What is this product?

Type

Short Dated Enhanced Income Fund (the "Fund") is a US Dollar denominated sub-fund of a SICAV (société d'investissement à capital variable), abrdn SICAV I, incorporated in Luxembourg.

Term

abrdn SICAV I (the "Company") has no maturity date. The Fund and the Company may not be unilaterally terminated by abrdn Investments Luxembourg S.A.

Objective

The Fund aims to achieve a combination of income and growth, whilst also aiming to provide liquidity and avoid loss of capital, by investing in bonds with a maturity of up to 5 years.

The Fund aims to achieve a yield in excess of the Bloomberg Global Corporate Aggregate 1-3 Year Index (USD Hedged) over rolling three-year periods (before charges).

Portfolio Securities

- The Fund invests at least 70% of its assets in bonds issued by corporations and governments anywhere in the world with a maturity of up to 5 years, including sub-sovereigns, inflation-linked and convertible bonds.

- At least 50% of the Fund's assets will be invested in investment grade bonds issued by corporations.

- The Fund may invest up to 20% in sub-investment grade bonds.

- Non-US Dollar denominated assets will typically be hedged back to US Dollars.

Management Process

- The Fund is actively managed without reference to a benchmark.

- The investment team will seek to maintain a minimum average credit rating of A- and an average duration within a range of one year to two years for the portfolio in normal circumstances. While this may fluctuate, duration will not exceed two and a half years at any time.

Derivatives and Techniques

The Fund may use investment techniques (including Derivatives) to seek to protect the value of the Fund and to manage the Fund's risks. Derivatives, such as futures, options and swaps, are linked to the rise and fall of other assets. In other words, they 'derive' their price from another asset. They can generate returns when share prices and/or indices fall.

This fund is subject to Article 6 of the Sustainable Finance Disclosure Regulation ("SFDR").

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus). If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

Intended Retail Investor

This Fund gives access to a global range of bonds and money-market instruments and may be suitable for investors willing to accept a medium level of risk within the fixed income investment spectrum. The Fund is intended to be held by investors who have a medium-term investment horizon.

The Fund's depository is Citibank Europe plc Luxembourg Branch. The prospectus, the articles of association, the annual reports and interim reports may be obtained free of charge from our website or via the contact details in 'Other relevant information'. All documents are available in English and German; the prospectus is also available in French and Italian. What are the risks and what could I get in return?

Risk Indicator

Lower risk Higher risk

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you sell it at an earlier stage. The value of investments and the income from them can go down as well as up, and you may get back less than you invested.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Where the currency of the country where you are resident is different to the currency of the product, **please be aware of currency risk**. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Further information on risks is detailed in the prospectus available at www.abrdn.com or on request from the management company.

This product does not include any protection from future market performance or any capital guarantee against credit risk, so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		3 years	
Example Investment:		\$10,000	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	\$5,950	\$6,060
	Average return each year	-40.50%	-15.40%
Unfavourable	What you might get back after costs	\$8,320	\$8,490
	Average return each year	-16.80%	-5.30%
Moderate	What you might get back after costs	\$9,730	\$9,770

Favourable	What you might get back after costs	\$12,050	\$12,630
	Average return each year	20.50%	8.10%

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment in the benchmark between July 2020 and June 2023. The moderate scenario occurred for an investment in the benchmark between December 2017 and November 2020. The favourable scenario occurred for an investment in the benchmark between March 2014 and February 2017.

What happens if the Company is unable to pay out?

There is no financial compensation scheme for retail investors in SICAVs domiciled in Luxembourg. In the absence of a compensation scheme applicable to investments in the Fund, investors may face a financial loss of up to their entire investment amount.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10,000 USD is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	\$604	\$745
Annual cost impact (*)	0.1%	0.0%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1,7% before costs and -0,8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs
