Manager integrates third party data and internal analysis into its sustainable investment assessment framework. Further information as to the methodology used by the Investment Manager to define sustainable investments including the applicable threshold may be found on the website www.redwheel.com/uk/en/professional/funds-and-documents/

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

● **How did the sustainability indicators perform?**

The Investment Manager uses the following sustainability indicators to measure the attainment of the sustainable investment objective of the Sub-Fund. The performance of the indicators is provided below.

- Proportion of the Sub-Fund's Net Asset Value qualified as sustainable investments: 97.31%. The remaining investments were in cash and cash equivalents.
- Weighted average sustainable revenues: 88.03%

Weighted average sustainable revenues are calculated as the proportion of the Sub-Fund's Net Asset Value in underlying revenues of investee companies that are considered to contribute to an environmental and/or social objective.

The above figures are provided as an average from the launch of the Sub-Fund to the end of the reference period.

● **...and compared to previous periods?**

Not applicable. The Sub-Fund was launched in 2023.

● **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

The Redwheel sustainable investments assessment framework applies do no significant harm criteria. The assessment was conducted prior to all companies qualifying as sustainable investments. The assessment incorporates consideration of the issuer's operations as well as its products and services. The following criteria were included:

- Material negative contribution to an environmental or social objective from an issuer's products and services will not qualify as a sustainable investment. No issuers with greater than 10% of revenues negatively contributing to environmental and/or social objectives qualified as sustainable investments.
- ESG Risk Rating and Controversy scores, as provided by Sustainalytics or an equivalent third-party sustainability provider.
- Principal adverse impact (PAI) indicators, as detailed below

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

The Investment Manager considered the principal adverse impact (PAI) indicators within the Redwheel sustainable investments framework. All mandatory PAI indicators were considered, as well as optional PAI indicators considered of particular relevance.

No specific thresholds were set with respect to PAI indicators.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes. The Sub-Fund did not invest in any issuers that were considered to be in breach of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered the principal adverse impacts of its investment decisions on sustainability factors, in particular those relating to the sustainable investment objective of the Sub-Fund. Please see below for the performance of the focus PAI indicators, calculated as at the end of the reference period.

PAI Indicator	Metric	Unit of Measure	Fund Value	Coverage (%)
GHG Intensity of investee companies (Table 1 PAI 3)	GHG intensity of investee companies	Metric tonnes of carbon dioxide equivalents per million euro invested (tCO ₂ eq/EURm)	15.01	100.00%
Natural species and protected areas (Table 2 PAI 14)	Share of investments in investee companies whose operations affect threatened species	% of NAV involved	0.00	100.00%
Natural species and protected areas (Table 2 PAI 14)	Share of investments in investee companies without a biodiversity protection policy covering operational sites owned, leased, managed in, or adjacent to, a protected area or an area of high biodiversity value outside protected areas	% of NAV involved	92.91	98.48%
Presence / absence of a supplier code of conduct (Table 3 PAI 4)	Share of investments in investee companies without any supplier code of conduct (against unsafe working conditions, precarious work, child labour and forced labour)	% of NAV involved	14.48	100.00%

Coverage (%): the proportion of the net assets where data is available to present the indicator

Prior to making an investment, the Investment Manager conducted investment due diligence to evaluate a variety of factors, including relevant sustainability factors. The evaluation includes a quantitative assessment of the impact of the investment on sustainability factors through reference to the indicators identified above. Following the assessment of an investment against the indicators, the Investment Manager decides what action to take with a view to limiting or reducing the identified adverse impact.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31/10/23 – 31/12/23

Largest investments	Sector	% Assets	Country
Novo Nordisk A/S	Health Care	4.70	Denmark
Abbott Laboratories	Health Care	4.54	United States
Eli Lilly and Company	Health Care	4.35	United States
Sanofi	Health Care	3.99	France
DexCom, Inc.	Health Care	3.85	United States
Exact Sciences Corporation	Health Care	3.74	United States
Bumrungrad Hospital Public Co., Ltd.	Health Care	3.24	Thailand
Hologic, Inc.	Health Care	3.05	United States
Boston Scientific Corporation	Health Care	3.04	United States
HCA Healthcare, Inc.	Health Care	2.99	United States
Thermo Fisher Scientific Inc.	Health Care	2.97	United States
Edwards Lifesciences Corporation	Health Care	2.86	United States
Novartis AG	Health Care	2.84	Switzerland
AstraZeneca	Health Care	2.69	United Kingdom
PT Kalbe Farma Tbk	Health Care	2.68	Indonesia

Weights are given as an average over the period 31/10/2023 – 31/12/2023.

