What is this product?

Type

The Fund is an open-ended investment company organized under Part I of the 2010 Law as a société d'investissement à capital variable ("SICAV"). The Fund has an umbrella structure consisting of one or several Sub-Funds. A separate portfolio of assets is maintained for each Sub-Fund and is invested in accordance with the investment objective and policy applicable to that Sub-Fund.

Term

The Fund is incorporated for an unlimited period and liquidation shall normally be decided upon by an extraordinary general meeting of shareholders subject to the quorum and majority requirements applicable for amendments to the Fund's articles of incorporation.

Objective

The investment objective of the Sub-Fund is to generate returns. To achieve this objective, the Fund will invest at least 80% in transferable debt securities and money market instruments issued or guaranteed by sovereigns, supra-nationals, and/or multilaterals from Emerging Markets denominated in local currency. Up to 20% may be invested in transferable debt securities and money market instruments from anywhere in the world. It will not exceed 49% of its Net Asset Value in money market instruments, cash and cash equivalent accounts. The sub-fund may have exposure in structured debt securities and financial derivatives.

The Sub-Fund may perform derivative trades in order to hedge positions or to increase its returns. Within this scope, the choice of the individual assets is performed by the Fund.

The benchmark for the Sub-Fund is: 100 % JPM® GBI-EM Global Diversified EUR unhedged.

The Sub-Fund is actively managed and not constrained by any benchmark.

What are the risks and what could I get in return?

Risk Indicator

 The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this financial product compared to other products. It shows how likely it is that the

The Fund may freely select the securities in which it will invest in. The Fund's performance is compared against and the Fund aims to provide a performance greater than the Benchmark. The Fund does not base its investment process upon the index so it will not hold every component in the Index.

The Sub-Fund promotes environmental and/or social characteristics within the meaning of Article 8 (1) SFDR; however, it does not have sustainable investments as its objective.

Investors may subscribe, convert and redeem shares every bank business day in Luxembourg, except on the 24th of December of each year and Good Friday, no later than noon (Luxembourg time) on the relevant valuation day.

Income shall remain in the sub-fund.

Intended Retail Investor

This Share Class is available only to Professional or Institutional Investors and financial intermediaries acting on behalf of Professional Investors. Investors have to qualify as Institutional Investors within the meaning of Article 174 (2) c) of the 2010 Law.

Further Information

The depositary of the fund is The Bank of New York Mellon S.A. NV, Luxembourg Branch.

Prospective investors should review this document as well as the Fund's prospectus carefully and consult with their legal and financial advisors to determine possible tax or other consequences of purchasing, holding or redeeming shares of the Fund.

product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the Fund's capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the PRIIP not included in the summary risk indicator:

Counterparty, credit, market, derivatives, liquidity, settlement, emerging market, currency, market crisis and governmental intervention, management and lower rated ,higher yielding and non-investment grade debt risks.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years.

Recommended holding period:		3 years	
Example Investment:		10,000 EUR	
		If you exit after 1 year	If you exit after 3 years
Scenarios

What happens if Global Evolution Asset Management A/S is unable to pay out?

Investors may face a financial loss (equal to some or all of the investments made) due to the default of the Fund's issuers or devaluation of securities held by the Fund. In the event of a loss of a financial instrument held in custody, determined in accordance with the UCITS Directive the Depositary shall return financial instruments of identical type or the corresponding amount to the Fund on behalf of the relevant Sub-Fund without undue delay. The Depositary will be liable to the Fund for all other losses suffered by the Fund as a result of the Depositary's negligent or intentional failure to properly fulfil its obligations pursuant to the UCITS Directive.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000.00 per year is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	217 EUR	668 EUR
Annual cost impact (*)	2.2%	2.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.5% before costs and 0.3% after costs.

Composition of costs

How long should I hold it and can I take money out early?

Recommended holding period: 3 years.

The Management Company has defined the following three categories - Defensive, Neutral and Dynamic- when describing the investment horizon for the investor and anticipated volatility of the Sub-Funds.

This Sub-Fund is dynamic. Sub-Funds in the Dynamic category are typically suitable for investors with a long-term investment horizon of at least three (3) years. These Sub-Funds are intended to provide additional exposure for more experienced investors in equity, or equity-related securities, debt instruments or currencies in less developed or emerging markets which may be subject to higher volatility.

The Share Class has no hard lock-up; redemptions are available daily. Information costs generally can be found in the section above "What are the Costs?", in particular information on the variation of costs depending on investment period.
