What is this product?

Type: Shares of a Sub-Fund of CPR Invest, a SICAV.

Term: This Sub-Fund matures on 29/02/2028. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: The investment objective is to achieve income and capital appreciation over a recommended holding period of 5 years by building a "buy and watch" diversified credit portfolio, which contributes to the European recovery and resilience, while integrating Environmental, Social and Governance (E, S, and G - or, when taken together, ESG) criteria in the investment process.

This Compartment will launch on 27 February 2023 or such earlier or later date as the Management Company may determine (the "Launch Date") and will mature on 29 February 2028 (the "Maturity Date").

To achieve this, the Compartment aims to select securities of companies active in economic sectors that have a direct or indirect link with Europe's resilience and/or that contribute to Europe's economic autonomy and development such as Food, Healthcare, Industrials, Energy, Digital, Defense... The Management Company integrates a sustainable approach by excluding companies based on the following :

- worst overall ESG ratings;
- high ESG controversies;

The Compartment seeks to achieve an ESG score of its portfolio greater than that of its reference index or investment universe.

The Compartment is mainly invested in Euro and US dollar-denominated bonds issued by public (government, supranational, local/international public bodies) and private issuers incorporated, headquartered or having their principal business activities in the European Union.

The Compartment invests at least 50% in securities rated "Investment Grade".

The Compartment can be invested up to 50% of its assets in securities rated "Speculative Grade".

The Compartment's investments may include, but are not limited to, subordinated bonds, senior bonds, preferred securities and perpetual bonds (within a limit of 25% of its assets for perpetual bonds). The Sub-Fund may invest up to 25% in corporate hybrid bonds.

Derivative instruments will be used for hedging, arbitrage, exposure purposes and/or efficient portfolio management.

The Compartment is actively managed and is not managed in reference to a benchmark.

The Compartment is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period and who are prepared to take on a high level of risk to their original capital.

Redemption and Dealing: Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the CPR Invest prospectus.

Distribution Policy: As this is a non-distributing share class, investment income is reinvested.

More Information: You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: CPR Asset Management at 91-93, boulevard Pasteur – CS 61595 – 75730 Paris Cedex 15.

The Net Asset Value of the Sub-Fund is available on www.cpr-am.com.

Depositary: CACEIS Bank, Luxembourg Branch.

What are the risks and what could I get in return?

RISK INDICATOR

Lower Risk

Higher Risk

The risk indicator assumes you keep the product until 29/02/2028.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Sub-Fund over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the CPR Invest prospectus.

The figures shown include all the costs of the product itself, but may or may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

This type of scenario occurred for an investment using a suitable proxy.

Favourable scenario: this type of scenario occurred for an investment between 29/03/2013 and 30/03/2018.

Moderate scenario: this type of scenario occurred for an investment between 31/12/2013 and 31/12/2018

Unfavourable scenario: this type of scenario occurred for an investment between 30/07/2021 and 30/03/2023 .

What happens if CPR Asset Management is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of CPR Invest. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- CZK 10,000 is invested.