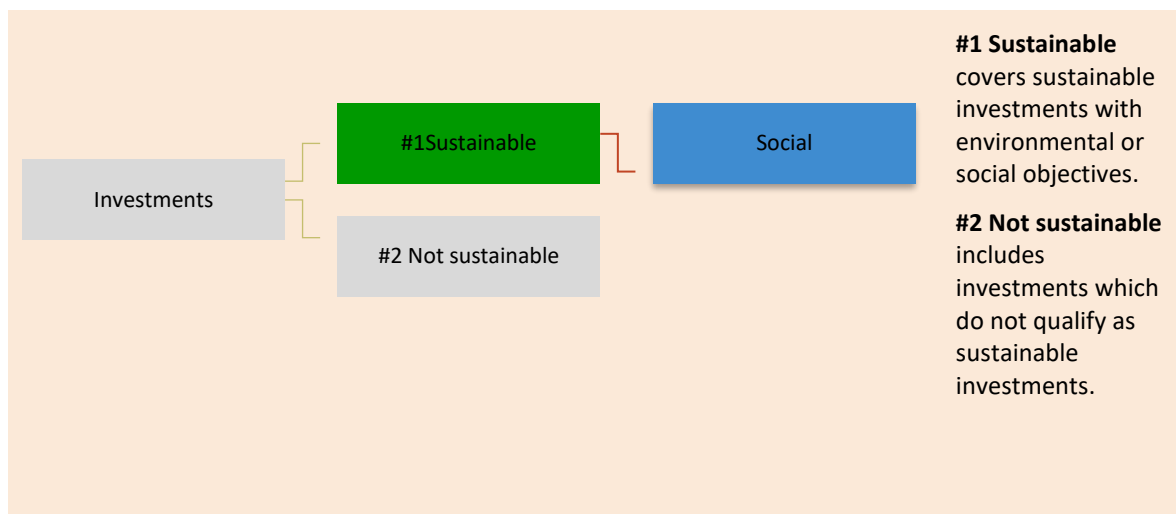

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

The Sub-Fund invested on average 97.31% of its net assets in sustainable investments used to attain the sustainable investment objective.

The remaining investments were used to achieve the broader objectives of the Sub-Fund.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

The Sub-Fund made investments in the Health Care sector.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹²?**

Yes:

In fossil gas

In nuclear energy

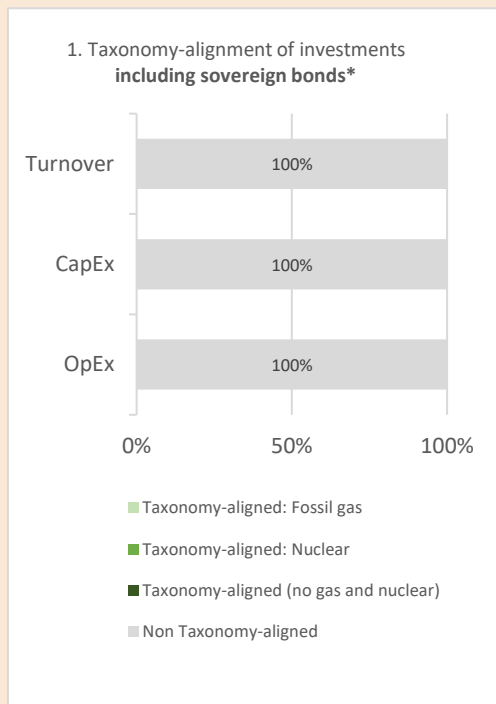

No

¹² Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

- **What was the share of investments made in transitional and enabling activities?**
Not applicable.
- **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**
Not applicable. The Sub-Fund launched in 2023.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

 **What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?**
The Sub-Fund invested 0% of its net assets in sustainable investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The Sub-Fund invested on average 97.31% of its net assets in socially sustainable investments.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

The investments included under “not sustainable” consisted of cash and cash equivalents. Minimum safeguards were not applied.

What actions have been taken to attain the sustainable investment objective during the reference period?

The following actions were taken during the reference period.

Sustainable Investments

The Redwheel sustainable investments framework was applied for all securities that qualified as sustainable investments. No investments were made in equity securities issued by companies that did not qualify as sustainable investments.

Negative Exclusions

The exclusion criteria were applied on existing and potential securities and no securities in breach were held during the reference period.

Stewardship

Given the Sub-Fund launched at the end of October, the Investment Manager did not fully undertake stewardship activities during the reference period. For example, there were no votes in which the Investment Manager could participate. During the Sub-Fund’s first full year, 2024, the Investment Manager expects to undertake stewardship activities during the reference period to understand, monitor and advise on relevant sustainability issues, including voting and company meetings.

How did this financial product perform compared to the reference sustainable benchmark?

Not applicable. The Sub-Fund does not utilise a reference benchmark for the purpose of attaining the sustainable investment objective.

● **How did the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?**

Not applicable.

● **How did this financial product perform compared with the reference benchmark?**

Not applicable.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.
